Youth Confers

Of concrete results there is little to show as yet for the Ontario Youth Conference which was held at the Ontario College of Education over the past week-end. In this way it is typical of all conferences. Talk is cheap and the process of concentrating the most valuable part of it is a long one. to sit back and view the week-end's deliberations at O.C.E. with Menckenesque scorn of the futility of such things and dismiss it all as hot air. This is not true. Only about 95 per cent of the discussion was hot air. It is usually thus and the Canadian Youth Commission is devoting two years to isolating and refining the precious five per cent of wisdom and constructive thinking.

For, to view it in true perspective, this contrail toward the Commission's goal of a comprehensive report on youth problems in the post-war world. If some of the discussion in Sunday's final meeting of the conference seemed to be bulldozed into silence by the chair it need not be surprising. modern emergency methods of trailblazing the bulldozers go to work first to clear a trail for more constructive workers.

From the numerical point of view the Conference was an outstanding success. Enrolment of delegates reached well up to the outside estimate of 500 made by the Commission while the number of spectators increased the number of those attending substantially. The aim of the Commission to make the Conference broadly representative of the Youth of the province was also fulfilled with delegates attending from many and diverse youth organizations including the C.C.F. and Progressive-Conservative youth organizations, the Y.M.C.A. and the Y.W.C.A., schools and universities, church groups, the Labor Youth Federation, the Canadian Youth Hostels Association, the Ontario Farm Service, trade unions, the armed services, and the Boy Scouts Association. In addition there were 23 delegates unclassified.

In general the conference was probably less successful in the actual panel discussions. In some groups there was a notable tendency to spend valuable time on deciding exactly what problems of which group represented on the panel were to be discussed. The usual result would be for the most numerous group to color the panel's reports by seizing the initiative in discussion and putting undue emphasis on its particular problem. Another complaint often voiced is that same discussions seemed to go in circles and much valuable time was lost in pointless indirection.

The sometimes cavalier attitude of the chair already referred to, irritated many of the delegates who bemoan the loss of discussion on such vital questions as the Japanese minority problem and that of immigration following the war. Actually, delegates may be grateful for a strong, if almost dictatorial, chairman, for the conference ended almost at the time planned. Those who have seen plenary sessions degenerate into a long-drawn mass wrangle will speak in justification of stern, paternalistic direction from the chair.

Of Things to Come

intriguing discussions set aside at the final session have been recorded and will come up again. The process will be carried on from here in local and group councils which the Commission has encouraged and material for which was distributed among the delegates. After a winter of group discussions there will be a spring conference at which it will be possible to get down to more concrete results. this is only a small part of the process which will be continued for another year after that. Conferences are being held in each of the provinces, and it will be necessary to bring together all the views and ideas of all of them and let them simmer for some time before the final report can be drawn up and presented where it will do the most good.

A Canadian University Press Feature

By Neil MacDonald

RECONSTRUCTION

While it is one of the idlest forms of speculation ow current in the capital, it is almost impossible to keep from having an opinion as to when the end of this war will be. So many events and pronouncements lead one's thinking back to that topic alone.

During the past week or so, for instance, there has been a flurry of pronouncements from both Canada and the United States, dealing with a return, to some degree at least, of manufacturing for civilian rather than military purposes. The tide, as yet, is points, always a jump ahead of the Canada and the United States, dealing with a return, neutiably light, but one may be certain that criminal mind. A authority would not have permitted the slightest authority from the prilitery express of ending this. deviation from the military purpose of ending this war, if the requirements of the armed forces were not diminishing

In the United States, the limited manufacture of In the United States, the limited manufacture of consumer electrical goods is being authorized. Even some aluminum utensils (from second quality masseme aluminum utensils) (from second quality massement and clear his brain. From behind a tree came a lurking laugh rial) are to be made. The manufacture of a —from the throat of Smiffy, creature mited number of automobiles may come about. "Q," applauding the success of the Canada, of course, is not in as favorable a position scheme.... McGeeth was theirs! terial) are to be made. limited number of automobiles may come about.

as is the United States to commence the manufacture of many consumer items. It has been indicated that ference was merely the breaking of the first rough first priority on our steel supplies for civilian use will go to the manufacturing of baby carriages (an by the way, which may or may not denote an impending election!).

It would seem less necessary in Canada than the United States to begin the manufacture of private automobiles, because we had still a large pool of cars reserved for essential users at the time production was suspended.

has already announced that plans are almost ready plain thumb-mark on the saucer the for release in connection with the problem of postwar reconstruction and rehabilitation. It is a large to the moment have been supported by the problem of the problem of the was his turn to utter a long, low war reconstruction and rehabilitation. for release in connection with the problem of post-war reconstruction and rehabilitation; last week the Parliamentary committee on reconstruction assembled for its first meeting.

As yet, discussion has centred around specific projects in the various electoral districts represented, but the one broad suggestion came out of its first meeting that government owned plants should be converted to peacetime activity. Criticism of the a flash currency stabilization plans presently being discussed by the Allied governments was voiced because they would definitely halt the expansion of a country, exultant life.

meaning Canada.

Of course, the present committee is — without malice — probably to be considered as window dressing for a group of economic advisers who are developing a planned economy to make the transition in the present that the present that the present that the present the property of the present that the present the property of the present that the present the property of the present that the present the present the present that the present the present the present the present that the present the present the present the present that the present the present the present the present that the present the present the present that the present the present the present the present that the present the prese to the peace. It is they from whom the real direction will come, assuming that the Liberals remain in night!

Right now, the policy of Canada, very little publicized, would seem to be to set up pilot groups for various civilian industries in preparation for the peace which may come, according to Lord Halifax, more speedily that any of us expect. Even more important than the immediate relief to the community of the manufacture of a limited number of wartime baby carriages is the fact that the man and the factories working on them are designing a peacetime economy in the midst of war.

It is not generally realized that the soldier miners who were released to help raise the production of Canadian coal are being used as a laboratory experiment in the difficult problem of rebuilding a peace-

And it should never be lost sight of that this con- are not medical misfits, but good soldier material who ference is really only the hegimning of a process to find out what youth is thinking. Many of the further needed. And the number is large.

"We Make You Think"

We return to the moment when Dr. Aloysius P. Q. R. McGeech, Terrar of the Underworld, dived out of the Whitney Hall window at the cammence-ment of the wild chase that was to lead him through devilish webs of plat and counter-plat to the Lair of "Q"

CHAPTER THREE

Dr. McGeech crouched over his motorcycle beneath the 2,000 watt bulb of the Whitney Hall night entrance. His fingers probed the sensitive mechanm. It was as he had feared. The hroggle-pin was jammed! He felt wildly in his vest-pocket for

School Takes Mulock Cup With 8-2 Win Over U.C.

tribbled over the School goal. Ross Clare, who recovered, was promptly tackled for a safety touch score, netting tackled for a safety touch score, netting the ball on their quarter stripe, School worked up to centre but was held to no gains. Both teams held each other within the ten yard limit and were forced to make third-down kicks. A 60 yard punt by Clare was run to the 5, where U.C. failed to make yards and Givens kicked. Clare kicked again and Givens kicked. Clare kicked again and Don Smith, catching the ball behind his line, ran to the three yard line Givens kicked to the 40 but on the first School play Clare booted the ball behind the line. Doug Clayton, who recived, was then tackled by White for a rouge score.

a rouge score.

From their quarter, U.C. made slight gains on an end run by Givens, but a pass intercepted by George Evans gave School the ball. Clare kicked again and the ball rolled over the U.C. line. Horwitz retrieved it and lateraled to Clayton who was dropped by White for a rouge which evened the score.

Second Quarter

With a series of heavy plunges by Clare and White, the Engineers began a drive which took them to the U.C. 35. A punt by Vern Booth again landed behind the goal and was picked up by Givens. Here he was trapped by Ken Craibbe for a third rouge point. Static midfield play with few gains featured the rest of the quarter.

Third Quarter

The scored half.

A Graham to Roast. Coored movies will be held.

Third Quarter
Third Quarter
The second half opened with the U.C. seguad showing up to advantage. The School kickoff was eaught by Don Smith who ran to his 17. From here Ross Sturgess broke through on an end run for a 23 yard dash. Held to no gains. Clare kicked to U.C. kicked and Booth ran to the 35. Booth then kicked behind the line but Smith dashed out to the three.

Final Quarter
A third-down kick by Givens then rolled out on the S.P.S. 30 yard line. A Graham to Booth end run combo made yards but the Schoolmen were study to made yard with an onside kick which the Engineers ran to the 35. Brooth then kicked behind the line but Smith dashed out to the three.

Final Quarter
A third-down kick by Givens then

PART I By Phil Shackleton

HOW LONG IS A QUARTER ANYWAY?

The time-keeping department went berserk during Friday's Cupgame and divided the contest into four of the most uneven quarters ever to be witnessed in these usually well-governed parts. The game was meant to have four quarters, each of 15 minutes' duration. Well, they did have four quarters. (How this happened we have yet to discover.) but evidently all chronological directions were thrown out the window.

was meant to have four quarters, each of 15 minutes' duration. Well, they did have four quarters. (How this happened we have yet to discover.) but evidently all chronological directions were thrown out the window.

The first quarter lasted 40 minutes, the second seven, the third 10 and the fourth 20. If standard arithmetical calculations can be counted on the game went for 77 minutes. Which is just about 17 minutes longer than regulation time.

Reason for all this confusion is said to be a misunderstanding on the timekeeper's part. Seems he was taking time out for huddles and anxious peanut vendor, who began to wonder what was happening to his quarter time break, during which he was accustomed to complete much dealing in peanuts and other items of light refreshment, made investigations and discovered the timekeeper's error. Straightway the officials conferred in order to see what should be done about the longituding the second quarter be of seven minutes duration.

The third quarter be of seven minutes of the wind which they bucked for 40 minutes in the first quarter, for 20 minutes. With these figures at hand, any engineer can calculate just how long each team played against that much too healthy breeze on Friday. Senior School players faced it during the second and fourth quarters for a total of 27 minutes and University College players stood against that much too healthy breeze on Friday. Senior School players faced it during the second and fourth quarters for a total of 27 minutes and University College players stood against the wind. U.C. played for nearly twice the time that School did in the trite teeth of the gale.

The odd thing about the scoring was, however, that Senior School made their tie-breaking point and their game-cinching touch both against the wind. U.C. made two points against the wind early in the first quarter. Ross Clare, School's booter extra

PART II By Mickey Michasiw

SCREWBALL FOOTBALL . .

While Saturday's Dominion final was not run off in quite the same manner as our Mulock Cup finals, there were numerous unique incidents which could be classed in the same bracket. For players in a Canadian championship game, the boners pulled were practically incompable.

we hardly got any kick out of it at all!

One of the Phys. Ed. gals sprained her ankle but all in all the game was comparatively calm. The other games scheduled were not played owing to the illness of most of the participants. The finals are set for Dec. 10 and 13 and will be played in Hart House—all of which bespeaks good watching. In Group Four Meds and Physios are contending for first place. They will play two games with the collectors of the most points carrying the honors. P.H.E. seniors and P.H.E. freshies will likewise play two games to end the quarter finals. This ought to be a real old battle as both teams are much on the beam. The semi-finals will be held at the O.C.E. gym on Friday, Dec. 3, and Monday, Dec. 6. REMEMBERII

You fencing babes ought to bring yourselves to heel and slip off your names to Peggy Graeb at Cody House as there will be a limited number of fencers allowed. The freshies may take it all for free but the other damsels will have to pay the price of seniorial dignity and fork over \$1.50. The sport is scheduled to begin the first Friday after the holiday season. . . Maybe you'd better limber up with Arthur Murray!

And while we're on the subject of limbering up—you can do just that any day at the Midtown bowling alley. Polly Mutz of St. Mike's tells us that she has some crack teams lined up for a post-Christmas session. Your buck can be paid to Monie Daly at Cody House or Judy Henderson at Hutton House. Said amount of dough entitles you to 20 flings at the pins. 'S good exercise.

Miss A. E. M. Parkes, Commandant
University of Toronto Detachment Canadian Red Cross Corps 29-11-43.

(45) N.C.O. TRAINING

Old members assigned to Group A for Old members assigned to Group A for training on Monday afternoons will re-port to Miss Forster at the Household Science gymnasium on Monday, Nov. 29, at 4:45 p.m. All other old members will report with Group B to Miss Forster at the O.C.E. gymnasium on Tuesday, Nov. 30 vectority at 4 pm.

promptly at 4 p.m. (46) DRILL

Recruits and members of Toronto Transport will report for drill at the O.C.E. gymnasium on Tuesday, Nov. 30,

at 4:45 p.m. (47) TELEPHONE DUTY

Members who have undertaken telephone duty at the Red Cross Blood Donor Clinic will arrange regular assignments with Mrs. Gordon, M. 6692. Each member will see that a proper record of her hours is reported to the Commandant.

SPECIAL LECTURE

All recruits in DECTORS.

All recruits enrolled for the course in Civilian Defence will report for a special lecture on Thurs., Dec. 2, promptly at 4:25 p.m., in Room 25, Engineering Bldg. Lecturer: Dr. S. K. Jaffary, Director of the School of Social Work.

(49) BADGE CEREMONY AND

INSPECTION

This retemony of presentation of Cap Badges and general inspection of the Detachment will take place in Hart House gymnasium on Thursday evening, Dec. 9. All members will reserve this

TUESDAY, NOV. 30
5:00 p.m.—The Christian Science Organization at the University of Toronto cordially invites all students and members of the University and their friends to a free lecture on Christian Science at University of Toronto Schools Auditorium, Bloor and Huron

hither and von

Commencing the week of Nov. 29, 1943, a revised schedule of Training will be effective, whereby U.A.T.C. training, as far as possible will be confined to three one-hour periods during the week and one three-hour period on Saturdays.

To arrange this, it will be necessary to have classes at 3:30 p.m. on certain days for those students who will be free from University Course Lectures at that hour.

The Revised flights for these 3:30 p.m. lectures are listed on the Squadron Notice Board, in Hart House. From this date this will be the permanent flight arrangement.

party whose political doctrine can at-tract these new forces; therefore it should be the next government of taboo in our society."

Dominion when they will gain no profit for themselves. The C.C.F. cannot be regarded as a panacea for all evils. We are now hearing plans for social security from the older political parties and why should we forfeit our self-determination o the C.C.F.

Robusto

Hart House Cancert

Eric Tredwell, Toronto baritone, was the artist at the Sunday Evening Concert in the Great Hall last night, and he had his audience with him from first to last. His intonation of the Handel aria Hear me, ye winds and waves was done in noble declamatory style. Frances Marr's accompaniment was superbly dignified

Of the Tchaikovisky group, most poignant in feeling was A Legend, but Mr. Tredwell's diction and spirited attack made magnificent moment of Toltack made magnificent moment of Tolstoy's Piliprin's Song. Not since Chaliapin shook the rafters two decades ago, has there been such resounding version of the Song of the Volga Boatmen as we heard last night. There is a breadth and freshnesh about the head tones that remind one of Tibbet and Thomas in their prime.

The panel of fall.

and Thomas in their prime.

The panel of folk songs included the robust old Cavalier song, Twomkydillo, in the majobles arrangement by Arbii, in the majobles arrangement by Arbii. in the matchless arrangement by Archi-bald Jacobs; the two shanties, Tom's Gane to Hilo, and Blow the Man Down (arranged by Gerrard Williams) were enjoyed as much by singer as by audience. Such was the enthusiam, in-deed, that Mr. Treadwell complied with Morand's laughable transcription of Contcher do the Polka? and an inimitable bit of ribaldry tagged The Plank.

A piquant interlude was Miss Marr's reading of Mozart's Sonata in D Major, which she performed with delieacy of touch and utter refinement of tempo. But laurels are due her chiefly as aceompanist. Any singer would be for tunate to have one so completely en rapport, as was Miss Marr last night. Brock Brace.

(Continued from page 1)

"Santa Claus is the greatest threat to Joan Greenfield, second speaker for the negative, said that while the C.C.F. tends to do away with the "sordid profit motive, men are not likely to put forth effect because of him, and what he effect because of him, and what he their best efforts for the good of the symbolizes. The worst thing about teaching magic and myth-such as fairy stories-is that it cripples the imagina tion and makes it hard for a person to adjust to reality."

"So I suggest," the speaker concluded, "that perhaps nobody knows the answer ART, MUSIC & DRAMA think and discuss them yourselves—in relation to reality, not to Santa Claus."

The opening session of the conference included also a short speech by R. E. G. Davis, the executive director of the Canadian Youth Commission, and also director of the Canadian Institute of Public Affairs, and of the Adult Education Committee

The work of the Commission wa described by this speaker. "The organization," he stated, "is not connected with the government, but is an independent project, which has been formed for the purpose of aiding the post-war youth of Canada." Its three-fold program con-

will induce people, young and old, to work for youth."

BISHOP TSU--

the British countries today are devoting their lives to and living strenuously for a great purpose. A young Chinese girl who was in despair at the prospect of having both hands amputated was cheered by a young fellow-countryman who told her, "You may lose your hands, but we still have ours and we will carry on." She lost only one hand, and said afterwards. "I cannot help much now, but I am helping as much as I These two young people typify the spirit of Chinese youth today.

A young American pilot in China, when forced down into a lake mortally wounded, swam ashore to deliver important papers to villagers with instructions to take them to headquarters. Literally holding his last breath he did his last duty as a soldier. On all sides young people are dying for what they consider a great cause, and not merely for their own country, but for the world.

for their own country, but for the world. Bishop Tau concluded by emphasizing once more the fact that there is no time now to loaf or to take our ease.

At a Fireside after the Service, Bishop Tau led a discussion on the subject of the need for doctors and teachers in China today and in the postwar period. Although the government of Free China has made tremedous strides in the past few years to fill these needs, help from outside countries is still urgent.

Friday, December 3rd

THE UNIVERSITY OF TORONTO, TUESDAY, NOVEMBER 30, 1943

The motion "Resolved that France be permitted to send delegates to the Peace Conference" was defeated by a vote of the house at a debate held at Newman Club Sunday night. The speakers for the affirmative were Mr. Al O'Marra, Osgoode Hall and Miss Bunny Joyce, Loretto College; Mr. Frank Nasso, Osgoode Hall, and Miss Ozzie Kemp upheld the opposition.

The affirmative maintained that France as a nation, suffering from German belligerence and as a former allyman beligerence and as a former ally-who still endeavored to defeat the Nazis both by an active underground movement and a fighting colonial em-pire—should be allowed an active part in post-war settlement.

The negative, on the other hand, stressed the instability of France, her indifference to the principles of democracy, and her "disgraceful and bloody defeat."

NEWSFRONTS

Washington-Rumors to the effect that a peace move with Germany was im-pending were denied by Secretary of State Cordell Hull. He attributed them to Nazi attempts to weaken the Allied

Explosion Coming Up

University spirit, the flamboyant, calliope-loud species so reminiscent of pre-war college days, has been pretty much shelved in these parts for the duration but still retains its right to a once-yearly explosion and the time for such is now at hand. The Students' Administrative Council will touch it off one week from tomorrow when the annual War Services Drive with its attendant rallies, floats and typical co-eds, hopes to provide an outlet for student energy and at the same time amass a sizeable student energy and at the same ti contribution from the University for the benefit of their existence in wartime. two war charities, the Red Cross and the Salvation Army. This drive has its precedecessors in the War Services Day held last year and the most-successful March of Dimes conducted the year before, both of which amply illustrated the wisdom of combining an appeal to the student pocketbook with an appeal to student spirit.

Every faculty on the campus, however small, is expected to take part in this drive. It is to be an all-University endeavor and as such must have the backing of every student. As is always the case in Toronto, the University spirit will rise out of faculty competition for the benefit of a common eause. Every student will wear a blue T and contribute his coin to the central fund but each faculty

be no lack of imagination on the campus to give it color. With each entry wisely limited to a minimum expenditure, the emphasis will rest on native talent and individuality of which Varsity has its share if we may judge from Follies, School Nights, Dent-antics, et al. Here is a chance for each faculty to parade its wares, in whatever medium they may be expressed. The parade will be judged, and rather on originality of device than extravagance of out-

Repeat Performance

girl. Occupational Therapy carried away the honors despite close competition from ubiquitous School, whose entrant brounght down the house and necessitated the spur-of-the-moment presentation of a second prize. This year the contesting co-eds may be asked to participate in the parade. In any case, they will add great interest to the proceedings and every section of the campus which can possibly muster a eandidate should do so.

The fraud-ducless, Questioned last night in his favorite remarkably professional comics in contrast to the proceedings and every section of the campus which can possibly muster a eandidate should do so.

The sets were colorful and well planned, the chocuts sange in key and the organ nations are pledged to mutual direct contribution to our mighty cause. The way nantane are pledged to mutual added darkly. the various war services. It is our desire to make conditions a little easier for those men and women who have left our fold to fight the war on another front. They have given much and whatever we have to spare should rightly go to them. In contributing money to the Red Cross and the Salvation Army we will be giving to them. The proceeds of the drive become a gift from the students of the University to their friends on every field and the giving of it becomes a pleasure.

Correspondence MILITARY TRAINING

The Editor, The Varsity.

Dear Sir:

Military training on the eampus presents a parody in that students whose expenses are borne by the government are not required to undergo military training during the term since this would interfere with their studies. The remaining students, no matter how important their studies may be to the war effort, are compelled to drill. This training is war effort, are compelled to drill. This training is astounding climax yesterday with the often referred to as "our return for the privilege bearded shyster's confession of his far-

granted concessions not given the other citizens of granted concessions not given the other citizens of "A Nazi and proud of it," rumbled this country. If this be true, the unfairness of the situation is obvious. The government of Canada a neatly stencilled swastika on the undersituation is obvious. The government of Canada should take immediate steps to stop this injustice side. and the Universities should be declared open only and the Universities should be declared open only the those whose studies are essential to the nation. Those permitted to continue their studies under these conditions should be put in uniform and placed at from the top of my sleigh. Furthermore

MENACE TO CIVILIZATION

Etaoin's Toyland, Nov. 30-(Special to The Varsity by Steam-driven Rocket)

-The astounding expose of Santa Claus
and all he stands for, hinted obliquely in yesterday's news columns, reached an of attending University."

It has been alleged (The Varsity, Nov. 15, 1943)

It has been alleged (The Varsity, Nov. 15, 1943)

whereof he is avowedly the guiding spirit.

"A perfect set-up," he went on. "The

till 20 minutes."

Warming to his subject, Herr Claus pointed out that the questions most frequently asked at his department-store stand furnish Aryan psychologists with valuable insight into the workings of

"Only the other day some kid came up to me and wanted a woolly rhin-ceros. Think what light that throws on the vast undercover democratic plot to salvage such baubles and so get warm wool for the Russian front!"

Revealing that he had penetrated the home of the Munitions Minister by way of the chimney only last Christmas, the sinister No. 13 Nazi pointed out that store it in my sack to alleviate the shortages in the Fatherland."
"Steam-driven rocket," was Santa's

prompt reply when asked how he man-aged to cover so much territory on Christmas eve. When reminded that a Varsity reporter had recently discovered that Steam-driven Rocket is Still, Santa made a disgusting noise with his beard.
"Ach! Dot bungler Wresky! Couldn't
he keep it to himself, yet, no?"

Explaining that his North Pole sum-

mer hide-out afforded the golden oppor-tunity to intercept planes bound for Russia, Santa threw new light on the fate of the Russian polar aviators who disappeared without a trace several years

"They are working in my toy factory," he explained, "under the lash, turning out secret weapons for the Fatherland," of gas for Hitler's speeches were in storage under the Arctic ice. "But we don't really make toys up

Tid-bits from the College Papers

McGill's new Chancellor was once asked what advice he would offer to a young man about to start out in an attempt to make his way in the world. "Choose the right carer," he said, "stick to it, and work today with tomorrow in mind. One must be ready to take hold of opportunity when it is presented," can hardly be said that Morris Wilson is not a complete example for his precepts.

McGill Daily

Undergraduates with a yen for seeing their names in print over a literary or artistic masterpiece of their own conceiving can start sharpening pencils and oiling typewriters. The Varsity Green Issue is open for contributions. The only All-University publication devoted to student literature and art, this Christmas number affords every undergraduate the chance to perade his wares and incidentally, if he is good enough, receive some slight gratuity for it too.

FRATERNITIES

This year Torontonensis is anxious to try something new in makeup and as part of this program we suggest to you the possibilities of informal pictures rather than the traditional picture of Fraternity members.

By informal pictures we mean a shot of one of your meetings or parties, or perhaps an informal group of the members and an action shot as well. Both these would of coure be smaller pictures than the type that have been used in former years but we feel that the result would be a more interesting year book as well as a saving in money for you.

Perhaps you have a photographer in your midst who would like to do the job and if not Hugh Kenner, the Torontonensis staff photographer, who can be contacted at 73 St. George, will be glad to oblige for a reasonable fee which you will find considerably less than that of a professional photographer.

P.S.—Take a look at the set up of The Arts and Letters Club, page 257 in last year's Torontonensis, if you want to see what we mean.

FELT CRESTS

Officiel University felt crests ere sold only et the S.A.C. office, Hert House.

And that is just what we did. We published a neat little note.

There comes a time in the year after rugby has been put to be define the comes a time in the year after rugby has been put to be define the comes a time in the year after rugby has been put to be define the comes a time in the year after rugby has been put to be define the year after rugby has been put to be a ye

And that is just what we did. We published a neat little note in the Undergraduate Newspaper, imploring all able-bodied managers and coaches to give us the benefit of their vast stores of rugby knowland coaches to give us the bencht of their vast stores of rugby knowledge by picking two all-star intramural teams, a first and a second squad. Naturally, there were only a few of these wise people who noticed the pleading story, and as a result, we have at hand the teams as picked by five good rugby managers. And so, to balance the situation, we went so far as to give the right to vote on this issue to two sports staffers. Franchise for fictionists, as it were.

Thus, we present to you, for your pleasure or otherwise, the first and second Intramural All-Star Ruby Team as picked by The Varsity by five team managers and two sportsmen.

by five team managers and two sportsmen.

idea, an outline of current Oriental and Near Eastern events, given by Secretary-Treasurer Tom Harris.
"We don't want to rely entirely on what happened in Egypt 3,000 years ago," says President Klaus Goldschlag, who will present tomorrow's paper. Klaus will follow Turkish policy from the last war to the present, and indicate its exhebile future treats.

Hitherto Almost Undefeated Teams Tangle in Final Contest for Dafoe Cup; Toogood Is Standout for Meds

RYAN SCORES FOR DENTS

The final game of the lacrosse season and the Dafoe Cup went to Meds first team yesterday afternoon when they trimmed Dents by an 8-2 score. Played in the Hart House gym, the game was a real thriller of a boxla battle. Meds, defeated only once during the season, and Dents, undefeated, put on the ex-cellent show which pre-contest indica-

cellent show which pre-contest indica-tions had promised.

Toogood was definitely the star of the game as far as the victorious Meds team was concerned. Ryan scored both of the Dental goals. Nikaido, although not prominent in the scoring, deserves mention, as does goalie Blanchet, who stood off all but two of the Dentists'

The game opened with a fast passing attack by both sides and it was more than half way through the first quarter before scoring started. Toogood of before scoring started. Toogood of Meds, took a long pass from Spooner-and stickhandled his way past the Dents defence to score on Lind. Ryan fol-lowed with a tally for Dents on his second shot on Blanchet in the Meds goal. Toogood then made a solo rush goal. Toogood then made a solo rush and beat the Dents goalie with a shot

and beat the Dents goalie with a shot to the left corner.

Nikaido, Meds first string forward, threatened all though the quarter but just couldn't shake his guards. The second quarter featured Dents' smoothworking forward duo of Currie and Ryan, who thrilled the spectators time and time again with their passing attacks. Spooner scored Meds' third tally and Towgood followed closely with any of Towgood followed closely with any and Toogood followed closely with an-other to complete scoring for the first

because of the efforts of Hambly on Dents' defence. However, Fielding and Toogood broke away, each to score a

Toogood broke away, single.

A breakaway by Ryan to give Dents their second score, opened the fourth quarter. Up to this point the game had been very clean, but when play hit a fast and forious tempo tempers flared and sticks flew. Meds cleaned up the scoring with three goals in quick succession just before the quarter ended.

Meds I — Nikaido, Spooner, Rae, Meds I — Nikaido, Spooner, Rae, Tield-

The Sportswoman

(Ed. Note—Today's Columnist is Mary McIntosh—a first year U.C. stude. She is plunging in right at the beginning to carry on The Sportswriting tradition of her family. Her brother, Dave, was Men's Sports Editor in vrov-ob.)

By Mary McIntosh

"Come on Mac, write me a Sportswoman tonight, just for tradition's sake. I am a tired, sick, old woman." The pathetic tone which accompanied this plea made me wring my hands (for I was doing my laundry) in amazement. Yes, I wanted to keep up or build up, whatever the case may be, the 1941-42 Sports Ed, but in a more discreet manner than this. But without going into details here I am and if you find this too unsportswoman-like please read on for tradition's sake, even though you don't know what the tradition is.

BYE BYE BASKETBALL .

BYE 'BYE BASKETBALL...

We haven't even begun our Christmas shopping yet and the basketball season is almost over. To some of us this is a very undesirable situation, the reason being that the teams do not get a chance to practise amongst themselves before the league starts. Add to that two or three outside games a week during the play-offs and what do you have? That's right men, faded-out females with not even a minute to practise a free shot. Perhaps next year when some of the radical freshies learn the score they will revolutionize the system and have the play-offs after Christmas.

But to get back to last night's games. U.C. Freshies almost didn't beat Vie Juniors 20-18. It was a clean, hard-fought game with good referecing. Vie was well ahead until half-time, but U.C. rallied with Helen Taylor and her western tactics, Lois Wahn and Ruth Welstead on defence. Eleanor Maher sunk several baskets for the Red and White and in the last two minutes two baskets were scored to bring U.C. over the top. Mary Coleman and Leone Euson were highs soorers for Vie and the strong defence was notably supported by Rowens Smith and Janet Hardie.

Meds pickled Physio with a score of 21-20. Meds improved considerably in the last period in spite of the fact their best guards were absent. The well-matched teams played a clean and fast game. Ruth and the fine defensive game. Betty Danard deserves the credit for the majority of Physio's points.

TRACK!

At a meeting of the University Ski Club yesterday afternoon Bill Kingsmill, president of the club, conducted a discussion for all enthusiastic skiers and gave advice as to the equipment needed. Peggy Pugsley, women's president, told the gals of the plans underway for a ski meet at Rosedale some Saturday afternoon soon after Christmas. a ski meet at Rosedale some Saturday attention soon and Childham. This will be to encourage lassies to turn out for instruction in

Inis will be to encourage lassies to turn out for instruction in elementary slalom.

There was a large turn-out at the meeting and it is hoped that even more will be interested when skiing starts. Here is your chance, gals, to learn all about it and be able to go to the beautiful Laurentians this winter and give the Montreal maidens a little competition—and I'm not a propagandist either!

Varsity's Lacrosse Wizard Is All-Round Athlete

By Betty-June McKenzie

Five foot three of dynamite, weight approximately 140 lbs, young Japanese-Canadian student told The Varsity Canadian student told The Varsity yesterday that he had been playing la-crosse since he was twelve. He is now known as the University's top ranking box lacrosse player. Harry Nikaido is his name, and he has one of the most outstanding athletic records in the Uni-

Harry, shy and extremely modest, is a student in third year Meds. When we approached him he was studying for his finals which are in the offing. Despite this he was willing to take time off

"Maybe you'd like me to give you the line-up for an all-star lacrosse team," he suggested.

This lad from Vancouver should know good lacrosse players for he is well-known to the lacrosse fans as the "only man who can score a goal with five Schoolmen on his neck." "I saw him do it," said his pal, Mouse Fielding.

Harry got his B.A. (pre-med) at the University of British Columbia, where he manifested his athletic ability.

he manifested his athletic ability.
"I really spent all my time in sports," he chuckled, "Back in B.C. there are lots more sports than down here." He spun a list of some of theni, all of which, by the way, he has participated which, by the way, he has participated in all its fields.

"There's basketball which is the most important sport." Harry was on the B.C. Junior Championship team and also on the Senior B basketball team. "Then there is lacrosse." Out west basketball is equivalent to rugby and lacrosse to hockey here. "They have cricket, soccer—oh, practically every sport there is.
It really gives the kids a better chance. I think Toronto is rather narrow-minded about sports. Rugby and hockey are the only major sports as far as I can

"They play a great deal of English on the coast," he continued. "There's English Rugby until Christmas and foot-ball afterwards." Harry played on the Varsity English Rugby team in the 1042.3 reconstruction.

1942-3 season.

He participates in practically all University sports. Besides excelling in lacrosse, he plays a brilliant game of basketball, his favorite sport, and a good

game of water-pole, volleyball, or soccer.
His suggestions for the all-star lacrosse were Deddrick and Price of crosse were Deddrick and Frice of Vic, probably as forward and rover respectively; Jack Toogood of Senior Meds at centre; De Ryan as forward, and Turner from School on defense. He mentioned that Ryan was on the mentioned that Ryan was on the Dominion Basketball Championship tcam while at U.B.C.

Bracken Speaks At Manitoba

Winnipeg — (CUP) — "A Canadian Philosophy for Canadian Youth" was the subject of a recent address given to the students of the University of Manitoba by John Bracken, national leader of the Progressive Conservative

Party.
"I envy you two things," said Mr.
Bracken to his audience. "First, I
envy you your youth and second, I envy
you in that you have the opportunities
at hand, more than any other generation
has had, to effect lasting progress in
Canada."

Mr. Bracken continued, "In the post-war world human welfare must trans-cend all other considerations in the cend all other considerations in the building of a new order, and no national party can hope to command public sup-port on any other platform. Apart from the placing of human welfare above everything else, new conceptions of na-tional policy is one which will meet the needs of today, correct omissions of yesterday, and realize the possibilities of

Trinity Review

subject of the case for liberal education. The editorial shows signs of having been written a year or even two ago since it labels the subject as one "much agitated at the moment." Nor is any comment added to the stock of threadbare ideas on the subject, to whose shoddiness, it must be admitted, this paper has been an arch contributor.

Next week-"The pen is mightier than

"That All Men May Live," by Gloria Carpenter is a worth-while bit of prose on the subject of toleration. It is true that from the early suggestion of tolera-tion as a basic cure for the ills of the world to the final advocacy of it there is little development of the fundamental idea, but there is a good deal of penetrating examination of the the various prob-

ing examination or the the various prop-lems in many applications of toleration to various spheres.

The poetry or, more conservatively, the verse section of the Review is by far the most encouraging. The con-tributors are comparatively numerous and more strong-minded than most of the heart's blood which generally spatters college magazines under the guise of poetry. "Fragment of Heart— Found in July" by Graham Cotter comes the closest to the traditional, but it is redeemed by the observed of the College. it is redeemed by the charm of its Old Testament imagery. "Love Between Lectures" by Yolande Powell is a neat bit of light verse that brings the old romantis notions into revealing juxta-position with the harsh realities of the campus:

"East of the Sun and West of the Moon, Lulled by the hum of the Bloor

car tune."

"Madonna and Child of the Air Raid
Shelter" by R. V. McCormack is a
sincerely inspired vision of tomorrow
somewhat cursed by over-obvious
sibilants and alliterations.

There remain two verse contributions that are worthy of eomment, which is unfortunate, since it brings the reviewer to the necessity of admitting he doesn't quite understand them. The first is "Dedication" by A. G. MacKay which won the five dollar prize for being the best eontribution to the issue. For once we refrain from argument. It sounds very well and the ideas which we did catch front it seem to be part of the stuff of poetry. The others is "Arid Answer" by O. R. Orr which we seem to understand a little better and enjoy for what we see in it, but we won't be committed to saying what that is. A little more punctuation might help. Well, there it is. We have said some nice things of the Review in the past. to the necessity of admitting he doesn't

We'll, there it is. We have said some nice things of the Review in the past. We firmly believe we shall have the eause to say them again but this is the best we can do for "this slim volume.."

REX WILSON.

regretted that more students do not take
regretted that more students do not take
advantage of such a wonderful opportumity to hear the world's great organ
compositions played so well by Dr.
Willan.

Those who did attend (all too few)
heard an all-Bach program which was
fairly representative of his works. The
compositions were chosen with taste and
contrasting variety. The full, rich tones
of the organ were heard first in the
Chorole—We all believe in God and the
frague in D Minor (The Giant). Next
was the chromatic Chorole—Prelude with
its simple and subdued theme and the
Magnificot (Fugoto) which is a full
and free contrapuntal treatment of the
above theme. The third, Prelude and
Fugue in A Mojor, forms a delightful
contrast to the bombastic preludes and
fugues of the period. This is an example of delicate beauty with a singing
melody rippling through it. It reveals
a side of Bach's character not frequently
considered. The next, Come Sweet
Dooth, is a work of rare beauty. Its

THE UNIVERSITY OF TORONTO, WEDNESDAY, DECEMBER 1, 1943

Use Of Powder Metallurgy Oratory Contest Vic Parl. Debates Necessity Of Education Outlined By O. M. Ellis For Engineering Society

Actual Process Discussed in Detail with Special Reference to the Economic Possibilities in Scientific World

NOT YET PERFECTED

Powder metallurgy is not to be regarded as a panacea, bound eventually to replace other methods, Mr. O. M. Ellis, of the Ontario Research Foundation, said at a meeting of the American Society of Mechanical Engineers, student branch last pinch. On one occasion. dent branch, last night. On one occasion,

that this process was the result of recent invention. Actually gold Babylonian denced the Gallic delicacy of line as coins have been found which were made by heating compacts made from prowdered metal. This represents the method now employed. A combination of properly-screened powders (up to 400 mesh) is forced together under pressure up to 100 tons per square inch to bring individual particles into close contact, after which the compact so formed is heated or "cintered" to run the particles together.

After pressure and before cintering, a poster competition in the United States the metal would appear under the microscope to contain numerous voids the highest award, and that great interamong the particles, but after the latter process the metal appears the same as developed in this country. Summarizing process the metal appears the same as that produced by other methods, with hardness, strength and ductility just as great. (Some sheets produced in this way will bend through 180 degrees.)

Some compacts can even be machined and then heat-treated for hardness. Any metal may be used in this way, Mr. art,"

developed in this country. Summarizing the requirements for the average poster was a great. (Some sheets produced in this way will bend through 180 degrees.)

Some compacts can even be machined and then heat-treated for hardness. Any for a restriction, is the only worthwhile metal may be used in this way, Mr. art,"

All from evening classes. Singing "Good King Wenceslas" on their approach the soldiers marched around the quad and then stopped to sing "The First Noel" and then introduced them-selves with the Burwash Hall Song. "Silent Night." followed, then a courtly great and then stopped to sing "The Good Night Laddes" as the khak-icald sevenaders marched back to barracks.

time. The reasons that other metals under normal conditions will not do so are the small contact area of a particle compared with its total surface area and

In the design of powder-metaliury parts, Mr. Ellis said, all conditions must brists be known or the process may prove unconomical — mechanical, chemical and electrical properties desired, shrinkage of the metal on cintering, and size and tolerance of the part. Even the rate at which the die will wear must be considered at its will affect the cropout.

Club for the year. The Music Club is presenting the operate. The Music Club is presented by Gilbert and Sullivan, and the Darmatic Club has chosen Wilde's play "The Importance of Being Earnest." The show will be put on Dec. 3 and 4 in the U.T.S. Auditorium.

Tickets can be bought at the Victoria College Union box office daily between In the design of powder-metallury eonsidered at its will affect the economy

Medical Appointments For '44 Women Grads.

All girls graduating this year, that and third year Pass Course students, are expected to make appointments for both medical examinations and X-rays at 4th Hoskin Street, if they have not already done so. The doetors at the clinic request that all these appointments be made at the beginning of this week in order that they may have some idea of how many students are still to be examined.

The war only on the acmed uring 1941-2," continued Mr. Schwartz, as he related the story of the removal of professors and students to featured attraction.

Students Rescuer Cited of Krahow, one of the oldest in Europe, the Gestapo assembled the teachers on the prefence of letting them hear German speakers but immediately placed all is fourth year Honor Course students and third year Pass Course students, are

Vote At 18

adlists and psychologists is that on the whole boys bating Parliament and join them in stoutly re-and girls of 18 today are more mature than were affirming our belief in Santa Claus. their parents at that age, are more conscious of world events and better informed on national issues.

attempting to decide exactly what that is, we go on the garden of learning to the suggestion that 18-year-olds are not exto the suggestion that 18-year-olds are not ex-perienced enough to formulate balanced judgments selves to life! Indeed! We appeal to our friends, he wants. The method of arriving at this knowledge the Champus Cat with avidity?** is irrelevant to the present question.

Know What They Want

Of course, it may be argued that every human creature knows, or thinks he knows, what he wants and that this argument would lead ultimately to granting the vote to all who were capable of the physical operations of marking a ballot, thus reducing the voting age to six or seven, or, in particular

Generally speaking, however, the individual is a dependent until he reaches an age in the late teens. He is under the disciplinary power of another individual, the head of his family group, and any age should be limited to that at which the individual is demonstrably financially independent.

The machinery which would be necessary to determine such independence in difference to the determine such independence in difference to

determine such independence in different cases, however, would be an unjustifiable increase in the present dangerous burden of bureaucracy which the society become financially independent. We do not

"Old Enough to Fight"

granting the vote in late teens, however, is the fact tions, not excluding The Varsity staff itself, join that young men who have reached that age are expected to serve in the armed forces. The soldier who is compelled to defend a nation which he the Army Course have opened the season. What does not help govern, to risk his life for a regime in which he has had no voice, is not better off they lacked in music (and memory for all the words) than the Hessians who were sold into British service by their prince. Democracy demands that its soldiers should have the vote. In the American Civil War Harvard.

any Union soldier was allowed to vote. Drummer boys as young as 14 exercised their franchise, al-though some of them, when mustered out into civilian life, had to wait as much as six years before they were able to vote again.

It is insufficient to grant the teen-aged soldiers a vote in wartime only. He should maintain his right when he returns to civilian life, for he should have a right to exertise directly, although remotely, his voice in declaring any war which will involve the possibility of the loss of his life as an active belligerent.

Not to Be Put Aside

The question of the teen-ager's qualifications for voting is not one to be put aside by asking, as we have here, "How much better are the so-called adult's qualifications?" The fact is that both "adult" and youth should receive some strenuous form of citizenship training before the right to vote is What form that training should take congranted. stitutes in itself a major problem. But for the moment youth's trial by fire should afford ample proof of its spiritual if not necessarily of its intellectural prerequisites for voting.

There Is Too!

We view with alarm the current tendency to One of the questions brought up by the recent destroy all that is most sacred in yuletide observance, Ontario Youth Conference was that of giving 18- the firm and widespread belief in Santa Claus. It year-olds the right to vote. This was recently the subject of a survey by the Woman's Home Comquestions of public import before the battle is well panion, and the readers of that magazine came out joined, but it would be to the eternal shame of the two to one against the idea. Why? Because noble institution of campus journalism if we did two to one against the idea. Why! Because holds institution of calculations of the Government in people of that age are "not mature enough" to not at once leap to the side of the Government in vote intelligently. Yet the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education—the forthcoming debate of the Victoria College Developer in the consensus of education in the consensus of the victoria College Developer in the victoria College Developer in

Not only do we believe in the gentleman himself Bloody." for certain ideological as well as materialistic reasons, It must be admitted, however, that despite these but also the attack on the dissemination and qualifications they cannot be assumed to possess an encouragement of this belief voiced last week-end adult viewpoint or sufficient experience to formulate by Brig. Brock Chisholm constitutes a direct assault balanced judgments at all times. "Adult" in this upon the Liberal Arts in their most creative form, case, must be taken to mean the average viewpoint literature. We appeal to the campus to scotch, and of the population above voting age. Without further finally kill this insidious snake which has invaded

at all times. What voters are? How much, speaking the hard-headed engineers, to support us here. Do soberly, is the average vote influenced by mature not these noted progmatists read detective stories in judgment based on cool logic? The 18-year-old is their spare time? Do not the realistic Meds have capable, if we remember correctly, of knowing what an Arts and Letters Club? Do not students read

These facts we hurl in the Brigadier's face without further argument, except to add assertively:

"Yes, my dear little Vir-, Brigadier, there is a Santa Claus.

*All questions are purely rhetorical.

Noel, Noel . . .

The Carol season has been opened. Official observance was held last evening beneath the frosty windows of Whitney Hall by a group of Army individual, the head of his family group, and any attempt to grant the vote to dependents would, in effect, become a means of increasing the voting Wenceslas" and signaling their departure with the

are merely the first of the various campus groups who will welcome the coming yuletide with comwho will welcome the coming yuletide with commemorations of song. The campus is rich in its numerous traditions along this line. Enthusiastic recruits for the Hart House Glee Club have saved this year's annual broadcast from cancellation, althought final plans for the broadcast have not been the definition of the broadcast have not been the definition of the properties of the desired to the properties of the definition of the definition of the properties of the definition of nation supports, but compromise arrangement might be worked out which would result in most of the benefits of the ideal whereby the voting age would be lowered to that at which most members of thought final plans for the broadcast have not been

completed.

Was It Murder? Editor Suicides

Awful Bloody, Say Witnesses, as Toike-ensis Chief Passes; Photographer Suspect; Mc-Geech Not Investigating

HAVE YOU HANDED IN YOUR BIOGRAPHY CARD?

The Champus Cat, in an interview with the press yesterday, divulged the startling information that Carryut Save-Gasoline, well-known editor-in-chiel of the Toike-ensis, had committed suicide. "A terrible affair," said the Cat in a tear-laden voice. "Such a dear, dear,

"A terrible ariar," said the Cat in a tear-laden voice. "Such a dear, dear, girl; a great friend of mine, you know."

The Cat polished his microscope and adjusted his opium pipe. "I'd hate to say evil of the dear departed, but she did have a horrible habit. She kept and nave a hornibe nabit. She kept buttonholing people, and muttering something about biography cards, and such a light in her eye. They say that this mania caused her death."

"Who's 'they'?" asked the press.

"That is merely an editorial 'they',"

'Yes, or murder, not much difference, there? Anyway it was Awful

"Any suspects?"

"Any suspects?"
"I'm working on it—mind you, it's a secret, but I think it was the Staff Photographer; of course this is strictly off the record, not for publication at all."
"We understand," chorused the press.

"When you spell my name it's Sher-lock H. Cat, C-A-T, as in Cat," said the well-known dick. Continuing in his well-known dick. Continuing in his well-modulated voice this authority said, "In my modest capacity of detective I have discovered several facts:

- 1. The foul deed was did with a blunt instrument—e.g.—a large 4T1 volume of Toike-ensis, or maybe 4T3.

 2. It was done by the Staff Pho-
- tographer.
- Hart House is going to be co-educational.
- 4. It was suicide and not murder." "Can you explain, sir?" respectfully

"Can you explain, sir?" respectfully asked the pressmen.
"Yes. Point one could be changed as it might have been an Esquire. Two is clearer because after all who is the least likely suspect? Why the Photographer, of course," said the Cate triumphantly. "Three is just hearsay, but I for one will not oppose the move. I'm sure if Hart House had co-eds, my pool game would improve greatly. Four pool game would improve greatly. Four is very helpful 'cause if it's suicide we

don't need to worry."

With these words Sherlock Cat drew a long, wailing note on his violin which faded into the "Flight of the Bumble-

MORE TROUBLE..

This fall we have had numerous irregularities in the campus sport picture and complaints have been flying left and right. Most of these complaints have been directed at the Intranural Committee or the Athletic Office or even at some perfectly innocent creature. Last night brought a new twist to the proceedings when the School of Physical Education swim team defaulted the semi-final against Senior School.

The swimming semi-finals were to be run off this week, with the finals taking place next Monday, and so far as can be learned, plans will be carried out. However that does not explain why any team should default a playoff meet. According to the records at the Athletic office, this is the second time that any team has ever defaulted a game or a meet in a similar instance. Drastic steps were taken on the occasion by the Athletic Association against the offending party. Assurance comes from the same direction that the matter will not be treated lightly, as the defaulting of a playoff game is considered a very serious offence.

comes from the same direction that the matter will not be treated lightly.

The Shall off and is considered a very serious offence.

The PHE team emerged victors in the third group and were scheduled to swim against the highly favored Senior School team last night. School's entire team turned out ready to take to the waters to carry their colors to victory and to the finals, but alas and alack, no one to swim against.

The Sports Department regrets to inform you that there will be no basketball games on Friday, Dec. 3. Also, the game between the carry their colors to victory and to the finals, but alas and alack, no one called off. Alas, poor Yorick.

THE OTHER PICTURE . . .

THE OTHER PICTURE . . .

But there is another side to the story. As far as the PHE swimmers were concerned, they had done everything possible to round up enough capable swim artists for the meet. Don Smith, fleet backfield star of the U.C. football squad, has a couple of cracked ribs that have interfered with his sporting activities lately, the Mulock Cup final put him on the shelf as far as the swimming is concerned. Stu Scott, the Balmy Beach flash is still bothered by that knee that kept him out of that crucial Hamilton game. Necelless to say, either one of these men could hardly be expected to turn out. Two more members of the team were hard at work. On whether this was mental, physical or imaginative, we are not prepared to pass an opinion. The fact remains that a full team could not take to the pool.

According to that oft quoted little bird and also the grapevine, there was also it seems, a disinterested attitude in the PHE quarters. While it would be unfair and practically impossible to single out anyone responsible for either creating or harboring this view, it seems only just that this matter be aired. It started when the Athletic Committee drew the ire of certain quarters for unknown reasons or rather reasons unknown to anyone but these quarters. Criticism has been freely thrown around of late, not only by PHE, but also by a couple of other faculties. We will not comment on the criticism for obvious reasons.

WHY SO, PLEASE . . .

WHY SO, PLEASE . .

The Sportswoman

By Bob Grosskurth

THE WAGES OF SIN

To all lonely and tired old Schoolmen who might be taking the night air on the eve of a huge test and unhappily stroll too near the Press, may this column serve as a grim warning. La belle dame sans merci.—The Sportswoman, has a persuasive tongue in pretty old head. Appearing on the Sports Page is apt to make one cast a nostalgic eye on the days when one was considered a sporty character. Ah—the snows of yesteryear—. But enough of this teary-eyed reminiscence and let us to the task.

MERMAIDS, HO

MERMAIDS, HO

For all you gals of a nautical bent who have long envied those lithe and graceful nymphs, featured by Billy Rose and so much admired by the "stronger sex", the Department of Physical Training for Women has arranged to hold a swimming meet in the Household Science Pool on the first and third Friday of each month, starting at 4:00 pm.

These meets are to have a dual purpose; first and foremost, they will provide an opportunity for those girls who intend to enter the College meets to get in training for them; secondly, since the participants will be divided into groups according to their ability, the meets will provide a chance to swim competitively for those who may feel that they are not competing in an Interfaculty contest.

At each meet, there will be four events for each group—a race, a stroke for style, a trick, and a dive. The events for the first meet scheduled for this Friday, December 3, are, viz, and to wit:

Race—Free Style

Style—Breaststroke

Trick—Sculling

Dive—Plain

have had to create such a masterpiece. The next performance was Haydn's Surprise Symphony, the charm, variety and freedom of which is irrisistible. Haydn has been called the Father of the Symphony and his interesting orchestration, experiments in his day, is well-banlaced, with the solo alternating from one section of the orchestra to the other. The Andante is the well-known theme for which this symphony is from one section of the orchestra to the other. The Andonte is the well-known theme for which this symphony is noted. It is simply a statement of the theme with variations, most notable of which is the flute and bode duet. The third movement, a minuet, was the weakest. The fourth movement, a lively and spirited allegro, was full of the zest of living and galloped to a grand finale. Haydn, always the optomist, had triumphed again.

The main portion of the which died to the content of the content o

triumphed again.

The main portion of the program which drew on all the resources of the orchestra was devoted to Sinfonie Fontastique by Berlioz. Berlioz was a young man of 26 when he wrote this symphony, a grandiose young romanticist of volcanic emotions. His astonishing symphony was the product of what he called on "infernal passion, "interminable and inexhaustible." This is descriptive music of an unbalanced love-sick musician on "Light Production in Living Ormusic of an unbalanced love-sick musician who tries unsuccessfuly to poison him-self. He is haunted day and night with a beautiful melody which represents the Loved One. The work is extremely exciting with terrific crescendi and sudden thrilling whispers. There is absolutely no criticism that one can find in the performance of the orchestra.

Contrasts

Massey Holl

Last night's Toronto Symphony Orchestra, in an all-orchestral program, was conducted by Sir Ernest MacMillan with extreme evree and vitality. The whole performance was given from memory and one had the feeling that the conductor had complete command over the orchestra at all times. The program, which was popular but not banally so, built up to an emotional crisis rarely heard. It was performed with taste and variety.

The perennial charmer, Persure to Medissohn, opened the program. This simililating bit of fairfyind inspired by Sakespeare is completely enchanting. We mared at the wonderful amount of technical knowledge and inherent artistic ability that the young man of I Pusal Bach—Mass in B minor (second.)

Flenley History Lecture Discusses Post-War Russia As Big European Power

Germany and Will Dictate Carols at Noon Her Post-War Policy

FIRST LECTURE IN SERIES

Speaking on the subject "France, Germany, Russia: the March of Power," Professor R. Flenley, of the Department of History, yesterday looked forward to singing. the predominance of Russia in post-war Europe, in the way that France domin-ated the European scene from about out traditional carols. This activity not returned soldiers and demobilized in1670 to the present. This was the first in the series of public lectures on Factors in Contemporary History being of the series of public lectures on Factors in Contemporary History being of Christmas Party later in December.

herself capable of drawing on her vast resources to meet and defeat Germany on her own terms in spite of the fact that she was a comparatively backward power until recently. He pointed out that Russia was able to meet Germany that Russia was able to meet Germany as she has because of the progress she has made in industrialism in recent years. He hastened to add, however, that the victory won't be a Russian victory alone or a European issue alone,

and compelling interest" to concern her-self with the fate of Europe. Hc foresaw a "mixture of idealism and realism" in her post-war attitude, however, similar to that shown after the Nap-

oleonic Wars.

He pointed out that Russia will have a tremendous internal task and that the neighboring states, even if influenced by Russia, will not necessarily model their

specing of Germany, Flot. Petads pointed out that under the leadership of pointed out that under the leadership of Paludi. He ended his lecture being about 1870 and owed its as a planned economy.

Prof. Flenley traced the history of France's period of predominance which began with the coming of Louis XIV to the throne and the defeat of Spain, which reached its peak under Napoleon and the declined to be replaced by Germany as the leading power. He pointed out that up until the Treaty of Utrecht inf I713 and again from 1789 to the fall of Napoleon, France's domination was largely political and military. He showed that in the intervening period her predominance was in the cultural sobstep, being the "Age of the state."

Term Ends Friday

Record Club Enters Third Year As Purveyor of Classical Music

The University Record Club meets every week, Monday to Friday, 4 to 5:15 o'clock, in the Women's Common Room in University College, to present a musical program for everyone in the University interested in good music. The complete collection of records representing all important periods of music was presented to the University two years ago by the Carnegie Foundation. "The purpose of this generous gift was to render all types of music accessible to those students not making a special study of music," stated Professor Finch in an interview yesterday.

The club is managed and directed by a committee made up of members of the staff and students representing all the faculties on the campus. Dr. Arthur Wunne acts as Chairman of the Committee, the staff are both advisory council and curators who manage the business affairs of the club,

Foresters Club Tonight

The third meeting of the Foresters' Club will be held this evening at 7:30 in the Music Room at Hart House, it was announced by M. R. MacKav. The third meeting of the Foresters' ton, Dr. Faludi pointed out how various places in Europe, America and in the Music Room at Hart House, it was announced by M. R. MacKav. Canada have succeeded in improving their cities.

Dr. Faludi illustrated an ideal com-

munity consisting of neighborhoods with the schools as centres. Only 25,000 people would be concentrated in a neighborhood. Houses for all ages and sizes of family provide a complete life housing cycle right in this neighborhousing cycle right in this neighbor-hood. The speaker pointed out Rose-dale as an example of this lack of a complete cycle and he predicted the gradual breaddown of this district until it became a slum. Any community con-taining only houses suited to one in-come bracket and one size of family is slated for this doom, according to Dr. Faludi.

He ended his lecture by expressing

Another One Gone

Despite valiant last minute attempts to forstall the evil blow, another tradition, the Hart House up the ghost for this year at least. wavering for lack of tenors, the Glee Club gathered strength under pressure for a little pulicity but has now decided to omit the Christmas broadcast since lack of practice points to an inability to conform to previous high standards set in more leisured years. for its perseverance in the face of so many diffithe club itself remains and keeps up its local concerts there is hope for a speedy return to the standards and programs of former days.

The Prophet Ignored

Only platitudinous people nowadays draw attention to the fact that prophets and such are unknown in their own country. However, it behooves us in our mild-mannered way to point out that many a Varsity student is passing up a right golden opportunity to add to his intellectual stature while at the same time those creatures of the outer world, the Toronto public, are invading our halls of learning and literally lapping it up. This state of affairs is neither new nor unheard of on this campus but the immediate subject under editorial consideration today is the current series of public lectures offered temporary History. The opening lecture given by temporary History. The apening lecture given by attended. In fact, U.C. Room 8, traditional standby the lectures to the West Hall or some equally grand enclosure. We would join the History Department in feeling very happy about the whole thing. However, one fact deters us; the audience was was by Beethoven himself, its deficiencies were ly small number of students turned out for the the preceding number. lecture. This fact certainly does not detract from the success of the lecture series; in describing them as public lectures the History Department was aiming for a downtown following. But it does point out that the student population is overlooking a good thing and in our position as campus crier we would deplore this fact.

This series of Wednesday afternoon lectures was planned, as Professor McDougall has stated, to provide discussions of a number of important factors which are determining the course of world events. They represent an attempt to explain the historic setting in which nationalism, internationalism, parliamentary government and such might be understood. Such a series is obviously not designed for the specializing history student. It is an orientation course for every man and woman who pretends non course for every man and woman who pretents to know what is going on in the world today. The past still remains a good criterion for judging the present and planning the future. Considered thus, the series becomes one of utmost interest to the student preparing for his place in the world, as well as for the adult who is already a part of it.

Students as a rule have a strange phobia against tra lectures. They usually lump all lectures under extra lectures. They usually lamp an extract adder one general heading of duty or necessity and con-sequently avoid them when at all possible. In so doing they miss a great deal of the cream of University life. With a little discrimination on the part of the student and a little press-agentry on the part of professors this situation might be remedied. Students are naturally willing to increase their store of information but will only do so extracurricularly when it is proven beforehand to be worth their while. Even here the student is at fault for he does not often trouble himself to look into the subject and ascertain what it holds that is of interest to him.

Women Of 4T4

All women members of the Class of 4T4 are currently on the spot. There's no escaping it, girls, the medicos are calling and you can't say no. As they say at the Health Service, the privilege of having a medical examination is open to girls of all years, but it is compulsory for students of the graduating class and for first year students. Now that the freshies have all been taken care of the field is clear and the doctors are settling down to the dull recording of staid old senior pulses. Appointments should be made immediately if not sooner in order that the last large batch of exams may be gotten w's, out of the way and X-ray appointments made for early January.

The compulsion as regards graduating women Glee Club's annual Christmas Concert, has bowed to the exigencies of a war-time campus and given student's state of health is made in first year it is only natural that the Health Office should like to complete its records and incidentally perhaps study the varied effects of Varsity life on students. An examination in her final year is a good investment for any women and the last fee-less physical she is likely to get in this monetary world. Life as We mourn the passing of another jealously guarded by tradition but would praise the Glee Club healthy bodies as well as minds and the Health healthy bodies as well as minds and the Health Service would like to help outfit you for battle. Half is better than none and as long as The address is 44 Hoskin, the time at at your convenience. Why not eall in today?

Best At The First

Eaton Auditorium

Viggo Kihl, pianist, was the artist at the Danish Viggo Kihl, pianist, was the artist at the Danish Relief Fund concert in Eaton Auditorium last night.

The program was entirely classical, and every number M. and M. club. It is for men only and was a good one, but the order of arrangement was they hold regular meetings at which such that the pieces at the start stood out far large chunks of delicious meat. Maybe above the rest.

The traditional order of arrangement is to present the program in roughly the chronological order of composers, an arrangement which usually places Bach at the first. Perhaps it is due only to personal Professor Flenley yesterday afternoon was well prejudice on my part, but it seems that at a great attended. In fact, U.C. Room 8, traditional standby many of the recent Toronto concerts most of the for overflowing classes, was crowded to the doors. numbers which directly follow the Bach sound This is a good thing, and might necessitate moving definitely inferior than they would if the program were rearranged in a different order.

predominantly a downtown crowd and a comparative-strikingly apparent when it was contrasted with

The reason for this is not hard to discover, The first number was the Liszt transcription of the Fantasy and Fugue in G Minor. This Fugue is one of the most interesting that Bach wrote, possibly the very finest of all. And the second number, the Choral Prelude "Sleepers Awake", with its serene chords, proved a magnificent foil for the brilliant

Beethoven's Sonata in C Major was an anticlimax, as mentioned above, but the third movement, a Rondo, was quite pleasing. Mr. Kihl concluded the program with a group of Chopin, which included a Mazurka, two Preludes, an Etude, the

Champus Rides Again

It is night. It is dark. (Everything happens at once in this country.) We find Champus hobbling painfully up St. George St. muttering under his breath. He has been getting his hind feet use his hind feet for the spacer bar without constantly getting one foot under the bar and stamping on the bar

Finally he stops, turns up a narrow alley and hops up to an imposing heavy oaken door. On this he knocks. An eerie voice floats out, saying in a strange accent making I's sound like w's, "Yes?"

"It is I-Champus," says Champus (who else would?).

"Yes?" says the same cerie voice, in the same strange accent. "What is the password?"

"I have a bottle," murmurs Champus. There is a dull boom and Champus disappears in a puff of smoke. When the smoke clears he is nowhere to be seen. And neither is the door.

But like all authors, we find Champus again. He is sitting in a small room, decorated with old examination papers, specimens of typographical errors from The Varsity, and various other instru-ments of torture. He is talking to a small, wizened, gnomish creature. Is it McGeech? No, it is an old friend, The Gremlin. We listen in:

". . . er, lovely weather, eh Grem?"
"Yeh, . . . drink?"
"No thanks, Grem—gotta keep my

wits about me — meat and manpower shortage, y'know."

"Cigarette?"

"No, thanks. Awfully sorry, Gremlin, old thing, but it's the M. and M. shortage again. I have to keep in training."

"OhSay—speaking of the M. and M. shortage, Champ, I hear they've ou could get in on it."

"Sounds good, Grem."

. . Bubblegum?"

"H'm, that's something I haven't tried yet. Guess it won't do any harm." (No-Champus, you don't know what u're saying. Don't take it!)

But Champus does. He smacks his lips. It tastes good. (Oh readers— don't ever have a gremlin for a friend —you can't win.) O-oh, we knew this would happen. Champus essays a bubble. (Have you ever seen a cat blow bubbles with bubblegum? — You never have? - Well, don't ever do.)
A lovely great bubble balloons forth
from between Champus' front teeth. Bigger and larger and huger it gets— then—pop . . . Chewing gum is draped then—pop . . . Chewing gum is draped in sticky sheets over his whiskers. Oh, this is too cruel.

Leave us quietly leave but quickly Leave us quietly leave but quickly and come back in a week when Champus can speak again. We never did get to hear these two discuss the great world-shaking problems they were working around to, you know.

—Lt'l OIKE.

Polonaise in A Flat Major, and-best of the group-the Nocturne in D Flat of the Major.

Major.

Mr. Kihl plays with a strong, sure touch, putting a great deal of vigour into his finger work. He ran through a difficult program showing fine technique and confidence. The one criticism that might be offered is that he uses the sostenute pedal excessively, which often produces a blurred effect in an otherwise satisfactory nerformance. otherwise satisfactory performance.

ART CLASS

The art class will meet tonight at 7:30 in the art gallery.

EIGHTEEN TEAMS COMPETE IN VOLLEYBALL PLAYOFFS

Volleyball, the only competitive sport squashed the hopes of Dent C and still active on the campus, is in the playoff stage and will wind up early next week. A banner year which started out with 50 teams representing every faculty and college, the race was narrowed down to 18 teams for the playoffs. The top team in each of 16 groups and the second place teams in the first and second groups comprised the list.

This morning the quarter finals have been reached which means that the eliminated teams can pick up their equipment for the year. The first team of Service of the year, the first and so Monday afternoon.

The following teams were in the teliminated teams can pick up their equipment for the year. The first team is given the second year were in the liminated teams can pick up their equipment for the year. The first team S.P.S. Sr. U.C., Trinity A, Jr. S.P.S. S.P.S. third year, Vic third year, to go was the Med 3B squad which lost out to Senior S.P.S. early in the week. Since then Senior U.C. have

By Mickey Michasiw

A REAL STINKEROO

A REAL STINKEROO

We're hopping mad. It was all brought about by a new National Hockey League rule which has just been incorporated into its rule book. It reads thusly: "Any player who gives to the press for publication any statement reflecting in any way on the conduct or performance of any official or any player shall be subject to a penalty of not less than \$200 and not more than \$1000."

You may, with a passing glance, wonder what effect that would have upon the campus or upon the Sportstaff, but our case is a very pressing one. Elsewhere on this page is a feature concerning one Jackie McLean, a scasoned member of the Toronto Maple Leafs, who, we are assured, are in the National Hockey League. Thus we presume that McLean is covered by the above ruling. Whether the SPS soph knew of the ruling or not when he finally agreed to the interview we do not know, but if he did not, we will venture that Jack does not feel so comfortable now lest the great powers take an exception to any little word used by him.

As a special fovor to a fellow-student, we hurrically struck out a

word used by him.

As a special fovor to a fellow-student, we hurriedly struck out a number of words that may have hurt the feelings of McLean's masters, lest they be tempted to fine him the two hundred smakeroo minimum. We would like to assure Masters Dutton, Ross, Sclke and Company, that these words were only those that a Schoolman could use, and would not be understood by the average layman. This, however, is no reflection on McLean. Schoolmen just can't help it.

IT WAS CENSORED . . .

IT WAS CENSORED . . .

Fellow newspapermen inform us that not only players are liable in this case, but also all sportswriters. We don't like it. For years The Varsity has printed its true feelings concerning anything what-so-ever, and some of these have made interesting reading. This looks like the first step to stop these berating views once and for all. The N.H.L., have long dominated the Canadian hockey picture, and this seems to be the first move in dominating the newspaper industry.

No more interesting interviews, no more cracks about the "lousy refereeing" and no more views about the weakness of other teams. Pity the poor reporters, and also pity the reading public. Bucko McDonald's face must have fallen clean down to his shoes when he heard of this censorship.

Donald's face must have fallen clean down to his shoes when he heard of this censorship.

The rule is dictatorial, and we can't help but wonder how men like Pilot Officer Roy Conacher and Lieutenant Tommy Anderson will look upon it, on their return to hockey. Lester Patrick has always been a firm believer in this dictatorial view, but last spring his own son ventured the statement that the calibre of hockey as displayed in the N.H.L. last season was not up to standard. Wonder if Lyn Patrick is on speaking terms with his pater yet.

CAN'T SAY FOR PUBLICATION, BUT . . .

CAN'T SAY FOR PUBLICATION. BUT . . .

The reasons behind such a ruling are unknown, but we can guess. When the highest recognized hockey body in the world refuses to accept free publicity, the unknown facts must be a sad state of affairs. It is a well public sized fact that this years hockey standard is not up to level, but this has, up till now, been accepted as a matter of fact by the hockey public, which is the paying public. By this act, the N.H.L. fathers are losing their truest friends; the Sportswriters across the country. The public like to hear the bad along with the good, and what effect this will have upon the gates remains to be seen.

Charlie Conacher recently denied rumors of his return of the ice lanes, but added, "At that, I could do as good as some of them." A truer word was never spoken, but the magnates apparently either do not believe Chuck, or else do not wish the paying public to believe him. Two more of Varsity's sons ply their wares for the Leafs, namely, Frank Dunlap and Windy O'Neill. We dare not ask either for an interview, lest we jepordize their standing with Mr. Selke. Apparently our only outlet is to secure written permission to approach the mentioned players. If Mr.Selke is not in the mood, these two will not receive the publicity they rightfully deserve. Is that democratic?

The Sportswoman "The Condown from his five feet nine." Sportswoman was carried to accomplish the control of the properties of the carries those I70 lbs, around on Humberside's Junior hockey team when he was seen by the Maple Leafs' scouting experts. They put his name on their receive the publicity they rightfully deserve. Is that democratic?

Looking down from his five feet nine.

Looking down from his five feet nine.

The Sportswoman

The Girls in the Back Room

The Girls in the Back Room

More than three score days and ten have passed and most folks don't realize what significance a day in the life of our regular Sportswoman has to the elevation of humanity. Now that she is at a heap big doo (at this hour too), we feel this is an opportunity and a great privilege to give you the inside dope (with censorship, of course).

The pleasant tingle of the Whitmey rising bell brings narry a sound from Room 231. The breakfast gong, to which most girls reply with over-enthusiasm (??), receives no response from the second-floor sanctum. As the dead-line approaches for entry into the dining-room and all early risers are calmly sipping their Charlie McCarthy coffee, there is no sign of Mosby. Coffee is a good thing for certain conditions but I guess she never gets in the condition when she thinks coffee more necessary than sleep.

there is no sign or Mosby. Cone is a good timing for certain conditions but I guess she never gets in the condition when she thinks coffee more necessary than sleep.

Here it is 8:30 a.m. and we still have had nothing to report. (Well, we can fill up space, can't we? You don't know the state we are in.) But let us skip along to 10:59 a.m., or maybe 11:00 a.m., if she has been out extra late the night before. The well-groomed lassie steps over the threshold of her doorway with a mighty thind and condemns every innocent maiden in sight for not having awoken her for breakfast. We might add that even if this is done she never heeds the call. Oh yes, once she appeard for her first meal of the day and there was such complete amazement that everyone assured themselves that they were dreaming and went back to bed to leave Mosby completely alone in the lonely diming-room. But to get back to our routine. We refrain from details as to the type of language used by our heroine when she finds that she has missed two morning lectures. Consequently she spends the remainder of the morning tracing down people who did attend those classes and then bawls out the discovered students for not taking as excellent notes as she does, or rather used to. Nobody can account for the always-late arrival of the Sportswoman for lunch, but it is presumed that she has been apple-polishing with some prof.

for lunch, but it is presumed use some prof.

We give full credit to the gal for afternoon lectures. As a rule she is quite awake and can give very intelligent remarks as to the philosophy of life in pre-historic times. If, however, she is not quite up to par, she either grunts or snores in Rabkins ear. It is now 4:07 p.m. and we find THE ONE tearing up the stairs of Whitney, She returns pronto with a little pink book and travels excitedly in a northerly direction, accompanied by a certain red-head who works on a certain paper in a certain University and who also has a little pink (Continued on page 4)

Jackie McLean, Engineering Student, Stars at Right Wing for Maple Leafs

By Betty-June McKensie

When you see Jackie McLean you to practices and everything while he's just naturally think of sport. Blonde at school, he shrugged those big and blue-eyed, with immense shoulders, shoulders and said, "Oh, I don't go to he carries those I70 lbs, around on practices as a rule, just the games. And skates as though he were as light as I don't play during the week usually, thistledown. And when you mention

their wing, so to speak.

Looking down from his five feet nine inches, Jackie grinned, "Sure. It's fun. Yes, I started in last year in earnest." A second year student in Civil Engin-eering, and a grad of Humberside Col-legiate, Jack McLean, middle name Adam, is one of those energetic people who can keep up their studies and be successful at several other things too.

successful at several other things too.

In fact be puts his school work first. He was born in Winnipeg 20 years ago. "But I've lived in Toronto practically all my life," he stated. He's been in sports practically all his life too. At H.C.I. he specialized in rugby, played a great deal of hockey, and competed in track and field. He wanted to play college rugby this year but he couldn't because he's a pro.

"I' was reribly disappointed," Jack condided. "I've always wanted to play on a Varsity team. They just don't allow that though."

At the first of the term Jack hurt his back at the Leafs' camp and had to miss a couple of games. But be's (Continued on page 4)

FRATERNITIES

This year Torontonensis is anxious to try something new in makeup and as part of this program we suggest to you the possibilities of informal pictures rather than the traditional picture of Fraternity members.

By informal pictures we mean a shot of one of your meetings or parties, or perhaps an informal group of the members and an action shot as well. Both these would of course be smaller pictures than the type that have been used in former years but we feel that the result would be a more interesting year book as well as a saving in money for you.

Perhaps you have a photographer in your midst who would like to do the job and if not Hugh Kenner, the Torontonensis staff photographer, who can be contacted at 73 St. George, will be glad to oblige for a reasonable fee which you will find considerably less than that of a professional photographer.

P.S.—Take a look at the set up of The Arts and Letters Club, page 257 in last year's Torontonensis, if you want to see what we mean.

Army Course Student, Dr. Corbett Scarlet Fever Victim, Given Military Honors Soc. Students Given Military Honors

CODY SPEAKS AT SERVICE

Private George Alexander Ronald Smyth, of No. 2 Canadian Army University Course, was laid to rest in Mount Pleasant Cemetery yesterday morning at a military funeral attended by the whole Army Course unit of the University of Toronto. Smyth died Wednesday in the isolation hospital where he was being treated for scarlet fever.

Charles E. Higginbottom, Bursar of the University of Toronto, left yesterday for New York to attend the animal meeting of the Earstein of Gollege and University Business Officers where he will give an address on "The Relation of the University to the Public."

Mr. Higginbottom is a member of the Executive Council of the Association.

Rev. Carl Farmer, minister of Castlefield Avenue Baptist Church, which Smyth had attended, conducted the service, assisted by Capt. Stump, Chaplain attached to the Army Course, and by President H. J. Cody of the University.

FRIDAY, DECEMBER 3, 1943

Here's a Pretty Mess!

Unnecessary holiday travel is deplored by the Transit Controller, but, since we live in a generally compassionate eivilization no restrictions are being imposed above those of the load limit of the available rolling stock. However, strong pleas are being voiced to avoid travel as much as possible over the holiday week-ends themselves.

New Year's Day comes on a Saturday. The Easter term begins the following Monday. The question, therefore, arises "Are patriotic students to deprive themselves of vital lectures and labs? Students, for the most part, like to get what they pay for, and, althought they may skip the occasional lecture, most will probably return to college over the week-end when they are requested not to travel. Their right to do this will scarcely be argued against by the Transit Controller. There is a strong element of necessity in it. But couldn't this unfortunate dilemma have been avoided?

To the layman, unfamiliar with the technicalities of setting the year's academic calendar it would seem quite possible. Does it seem logical, even in peacetime, to allow more than a week in which to get home before the first of the two holidays and two days to get back? Christmas comes on a Saturday. Classes end two Fridays before. Exeept for the fact that it is not customary for it to do so, why could not the term have ended on the Tuesday, Wednesday or Thursday before Christmas, thus allowing more time to return to college after New Year's and avoid the holiday week-end rush?

To Make Up the Deficit

The Varsity recently described the subject of "The Case for Liberal Education" as "tattered" and strongly suggested that such a subject was more than somewhat time-worn. The humanities have proved themselves and are now beginning to find their recognition by being given a strong role in basic post-war reconstruction.

The eurrent trend is keynoted by Dr. Fred J. Kelly, chief of the higher education division of the United States Office of Education, who stated retion has suffered an all but complete disruption, but the notable depletion of our own arts enrolment indicates a similar, if somewhat smaller, deficit here,

dicates a similar, if somewhat smaller, deficit here.

What It Means

What It Means

What this deficit means is conveyed in Dr. Kelly's statement that "technologies must win the war but humanities and social sciences must hold the peace."

Seience, which first appeared in ancient Greece among liberal thinkers and whose way to free investigation was payed throughout the Middle Ages streamlining schemes have been tried that the wave quoted sec clearly, is a pleasing we have quoted sec clearly, is a pleasing who have way to free the many streamlining schemes have been tried that the wave quoted sec clearly, is a pleasing we have quoted sec clearly, is a pleasing who have the mature. The term "college mean and women" will come into more general use of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure appeared out of a puddle of chocolate milk. Suddenly a weird figure alone. The term "college mean and women" will come into more general use, and began delving for the olive in the data of the streamly appeared out of a puddle of chocolate milk. Suddenly a weird figure alone. The term "college mean and work" in its fulles tense and the result may be in stiffer out of a puddle of chocolate milk. Suddenly a weird figure alone. The term "college mean and work" in its fulles tense and the result may be in stiffer out of a puddle of chocolate milk. Sudden by the enlightenment of the humanists, is now repaying without stint the debt to its foster-parent
by playing a leading part in the war for its defense.

The prospect of the future, if the learned gentlemen
fully obvious, was hardest to diseern.

The task of holding the peace is fully recognized by the humanists and the glaring example of how the peace was not held the last time stands as a challenge to them.

In The Daily Iowan Professor Norman Foerster reflects on the situation tough-mindedly:

Is the university to be caught equally unprepared for

Is the university, and the society in which it function determined to profit by its mistakes after the last war? Unquestionably it is—in the economic and political realms...Much the same thing happened during the last war, though the reforms proposed were less drastie and therefore, it would seem, easier of attainment. Why were the results so disma? The answer would appear to be because no economic and political reorganization and succeed unless it is accompanied and sustained by a moral and intellectual reorientation.

Male Beauty Contest, Mud.

Are We Ready?

The question then arises: are the humanities in Canadian universities ready for the task which is to come? Fundamentally we should be better prepared here for the post-war task than the universities of the United States since, provided National Selective Service does not have to make use of the provisions of last fall's Ottawa conference, our universities will be graduating arts students into the new world of peace and will have a number of wargraduates as well already applying their humanistic training to the problems when peace comes. We have not yet allowed any gap in the educational process although the line is drawn rather thin. This is a fortunate basis, but is it enough? Professor Foerster, we believe, would say, "No."

If in this crists of civilization the university is to serve the state and nation fundamentally, its departments of the humanities will have to set their house in order... The true humanities are in no danger: civilization must have them, and will revive them in due course because it must have them, not because complacent professors of the false humanities are alarmed at the shrinking of their hunting preserves.

The Trend

Changes recommended by the Office of Education in this reordering would be felt in the languages, history literature, geography and sociology. Dehistory, literature, geography and sociology. De-ploring "the present tendency to sneer at everything that does not immediately pay off in com-missions or essential war jobs," the Dartmouth claims the study and mastery of at least one foreign language to be a prerequisite for any whole man's education. The Office of Education's recommendations in this field suggest more emphasis on communication in foreign tongues and less on mere

A more "world minded" approach is urged for A more worth minuted the history. Literature should turn its attention to the study of the classies of all nations. "Not all good literature comes from Europe," said Dr. Kelly. "As one example, the poet Rabindranath Tagore, of India, has had great influence on a tremendous number of people, and the educated man will need to know something about his writings just as he needs to know and appreciate Shakespeare."

Global-mindedness is apparently expected to put new emphasis on geography as a college subject, especially economic geography. Sociology seems slated to receive increased emphasis on world prob lems. Especially mentioned by Dr. Kelly is the fact that "people nowadays seem thoroughly scared about racc relations, . . . and this problem can be traced through history; yet I don't know of many people studying about it much in college."

The Post-War Student

An immediate return to anything like the pre-Onted States Office of Education, who stated to control that "we will have a fairly adequate supply of engineers and scientists after the war. The deficit to be expected. The present trend toward greater and explosive speech, Simeon replaced is in the liberal arts." It is true that Dr. Kelly was speaking of the United States where liberal educations will be maintained, perhaps even be increased, because of the age of the students. The large of the students. The large of the students and went reeling down to the Tuck ex-servicemen who will form a large part of the campus population will be men and in general stucards to the flung himself into a campus population will be men and in general stu-dents will tend to be more mature. The term

investigation was paved throughout the Middle Ages streamlining schemes have been tried, that the by the enlightenment of the humanists, is now re-

Increased Participation Reported By McCutcheon

Intramural Supervisor Encour-ages Program of Sports in War-time to Build Morale and Fighting Efficiency

SPRING PLANS AS USUAL

J. E. McCutcheon, Supervisor of Intramural Activities, disclosed in an interview with The Varsity yesterday afternoon, that more and more players and teams have been participating in campus sports since the beginning of the war. McCutcheon, who joined the staff of the University in 1925, admitted that war conditions have curtailed some sports such as skiling and badminton, but he said that he felt that other sports should be encouraged in wartime, as team play builds morale and increases fighting efficiency. "The introduction of players of intercollegiate calibre into campus sports has definitely raised the brand of intramural competition," McCutcheon declared, and added that plans for spring term sports are being carried on as usual. Basketball and hockey will held the specific player of the staff of the University of the specific players of the flesh (eleven stars) but weak on the fle

clared, and added that plans for spring term sports are being carried on as usual. Basketball and hockey will begin on Jan. 10, and indoor track the following week. With regard to the track, Hec Philips will give ten weeks of coaching to aspiring runners beginning Jan. 17.

An Assistant Professor in P.&H.E.,
"Mac" McCutcheon said that An Assistant Professor in FACLES,
"Mac" McCutcheon said that intramural sports are limited by three
factors: first, expense of equipping
teams, which is borne by the faculties; second, facilites, which are further limited now as the playing fields are being used for drilling; and third, by the enthusiasm of the students. With regard to the latter, Mr. McCutcheon had nothing but praise for Jim Graham of U.C. in particular, who has been doing an excellent job of getting U.C. men out for sport activities.

field in Canada.

Besides blood serum, Captain Best will also discuss the subject of penicillin in an non-technical way. The development of penicillin in Canada was begun two years ago at the University of Toronto. The Department of Munitions and Supply at Ottawa wished to secure relatively large quantities of the material and arrangements were then made for two large-scale plants to be set up—one at Connaught Laboratories, University of Toronto, and the other at Montreal. It is hoped that the large-scale produc-tion will provide, at a reasonably early date, sufficient penicillin for our armed forces and after the war for the civilian

Captain Best will show a film which illustrates the growth of the mould and the preparation of penicillin. The lec-ture will also be illustrated with lantern slides and will be open to the public

FURTHER COMPLAINT

Do you ever get fed up with things in general? Doesn't it seem to you at times that you just can't get co-operation from the people you want to work with? That's the way we feel right now.

We're sitting here, wondering about a dozen little items which have come to our attention during the past fall and early winter sport season. Perhaps every person hits times like this when they ponder over the question of whether they should ever have gotten themselves into any sports nogition.

Junior School Sinks Trinity, Earn Right To Challenge Sr's

By sinking the eagerly fighting Trinity splashmen in yesterday's semi-final swim niect, to the tune of 28-5, the Junior School natators earned the right to challenge the Senior School team for the upper bunk of the interfaculty swim league on Monday next. The Juniors, last year's champions, maintained the initiative throughout the entire five heats his aquatic skill as he, almost un-

The Schoolmen easily scooped up the first event on the agenda, the ISO-yd. medley, for three points by finishing seven seconds ahead of the Trinity

yd. breast in which the Engineers readily scored eight points as Sharpe and Rotenburg placed first and second respectively. Kingston of Trinity also swam for one point.

In the fourth heat of the evening,

ACCORDING TO SCHEDULE . . .

On Wednesday night P & HE Seniors clashed with P & HE Freshies, and age triumphed over youth (???). The Senior team won 28-18. It was a case of Greek meeting Greek, and a hard fought game resulted. Virginia Kitto, Connie O'Connor and Jean Davis were the Senior's stars.

The U.C.-St. Mike's game was cancelled, but the Meds eked out a win over Physio by one point. This was as close a game as has been seen, with good guarding for both sides.

FIRST FRIDAYII

FIRST FRIDAYII

To-day is the first Friday of the month . . . all of which means a gala day for the swimmers. It almost sounds as if we are spreading religious propaganda, but 'tain't so. The L.M. pool will be the scene of a swimming meet sponsored by the Department of Phys. Ed. The time is 4 p.m. . . . it's a dandy chance to get in training for competitive swimming, so let's see a good turnout. You may have the opportunity of practicing every Friday from 4 to 5 on the afternoon and from 4.30 to 5.30 every other day.

While we are on the subject of reminders—all you U.C. gals who are going to wield a foil, had better get in touch with Peg Graeb at Cody House, or else you'll find yourselves pushing a pen instead. Peg says that there is only a limited number of places for students of the mask to fill, so whip into action! Fencing is scheduled to begin the first Friday after the Christmas holidays . . . incidently some slight misunderstanding has occured inasmuch as some colleges think that arrangements have been made for them to fence, as well as U.C. Unfortunately this is not the case, but its an excellent opportunity for some enterprising female to take up the torch for the admission of her faculty or college into the "swim." The U.C. Women's Undergraduate Association is making this sport possible for the gals, by paying part of the three dollar fee . . so whoever is going to bring the other colleges into the duel, judge your approach accordingly.

Champus Cat

Cat only I died last week after I had the flu for a few days. I'm still work-ing for The Varsity. They pick me out of the D.S.C. collection box over at Hart House every morning and feed me a chocolate cream tutti frutti float and I'm away in a cloud of pied type after the elusive story."

O'Twirp pecled himself a myrtle berry and, putting the husks in his ears, said, "Well, Alley, whaaddaya wanna know?"

Alley Cat stole a myrtle berry out of O'Twirp's pocket and said ectoplas-mically, "What are some of these snappy gags you are going to employ to drag the five dollar bills away from all these university students? Eh?" O'Twirp snarled at Alley Cat and said, O'Twirp snaried at Alicy Cat and Sada,
"Leave us go to my campagn headquarters and talk this thing over over
a basket of myrtle berries. Shall we?
Adroitly Alley Cat wafted after O'Twirp to his office in a corner of the
Hart House pool and O'Twirp outlined

"First of all," bubbled O'Twirp, "we are going to have a beauty contest like last year's only this year it is going to last year's only this year it is going to be a beauty contest among the men students instead of the women. Won't that be fun?" Alley Cat plucked at his whiskers and raised a quizzical eyebrow. "Well now, I should be able to enter that contest, don't you think?" Alley Cat flicked a spot of mud off his tail and pushed the hair out of his eyes. Singen Cityling regimed slightly

Simeon O'Twirp grimaced slightly and rubbing a myrtle berry husk into his hair, said, "Well, Alley, we were hoping that we could run this off withhoping that we could run this off with-out you knowing anything about it; but fair's fair I guess and I guess you gotta be allowed into the contest." "Well what else have you in mind, O'Twirp?" It was easy to see that Alley

Cat was no longer interested in his story. He munched at the myrtle berries nervously and looked at Simeon

and Larry Adler, harmonica player, combined their taichts in an entertaining Concert Series program.

Adler's opening was inclined to be a trifle subdued but later he blossomed forth, showing his unquestionable talent in Romance for Oboe by Schumman, with his clever imitations of various musical instruments. His playing revealed not only versatility but deep feeling in his rendition of the Hungarian Rhapsody by Liszt, where he also demonstrated his inimitable breath control. The ever-popular Gershwin Rhapsody in Blue attained new glory last night as Adler swing-copated on his harmonica, accompanied by Arthur Ferrante at the piano.

at the piano.

The art of interpretive dancing belongs to the ultra-moderne school, nevertheless, Paul Draper's dancing reminds one vaguely of ornate morning exercises. As he whirled and pirouetted, literally "tripped the light fantastic," he gave the impression of dancing with an unseen partner. His balance, perfect co-ordination of movements and timing and his selection of intricate steps proved a redeeming feature, however. His dancing seemed to be a combination of ballet and calisthetics, revealing a Russian influence, with each movement creating a prosaic picture. His outstanding number was The Organ Crinder's Swing, in which he portrayed the part of the organ grinder with the noisy music which the organ actually played and the charming melody which he dreamed he was playing. His adept and swift changes from a mood of hum-drum precision to one of alacrity proved his worth as an actor as well as a dancer. at the piano. The art

Five Political Parties Discuss Post-War Canada At McGill Youth Forum

Montreal—(CUP)—A Youth Forum on the Future of Canadian Youth took place at McGill Dec. 1, sponsored by the Student Labor Club of the university. Representatives of the five political parties presented their programs in so far as the youth in post-war Canada

The speakers included Allan Mac-Naughton, of the Liberal Party, Frank Watson, of the C.C.F., Paul Masse, of the Bloc Populaire, Nanry Samuel, of the Labor-Progressive Party, and Jean Morin, of the Progressive-Conservative Party.

Allan MacNaughton pointed out the success of Liberal war-time legislation in the prevention of inflation, the enormity of war-production, and stressed that the post-war legislation would be as successful. He added that Canada Vic Elects must choose between the democracy of the Liberal Party and the socialism of New Executive the C.C.F., totally disregarding the other parties

Watson, in outlining his party's program, showed that they believed that

gram, showed that they believed that the the producers of the wealth should reap the benefits of their labor. He stated that the C.C.F. would secure full employment after the war.

Paul Masse, speaking for the Bloc Populaire, said: "We cannot afford to sacrifice our youth in the European Press, Billie Allan; Secretary, Mary conflict every 15 or 20 years for the whim of some Furopeans," and conwhim of some European," and con-tinued that Canada should not become involved in wars unless the people can Funeral of Frank Baker

The Three Quarter Mark

Today that energetic and genial gentleman who beads this University, Dr. H. J. Cody, celebrates the completion of three-quarters of a century of full and useful life. It has been the great fortune of the University to have been the chief beneficiary of Dr. Cody's activity since 1932. Therefore it is with most appreciative sincerity that we wish him many happy

returns of the day.

From the time of his graduation from this University and his ordination, Dr. Cody has chosen to serve the church and his alma mater. The first task he carried out continuously for 39 years until he accepted the presidency of the University of Toronto. When he laid aside his clerical tasks, however, Dr. Cody did not come to a position for which he had little experience, for during his time as an Anglican parish pricst he served on the staff of Wycliffe College and at one time in the Classics Department of the University. Earlier he had helped found Ridley College and there served as classics master. In addition to these and other educational concerns he served briefly as Minister of Education for Ontario in 1918 and has at all times had a complete grasp of educational matters in this and wider fields.

At the Quinquennial Conference of Universities of the British Empire at Cambridge in 1935, Dr. Cody gave three general addresses. He has received recogniton from many institutions and nations, including a three-line list of honorary degrees, the Order of the Golden Grain (China), Chevalier of the Legion of Honor (France), Order of the Crown (Italy), and, last spring, he was made a Companion of the Order of St. Michael and St. George. This last order was presented recently at Ottawa by the Governor General, the Earl of Athlone.

To Dr. Cody, to to many men who have lived long in hopes of peace, this war must have come as a scvere shock. It is in this war that his abilities and spirit have best been shown. He has been extremely active in all attempts to preserve the board cultural foundations of the University.

Dr. Cody never fails to be on hand whenever he can at University events of significance and celebration. Understanding propaganda in its best sense, be has done much to keep the University favorably in the public cye despite the existence of latent

It is therefore the University' partly selfish hope that his present vigor which enables him to walk to and from his office whenever the weather permits will long continue.

Why Wait?

Two Midwestern United States Universities are not waiting until the boys come home to provide scholarship aids for those who wish to continue their education after the war. The University of Michigan education after the war. The University of Michigan tion. Mr. Winch's speech at Calgary has opened a and Ohio State have started to develop funds, based wide field of discussion to supports and critics of on war bonds, to provide scholarships for service men.

The good sense of such a plan should be obvious. The need, of course, will develop, there can be no body of Canadian citizens who might otherwise have doubt about that. On the other hand, it is not only followed it, as is sometimes stated, in despair of the a good patriotic investment to buy government bonds other two parties. a good patriotic investment to buy government bonds other two parties.

at this time, but also a virtual necessity that large amounts of surplus private capital be tied up in some magnificently so. Looked at from one point of view, methods and phraseology which were such way to prevent inflation. What could be more the speech would appear to be an attempt to secure frankly inflammatory.

logical than to combine the two and aid the country with immediately available cash and help provide for the returning servicemen's education and the future of the country by making scholarship funds available for them?

That the idea has been received with enthusiasm is shown in the results obtained. The Michigan "Bomber Scholarship Fund" started at the Abe Lincoln Co-operative House with a contribution of \$17.87 and has now reached a \$18,000 total. The University's ambition is to make this total \$100,000 before the end of the war. At Michigan proceeds from nearly every type of campus activity are being devoted to the drive which gets its name from the fact that the promoters of the idea visualize a bomber being built with the proceeds of the bonds sale. Results of only the first weck are available at Ohio

Results of only the first weck are available at Ohio State where Alumni contributed \$2,000 at that time while the mails keep bringing more each day.

Similar scohlarships were established here after the last war. The University of Toronto Alumni Federation yearly distributes a number of War Memorial Scholarships which were originally intended for a mote of triumph, "(2, I presume? Veterans of the last war, and in the awarding of which veterans of the last war, and in the awarding of which children of war veterans are now given preference over other candidates of similar academic standing. It is true that the Dominion Government has assured the completion of the education for all those who serve the country at the present time, but there will be many ways in which the money will be needed be many ways in which the money will be needed You yourself, dear reader, you, the following the war. There is a leaf in this book untutored onlooker, would never have which might be borrowed on this campus.

POLITICAL TRENDS

One of the surest indications of the election which good many of us believe to be just around a few more corners is the observable intensification of activity on the part of Canada's three major political parties. The situation in Quebec has clarified itself less perhaps than elsewhere in Canada, but even there trends are evident.

Justice Minister St. Laurent was quoted by Le Canada as having stated before the Reform Club in Montreal on November 13: "I am firmly convinved that . . . the plebiscite of 1942 has proved itself a wise and useful measure. It had, nevertheless, one altogether deplorable consequence; because the great majority of the province of Quebec registered a negative vote, a certain number of insects . . . have set themselves to exploit the coincidence which, for once, permitted them to count themselves among a majority group. . . . The regrettable contingency is had overhead and nipthat the plebiscite has put a little too much wind into the sails of the nationalist ship . . ."

The Liberals have not confined their activities to

Quebec, however; hardly a day goes by without a Cabinet Minister making a declaration of some new, forward-looking plan which the government has in store for Canadians. Munitions Minister Howe, and his brave statements, if a trifle vague, that post-war Canada will be a land of plenty, are only symptomatic of a larger trend.

The Progressive-Conservative party is biding its time, according to best reports, and preparing a series of startling plans for disclosure to the Canadian electorate at an appropriate moment. Thus it will be in the happy position of a team which has kept all its practices secret, while closely observing the techniques of its rivals.

The present Ontario government is going to be the test tube for Progrossive-Conservatism in Canada, and it is upon its record and achievements there that it intends to appeal to the whole of Canada. Premier Drew's recent fligh to Britain to reopen 'Ontario House" is undoubtedly linked up with a plan to show Canada that the Commonwealth ties should be kept as close as possible. Incidentally, such a plan runs directly counter to the recent statements of Agriculture Minister Gardiner, who has been warning Canadian farmers that Denmark will recapture the British markets after the war.

Events in western Canada have focussed recent attention on the Co-operative Commonwealth Federasocialism in Canada. It has been suggested that this speech was a tactical error in political campaigning, that it has lost the support to the C.C.F. of a wide

Two School Swim Teams Compete In Finals Today

Two undefeated squads will match strokes for the Intramural Swim Meet Junior S.P.S. and Senior S.P.S. plunge into the Hart House pool this afternoon. Although no cup is at stake, keen interest is shown by all swim enthusiasts in the finals as Junior School are the defending champions.

The records of the teams are equally impressive. Senior School were matched with University College and Senior Meds during the schedule and finished the season with four wins and no losses. They entered the final round by virtue of the default of the P.H.E. team last

Junior School swam the schedule against Victoria and Junior Meds and likewise ended up with four victories and no set-backs. The Junior natators defeated the Trinity splashmen by a 28-5 count to win the coveted playoff spot.

Junior School's team is composed of Martin, Sharpe, Pohl, Fydell, Balborn,

and Rotenburg.

Probable swimmers for the Senior squad are Northwood, Lea, Patterson, Arkroyd and Lockhart.

J. E. McCutcheon, coach of this year's Varsity baskethall team, an-nounced last night that practices will commence this week. A game has been arranged with a Detroit team for the first Athletic Night and officials desire to wip the team into first class

condition for the game.

Practices will be held Wednesday,
Thursday and Friday of this week,
the time being five o'clock on each
day. All of last year's players are
asked to turn out Wednesday and any newcomers will be most welcome

Volleyball Semi-Finals

Due to a change in plans, the volley ball semi-finals will be played this afternoon instead of Saturday morning as previously announced. As the result of this change, the finals will be run off tomorrow afternoon at 4:30 instead of today.

The winner of tomorrow's final will be crowned Volleyball Champions of 1943 and will become holders of the

Victoria Staff Cup for the next year.

Last year's champions, Dents A, were eliminated during the league schedule.

At four o'clock today the undefeated Trinity A squad, champions of group two, meet the S.P.S. third year team, who ended on top in the third group with three wins and a single loss.

Five o'clock will see Sr. School tackle Senior U.C. Both of these were bracketed in group one during the schedule and finished first and second respectively. Senior School's record reads four wins and no losses while U.C.'s is two wins and a like number of

By Mickey Michasiw

RULE CHANGES . . .

Most post-season discussion seems to pertain to changing, for better or for worse, certain rules of certain games. This post rugby season is no exception. The first cry of "change the rules" came a short while back from Windsor.

After a years absence, the Windsor secondary schools took up rugby with a couple of improvements on the Canadian Rugby Union rule book. The interference zone in the Windsor system is the same for linemen and backfielders. Canadian rules limit the blocking of the backfielders to one yard beyond the scrimmage line, while the linemen are given five yards. The referee separates the blocking men and their zones, trying to keep his eye on the ball at the same time. The new rule would simplify the referee's work, or so claim the boosters of this system.

The other rule equalizes the interference rule as applied on kickoffs. At present, linemen on the defending side may block only between the 44 and the 46 yard lines. In Windsor they permit blocking from the 44 to the 50 yard line.

These are only two of the more minor changes to be advocated at the next CRU meeting, and while not revolutionary, they would speed up the game, besides simplifying it. From the spectators viewpoint, it would make the game more picturesque, more like the American game where they have unlimited interference and eighty or ninety yard touchdown runs.

POINTS IN FAVOR . . .

We'll venture to say that officials would welcome these changes with open arms. Infractions of the kickoff rule mean that the side kicking off is awarded the ball at the interference point. Yet we have seen officials scrap the rule mentally and let interference go on in at least a six yard zone rather than the two yards the rule book specifies.

The Border city system gives blockers a chance to do a better job and that leads to more spectacular moves on kickoffs.

Certain players on the campus are also in favor of the proposed rule changes, one going as far as hoping that the local rugby committee would adopt them, partially if not wholly, if the CRU failed to do so.

A team manager points out also that the equalizing of the blocking

A team manager points out also that the equalizing of the blocking "playing the game, rule will cause teams to change certain plays. At present numerous teams use a play in which the inside or the middle drops back, runs along the line to the end and is in position when the ball is snapped. He is still a lineman and may block for five yards and also makes himself an eligible receiver. At times he does not quite reach the line of scrimmage when the ball is snapped and automatically becomes a backfielder, which means that he may only block for a single yard, although he does not realize this. With equalizing, more plays of this sort will be comployed.

Smith, Shiftley Gri Smith, Shiftley Gri Smith, Shiftley Gri Smith, Shiftley Gri not realize this, employed.

A SUGGESTION . . .

pass introduction to the C.R.U.

If two scholastic leagues have had the initiative and the incentive to break into foreign fields, surely our local committee should sit up and take notice. Members of the same committee have invaded other fields this fall some of which was uncalled for. If this energy were directed into the proper channels, any new rules would be given careful consideration. Our Intramural games could certainly be played under varying rules as no outside teams are engaged. But new rules mean work and that apparently is out.

Virginia McLeod Of Vic Retains Tennis Laurels

Virginia McLeod, III Vic, again wor women's interfaculty tennis tourney when she defeated Virginia Kitto, III P.H.E. on Saturday in two straight sets, 6-3, 6-4, at St. Hilda's courts.

McLeod took the first set by dint of her placements and steady backhand. Kitto rallied in the second set and kept the score on an even basis up to 4-4, when her opponent won the next two when her opponent won the next two games. The majority of the games went to dence but McLeod's tireless energy gave her the advantage. Kitto's piece de resistance was the facility with which she drove with either hand.

McLeod played Marg Lifton P.H.E. on Saturday morning and won P.H.E. on Saturday morning and won two straight sets. One set was very closely fought and went to 8-6. This year's champ was only released from the infirmary on Friday but played the two matches in one day in order that the tourney would not have to be defaulted or carried over until spring.

The tournament this year is one of the latest to be run off in the history of women's tennis at the University.

The severe cold necessitated an abun-

GUESS WHO?

GUESS WHO?

The interfaculty tennis trophy will again find its home at Vic. It was rather symbolic that the finalists of the tourney should represent the two groups in the University which are conscious of athletics—the faculty of P.H.E. and the college of Victoria. Vic has always displayed excellent sportsunanship as well as spirit in all the various sports at Varsity . . . and since P.H.E. has become a separate faculty it has done much by its successive wins and skillful playing to not only arouse a more competitive interest in the other colleges and faculties, but has also given women's sports on this campus a trained standard.

Neither Vic, P.H.E. (nor Trinity) has shown any signs of in-

Neither Vic, P.H.E. (nor Trinity) has shown any signs of inefficiency such as the failure to complete a tournament or to stimulate enough interest in a sport so that a team will enter the interfaculty field. Trinity, we definitely include to share the orchids with Viz and P.H.E. faculty. In the other colleges, however, lists concerning athletics are placed on the bulletin board and nothing more is done. Consequently when the time comes for the particular sport to be played, presure is brought to bear by the athletic rep on the first girls she encounters. By way of constructive criticism we suggest posters and more zeal on the part of the representatives. This would also necessarily entail a revival (or inauguration in some cases) of college spirit. but college spirit has to be handled with kid gloves—otherwise it will degenerate into an unsporting attitude towards other colleges. So few athletic reps realize the responsibility which falls on them. Not only do they have to imbue their gals with a sense of "playing the game," but they also have to get the gals interested in the sport. So here's to bigger and better athletic reps! Neither Vic, P.H.E. (nor Trinity) has shown any signs of in-

PSYCHOLOGY?

One of our first lessons in reporting was that of mentioning names. Consequently we feel quite remiss at not having written up the P.H.E. Freshie game in more detail. A complaint to that effect has reached us so we offer profuse apologies to Joan Christie, Marg Pellow, Marj McGregor, Vera Gilchrist, Ruby Hope, Marion Smith, Joan Smith, Shirley Griffin, Gwen Lewis and K. McMillan. We would also add that our reporter apparently isn't infallible and consequently we would appreciate a write-up of any of the games in future by one of the participants of the match. Don't all speak at once!! Incidentally, they tell us that this freshie team has all the earmarks of champs if they stick together for the next year or so.

THE LAST LAP.

THE LAST LAP...

The basket ball is whipping down the home stretch at such a rate that we find the semi-finals scheduled for tonight and Wednesday. At 5:30 Monday at O.C.E. gym Meds play P.H.E. Seniors and at 6:30 P.H.E. Junors play Vie Seniors. On Wednesday at 5:30 P.H.E. Seniors again play Meds and at 0:30 Vie Seniors take another fling at P.H.E. Juniors. Two games are to be played . . . a win nets two points, a tie earns one point and a loss hauls in zero. The schedule results are out, and appear on another part of this page. Are there any players who would like to write up these games??

"The" Co-Ed(Continued from page 1)
will choose two on Monday afternoon.
It is believed that this year they are really making use of their women engineers.
St. Hilda's are nominating four girls from each year, and the men of Trinity with the help of a few of the staff will choose the two lucky winners at a meeting in Strachan Hall Tuesday evening.

Co-eds may be nominated by anyone in Loretto and St. Joseph's, but

THE UNIVERSITY OF TORONTO, TUESDAY, DECEMBER 7, 1943

Three Professors Appointed Judges For Green Issue

With only one more day for contribu tions to be handed in for The Varsity Literary Issue three judges have been appointed to mull and ponder over student literary and artistic efforts. Yesterday Rex Wilson, Editor-in-Chief of The Varsity announced that Prof. P. H. Brieger of the department of Fine Arts, Father L. K. Shook, Professor of English at St. Michael's College, and Prof. H. N. Frye of the English Department at Victoria College had consented to accept the jobs of judging art, werse and prose compositions respective.

Tomorrow students will have to have their quarters ready as they walk across the campus for there are going to be over 200 girls from all the faculties waiting to "T" them. "Ting" is so called because each of the campus lassies will sell blue Varsity T's in order to raise money for the War Services Drive.

Rephase Powe of St. Hillde shinker The Varsity announced that Prof. P. verse and prose compositions respective-

Commenting on the appointment of the judges the editor said: "We are very ortunate that these men so graciously onsented to help The Varsity in this tay. Their jobs will not be light, as week with the said week of the money evenly between the Red Cross and the Salvation Army. It is really a week while each of the money evenly between the Red Cross and the Salvation Army. It is really a week while each of the money evenly between the Red Cross and the Salvation Army. It is really a week while each of the money evenly between the Red Cross and the Salvation Army. the judges the editor said: "We are very fortunate that these men so graciously consented to help The Varsity in this way. Their jobs will not be light, although Prof. Brieger has so far received only two contributions for his department and Prof. Frye has been relieved of about half of his work through the failure of any essay entries to appear."

The same and the Salvation Army. It is really a worthwhile cause."

Barbara was telling how the T's were to be sold..."And each T will be sold for not less than 25 cents." This isn't tagging, she pointed out. She calls it T-ing and she wants people to remember that's what it is.

The campus is being divided into areas so that the valunteers will be.

Competition, which runs in five categories, is divided as follows. One prize of \$5 for art, a similar prize for light verse and another for serious verse. In the prose division there will be a \$5 prize for the best sketch or short story and provision has been made that if the judge cannot decide between two entries both a sketch and a short story will be given a prize. A special prize of \$10 will be provided for best cssay on the general subject of possible development of the availability of higher education following the war. The editor has pointed out that a single entry in this last classification will not necessarily win the prize. If no suitable entry is received in any class the prize money will be re-allocated according to

merit among the others.

Despite the seeming lack of interest in some departments the editor said that the number of entries is up to the usual figure with sketches and both light and serious verse making up the

Entries must all be in by 5 p.m.

Fluorescent Lighting Topic Of Illustrated Address To Engineering Societies

Cycle Current

WIDER USE PREDICTED

An increasing prominence for sci-entific lighting was vizualized by Mr. J. W. Bateman of the Canadian Gen-

eral Electric Co. in a speech before the Illuminating Engineering Society and

escent and Gascous Discharge Type Lamps on 25 Cycle Circuits," Mr. Bate-

man dealt with the background, present

dealt with the history, and lighting implications of 25 cycle current. Mentioning the original advantages of

25 cycle current for driving motors, Mr. Frampton explained that 60 cycle current soon equalled this feature, while

being at the same time better for light-ing. But since 25 cycle was by then established in Niagara, and was better

U.C. Debaters Vote For Canada To Join Union

A motion that Canada should join the A motion that Canada should join the Pan-American Union was carried by a close vote at Friday's meeting of the University College Parliament in the Junior Common Room. The revised constitution of the Parliament was Fluorescent Lighting and 25 passed.

In introducing the bill before the house, Prime Minister Jean Norman said that in the past there were some very good reasons why Canada should not join the Pan-American union, but that these reasons no longer existed. Up to 1933 Canada was not officially an independent country and was, moreover, absorbed in domestic interests and was not especially interested in Latin America.

Today she has achieved popular sovereignty and is an idependent nation. For reasons of defence, she cannot af-ford to remain outside the Pan-American union any longer.

Speaking against the motion, June Wrong said that in joining the Pan-American Union, Canada would be narrowing herself down to the field of

narrowing lersell down to the field of the Western Hemisphere, and that this would be an isolationist policy. Dave Bairstow, speaking for the government, denied that Canada would be isolationist if she joined the Union, and pointed out that ten nations in the Union are now at war, and eleven have severed diplomatic relations with the The fact that our economic relations with South America have not been extensive in the past does not mean tha this state of affairs will continue, as in 1941 Canada's trade with South America doubled. By joining the Pan-American Union, Canada would have access to a number of Inter-American Trade committees and agreements.

Trade committees and agreements.

Opposition Leader Roy Clark said

Tomorrow Is The Day

Tomorrow, it is fondly hoped, will be a day to remember. Tomorrow is the day when everyone who sets foot on the campus is prepared to shell out "two-bits for a T," a little more for the noon-time co-ed contest and then just a little bit more from the eds at least, for the evening's festivities, a Cinderella dance in Hart House. The Students' Cinderella dance in Hart House. The Students' Administrative Council has worked up a lot of enthusiasm in planning this War Services Drive; they have carefully investigated everything within the realm of possibility (and even a few things without) in plotting the day's program. It should be lots of fun for everyone, but more than that, it should prove very lucrative for the beneficiaries, the Red Cross and the Salvation Army.

In past years, with drives of this kind, there has been any need for brow-beating the student body into a state of co-operation. As a matter of fact, there were only too glad to get behind the band wagon and blow off a little steam. In view, then, of past experience we see no great need to exhort one and all to dig in and make the drive a success. Varsity students will naturally do that. So we won't waste space on unnecessary pleading but will go on to an appreciation of the plans of the day.

Backbone of It All

The most important part of the entire campaign, and unless everyone wears one and pays the minimum price of 25 cents for it, the S.A.C.'s quota will not be reached. There will be no difficulty in fiinding a T either, for almost every co-ed on the campus has been conscripted as a T-er (not to be confused with tagger) and no building, however lonely, has been left without its complement of persuasive sales-women. While on the subject, the women should not be left unsung for their heroic efforts behind the scenes in making this drive a success. Several over the past weekend stringing the many thousand may well be called a stronghold of the Humanities. T's in anticipation of tomorrow's drive. the long labor of gentle fingers that has gone into your T and wear it with pride. Consider also the time contributed for the T-ing itself and don't make the co-eds work too hard for that quarter.

The climax of the day and the peak of excitement The Editor, will undoubtedly come at noon with the parade and typical co-ed contest. But this too is not all mere frivolity, for a sizeable contribution to the total fund is expected to come from the sale of seats in Hart House Theatre. Ten cents is no great price to pay for the chance of seeing all the campus glamour girls gathered together on one stage, and of you're really interested (to the point of 25 cents worth) you can sit in the first five rows. That is if you get there

The parade of faculty floats remains more or less an unknown quantity, with each school jealously guarding its prize-winning deas from outside interests. It should prove one of the more interesting surprizes of the day. This parade is quite a novel departure for the usually staid Toronto scene and should reveal much in the way of latent talent and But The Varsity says En.

native imagination. No limitation has been set except the \$5 ceiling price.

And Into the Night

This year's committee has added one more entirely new idea, that of extending the drive into the evening by holding a dance in Hart House and directing proceeds from the dance into the War Services fund. The dance as planned resembles a little sister of the popular Athletic Nights, without the elaborate sports program offered by the latter. The idea is to be commended as one more opportunity for all us children to forget faculty bounds and get together for a good

So there you have it: War Services Drive, 1943. It looks pretty good from here, but considering what is said of mice and men we would encourage everyone to come down tomorrow and see what it's like but also to bring his "two-bits for a T."

Pontifical Institute

As every student who comes to Toronto eventually finds out, there is more here than meets the eye. This axiom lies at the root of The Varsity's Know Your University column. For the benefit of those students who lack or haven't time for the active truncistry of a reporter, we devie into this University world, seeking what we may bring to light. Today the object of our editorial scrutiny and of the light truncing the object of our editorial scrutiny and of the light truncing tr historical feature on another page, is a school almost unheard of among Toronto undergraduates but justly famous among more advanced students of mediaeval learning, that is, the Pontifical Institute of Mediaeval Studies. The Pontifical Institute is itself autonomous and cannot strictly be called a part of the University, but there is a connection between the two and no Varsity student should remain in ignorance as to its existence. The Institute was originally founded as a frosh have been brought up to the old graduate school for St. Michael's College and be-fashioned custom of dancing with girls cause of this fact the Institute professors are also members of the staff of the University School of lead. Graduate Studies. By this arrangement, men and women studying at the Institute may at the same time register in the School of Graduate Studies and qualify for M.A. and Ph.D. degrees conferred by the University.

The Pontifical Institute adds greatly to the intellectual life of the University in making Toronto the ground," he explained. centre on this continent for graduate study in mediaeval philosophy, theology, history, Latin and vernacular literature. When the Institute was first mediaeval philosophy, theology, history, Latin and vernacular literature. When the Institute was first founded several of the Basilian Fathers were sent to study as future staff members at the Universities of cracow, Louvain, Paris, Rome, Strasbourg and Harvard. The staff was further augmented by the importation of men of primary importance in the field of mediaeval study. Among these are Rev. Gerald B. Phelan, M.A., Ph.D., LL.D., who is Pressential."

I would be less tendency towards that cheek-to-cheek dancing, when the dark of which I never did approve. And as for the good-night lass—well, it's now a thing of the past, thank goodness!"

One of the fouth year architects was skeptical of the whole issue. "Fundamentally unsound," she opined, "I know I find myself pretty darn essential." Gerald B. Phelan, M.A., Ph.D., LL.D., who is President of the Institute; Professor Etienne Gibson, Ph.D., LL.D., Director of Studies, and Professor Jaques Maritain, eminent philosopher of the school of St. Thomas Aquinas. The Pontifical Institute attracts many graduate scholars from Canada and the States and helps in no small manner to spread the fame of Toronto.

One of the greatest contributions made by the Institute to mediaeval studies is its library, containing an almost complete collection of Mediaeval sources and reference works. Microfilm and photographic proving in the proverbial sources and reference works. Microfilm and photographic proving its pr and the least spectacular, is the sale of blue T's, with-out which no one will be able to cross the campus Ph.D., LL.D., Director of Studies, and Professor tomorrow. The T's form the backbone of the drive Jaques Maritain, eminent philosopher of the school

Swim League Title To Senior School

Northwood Leads Team To Interfaculty Victory

WINNERS '41 CHAMPIONS

The powerful Senior School swim squad, led by Johnny Northwood, swam its way into the Interfaculty Swim League championship yesterday evening by handing the hitherto undefeated Junior School team a 27-6 setback. Although the score seems to indicate a complete rout for the Juniors, it was by no means a one-sided affair. The Juniors showed the same fighting spirit and tenacity to win as they had successfully applied against the Trinity men last Thursday. This, however, was not enough to shoot them to the top; they lacked experience. Consequently they succumbed to the more experienced powerstrokes of the Seniors; and small powerstrokes of the Seniors; and small wonder, for every man on the Seniors' squad was a member of the Junior

School championship team of '4I.

Johnny Northwood, who has never backstroke competition since his arrival at Varsity three years ago, paved the way for his team's success in the opening event, the 150-yd. medley which comprised the 50-yd back, the 50-yd. breast and the 50-yd. free style. Solym. oreast and the Solym. The style. It is some in the relay, gained a two-length lead over his opponent Jim Martin. Try as they might the Juniors could not overcome this initial setback; the lead remained unchanged and the Seniors came through for three counters.

The Seniors' cocky confidence was

The Seniors' cocky confidence was fiaringly illustrated in the second event when Johnny Northwood, as the sole representative of his team, pitted his agility against two Juniors, Hank Ballou and Harry Kohl, who were no match for the veteran Northwood. His every stroke shot him visibly and noiselessly ahead of his splashing opponents. He finished three lengths ahead of Ballou and five points richer; the Juniors earned four points.

Senior School is set for four-thirty this afternoon in the small gym at Hart House.

An arcanization and in the armed forces. Tom Waldon, incidentially, is that fellow who you might have noticed filling quarter-back boots on the Navy's local rugby team. Two others from last year have graduated. These are Durocher and Dewar, the latter of whom was recently killed in an automobile accident while returning to this R.C.A.F. post just outside Belleville. The whereabouts of the control of the senior school is set for four-thirty this afternoon in the small gym at Hart

the other three are not known.

An organization and inaugural practice session will be held to-morrow afternoon at five and practices again at five on Thursday and Friday of this week. Next week's practices will be announced in the near future. The pre-Christmas practices will take the form of an intensive training period, and the team will be selected from those who have best used this period to get into condition.

Last year's program of Athletic Nights will be continued, and the Varsity basketeers will get their opportunity to display their cage ability on these occasions. Athletic Nights, sponsored by the various faculties, will be held each Saturday for five weeks beginning January 29 and ending February 26. The first two Saturdays are as yet open dates, but exhibition games have been arranged for the remaining three. On February 12, Assumption College of Windsor will meet the Blues. On the 19th Detroit Institute of Technology will travel Hart House way, and on the 26th the Ontario Agricultural College of Guelph will be on hand.

The first two Saturdays will probably see service teams invited to use various was done by Betty Mortimer and Jean Stinson, who very fair judgements and quick decisions.

LAST CALL TO ARMS ...

Now don't get us wrong about this! We couldn't think of an appopriate head for this paragraph on riding, so we figgered that it might be a drawing card or something to attract angress to the list in the U.C. rotunda. A mere eight or ten names is hardly enough to warrant of guelph will be on hand.

The first two Saturdays will probably see service teams invited to play to the Athletic Night crowds. Midweek games with service teams are also possible but no arrangements have as yet been made.

This, then, is an appeal to all basket-minded students of the male variety to rise up to the call of McCutchen. With so few of last variety to rise up to the call of McCutchen. With so few of last ward in the certainly is the said time and hour. This will probably be the only chance for a Varsity team of any kind to show its colors this winter and we trust that each faculty will contribute so that the team may be worthy of the Blue and White.

A BIT FROM BUD . ..

What above the said time and hour to the context of the properties of th

While indulging in some cultural reading this evening (we think the Tely is too intelligent, don't you?) we noticed a little item that struck a responsive chord in our moribund memory. Herewith is the context: "Detroit Tech defeated University of Western Ontario senior basketball team at London on Saturday by 50 to 23. Coulthard was the pacemaker for the Michigan Quintette with 20. Airtight zone defence of the visitors caused the Mustangs to resort to haphazard long shots." As you have read in Phil's opus above, Detroit Tech is due to meet the Blnes sometime in February, so the boys better start bearing down. start bearing down.

due to meet the Blues sometime in February, so the boys better start bearing down.

But there are two open dates for the Blues on the first two Athletic Nites. There might be some trouble getting teams that would draw well, "name" teams in other words. And so, AND SO (this in a whisper), what about Western? Well, what about them? Of course it is impossible, the Mustangs what have to travel all the way to Toronto and you know how overcrowded the transportation systems are; far better that we should get teams from places nearby like Detroit and Windsor! (We never were very good in geography.) And then there is the fact that we would be playing against University opponents. That would be, dare we say the awful word, Intercollegiate competition, and obviously intercollegiate competition is either illegal, immoral or fattening, though we suspect that the latter has been previously applied to the heads of the I.A.A.U. But as we mentioned competing with Western would be playing against another college, therefore not to be condoned, so it is better that we match skills with local, non-collegiate organizations like the Ontario Agricultural College of Guelph, and Assumption College at Windsor.

We reckon this would be a matter for the Athletic Directorate to decide (if they are still breathing) but don't expect much from them. About two weeks ago we questioned a member of the Directorate as to who was going to coach the basketball team this year. He looked at us with surprised innocence and squeaked, "What basketball team?" 'Nutf said.

Betsy Mosbaugh

A STEPPING STONE TO THE FINALS

P & HE Seniors won their first game with Meds last night to inaugurate the semi-final bout. The Phys. Eds. gleaned 36 points to Meds 16 in a rough but un-outstanding match. Meds have only three forwards, and one of them had the misfortune to be away last night, with the result that their defence was forced to whip up to the forward.

played.

Towards the end P & HE were right on the beam and scored a couple of baskets in the last few minutes. The Phys. Eds. teamwork was something to admire. Their six man defence was clicking comparatively well, with the forwards and guards co-operating without

fault.

In the first half, P & HE gave Vic a close run and closed the time with 14 points to Vic's 13. Then the old Seniors set about to regain their seniorial rights in the second half. Betty Gordon, Shirley Pearse, Mildred Donaldson did some zooty passing on Vic's forward line, while Isabelle Gemmil executed some noble guarding.

Pat Flynn, Muriel Finlayson and Doris Clarke had a share in P & HE's 23 points, and what with their six man defence, would have knocked some points off the score, if they had been as hep as they were at the end

On one of the first CO.T.C. parades of the year, a cadet appeared on parade without his uniform (contrary to all sorts of regulations). Came the time for the platoon commander to inspect his platoon, and he halted in front of the poor unfortunate in mufti (civilian clothes. to you').

clothes, to you).
"WHERE IS YOUR UNIFORM?" he shricked in the quaking cadet's ear. (That is, the cadet was quaking, not

his car.)
"Please sir," he replied VERY
humbly, "it's in cold storage at Langley's (this does not constitute an enley's (this does not constitute an endorsement of Langley's by the Department of National Defence, since the Department does not endorse any product or company) and I can't get it out for two weeks."

"OH," replied the two-pipper.

Very late one night we boarded a Bloor car, closely followed by a very pert young lady carrying a brown paper bag. Since it was raining, the paper bag was wet, and finally the bottom gave away. Out onto the floor of the street-car poured about two dozen golf balls. (She was on her way home from the Black Market, no doubt.)

The laws of mechanics began to take effect as the car speeded up, slowed the car speeded up to the car speed up to the car speeded up to the car speeded up to the car speed up to the car speeded up to the car speeded up to the car speed up to the car speeded up to the

The laws of mechanics began to take effect as the car speeded up, slowed down, and speeded up again, with the result there were golf balls bouncing and rolling merrily all over the floor, with our fair friend in close pursuit, stepping on peoples' toes, reaching beneath their scats, and being, on the whole, terribly embarrased.

We left her at that point, but with two questions uppermost in our minds:

With that slightly risque offering, we but the previous the content of the previous the content of the content

two questions uppermost in our minds:
Did she get all the golf balls picked
up? and Where did she pick up all golf balls?

Tune in next week and find out. . . .

Once upon a time, when the C.W.A.C. was first organized, a pretty little CWAC was riding upon a street-ear. (It seems the darndest things happen of street-cars.) Anyway, the street-car was very crowded, but our little army girl had a seat. At one stop, a Colonel got on, and of course, was forced to stand. Immediately the CWAC jumped up and offered the Colonel her seat. The Colonel refused. The CWAC finisted. And so it went

Senior School Wins Swim Meet

After a brief breathing spell, J. Northwood, along with his team-mate Norm Lea and his adversaries Ken Sharpe and Joyn Fydell, again took Norm Lea and ms adversaries Nor.
Sharpe and Joyn Fydell, again took
part in the 50-yd, breast-stroke. This
event started with all four men hitting
the water simultaneously and keeping
neck and neck for one length of the
pool. It was any man's race. Only neck and neck for one length of the pool. It was any man's race. Only the experienced art of turning swung the race in favor of the Seniors. Northwood was now three feet ahead of Sharpe and Fydell. Their respective distances remained virtually unchanged throughout the last lap. The Seniors were now sure of victory as they hexped eight more points on their scale. Ken Sharpe, who was credited as third best, gained one point for the Juniors. The time for this event was 35.6 seconds. Experience again proved to be the dediding factor in the next contest. In this, the 50-yd. free, Pam Robertson, the natator who broke the T.A.S.S.A. record at the Oakwood pool in '39, and

the natator who broke the T.A.S.S.A. record at the Oakwood pool in '39, and who since has gained the sincere respect of every Interfaculty swimmer, heaped more laurels upon the Senior squad by

watching in future events.

With only the 200-yd. relay left and their loss ensured, the Juniors did not slacken their typical cager determination to win; every member still tried his stacken their typical cager userfilmation to win; every member still tried his utmost, as if the outcome of this race would spell victory or defeat. Harry Kohl of the Juniors and Pete Aylcroyd, the self-styled utility man of the Seniors, were the starting men in this contest; were the starting men in this contest; both men, in nervous eagerness, splashed the blue before the official go sounded. Aydroyd, after a second chance at starting, established a one-length lead over Kohl. This lead was only threatened by J. Martin, a Junior, who, swimming against Lockhard, decreased it to a half length. Norm Lea, however, polished aside all doubt as thisshed first in 2 minuites, 1.5 seconds to toss three more points into the Senior's already overflowing bowl. Seniors' already overflowing bowl.

What's On Today

S.C.M.

S.C.M.

The Weekly Prayer Service will be held in Wycliffe College Chapel from 1:05 to 1:30 p.m. today. All members and their friends are invited.

MODERN HISTORY CLUB

The Modern History Club Christmas party will be held in St. Hilda's tonight at eight. Program includes skits, songs, at eight. Program includes sitts, songs, carols, Santa, dancing and refreshments. Tickets 15 cents for members; 30 cents for non-members; for sale at Baldwin House or from Year Reps.

LORETTO COLLEGE

Drama Night at Loretto College this evening at 7:45. Two plays will be presented: "Mrs. Brady's Cow" and "Polly Put the Kettle On." Admission is ten cents. Everybody welcome.

VIC CLASSICS CLUB Victoria College Classics Club will hold its Christmas meeting at the home of Dr. Sissons, 64 Admiral Rd. Mr. E. Brampton will read a paper. Latin Christmas carols.

WEDNESDAY, DECEMBER 8, 1943

Today Is The Day!

Today is the day. By midnight tonight we will all be looking back over it tired, broke, but happy. For if past experience is any indication, the annual War Services Drive has tended increasingly to be a memorable feature of the school year. It affords the one occasion on which the school spirit really comes to a boil in a manner fully comparable with the BIG GAME mood of peace-time years.

Being old and somewhat nostalgic, we can trace with pleasure the growing power, organization, and spirit of the various drives. The time two years ago when the Students' Administrative Council and the undergraduate Victory Club got together to challange a McGill Mile of Pennies with a March of Dimes, the first occasion of really extraordinary enthusiasm.

March of Dimes

All day enthusiastic individual students and campus groups vied with each other to see who could lay the better per-capita contribution on the dimeline with such fury and zest that by sundown the quota of \$1,000 has been passed and the drive, which had been projected for three days was over in one

Competition of course flared highest between Meds and S.P.S. and when thir massed student bodies had made their donations they pitched into a traditional de-bagging foray the like of which has not been seen before or since. Ostensible prize of the struggle was a boastful Meds banner, but when the scuffle was over numerous individuals in half-dress were observed trying to find their proper complement of military clothing. This was difficult since the army all dresses in one color. It didn't matter much, anyhow, as all pockets were empty by that time.

The following year further outlets were found for enthusiasm and the actual potential of spirited mayhem was somewhat reduced. The Typical Co-ed competition was instituted and proved an absorbing interest. Street-dancing which had sprung up spontaneously the year before was an organized part of proceedings and by sundown the previous year's contribution had been exceeded and in addition a truckload of books had been collected for the services

Cross, will be given tomorrow's proceeds to apply to their wartime needs. A "Sally Ann" canteen will be on hand to dispense coffee and doughnuts. Its on hand to dispense the day grows obtill, and in any case it will be a matter of considerable interest to be served by such a unit and be able to observe its operation.

To "A Schoolman"

In a letter published recently in the Correspondence columns of The Varsity, the paradox of military training on the campus was criticized by an Engin-

eering student.

It is gathered from the context of the letter that the writer objects to the fact that Medical students, who are enlisted in the Army, do not have to take military training, even though they are receiving army pay and subsistence, while students in other faculties must spend from four to seven hours a week taking training for which they receive little or no pay. However, if our correspondent will analyze this situation a little further he will see that there is a good reason for it.

Medical students cannot join the Army until their Fifth Year, and up until the completion of their Third Year, they must take C.O.T.C. training similar to that given the other students. Yet during this time, their vacations have been drastically shortened, hence it is very difficult, if not impossible for most army pay and subsistence, while students in other

hence it is very difficult, if not impossible for most students to earn money to pay tuition fees.

For this reason, they are allowed to join the Army so that the burden of their expenses may be shared by the Government. Since our correspondent is a Schoolman, he probably knows that Government authorities and heads of Engineering Schools have discussed fully the feasibility of permitting Engineering students to join the Army and have decided that the entrance of the subterranean tunnel this would not be practical, since a very important part of an Engineer's training is the practical training obdy's Fifth Avenue penthouse added weight to the official story of the hadhe gets working in industry during the summer months. If an Engineering student were in the Army, and the course accelerated, a very important part of his training would be neglected.

Our correspondent has also cast a thinly-veiled hint that Arts students should not be permitted to continue their studies since their "studies are not essential to the nation." This is a very unfair remark to make. While the benefits to the country derived from work done by Arts graduates are over shadowed greatly in war-time by technical graduates, their contribution to the nation in peace-time and in post-war reconstruction, is invaluable.

If Arts courses were discontinued, there would be a grave shortage of economists and other trained personnel in the post-war era. Our correspondent is presented to the president embark on three such expeditions since I came here; whe expeditions since I came here; whe expeditions since I came here; whe take any of those nasty men along. What would the girls think? He is all graves and the presented the presented to the presented the president embark on the president embark of the president embark

a grave shortage of economic planning were left to engineers.

We could present many more arguments on behalf of military training on the campus, but space is limited and we would refer "Schoolman" to the editorial columns of The Varsity of Friday, Oct. 15.

Dody, Do-eds Flit Campus Drive Off

Sir Willie's Etchings Lure Campus Beauties to Fifth Ave. Pent-House; Disguised Male Schoolmen Among Number

Disappearance of President Dody and e Most Beautiful Co-eds of 11 faculties

cral minutes and was with difficulty persuaded to go on.)
"Well, they all assembled at the Simcoe Hall door, when the President appeared—such a kind, gentle man he was, too—and he said they simply must come in and look at Sir Willie's etchings... and they did, and we never saw any of them again..."
Rumors of a long black sedan with chauffeur attached lurking in wait at the entrance of the subterranean tunnel

weight to the olitical story of the hap-pening. "I am thoroughly and utterly dis-gusted," rumbled Sir Willie Hillock through his whiskers. "The President's conduct appals me. Why didn't he take me too?" he added.

old dear."

old dear."

The sombre side of the proceedings was divulged by Tangent McSlydrool, Mech. IV, president of the Engineering Society, with the announcement that three of the missing "co-eds" were third-year Schoolmen in disguise. "I presume they will get plastered," he said soberly, "and heaven knows when they will ever come back." As the interviewer clucked sympathetically McSlydrool held up a warning hand. "You interviewer clucked sympathetically Mc-Slydrool held up a warning hand. "You haven't heard the worst of it. One of them had my best girl's duds with sofa-pillow padding, and she can't appear on the campus until he returns. I can't even go to see her. Life is cruel," he finished darkly, counting out 40 counter-

Tid-bits from the College Papers

The Carol season has opened. Official observance was held last evening beneath the frosty windows of Whitney Hall by a group of Army Course lads on their way home from evening classes. Heralding their approach with 'Good King Wenceslas' and signaling their departure with the usual livid lantern, used on night merches, the student-soldiers merched up the back path and circled the quad before settling down to their impromptu carol singing.

English as she is spoke:

There was a young lady named Chloe Whose dress was decidedly show, While the skin, I might not, On her face and her throt Was not merely pasty, but doe.

The Sportswoman

By Helen Taylor

START THE NEW YEAR RIGHT . .

The brains behind the hockey set-up are getting together today to draw up the schedule which is expected to get under way the second week of 1944. The meeting for the reps. of the different colleges is to be held at Wymilwood this afternoon at 4:30.

According to Shirley Pearse, certain rules will be rehashed at the meeting, to guard against a recurrence of the injury epidemic which popped up last year. The greatest difficulty seems to be lack of proper equipment for the teams. In the case of Meds. and O.T. the Athletic grant will not cover the expense.

Nine or ten teams are expected this year, with second teams each from Vic, P.H.E. and U.C. for certain. The schedule will be arranged so that the finals will be played before the end of February, and not when the balmy spring weather is setting in.

We are interested, coming from a district which produces only male bockey stars, in knowing how the females took to the game. The rules are the same as those used by the boys, but the game is does not retard the fun of the sport and the participants all have a rip-snorting time.

Rumor has it that the spectators are mostly men, which is all right if nothing better is to be had. But we do hope that there will be a little better support from the gals in basketball. Sounds good—tome on, fellow freshies, let's make a stab at it.

MERIMAIDS!

Another 1944 event worth noting will be the swimming meet at Hart House around the 1st of March. Teams representing the different faculties will participate first in a preliminary meet to be followed the next night by the finals. The competition will probably be diving, ornamental swimming, 50-yd, breast stroke and free style relays. The Robertson Trophy for the individual style is at stake. Winnifred Baxter will be at the L.M. pool to help any person wanting instruction and credits are given to the first years trying out for the

ERSATZ—PHOOEY!

"Badminton seems to be doomed for the duration," is the opinion of Joan Snyder, the head of badminton. It is impossible to get the birds this year and the new puff-ball substitutes aren't being accepted with their final point. Brent's serving of with any enthusiasm.

A determined Trunty team took the loop right of the third game and jumped into a 2-0 lead but the Engineers, sparked by Pringle and Gibson, ran the birds this year and the new puff-ball substitutes aren't being accepted with their final point. Brent's serving of six straight points was the feature of

Trinity Provides Steady Opposition But S.P.S. Gains 15-7, 15-3 Decision; Seventh Title For School This Season

The teams changed ends and Trinity served four successive points to end the lost the serve immediately, but after School served a point they regained it and jumped into a 2-I lead before losing the serve again. School regained by served four served again. School regained the serve again. School regained but were not as tall on the possession and scored three more points average as the School team. Pringle deficition of the principle of the server and also defined that the table the latest the state of the server and also defined the server and also defined the server and also defined the state of the server and also defined the state of the server and also defined t but Trinity won back the serve and also

TUG-OF-WAR . . .

Watson is a bum. This rates no exclamation mark; I make it as a simple statement of fact. Frank Watson is him to who I refer, the so-called promoter of tonight's athaletic events. I realize that it ill-becomes me to make these interrogatory remarks about so prominent a personage on this campus, for, if the truth was to be told, as indeed it shall doubtless be, his action in promoting the coming athaletic events shows touching faith in the spirit of the undergraduates of which we shall not allow him to be disappointed of.

Although called upon at the last minute in a extraordinary session of the Students' Administrative Council meeting at its regular time last Monday afternoon (If you don't believe it was an extraordinary meeting it only proves you weren't there.) we of the S.A.C. (Student Association of Calisthenics) guarantee to pull together with our shoulders to the wheel and if grim determination, spiked shoes and greased floors are of any avail, we shall undoubtedly pull the faculty team flat footed and popeyed 'ere many heaves have been hoven.

The events referred to above, are, of course, mainly the pullfight to be featured at this evening's Cinderella Ball, where also will be featured a blindfold free-for-all between Schoolmen and the remaining

The S.A.C. team. (Note illegal weapons.)

Artsmen. "Floorshow" is indeed an excellent domination for the affair, as we wager (which is, "bet") that the wise old men of the faculty will make most of the journey prone. This despite rumors that they have been detected surreptiously weighting their breeches with heavy tomes.

W.N.S.T. Compulsory First
Aid Examination Judge Colorful Floats From Six Faculties in Campus Parade Yesterday

1.200 STUDENTS WATCH

Termed by many students the biggest event this campus has seen in many years, the University War Services Campaign parade yesterday at noon drew over I,200 students out of lecture rooms to crowd around the campus grounds to watch.

Floats of many forms came from Journalistic Quality every faculty on the campus to assemble in front of the Medical Building. Led by the C.O.T.C. brass band, the parade proceeded on sehedule to Simcoe Hall where President Cody joined it. To the strains of "Blue and White," the parade went around the campus several times, then to the court on the south parade went around the campus several times, then to the court on the south side of Hart House. Here the floats passed in review before Col. A. D. LePan, Superintendent of Buildings and Dr. W. J. Dunlop, Director of University Publicity who judged the multi-wersity of Newada.

In describing the effects of the war through the forest publication of the department of journalism, but of the de

save 100 per cent gas" truck loaned to be the students for the occasion by the the students for the occasion by the lan increased paper circulation caused by stimulation of the truck were more evergreen trees, a stuffed wolf, a stuffed deer, "Paul Bunyan, the Mighty Woodsman" and a "Whitney Hall Squaw." Appropriate signs hung from the truck. It was necessarily been a shift of emphasis in newspaper writing to matters abroad, signs hung from the truck. It was which has given the average reader a followed by a rearguard of 15 Forestry broader outlook on world affairs. men carry packsacks, crosscut saws, axes and spades. The float was judged best because of its novel design and its appropriateness to the faculty it represented. This year's prize-winning represented. Into years pitze-winning float represents a repeat performance for the Faculty of Forestry. Sixteen years ago, in the University Centennial Parade, the energetic little faculty received honorable mention for its float. The float consisted of a fire-rangers' look-out tower surrounded by other symbols of forestry work.

Other floats in this year's extrava-ganza that gave the judges trouble in their selection of a winner were those from Trinity College, Faculty of Med-ieine, S.P.S. and U.C. Trinity's float was a red and black trimmed surrey bearing a group of austere divinity students.

The float from Medicine offered a tore serious tone to the parade. The ack of the truck depicted a battlefield with a wounded soldier being treated with the Canadian Red Cross blood serum. A bayoneted rifle stuck in the earth held the bottle of serum. in the earth held the bottee or scruin. The float from S.P.S. was an elaborately designed eage housing Hitler riding a donkey. Following close behind on roller -skates was a not-so-faithful replica of the little red school house with artfully designed signs and remarks written on the walls.

Following the parade, Ted Thomson, Following the parace, 1ed Homson, S.A.C. representative in charge of the War Services Drive, said, "We knew that the drive would be a success only if everyone got behind it. Everyone did and the parade was far beyond our STRECT-NEWS."

There will be a final examination this afternoon and Tuesday in the Women's Union for students who have completed their first aid and home nursing course at St. John's Ambulance Centre. Day students are scheduled as follows: U.C. at 4 J'clock and Vic and Trinity at 5. The Residence girls will write their examinations on Tuesday, U.C. and Trinity at 4 p.m. and Vic and St.

been taken into the armed forces.

The float from the Faculty of Forestry was, after a short consultation, declared the winner. The Forestry display was led by a vanguard of rough and ready lumberjacks bearing tall evergreens on their shoulders. They were followed by a wood-burning "we latter due to shortage of goods. One save 100 per cent gas" truck loaned to of the favorable results of the war is the students for the occasion by the subgrave agent from the constant of the war is the students for the occasion by the subgrave agent from the occasion by the subgrave from the occasion by the occasion by

THURSDAY, DECEMBER 9, 1943

A Great Day

Another War Services Drive has come and gone, leaving all participants with that familiar tired-buthappy feeling that follows any good deed well done. As President Cody put it, it was a great day in our academic career. The most elaborate drive to hit the campus yet, this year's campaign went over with a bang and early reports from the coin-counters indicate that proceeds are well up to expectation and promise to surpass last year's substantial contribution. The Red Cross and the Salvation Army will have strong reason to remember the 1943 University War Services Drive.

The Credit Side

But the men and women who were on campus yesterday will remember it longer. The dreary weather may have kept a few of the less hearty type away, but the surging crowds who stayed watched the last straggling float disappear in the mist before returning to a sudden realization that the fog had turned to rain and the usual hour for dinner was long past. The parade of faculty floats was undoubtedly the feature attraction of the day, original and enter-taining enough for even the wildest imagination. Forestry's well-earned prize was no mere judge's decision. It was public acclamation as well. The boys deserve a big hand for their wealth of ideas and enthusiastic execution. The smallest faculty on the campus, Forestry presented a remarkable exhibition of co-operation and spirit with almost one-half her registration represented in the parade, and each playing his part with fervor. They left no doubt in anyone's mind that the Uunversity of Toronto has a School of Forestry. While on the subject of floats, Meds deserve honorable mention for their fine re enactment of a blood transfusion on the field of battle. Here too, we can't help but remember the ludicrous take-off of this picture by U.C. All in all, it was a good parade and it's hard to tell who enjoyed it most, the innocent bystander or the cavorting parader.

The quest for a typical co-ed was carried out with great gusto, at least on the part of the predominantly School audience. Hart House Theatre has rarely seen so enthusiastic and vociferous an audience. The sights and sounds of that crowded half-hour would satisfy any seeker after University spirit. The irrepressible Schoolmen had their Toike Oike down to a science and if noise (it could hardly be called applause) had been the judges' criterion there might enjoyment, try a slice of this. been another typical "co-ed."

Another feature of the day deserving mention is the less-glamorous but highly essential sale of T's The many efficient co-eds turned out to cover all the campus buildings and attend to the business of the day deserve a special vote of thanks. They say it was fun, but from what we could see of them through the dank air, it looked like perseverance. The girls apparently had no trouble getting rid of their T's and they say the general public shelled out quarters with a will. Morning labs and lectures were en-livened by invading T'ers, just to make sure even the studious heard about the drive and gave his

The Debit Side

pass unnoticed by the public. This year's War Services Drive committee was not so fortunate. A num-ber of enthusiastic but unruly individuals precipitated a rush on the gatemen at the theatre yesterday and succeeded in packing the auditorium with a crowd, a large number of whom had not paid for the privilege of being there. As a result large numbers of people had to be cleared from the aisles. Many of these had paid to be there, but had to leave. Those who participated in this childish defiance of authority can only feel ashamed of their action which helped mar an otherwise perfect day. By getting "something for nothing" they deprived many of their rights.

On the other side of the picture a bouquet of no small size or uncertain fragrance should be bestowed upon those deprived of the privilege for which they had paid. We have not yet heard of any of them asking for their money back; all have apparently accepted the incident in true carnival spirit.

No accolade is merited by the members of the regular staff of Hart House, who, with excellent intentions, stepped in to restore order and a due observance of the fire regulations. The aisles were cleared most effectively, but the actions of the staff took on a ridiculous air when, with irritating and nervous suspicion, they refused to admit several members of the committee and The Varsity's representative, and long delayed the entrance of Dr. Cody and the contestants from one of the faculties.

But this all constitutes but a small cloud on an early of the contestants from one of the faculties.

But this all constitutes but a small cloud on an otherwise clear day. This year's drive will never be surpassed in broad and daring conception and in the general success of the plans, although doubtless administration may be improved in the future. It was fun, wasn't it? It certainly was a great day.

Town Hall Tonight

A professional two-man debate on a subject pregnant with possibilities for a discussion of modern civilization by two men noted for having a lot to say Auditorium tonight when the Toronto Local Council of Women presents the first in their series of Town Hall lectures. When Sinclair Lamin to the content of the contestance of the contes Browne, self-styled "close friends and chronic opponents," rise to debate the question, "Is Machinery Wrecking Civilization?" members of the audience will witness the clash of two philosophies and will undoubtedly hear two varying commentaries on life and the way we are living it. Both debaters are well-known literary men, one of the American and one of the English school. Artsmen who still consider it essential to study their native literature are familiar with the pessimistic satire of Lewis's novels of present-day America might enjoy hearing him propound his views in person and defend them against so able a lecturere as Browne. Then again even the practical student who has now gotten beyond all English courses might enjoy a stimulating two-part lecture on such a universally interesting subject.

The Toronto Local Council of Women performs service to the community in bringing to Toronto internationally-known lecturers and monologuists, men and women currently rated tops in interest and entertainment. They offer something more than the regular fare of music and drama. The lectures for this year are spaced at irregular monthly intervals, December through April. Besides tonight's debate they offer Emily Kimbrough, of "Oure Hearts Were Young and Gay" fame, lecturer; Erika Mann, daughter of Thomas, leading anti-Nazi author and lecturer; Dorothy Crawford, who amuses people by talking to herself; and the Waldorf chatterer Ilka Chase who talked herself into stage, screen and radio and so feels quite at home on a lecture platform. The Town Hall Series brings a touch of old New York to brighten an occasional Toronto night. If you are looking for stimulation, relaxation or plain

Melodic Bouquet

Conservatory Concert Hall

At the third Chamber Music recital in the Conservatory Concert Hall yesterday afternoon, a variety of styles was made manifest. The Conservatory Quartet, composed of Elie Spivak, Harold Sumberg, Cecil Figelski, and Joyce Sands, opened with the Mozart Quartet in G Major, giving it an elegaic Administrative errors are bound to crop up to mar such events as yesterday's, but usually these are overcome, after more or less severe headaches, and "He built a house which is neither too large nor too are whechman and interested are when the sum of the term. All interested are when the sum of the term. All interested are when the sum of the term. All interested are when the sum of the term. All interested are when the sum of the term. Unknown Imposter Typical Co-ed

'Miss Simcoe Hall," Aging Im-poster, Tricks Expert Judges at Yesterday's War Services Drive Contest

ANSWERS TO "DODY"

Pandemonium broke loose at the judging of the Beauty Contest finals yesterday in Hart House theatre when

tion. He declared that judging would have to be re-opened.

ave to be re-opened.

The alleged Miss Simcoe Hall slipped ander the arm of the Hart House guard at the stage door while the latter was busy giving a right uppercut to a Varsity reporter assigned to cover the story, and joined the bona-fide contestants in the line-up. Gaily beribboned and smiling sweetly under masearaed cyclashes, the imposter befoozled even eagle-eyed judge Sam Tweetie with a display of choice angles and frontal curves.

Questioned afterwards regarding his

mistake, Dr. Tweetie confessed that he

from the ideal of femininity.

"It was the ribbons that got me," admitted Judge Larkin. "I remembered all in a flash how once, long ago, I was the beribboned pie-eating champion of Warwhoop County with all the girls admiring ...ah mel A wave of nostalgia swept over me, and I awarded the palm

to Miss Simcoe Hall on the spot."

Suspicion regarding the winner's bona-fides first arose, it is believed, when on being notified of the award she broke into a simple smile and said hoarsely "We are at War."

Breaking into tears as he undid his stays after being exposed, Mr. Dody babbled incoherently about having been shut up in an office and pestered by typists and chauffeurs ever since he was slim and hirsute. "Look at me now," he sobbed, flinging aside bis gingham skirt and rolling down a pair of im-maculate striped trousers. "No fun at all. All my middle life has been characterized by a routine mediocrity. And when I essay to recapture the brave days of my youth, what do they do? Expose met...Ah, ingratitude," he blubbered.

It was announced late last night that he has been shipped back to a padded office where he has been trying vainly since vesterday afternoon to batter ou his brains on Oriental rugs, tapestried walls, and felt-lined cuspidors....

We draw a veil...

small, and he furnished it in perfect

For contrast, three was L'Histoire d'un Soldat by Stravinski (piano, violin and clarinet), which Mr. Spivak pointed out was written as ballet music. By elastic use of the imagination, picturing the choreographic sequences, one might savor the charm of this work, which was evidently considered as something of a joke by less sympathetic elements in the audience. Some day we will come

of age musically.

The Quartet in A Major by Jongen, the Belgian composer, brought the program to a conclusion. This is an imgram to a conclusion. This is an impressionistic work, including various folk tunes in its last movement, and received the most restrained and effective treatment of the afternoon.

—Brock Brace.

SUNDAY EVENING CONCERT TICKETS

A number of single tickets which will admit men only to the Sunday Evening Concert on 12th December will be available at the hall porter's desk after 12 noon today.

ART CLASS

The art class for undergraduates and senior members will meet in the art gallery at 7.30 p.m. tonight.

WARDEN'S CHRISTMAS DINNER

For many years past the Warden has arranged a Christmas Dinner for those undergraduate members of Hart House who live in countries tor those undergraduate memoers of that rhouse who live in countries other than Canada or in distant parts of the Dominion and are thus unable to spend any part of the Christmas vacation at home. Every member wishing to attend the dinner, which will take place at 6.15 p.m. on Thursday 16th December in the Great Hall, must have an admission ticket. This may be procured on signing his name at the Warden's office. These members are asked to do so as soon as possible so that Mr. J. R. Gilley, the Acting Warden, may know how many guests to expect. A card has been sent to all men shown in the directory as coming from distant parts of Canada shown in the directory as coming from distant parts or Canada or from outside the Dominion. If by any chance there are undergraduate members who have not received a card, it is hoped that they will take this notice as an invitation to come in and sign the list in the Warden's office as soon as possible. There will be a small gift for everyone present. Mr. J. B. Bickersteth, who instituted this function 18 years ago, regrets that he is unable to be present again this year. He is Director of Education for the British Army and on leave of absence for the duration of the war.

HART HOUSE GLEE CLUB

Due to the poor attendance at the rehearsals it has been decided to disband the club indefinitely, and there will be no further practices. A partial refund of the membership fee will be given out on presentation of the membership eard at the Warden's Office, Hart House, from Thursday, Dee. 9 till Monday, Dee. 13, or in the Music Room from 5-6 p.m. on Monday, Dee. 13. After this date no refunds will be given out. Will all members please bring back any music they

Would-be Big Blue Cagers Hold First Practice Session

Mac McCutcheon, New Coach, Is Pleased With Initial Tryout, But Would Like to See More Recruits

TWENTY-THREE APPEAR

It is as yet too early to give a comprehensive picture of the shape of things to come in this year's basketball field, but if the Blues' chances of success were to depend upon the number of prospec-tive players that turned out to yesterday's first scramble practice, they should elbow all-comers victoriously off the floor. Unfortunately, however, this is not the case; the victorious team is invariably the one which has learned after long, gruelling hours of practice, to function as a unit, and Mac Mc-Cutcheon, who has taken over Warren Steven's job as coach this year, means to select his men by this principle.

"We have a profession, which is taken to work the topic of "Post-War Reconstruction to Canada," in connection with the engineering profession.

aimed at the freshmen who are generally of the mistaken opinion that they do not count; that anly the Seniors have a chance to become one of the big Blues. All the requirements that you need are a slight knowledge of the game and a faithful devotion to attend all

Although the Engineers and the P.&H.E. men were busy drilling and therefore could not turn out for yesterday's practice, 23 cagers from the other faculties hopefully turned out to wrestle with the ball. Only two of last year's regulars were present. They year's regulars were present. They were Ken Tettma, one of lost year's high scorers, and Don Gibson, the team's play-making centre. Both men, a bit rusty at first, soon loosened up and proved that they were still masters at hooping the ball. The only other two members of last year's Blue team who are expected back are Vern Booth was the state of the stat

Of Cameron's Address

Kingston-(CUP)-President of the Engineering Institute of Canada, Mr. K. M. Cameron, M.Sc., M.E.I.C., spoke to a joint meeting of the Queen's Engineering Society and the Kingston Branch of the E.I.C. last week on the topic of "Post-War Reconstruction

to select his men by this principle.

Mac McCutcheon was gratified at the initial response he received on this first tryout but he believes that there are many more on the campus who, with practice, would turn into first-rate practice, would turn into first-rate failure of the 1930 Construction Program was due to a lack of co-ordination of the various phases, and the restraint imposed on the type of scope of work. Planning to an intensive degree of specification is necessary, he said.

And in this respect if an engineer is

given a reasonable time in which to plan, he will ultimately save at least the cost of planning, if not more, continued Mr. Cameron. Employment for ap-proximately one and a quarter million persons will have to be found after the war, he estimated, and the government must act aggressively and intelligently to prevent supply from being far in advance of demand.

Mr. Cameron concluded by saying that everyone must partake in post-way reconstruction, and he expressed the hope that the engineering profession will find its place in the undertaking.

present. Don Pringle, who was on the Blue team of '39, gave a good account of himself at the try-out; he should bear watching in future games. Jim Turner, of interfaculty lacrosse fame, gave a fine showing and should prove to be a very valuable man on guard

No positions were assigned last night, The purpose of the practice was merely to make the men acquainted with the ball and to sweep any rusty kinks out of their joints. The field is still wide open and anyone may take part.

"THIS IS NOT A TIME FOR SPEECH . . . "

Quoth President Cody when called upon to make a few remarks at the typical co-ed judging yesterday. Gaily be-ribboned, both fore and ait, the President lost no time in greeting the crowd and retiring to his reserved box to polish the lenses of his opera glasses. The main interest of this department, however, fies in the athletic identity of the contest judges. Presiding over the gleesome threesome heast the main interest of this department, however, fies in the athletic identity of the contest judges. Presiding over the gleesome threesome heast the main interest of this department, however, fies in the athletic identity of the contest judges. Presiding over the gleesome threesome heast the main threat the same and popping eyes. The third member is of the jury came direct from the Athletic Wing where he had been instructing a class in several manly and certainly not womanly arts. It seems that the judges were somewhat confused by one, Mr. Watson, the promoter of the noon-time brawl, who specified that be they make their decisions upon consideration of each contestant's poise, personality, dress, posture, and some virtue called "anatomical structure." The last factor is said to be the one which threw the judges. Chesty Martin was so non-plussed that his only comment for publication was, "Pretry tough competition." Hee Prillips was heard to mutter as he disappeared in an Athletic Wing direction, "Nice poise, nice carriage, but..."

Sure 'n' twas a great day for the Irish after all, with Duffy and O'Toole running one two for top honors. We maintain that the judges chose as fairly as they could, although we do feel that, if Miss O'Toole had chosen as sponsor a faculty other than Applied Science, she would surely have been voted Miss Typical Co-ed.

WILSON IS A BUM

Science, she would surely have been voted Miss Typical Co-ed.

WILSON IS A BUM...

All propoganda by Leadpants Wilson to the contrary, the underweight S.A.C. (Students' Association of Calysthenies) team was pulled all over the big gym last night by a Bib Blue team of faculty members. Wilson sure did look silly gathering Glo-coat on his posterior while the Faculty faction towed him towards the nearest exit. Maybe now he'll realize that he oughta stick to his paper and leave extra-curricular activities to students.

DIRTY OLD S.A.C. . .

And the anchor man of the S.A.C. zombie squad. Gorman is the miserable character's name. Unnoticed by the official judges, if there were any, this villain tied himself to one end of the gym, thinking by this measure to wear down the Faculty until they could be dragged across the line. But the gallant Faculty heaved until they loosened the knot holding Gorman to the wall, and promptly pulled the S.A.C.

team across the gym.

The winner was decided in two straight pulls, after which the Faculty team retired to the Hart House Tuck Shop where the members

partiols of do-nuts and potato chips.

Special mention should be made of, and big big bouquets of tribute should be given to, Professor Hancock who held down that vital anchor position for the Faculty.

anchor position for the Faculty.

DIRTY OLD SCIENCE . . .

The long awaited blind-fold free-for-all between Arts and Science students did not materialize. And why? Because the Science team failed to put in an appearance. Arts representatives, McKinnon and Forrester, arrived at approximately 11 p.m., attired in vertically striped pyjamas, only to find that their opponents had not turned up. The decision was awarded to Arts by default.

Tow about this, you Athletic Office people? Don't these Science people rate a penalty of some hundred odd points from their intramural total for this crime? Justice must reign on this campus. Dirty School!

ST. MIKE'S SPORTS (Plug)

It is a regrettable fact that in the realm of the Micks there is much spirit, but little score. One must give them credit for the best of intentions. Maybe the species known as the Amazons does not inhabit St. Mike's. They have representatives in every branch of the sport, but not enough to make any outstanding St. Mike's sport.

On the basketball floor they were out to win the cup, but "foremost fighting fell." A few feeble shouts were heard from the cheering section during the preliminary games, but not enough to inspire them to victory.

Enthusiasts in tennis have been rare indeed. Here, too, there bave been aspirants, but elimination took their toll. The equestrial art has attracted some brave souls not afraid of bucking broncos, and the like. There is an average of three rides a year. The bowling tournament scheduled for next term is not under way yet, but we hear vague rumours that twenty-six are anxious to bowl 'em over. Keep it up—fan the flame 'ere it dies.

Each year a hockey team is organized, for the noble purpose of having a good time. They don't seem to mind the tumbles. This year's team is still in the fresh glow of the enthusiasm of the uninitiated. They try their blades after Christmas. Until then, we will have to be content with the Ice Capades.

Windy O'Neil, St. Mike's Student Now Stars With Maple Leafs

By Betty-June McKenzie

You probably saw his picture on the deciding factor for him was the annual sports page of a city paper last Monday. Blue and White game.

Or perhaps you saw him in the hockey game last Saturday night when the cheafs took the Bruins. He's Tom some combination first clicked, with O'Neil, right wing for the Leafs and he's another Varsity lad making good in hockey. in hockey.

Invited to Dean's Party Of Public Lecture Series

Miss Marion B. Ferguson, University College Dean of Women, will give her traditional annual Christmas party for all swomen students at U.C. Monday, Dec. 13 at 8:00 p.m. in the Women's Union. Coming immediately after the formal Christmas dinner for resident girls, the party will take the form of the personation of Christmas tableaux and carolling by the Glee Club and the guests.

The Dean of Women has personally invited all non-resident fireshies, while those in other years have been included in a general invitation. Members of the staff and their families will be present.

A series of six public lectures on the subject of religious books will be held turing the next term under the auspices of University College, Prof. R. D. C. Finch, of the French Department, announced yesterday.

The first lecture will be given on Wednesday, February 16, in Hart House Theatre. The series will continue every Wednesday afternoon up to March 22. The topic of the first lecture will be "Rig-Vida" and the speaker will be invited in a general invitation. Members of the staff and their families will be professor D. E. Hamilton of the Classies staff.

The second lecture will be by Professor W. C. White, head of the Department of Chinese Studies on "Con-Miss Marion B. Ferguson, University

The Health Service has arranged to have X-rays of the chest of all final year students taken during the week of Tucsday, Jan. 40 Friday, Jan. 7, 1944. The X-rays as usual will be taken in C.C.F. system and its effect on inthe East Block of the Parliament Build-dividual effort, and that of loss of ings. Appointment lists are now open freedom of enterprise under the C.C.F. at the Health Service offices. First He also discussed the fear of regimenta-

hither and yon

with janet bryce

It happened hither, in fact not very our capacity of exchange ed—we're far from the centre of our fair campus. There it was lying beautifully on the curb so handy—a perfect little horse-shoe, thought the co-ed in question, and promptly took it home to the Annesley upper-deck to hang on the wall for good luck. Comes the rude distillusionment, when room-mate enters and exclaims, "What are we doing with that C.O.T.C. host clear" in the control of the cont boot cleat?"

Hither writers must be eavesdrippers we've been told. Thus the quotation of a dialogue heard campus-wards again. Two of the male species sauntering along and indulging in more or less along and maniging in more or less confidential conversation. "My girl stopped dating anyone but me after the second time I took her out. Must be something I got, I guess."

Unhunh, monpower shortage.

Just before the big parade came up to the corner of U.C. yesterday, campus policeman bad to allow an un-student woman with baby carriage to cross the street—sort of like a juvenile float kind of having slipped lose from parade with of having occupant.

The night before the contest one of the typical co-ed entries was vastly amusing her friends by parading up and down balancing two huge texts on her

blushing surprise when a voice, accom-panied by an interne's head, suddenly appeared over the screen. "Will you please let go of my leg?"

But now we'll YON, just since-in Exit!

Prof. Grube Addresses University CCF Club

Last night the meeting of the C.C.F. Club at Wymilwood was addressed by Professor George Grube, professor of Graduating Students

Classies at Trinity College and first vice-president of the C.C.F. Club, on the subject of "Freedom Under the C.C.F."

were found.

This survey provides the final opportunity for the graduating student to obtain an X-ray of the chest at no additional cost to himself.

In thanking Prof. Grube, Mr. Rotenburgh of the current of the control of the provided the social again soon. The meetings was then ditional cost to himself.

Sadder than that, however, was the appearance not so long ago, of screaming headlines in numerous issues that "University of Toronto Debating Parliament considers women unessential."

Oh, these Engineers—Oh gross injustice—OH SOB, SOB1

Which sort of reminds up of an item we came across in the Athenaeum, the undergrad publication down at Morgantown, W. Va, It seems that one young reporter on their staff caused no end of dismay when she innoncently inquired of a fraternity house whether they had any Campus Shorts. That happens to be the name of their official gossip column. BUT THE BOYS DIDN'T The Green and the staff caused no end of dismay when she innoncently inquired of a fraternity house whether they had any Campus Shorts. That happens to be the name of their official gossip column. BUT THE BOYS DIDN'T The general properties are the staff caused no end of the column and the staff caused no end of the staff caused no Which sort of reminds up of an item we came across in the Athenaeum, the a fraternity house whether they had any Campus Shorts. That happens to be the name of their official gossip column. BUT THE BOYS DIDN'T TAKE IT THAT WAY!

We'll come hither again, after that one, to a sedate sort of Philosophy lec-ture, and a prof who was illustrating the subtle point that the workings of the mind are a trifle hard to follow. Seems he was touring Italy (when touring was Then there was the incident of the a civilized thing) and decided to take poor little nurses' aid, who was exerting great pressure, in true bedside in a famous shrine of two mummied and ignormation a supposed screen she was to the protect two monkish individuals wanted to move. It was much to her approach, complete with robes and blushing surprise when a voice, accomsolemn chant in Italian, he was amazed when from one of the pious ones came the comment in broad Yankee twang, "Migosh, they were both blondes."

BULLETIN BOARD

V.C.F.

A special open meeting of the Meds group will be held during the noon hour at the Academy of Medicine, 13 hour at the Academy of Medicine, 13 Queen's Park. Dr. L. Sale-Harrison, F.R.G.S., of Australia, noted archae-ologist, will speak on the subject: "The Bible--Fact or Fable?" Students of all facultics are hearitly invited.

tion to these two questions. He de-plored the lack of political consciousness among Canadian citizens and pointed out that the success of any government is directly connected with a general inof terest in politics.

After Prof. Grube's speech the meetwas opened for discussion under at the Health Service offices. First He also discussed the fear of regimentating was opened for discussion under ton of the individual by the C.C.F. towards to the tuberculin test may also have their S.rays done at this time.

In October, when some 1,100 first year students were X-rayed, no cases of active tuberculosis were discovered. This is an improvement over previous surveys in which a few active cases were found.

After dealing with these criticisms, to survey for the Health S.C.F. and the attitude of the C.C.F. towards the Labor-Progressive party and the Bloe Populaire in Quebec. Several members of the group were anxious to know what effect a C.F. government would have on relastive tuberculosis were active cases where found.

On English Parliament

Professor J. D. McDougal, in his lecture on "The Parliamentary Tradi-tion of Eugland" on Wednesday afternoon, stated that the great purpose of the English parliamentary government, to give the people education in parliamentary methods and to produce great leaders, was based on the principles of common sense and the belief that antagonists could be transformed into would be an important factor in post-war reconstruction.

Tracing the history of the English Parliament from mediaeval times to the persent day, Prof. McDougal outlined the growth of the modern democratic parliament from its beginnings in the 13th century as meetings between the King and his Great Council. The next

Plans Being Made For Loretto Party

In accordance with their custom of past years Loretto College will hold its annual Christmas party for less priv-ileged children. Final plans have not yet been made but Mother Margaret, the Dean of the College, says that i will take place at the end of next week

The children come from the nearest parish school, St. Basil's, and range it age from five to ten years. Each girl usually goes to the home of the chil-dren and invites each child within the required age limit to come to the party.

All the children meet at Loretto and An the emineral meet at Couche and are entertained by games, then they receive presents and have a lunch, after which they go home. Usually there is a tree under which the gifts are placed. Then one of the girls dressed as Santa Claus picks up the gifts and gives them to each whild. to each child.

St. Joseph's, Loretto's sister college, were making plans for the party they were informed, upon consultation with the Sisters of St. Mary's School from

Cessation Of Song

It is with deep regret that we note the temporary eclipse of the Hart House Glee Club. The suspension of its activities means more than the loss of another campus activity and an addition to the growing list of extra-curricular casualties. While University in its rare and enjoyable concert appearances.

Recently it had become the custom to have a nation-wide carol broadcast each year at this season. The first intimation that people outside the club had that it had fallen on perilous times was the rumor that this feature, which had brought the club no little fame and had added honor to the name of the House and the University, would probably have to be abandoned.

A plea for more singers set forth by Dr. Charles Peaker, the club's enthusiastic and intrepid director, in the columns of The Varity brought what looked like relief as assorted voices answered to fill out the club's complement. It soon became aparrent, however, that the broadcast would have to be abandoned, rather than risk a bad showing, and rehearsal conditions continued so bad that it was decided to disband the club.

This does not indicate any lack of enthusiasm or quality of voice on the part of the core of the club. The main cause of the dissolution is the failure of most members of what was once a strong chorus to attend rehearsals faithfully. The difficulty of obtaining any precision, let alone the subtler musical qualities, in singing when only about a dozen members appeared regularly is obvious. Thus the task became hopeless and the only solution offered had to be taken.

The loss sustained by campus life is a deep, but We have been not immediately obvious one. deprived temporarily of considerable that is good and very pleasurable. This is cause only for regret. There is no cause to be displcased. These are scarcely times when wilful neglect of obligations and pursuits undertaken will be found to be a very strong factor in the undergraduate's makeup. Those who did not attend rehearsals regularly doubtless had places in their affairs where the time could be more profitably applied to the main purpose of their attendance at the University. Since they could not afford the time every week to practice it was obviously unfair to waste the time of those who were attending when no result was to be obtained. This is another of these occasions when the exigencies of the moment have had their way over the broader aspects of our academic life. These occasions have become so numerous that it is high time that catalogue was made lest we forget the number of worthy and enjoyable University activities that have passed into disuse on account of the war.

Holiday Travel

We learn with some surprise of the recent rescinding of the usual half-fare rates granted students traveling to and from their home at Christmas time. The action of the transit authorities is understandable discrimination in their application of the principle.

Home is a place the heart naturally turns to at Christmas time, and most students are going to return there if at all possible. Frivolous holiday junketing should be cut down, admittedly, but there should be no desire to prevent those not wholly divorced from their families by their life work from returning home. To be denied their gratifying concession of former years will mean considerable hardship to most students who, despite the general rise in wages, have little more money than they have had in other years. They will go home, but the extra money will come through painful squeezing of the budget in most cases.

It is not becoming to look a gift horse in the mouth, nor is it fitting to wail and pound on the barn door after he has quietly manipulated the latch and left us. Students will accept the loss of their privilege as part of wartime conditions. their case the withdrawal will not perform the function for which it was intended.

Heresy At School

This seems to be the season for disillusionment. We have long cherished our belief in Santa Claus, Tinker Bell, Superman and Grett Murmur along with our strong conviction that Engineers had hairy ears, drank too many beers and found culture anathema. This year that last illusion has been steadily whittled down by such phenomena as a strong attendance at Hart House Sunday Evening Concerts, lively debating, and attendance at lectures on economics and such broadening subjects for which no academic credit is given. Of course, except for the last phenomenon, these things have glowing his of certareun tender castaliance. While the cast phenomenon, these mage have been going on for a long time, flourishing behind the Club was welcomed by the music lovers of the rugged front put up by the more leather-lunged of rugged front put up by the more leather-lunged of the sliderule fraternity. The last item is of almost revolutionary interest, but we had become used to even that. What has come as an astounding revelation is the contribution to The Varsity's Green Issue of a considerable number of contest entries in most of the classes. Most of this has been of serious pretensions and its receipt is particularly gratifying.

It is our sincere hope that the judges of the ompetition will find some of this material to be of the first rank in its class. But just in case these literary men of science should be edged out in the final accounting, we want to bring to the attention of the campus the fact that the men from the south side are listening, investigating, and thinking and in addition creating, on their own. It is not to be expected that many of these men aim at careers in letters. If they did, they would not be in their faculty, but it is significant of the rounded intellectual growth possible in an engineering faculty that they are interested in this sort of pursuit and in a variety of subjects not naturally a part of their academic courses.

In this way we are able to see that in addition to the benefits which such an institution as the Faculty of Applied Science and Engineering brings to the University in the way of rounding out its cultural picture, it is able to bring to its students, by its affiliation, not only a broader outlook on the liberal arts than it would be able to if separated, but also a truly integrated understanding of them, gained through a certain amount of participation in creative writing and thinking.

Aggressive Education

Aggressive education should be discouraged as effectively as an international police force would discourage aggressive physical acts, said speakers at last week's United Nations Forum in Washington, D.C. At this time early planning was urged by American and European educational authorities for a United Nations board of education. No definite olan accompanied this preliminary suggestion, but the purpose of such a board would not be to impose rigid control on Axis education, but would permit teaching in the conquered nations to go its own way as long as it did not fall into the old lines of abuse by which the minds of the younger generation were warped before this present war.

This is but a small gleam from the direction of education, a field in which little has been done as yet in the way of post-war planning insofar as it affects the reconstruction of life in the enemy countries. The United Nations Relief and Rehabilitation Conference at Atlantic City made provision only for the physical repair of school buildings, in trying to cut down travel by cancelling special classing long-range educational planning as recon-rates, but they do not appear to have exercised just (Continued on page 4)

CONFISCATED!

Schoolmen to the Rescue Co-eds Left in the Cold by Usurping Airmen; Gerfuson Grim; Dody Defiant; McSlidrool Sly

BRRRR! CHILLY, ISN'T IT?

"Whitney Hall is to be no morel" moaned Principal Malice, sadly scrutin-izing Order-in-Council No. P.C. 874593-95602225*&\$\$\$(\$). "What can I do?

It all started when L.A.C. Flywheel J. Propwing of No. 23 Squadron sug-gested after an evening's inspection that Whitney Hall would be a much more suitable barracks than the one in which they were stationed at present. He took up the suggestion with Squadron Leader "Wings" O'Whirr, who immediately awarded him a commission for such a bright idea.

"But now I hear the girls are to be evicted," L.A.C. Propwing protested. "That wasn't in the plans."

Miss Gerfuson, in a 40-minute inter-iew, said that the whole affair left her speechless.

"I always knew this is what I'd get for going into Pass Arts," said Minny Smirk, one of Whitney's former beauti-

Smirs, one of winney's former beautiful co-eds.*

"What will I do with my phone numbers?" wailed one Schoolman. "I'll have to go out with girls from Vic."

"Or Trinity," howled another, making a disgusting noise with his slide-rule.

Already the resourceful Engineers are arranging for the accommodation of the poor lonely U.C. co-eds, now standing in the Whitney quadrangle with all their belongings in the mud beside them. A crowd of curious men with a very strange look in their eyes had begun to gather, but Miss Gerfuson angrily chased them away with her horsewhip.

"Perhaps we could arrange accom-modation for them in the School Build ing," suggested Tangent McSlydrool (Mech. IV), wringing his work-worn hands and winking slily. "The Dean thinks this might improve the morals of his men, who have to work so hard

"This is terrible," piped one Whitney girl. "We'll have to hold the next Formal in the U.C. Rotunda, and you know what that means." No-what?

know what that means." No-what?
Lucy from U.C. said indignantly that
just because of this she wouldn't consent to be the most beautiful co-ed on
the campus. "Tm going to have my
face lifted and be ugly," she threatened.
"That won't be necessary," shouted a
passing St. Hilida's co-ed.
Lucy drew a pearl-handled pistol from
the briefers.

her briefcase

"Lay that pistol down, babe," shrieked Miss Gerfuson. Lucy didn't hear. Now there's one

less beautiful co-ed at Trinity.

"It's all part of our great effort for victory," announced President Dody in perspiring peroration from the Simcoe Hall balcony. "We will fight on the beaches, we will fight in the streets, we will fight in the alleys and on the back verandahs, we will fight on the campus, and in the lecture halls and labs. We'll even fight in the Library," he concluded, varming up.
"Fight! Fight!"

*I.e., a former co-ed; she's still beautiful.

THE ONLY ONE IN THE WORLD . . .

Hart House is a wonderful old (25 summers old next summer) institution. It's a rather unique institution, too. Where else in Canada is there a building with such complete facilities for all extra-mural activities? Taken for granted by most male undergraduates, no other campus can boast such a remarkable building. The set-up in the Athletic Wing is also a unique situation and it has resulted in a sporting state of affairs that is peculiar only to Toronto.

NO INTER-FRATERNITY SPORT HERE.

For some reason or other this fall, we've had occasion to bat the breeze with undergrads and ex-undergrads from several colleges in the United States. Most of them, by the way, were boys hauled out of school to work for their Uncle Sam and they came to Canada on leave to see the Indians and the Eskimose who inhabit the backwoods territory north of the border called Canada. After adjusting themselves to the fact that Canada could have a few big Universities with bifuler academic standing them. points. U.C. also had large entries that ran up the majority of its points.
S.P.S., although running off with a lost of team championships this past fall, has not been turning out competitors on as large a scale as the three leading faculties. Team titles went Schoolward from senior track, track relays, golf, soccer, volleyball, rugby and the swim league.

The Athletic Office is pleased to report that there were but half the number of defaulted games this fall as there were in the same period last year. And as an extra impetus for college representatives to gain points for their respective faculties, the authorities have offered ten points to each faculty represented at a standing committee meeting.

Broadcasting in Action Is R.C.I. Lecture Topic

"Broadcasting in Action" will be the subject of an address to be given by Dr. Augustin Frigon, assistant general-manager of the C.B.C., at an open meeting of the Royal Canadian Institute in Convocation Hall on Saturday right.

Live probably inst as well there is no inter-fracterity sport on the interpolary in the probably instantiation of the right proper in the property of the campus of the Royal Canadian Institute in Convocation Hall on Saturday right.

Live probably inst as well there is no inter-fracterity sport on the residual property of the probably instantiation of the intramural program.

PROBLY JUST AS WELL

Lecture Topic and the same period land institute in Convocation Hall on Saturday right.

Live probably inst as well there is no inter-fracterity sport on the entire fracterity sport on the fractifities per as the residual representation of the intramural program.

PROLLY JUST AS WELL...

It's probably just as well there is no inter-fraternity sport on the campus. Fraternity members constitute a definite minority on our sprawing and deversified campus. If all the sports that this minority could put up were the only outlet for "that old College Spirit" (to coin a phrase), we'd be inclined to take a pretty dim view of the whole situation. Fraternities, of course, aren't representative of the campus. Some writers would be hopefully inclined to say that all the best athletes that go through University couldn't afford to belong to a fraternity. That is a decidedly untrue and Horatio Alger-type statement; but it can't be ignored. We know there are great many good athletes that belong to fraternities and we also know that there are still more that don't. So we have quite a bit to be thankful for in having the intramural and inter-faculty atheltic events. It makes for complete coverage and for better sport.

Water Polo Practice Reservations are now being made at the Swim-Managers are urged ming Pool. to take advantage of this immediately.

STANDING COMMITTEE MEETINGS

TODAY BASEBALL Mon., Dec. 13th 5.00 BASKETBALL Tues., Dec. 14th

N.B.—All meetings will be held in Athletic Directorate Room, Hart House. A full attendance is urged.

The Sportswoman

By H. (Prattfall) Rex Wilson

BASKETBALL (Or We Wuz Robbed) . . .

BASKETBALL (Or We Wuz Robbed) . . .

For the first time in our life we actually get to write the Sportswoman. This is supposed to be on honor, but is really done to keep good old Betsy from having to do too much work. The operation, for those who like sidelights on such things (and for those who don't we recommend skipping to the next paragraph), is for Betsy to stand over the elected ignoramus and dictate the pertinent information in impertinent tones. Then, when the ignoramus has gone away, Betsy is left to corekt his lousy spellig and inept typnig.

This, Betsy tells us, is to be all about basketball. (Villainous aside): Little does she know that we mean also to explain in no uncertain terms what happened at Wednesday night's athalletic contests in the big gynu at Hart House... But hist! Here she comes with a big club!"

The basketball situation has reached what they call the finals. These struggles will take place tonight at 7:30 (p.m., that is) in Hart House (the men's union). Vic Seniors will cross fingernails with P.H.E. Seniors. This looks close, we are told, inasmuch as P.H.E. has walked through everything so far except tennis which Vic won, so that is why the basketball should be close. Understand? (Mind, this is only what they tell us.)

The chulkers will go off in a much process crightly and boot

The chukkers will go off in a much more sprightly and heart-warming manner if everybody turns out to see that the rgiht prevails, for there have been nasty rumors of unfair play in the gym. You see, it was this way. Can we help it if that rope accidentally—. But here she comes again!

Last night the second games of the semi-finals were played, but Meds, under pressure from exams, couldn't put a full quota of babes into the fray, and had to default, which is regrettable after their previous fighting record.

Helen Gurney will be referee tonight, and Betty Mortimer will be umpire. So get there, get a program and get a pop bottle in case of discussion.

Now about Wednesday night.

Hoop Happy Hopefuls, Four Veterans of '43 Practice in Big Gym

The big gym at Hart House yesterday afternoon was the scene of hardworking and hard-puffing basketball artists displaying their wares before coach Mac McCutcheon. It was the second practice of the potential Blue team and some 26 aspirants were on hand, that number being made up mostly of newcomers, for only four veterans of last year's team have been heard from.

Stu Scott, a member of the team last ason and one of the stars of the Balma Beach football aggregation, made his initial appearance yesterday. initial appearance yesterday. Although still handicapped by an ailing knee, Scott gave a good account of himself. A newcomer, in the person of Jim Turner, continued the flashy form he displayed in the first practice. Holdovers Ken Tettmar and Dou Gibson headed the attacks in the short scriptomyrise.

scrimmages.
The P.H.E. prepresentatives, The P.H.E. prepresentatives, who were unable to attend the practice Wednesday because of drill, were Ross Sturgess, Frank Watson and Whitey Clayton. These three formed the backbone of last year's Intramural Basketball championship team, and Coach McCutcheon hopes to see great play from them.

The agenda yesterday consisted mainly of ball handling and conditioning which, according to McCutcheon, is badly needed before the squad is rounded

badly needed before the squad is founded into a contending team.

Another invitation goes out to all who have played basketball in former years, no matter where or for what team. A faithful attendance at practices is all that will be expected from anyone trying out for the team. The next turnout will be tonight at five o'clock.

Master of Musicke

in the Music Room of Hart House. Inscribed on a plaque on the wall may be found the following passages by Byrd, which was originally prefixed to his book "Psalms, Sonets & Songs of sadness and pietie," published in ISS8.

"Reafons briefly fet down by the auctor to perfwade every man to learne to

First it is a knowledge eafily taught and quickly learned wher there is a good Mafter, and an apt Scoler

- 2 The exercise of finging is delightful to Nature, & good to preferve the health of Man.
- 3 It doth ftrengthen all parts of the breft & doth open the pipes
- 4 It is a fingular good remedie for a ftutting & ftamaring in the fpeech.
- 5 It is the beft meanes to procure a perfect pronunciation, & to make a good Orator.
- 6 It is the onely way to know where Nature hath beftowed the benefit of a good voyce: which guift is fo rare, as there is not one among a thousand, that hath it: and in many, that excellent guift is loft, because they want Art to expresse Nature.
- There is not any Muficke of Inftruments whatfoever, comparable to that which is made of the voyces of Men, where the voyces are good, and the fame well forted and ordered.
- The better the voyce is, the meeter it is to honour and ferve God there-with: and the voyce of man is chiefley to be imployed to that ende.

Omnis fpiritus laudet Dominum. Since finging is fo good a thing I wish all men would learne to fing."

These simple words provide a worthy memorial to William Byrd, the Father of English Song," on the 400th anniversary of his birth.

Women's Medical Centre Invaded "Yipes" Says Surprised Airman

"We don't know anything about them, but we'd like to know about the weird and wonderful noises which go on downstairs," a member of the staff of sensible division of fields and should downstairs," a member of the staff of the Women's Medical Centre at 44 Hoskin told The Varsity today. For several weeks now the boys in the back room which is rented by the R.C.A.F. Station, Devonshire Place, have been seen mysteriously emerging from their mental side may lead to future disaster. It was not the existence of the school bearded wall and a back door entrance.

This lecture room is one of several our present troubles. Immediately the used on the campus by members of the large varieties and the stationary of the several was to the existence of the school bridging, but what was taught within them that led in so large a measure to our present troubles. At Open Meeting In Convocation Hall

Now Professor of Philosophy Dr. Horace T. Kallen and Psychology in Graduate Faculty of Political Science, New York

AVUKAH SPONSORS MEETING

Professor Horace M. Kallen, of the New School for Social Research, New York, is to speak on "Peace, War and Democracy" at an open meeting spon-sored by the Avukah Society in Con-vocation Hall, University of Toronto, Sunday afternoon, Dec. 19, at 2:30.

Dr. Kallen was in Toronto last month

to address the Ontario Regional Zionist Conference at the Royal York Hotel. During his coming visit he will speak also to the Canadian Institute of International Affairs the day after his Con-vocation Hall address.

At present Professor of Philosophy At present Processor of Philosophy and Psychology in the Graduate Faculty of Political Science at the New School for Social Research, New York City, Dr. Kallen has been a laborer, a journalist, a settlement worker as well as a scholar and teacher. The favorite pupil of William James, who left his unfinished work for Dr. Kallen to edit,

Monotony In C.O.T.C.

The remarks made by Principal F. C. James of McGill University concerning Canadian Officers' Corps training in his report last week to the Canadian-Newfoundland Education Association has focussed attention once again on the corps and its work on campuses all across Canada. The press, both in the Universities and outside, has given wide and not always strictly accurate publicity to the with C.O.T.C. training.

According to the officer commanding the University of Toronto Contingent this University's unit need have little fear of public scrutiny in its training. He has given an expert's reply to the layman's charges of repetition and monotony and has also revealed a particularly happy condition of co-taking the easy road of complaint. operation between Military District headquarters and other units, and the C.O.T.C. What the situation No Whitewash may be elsewhere is a subject we cannot here comin these columns must be based on local condition.

What Dr. James Said

But first let us examine what Dr. James said. His remarks on the C.O.T.C. were apparently only incidental to a much larger report. They were probably based on his observance on his own campus. They were inaccurate in at least one detail (that the Department of National Defence does not give any credit for this military training when a student actually enters the army); and they were directed very largely against the Department of National Defence and only incidentally reflected on the C.O.T.C. as an organization carrying out the supposed faulty syllabus.

It is, however, the university contingents who become the targets of any complaints voiced by the trainees, and it is their job to make as palatable as possible the syllabi that are handed down by the training establishment. On the ingenuity, cooperation from other military formations, equipment and officer personality they are able to muster depends the success of their training as far as the individual student-soldier is concerned.

The Varsity has conducted a survey on this campus to find out what the average victim felt about the alleged unprogressive syllabus. Few there were who had a good word to say for it. Those who were best qualified to judge such matters from the long-range viewpoint are, most of them, officers of the contingent and are therefore prevented, by military regulations from expressing their views on the matter for

The Complaints

tanks and engines instead of lolling around with rifles." This is a preposterously stupid remark when the time basis of the syllabus is considered. As originally drawn up the year's training was supposed to equal one month of basic training the year lot between the training the year lot between the time basis of the syllabus is considered. As originally drawn up the year's training was supposed to equal one month of basic training the year lot between training the year lot between the present training around the canon in the nipping winter ments, but they are not those which have been pointed in the third training the year lot waste valuable time in training which will probably never be applied because they are more needed in industry.

There are faults in the present training around the canon in the nipping winter ments, but they are not those which have been pointed out by Dr. James in his most recent report. The took a last deep breath and clenched to the war to required of men called into the Army. This was out by Dr. James in ms most recent report.

110 hours during the year plus two weeks at camp. picture is continually being examined, however, and his jaws afresh. No spar (Continued on page 4)

revised syllabi the amount of time spent during the year is approximately that still and the camp period remains the same (but may be waived if the student is engaged in war work during the vacation). The basic training period in the Army is 13 weeks. Considering that each year's training is supposed, as first planned, to equal one month in the Army, this student who wants to work with tanks and engines would about ready to start after Christmas. When the fact that long gaps in training allow excel-lent chances to get "rusty" he may consider that his University training is merely equal to the 13week basic period which will be remitted once he gets into the Army. *Then* he can start in on tanks, if he can quality.

Echoing Dr. James's other major charge, that C.O.T.C. training is not accepted by the Army are more than a few students. It is true that C.O.T.C. C.O.T.C. training is not accepted by the Army are more than a few students. It is true that C.O.T.C. training does not assure consideration as officer material, but, unless the students runs up against same not-heard-of organizational snag when he goes into the Army he does not have to repeat his basic training once he has had two years in the C.O.T.C. ing once he has had two years in the C.O.T.C.

ing once he has had two years in the C.O.T.C.

C.O.T.C. lectures have been called monotonous and unpractical and one student, at least, is aghast

now? Start this thrilling serial today! that some lecturers say that the taking of notes is unnecessary. He is apparently unaware that excellent army manuals are available which cover, in a McGeech realized in what dire plight he lent army manuals are available which cover, in a note form better ordered that any he might take, every phase of his training. The necessity of avoidgourney in a missinformation combined with the better listening possible if the auditor does not take notes, are possible reasons behind the lecturers suggestion.

The changing manuals are available which is might take, was placed, his brain, the undoing of so manuals missinformation combined with the better listening to churn. Everything turned upon the element of time. He knew that the camnon was to be fired upon the morrow. Horrors! What if it were day already! What if it he hour were at hand!

That there is not more serious grousing is surprising. It is not particularly notable that fault is found with the present setup. We are not naturally a militaryminded people. The fact that the peacetime strength of the contingent was about one tenth that of the present unit should indicate that 90 per cent of the C.O.T.C. members are not there through Principal's remarks and if no dangerous storm, at natural inclination, are learning the subjects through least a cloudburst of considerable proportions, has pattered down upon the heads of those entrusted

The C.O.T.C. training holds together so well, that The C.O.T.C. training holds together so well, that discipline is notably good without the necessity of the application of the more common restraints and methods of punishment found necessary in the Active Army is the point missed by critics of the University training units. This must always be borne in mind by all who wish to judge fairly and are not merely

This editorial is meant to be no mere whitewash ment on with assurance. Undoubtedly it varies of the C.O.T.C. There are admitted faults in the might spread destruction far and wide, from campus to campus and any examination given arrangement. We do not feel that these are precisely He might devastate the university, and the same ones Dr. James has found, although there are undoubtedly many bored young men in the C.O.T.C. and there have been a number of cases where C.O.T.C. training has seemed to go for naught

with the Army.

picture is continually being examined, however, and truth when he claimed the C.O.T.C. was merely "a sop to the public." There was more than that element in the institution of the training when it first R. It encompassed half Toronto. became compulsory. Not that we mean simply to imply that the training was worthless and was merely intended to put a good face on the University picture in the light of a form of conscription for all other young men. The training had recognized value. It was based on training already being given on a voluntary basis and recognized by the Department of National Defence in the training of officers.

The circumstances of the training were the product of a timorous regard for public opinion. When men were being chosen from a very narrow age-group (and not all of them were being taken), and the physical standard for the training was placed fairly high, university men from a much larger age group high, university men from a much larger age group ... After several more seconds of fever-and from much lower categories were required to ish calculation he resolved upon the take the training. Thus, in order to mollify public desperate attempt, opinion which at that time was inclined to regard the universities as havens for slackers, the universities leaned over backward and it was found that, instead of gaining an exemption from a month's training (which might, with luck, be missed) by coming to University many a man made sure that he would have to take that month, even though his category might be low and his age quite outside the group being called.

In the matter of physical category many men are still being dragoned into military training who will be the control of the power and the called the matter of physical category many men are still being dragoned into military training who will be the comparison. The take was exemptified.

still being dragooned into military training who will mained. The first complaint which was met was that "after scarcely see even inactive service in this war, and four years of training we ought to be working with many men whose courses are valuable to the war

As consciousness stole back and Dr.

What if the hour were at hand! Then reassurance came. He extended one foot tentatively from the muzzle and wiggled it. He felt the darkness bear upon his sensitive instep and knew it was still night. He had still several hours to think.

As he sifted and eliminated possibilities, it became clear that one avenue of escape alone remained. His face was ammed down into the foul black powder that charged the cannon.

Therein lay his salvation. He cauld

eat the powder!

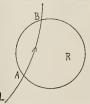

Then a horrible thought struck him.

If he ate all the powder the disappointed Schoolmen would merely ram in another charge. He must leave enough to propel

Schoolmen would merely ram in another charge. He must leave enough to propel him a few feet: no more.

"But, by the beard of my grand-mother's milkman!" he thought, swearing a strange Sanskrit oath, "what if I should explode in mid-air!" A human shell, his vitals crammed with powder, might spread destruction far and wide

As he pondered this frightful pos-sibility, weighing his own certain doom against the possible death of thousands,

The only hope lay in keeping his jaws clamped shut, so that no fatal spark might reach the powder in his innards.

Dawn. Half the charge was gone, stuffed within his stomach; and still McGeech ate furiously, with the courage born of despair...

nained. The task was accomplished!

Dr. McGeech firmly clamped his jaws and awaited the fatal flame.

Intramural Hockey Reps Met To Draft Program

Eligibility Certificates, Timetables and Medical Category
of Each Player Are to Be
Handed in By Next Thursday

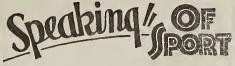

RULES COMMITTEE ELECTED

believed that the Army lads would prove
to strong an opposition, and therefore
suggested that they enter two teams instead of one. His opinion was shared
by several other members. However,
after having been told that this would
involve insurmountable financial difficulties, they conceded to let the matter

Each representative was now presented with several time sheets upon which each team is required to state the time it will be able to play. This sheet, along with an eligibility certificate and the medical category of each this year's hockey entries, Bill Doyle, the chairman, asked each representative to give the number of teams his college means to enter. It was found that 20 teams will be participating; three additional teams are considered possible.

This coming season will see School with only five teams instead of its six of last year. The Medicals, on the other hand, will have three instead of its six of last year. The Medicals, on the other hand, will have three instead of its variety of the properties of the propert of last year. The Medicals, on the other hand, will have three instead of two teams. These three will be selected from the men of the five years. Both Trinity and Knox, who had one team each last year, would like to enter a second one if they can find enough players, U.C. and Dents with two teams. each and Wycliffe and Emmanuel with one team each will enter the picture un-changed. Victoria and Forestry are expected to enter two and one teams respectively. The No. 2 Army Training Course, a newcomer to the group, will field one team.

John Cole, the Meds representative,

By Phil Shackleton

ACT ONE . .

The fall term's intramural sport is finished. The volleyball finals last week completed a cycle of eight sports on the campus. And from the time late in September when campus Sneads began tearing up the sod at St. Andrew's until last week when Senior School spiked their last shot in the volleyball finals, the season has been an active and closely contested athletic battle.

and closely contested athletic battle,
Scarcely a week after schoolwork had been resumed the intramural golf tournament was held at St. Andrew's Course. Formerly a
Woodbine Club event, the tournament moved when that course was
reduced to nine holes. Gordy Ball nailed the individual title for his
second time and he and three Schoolmates carried the team championship to the Engineering Building.

Both Junior and Senior Harrier competitions were won by School
teams and the Brotherton Cup for Senior Harrier was awarded them.
Freshman Johnny Watts of S.P.S. won both the Junior and Senior
jaunts.

The novice track meet was given a new billing as the name changed to junior meet, and Meds ran off with the year's title, far ahead of Trinity and School. The Engineers made it three straight when they engraved S.P.S. on the senior track trophy a week later. The track relays, run over several weeks, also went to School.

The track relays, run over several weeks, also went to School.

Although the University opened a week late this fall the rugby season opened a week earlier than last year. No more shall sports reporters shiver in December rugby stands. The Mulock Cup, it is now needless to say, was carried off by a band of Engineers, who broke Victoria's two-year hold on the trophy.

The soccer championship, which is accompanied by the Arts Faculty Cup, also will grace the School of Science. The Schoolmen took clear title to the cup in '41 and shared it last year with Trinity.

The volleyball loop broke all existing records here this year with an entry of fifty teams all told. The Victoria Staff Trophy, for the past three years held by Dents A team, was won by S.P.S.

Something new in lacrosse came out when Meds won the boxlast title for the first time since the Dafoe Cup had been donated. The occasion warranted a special presentation by the donor, Dr. Dafoe of the Medical staff.

The swim league title again went

The swim league title again went S.P.S. as the Senior squad to S.P.S. as the Senior squad knocked off their Junior brothers in the finals. Junior School held the league top spot for the three

Girls' hockey is booming! Enthusiasm one thing that can't be rationed and

seldom have we seen so much of it as displayed by the college representatives. Shirley Pearse, head of hockey, said Wednesday that there is more interest among Freshmen than there has been for some time

Several new ideas will be tried out to cep the interest up and the injuries own. The schedule begins about the middle of January and concludes before the end of February and calls for a series of home-and-home games. The league will be divided into two groups league will be divided into two groups of five teams each, the weakest teams in one group and the strongest in the other. The games will be played in the afternoons at the Varsity Stadium and

ONE UP AND ONE TO GO!

ONE UP AND ONE TO GO!

The gals of P.H.E. certainly whipped off a fine exhibition of baskethall Friday night in Hart House gym. What with a fair sized audience combined with the pressure of the finals, they completed some of the neatest passing and keenest guarding that we have seen. The smooth co-ordination and team co-operation drove home the advantages of having such a faculty in athletics. The Senior P.H.E'ers have gone through three years of disciplined training and their playing shows it!

shows it!

Vic hoopsters weren't clicking at first but they pulled up their socks towards the end of the match and gave the Phys. Eds. a hard time of it.

The remaining game will be played on Wednesday night at 7:30 in the same place. We were quite pleased with the appreciative audience that turned out Friday and hence a repetition would not be a miss.

THE HIGHWAY MAN CAME RIDING . .

other. The games will be played in the afternoons at the Varsity Stadium and Little Vic.

At least that's the poem that keeps running through our mind of late which serves to remind us that the horseback ride is scheduled to come off some night this week. We took the list down from the rotunda with a good round 15 names attached to it. If any tardy soul wants to make a late addition, she can phone us a Cody House. We thought of Thursday night as a tentative choice for the date all very confusing and amusing. The opinions expressed by the more athletic-

we thought of Thursday mght as a tentative conduction of the points of fancy skates.

From the masculine viewpoint this is all very confusing and amusing. The opinions expressed by the more athletic-inded men on the campus were varied. "It's slap-stick and funny to watch," said Tom Munford, IV S.P.S.

"Makes me feel like I never want to play hockey again," meaned Whitey Belshaw, II S.P.S.

Frank Reid, II Dents, expounded the theory, "They've tried everything else, they may as well try hockey."

The feminine reaction is typical of that expressed by Mrs. F. J. Stewart, House Ec., "I think it's a grand sport for the girls."

McGill Athletes

Reorganize Competition

Montreal, Dec. 9—(CUP)—The McGill Athleties Council has announced that in future there will be a reorganization in the form of intramural competition. Up to this time, since the competition to the competition of the state of the since the competition of the state of the since the competition of the state o you today.

Montreal, Dec. 9—(CUP)—The Mc-Gill Athletics Council has announced that in future there will be a re-organization in the form of intramural competition. Up to this time, since the outbreak of the war, most leagues formed on the campus have centred around the division of the various teams according to the training units and companies. In future an attempt is being made

onthreak of the war, most leagues formed on the campus have centred around the division of the various teams according to the training units and according to the training units and companies.

In future an attempt is being made to go back to the system which was formerly in use, namely, the formation to that at the University of Toronto,

hither and yon

staticts, determined to release their frustrated hither-wards desires, decided that what does not grow on trees can be manufactured; and cornering three-year-old kid sister, demanded that she say something funny for publication. year-old kid sister, described the momentous reply that issued from her wee ruby lips was, "I won't!"

SUCH CO-OPERATION!

We overheard this particular cor versation on the street ear where one DOES hear interesting things. An cager Artsman was explaining the strange customs of his faculty to

a wondering Engineer.
"Yes," he said, "and up at Trinity
they wear gowns all the time, I guess
it's to keep their pants from getting

We're right handed . . . but . . .
There was the day we were invited out to dinner at a very posh home only to find ourselves confronted with a fortune in silverware. Bewildered but determinded, we decided to copy the actions of the young son of the household, who knew the rule book intimately . . . but somehow it didn't work. After a grim session with the soun and main course. session with the soup and main course, we were struggling desperately to eat pie with a fork and spoon when the bostess looked up brightly and re-marked — "Why, you're left handed too!!!"

Mothers are getting just too modern, we maintain; for instance the other day a co-ed about campus went home with a new lipstick and asked her mother how she liked it. To which her canny mother replied:

"It's rather red, isn't it, but good enough to get on people's shirts!!!"

Arts courses, say the supercitions

Philistines, should be made more practical. Take mustard plasters, for instance. One gal up at Waldie House had to take one (bedded with a bad cold, it seems); so the home dispensary corps went into action with a whole con of mustard. BRACKEN AND THE C.B.C.

No matter how much one would like to ignore the implications behind the recent denial by the Canadian Broadcasting Corporation of time on its network to John Bracken, leader of the Progressive-Conservative Party, one cannot do so, And, however much one may dislike to attack a public organization which has done much of value for Canadian life, one cannot keep from censuring it for its illogical action.

By the time this column is published a good want editorials will have

its illogical action.

By the time this column is published, a good many editorials will have pointed to the glaring fallacy in the argument of the C.B.C. It refused to allow Mr. Bracken's speech, delivered on Friday at a dinner in Hamilton, Ontario, radio time because of its admittedly political nature, only a few days ago, however, Mr. King, a deadly opponent of Mr. Bracken, was given a national hookup to speak to the people of Canada.

The fact that Mr. King is the Prime Minister of Canada, and spoke to Canadians in that canacity has no beginner on the guestion of the biassed treat-

Canadians in that capacity, lass no bearing on the question of the biassed treatment meted out to Mr. Bracken by the Corporation. The speech of the former, made in support of anti-inflation measures of the government, was an appeal directed to the electorate of Canada against the malcontent elements dissatisfied

directed to the electorate of Canada against the malcontent elements dissatisfied with the government and its systems of controls.

The Progressive-Conservatives saw, more clearly than the authorities of the Canadian Broadcasting Corporation, that any speech made by their leader, Mr. Bracken, would inevitably be political in its implications. When the leader of one of the great Canadian parties speaks, his remarks must be political. If one speculates on what Mr. Bracken might say that would not be political in nature, one must come to the conclusion that his address would be limited to little more than effusive thanks to the person who introduced him! Even then, the very fact that he was present and spoke, even the overtones of his anecdotes, would have nollitical implications. have political implications.

have political implications.

The reason behind the original ruling of the Canadian Broadcast Corporation on carrying political talks between elections was probably sound. There is good eause to suppose that, with a good deal of money at its disposal, a party might buy up enuogh radio time to propagandize thoroughly the Canadian party might buy up enuogh radio tir people, if it would choose to listen.

The application of this ruling to deny to the leader of one of the three great parties in Canada permission to address the Canadian peaple is, however, open to question. When one considers, at the same time, that this leader's archives the canadian peaple is the same time, that this leader's archives the canadian peaple is the same time. opponent can speak to Canadians at will—upon the occasion of a Canadian victory, perhaps—that he can be certain of having his pronouncements given good placement in semi-official radio news releases, the application of this ruling becomes almost idotic.

The Progressive-Conservatives are not missing any tricks. This stupid decision of the C.B.C. (for that is actually what it is, rather than anything deliberately engineered) has given the part of Mr. Bracken political ammanition of the most explosive kind. As this column has stated before, the Progressive-Conservatives are "laying low," When the time does come for action to be taken, it will be taken. It will be interesting to see to what use the Conservatives

Early English

Hart House Con-

A program of early English music was given at the Hart House Sunday Evening Concert last night, featuring two instruments characteristic of the period, the harpsichord and the viola da gamba. Lillian Smith, soprano, was accompanied by Leo Smith at the viola da gamba and Greta Kraus at the harpsichord.

As the concert was a special one in commemoration of the 400th anniversary of the birth of William Byrd, the music was chosen from the works of his contemporaries. Therefore the program may be first considered as a whole.

The music of the early English period can hardly be compared accurately with any of the more well known and more frequently heard types that came later. There are occasional phrases that remind one of the early Italian school or even of the later developments on the continent. But this connection seems no more that mere coincidence, for, considered as a whole, the English style of the period has a flavor all its own. If there is any resemblance to a later type, perhaps it is to the music that Handel was to write a century later.

perhaps it is to the music that Handel was to write a century later.

But to think of Tudor and early Stuart music as a homogenous type is entirely erroneous. In the selections played last night a wide variety was one of the most striking features. There were pieces with a wealth of melody that compared favorably with anything that has been written since; others seemed distinctly threadbare in this respect. Some were performed in a gay, lively mood that overflowed with enthusiasm; others were in the most serious and solmen vein, employing sombre harmony and usually written in minor key. Some had little sense of rhythm, a characteristic of much early music, while others seemed quite mature in this respect.

The face that the instruments used both in accompanying the singing and

The fact that the instruments used both in accompanying the singing and alone are beard so rarely gave added interest to the program. The viola da gamba gives a pleasing tone in the higher end of its range, a tone similar to the modern viola, but in the lower part, corresponding roughly to the range of the modern cello, the lower notes were not clear.

The harpsichord provided a pleasant contrast to the usual piano, but its lack of volume in a large room was quite apparent in the Great Hall of the House. The group of harpsichord solos was the most enjoyable part of the program, and special mention ought to be made of Dubourgh's Gigue ond Sarabande, Holcombe's Allegro in B Minor, and the Gavotte by William Defetch. These were music of exceptional merit, and would stand high in any company.

First Prize Essay

Nostradamus On Education

By John E. Speers, III Victoria College

This is the hour of pipe dreams and dips into the future; everyone from the grocery boy to Eleanor Roosevelt has turned Nostradamus to picture the wonder that will be when war is over. The less fact they have the more they say, hence the Utopian tomes on best-seller shelves. The educational horizon has been none too well surveyed however, and then for the most part limited to the problems of elementary education.

For Canada the public school is a good place to start. The increase in opportunity for higher learning can hardly be expected when Saskatchewan, New Brunswick and Prince Edward Island are notoriously unable financially to make any equitable system possible. When the Toronto child has \$100 spent on its learning to some \$14 spent on the child of Prince Edward Island, when an equal disparity exists among the salaries of members of the miserable profession, we cannot immediately proceed to talk of wide-spread endowment of higher learning. The obvious solution is some means of dividing more equitably the funds available for education which are so comparatively large in the richer provinces.

Availability of higher education, then, varies inversely as the square of the distance from economic centres. Toronto keeps watch over her own: the prize lists announced after every matriculation examination show that if there are brains in the city, the colleges fasten on to them without delay. The further education of a Torontonian prodigy is thus relatively secure, and the other centres of wealth, Montreal, Vancouver, Winnipeg are proportionately busy skimming the cream of their collegiate crop. Then there are the numerous scholarships offered to counties and inspectorates which make college possible for the examination sharks of the hinterland.

But what of the western farmer's son or indeed of the clever student who places second in Parry Sound or Penetang? What of the top-ranking students in provinces where the absence of wealthy patrons is linked with a paucity of endowment funds? Years ago I was the coveted winner of the University Scholarship offered to the student placing highest in a city of some twenty thousand people. This bonanza entitled me to thirty dollars with the stipulation that it be applied on fees. The rather small number of these scholarships is Saskatchewan's only attempt, to my knowledge, at assistance toward college careers. Obviously there will have to be some pretty heavy evening-out or, much the better, raising up to a new equality.

And if the government should agree after the war to a marked increase in financial help to "deserving students," how may we define the latter term? Will these increased opportunities be for genius alone? Or shall we consider the wisdom of the old school master Ascham who found the prodigy conceited and unteachable and held a brief for the intelligent pedestrian thinker?

The psychologists bring at least a part answer in the use of intelligence testing and their statement that a certain I.Q. is essential to attaining to university thinking. Certainly we cannot afford to convocate morons; the state has neither the patience nor indulgence First Prize Serious Verse of the father who often accomplishes this, at this stage in the evolution of learning. However a high score in an I.Q. test can be slender grounds for entertaining great hopes of a youth. The time-honored method, that of examination, is flagrantly weak-we all know the student whose ability to write exams is his only claim to intelligencebut it is at least indicative usually of an attitude on the pupil's part.

Again the modern will say that aptitudes affords a worthy criterion, and certainly they are as significant as scholarship. A young man or woman with obvious possibilities as a writer, with dramatic talent, or artistic ability, should be given every means of developing his gift. Yet here again such promising students often refuse to submit to the intellectual discipline of the university and either quit, fail, or drift ineffectually through an undergraduate fog, refusing to use the mundane tools of lecture or library. Then too a flash of adolescent wit is no indication of future worth. The writers of the best teen-age verse abandon their fiterary ambitions early in life; most of them pen their last elegy on love's agony and life's meaning as they cut their first wisdom teeth. A student becoming thus disillusioned at college would find it embarrassing if he were there in the role of a "promising poet." There seems to be no method par excellence of selection; the examination, weak as it is, may have to serve.

It is plain that there will have to be more kinds than one of higher learning after the war. Foremost in the minds of all are the vast numbers of men of the services, some with a year or more of college behind them, some ready to enter, others equally ambitious who have

The Roan Stallion

-WILFRED R. BENY, III Trinity College

Two figures on the shining hill, woman and stallion, she kneeling to him, brokenly adoring

He cropping the grass, shifting his hooves, or lifting the long head to gase over the world.

Tranquil and powerful. She prayed alond, 'O God, I am not good enough. O fear, O strength, I am draggled'."

-Robinson Jeffers.

Free Indeed

By John Edward Speers, III Victoria College

Two children played in the shadows And the toys they found were these-A bird at their prison-casement And the seven Pleiades.

But the children tired of their play-things And the game they found was this They burned their bird in the star-fire, They shattered the curse in a kiss.

The valley shook with the thunder, White flame raced high in the wood, The walls rained rubble around them; But they saw not, nor understood

Their freedom, knew only the fever Of their passion.

Strange that the hour Should perish, and each fall pining For the toys and the sombre tower!

Second Prize Essay

It Seems To Me As a Layman . . .

By Bud Langlois, III S.P.S.

Any treatment of the possibilities of post-war higher education is of necessity limited by the somewhat ethereal nature of post-war planning in general. All post-war proposals to date have been characterized to a large extent by a general tendency to over-optimism and their lack of relation to immediate post-war actualities. While the writer lays claim to no scientific knowledge of pedagogy whatsoever, he does believe that it might be worthwhile to attempt to co-ordinate the possibilities for the development of higher education after the war with immediate probabilities. The conclusions reached, then, will be purely those of a layman, based on his own personal educational experiences, and will be his prescription for overcoming the inadequacies which he has seen in the education of himself and his contemporaries.

Interest Awakened

That there will be a very great interest displayed in the question of education during the period of reconstruction after the war there is little doubt. Since the beginning of this century a growing uneasiness with the organization of society has been manifested by the writers and thinkers of all the western democracies. The breakdown of the confident and secure system of the last century, culminating as it did in two world wars and a world-wide depression has to say the least widened their concern. A sense of uneasiness such as has been unknown to a civilization since the closing years of the Roman Empire, has permeated society. Never before has so large a proportion of the intellectual and literary effort of the community been devoted to political relations and like studies, nor has such spreading concern and even doubt as to the future of the society been manifested. That there may be something fundamentally wrong with our society is no longer the outlawed and "dangerous" idea that it was not so long ago. Many believe that the world is ripe for a very general reconsideration and reorientation, and that the two world wars are only of secondary importance compared to the world revolution of which they are a part

There exists today an enormous body of literature, each work of which attempts to present its writer's personal formula for the wrongs of the world. This literature is very naturally the product of the intellectuals, and unfortunately for this very reason leans toward one particular assumption that is not justified. Speaking very generally, it assumes an interest in politics and public affairs and a genuine desire for betterment in a far larger portion of the community than is perhaps justified. The average person is politically unsophisticated and is quite content to believe confidently that politics and world affairs are the business of politicians and statesmen alone, than which there can surely be no more dangerous assumption. Whatever be the plan adopted for "the making-over of society" a universal prerequisite to it will be a more general education of the populace as a whole to fit them to perform, as a privilege rather than as a drudgery, their duties as citizens

The Role of Education

It is felt by many that education should play a dual role, that of first providing the means for a richer personal life for the individual, and secondly that of establishing a basis on which later to establish a and secondly that of establishing a both of the saccomplished, and how is it to be related to post-war possibilities? A more general interest in education has been clearly indicated within the last several years. The great difficulty of course, is in translating this interest into practical developments, and of utilizing the existing educational framework to the greatest extent possible. Despite enthusiastic trainework to the greatest extent possible. Despite enthusiastic forecasts to the contrary, it is to be anticipated that there will be no great resources available in the future. In the past education has been financed to a large extent, thanks to the consciences of repentant "robber-barons," but the great personal fortunes are declining in number, and the possibility of the establishment of any further such fortunes in the future are becoming less, as progressing constant. fortunes in the future are becoming less, as progressive social and industrial legislation is brought in from year to year. It will be difficult to convince the taxpayer that education should come before garbage disposal, for however good their intentions may be during a war, nations are like people, and only resort to prayer and promises of good intentions in times of stress. Remove the danger, and sadly enough, good intentions are soon forgotten. Any advances in education, it is feared, will have to come from within present institutions and their administrations rather than from outside.

No schemes for universal or anything like universal attendance at university are here proposed, for it is impossible to see that all

A Christmas Gift

Proving these columns justified in stating that some of the faults visible in the present C.O.T.C. complete the term's military training at the rate of

While this move has proved the military authorities to be not unmindful of the trials and tribulations of the more heavily burdened students, it should by no means obscure the fact that the men affected have long carried on an extremely heavy schedule with patience if not without complaint. They have now received relief which outdoes the most general rumor that their training time was due to be cut in half. Short of abolishing their training altogether, this is the best gift the military could possibly give them for Christmas.

It is not, however, an absolutely free gift. It kind I have ever seen. carries with it a burden of responsibility. The University is still under an agreement with the Dominion government to give all its men training, and it will be up to the men of the Third Year of these courses advantages handed on to their successors.

The Varsity does not wish to make a practice of self-justification, but at this point we would like to point out that it is our policy to avoid mere whistling first exhibition of a young self-taught Canadian in the wind as much as possible. When we said that certain faults in the present training arrangements handles his medium with amazing and accurate were due to be remedied soon we had already been instinct for space, form and proportion. Low in key, informed of the general outline of the facts an- and restrained in palette, these landscapes show nounced today but they had not yet been officially promise of fine talent in development. Dusk on the | all released. Our remarks at that time were an attempt Edgeware stirringly suggests ahe crepuscular magic to ease the minds of readers concerned and at the of the countryside. same time keep our ethical obligation.

The Christmas season has always been a time Member of the Canadian University Press

Opinions expressed in these columns are not necessarily the official opinions of the Students' Administrative Council. Mi. 6611 parts of our University together. We refer to the Mi. 6221 decision on the part of the women's undergraphers. decision on the part of the women's undergraduate associations of the four Arts colleges to join together in assisting the University Settlement's Women's Committee, made up of wives of the faculty, with their annual Christmas party for the girls of the Settlement. Since the Settlement is a project of the whole University and is sponsored by the Committee of wives of the University faculty, it is only right that such a party should be partly financed and managed by the undergraduate women of the University.

At its inception the party was managed alone by the Faculty Wives Committee but when this became impossible the women of U.C. came to the came impossible the women of U.C. came to the rescue. So for more than four years U.C. has been assisting this Christmas project. Vic has also assisted for two years but this year made the suggestion that all the colleges should get behind the project and so Trinity and St. Michael's were the project and so Trinity and St. Michael's were the counters rival felons. Affection had long descreted his filiny heart, the counters are the counters and the project and so the counters are the counters and the counters are the counters are the counters and the counters are the counters are the counters and the counters are the counters ar asked to join. Now it is a real University affair and the managing personnel at the party will represent all four colleges. We applaud the move as a dear, with love," without a tremor of what is the party will represent the party will represent a simple inscription, "To Quesy Woosy sent all four colleges. We applaud the move as a dear, with love," without a tremor of what provides the party with the party of the party with the party of the party with the party of the p step in the right direction and only wonder why what might have once been love. step in the right direction and only wonder why it was not taken at the outset. Students of the members colleges are as a rule only too glad to join in any University undertaking and the coperation is there for the asking.

There will be 12 University women at the Set-

There will be 12 University women at the Settlement party acting as helpers to make sure the children have a good time and don't kill themtlement party acting as helpers to make sure the children have a good time and don't kill themselves. This will give 12 campus representatives a chance to see the work that is done at the Settlement and might conceivably interest some of Settlement and might conceivably interest some of them in settlement work. The Settlement staff could use any number of assistants and there are some sections of the University which are not represented down there at all. In any case, each college is now fully aware that the Settlement exists dream? and who can gauge the effects of next Friday's display of community spirit?

SCIENCE STUDENTS' TRAINING IS SLASHED

Portrait Of Ernest MacMillan Presented At Special Hart House Dinner Monday In Appreciation Of 16 Years' Service

-STAFF PHOTO BY HUGH KENNER

Sir Eruest MacMillan, Dean of the Faculty of Music, is shown above accepting the portrait of himself by Kenneth Forbes, R.C.A., which was unveiled and presented in the Great Hall, Hart House, at a dinner in his honor Monday night. Sir Ernest, speaking of its future worth as a work of art, said that it would probably be remembered long after he himself was forgotten. He fancied it hanging in a 22nd century salon with the fille "Portrait of a mon in academic costune, early 20th century."

Social Events To Figure In Schedule Arranged For Professor H. M. Kallen

Professor Horace M. Kallen of the New School of Social Research, who is to address an open meeting in Convocation Hall this Sunday afternoon, will be attending also a reception and meet-ing in the Pi Lambda Phi fraternity ing in the Pi Lambda Phi traternity house on Sunday after his address. A luncheon with some members of the faculty is being arranged for him for Monday and he is to address the Ca-nadian Institute of International Affairs Monday evening.

Canada.

"While a great musician," President Cody said, "he has also been externally a great and good citizen, he has never affected the odd or eccentric."

Sir Ernest, replying to the toast, paid tribute to those who had worked with him during his years at the Conservatory. "So many things have beet attributed to me tonight," he said, "for which the credit must be shared by countless others of you here." He also expressed his appreciation of support of the Board of Governors and of the University and Dr. Cody.

of the Board of Governors and of the University and Dr. Cody.

He described his ideal for the Conservatory as one which will offer the student of music everything he needs in proportion, not to his pocketbook, but to his abilities, and one which will see that the student takes advantage of such opportunities or gets out. Sir Ernest said Norman Wilkes, present conservatory principal, felt as he did.

Accepting the portrait, Sir Ernest said it "is going to remain a pernament and fine work of art long after the sitter has been forgotten."

After adjourning to the hallway outside the Great Hall for a few minutes, the party reassembled in the Great Hall does not be the party reassembled in the Great Hall does not be the sitter has been forgotten."

Brieger felt that the interest of the design sustained it in second prize position. Literary Judges Picheartened Years Three and Four Train Hour a Week

Revision of C.O.T.C. Parade Schedule for Men in Upper Years of War-Essential Courses Approved by District Officer Commanding Military District No. 2; Announcement Made by Dr. Cody Is as Follows:

The District Officer Commanding Military District No. 2 has ruled that science students, defined by the Wartime Bureau of Technical Personnel, who

(a) have successfully completed Miliary Training in their First and Second Years in accordance with the regulations of the Board of Governors, and

(b) have attended two summer camps may undergo Military Training in their Third and Fourth Years as follows:

(1) one hour a week during the session, and
(2) a camp of two weeks' duration in the summer following the Third Year.

This ruling applies only to students enrolled in the C.O.T.C. and not to students enrolled in the U.A.T.C.

Eligible students

Eligible students who wish to take advantage of this ruling should apply to their Commanding Officer on the form available at the Battalion Orderly Room concerned.

enlisted in high school days. The keynote here will be that of vocational training and preparation for the business of peaceful living. There is little doubt but that the state will cover the needs of these men splendidly: the difficulty of the task lies with those who would seek to draft such a complex curriculum.

The student of western Canada maintains a far greater interest in agriculture than easterners realize: the degree of Bachelor of Science in Agriculture is the goal toward which many a farmer's ambitious son strives, and an increasing number of young scientific farmers are graduates of such courses. Here again the straitened economy of the West prevents many an able student from such opportunity. Scholarships should definitely be used in the development of this phase of higher learning, and no better means of preparing ex-soldiers for western farming could be found than an adaptation of this course.

One apparent danger of this influx of great numbers of students it what may be called educational inflation. If everyone has a B.A then a necessity is created for making a cultural requirement some still-higher learning: that is, we will have succeeded only in raising the names without raising the standards. If we extend opportunities on any great basis, we must make the courses such that they will be within reasonable mental reach and of practical use, but we must at the same time maintain a far more rigorous training for the minds equal to its demands. The fact remains that the university inevitably tends to establish an aristocracy of minds. We have proceeded it social purpose from Bishop Strachan's definition—that of a place for training the clergy and sons of the best families—to the admittance of the large bourgeois class. At present our so-called democracy of education is limited to the bourgeois; the only difference in the proposed system of selection would be that brains, not bourgeois birth will be the criterion.

These have been fond speculations: is there any possibility of such state interest in the reconstruction days? There are many such indications. Churchill spoke glowingly to the Commons last February on the role of education after the war. Ontario has added to its financial assistance of needy students. A very practical example of increasing state interest due to the war is the establishment of the Army Schools where boys are actually paid to take a year of university training. The state will not likely abandon this practical scheme when the peace comes. The financial assistance rendered to medical students is still another evidence of the possibilities of this policy.

It is right here, it is at this very likelihood of increased state interest and influence that I get nervous. The role of the humanities has been a precarious one throughout the war; its struggles have scarcely begun. It is only natural that a state should reason, "We pay the bills, ergo we run the show." This is a logical development from the justifiable acquisition of power over educational policy during from the justifiable acquisition of power over educational policy during war-time by the state. Kent, of the University of Louisville, voiced public opinion in saying, "Special Federal aid given to higher education a docile tool for a determined state. McLeish in "A Time To Speak" now should be for the support solely of those activities which contribute directly to winning this war." We know of the significant distinction

The Nazis have this kind of higher learning. Baldur Von Shirach the Western world." So asts "that every young person in the youth organization of the Fuehrer has an equal chance, regardless of wealth or position of parents, to advance according to his abilities." And while this is system. When workers of exceptional ability are given time off from factory or office and paid to attend university, all is well—the returns to the state are prompt and tangible. Not so with the arts. Anna Louise Strong waxes exuberant over Ostrovski's "How Steel Is" the humanities will continue to wonder what strings are attached. We will be inclined to prefer things to blunder on as they have done, to let potential Newtons dig ditches and embryonic Miltons clerk in Eaton's, rather that prostitute higher learning or experience the shackles of intellectual serfdom.

First Prize Light Verse

Ballad of a Birthday

When I grow up, grow twenty-one and die I hope to visit hell with all my friends Beside old Alpha Road, near Slough of Sly, I'll open a hotel with varied drinks and viands.

With Mephistopheles hand in hand we'll go, And revel in the purple flames of Hades, And after we have bathed in pools of purple snow, We'll go and give our hellish hearts to ladies.

When I grow up, grow twenty-one and die. I'll break out as a tapster down in Hades, Drink alcohol and absinthe, drink acids and sour rye And give my druken soul to all the ladies.

Oh the Ladies down in Hades Have the blackest, biting eyes. You can see the devil in them And he isn't in disguise.

Blackest virgins of fell Hades, Dearest Daughters of the Damned! Meet the madmen from Toronto, Meet them, greet them, take their hands, Dance the Bacchanalian revel. Hail sweet Arts, and hail dull School, Drive, oh drive the prigs and pedants Down beneath wet Hart House pool, Kick, oh, kick the dons and dunces Let them wallow in the dust.

Ladies of the hellish revel, We invite you be our guests, Descend sweet viragoes to our level, Deign to quaff our beverages.

ENVOI

Satan, were you ever twenty-one? Did you too reach that venerable age, Survey the stars, and then grow sage, Saying, like l'auteur, "All the universe's a stage"?

ENVOI TO ENVOI

Satan, you're jejune, inexperienced, and young, We've many things to teach you, even we Dear Devil, be pleased to loose your untainted tongue And lisp the current euphemism after me.

ENVOI SUCCESSIVE TO PREVIOUS ENVOI

Dear Undefiléd Devil, could you but see Our sins, t'would spot your soul to lurid black Dear Devil, you are blushing a deep green, Cans't be, we, dear, are as tarnished as all that?

Welded," "a lasting contribution to literature." She mentions, too casually, "political editors, officials of the Commissariat of Education, whose function is to give advice in the demands of the educational field and the political significance of the work." (Italics are mine.) She adds that they dislike the name censors! So do I. I dislike what they do, moreover, and particularly object to that strained note in Soviet art, a self-consciousness that is not the same as patriotic fervor. It is as if they had to write out a hundred times a day, "The state supports me, my painting, my symphony, my ballet must simply shout to the glory of the Soviet."

attacks the modern humanist scholar for this very refusal and nostalgically remembers when "he was a man of learning, whose directly to winning this war." We know of the significant distinction drawn by our own Selective Service between the "essential" courses of Medicine, Engineering and Science, as opposed to the "non-essential" relassical, literary, social and economic studies. The danger that this piercing is Lippman's counter-assertion that modern education is in utilitarian calculus will not be put away with the war flags as a very from generation to generation the religious and classical culture of

no attempt to criticize the Soviet state, I maintain that there is something rotten too in the state of their much vaunted educational students of the humanities will continue to wonder what strings are

The Fantasy

Last night

I wandered through the orchard,

Down that winding lane 'neath the blossomed apple trees Where moon beams shimmered in golden flakes

Through the leaves, to the ground below.

Last night

I thought I saw you once again,

As many years ago,

Standing by the wooden gate just as you used to stand,

Your head uplifted toward the dark blue sky

And silver stars that sparkled overhead,

Your tresses flowing in the gentle breeze That rippled down that winding lane where you stood.

It seemed to me

As though the clouds of time, had swept aside,

And left us as we were

Long before.

It seemed as though all life and death

Were one before me

That for this short sweet space

You could linger yet again with me,

And we could talk about those things we used to talk, And laugh and dream about those days long dead.

For, oh, it semed so real

That I

I think I took your hand

And led you through that creaking gate And up to the great hill-tops above,

Where life is really pure,

And the wind

Can scream and play in all its wild delight. Was I mad, or did I hear you whisper something to me, Did I dream, or did you press your lips so close to mine,

That for one brief moment, my life was yours.

I may be mad and I may dream, But I swear by all those gods above,

That you were there walking by my side, For the short, short, moment.

And then - you were gone. Back to the orchard and the lane

And the blossomed apple trees,

Back to the creaking gate and a world of memory,

Where remain you will, Until.

I come to stay with you forever.

Until,

The door between us opens,

And I pass through to you waiting there.

Then will I know that I have found my long sought heaven, Then will I know that I have come to you,

At last.

Montreal, Dec. 13-(CUP)-Morris

Hart House Warden
Host at Annual Dinner

Acting-warden J. R. Gilley is holding the annual traditional Christmas party in Great Hall next Thursday formen of the University who are not going home for the holidays.

Mr. Bickersteth, Warden of Hart, House, who is on leave of absence as Director of Education for the British Army, started the custom 18 years ago. Every year since, invitations have been extended to students from distant parts, and they were able to enjoy an away-from-home Christmas figner.

The program will be carried out in the traditional manner. There will be a yuletide dinner with all the trimmings, a musician to lead the carolling, and distribution of gifts. In other years, the party has been in the way of a family reunion. Friends from the same locality, separated for years, have discovered they are in the same college. If anyone, who has not already received an invitation, is unable to go home for the holiday fets, Mr. Gilley urges him to come to his office in Hart House soon, so that the necessary arrangements can be made.

Second Prize Serious Verse

For Duke Ellington

By Duncan Robertson, I University College

Down through the silence, Trickles the piano's coolness, Wistfully, a saxaphone sighs its bit of whimsy-In the plangent drum, the pulse begins to ache, the bass dull-booms, the trombone's deep chorale

chants soft. Sad and warm, A trumpet bursts-Sad, warm, warm, warm, warm . . .

Savage and sensuous, Singing of the vividness warm in the spirit, The ecstasy-hunger, Burning in the jungle: The Mumbo-Jumbo dances, The sting of rain on naked flesh, At night, the mystic sounds, Green shadows rioting to flower, The awe of so many vast, quiet dawns.

The blood remembers; The essence of a song wailed in the jungle long ago Sings in this poignant trumpet. They lived the earth, And now the lips give back, Spontaneous, Its beauty.

Settlement Yule Party For 125 Girls Dec. 17

ranged entertainment including ranged entertainment including short plays. Other novelties such as crackers, eandy and prizes will be given them by Santa Claus. Those who have ex-celled in their work during the term

the chairmanship of Mrs. Malcolm Wallace a committee of the Women's Set-tlement staff personally financed the plan. Then the W.U.A. of U.C. conplan. Then the W.U.A. of U.C. con-tributed the sum of \$10 which was later augmented by gifts from Vic, Trinity and St. Michael's. Personal subscrip-tions are still secured by Mrs. Wallace. U.C. women's dietitian prepares

Dinners and Song Planned by Men

Nearly all the men's residences

Nearly all the men's restudicts on this campus have held, or plan to hold Christmas dinners for their students. Trinity held what constituted its Christmas party in November, but a Christmas sing-song is being planned. Knox will hold its annual Christmas

dinner tonight, followed by a Carol Service at which all visitors will be welcomed. Burwash Hall is also holding its dinner tonight.

Any time's SHOPPING TIME!

certain smartness which can weather many a changing scason. Fur coats with a young look about them are plentiful at Colquhouns, where a coat of luxurious Persian with an eye-catching gleam is carefully styled to keep you looking sweet seventeen. Toronto's Scottish Fur House, at 38 Bloor Street West, is just east of Bay, Bloor's north side.

sage shopper, the Evangeline Shop around the corner of Bloor on Yonge is headquarters for a lot of quictly efficient shopping work these days when there just isn't time to do too much fooling oround. Since every item is a good gift possibility, the earnest shopper could hardly go wrong by picking all feminine gifts at random. Every Evan-geline item has been checked and double checked for practicality, quality, and attractiveness. The Evangelines are experienced at the business of selecting the stock both ample and fool-proof from a gift purchasing angle.

Which means the colder the weather and clean. Makes a good gift, too easy to buy, easy to wrap.

JUST ABOUT THE most cheerful shopping. Make the store headquarters for downtown shopping operations and we'll bet when you get down to that list, iust as cheerful as ever under the added he may not be suited. plust as cheering as ever times line and a stress. (I told you that stoff was the best-natured sales stoff in the world, addn't 17 Well they're still that way, if the junior college system is apite of the rush!) Your habit of universities will consequently be a full time. Northways for gifts is a good one to

Second Prize Essay --- Continued

The Christmas party for the University Settlement children will be held war it should not be too much to expect that every person worthy of on Dec. 17 at 5 o'clock. The committee the sexpects over 125 girls and have are taken to be too much to expect that every person worthy of the should be able to receive the benefits of university attendance, for the laws been assured that jobs will be provided for substantially all we have been assured that jobs will be provided for substantially all who desire them after the war. Waste is an inevitable feature of any such large works program, and surely it is safe to say that even the most unenlightened government will not deem it more expensive to have the most intelligent of its youth attending a university rather than "leaning on a shovel." I think it is reasonable to assume that if an selled in their work during the term will also receive gifts.

This party dates back to the years when the men of the University held a similar affair at Hart House. The co-eds followed the example of the men and inaugurated a Chrismas enter-tainment for the Settlement girls. Under the schilmentified Mrs. Malcolm Wal-

Less Standardization

This however is not all of the story; it is a mere Utopian dream to plan an arrangement whereby higher education is available and given to all. Nor would we wish to have such a state of affairs even if it were possible. Many students I have met have evinced a feeling that education, as they have received it, is too standardized a product and is distributed too uniformly to persons of different capacities and aptitudes. It is felt that early in high school the capabilities of the students should be determined. This has already been started in many of our secondary schools, where already educators are placing great emphasis on vocational guidance and allied subjects. Such guiding selection should be practised to a greater extent in the future, and would determine whether an individual's creative instincts lie on the out routine tasks in the industrial world would be able to do far more interesting and profitable work if they had been given a chance to advance their training. It is far preferable that a man whose capabilities lie in that direction should be a first-rate machinist than that he should be a very second-rate banker even though his background should be such as to demand that he expend his energies fruitlessly in the profession of banking, for which he has no natural desire or interest.

should be broadened to give some clutural background on which to build the syllabus of later and more technical instruction. The role of the technical schools may be broadened to help give the student a better appreciation of good living. A broader background of anthropology, world history and literature would help to increase the Colquinous are right with you in that, are material rather than intellectual should not be left unprepared to and are co-operating with the fur-coat enjoy all that life can offer beyond mere existence. In a sentence, minded to turn out coats of a suave and the technical school must provide instruction in the phychology of and the technical school must provide instruction in the phychology of living, rather than mere practical instruction in industrial proceedures.

Those students whose intellects indicate that they should continue should continue with a normal high-school syllabus. Certain minor changes should be made, however. History courses as now taught concentrate entirely too much on national biography. Instead of a mere recitation of dates, names and personalities a history course should be concerned with a study of international movements in OPEN EVERY EVENING for the thought as well as action. Only when a firm grasp of world history Shop has been attained is it safe to allow the student to study the history At Dean's Party of individual nations.

The Junior College

It is proposed that high-school education should terminate at the end of the fourth year, and the junior college system, which is rapidly gaining ground in the United States, should be extended. colleges would be government institutions as are high schools, and rould be available to anyone capable of benefitting from them, that is to any normally intelligent student. They would be on a much smaller scale than a university, and would be more widely distributed. small and important accessories, skirts, Here the student would be given an introduction to the less sheltered blonses, lingerie, housecoats. You'll find and more self-reliant life of the university, and would be given a and more self-reliant life of the university, and would be given a chance to prove his ability to benefit from university attendance.

The courses taken would be of a general and liberal nature, and THE COLDER THE WEATHER the would act as an extension to the high-school course. Some divisions dryer the atmosphere while heating units might be provided as a basis for specialized work to follow. Here a work overtime to keep temperatures up, student, whose university training is to be mainly concerned with student whose university training is to be mainly concerned with scientific studies would be given a background to enable them to the more smoky, dusty and over-dry scientific studies would be given a background to enable them to become complexions. A remedy, the determine just what are the relations of their scientific activities to careful use of a good cleansing cream. the general life of the community. This should form a much needed Du Barry Cleansing Cream, gently applied with the tips of the fingers, rubbed off upward with a swirling motion, keeps the complexion moist and fresh transition between the sheltered home-life of the high school and the change.

To acquaint the student with industrial conditions he might be required to carry out certain work assignments in industries as part of his course. This would help him appreciate the viewpoint of the spot for gift shopping you can find docuntown these days, Northways is packed with good ideas for last minute the progressive university graduate is considerably hampered by lack of such experience. After observing the student for a period of two years an intelligent faculty should be able to advise the student of the we'll bet roken you get down to man ust, you'll find it amply taken care of with- out moving out of the building. North- the student time to orient himself in the world and decide in what ways departments are brimming with directions his interests lie before committing himself to the possible bright new surprises, their sales help waste of four years of his life perparing for a profession to which capacities he has displayed for further education. It would also give

If the junior college system is introduced, those who come to the universities will consequently be a far more intent and oriented group. They will receive the full benefit of the facilities of the university from

the outset of their career. A more serious attitude toward the value and the function of their studies will be evident. Generally, a higher standard of intellectual discipline will obtain. The universities will be able to provide more intelligent instruction than they now find possible owing to the comparative absence of those whose primary interests are not the acquisition of knowledge. It will not be so necessary for instructors to modulate their lectures to the pace of the students. The latter years of the university course would be on a co-operative study basis, with professors acting as leaders in discussion rather than little fire, and the Don shall receive it at last." as lecturers. Research in such diversified and necessary fields as social studies would develop to a great extent.

International Viewpoint

The universities might well profit from the principles of the Pan-terican University recently established at Panama. While probably American University recently established at Panama. governments which will make it possible for all students of ability, not on a sufficiently broad basis, it is a step in the right direction, for one of the primary fuctions of any university should be the eneouragement of a liberal and international viewpoint on the part of its students. It is here that the universities can make their greatest contribution to man's happiness and well-being. Only by the development of a stratum of internationally-minded persons in every country can there be any hope for a lasting peace, no matter what temporary economic and political measures may be adopted. It is becoming generally accepted that the diplomatic methods of the last two or three centuries have become ineffective in our present world, and that a major housecleaning in political relationships is clearly indicated. No such change however, it is asserted, can be successful without the existence of a large group of politically tolerant and nationally unprejudiced liberals, of whom at present there are admittedly all too

The development of this group can be accomplished only to a material or on the intellectual side. Many people who are now carrying limited extent by passive reading and study. The hatreds and fears that have been conditioned in us by years of international distrust and unsatisfactory political relationships are not readily dispelled by these methods alone, no matter how intelligently performed. Exchange students have been a rarity in the past; this is unfortunate. It is not advocated that a student spend his entire university career in a foreign country, but it is thought that some period spent there in association with other students of similar viewpoints, but of other nationalities, would do much to increase his desire and capacity to The curriculums of the elementary forms in high schools then, understand and to tolerate the aspirations of other nationals. war has made travel commonplace, and this will tend to expedite student exchange in the future.

No Utopia Here

The proposed educational system is the necessary basis, it seems, CONVINCING... these last few days, anthropology, world history and interature would neep to mercase the as to the necessity of a fur cost in possibility of such appreciation of those liberal influences which the on which any attempt to solve the ills of the world must rest. The as to the necessity of a fur cost in possibility of such appreciation of those liberal influences which the on which any attempt to solve the ills of the world must rest. The as to the necessity of a fur cost in possibility of such appreciation of those liberal influences which the on which any attempt to solve the ills of the world must rest. The as to the necessity of a fur cost in possibility of such appreciation of those liberal influences which the on which any attempt to solve the ills of the world must rest. The as to the necessity of a fur cost in possibility of such appreciation of those liberal influences which the on which any attempt to solve the ills of the world must rest. The that most post-war planning to date has less practical basis than is enjoy all that life can offer beyond mere existence. In a sentence, generally assumed, and that no educational plan which proposes too extensive a change should be formulated. The essential point is that education is the basic necessity for any advanced form of society, and therefore education should be available to everyone in a personally with general studies beyond the lower grades in secondary schools suitable form. This plan is of course limited by circumstances, and should be expanded when occasion permits; but for this very reason it is felt that the plan is more related to post-war actualities than would be a more ambitious proposal.

The Sportswoman

By Besty Mosbaugh

RING OUT THE OLD . . .

seems to be our main thought as we look back over the various capers of the Sportswoman of this term. Although we are tackled by pangs of remorse and such stuff in pounding out the last issue of the year we absolutely refuse to apologize for any fouls we may have perpetrated. We are quite aware that some damsels have violent objections to the way the "Woman" is whipped off but if there were no such discordant elements we would feel that the colyum was a failure. a failure

were no such discordant elements we would teet that the colymin was a failure.

For example, a babe in second year P.H.E. has voiced an opinion that he faculty has suffered violently from our pen. Apparently when P.H.E. won we gave the impression that it was the expected thing and when they lost we likewise gave the impression that they should have won. To all of which we proffer the esoteric suggestion that this babe get a new pair of glasses for her ears.

If anybody feels that they can score a goal in maintaining the mean between editorial comment and news, in writing this colyum, we will immediately concede them the game of writing a Sportswoman, or so. We have been wondering all term why it was that the people who have complained have never offered any constructive criticism by writing a Sportswoman themselves. We will always accept any guest columnists as will the masthead whom we have blungeoned into helping us out in the past.

Hence after time out for a couple of weeks we will zip into the next half with our usual tactics. But before the whistle blows we wish all our readers the best of luck for the kick-off at New Year's. May you all be imbued with traditional sportsmanlike spirit (if ya can get it) and may all keep the wolf at bay . . . which is a rum thought.

LAST BOUT

LAST BOUT

Before you become too immersed in packing you'd better whip up to see the last game of the basketball finals at 7:30 tonight in Hart House. P.H.E. and Vic will again tussle for the laurels and if the game is anything like last Friday's, it's worth watching. Remember that if you don't you'll have to live in suspense during the holidays, as the match won't be reported until next year. By that time you'll be reading stale stuff, so take the alternative and shove up to the gym. Helen Gurney (we hope her class won't mutilate The Varsity over this) will again be referee and Betty Mortimer will ump. How about as good an audience as last time, ch?

Baseball students held a clam-bake in the Directorate Room the other night and drew up plans for the second term season. Some 62 odd teams are expected to battle for the Sifton Cup come January. The Engineers lead the field with their customary deluge of teams, 31 this time. Meds have entered 12, U.C. and St. Mike's four. Victoria, Trinity and Dents two, and Pharmacy, Wycliffe, Knox, Emmanuel and Forestry one team each.

Emmanuel and Forestry one team cach.

A sub-committee, appointed at the meeting, will inspect and overhaul the indoor rules at the beginning of the year. Of interest too is the news that Hec Phillips, in his new full-time Athletic staff position, is taking charge of baseball and basketball in addition to his indoor track work.

This then gives some idea of just what is lined up for the like of you during the second term, not to mention all the skiing and skating which, weather permitting, you can wedge into your free holiday moments. Indoor baseball is good for reams and reams of sports copy, water polo will get under way soon after the start of the new year, and intramural basketball groups are being drawn up at the present time.

The hockey question is, for the most part, to be cleared up before the holidays. Twenty teams will probably contest tenure of the

at the present time.

The hockey question is, for the most part, to be cleared up before the holidays. Twenty teams will probably contest tenure of the Jennings Cup, among them five School and three Medical squads.

In addition the Athletic officials offer for the consumption of all male students so desirous, a diet of indoor track meets which extend over the entire term, swim meets for jumiors and seniors, and tournaments in the three assault sports, boxing, wrestling and fencing.

All of which gives you something to look forward to upon your return from the holidays. This past fall has seen a very well run and a very hotly contested series of individual and league sports. All due credit we believe should be sent to the following people: to Mac McCutcheon, promoter extraordinaire of the complete inter-faculty athletic program with whom we have, on occassion, had words concerning our journalistic outbursts; to Hee Phillips, Chesty Martin, (Continued on page 8)

Students who have paid the Athletic Fee will be admitted every afternoon and Three Evenings Each Week, on presentation of registration card.

A special Student Season Ticket, good at any time, will be sold for \$2.00.

Christmas shopping plunges one into ductor's lap, the most tantalizing crowds: tantalizing because of the exciting scraps of con-

"Why," said his simple boddy, "the Major."

In fact, Christmas shopping is a sad affair at best, without the complications that Machiavellian ninds can devise. But at least sometimes crime doesn't pay or prosper or something. A friend of ours with a diabolic turn of mind was working at one of the big downtown department stores on Saturdays, and since she was anticipating by the same of the big downtown department stores on Saturdays, and since she was anticipating leaves.

Still with Christmas shopping, there's the woeful tale of the Varsity ogre and his mother, who were bent on leaving a downtown emporium via the revolving door. Well, revolving doors in a crowd are confusing things at best, and these two somehow missed the exit and kept waltzing round and round with increasing velocity. The confusion spread into the brain of another shoper, who attacked the door and wound up in the same compartment as the lady in question; so that when the staffer linally gained the street he rejoiced for Scoy.); L. \$5: Second Prize Serious Verse, \$2 First Prize Light Verse, \$5: Second Prize Light Verse, \$2; First Prize Art, \$5; Second Prize Art, \$2.

The Student's Administrative Council office has announced that prize cheques will be ready by Thursday afternoon and prize winners are asked to call for them there. Contributions will also be available there for any who are anxious to get them back, although they will be returned early in January by mail to those who don't mind waiting.

UNDERGRADUATE LOAN FUND

Operated by the Students' Administrative Council

This fund is open to students who pay the S.A.C. fee and are in either of the final two years of their courses. The maximum loan is \$100.00. Interest is charged at 5% from date of leaving the University. Applicants will be interviewed and loans granted in January. Those receiving loans must sign a note, and a satisfactory endorser is necessary. Application forms are now available in the S.A.C. Office, Hart House.

10,000 Ton U.S. Liberty Ship Named For Sir Frederick Banting At Launching Near Baltimore, Md.

Lady Banting in C.W.A.C. Uni-form Breaks Traditional Bottle over Prow of Ship; Cody Speaks at Luncheon

MANY CELEBRITIES PRESENT

By Rex Wilson Canadian University Press Staff Writer

Named for Canada's greatest medical pioneer, a fine new 10,000 ton Liberty ship now lies at the fitting-out pier of the Bethlehem-Fairfield Shipyards, Inc. near Baltimore, Maryland. With a pop and a crunch of glass and a greal deal of flying spray the traditional beribboned bottle was broken over the bow of the bottle was broken over the bow of the S.S. Frederich Banting by the ship's sponsor, Lady Banting, at 11:45 o'clock on the bright, brisk and windy morn-ing of Dec. 20. Lady Banting wore the Uniform of the Canadian Women's Army Corps which she recently joined as a private in the fifth year of her-course in the Faculty of Medicine at the University of Toronto.

ing the ship took her place in her native element.

Lady Banting was visibly moved by the occasion and the members of the official party less intimately concerned expressed themselves thrilled, and Canadians and Medical men present testi-fied to feeling a great surge of pride in association, however remote, with the man so honored. Another emotion felt on the occasion was a momentary anxiety which beset shipbuilders as the freshening breeze caught the great un-ballasted hull and swung her drownstream toward a moored tanker. Two tugs standing by for the occasion brought her under control, however.

brought ner under control, however. Following the launching, after the champagne foam had been wiped from Lady Banting's greatcoat and the overcoat of J. M. Willis, General Manager of the yards who had instructed and assisted Lady Banting in her duttes, Mr. Willis, careated the greater with a wild. stated Lady Danting in are duties, and Willis presented the sponsor with a gold floral spray glamour pin set with blue stones. The sponsor's gift, made on behalf of the yards, was enclosed in a blue morococ case with a small brass plate on the cover bearing an inscription

commemorating the occasion.

As the party left the launching stand surveyors, with their familiar transits, were lining up the ways to receive the keel plate of another ship, and the welders who had cut the perforated steel plates holding the ship before the launching had already returned to their

The official party was then driven to the Hotel Beyledere in Baltimore where a luncheon was given in honor of the apontor. The party was a large and international one. It consisted of a group from Toronto made up of Lady Banting, Dr. H. J. Cody, President of Banting, Dr. H. J. Cody, President of the duration of the war. As a part of the University of Toronto, Surgeonthe Univers Barting, Dr. H. J. Cody, President of the University of Toronto, Surgeon-Captain Charles H. Best, codiscoverred Captain Charles H. Best

"I Name Thee . . . "

This picture was taken at the precise moment that Lady Banting, with what one newspaperman present called, "A real Joe Di Maggio swing," broke the boille of champagne on the bovo of the Liberty Ship bearing the name of her late Intsolond. As the ficture was taken the ship was already in motion and immediately afterward both Lady Banting and J. M. Willis, manager of the yard, standing behind her, were covered with champagne foam. course in the Faculty of Medicine at the University of Toronto.

The Frederick Banting, the first ship from these yards to be named for a Canadian, is the 267th the yards have launched and one of 13 launched in the month of December. The ship slid smoothly down the ways into the white-capped waters of the Patapseo River. Majestically, but without undue splashing the ship took her place in her

Praise for Banting

Praise for Banting

Main topic of the numerous speeches following the luncheon was praise for Sir Frederick Banting. The luncheon was preceded by the playing of "The Star Spangled Banner" and "The Maple Leaf Forever," and strong emphasis was placed in the speeches which followed on the international good will which was symbolized in the event of the day. The speakers included the Hon. Leighton McCarthy, Dr. Williams, Mr. Menzies, Dr. Cody, Lady Banting.

Mr. Menzies, Dr. Cody, Lady Banting, staming was needed even for such a staming wa the day. The speakers included the Hon Leighton McCarthy, Dr. Williams, Mr. Menzies, Dr. Cody, Lady Banting, Mrs. Willis, Dr. Urquhart, Capt. Best, Col, Rountree and Dr. Blalock.

"While Banting was a Canadian by birth," said Dr. Cody, "he became a citizen of the world. Some men's monuments are of stone or marble or bronze; Banting's this day is a huge ship launched to speed on victory, peace and goodwill throughout the world." In her reply to this speech Lady Banting af-firmed the fitness of the monument, likening her husband to a great and steady ship.

steady ship.

A photographic portrait of Sir Frederick was presented to the builders by Dr. Urquhart to be placed in the wardroom of the ship. He read from a biographical scroll which is to accompany the picture so that the crew may know something of the man for whom the circle which is the case of the same properties.

Dr. Williams was chairman of the sponsoring committee which was responsible for the naming of the ship.

Praise for Banting

stamina was needed even for such a short period.

On the seventh day of training sec-tion attack drills were carried out using live ammunition, and then for the "battle inoculation" everyone in the school had to crawl about 50 yards while the in-structors fired rifles and bren guns so that the bullets whined about three feet to crawl about 50 yards while the in-structors fired rifles and bren guns so that the bullets whined about three feet over the heads of those crawling flat on the ground. At the same time nortar bombs were fired over head so as to land some distance away, the

The climax of the course on the last afternoon was the demonstration given by a special platoon from the Canadian Small Arms School under the direction fits chief instructor Major Pickerel and of Capt. Conolly. Major G. R. Lane, Chief Instructor, 2nd Battalion C.O.T.c., who was present, stated that of the many demonstrations he had witnessed at the Small Arms School he theory of small arms firing. What Are We Offered?

Reflection on the possibilities of a new year naturally turns on a theme similar to the opening businesslike remarks of an auctioneer, "What am I offered?", but unlike the auctioneer, we have no chance to raise the bidding no matter how we urge is not even a "take it or leave it" proposition, we students had best be resolved to do.

We can feel assured that a good deal of favorable down to the last ripple of her expressive hands. progress will be made in the Allied prosecution of the the minor hardships of war which we have experienced may be lightened as science and changing beyond the tenth row. A minor defect. production demands succeed in producing more of the semi-essentials for which we yearn.

fighting war will mean heavier casualty lists than we have yet experienced, more sorrow in the nation's homes for some as the general prospect looms brighter. It may then happen that the immediate need for manpower at the front will become so great that men in college, who have been thus far wisely saved as a reserve for peace, may be needed as a wartime reserve instead. As we all well know the Dominion government has already announced its intention of calling men up for army service after their first year of college has been completed. This is the most immediate concern which the new year offers men whose courses will be unfinished in June.

This concern has not as yet been lightened. first step toward further paring the colleges of men in non-essential courses has been taken. The long awaited appointment of the committee on essential courses was announced early this week, and that committee met yesterday for the first time in Ottawa Its findings have not yet been made public, and, while college men are as unenlightened as before, their curiosity and anxiety have been aroused by the knowledge that something is being done.

Soon we should know something of this matter. What will the committee decide? Something differing from the previous conceptions of an essential course is probable, but to what extent will it differ? The whole aspect of the war has changed since a year ago when the United States colleges were all but drained of their manpower. Then engineering and technical students and potential doctors and dentists completely debunked the finest efforts of modern received the number one priority rating. Now, with artists, for even where the source has been obviously more and more emphasis being placed on admin istration of captured territories, propaganda work and relief work in liberated Europe special schools of administration have been set up in the United States the lower right hand corner of Raimondi's Judgment and graduate fellowships have been offered by some of Paris, put on some modern clothes, inserted a universities for research in special problems of a French river-side scene, and so emerges, Déjeuner definitely practical aspect. With these phenomena in sur l'Herbe. Cézanne has utilized the main dismind the possibility of an interpretation of the term coveries of Poussin, who held forth in the sixteenth "essential" heretofore been accepted becomes more and more painting of distant objects with paler colours; but apparent.

he has added a different emphasis in painting from apparent.

When the twin phenomenon of cutbacks in some

fields of war production are viewed at the same time his own mind. it becomes not inconceivable that while some arts

courses may take on a different color in the eyes of the government some engineering and science courses may be pared correspondingly.

We do not wish to inspire either elation or alarm in readers of these columns, and we hasten to assure that these are only speculations. Everyone will be doing it until the committee makes some definite announcement. Like you we await this announcement impatiently and with mixed feelings. Whatever it may be, however, we shall all have to resolve to take By comparison with what has happened to students elsewhere we have been handsomely treated. Much as any further retrenchment in the field of higher education is to be deplored, anything remotely resembling a whine from a college student will seem to become them ill in the ears of the public.

Black Magic

Royal Alexandra Theatre

The year opens auspiciously with Katherine Dunham staging her "Tropical Revue" at the Royal Alec this week. Here is a show that has what it takes! Exquisitely turned ballet, haunting choruses, a lyric tenor, exuberant specialty numbers—and the ravishing Miss Dunham herself.

From the very first item, Rara Tonga, a legend of the Melanesian people, danced to the hypnotic rhythms of the conga drums, to the last balletic extravaganza, the revue moves with pace and vivacity There is never a slack moment. The choreographic sequences are performed with the adroit crispness that characterized the Ballet Russe in its heyday of some four or five years ago, and a palpable spon-

tancity that is unique with this group.

Individual honors go to Ramona Erwin, Roger Ohardieno and Tommy Gomez who mimed the and cajole the Fates. As the years come around it Chosen Woman, The God, and The Jealous Husband in the Melanesian legend, while Miss Dunham as simply have to take it. And take it is what Canadian Narrator provided the percussion background, and danced a masterful commentary on the main action,

Bobby Capo, who doubtless will finish up in Holly war during the year 1944, even though we may have wood, sang a Cuban Slave Lament, with guitar and to wait a bit longer for the end. In many spheres all the heart-rending trimmings. Moreover, his was the only voice in the show which could be heard

Lucille Ellis, Claude Marchant and Laverne French made much of a eupeptic little skit intriguing-But the intensification of the pace of the actual by titled Rumba with a little Jive mixed in. They made the feathers fly, literally. Perhaps the most potent dance drama of the evening was the Rites de Passage, based on the Haitian initiation rituals used at the transition of the warrior from boyhood to manhood. Performed against a jungle back-drop that came straight from Rousseau le Douanier, the voodoo rites came witchingly alive in this interpretation. Tommy Gome's Boy Initiate was a thing of animal beauty and infinite pathos.

The last third of the program was pure joy to the many jitterbugs in the audience, having such fare as Variations on Boogie Woogie and Barrel House. If any criticism can be made, it is that the revue peters off toward the end, lacking a true climax. Stagewise Miss Dunham will surely adjust that little

BROCK BRACE

The Royal Road

Hart House Art Gallery

The museum of modern art has brought together an interesting and informative collection of pictures in the Ancestral Sources of Modern Painting, which now being exhibited in Hart House Art Gallery.

Besides the inherent disillusionment of modern painters, at first glance the viewer might feel like adding his own disillusionment as the tricks and ideas of the lions of art are revealed as plagiarism. However the scientific investigation of sources has not pointed out the differences of the modern painting are nore striking than the similarity to the sources

differing widely from that which has century: perspective, overlapping planes, and the nature, and not from the artificial arrangements in

BILL NICHOLLS

presenting for the first time any where an authentic eyewitness account of the Battle of High Park, with a trenchant analysis of its political background. The writer was the last man to leave the High Park area alive, but fear for the safety of his brother in II Honour Flower-Arranging prevents our divulging his name.—CATTOR.

Seventeen bullet-riddled bodies under the stony sod of High Park ravine following a political massacre which has been whitewashed by the corrupt press as Battle Inoculation, ar passed off as a routine item of th C.O.T.C. Christmas Course syllabus.

C.O.T.C. Christmas Course syllabus. It was no Battle Inoculation. It was murder most foul.

I saw it; and because I am the only living witness I must cringe in deserted cellars and live on grease scraped from between the T.T.C. rails before dawn. I have not dared fare forth to buy ink and paper for days. I am writing this with a matchstick dipped in blood. How did this happen in our fair

How did this happen in our fair ountry? I will tell you, reader. It country? I

There were 17 fine upstanding lads in that Christmas course. I say "were."

One fine evening this officer whom
I must call "Z" (Plagues plague him1), I must call ""." (Plagues plague him1), overheard their innocent, lazy bivouac conversation. One of them was saying that he for his part would fight to his last gasp any attempt of the S.C.M. (S.P.S. and Trinity-controlled) and the Arts and Letters Club (deodorized Medicos) to control the Hart House committees — on which committees, as veryone knows, rest all our hopes of democracy, liberty, self-government, human rights, and the Great Rosy

Poor lad! He spoke too loudly. The next morning the regiment was drawn up in a square in the little valley so soon to be the theatre of so intense a tragedy. "Z," insolent dog, flaunting the uniform of the King, read out the

"Seventeen of this battalion are guilty of insubordination," he rasped beneath his whiskers. "I shall have them shot as an example to the rest."

(Alast I heard it all. I was his

batman.)

But the men of the line did not hear that. They heard only what he added in a loud voice: "This morning we have Battle Inoculation. These 17 will lead the way through the ravine."

Faculties Resume Race For Intramural Points

Programme for Campus Competition Ushered in by Hockey, Basketball, Baseball and Starts Monday Indoor Track

Four of the second term sports open the new year's athletic program come Monday as the faculties rejoin the intramural point race. Hockey, basketball, indoor track, and baseball bring first action to the campus. Meds first and U.C. first meet at

Meds first and U.C. first meet at four on Monday in the first of a long season of doube-header hockey sessions at Varsity Arena. Senior School and the No. 2 Army Course play at five. Basketball's first game is set for 12:30 Monday as Senior School and P.H.E. invade the upper gym of Hart House. The Physical Eds have won the cage title for the last two years. Four other games are scheduled for the afternoon and evening.

There is also a baseball game at 12:30. Two Engineering teams, I

1 Press and a basedan game at 22:30. Two Engineering teams, I Electrical and I Chemical B, will be set loose in the lower gym at that time. Three games are scheduled for the afternoon. For further details see the afternoon. For further details see the time-table printed by the Athletic Office.

Basketball leads in the number of Basketball leads in the number of teams entered this term with approxi-mately 80 squads representing colleges and courses included in the hoop schedule. Baseball also has a huge entry with some 65 odd teams signed. These figures represent the largest ever amassed by these or other sports on the intramural program.

The indoor track season is to be run this season exactly on the same basis as last year. One, two, or three events will be contested each week, with two days allotted for competition.

The season opens this coming Monday, Jan. 10, and will stretch to March 14. The first event on the program is a three-man relay, each man to run one lap. All meets will start at five.

The Monday afternoon meets are expected to see the greater competition and the Tuesday periods have been set saide lor any who have drill on Monday. Hee Phillips will be on hand each Wednesday and Thursday at five to coach aspiring tracksters.

Entry points for the T. A. Reed trophy race are to be awarded each man for each three nights of competition he puts in and P.T. credits are to be given those who show sufficient interest in the indoor sport.

It all started when some juicy bits of news were let loose by several members of the committee. This reporter perked up his ears, bit his percil, and hastened to scribble many cryptic and indecipherable notes as the discussion developed. Then a very nasty tof individual rose and suggested that "don't you think this better be kept out of The Varseland of the very black leers while the body rose as a unit, and, led by Mac McCutcheon's tenor, chorused, "Oh, definitely!"

And of course we promised to say not a word about it. But just you catch us going to another athletic meeting. We'll secrete our spies beneath windows, we'll crawl under T. A. Reed's desk while the meeting is in progress, or we'll bribe officials to give us the inside dope, but we're through with those meetings in an official capacity.

THE BAN LIFTED.

Fortunately for us and for the sake of our empty column we were not bound to keep secret all which was dragged around the floor by the committee. We were not forced to committee.

the nights. Wherepon the members drew up the following "at home" arrangements.

On January 29, University College and Physical and Health Education along with Knox College will be on the reception end for all students. Feature attraction of the evening will be the appearance of H.M.C.S. York basketball team, probably an H.M.C.S. York swiming team, and possibly an H.M.C.S. York boxing team. Big brain behind the Nawy appearance will be Petty Officer Teddy Morris, who, we are told, is very hot about the athletic vell-being of his tars.

A triumvirate consisting of Victoria, St. Michael's and Emmanuel Colleges will be on hand to supervise goings-on which are liable to go on come February 5. At great expense to the management we are to have the pleasure of seeing in action the Trenton Flyers, who will take on the basketball Blues.

Another formidable three-way hosting will see Trinity, Dentistry and Wycliffe standing by on February 12, while Assumption College journeys in from Windsor to take on Varsity's basketeers. The senior intramural boxing and wrestling tournaments are also due to be settled that night.

intramural boxing and wrestling tournaments are also due to coking a that night.

Then on February 19 Medicine and Pharmacy will be cooking a powerful mess of potage when they hail the appearance of Detroit Tech, the only American team to grace our cage floor this year. Campus gymnast will also parade before the public eye as the senior interfaculty gymnastic tournament is run off.

The fifth and last athletic night will be left in the hands of the School of Practical Science and Forestry. The basketball squad will meet the Ontario Agricultural College. An O.A.C.-Varsity boxing and wrestling meet is also scheduled for that night.

However, what we said above still goes. They tell me that the intramural committee meets again next Monday at 4.30 of the afternoon. You faculty reps had better turn up is what Mac McCutcheon says, but you won't see us there.

The Sportswoman

Betsy Mosbaugh

WE TOO . .

can have a New Year's honor list. We can't throw around any O.B.E.'s or what have you, but we can bestow the honor of placing those whom we think merited it on the traditional "All Star Baskethall team". As you well know, the editorial "we" is in no position to select this team, so Helen Taylor, who got her data by way of the coaches, presents you with the gals on the hit parade.

First Team Forwards—Joan Davis, P & HE Sr., Jean Stinson, P & HE Sr., Kay McMillan, P & HE Freshies.

Guards—Jean Barnhart, P & HE Sr., Betty Gordon, Vic Sr., Rowena Smith, Vic Jr.

Second Team Forwards—Rosemary Cunningham, St. Mike's, Connie Fellows, Trin Sr., Mildred Donaldson, Vic Sr.

Guards—Bette Davis, P & HE Sr., Mary Hollington, Meds, Joan Christie, P & HE Freshies.

It was a very difficult selection to make, especially as there were over 19 teams from which to choose. Shirley Pearse of Vic Seniors, Jean McPherson, Meds and Alice Lamb, Physio all deserve honorable mention. That such a team should remain the fancy of the mind seems somewhat of a shame. We would like to see it a reality. As the age worn saying goes, "Actions speak louder than words". Any agreement about goodwill fane???

GET IN THE SWIM

GET IN THE SWIM

Winifred Baxter at the L. M. tells us that the first and third Friday competitions are again under way for this term. Today's meet will consist of—race—backstroke; style—crawl; dive—running, and trick will be a surface dive. It starts at 4 o'clock and offers a grand opportunity for any babe to practice up for the final meet which will probably entail an exhibition in the Hart House Pool.

Vie are also plauning a tremendous big "splash" in order to bring out their potential mermaids. But more of this will be written by Ruth Virtue in Monday's colyum. Was she surprised when she phoned us up to give us a bit of info on the subject!

U.C. WOMEN'S FENCING

VIC BASKETBALL PLAYERS

Practice for all players at 3:30 in the all gym.

Practice today from 3:40 to 5:15 p.m. at L. M. gym.

PHYSICAL TRAINING

By order of the Board of Governors each man proceeding to a Bachelor's Degree must take Physical Training during the first and second years of his attendance at the University.

the first and second years of his attendance at the University.

First and second year students taking Military Training with the U.N.T.D., the C.O.T.C., and the U.A.T.C. are required to take Physical Training at regular Physical Training classes in the Gymnasium. These classes are held from 12th October to the 30th April. A minimum of 20 attendances is required. No more than one P.T. credit per week will be granted. Physical Training credits not to exceed 5 in either term may be obtained by participation in the intramural games and training classes specified as follows:

Hockey Track Wreetling

Hockey Basketball Water Polo

Indoor Track Gymnastics Boxing

Wrestling Fencing Speed Swimming

Men exempt from Military Training and who are placed by the Health Service in University categories A. B. or D. must secure full attendance at 36 Gymnasium periods or 2

SWIM TEST

The Physical Training requirements include a swimming test which must be taken by all first year men, by men admitted to the second year from other universities, and by those repeating first year. If unable to swim at least 50 yards satisfactorily the student must enrol in a learn-to-swim class. Failure to observe this regulation shall prevent a student from securing standing in Physical Training.

Any time's SHOPPING TIME!

AT THIS MOMENT you'll find happy shopping at Fairweathers, on the Main Floor where every type of dress a Uni-versity girl hopes to find has been lined up for quick and comfortable inspection. Wander around that floor and pick any number of winners. Wander around that floor and pick any number of winners . . . separate skirts and jackets, tailored to a nicety, some exquisite undercoat pastel tweed suits at 16.95 that'll go to your head at sight, one and two-piece dresses in rabbit hair wool cosy as a fireside chat, natural tone jerseys with a dash of gold metalica at belt, dettly firming your figure in the right place. Lots of gay new Spring prints, too, for less than nine dollars.

GO HATLESS AND WINDBLOWN GO HATLESS AND WINDBLOWN if you like . . . but make-up must be correct, or heaven help you! Helena Rubinstein's make-up class, for only \$2.00, includes many a beauty secret verry young girl ought to know such as (1) Scientific, expert analysis of your skin, (2) Demonstration of skin-care techniques, (3) Instruction in choice and use of make-up aids, (4) Demonstration of professional and self make-up aids, (5) A personality make-up for every member of the class, (6) A written destribution of your own skin care and member of the class, (6) A within classification of your own skin care and make-up needs. Classes take two full hours and are held every Tuesday 10 AM, 2 PM, 545 PM. Special rates are available for groups of ten

WE'VE JUST HAD a smooth session with Mary Mac, that cleverest and most understanding of all young designers of "jeune fille" fashions for the University sophisticate. . . . You come away from Mary Mac's with a feeling that all's right with the fashion world when after four years of war there are still to be had those suave smooth numbers in wool, and jerseys, to be made to your wool, and jerseys, to be made to your order for about 35.00 and up. Mary Mac whispers she's expecting something Mac whispers she's expecting sometime, very special in one and two piece jerseys soon. Also it's our guess you'll coo happily over the already-made-up numbers in pastel wools, a-waiting some lucky who can fit one. Mary Mac's modern shop is just a door when the part of the control of the con or two west of Bay, on Bloor.

"WE'VE TRAVELLED around the world and this is one of the most civilized and charming restaurants we've found. It's homelike and the food is just as it would be in a good private kitchen!" So spoke some friends of ours who left Europe not long ago . . and the scene, dinner at Bloor Street's Hearthstone, where candle light and flowers and flowless linen and exquisite-ly prepared home-cooked meals and the kind of maid service ly prepared house-cooked meats and no kind of maid service you expect at home are there for the price of a meal. Sunday dinners are a specialty, we are told by Miss Ferguson, under whose adept houd and kindly guidance the Hearthstone is making its place among Canada's really top notch places to eat. Private rooms for group dinners or luncheous in that gracious old home on Bloor just west of Bay.

CLEANSING, SMOOTH, the choice of beautiful women, Du Barry Cleansing of beautiful women, Du Barry Cleansing Cream is a cosmetic item which is doing a grand job these sooty, gritty winter days. A quick fresh-up at noonday, another before retiring and in the morning, and an otherwise dry skin remains as soft as a flower-petal, fresh, smooth and lovely. That Du Barry jar is seen on more and more dressingtables as winter wears on . . . if s a grand general purpose cleanser, and a single jar lasts, and lasts.

EVERY LITTLE THING a girl needs to brighten the costume picture these grim January days may be chosen from Evangeline accessories . . . and at a pittance in comparison with what they do to build up an ensemble. Handbags, gloves, scarves with that certain somesembled on the street floor where they can be subjected to the daylight and paired off in colour shades to a nicely. Evangeline Shops, wherever you find 'em, are reliable, carefully stocked with tops from the accessory market as well

hither and yon

with ken mcrae

Along with a hundred or so other denizens of this institution, we spent the Christmas holidays soldiering—on the caption the properties of this fact a veteran sergeant-major superared on the scene in extremely short.

One day someone inadvertently order and showed a desire to partake of a drink of water from our friend's bottle. With a look of withering scorne the grizzled non-come glared at the eringing culprit: "You're not at the University now — YOU GOTTA! THINK.

On one other occasion during the latter week of the course the inepti-tude of the boys taxed the instructor's patience beyond endurance. Having expatience beyond endurance. Having ex-hausted the Great Unprintables, he re-lapsed into telling his charges a story. "Once upon a time," he began, "there was a fellow who, when Christmas time eame, received a present of a set of wooden soldiers. WELL, I'M HIM."

One day there were outdoor man oeuvres at High Park, during which a

The soldier's duty is not to question The soldier's duty is not to question why, but sometimes the working of the army mind seems very inscrutable indeed. One day a call went out for a specially qualified volunteer: "Can any of you fellows play the piano?" One such prodigy was found. "All right, YOU TAKE THESE FELLOWS: AND MARCH THEM OVER BEHIND THAT MOUND."

Which he did.

Which he did.

The pièce de resistance of the whole ourse was the assignment to craw course was the assignment to crawl across a field under fire (about 12 inches under) with real honest-to-goodness live ammunition, given, as they said, as "something to remember them by." Some remarked afterwards that it brought out the truth of Napoleon's ocurres at High Park, during which a parcess a held under her (about 12 lientes number of blank rounds were fired.

The noise and excitement attracted a throng of young onlookers in short order, who came up and talked to the boys as they relaxed during the break period. Suddenly a blank round that had been left in a rifle went off with a loud report. Rather taken aback at this unorthodox procedure one of the youngstern went up to scrutinize the offendterm of the process a held under her (about 12 lientes a through a through that the boys as they relaxed during the break brought out the truth of Napoleon's statement that an army marches on its offerently into the jaws of death were to "keep low, BECAUSE COURTS sters went up to scrutinize the offendof RuQURY ARE ALWAYS im we was on, and was heard to ask SUCH A NUISANCE ANYWAY: unorthodox procedure one of the youngto "keep low, BECAUSE COURTS

Picking Up The Pieces

Inspired by the realization that education is one of the main casualties of war, an American Association has been formed in New York to establish an International Office of Education. This action follows, among other recommendations, one made by Mrs. Edith B. Joynes, President of the National Education Association to the American Legion when she addressed its 25th National Convention in Omaha last September. In part, her words were:

"A permanent international office of education should be established to stimulate constructive education for world citizenship and guard against terrible misuses of education such as Hilter and Hirohito have perpetrated."

The project has received much commendation in the press, where it has been noted that education has Nations," comments the Christian Science Monitor. What the Monitor fails to note is the lesser, but still greatest difficulty, and a Conservative, the least. drastic, damage that has been done to education in countries not trodden on by the Axis or polluted by its ideologies. The plans afoot are worthy, but they will not be complete until they embrace some wide and immediate steps to be taken in restoring educa- be done in the next few months to diminish it.

In Canada the greatest contribution that can be made to this cause will be to prevent the further retrogression of education here. For education is not divided into national sections. What concerns one concerns all nations. It is the good fortune of the United Nations that Canada, while prosecuting the war creditably has also managed to keep the whole structure of its academic life. While somewhat famished in appearance, there is still the resemblance of a body on the frame and the continued diligence of scholars indicates a soul,

The handling of the problem of education in wartime in Canada has left us with more than remains in most countries, but it has not been perfect and the faults in the gradually evolved scheme may prove to have been merely a putting of the evil day afar off. It seems to be too late not to be suggesting different plans, and being wise after the event is one of the easiest forms of intellectual exercise, but whether or not we come through without the total eclipse of academic life in this country it would do well to consider what is wrong here, so that the next time we may favor the cause of continued educational progress by providing education with a better plan for weathering the conflict. As excellent as the vacuum cleaner may be it is far hetter to have fewer pieces to pick up than it is to have an improved method for doing the job.

Ottawa Calling

A Canadian University Press Feature By Neil MacDonald

ELECTION TACTICS

Whether there actually will be an election or not before spring is relatively unimportant at this point; an interesting study can be made, however, of the strategy which the three major Canadian political parties may use in their planning for this eventuality. From close observation of actions and personalities in Ottawa, it is obvious that all three are relatively certain that the election will take place.

All of the Liberal, Progressive-Conservative, and Co-operative Commonwealth Federation candidates Co-operative Commonwealth requestion candidates who will run in the next election will have to start off wistor. "First Zwillhard, the frag-with a serious antagonism evident in public opinion. Each party has something to live down, some foolish robbits and the common that the very now Larkin—"Lungs" Larkin, the very now Larkin—"Lungs" Larkin the very policital act or more foolish political statement upon which its enemies may capitalize.

Of course, the Liberals have a larger mass of public opinion to contend with than have the other two, if in the basement. I implore you, Dr. for nothing else, because they are the present government and have to take the responsibility for the unleasant regulations of wartime. However, the pleasant regulations of wartime. However, the pleasant regulations of wartime. However, the Liberal government has apparently gone out of its way to antagonize important groups, such as Labour, the western farm bloc, and, in relation to manpower, I know you." a seeming eight-ninths of Canada.

Progressiv-Conservatives, however, are in the cognito could not deceive McGeech," subbed on the client, "but will I be safe without fir? You must protect me!" A new note of terror crept into Gilhooley's voice. "First Zwillard, then Larkin; what if I should be next?" rather difficult position of having proved a weak and ineffective opposition to a government's war policies. Not that the Conservatives have not seen anything to criticize, but simply that they have been afraid of supporting the opposition of the C.C.F. The public, content with superficials, is inclined to lump nonopponents of the government with its supporters. And many Canadian voters, especially in the west, remember the unastute remarks of Viscount Bennett during the depression, that Canadians must "tighten

The C.C.F. party is the magnet which is attracting good deal of the support of many disgruntled Liberals, men who are definitely out of place in a Socialist party, but who are ready for a change However, if the party were not Socialist, it would attract a good many more, especially in provinces

There was little to learn. Fragments east of Ontario. It is in the position of having of Zwillhard's corpse had turned up in publicly stated a programme to which it cannot now adhere, if the opinion of the majority if its members suffered terribly in both enemy and enemy occupied is to be respected. The C.C.F. is constantly under countries. "Perverted and contaminated in some, fire from both the other parties. Now if one wished almost annihilated in others, it must have an im- to win the next election what would one do, supportant place in the rehabilitation plans of the United posing that one belonged to each of the three parties in turn? A Liberal victory presents the

The chief problem facing the Liberal party is that the Canadian public is antagonistic to its. This hostility has now reached the point, one might say nothing. has been allowed to reach the point, where little can be done in the next few months to diminish it. To win Labour back may well be impossible, but there Taddle," said McGeech to a janitor, instill remains the farm element, especially in the east, which the Liberals are cultivating at present. Then, of course, Quebec may return to the fold, and with that solid support, a victory might yet be possible.

that solid support, a victory inight yet by the bave pumps, sir. "Then why were they not working?" the Liberals is that of selling Canada's war effort to Canadians. This writer does not believe that this "They were broken down. The difficulty will be solved, at least by existing publicity the solved of the so

If the Progressive-Conservatives wanted to, they could attract immediately the support of those noderates who are uncomfortably, but equally undoubtedly, going over to the C.C.F. party. Just now, Canada is being faced with a decision which she must Is Canada to become a socialist state? A make. Is Canada to become a socialist state? A creature of "Q"! "This trail leads straight to "Q"," are sincere left-wingers; a good many more are saying it, however, because of dissastifaction with the must inform Gilhooley." good many Canadians will say "yes," because they present government set-up. Conservatism is, in essence, the absorption of moderate reforms into the existing social structure, but the Progressive-Conservative party has yet to establish more than the principles by which it desires to govern Canada.

inciples by which it desires to govern Canada.

There was no sleeping Gilhooley in The Co-operative Commonwealth Federation has the drawer marked "G." only to make itself heard, like a revivalist, to attract all those idealists in Canada who are concretely dissatisfied with the present system. It has not capitalized on this ability sufficiently, for it with capitalized on this ability sufficiently, for it swings from one war-cry to another, first attacking the (Continued on page 4)

P.T. Periods

Hec Phillips is out to brighten up physical training periods. He intro-duced into last week's classes a series

During the first week of this term Hec put several classes through a quarter-mile run, and in so doing, discovered a considerable number of students whose times rivalled those of regular interfaculty competition.

Each man who runs is given a per-centage standing judged by his time. Hec has drawn up a list of times ranging from interfaculty records to jogging standards, and awards each man who runs a definite percentage grading. One hundred per cent calls for the inter-faculty record, 50 per cent for an average performance, and corresponding to run tomorrow. The control of the Club Cup average performance, and below grades for times above and below

Basketball Prepares

Mac, who has had the team out for semi-weekly workouts during the Christ-mas holidays, intends to hold practices between 7:30 and 9:00 each evening

on land.

The Physical Eds are out in full force with Whitey Clayton, Ed Currah, Ross Sturgess, and Frank Watson in addition to the aforementioned Scott. Other likelies include Jim Turner of School, Stan Spooner of Meds, and Spry, who last year played for West End Y's

UNDERGRADUATE LOAN FUND

Operated by the Students' Administrative Council

This fund is open to students who pay the S.A.C. fee and are in either of the final two years of their courses. The maximum loan is \$100.00. Interest is charged at 5% from date of leaving the University. Applicants will be interviewed and loans granted in January. Those receiving loans must sign a note, and a satisfactory endorser is necessary. Application forms are now available in the S.A.C. Office, Hart House.

By Phil Shackleton

ADVICE TO FRESHMEN

ADVICE TO FRESHMEN...

Last night we were chided by one, Mr. Mac McCutcheon. Not in the nasty way that the casual reader might be led to believe should he or she occasionally delve into this column. Rather it was in the constructive criticism department.

Mac's suggestion concerns Athletic Nights. Our info we poured out in Friday's issue would be quite clear to the hardened veteran of a year or more of University life, was the jist of his comment, but what of the freshmen and freshwomen. Now this criticism merits considerable attention. Athletic Nights are things which students can't afford to miss. In fact we've heard that people who don't attend these gigantic athletic and social affairs just don't rate on the campus. Of course, those students who are already established by inclusion in the Varsity social register (40c for the blue-bound edition at the University Press) will realize this. Hence the following information is intended primarily for the consumption of freshmen and freshwomen.

The Athletic Night germ was conceived after the ban on intercollegiate sports. Chief purpose of the scheme was to, in part, provide sports events to take the place of the pre-war glamour games with McGill, Queen's, and Western. They were to keep the University spirit alive during the war years.

Athletic Nights, as they now appear, are huge events. One is held no each of the wear equative Schreieve siches during the witter, term

Athletic Nights, as they now appear, are huge events. One is held on each of five consecutive Saturday nights during the winter term. The main feature of each evening is an exhibition basketball game between the Varsity team and another university, college, or service team. Under the Canadian Intercollegiate Athletic Union ruling Varsity teams may not travel but they can play home games with any other teams. other teams.

other teams.

But the baskethall game is only one feature of the evening. During these events the entire athletic wing of Hart House is thrown open. Eds and co-eds are admitted upon receipt of a small sum which is given to some student war charity. The admission price entitles the student to view and to take part in every attraction in the wing. There are no extras on the inside except when white-frocked co-eds rush about selling I.S.S. tags.

Arrangements for each night are entrusted to several faculties. That is, each faculty acts as host on one occasion. They hold exhibition intermulal games in baskethall, wellevall, and water note and

are no extras on the inside except when white-frocked co-cus itsis about selling I.S.S. tags.

Arrangements for each night are entrusted to several faculties. That is, each faculty acts as host on one occasion. They hold exhibition intramural games in basketball, volleyball, and water polo and the regular officials direct actual intramural competition in swimming, boxing, and wrestling. During one "A" Night last year an exhibition track meet of three events was held.

In addition each faculty usually provides some striking display to illustrate the practical work accomplished in its laboratories and lectures. Moving pictures of pre-war intercollegiate rugby games were shown in the fencing room on several nights. The wrestling room is transformed into a game room with such athletic diversions as croquinole supplied for those who wish to relax after watching an exciting basketball or water polo game.

The interfaculty gymnastic meet, which is always great entertainment, will be held on one night, as will the finals of the boxing and westling tournaments. Both H.M.C.S. York and O.A.C. are expected to bring boxing and wrestling teams for exhibition matches on their nights. Piece do resistance will be the women's interfaculty swimming meet probably to be held on the final "A" Night.

And after the regular athletics are over and the last athelte has been carried off the floor, soft music fills the air and dancers are lured to trip daintily about the big gym, while in the upper gym a rural orchestra holds forth with the strams of Red River Valley and hapless four-somes in the vicinity are lured into square dancing. After a few attempts in this department the student usually comes to the conclusion that the most active athletics of the evening are committed there under the do-se-do directorship.

This, then, is the situation. Now that you know, you too must realize that you simply can't afford to miss a single one of these great events. The best thing for you to do would be to set Jan. 29 apart right now. But of course

right now. But of course ever-little point in looking elsewhere.

V.C.F.

The regular discussion group of the U.C. V.C.F. will take place today in Room 4, U.C. at 12:30. Bring your lunch.

I do not mean to say that the former Toronto conductor and concert pianist is being given a boundless budget, for certainly, any man, provided he was a good musician and a strong disciplinguish with a fine orchestra under conditions. The more detailed facts
"How to Do It" of Mr. Stewart's feat will bave to wait for a later article and they are interesting in showing the breadth of the director's talent and the full extent of what The Varsity remarked was Toronto's loss and Balti-more's gain when he left here after the unpleasantness of the summer of 1941.

Reginald Stewart is Baltimore's. That is obvious. When I mentioned to a native that I was going to interview him, saying, "He used to conduct the Proms in Toronto," the reply was, "Why, yes, I guess he did, I had almost forgotten." The conductor himself has otten." The conductor himself has forgotten Toronto, however, and asked with extreme interest after numerous friends here. When asked if he expected to come this way soon he replied with regret that he did not as he had given up concert tours and teach-

MAKING SNOOP-LIKE WITH THE EARS: In a Harbord Street hash-house one of our favorite grunt year when the human race takes on the appearance of a tankful of pregnant guppies from a superabundanee of the good things of life—hither writing starts again. The first requirement for a hither is that someone should do something funny. The second requirement is that we should hear about it.

Take for instance a headline on a story in the Western Gazette back there a while: HAMILTON GENERAL USED FOR SURGERY.

Gee—al least they could have used a precipitous dive for the check as his precipitous dive for the precipitous diversity and proving properties and proving proving proving proving precipitous diversity and proving proving proving proving precipitous diversity and proving prov bird: "Fre's right, vera, that what we advertisement says — that's what ya gotta do." Then suddenly he made a precipious dive for the check as his words eame back to his cars—"Hey, wait a minute—I had soup with the meolt"

> SPORTS DEPARTMENT: The sports reporting staff sometimes has players on the teams. One day an engineer had a complaint to make. "Can't they do something about it?"

> ALSO SPORTS DEPT.-Picture in the paper cost money, so that once a cut is made The Varsity likes to save it to use again if possible. This policy helps to keep the subscription price of The Varsity from rising any higher. But one result was a story on the tennis finals which chatted away about how cold it was and how the players had to wear their red flannels. Then an eyes-right to the picture and we see the two contestants happy as can be in the lightest of summer shorts.

FOOD AGAIN: A dozen lads and a lass were celebrating the end of the term with a meal at an Italian eatery with a romantic atmosphere. "Who with a romantic atmosphere. "Who ordered spaghetti with chicken?" said the waiter, finding one dish still in his hands after distributing people's orders around the table. One of the party, staring at the empty space in front of

him, complained,
"I ordered Angelo's spoghetti."
"Ah," said the waiter, proudly, setting it down with a flourish, "TH1S is ANGELO'S SPAGHETTI!"

The Varsity Reviews

Acta Victoriana

Reviewing a Christmas publication a whole week after New Year's seemed in advance a not particularly exhilaratin advance a not particularly exminataing thought, but the Christmas issue of
Acta Victoriana contained some things
which, besides being seasonable for
December, were worth both reading
and being written in January or any
other time of the year.

As a whole, this third issue of Acta seems the work of more experienced writers, less naively enthusiastie, more searching, and as craftsmen more sure of themselves. Editing has been more selective.

Chrismas Eve, Margaret Gould's short story developed around a girl's crush for an older man, while not so mature as some of her other work is Margaret Gould's of three different individuals to the sam incident and her usual understanding and amusing study of children. Un-fortunately the last sentence rings false. The Poetry shows greater originality this time and considerable care in com-position. Indeed two poems, Frustration Speers' Rhyme nor Reason, a light statement of the poet's search for truth, made whimsical by the metre. Forgotien, Elizabeth Gawain's description of sunken city, makes a pleasurable near the process of the victoria College Union, announced yesterday. "Girls may so "G

articles, on the histories of jazz and Christmas cards respectively, both of general interest and done by people who eem to know what they are talking about. We commend this type of article as a worthy space filler, only wishing that there were more short stories as good as the one included to balance them. This issue's scales lean toward art, with two articles and the art editor's alertly conducted regular de-partment besides. With a small magazine it is perhaps more difficult to at-tain proportion. We find ourselves tain proportion. We find ourselves wishing again that all those pages of ads in the back could be filled with provocative contributions instead. And that the virgin and child illustration at the front was reproduced from the work of some Fine Art student and not by permission of the Art Gallery. We drag out with scattered com-

we drag out with scattered com-ments: Acta's book reviewers write what appear very discerning and able reviews. Why then, with the exception of the new anthology of Canadian poetry, do they use up their time and space in reveiving books of so little

importance and interest to students?
"Alumni Spotlight" is a good idea.
... Where are "Men's Sports"??? We await the screams of indignant science students at the second-to-last paragraph of the editorial.

U.C. ROBINETTE DEBATES

Interfaculty Debate To Discuss Colonies

Second Interfaculty Debate to Consider Question of Placing All Colonies Under International Control

VIC DEBATORS TO BE HOSTS

The Interfaculty Debating Union will discuss the issue—"Resolved: That all colonies should be placed under international control"—in Alumni Hall, Victoria College, when it meets there tonight at 8:00 p.m. Ken Brown, III Victoria College, and

Acn Brown, III Victoria College, and Jean Norman, II University College, will uphold the affirmative and Bob Mc-Cormack, III Trinity College, and Gyneth Stencel, II Loretto, will op-pose them.

"The question of the colonies is one of the most important we will have to deal with after the war. My partner and I are confident that we are on the right side," says Ken Brown, the leader of the affirmative.

Tonight's meeting will be held under

SPEAKING of SWING

By Barry Townley

By Barry Tountey
Christmas was lustify ushered in by
Jan Garber and his new band, booked
at the Palais Royale on Dec. 24. Garber,
the former "Idol of the Air-lanes," and
contestant for the "King of Corn"
crown, is now jumping with the best of
them. His former tic-toe beat and
seeharing accuragements, have been resaccharine arrangements have been re-placed by a driving beat and blasting, brassy scores. Garber had the biggest brassy scores. Garber had the biggest and latest news in swingdom with him when he brought this band to town. So far as he is concerned, the sweet and mellow is very, very dead, for good. The squares will have to dig Lombardo or Kaye from now on, because Garber has grabbed himself a band of rocks.

To be more specific, the arrangements are strictly knocked-out, especially the non bress, which rock gently, vet gettly

ments are strictly knocked-out, especially the pop tunes, which rock gently, yet get the idea across. Largely responsible for the success of the pops is baritone Bob Davis, who looks like another serious threat in the swoon-cronner class.

Big assets too, are the star sidesmen such as Dean Sayers, the growl tenor sax who was here last year with Charlie Barnet; Marvin George, the ex-Keuton hide-beater; 19-year-old Johnny Vance, the bass man; and hot trumpet Joc Zimmer. Big assets too, are the star sidesmen

Morgan Thomas played a capable stand-in date.

BASKETBALL REPS

Will those basketball representa-Will those basketball representatives who have not yet handed in the estimate of their rent for the O.C.E. 87m please do so immediately. A list of practices must be phoned or mailed to Jean Barnhart at 87 Prince Arthur Ave., Ki. 1397, before Wednesday.

Entries for the Robinette Debating Competition should be handed in to University College year presidents or members of the Lit Executive imediately. Preliminaries start this week and the finals will be about one

Narrative Poem To be Performed

Dr. E. J. Pratt's narrative poem, "Brebeut," which has been set to music by Dr. Healey Willan, will be played in Massey Hall next Tuesday, Jan. 18. Sir Ernest MacMillan is to conduct the combined Toronto Symphony Orchestra and Mendelssohn Choir in the perform-

Ivor Lewis, outstanding Canadian leader of the affirmative.

Speaking for the negative, Gyneth
Stencel says, "This is a vital question.

It is one of the great problems which
will have to be faced by planners of the
post-war era, but international equilibrium must not be upset by unwise experiments."

In vital description of Lewis, outstanding Canadian
actor, known especially for his connection
with CBC radio productions, will
be the Narrator, while the part of
Brebeuf will be taken by Prof. E. A.
Dade, professor of Latin in University
College.

Dr. Pratt, who has been ealled
Canada's foremost poet by many critics,
is head of the English chearement, site head of the English chearement site.

Tonight's meeting will be held under a unique arrangement whereby the Victoria College Debating Society will retain its own speaker, and act as host to the Interfaculty Union Debaters.

The Victoria Debating Society has had debaters from other societies on two other occasions, but it will play host to the Union tonight for the first

Dr. Pratt pointed out to The Varsity

that the site itself is perfect for the performance of such a drama. Between 100,000 and 150,000 pilgrims visit the Shrine every summer in order to witness the unearthed remains of the Jesuit Mission. Excavations, being conducted by the Museum's department of Arche-ology, have brought to light the charred remains of roofs, broken stained-glass windows, chicken bones and many other evidences of the the settlement burnt to the ground in 1649.

Schedule Altered In Lecture Series

Professor B. Wilkinson of the History

away.

Students accepted for Post Office work numbered 240. All of the women pared with National States of our own day. He will also illustrate the contrast between Internationalism in the Middle Ages and our ideas of Internationalism as embodied in the League of Nations.

Staff Series Of Lectures Opens Friday

Starting on Friday, Jan. 14, a series of lectures will be given in the Botany Bldg. by informed authorities on coming trends in their fields in Canada. These lectures, which are sponsored by the Committee Representing the Teaching Staff, correspond to the set which they delivered and published hast year; namely, "Reconstruction in Canada."

The object of these lectures is not only to enjighten studies; and published

only to enlighten students and public, but also to bring the different branches of the faculties closer together. The Ontario College of Education, S.P.S., and many courses in Arts are all repre-sented by authoritative lecturers, the first of whom is Professor Hibbs of the

Department of Political Economy.

Because the series covers such an extensive field, it should prove to be of interest to students in all courses, be-sides those in courses touching the lecturers' topics. Following many of the talks, the floor will be open for en-thusiasts to "hash over" any of the trends which the lecturer mentions.

trends which the lecturer mentions.

The committee in charge hopes to be able to publish the set of lectures at some time in the future, but undergraduates and the public are invited to attend one or all of them in the lecture-hall of the Botany Building. Coming Trends in Political Economy will be the subject of the first speech. will be the subject of the first speech to be given this Friday at 4:30 p.m.

Name U.C. Grad Head of Wrens

New director of the Womens Ca nadian Naval Service is Commande Adelaide Macdonald Sinclair, 192 graduate of University College.

Following graduation, she attended the London School of Economics and the University of Berlin, then returned to the University of Toronto, where she was assistant to the U.C. Dean of Women. At the same time Cmdr. Macdonald was lecturer of Political Economy, and studying for her M.A.

Travelling through the United States and Canada for four years in connection with an organization concerning many groups of young women, she provided herself with valuable experience that she was to use later.

Mrs. Sinclair was with the Economics Division of the Wartime Prices and Trade Board when the Navy asked her last March to take her new duties. She spent four months after that in England raining with the W.R.N.S., and studying their organization methods and systems. She returned to Canada with the rank of Lieutenant-Commander.

Vacation Jobs Obtained

Professor B. Wilkinson of the History Department will deliver the fifth tecture in the series on Factors in Contemporary History sponsored by the Department of History, this Wednesday afternoon at 4 o'clock. Originally Mr. H. Norman of the Department of External Affairs in Ottawa was to lecture on Jan. 12 and Prof. Wilkinson's lecture was to be held the following week. The dates have now been reversed, however, and Mr. Norman will deliver his lecture on the Near East next Wednesday. The subject of Prof. Wilkinson's lecture is "Nationalism and Internationalism, Medieval and Modern." He will give a general survey of the National Standard Standar

City Planning Commissioner Discusses Thirty-Year Plan For Development Of Toronto

Town Planning Expert To Offer Student Tours

Arrangements are under way for a large number of successive groups of students to be personally conducted through the Toronto Town Planning Exhibit at the Art Gallery by Dr. E. G. Faludi, European architect, now office manager of the City Planning Board. Dr. Faludi, working with a committee of architecture students, hopes to make it possible for almost the entire student body of the University to see and have explained to them the recently released 30-year master plan for the expansion of Toronto.

Dr. Faludi last night expressed the view that all university students, particularly medical students, engineers, and students of the social sciences, should be enabled to understand how town planning is done and what potentialities can be for the various communities which they will enter after graduation. Since this is the first large-scale effort at community planning in Canada, he feels that Toronto students should take advantage of this

The Engineering Society Store in the School Building suspended its regular business momentarily yesterday morning as 115 slide-rules, the first shipment since 1942, went aeross the

counter.

Since preference was to be given to mechanical, electrical and physical engineers, with sales to second year only, two lines stretched forth at 8:30 from the still-closed door and up the stairs to the second floor. At that time, white Pete Aykroyd, vice-president of the society, beld the door against the rest, two at a time were allowed to enter, show their registration cards, give their this year's and last year's addresses for a check by directory, proffer the for a check by directory, proffer the required remuneration and bear away their new possessions, symbols of generations of engineers.

Another man had been posted at the back of the store to look after any inter-lopers but there was no trouble. Ab-sence of commotion was the oddest part of the sale, for after 50 in the first hour, sales tapered off and at the end of the day, some slide-rules which had been signed for were still left.

Cody Announces Staff Promotions

President H. J. Cody has announced that Professor J. Ellis Thomson, B.A. Sc., Ph.D., F.R.S.C., has been appointed by the Board of Governors of the University of Toronto to be Head of the versity of Loronto to be read of the Department of Mineralogy. Dr. Thomson has been on the staff of the University since 1912. He is a graduate of the University of Toronto and of Harvard University.

President Cody also announced pro-motions of several members of the Uni-versity staff.

COUNCIL TO CONSIDER PLAN

By Harriet Leigh-Mallory

By Harriet Leigh-Mallory
Tracy D. le May, Toronto City Planning Commissioner, last night at the
Art Gallery told those attending the
University of Toronto series of Community Planning Lectures that the recently released 30-year plan for development of the Toronto area is
dynamic, providing for changes to be
made as future needs arise.

The Plan has been constructed under

The Plan has been constructed under the direction of the Toronto City Planning Board, and some 70 maps, cbarts, plans and photographs used in developing the Master Plan are now on display in the Art Gallery. These dis-plays are divided into three groups: the past, showing the haphazard, planless growth of Toronto to its presen state; existing conditions, a second group analyzing presect-day problems concerning traffic congestion, recreation facilities and amenities; and thirdly the group of displays indicating separately suggested solutions for each of these problems, and combining them all into the Master Plan.

The Planning Board has presented 18 recommendations to the City Council for consideration in 1944, and these were discussed by Mr. le May under several broad beadings.

out that the intersections caused by our present gridiron pattern reduce the traffic value of the individual street by 66 per cent. To alleviate this condition, the Planning Board recommends the widening of many present streets, continuations, and linking to form a netcontinuations, and initially distributed are two ket adequate arterial thoroughfares to serve the city proper, and the construction of rapid transit systems to remove the street cars from Yonge Street, Avenue Road, Sherbourne Street, Bay Street (except Dupont cars) and many others.

These two methods will take care of the increased traffic loads within the city after the war when increased popucity after the war when increased population and cheaper cars are expected.
The Board also recommends the construction of five super higbways to provide high speed routes from the centre of the city to the adjacent regions, as well as a by-pass along the northern city limits for through traffic. These routes will connect with existing and proposed provincial bighways.

Follow The Leader?

A notable experiment in education for the troops is being made at Bishop's University this week, an experiment which every Canadian university should study carefully, even perhaps with a view to following suit. With the ranks of college men all over the country depleted by the exigencies of war the influence and efficacy of the university is lessened, it tends to be pushed into the background and its importance to the community is increasingly underestimated. In order to counteract this gradual eclipse the university must maintain an active program of extras, extra courses, extra lectures, extra research. And in this we do not mean only the war extras of essential subjects. The university must also stand by to expound the humanities and the so-called cultural subjects to those who still remain, those who have come back and, even more important, to those who are training all around us.

The Bishop's University plan performs a dual purpose in bringing the university to the man in uniform and in presenting Canada to the Englishman. The one-week course of lectures and conferences must prove a welcome change from military life. In the case of the men of the R.A.F. Transport Command it is a relief from boredom, a means of profiting from a temporary period of idleness. But a course of this type could be extended to any men on leave in any college town in Canada. The great universities of England are constantly sponsoring short courses for soldiers on leave. With the precedent established, We have lost little, and have added much in the way of wartime extras. But these extras all constitute a scientific contribution, a contribution for war. And the great need now is for the gift of culture and the humanities, pointing toward life and peace.

We cannot ignore the primary purpose of the Bishop's University course which is to acquaint British airmen with a bit of the history and culture of Canada. If after this struggle our wandering warriors do not return home with a first-hand ingful question mark. knowledge and understanding of the ways of other men and nations we shall have failed to draw forth from this greatest of calamities the little bit of profit to be found in it. The many ills of the world have often been laid to misunderstanding. Now is our chance to learn to understand the rest of the world, when half our manhood is travelling through it. Now is also the time to introduce ourselves to the rest of the world, and this small effort on the part of one of our universities to make known our customs and habits to those who make up with us the Commonwealth of Nations is no slight beginning Many near-relatives of ours are now seeing Canada for the first time, why not give them all a formal

A Fresh Start

For the past week or more we have been greetfar afield since it appeared in short-story form in the
ing one another with the customary "Happy New
Year" signifying good wishes for the calendar year
why. now newly begun. Students join the rest of the world Though no low-brow "Charley's Aunt," the play,

in celebrating the advent of a new year, but for them it is not the beginning but rather the middle of their year. Every college graduate will always have the memory of three or four years which began, not in January but in September, years which moved from breezy fall through the hard winter to a spring of final effort and achievement, leaving the summer which remained a dateless breather between bouts. Now when all the world is beginning things anev we arrive at the half-way mark. But despite this difference we are not at variance with the world. The spirit of a new beginning so prevalent at this time fits in admirably with the academic scheme of things. In accordance with the fashion we look back over what is past and contemplate our successes and our mistakes. But for us there is an advantage. We do not view a finished project, a year that is dead and beyond recall. Instead we are greeted with the glad sight of four long months remaining to use before the real end appears. We are given the unusual privilege of beginning again. So the world's celebration does not conflict with our mood and we join in the general retrospection and flurry of resolutionmaking. But we are not faced with the prospect of a completely new page. We start with an advantage, whatever we can salvage from the first half of our year, and we enter the second half with the enthusiasm of one starting out fresh on a journey whose pitfalls are all known to him. Here's luck for the

Vampires Of The Stacks

With the coming of exams and the culmination of ssays, not to mention a rising interest in what next May holds in store, we, along with many other resolution-bound brethren, have recently treated ourselves to the pleasure of an afternoon in that most fascinating of retreats, the Library stacks. Here we have again made the acquaintance of that anonymous but pernicious breed of scholars, the marginal critics, who read with pencil in hand, poised to make up for any deficiencies a cursory reading of the victimized book may bring to light. How many long-suffering books have passed through their eager And how varied are the ways in which these marginal critics express their emotions. There is the generous soul who edits each book with long heavy strokes to bring to light any passages which he has discovered to be worth reading, thereby saving us less-perceptive people from the obvious inanity of the other 99 per cent of the work. We hesitate to picture the pathetic plight of the meek soul who, hating to disturb the beauty of the printed page gently guides us through the maze of typography by means of circumscribed numbers neatly inserted in the A first cousin of his, less community spirited to be sure, contents himself with leaving cryptic slashes along the edges of the printed matter, giving us the agonizing puzzle of trying to determine whether he meant us to note the middle three lines five lines or seven lines or, on the other hand, whether that vicious slash instructs us to ignore the whole passage completely. Then there is the most helpful critic who disagrees completely with the views what is to prevent our colleges from following suit?

Here in Toronto those who guide our university have
and write a book about it, proceeds to refute his the feeling of refereing a debate. We have become resigned to the presence of marginal critics, like the grasshopers of the plague, they have proved too ubiquitous for us. They are a pioneering lot; wherever we read they have gone before us. But it is our fondest hope that some day their energy, will fail and all their criticism will be a supervised by the provided with the sales and the same beatified expression to his face. Music came to me over the wintry air last spark of will. not let it lose pace in the inevitable wartime rush toward acceleration or annihilation of the liberal arts.

by the understanding publisher. This gives us the last spark of will and spirit, the faint but still mean-

"My Sister" And I

Royal Alexandra Theatre

At this stage of the proceedings Joseph Fields' and Jerome Chodorov's comedy "My Sister Eileen" might well be considered shopworn merchandise. By this time, the play has reared its head since 1940 in book form, on Broadway, in Hollywood, on radio, and here it is back again for the third time at the Royal Alexandra Theatre.

Ruth McKenney's tale about two small town sisters adrift in Greenwich Village has certainly wandered

SPEAKING of SWEET

Your Varsity reporter of Sweet and Swing and the Better Things of Life was strictly sent by a figure seen on the eampus last week. Not only was this character headed north from the School building to the seat of Higher Learning, but he was attired in one of the few remaining examples of the root suit, tastefully drawn in at the ankles and decorated about the shoulders with flakes of dandruff. Closer inspection showed that this was none other than More Times instead on the content of the co Wart Tinny just down from Weston with his Weston Gentlemen!

"Yoiks gate!" I cried going over and slipping him the secret official Groov Handshake. (Send in three boxtops your button and handshake NOWI)
"Whatcha doin' in this neck o' the
woods? Got any smooth jive for The

"Why, yes," said the former contestant for the "Boogie Master" crown, strop-ping one of his tapered yellow shoes on his tapered check trousers and running a handful of tapered fingernails through his bushy hair. "I believe I have some relevant information worthy of release to the press at the moment."

"Okay, brother, give," I said, breath ing heavily and sharpening a pencil on his trousers. "Dig me the dope and rock me gently-oh-so-gently."

"My perambulation about this section of the firmament is due to having re-cently been employed by some engineers

"Sorry, bub, no publicity allowed," I it in, "I'll just put down usual engage-

"Some schoolmen have asked me to-"Nope, can'd do it," I corrected this "Nope, can'd do it," I corrected this solid sender, who is now, by the way, replacing his formed driving beat and blasting brass by a more sweet and mellow treatment. "Sposing you shoot me the low-down on your past."

"Ah, yes, the past that refreshes! I have the sixth the little than of Schiburer."

was born in the little town of Shhhurrp, said the former "Riddle of the Air Planes," with a dreamy look in his eyes, "next door to a bottle works. At an early age, I conceived a liking for that rich brown liquid now known as—"

UNDERGRADUATE LOAN FUND

Operated by the Students' Administrative Council

This fund is open to students who pay the S.A.C. fee and are in either of the final two years of their courses. The maximum loan is \$100.00. Interest is charged at 5% from date of leaving the University. Applicants will be interviewed and loans granted in January. Those receiving loans must sign a note, and a satisfactory endorser is necessary. Application forms are now available in the S.A.C. Office, Hart House.

Meds And Army Victories Physical Edmen Outscore Open Hockey Season

Meds Freshmen Defeat U.C. 1 and Army Course Scores Victory Over Senior S.P.S. by Last Minute Goal

SCORES ARE 5-3 AND 5-4

Yesterday afternoon at Varsily stadium the 1944 hockey season began with two close games. In the first till Mcds I defeated U.C. I, 5-3. The Army Course team edged Senior S.P.S. 5-4 in the second game.

The first was a scrambly affair in which six penalties were handed out for rather minor offenses. Meds collected five of these

In the first period, after three minute of play, McMillan scored for Meds with Cole and Callahan getting the assists. MyIntyre scored next for the embryo does, then Dalt Nesbitt netted one for U.C. Crasmore and Cole scored the next two Meds goals to end the first

In the second half of the game, the U.C. pucksters came to life and scored in the first five minutes of play, Furry from Nesbitt and Graham. Hughes scored for Meds and U.C. came back with a counter by Graham from Furry.

The U.C. first line of Nesbitt, Gra-ham and Furry accounted for all of their team's total points. On the whole it was a very disorganized, uninteresting affair with both teams needing a great deal more teamwork.

deal more teamwore.

The Army, S.P.S. match was a better hockey game. Both teams showed superior offensive play. The School goals were scored by Kelly, Baker, Shand and Wilcox, all unassisted. Goalie Moore, though he let five pucks get past him, stopped a lot of rubber and was brilliant in spots.

Sport in Short

HOCKEY Meds I, 5 — U.C. I, 3 Army, 5 — Senior S.P.S., 4

BASKETBALL

P.H.E., 34 — Senior S.P.S., 28 Junior Meds, 24 — Junior S.P.S., 16 Knox A, 25 — Emmanuel A, 24 III Chemicals, 29 — III Electricals, 16

BASEBALL

U.C. I, 9 — Senior S.P.S., 9 Emmanuel, 4 — Knox, 0

The Army opened the scoring in the game with a goal by Workman from Ballach. Then they scored, Shortt from Wyse. Their third counter came from Ballach, assisted by Houson. Ballach scored again from Cummings and the final Army goal was by Arnott from

Wyse.
With two minutes to play in the game the score was tied 4 to 4. Wyse of Army got a breakaway with no one back and failed to score, but Arnott got the rebound and pushed the puck past Moore for the winning counter. Don Houson was outstanding on the

Army defense with smooth offensive work, though at times the Soldiers' blue line men looked very bad. Pete Ballach, Army centre, showed some tricky stick-handling that got him three points for his afternoon's work.

Mac McCutcheon's observance that indoor track is fast reaching the proportions of a major winter term sport were tions of a major winter term sport were more than confirmed by the huge entry list. Trinity alone was represented by 11 teams. University College fielded four teams, Meds three, S.P.S. and Wy-cliffe both two, and Victoria one. 11 teams.

This first event of the season was run off very satisfactorily considering the limited accommodation which the indoor track allows. Two teams were matched a time and only 45 minutes were ken to complete all competition Judging from the large entry achieved Judging from the large entry achieved yesterday there will be very few teams to compete today. Nevertheless any teams who did not run yesterday will find Hee Phillips waiting with start-ing gun in hand on the track at five this afternoon. There is only one cautionary word; make sure you sign the eligibility list in the Athletic Office. It ill not be available on the track.

Superior Passing Results in Victory for P. H. E. Against Senior School in Inaugural

WHITTLER IS STAR

Unleashing a powerful and a wellbalanced team, P. H. E., Intramural Basketball Champions, defeated Senior S.P.S. to the tune of 34-28. Paced by Whittle and the diminutive Gerrans, the winners displayed mid-season form throughout the game with their superior passing marking the winning margin.

Using Jeff Brent as the spearhead of their attacks, Senior School battled on even terms with the winners, but their erratic work around the basket

was costly. Trailing 15-10 early in the half, School put on a spirited attack which saw them take the lead for a short while. Jimmy Hall netted 15 points in this second half but to no avail as the men from the Health centre kept on even terms. Whittle with I2, Gerrans with 9 and

Campbell with 6, were the main point-gainers for P.H.E.; Hall and Brent, with 8, were School's only threats. P.H.E.—Burt-Gerrans, Volpe, Whit-

e, Campbell, Smith, Currah, Latre-ouille, McNulty, Nesbitt. Senior S.P.S.—Brent, Danard, Goody,

Gibbs, Applebaum, Hall, Eagles, Noble,

Lanky Dan Gibson, who was a standout for last year's Varsity team, will prabably see action during the team's first exhibition practice game Thurs-day night in Hart Hause.

ROLLING AGAIN .

By Mickey Michasiw

ROLLING AGAIN

Its a dull day, week or month for Mac McCutcheon when the Intramural ball is not rolling. And dull it has been up to this week.

However, yesterday, which ironically was Blue Monday, found this same individual in a happy state of mind. And happy he should be with one of the finest intramural programs in the country getting under way once again. Our local set-up, although partially unappreciated by the student body, is regarded, along with Boston College, among the top systems on the Continent.

A total of eleven games were run of yesterday with the inaugural basketball game pitting last year's Intramural Champions, PHE, against a strong Senior School team. The game, surprisingly enough, was of the variety that could questionably be classed as a crowd pleaser. To say the least, the participants were definitely interested in the game. Unhappily, the same cannot be said for all of the other scheduled basketball and baseball games. Blame the early essaon, the conditioning, the coaching or what-you-will, but the fact remains that if some of these teams have any play-off hopes, they had best wipe that slumber dust from the optics of some of the players.

Their efforts ranged from unfortunate, inept and unlucky to dull, stupid, sloppy and lackadaisteal. We have never used the word clown in refering to any athlete and will refrain from using it now. Besides clowns are sincere and hard working fellows.

MORE OPTOMISTICALLY.

clowns are sincere and hard working fellows.

MORE OPTOMISTICALLY...

The second hockey game was fortunately of the better variety. The teams displayed mid-season form throughout and the checking was close. Passing plays were also of the organized type.

The Army Course again bring forth a well balanced and a well looked after team. The hockey squad will be heard from in no uncertain terms long before the schedule runs out. The team that skated out onto the ice yesterday was strong in all departments. The forward lines showed that all essential factor by skating both ways. Their back-checking was a feature in itself. The defense, although a bit wobbly at times, tightened up when the occasion arose. In Don Houson, the Army has a seasoned and polished performer, one that shows great promise for the present season. We hate to stick our necks out, but it does seem to our inexperienced eye that Don has done considerable playing in organized hockey, at least considerably more than the other performers in the Intramural league, Another Army-ite to catch our fancy was Pete Ballack, a smooth skating forward. Ballack would do credit to any of the other teams gracing this loop.

So, if you are the gambling type, remember Army before you lay anything on the proverbial line. Don't say we didn't warn you.

The Sportswoman

Ruth Virtue

FLASHI

PLASHI

Up around Vic these days there's lots of enthusiasm being displayed over a "splash party" which is to take place next Monday night in the U.T.S. pool. This is really quite an innovation as it's the first time Vic has staged a swimming party in which her co-eds can feel free to participate without being the proverbial shark. Nor does this mean that the annual swim meet is being dispensed with . . . it comes later in January. However experience in past years has shown that this meet only receives interest of those who are quite expert on springboard and in pool. Hence those who like to swim but are no Eleanor Holm turn up their heels at so much competition and as a result don't show up at all. Therefore the belief that a night's swimming which is all just in good fun and in which points don't make any difference would attract such enthusiasm in the forthcoming meet, led to the inauguration of this party.

Between Freddie Baxter, the well-known instructor at the L.M.

Between Freddie Baxter, the well-known instructor at the L.M.

Between Freddie Baxter, the well-known instructor at the L.M. pool, and Lois Lloyd, Vic's swimming curator, a very interesting program for the evening has been drawn up. Among other events the meet includes obstacle races, fancy diving, lighted candle races, 3 and 4 men relays, ornamental swimming and waterpolo exhibition.

This latter promises to be quite a drawing card itself. Those of us who were around the campus in February of '42 may remember the game played in Hart House pool by the two gals teams from Vic one athletic night. The final result of the fast and furious game was 0-0. Hence with the wealth of experience gained that night, a great improvement is expected, so those desiring fun go out for the team. All in all the night is guaranteed to equal any Hart House pool party . . . make a night of it gals! Here's a chance to let your hair down!

a night of it gals! Here's a chance to let your hair down!

A SLIPPERY BUSINESS ...

In the realm of Hockey, Vic held its first practice on the outdoor rink last week, and judging from the turn out of would-be players our season should be a very successful one. Two teams are being entered in the interfaculty competition this year with Jack Hawkins coaching the first and Jim McKenzie the second. The first game (we hear by the grapevine) will be played in the arena on the 17th.

AN ADDITION BY THE ED ...

Owing to all sorts of mix ups which resulted in the non-appearance of last night's column we find it necessary to toss on an agenda to our Vic Woman. U.C. gals who are interested in hockey get prepared to whip off to a practice on Wednesday. Watch the sports page for definite time to be arranged.

The first practice was held yesterday at Varsity Arena and the possibilities of two teams for the Royal College are on the up and up. Only a few more gals are needed to complete the line-up, so all you babes who wavered between signing and not signing the list take a definite stand on the matter and dust off your skates. Don't let the fear of senility or gout worry you as from the looks of yesterday's team, you'll find the atmosphere quite convivial.

LE MAY OUTLINES CITY PLAN ART, MUSIC & DRAMA (Continued from page 2)

Mr. le May stressed the importance of the land use map as a base of all

of the land use map as a base of an planning.

"We have reached the conclusion that a city-wide zoning by-law is urgently needed to replace the 800 by-laws and 3,000 amendments now existing," Mr. le May continued, "and to avoid further downtown congestion, the height of buildings must be limited. We have concluded that further concentration within the city is unsound, for we are concluded that further concentration within the existing areas are able to take eare of, and therefore we recommend that new industries be located outside the present city limits in the new neighborhoods proposed. The area outside the present planned metropolitan in the present planned metropoli side the present planned metropolitan area should be limited for the present to farming until the time comes, as well it may sooner than we think,

into a Civic centre for Administrative buildings including a new city hall. They also plan for expansion of the University as far west as Spadina between College and Bloor, and recommends the establishment of a Music and Broadeasting centre. To further beautify the city poles and signs are to be removed and wires laid under the ground when the street widenings and new streets are being constructed.

area should be limited for the present to farming until the time comes, as well it may sooner than we think, when further expansion is necessary, at which time the problem would be reconsidered."

The plan is approved by the City Council," Mr. le May concluded, "the which time the problem would be reconsidered."

And that, and brag to me about how nice he makes our first Symphony concert.

It was disappointing—very, for there was little about the program to allow us of his dead than he does of me. . ." PRESUMABLY.

there was so much of pleasant association about the circumstances that all the acid drained away. From the beginning when the familiar lanky figure in tails strode across the platform to the triumphant encores at the end, the program (which one much more learned has labelled "stock") was thorough enjoyment.

The opening selection was the overture to The Marriage of Figuro which was followed by the major work of the evening, Beethoven's Symphony No. 7. This was pure delight, inasmuch as we thought the execution not entirely perfect. One flute, in the first movement scemed to be full of fuzz and the strings scemed a bit streamly.

During the frivolous round of frat seemed a bit straggly. All this was forgiven by the time the climax of the last movement had been reached with brawls and what not that usher in the glad new year, the high spirits of a certain frat-dweller were dampened by a fiendishly tangled experience. Seems that he spent a big day preparing for the Dance of the Season with the Girl Following the intermission the whole of the Nuteracker Suite was played to the great delight of a Christmas audiof his Dreams, and finally set out in suitable glad-rags, corsage in hand, for an address 'way up where the north begins. Then with his hand almost on ence who were then in the mood for the eupeptic Slavonic Dances Nos. 3 and 1 by Dvorak. Following a turnult of applause, Reginald Stewart announced "as the doorbell after nearly an hour of getting his toes trodden on in streetears he realized with a jerk that to-night's girl lived out Danforth way. So back to the ear-lines and through

a series of complicated transfers that brought him at last to the door in question. Then just to be absolutely sure he pulled out his little red book for a double-check... and was smitten as by a thunderbolt... Because THE DANCE WAS THE NIGHT BE-FOREII1

Orton Speaks On Planning

L. M. Orton, New York City Plan-ning Commissioner and technical ad-viser in current planning for Puerto Rico, last night addressed the students in the University Community Planning Lecture Series on City Planning Procedure. Mr. Orton has been connected with New York City Planning since its inception a decade and a half ago.

inception a decade and a half ago.

In speaking of the necessary administrative instruments for successful town-planning in the hands of a non-political agency, he stressed the importance of the master plan, financial plan, and zoning. No positive action can be taken without the presence of a master plan. Its purpose is to present the general ideas to the public, to gather and show the interrelationship the general ideas to the public, to gather and show the interrelationship of the ideas of the different city depart-ments, and to serve as a base for con-sideration of future proposals and not a binding and inflexible plan.

"To facilitate planning, a long-term financial policy is essential, New York having a six-year schedule,"

In regard to New York, Mr. Orto explained the organization of the Plan explained the organization of the Plan-ning Commission which is a body separate from pre-existing agencies to co-ordinate the proposals of various technical departments. It is closely integrated with Municipal Government who pass its recommendations by a two-thirds majority, but must have a three-quarters majority to veto. All new projects — streets, parks, sub-divisions, public and certain private improvements—must be referred to the Commission, and public hearings are

26 - 22. Bob McCormack and Gyneth Stencel Speak for the Opposition

HELD AT VICTORIA

The resolution that all colonies should be placed under international control was defeated by 26 to 22 votes in last night's interfaculty debate in Alumni Hall, Victoria College.

Ken Brown, III Vic, first speaker for the affirmative, stated that the old laisser-faire imperialism of the I9th century had led to the first two wars of the present century and that if we were going to avoid similar catastro-phies in the future we would have to work out a more satisfactory solution to world affairs. He offered as this solution the functionalistic approach which, he said, although for the purposes of the debate he was limiting it to the colonies, could nevertheless be applied to other areas of the world. The advantage of the system was that it was not a rigid constitutional set-up but could be readily adapted to meet the changing conditions of society.

the changing conditions of society.

Bob McCormack, III Trinity, defed
the affirmative to give a working definition of a colony, and followed up by
saying that he did not think the inhabitants of a colony would care to be
taken over by an international body.

He pointed out many of the objections
to international control, the foremost
of which he considered to be the matter. of which he considered to be the matter of defense. He claimed that in the case of Great Britain, the colonies actually benefited from being under imperial ontrol and that they had not been ex ploited. He asked his opponents what they considered to be wrong with imperialism and concluded his with a demand for a definition of functionalism.

Jean Norman, If U.C., criticized the opposition for merely attacking a thoory that they did not understand and In the second of the fact of t message to Congress requests national service law to prevent strikes for duration of war. Every able-bodied adult to be made available for essential war tasks.

Toronto—Agriculture minister, T. L. Kennedy, announces Ortario Government to take over Union Stockyards, to be operated as "public utility."

terest in the area concerned and not those who would merely exploit the district and offer nothing in return. Functionalism was already working in regard to the UNRRA where power was given strictly in accordance with hand in a specific problem. In (Continued on page 4)

Our Role

The Thirty-Year Plan for the future development of Toronto, now on display at the Art Gallery, is the first complete attempt to plan a city in Canada taking into consideration the future population, livconditions, working conditions, recreational facilities, circulation and transportation. This type of comprehensive planning involves organization not only of the city proper, but the metropolitan area, providing for future expansion, and its integration with the region for which it is the focal point. It has been defined by Mr. L. M. Orton, New York City Planning Commissioner, "the application of informed foresight to city development problems." The need for planning in the social and economic sense has been realized in Europe for several decades, and these principles have been put into practice. We have had no such examples in Canada.

As a working basis for any projected future developments, its is necessary to understand fully the past growth and existing conditions of the city. These, as well as future projects, have been clearly demonstrated in the many charts, maps and photographs comprising the present exhibit.

The opportunity is now being offered to the students of the University not only to view the past, present and future of Toronto as it is here represented, but to have the entire scheme explained to them (free of charge) by the man who has inspired and organized the work. ,Dr. Faludi, noted European architect and town-planner, has invited University students to visit the display in groups of 40, and he will personally conduct each group on a tour of the whole, and then discuss the Master Plan.

We are University students, an intelligent group of people capable of comprehending planning in its broadest conception as the determinant of our environment. It is in this sense that the chance of playing a part in the development of post-war Canada must surely hold an appeal.

As many of us are residents of this city, its affairs are our business. The recommendations of the City Planning Board are in the hands of the Municipal Council, and providing they are adopted, they will affect each of us—our city, our neighborhood, our house, our life.

To those from other communities, the importance is two-fold. As Toronto is visualized as the educational and cultural centre of the Province, the ease of contact implicit in the projected super highways linking the Queen city with the surrounding regions will be of great value. The same planning will obviously be required in the communities to which they will return, according to the specific local problems, and they will be in a position to understand if not actually aid in this work.

Many of the students now at University will be experts advising the planning boards of the future. It is therefore hoped that the majority of those studying the social sciences, engineering, public health and other related subjects will attend the exhibit.

Toronto is the first Canadian city ready with a comprehensive program so that after the war, work can be provided for returning soldiers and workers

Loyal Edmontons.

from war industries. In spite of the lack of foresight and understanding exhibited in the downtown press, we, the coming generation, will help materialize these plans and make facts of them!

The Thinking Edmontons

In the midst of a welter of planning and speculation on the post-war world going on at home, it is refreshing and encouraging to hear the voice of the soldiers overseas setting forth concrete and wellthought proposals. In a story in the current issue of Time magazine we are informed of the work done in this regard by the Loyal Edmonton Regiment.

These men have not merely been talking about current and post-war affairs as many British and Canadian soldiers have had the opportunity of doing in our modern armies. They have also formulated the results of their thoughts and discussions so that when Col. J. L. Ralston, Minister of National Defence, visited them they were able to present him with a brief to be put before the Dominion Cabinet.

The chief points of their brief, which was produced under the leadership of their chaplain, Major Edgar Bailey, are not strikingly new, consisting of (1) the proclaiming of the moral responsibility of the Government for the return of fighting forces to civil life with jobs; (2) a request for an assurance of social security to be obtained under measures such as those recommended in the Beveridge report; (3) stipulation that public works projects should not be viewed merely as relief but should be carried out at standard wages. The Loyal Edmontons want Canada to maintain naval, military and air forces of sufficient strength to permit the country to meet its obligations to keep the peace.

The importance of the Edmontons' brief lies not in its terms, but in its symbolism. The soldier is now revealed in a new light. We have been led to believe that our modern fighting man was intelligent, that his intelligence was a great asset to him in the fighting field. We have had no reason to believe, however, that the war was necessarily teaching him anything that would be useful in post-war civilian life of a certain amount of trade training advertised in the recruiting pamphlets. Indeed, a survey made last summer and fall of United States Indeed, a troops on the fighting fronts was rather discouraging in this respect. The men, especially those in the remote Pacific theatre, were found to be terrifyingly ignorant of the more subtle issues of the war. they knew in broad terms what they were fighting They had lived for years under a certain "way of life" and the contrast between that and warfront conditions was more than great enough to make them want to finish up the fight in a hurry so that they could go back to their former status. Beyond that there was little concern or thought shown.

This state of affairs naturally merges in thought with the pessimistic between-wars picture of the soldiers returning from the "next war" weary, disillusioned and brutalized and seeking to make their relatively elemental and uncogitated demands law by force. The new picture of the intelligent soldier thinking earnestly about the world as it is and the world as he wants it as he fights to make the world he wants possible is an encouraging one which could not have peen comprehended in that period of disillusionment between the wars. The fact that this early indication shows that the troops are thinking along much the same lines as the people at home, having arrived at basically the same minimum requirements for the new world, is a sign of future unity and a good omen for the post-war era.

The work of Major Bailey is just now felt by only one unit of our fighting forces, but the background of free discussion which has been built up by Educational Officers should be productive of further group efforts on the part of service men. The United States is following the British lead in educational work in its own forces, which should help to increase the value of that country's contribution to the post-war world.

It now appears that the soldier, instead of emerging from the war as a disillusioned, brutalized and uncooperative member of the community as was once feared, will approach the problems of the peace as a citizen better informed and more practiced intellectually than he was before he entered the army. It is up to those of us who have stayed at home, muttering to ourselves that "this time we are all in the front line," to see that our fine ideals of the present do not decline into another between-the-wars period of cynicism, for then the disillusion which we fear will assail the fighting man and we shall have lost the precious and unexpected by-product of the war which is now foreshadowed by the brief of the Loyal Edmontons.

Wilbur . .

Wilbur couldn't stand incompetence. His mother must have been frightened by a man who said "let well enough alone," because when something didn't satisfy Wilbur, Wilbur would never rest until he was much more than satisfied.

For instance, once Wilbur didn't know what the score was in Honor Window Washing. "This will never do," said Wilbur and

"This will never do," said Wilbur and so Wilbur set about and he studied and

Wilbur got 100 per cent in Honor Window Washing and flunked 15 other

Window Washing and market to be subjects.

Once Wilbur's pajamas shrunk a bit in the wash and Wilbur had to wake up in the middle of the night and get untangled so that gangrene wouldn't set in

"Enough of this," said Wilbur and bought a pair of pajamas than which there isn't any size bigger.

Now he falls on his face every time he gets up in the morning. Wilbur's watch ran slow.

"I'm tired of being late for everything," said Wilbur. "I am competent —I shall fix it myself."

So Wilbur had breakfast and thought it was dinner. He walked out in the middle of a lecture when the professor started running overtime. He called for his girl in the middle of the afternoon and soundly berated the meteorological bureau because the moon was shining too bright.

Wilbur went skating. His skates were dull and he skidded into a snow-

"A-arggh!" said Wilbur, "I shall sharpen them myself and do a good iob."

"Whee," said Wilbur, as he skimmed out over the ice. He cut the rink cleanly in two and fell down the crack. Now we won't see Wilbur till the

Eaton Auditorium

It is a difficult business to write objectively about such a performance as was given at Eaton Auditorium last night. The General Platoff Don Cossack Chorus must inevitably stand comparison with the Jaroff choristers, who have been perennial visitors here. I am afraid they come off second best; but by a slim margin.

Colorful in appearance (with three changes in costume), dynamically led by Nicholas Kostrukoff, they sang with passion and ardour a long and varied program. Blessed be the Lord by Tchaikovsky was done with the familiar swelling-diminishing effect that Russian choirs characteristically have mastered. The Donizetti Ave Moria not even their choral art could rescue from is essential titieness of content. But the peculiar litany, Lord, have mercyl with its repetitive "Sosmody gospodim" was superbly choric in realization. It is no wonder Gretchaninoff is popular with the Russians.

the Russians. Knipper's Song of the Meadovulands was compact of slavic imagery, with the clever simulation of muted hoof-heats and distant trumpets. This Shostakovitch Victory March was included just for the kudos of a big name, for it had no particular merit in this company. Moussorgsky's Song of the Flee—a richly satiric panorama of tone production — embellished by the resonant baritone of N. Khadarik. Hearing it this way, one is not keen to put up with the mediocrity of piano or orchestral accompaniment.

or orchestral accompaniment.
Pre-intermission feature was a wild
Caucasian dance, performed by Simeon
Tavasieff in sky-blue surcoat and scarlet
breeches, concluding with the spectacular

Trinity Scores Single Talley To Edge Knox A Pucksters, Cannon Notches Counter

CARTER GETS ASSIST

Trinity squeezed out a 1-0 win over Knox College's A team in an early afternoon encounter at the Arena yesterday. The single tally came at the half-way mark of the second period when Jack Cannon took Elmer Carter's pass just outside the crease and shot the purch home.

Presbyterian goal.

Trinity revised tactics for the second period and the forwards let go with shots from all angles. The policy seemed to be "perper that goalie if you have to shoot from centre." The steadiness of the Knox defence broke down for a short while and it was during this time that Cannon clipped his shot past onalie Doug Anderson.

Trinity cage,

goalie Doug Anderson.

Ian MacDonald, in the Trinity cage, eame through with one of those three-star performances, blocking every shot fired. And he was really overworked during the first period before Trinity broke down the solid Knox defence. Knox put on a power drive following Trinity's goal but MacDonald rose to make three very brilliant stops.

The Trinity team took to long shots after they scored to hold off the threatening Knox offensive. Eldf Allie-

threatening Knox offensive. Eldi Aik-ens broke away for a clear shot on MacDonald just before the game ended

MacDonald just before the game endea but Ian blocked again to save the first shut-out of the season for Trinity. Consolation posies go to long-haired divine, Jim Jack, stocky centre for Knox, who seemed to cover the entire

knox, who seemed to tove the entire ice surface whenever he was in action.

Trinity—Ian MacDonald, Jack Cannon, Doug Matthews, Jim Ballantyne, Weedy Clarke, John Hilchman, Tommy Hull, Elmer Carter, Rod Laidlaw.

Knox A—Doug Anderson, Don Kidd,

Eldi Aikens, Al Farris, Russ Self, Mac Mark, Bill Moorhead, George Dobie, Jim Jack, Peter Reid.

Scores Half-Way Through Second Period During Temporary Breakdown of the Knox Vic Seconds

The feature basketball game yester-day, between Dents A team and Vicday, between Dents A team and Vic-toria Seconds, was won by Dents who piled up an impressive 32-19 score. Evenly matched through the first half of the game, the teams stuck close and Dents held but a two-point lead with a 14-12 score when the time-out signal

pass just outstoe the the puck home.

Knox had definitely the better outlook on life during the first period as juin Jack and Captain Al Farris hit the Trinity goalie with everything they had. At the same time the Knox defence, with duties split between Don Kidd, Eldi Alkens, and Peter Reid, broke up all Trinity threats on the Presbyterian goal.

WOMEN'S HOCKEY

All MANAGERS are warned that they are responsible for the IM-MEDIATE filing of eligibility certificates for each member of their respective teams. Each manager must leave a complete list of those practicing with her team and eligi-bility blanks for these in the Health Service Office, 44 Hoskin Avenue, not later than noon, Thursday, January 13. Managers are reminded that using any player for whom an eligibility certificate has not been filed renders her team liable to disqualification.

All PLAYERS are warned that they must report to the Health Service inmediately unless they have already been examined and given permission to play HOCKEY since October 1. Any player who com-petes before ensuring that her signed eligibility certificate is in the Health Service Office renders her team liable to disqualification and herself to suspension from other sports.

MUSCLES INCORPORATED . . .

Yesterday we dropped in to see one, Mr. M. G. Griffiths, assistant director of physical training for men, as the staff and student directory will have it. What Griff wished to discourse with us about was mainly boxing and wrestling, meaning that boxing and wrestling which is being offered free of charge to all male students on the

which is being offered free of charge to all male students. So we edged into Griff's office, hidden in the extreme northwest corner of the Hart House athletic wing, and upon invitation, we cleared a cane-bottomed chair of a few papers and sat upon same. Edged is the proper word when referring to his office, because space seems to be at great premium in this sector of the wing. And since there seems to be some one either entering or leaving at all times, at least while we were there, a person has to pass through the door sideways.

there seems to be some one either entering or leaving at all times, at least while we were there, a person has to pass through the door sideways.

Immediately we had achieved a sitting down position Griff picked up a small sheet of paper and, reading from it, said, "If you are anxious to select an activity that contributes to general physical fitness, you will be interested to know that wrestling ranks equally with the first five. These are boxing, wrestling, football, field and track events, and swimming and water polo."

Judging purely from this statement, we have come to the conclusion that Griff is very interested in giving a big promoting push to "the manly arts of modified murder," as some by-gone reporter has put it. He pointed out to us that the United States Navy has placed boxing on its list of physical development sports. Commander Gene Tunney, who needs no description here, has been instrumental in bringing a training program, second to none, to American Naval figbting men. Commander Tunney himself has kept so fit that his present weight is 208, only two pounds more than when he was matched for some of his past championship fights.

And it was General Sir Bernard Montgomery who warned that in modern combat the physically fittest side was the one that won out. But to climb back onto the intramural chariot, the boxing and wrestling classes are getting much less support than they did last year. In case you people have forgotten, there are classes in these bc. sports (bc. is a Health Service - Athletic Office term meaning body contact) held each week. And one need not be an expert in order to enroll in either department's tutorial periods. Quite the opposite, those who know nothing about the sports are urged to turn out for an introduction to them.

George Dalcy, the regular Varsity wrestling coach, has returned to take up duties for the second term. Chesty Martin, who coached the squad during the fall term, will of course continue his wrestling classes conducted during the regular vortice and the summa

material.

Griff told us that he would like to see much larger classes turning out for both sports before the senior interfaculty boxing and wrestling championships, which will be held on an Athletic Night, February 12. After all, it is as he pointed out to us. This physical fitness business via boxing and wrestling necessitates regular work, not the haphazard occasional sparring match that some take part in just before entering the tournaments.

Then he went on to comind us of the hoxing and wrestling reset.

entering the tournaments.

Then he went on to remind us of the boxing and wrestling meet with the Aggies from O.A.C. of Guelph on the Athletic Night of February 26. Last year the Aggies turned up with a fit and fighting team. They won the wrestling side of the program by two events and lost the boxing side by one event to the Varsity men. All of which is a pretty fair showing for a small college when pitted against a University of this size. Maybe we could set this up as a challenge to the pride of Toronto. Let's have some support, then. You're not going to let an affiliate college show you up, are you?

C'EST LA GUERRE???

CEST LA GUERRE???

It would seem these days that too many people are using the war as an excuse for laziness. Undoubtedly athletics in the University have suffered and should suffer drastically from the exigencies of the times; and undoubtedly any potential athlete is willing to adapt himself to the consequences. But we cannot see how the president of the badminton chib can lay down her racquet and say, "No badminton this year,"

The main excuse apparently is a dearth of birds. But a substitute has been brought out lately which is quite usable. It is true that these new balls which are to take the place of birds are not up to the standard of the shuttle, but they still afford the same amount of fun and require the same amount of skill in the game.

If the sport were not such a universal favorite at the University we would let its non-appearance drop, but in a round-up of opinion gleaned from seven different faculties and colleges yesterday we found that its absence was lamented by all. Badminton is one of the vital sports of co-ed life on the campus . . . many girls have kept it throughout the years as their sole winter activity.

For example, the School of Nursing has only a swimming team this term, whereas they have always been represented by a badminton team and the majority of their number play badminton rather than swim. Although Vic are running the gamut of sports this year, they also hate to see the disappearance of the game. St. Mike's, P.H.E., O.T., Physio and a goodly number of U.C. gals think along the same lines. A St. Hilda's girl also pointed out that everybody would be at the same disadvantage in using the new substitute. Hence any gal who fancied herself would still maintain her superiority over the other players.

Consequently with the availability of and the demand for the

other players.

Consequently with the availability of and the demand for the scare, we ask the badminton head what she's waiting for. In this case "the war" is no excuse for such hedging. If we don't see any action in future, only one conclusion remains! To all of which we offer the babe in question a tonic or vitamin pills.

is left for practising before the first hockey game of the year. Said event takes place on Monday from 12:30 to 1:30, and is between U.C. I and Vic I. This is the first year for some time that games are being played in the noon-hour. Six or seven girls have already told us that they can't make the game and are thus forced to give up playing. Such an arrangement may be all right for gals in arts but those who have two-hour labs on Monday afternoons find themselves out of one more activity. In former years games have been played between 6 and 7 in the evening and arrangements were made for those in residence to have their dinner earlier. Such a plan seems much more suitable than skipping the team or a lecture.

Those in U.C. and St. Hilda's who want to take a fling at fencing can wander up to the L.M. gym on Friday at 3:40. As it now stands, the Saints will combine classes with the Royal College. The first lesson, under the tuition of Mr. Walters, was given last week, but you future swashbucklers won't find yourself too far behind if you join now.

Quite some enthusiasm, which has been increased with the arrival of the Saints, has been shown over the introduction of this sport. With two out of four colleges in the fray we wonder why some leader in the other colleges doesn't take up the foil in order to make fencing a university, rather than a college, affair.

Colonies' Future Is Debate Topic

West Lafayette, Ind. — (CUP) —
Fifty girls have registered for the course in aircraft radio, being given at Purdue duniversity in connection with the U.S. Army Signal Corps. These are the second class to take this course at Purdue, the first having been a group of boys.

The trainees are paid by the hour, and have a 40-hour week. Beginning with mathematics, electricity, engineering principles, and shop and engineering drawing, they move into electronics, measurement laboratory, radio circuit theory and practical radio communication with a radio lab and a radio shop period. In the radio shop they assemble and test radio sets.

After completing the course at Purdue than the red would be put into practice with any more success than that which greeted the League of the present system than there would be andled to stick the case of the colonies, those that had attained a greater measure of self-university and the case of the colonies, those that had attained a greater measure of self-university and practic a greater measure of self-university and the case of the colonies, those that had attained a greater measure of self-university and proper member a proper mittee for that district, and would gradually attain a free and self-governing status.

Gynth Stencel, II Loretto, pointed out that there is a far greater chance for a colony to attain a free status under the present system than there would be under an "exploiting bureaucracy" that would be solely concerned with keeping a colony subordinate to outside economic interests. The affirmative side, she stated, were indulging in ideal is the destroyer of the present system than the red would be properly and the present system than the red would be solely concerned with keeping a colony subordinate to outside economic interests. The affirmative side of the colonies of the case of the colonies, the case of the colonies, the case of the colonies, these are present systems and a greater measure of self-university and the case of the colonies, the case of the colonies, the istic dreams that could not possibly be put into practice with any more success than that which greeted the League of Nations. She remarked also that Great Britain depends on her colonies and that they also depend on her, and that if a system of functional control were to be introduced that England would sink to the position of a second rate power. She concluded by remarking that under functionalism nothing could result but chose and nanchy. result but chaos and anarchy.

Zara Nelsova, 'Callist At Sunday Concert

The Sunday Evening Concert at Hart House on 16th January will be given by Zara Nelsova, 'cellist, with Leo Barkin at the piano. The programme, which will be given at 9 o'clock in the Great Hall, will be as follows:

Sonata in A Major

Concerto in D allegro moderato

Intermezzo (from Goyescas)

Mazurka in A Major Zapatcado

Sarasate

hither and yon

with mary r. mckeown

Hither-writing isn't what it used to be in the old days, when every projection fessorial quip found its way into the column sconer or later, and sometimes both, under various guises. Professorial quibe form the reputations, or something, one even going so far as to announce to a first year class at the opening lecture of the course, "And if you want to put any of my jokes in The Varsity, you should come and see me first."

"Is how e'me copyrighted?"

"Way hack at the hericales of the working of the method of the course."

*

Having spent the best years of our life, literally-speaking, on or waiting for the T.T.C., we were very much amused, when a harassed driver, having listened to a playful passenger pull the buzzereord for fully two blocks, turned and said, "Whaddya wanna do? Take it home and play 'th it?"

* * * *

One of our better-or-lesser known evening newspapers (depending on your brand of politics) appeared recently

with the following gem:

"Nothing of value was missing from either, although the would-be robbers

The travels of a former student of the arts, with the R.C.A.F. for several years, have finally taken him out to see if Cecil B. was right. His o-a-o to see if Cecil B. was right. His o-a-o was delighted recently, when he sent her all the way from Egypt, a fat volume of letter by regular mail, rather than the usual smaller air-mail missive, "in order" (we quote) "to see how long it takes a letter to go this way."

But what puzzles her (and small wonder) is the fact that he forgot to distribute the letter.

Sometime during the fall term, one of our fellow-students told you about some initiation trick, which, he allowed, some mintation tries, which, he allowed, was perpetrated "in a nice dark corner near Annesley." "I don't know where he got that idea," wailed a Victorian soph. "There just aren't any dark corners ucar Aunesley." Confidentially,

A "yon" item for a change, this is from the Edmonton "Airman" concerning a Sergeant who arrived at the Manning Depot, located in the local fair grounds before the fair had moved out, and was charged fifty cents admission!

And a double-bill from a neighbor nood theatre, which went like this: "WOLF MAN

HER'S TO HOLD"

CLASSIFIED ADS

Zippered brown leather case with notes, by Convocation Hall, Satur-day, during C.O.T.C. parade. Please leave at Engineering Office in School Bldg. Reward. C. W. Daniel, S.P.S. I.

"I don't think we look so much alike,

says one.
"Well, we both have red hair."
"But yours is redder than mine."
"So what, that just makes me look more alike!"

and again:
"But when he borrows my money to

take out my girl . . ." or an ed perspiring into one end of e phone:
"Oh, please, mother!"

But the one which confounded us most was this:

The night after the frosh week-end last September, a nostalgic old Vic senior, fresh from having left her three eager little freshies, is slowly wending her way towards the nearest cup of coffee, feeling not a little old and sad either, although the would-be robbers coffee, leeling not a little old and sad apparently made a search for cash and left for a wedding trip to Toronto and other points. They will live on the groom's farm at Dopeville."

Shouldn't be hard to catch up with passes a trio of schoolinen going in the them, either! when he is out of earshot (he thinks), "Whitney?" to which another replies, "Nyah! Too young far Whitney!"

C. R. C. C.

> under this category, since 30 hours field work in social agencies is compulsory after completion of 30 hours of lectures.

> Field work for those who took Com-munity Needs and Resources or Recreational Leadership in their first term is not compulsory, but optional.
> Arrangements for those doing field work in agencies is made in co-operation with Women's Voluntary Services.

> Many girls who chose the Nurses' Aids and Day Nurseries courses have already completed their total number of hours by working during the holidays to finish their requirement.

Members of the C.R.C.C. will continue their voluntary work as motor transport drivers, assistants at the central blood serum laboratory, making appointments at the blood elinic, and assisting dieticians and day nurseries. They are also being offered a new course in motor mechanics

ART, MUSIC & DRAMA (Continued from page 2) floorwards from the dancer's lips. Smart

people, these Russians....

Top spot in the program for many in the audience no doubt was Dork Eyes in the audience no doubt was Dork Eyes sung with robust emotion by tenor M. Didovitch. His covered tones were jewels of vocal craftsmanship. A foil for this in point of style was Borodino, a Russian infantry marching song done in spirited fashion. The program came to a reluctant close with a Loughing Polka (arranged by Vladimir Heitet) and Kozatchok, a pot-pouri of the bouncing Cossack dance forms.

Secret of their angentle, success is.

Secret of their ensemble success is, Secret of their ensemble success is, of course, the unfailingly meticulous direction of Mr. Kostrukoff, possessed himself of a pleasant personality. Most obvious flaw is the chief basso whose abysmal register obtrudes itself from the general pattern of sound, more so when he sharpens, as he did frequently last night.

The General Platoff Don Cossacks sing again tonight.

TRINITY COLLEGE

KNOX COLLEGE

THE UNIVERSITY OF TORONTO, THURSDAY, JANUARY 13, 1944

Will Hold Convocation To Confer Honorary Degree Will Perform Will be Note For Dramatic Production On Crown Prince Olaf

University Will Bestow Degree on Norwegian Crown Prince Forester's Club at Special Ceremony in Con- Hears Simmons

MULOCK PRESIDING

yesterday that the University of Toronto will confer the honorary degree
of Doctor of Laws on Crown Prince
Olaf of Norway, at a Special Convocation to be held on Tuesday, January 18,
at 3:30 p.m. in Convocation Hall. Sir
William Mulock, Chancellor of the
University, who will celebrate his one
hundredth birthday the following day,
will preside. The public are invited to
attend.

attend.

The Senate of the University decided some months ago to confer the degree on Prince Olaf, not only as an honor to him, but also as a tribute to the Norwegian people whose stand against German aggression has been so heroic. The Crown Prince, with Crown Princess Martha, will be in Toronto on Tuesday

Martia, will be in Loronto on Inessay on his way to the Norwegian Air Force Camp near Bracebridge.

When the Germans struck at Norway on April 8, 1940, King Haakon, Crown Prince Olaf and most of the Storting and Council field to Hamar

Storting and Council fied to Hamar where they ordered mobilization.

In his book, "I saw it happen in Norway," Carl J, Hambro says, "The fearlessness of the, King, the Crown Prince, their quiet strength, their cheerfulness, their undaunted spirit, steeled the wills of those around them and made every personal worry seem petty and irrelevant."

They respleted Landon on June 10.

They reached London on June 10, 1940 and set up their government in

Exam Results Take Their Toll

Effects of examination results are being felt by students in several Ca-nadian universities. From the Uni-versity of Alberta, comes the news that any students in Arts and Science who fail to make the standard in their Christmas term exams must "seek employment in which they can make a more successful contribution to the war effort." This ruling applies to both men

more successful contribution to the waleffort." This ruling applies to both men
and women, as a similar one does at
the University of Western Ontario,
where the requirement is that students
must pass two-thirds of their credits
taken, in order to remain at college.
Effty-one failures in the mid-year
tests at Queen's were reported to the
selective service. Of these, only 21
were specifically asked to leave the
university, while the rest were given
permits to return "on probation." This
again applied to both men and women.
At Acadia University, as at Mt. Allison in the maritimes, the matter is
largely one of individual concern.
This is the case at the majority of
universities at present, including the
University of Toronto, which acts at
the end, rather than at the middle, of
the year.

Meeting to Be Held About Planning Tours

A special meeting is being held A special meeting is being held today at 1.00 p.m. in the Architecture Library to organize the group tours planned to enable students to see and have explained to them the Toronto City Planning Board's exhibit at the Art Gallery. Those who have already been notified are asked to come, and also any other students who wish any organizations they are connected with to have the opportunity of visiting the plan as a group.

Last night, Mr. F. Simmons, of the Ontario Department of Lands and President H. J. Cody announced yesterday that the University of Toronto will confer the honorary degree in post-war rehabilitation, in an ad-Forests, outlined the extent of reforestadress to the Forester's Club.

There are basically three types of areas in Ontario demanding reforesta-tion, and each type requires a different method of attack. The first, the one needed in southern, agricultural Ontario is that of now non-agricultural lands which were exploited by the early settlers, who thoughtlessly cleared all of the land they were capable of clearing. The second type is the forestation of rocky lands in Northern Ontario, which are incapable of growing tress native to the area, which can be forested by freely sowing the seeds of a very hardy areas in Northern Omato of Markov Seven thousand dollars or one dollar species by the early lumbermen and are now dominated by non-commercial are now dominated by non-commercial areas of the species of

Reforestation of each of these three types has been practiced during the past 35 years in Ontario with favorable re-sults in all cases. The restoration of forest land in agricultural communities has resulted in improved soil and water conditions, resulting in a higher rate of conditions, resulting in a higher rate of production from the surrounding farms. The forestation of sterile lands has had the unbelievable result of producting a commercial product where nothing was before, and the reforestation of the used-up timber area has renewed their commercial importance, at the same time educating the residents of the community as to the value of the forests. It must be understood that experiments have not reovered a very high portion of the land be understood that experiments have not covered a very high portion of the land requiring reforestation, but Ontario ranks first among the provinces of Canada in the practice of reforestation. Because of the favorable results so far, plans for far more extensive reforestation have been drawn up for after the

George Tuttle, Morley Wagland (Vic.), John Wagland (Trinity), John Harris (U. C.) and John Fydell (S.P.S.) and Frances Alken (O.C.E.), all delegates the Westers Missionary Conference of the Committee of the Westers Missionary Conference of the Westers to the Worcester Missionary Conference, described their experience and led discussions on the findings at the con-

U.C. Guild Completes Plans At Conversat Of S.P.S. Frolic Of "Candle In The Wind"

In the fifth of a series of Factors on Contemporary History, Professor B. Wilkinson, of the History Depart-

unity of civilization found its origin in the mingling of two great streams of culture, namely Roman and Teutonic. The common point of view has regarded the former as the more important but in reality the barbarian or Teutonic was of more political significance. It influenced the people of Western Europe inasmuch as it caused them to disregard the already decayed Roman traditions. As a result, progress was manifest, for the Roman concept of centralized bureaucracy would allow no centralized bureaucracy would allow no social, political or economic advance.

On the other hand, the barbarians

stood for democratic government, limited monarchy and folk law. Such tradi-tions provided advance economically, socially and politically.

The fusion of these new concepts with older Roman ideas resulted in the evolu-tion of the state. As it evolved it contained less and less of Roman theories until the idea of the national state was reached. Feudalism was a necessary stage before the completion of national-

ism.
"The formation of the early national city-state," pointed out Prof. Wilkinson, city-state," pointed out Prof. Wilkinson, "Mas been wrongly regarded as a period when people destroyed the wrongs of feudalism." But in reality there was merely the transferrence of loyalty from the feudal lord to the head of the

Again C.O.T.C.

Again the Canadian Officers' Training Corps has come under fire, this time it is the Engineering Journal which is asking editorially, "What is wrong with C.O.T.C.?" The current issue brings together in list form the four chief complaints of engineering students against the military training to which they

- (a) That the work is very elementary, and embodies excessive repetition.
- (b) That no credit is given for work done in the C.O.T.C. when the student enlists in the army.
- (c) That the time taken by drill could be used to better advantage in studies.
- (d) That the regulations are not interpreted uniformly. That is, that in some universities less work is required of men in the later years of their courses.

"At this late date," says the Journal, "it is not likely that the whole system can be changed for this term, but surely something can be done for the future. Unless the Journal has been misinformed, injury is being done to the morale of this group of useful citizens. Surely it is not necessary.'

Misinformed?

Repetition is necessary, since the details of military routine must be carried out like reflex action, especially where they are concerned with obedience to orders and the handling of weapons. Thus, if C.O.T.C. training is to be of any value to the army, repetition cannot be abandoned. That no credit is given by the army for C.O.T.C. work is not a whole truth, in this military district and in the one adjacent to it to the westward we know that two years' C.O.T.C. work is accepted as Basic Training. the Journal's contention may be true elsewhere is possible, but we rather suspect that the fact that the C.O.T.C. no longer can qualify men as officers, or even assure them of receiving officers' training in the army is being confused with failure to fulfil the primary function of the Syllabus, to give college men the equivalent of Basic Training. In the last two complaints rather than in the first two-which seem to indicate that to some extent the Journal has been misinformed-lie the grounds for complaint against the C.O.T.C. as it now affects

That the regulations are not interpreted uniformly is a matter of considerable irritation to those supporting the heavy end of the burden. Rectification of this exasperating injustice should not be hard and need not wait until the beginning of a new term. It is up to those administering the C.O.T.C. as a broad scheme to see that the effectiveness of that scheme is maintained by tending to such matters as contribute to the common morale of its most-subordinate participants.

Major Fault

The major point of the issue should centre around the third complaint. That the time taken up by drill

could be better used on studies. This, of course, is something that was recognized when military training first became compulsory, but in those emergent times it seemed better to sacrifice something of the fulness of academic life in order to be permitted to maintain its framework intact and at the same time provide semi-skilled fighting men for the nation.

It has perhaps been a contribution to the general effectiveness of the scheme that too many detailed exceptions were not early made to the general rule. But now it becomes obvious that there are some men in Canadian universities who are wasting their own time and the government's money in taking military training. Chief among these men are many engineering and science students who are expected to go into industry rather than the forces. To determine just what will happen a year or two hence in the case of any individual seems rather the business of the soothsayer than a military training unit, but it might well be possible for the Wartime Bureau of Technical Personnel, at the expense of reaching further into the private lives of some individuals, to ear-mark what men will be needed by industry comparatively early in their courses, and obtain exemption from military training for them. This facet of the problem is a difficult one, but certainly something more than the recent reduction in training time authorized by the District Officer Commanding is going to be necessary, since it is estimated that few men are able to present qualifications for this relief.

Forgotten Men

Undeniably the engineering and science students have suffered most in this, but it should be remembered that there are also numerous Arts students of category who are taking military training. Those in category C2 are required to take the trainng, yet the army is rejecting and demobilizing men in this category. Few of these men are grumbling, but they should not be forgotten in any revision of the lists of those required to take training. While the problem of the engineering and science students is complex, this one is quite simple of solution. It s necessary only to raise the category to the same level as that accepted in the army for home defense. This would immediately free a number of technical students as well as arts men and would contribute in a small and yet direct way toward the successful prosecution of the war in their case and toward the intellectual security of the peace in the case of the Arts students.

Cigarette Gal

Massey Hall-"Carmen"

It is difficult when listening to an opera whose music is as often and as well sung as that of "Carmen" not to find it rather flat. Its performance by the San Carlo Opera Company at Massey Hall last night was interesting, but seldom inspiring, alim his eyes. I'd driven him crazy." though the last two acts were considerably better than the first two.

As often happens, the singing was better than the acting. Carmen was lively and sparkling in her dramatic singing. She failed to be either seductive or provocative at first, but her outbursts of temper in Act III, and the angry passion of Act IV, were convincing. In contrast to Carmen's wild grace, Micaela was sweet and charming, and her singing was more musical. The overweight Don Jose never failed to appear dull and stupid, but the beauty of his singing in the last Act and in his Aria in the third, slightly atoned for his appearance. Escamillo was the robust toreador of good opera tradition.

The choruses were on the whole stiff and uninteresting, although the finale to the second act in the tavern was good. The last act began with gay and beautiful singing and dancing. Among the minor characters, the Captain deserves honorable mention.

The sets, with the exception of those for Act III in the smugglers' cave, were conventional. A skilful use of lighting made that scene very effective. The orchestral accompaniment was good, and did not overpower the singers.

LILLIAN DOBSON.

PROFESSOR MURDERED!

Professor Takes Life; Driven to Drink By Fiendish Plot; Had Just Heard of New Liquor Ration; General Opinion Is That He was "All Wet"

HO HUM!

London—(by the CUP carrier pigeon service) — Late yesterday afternoon, Professor Sporadic McShakespeare, Head of the English Department in a little-known University near London, Ontario, went for a short swim in the nearby Thames River and failed to

At first, authorities believed that it was just an ordinary case of accidental drowning; but subsequent events lead the University authorities to believe the professor took his own life.

Surprisingly enough, Professor Mc-Shakespeare's home life was a quiet, happy and normal one. His wife is a beauteous blonde who received assorted degrees from several universities. And she can cook. This was verified by the CUP editor in London who ate 17 double cherry smashes that Mrs. McShakespeare was saving for Sunday dimer. The professor's children are very well behaved. They have never heard of anything like an institute of child study or self-expression or progressive methods of education or anything like that. The late professor used to beat his kids about the head and ears with rare old manuscripts to make them behave.

With this idvilie homelife of the she can cook. This was verified by the

With this idyllic homelife of the ofessor, police suspected foul play.* After three days' diligent searching, a clue was found by the diligent CUP editor from the little known university's little-known weekly. The editor was hanging around outside the professor's old lecture room when an suspicious looking character named Prosaic Mc-Milton walked by the door and muttered softly to himself, "Hahl You are but the first of many, McShakespeare."

Seated under the lights of the jail, McMilton confessed to a fiendish plot that drove Prof. McShakespreare to

"It was foolproof," boasted McMilton "First, I promised McShakespeare I would take him to the Thames and show him a new swimming stroke some day. Then for two weeks I stood out-side his lecture room and sang that song 'Marczee dotes and ozee dotes an' liddlelamzee divie' while he lectured

"Taking advantage of this, I took him to the Thames and gave him that swim-ming lesson."

tective, swinging a large meat cleaver at McMilton. "Why did he drown?" asked a de

"Because I think he got the breathing instructions all wrong," laughed Mc-Milton, simultaneously ducking the meat cleaver and making a disgusting nois with his teeth. "I told him to inhal-under water and exhale when he brough his head out of the water. They don't last very long that way, do they?" "Neither will you," said the Judge. And neither, if he keeps this up, will

Fifty single tickets which will admit men only to the concert to be held at 9 p.m. in the Great Hall of Hart House on Sunday next 16th January will be issued from the Hall Porter's desk after 12 noon today.

The art class will meet at 7.30 tonight in the art gallery of Hart House.

Vic Whitewashes School V In Puck Ice Capades

By Dint of an Early Goal Vic Gains and Maintains Edge Over Engineers Oespite Late School Offensive

FANCY PASSING

In the early hockey game yesterday, Vic II defeated School V to the tune of 6-1. For the first five minutes of of 6-1. For the first five minutes of the game the play was very loose and scrambly, with the puck staying in the centre area for the most part. A goal by Wheeler of Vic on a low shot from outside the defense sparked the Vic team into action and from then on they had a decided edge in the play. From a scramble in front of School's mocal Paslawski banged one into the From a scramble in front of Schools goal Paslawski banged one into the net to put Vic out in front 2 to 0. Then Cooper and Burford for Vic showed some fancy rushing and passing which netted them a goal apiece. In the dying minutes of the period School the dying minutes of the period School had an opportunity to average them-selves when Morris of Vic was penal-ized for slashing. School could not get going, however, mainly because of Vie's stout defense and the failure of School to regard the offside rule.

They had a very strong defense, com-bined with forwards who back-checked industriously. Their passing plays were good in spots, but the team needs more ice to round it into shape.

School played hard all the way but their team lacked practice. Vic — Morris, Rateliffe, Wheeler,

Vic — Morris, Rateline, whether, Gingell, Cooper, Blair, Burford, Berken-shan, Myers, Groover, Paslawski. School — Morrison, Heslip, Ivory, Venton, T. Phelan, J. Phelan, Wardell, Walker, Ballen.

2 p.m. tomorrow. Will all U.C. women

VARSITY SWIM TEAM

Tryouts and practices for the Varsity swim team will commence this week, according to Johnny North-wood, coach of the Blue aquatic team. The members of this team will swim against stiff opposition during the coming Athletic Nights. Practices will be held at the Hart

Practices will be held at the Hart House pool commencing with Friday of this week. Following this initial workout, sessions will take place every Monday, Tuesday and Friday from 4:30 to 5. All swimmers are asked to turn out as some 12 men are required to fill the positions on the team.

Foresters Gain 8-1 Hockey Victory

Forestry hockey squad showed their superiority over Dents by dominating the play throughout the two 20-minute get going, however, mainly because of Vic's stout defense and the failure of School to regard the offside rule.

During the second period, play settled down somewhat. School were forced to open up in order to whittle down the Vic lead. However, Vic checked hard and were successful in keeping School hemmed into their own end. Capitalizing on the breaks, Vic scored two quick goals from scrambles near the School net. Wheeler scored the first on a pass from Cooper and Grover scored on a chop-shot unassisted. Just after the 10-minute mark, Just after the 10-minute mark, Just after the 10-minute mark, J. Phelan of School picked up a loose puck at the Vic defense, passed to T. Phelan who rified the puck into the Vic net. The score: Vic 6, School 1. Lawson metted two more goals on the Wicheld School and they put on a powerful ganging attack. They fought hard and had a few good chances to score but they could not capitalize. Again the stout Vic defense and the numerous offsides hindered the School offensive.

Vic definitely looked the better team. They had a very strong defense, combined with forwards who back-checked industriously. Their passing plays were good in spots, but the team needs more waster to round it into shape. periods. Mel Lawson opened the scor-

UNDERGRADUATE LOAN FUND

Operated by the Students' Administrative Council

This fund is open to students who pay the S.A.C. fee and are in either of the final two years of their courses. The maximum loan is \$100.00. Interest is charged at 5% from date of leaving the University. Applicants will be interviewed and loans granted in January. Those receiving loans must sign a note, and a satisfactory endorser is necessary. Application forms are now available in the S.A.C. Office, Hart House.

By Mickey Michasiw

IT'S JUNE IN JANUARY ...

IT'S JUNE IN JANUARY...

This may seem like an unappropriate season to talk or write about lacrosse, with local champions decided upon, but students who follow this game just never seem to be satisfied. As a bit of information to the others, lacrosse is one of the oldest games in the world, and is the uational game of Canada rather than hockey, as many are led to believe. Annually, provincial playoffs are held which ultimately lead to the Canadian finals and the Mann Cup, emblematic of lacrosse supremacy. All that of course, has little, if anything, to do with Varsity.

There are however, a number of rabid lacrosse fans on the campus, fortunately or otherwise, who seem to take a perverse delight in collaring us and talking rapidly, earnestly and violently of a post-war international intercollegiate plan.

Before expounding these theories, we would like to do a bit of explaining which may or may not save our functional activity. Certain sectors insist on misconstruing our honest intentions resulting in dire threats of poisoned coffee or black widow spiders. And so we plead that this is not criticism, but the true feeling of a few lacrosse fans.

SOUTH OF THE BOROER...

SOUTH OF THE BOROER ...

According to these informative sources, there is an active body called the United States Intercollegiate Lacrosse Association, which, during the past holiday season, held its sixty-first annual meeting. That would possibly make it one of the oldest intercollegiate sports in the United States.

One of the topics on the agenda was the possibility of a post-war international lacrosse schedule. At this far off date it seems not only improbable but also immature and impractical. Exhibition football games have always been hard enough to arrange due to the vast difference in the rules, but with lacrosse, this difficulty is much greater.

The teams across the line still play the old field game, which is practically unknown among the younger players here. The Quebec Lacrosse Association suggested that they adopt the Canadian boxgame. How far this suggestion will reach is worth watching, but if their efforts for internationalism is sincere, a long pace forward can be accomplished by modernizing their game. Then, and only then, could games with Canadian teams be arranged.

ON THE BACK OOORSTEP ..

On the local campus, we have what is commonly known as a spring house lacrosse league. A couple are found at the two Montreal Colleges, and Queen's likewise boast of such a league.

The interfaculty lacrosse league was first organized in 1928, when Dr. W. A. Dafoe, of the Faculty of Medicine, presented the Cup which bears his name, and which, incidently, was won this year by Senior

Meds
Previous to that date, a team representing Varsity, held a berth in

Previous to that date, a team representing Varsity, held a berth in the International League, which was composed mostly of United States teams. Lacking the proper facilities to train outdoor teams, the Big Blue team was forced to drop out after absorbing defeat after defeat.

If the United States teams that are studying the box-game, decide to put our rules into effect, the local boxla stars would be on equal footing with their cousins. If this proposed change goes into effect, the only legitimate excuse for abolishing the game will be invalidated.

Rumor has it that the Canadian Lacrosse Association is laying plans ready to submit to Canadian Colleges for consideration of such a league after the war. Whether or not it will materialize is of vital interest to all lacrosse fans throughout Canada. Recent years have seen a revival of interest in the game amongst Canadians, which is a good indicator that it would benifit similarly in a student Canadian League.

OPEN HOUSE . .

THERE COMES A TIOE . .

THERE COMES A TIOE...

... in every swimmer's life when she takes the final plunge into the University swim. A meeting of the swimming reps was held yesterday moon with the result that preliminary and interfaculty meets are planned for this term. Whoever is interested sign the lists on the local bulletin boards at your college. The preliminary meets will be held at the U.T.S. pool sometime this month. So far there are approximately ten teams entered and Joan Campbell, head of swimming, expresses the hope of a few more additions to the list.

The finals will be held in Hart House on the last Athletic Night, February 25. Instruction will be given those who want it by Freddie Baxter. The events do not smack in the least of professionalism, so enter merely for the fun of it if you figure that your swimming insit up to par. Who knows? With a bit of instruction, you may find yourself in Hart House doing some fancy diving for a rare old appreciative audience. (???)

There'll be all sorts of stuff at the meets such as ornamental swimming which entails two compulsory and one optional tricks; star swimming which involves breast stroke, back stroke, side stroke and broad stroke. The diving includes two compulsory and three optional dives, and then there is the good old 50-yard free style, 50-yard breast stroke and 50-yard back stroke. To top all this off the meet will conclude with a medley relay and free style relay. Sound interesting?

BOXING WRESTLING

Coaching and Training Classes are being held as follows:

BOXING -- Tuesday, Wednesday, Thursday, Friday at 5.00 p.m. Coach-MEL GLIONNA

WRESTLING -- Tuesday, Wednesday Thursday and Friday at 5.00 p.m.

INTERFACULTY FINALS -- FEB. 12th O.A.C. vs VARSITY --FEB. 26th

The preliminaries and finals of the Junior competition will start Mon. Jan. 31st. Details will be announced later.

These classes may be taken as regular Physical Training classes to fulfil the attendance requirements.

Reginald Stewart

"Oh, Maryland, my Maryland, Wie tren sind deine Blatter."

-Ibid.

In case you haven't noticed from the copy we've been turning out in a futile effort to reconcile our conscience with the opportune time to meet the mood that the opportune time to meet the mood that and the money which could give thought, and the money which could give thought and the money which could give the same time to define the deducted a small decorative Christimas tree, proclaiming all the while, 'Oh, by, tinstend the same time to define the asked, mythory of grow tree!"

When asked how come Saroyan gave bim so much time off he asked, "Who's Saroyan!"

We reached Washington taking time and the money the opportune time to the same time to define the proper of grow tree!"

We reached Washington taking time and the money the opportune time to meet the mode of the same time to the same time to the same time to meet the mode of the same time to meet the same time to meet the same time to the same time to meet the same time to ANY TIMES shopping time, but most form a body of porticularly round about now when you founders, sponsors, sustaining members (or the porents) ore playing with the idea of tolking turkey on the fur cost phony Orchestra Association which, question. Columbants, the Scottish fur when listed in the programs, takes up house, at 38 Bloor Street W., or class in the mood to meet you half way in the mood to meet you half way in this comfortable matter, January being was an entirely new series of ten control to their month of sale-pricing their costs, certs running concurrently with the old their month of sale-pricing their costs. civic concerts which, meanwhile, had grown to the number of 14. In ad-dition, five Saturday morning concerts are given for children. One contribuare given for children. One contribu-tion, especially unexpected by the new conductor, considering one of the accom-panying conditions of his departure from Toronto, was the sum of \$2,500 from the musicians' union in Baltimore. On the face of it these figures are not too remarkable. The growth of the civic concerts from eight to 14 on

the civic concerts from eight to 14 on a budget increase of only 20 per cent gives evidence of a good stroke of business, a certain productivity in quantity at least, but this does not ac-count for the increased audiences and business, the very evident appreciation of the people of Baltimore. Obviously the orchestra must have improved in quality. It has, and that is where the co-ordination wrought by Mr. Stewart shows itself. He has been able to stretch his liberal budget to the utmost through his dual position as head of both the conservatory and the orchestra so that well-known musicians may be brought to Baltimore to serve as members of the orchestra and teachers in its conservatory as well. Notable among the recruits who have come to Baltimore under this scheme are the Musical Art Quartet who teach in the conservatory while two of the mem-bers head string sections of the orchestra. The organization still plays together and is known as the Musical Art Quartet of the Peabody Institute.

Other notable acquisitions have been Clarence J. Totten, formerly with the Ballet Russe and the Pittsburgh Symballet Russe and the Prisonagil or phony, who heads the contrabass section; Bruno Labate, now first oboe and formerly with the New York Philharmonic; Joseph Mosbach, formerly harmonic prices because with the Boeten Super first bassoon with the Boston Sym phony; and James Burke, first trumpet, who is soloist with Goldman's Band in the summer season.

Plans for this season include the performance of several world premieres and numerous works rare in orchestra and numerous works rare in orenestral repertoires. The Earth Sings, a symphonic poem by Franz Bornschein is one of the premieres, while Stravinsky's New Symphony in C. written two years ago and only performed twice before, will be heard. Other works include the Hinderith's Symphony in D. Mines. Hindemith Symphony in D Minor, Villa-Lobos' Descobramento do Brazil, Cheslock's David Suite, and A Lincoln

Among these was a particularly engaging family group of four from this University intent on various types of joilification in the great city of New York. No shrinking violets, these, but completely inoffensive, for the fact that they could be heard all over the car merely put their delightful whimsy and malapropisms within the reach of all and brought out the Saroyan in even those who wanted to doze.

When a sturdy United States soldier boarded the train near the border with his chest bedecked in comparative unobtrusiveness with one of those long, clanking marksmanship medals, one of the male members of our enjoyable little emigrant group gasped to his brothers, "Did you see that? Did you see that? The order of the purple heart!

Sport was the group's primary preoccupation and baseball, professional
football, horse racing and hockey became all mixed up with the mother's
solicitude about affairs of the heart.
Here, with no attempt to distinguish
the characters, as we didn't like to turn
and stare, is a sort of reconstruction
of the conversation:
"Come on, tell me all about your love
if a "Blackhawks, Leafs, Bruins,

rakish uniform cap at the controls.

of the conversation:
"Come on, tell me all about your love
life." "Blackhawks, Leafs, Bruins,
nottachance, maybe, naw, maybe, etc."
"Must be bad!" "No, don't worry." "Must be bad!" "No, don't worry."
"Not going to get married yet awhile?"
"I don't think I'll get married for a
long time. You know, I find I can go
just so far with a girl and then I get fed
up." "I'd like to see the Giants win
tomorrow," "I don't feel you should
set married until son base the should and get married until you have ten thousand dollars." "Tomorrow decides the title for the East." "Do you know if there's

still racing at the Belmont?

Con you swin?

* * *

This was so interesting that we were sorely tempted to introduce ourselves and move in on the conversation when we heard the sportsters muttering, "Yeah, did you see that?" and then some muttered words out? and then some muttered words out of which the only clear ones were the name "Phil Shackleton." We maintained our reserve. This was so interesting that we were

When we went to rent a room in Baltimore, the landlady was disposed to let us have one at \$1.50 a night. "Of course," he said, "it's regularly \$2 and that's the OPA ceiling on that room, so don't tell anybody you are only paying \$1.50. I wouldn't want to get into trouble with the government."

Most notable character on the trip Most notable character on the trip was a screwball and bad-actor referred to as Frankie the Degenate, by which name he shall have to be known here since I can't spell his last name either, althought it resembles "Degenerate." Frankie is a photographer who works Frankie is a photographer who works for the shipyards and attends launching banquets as soon as he can get his hands out of the developer. He went, he says, to the University of Montreal, and the only reason that there is no plaque there commemorating this is that he swiped it. Long-haired, chubby and swarthy in appearance, Frankie is at once amiable and imperient in approach. At the and impertinent in approach. At the

THE UNIVERSITY OF TORONTO, FRIDAY, JANUARY 14, 1944

"Aviation—Past, Present and Future" is the subject of the lecture to be given under the auspices of the Royal Canadian Institute on Saturday evening, Jan. 15, at 8:15 pm. in Convocation Hall. Wing Commander T. R. Loudon, who will deliver the address, is Professor of Civil Engineering and Aeronoutics and head of the Department of Civil Engineering at the University of Toronto.

Toronto.

The address, to be illustrated with lantern slides, will outline the early development of aviation in which Canada had a considerable part. The structural design of early aircraft will be shown and the gradual evolution to the present streamlined high speed aeroplane. The development of the motive power to the present state will be discussed and compared to the possibilities of the newly announced jet propulsion. The future use of the helicopter, the flying wing, use of the helicopter, the flying wing, and the large transport plane is to be illustrated in the address. It is also proposed to discuss Canada's central position in post-war transportation as well as the possibilities of retaining an aircraft industry in this country.

In 1940 Wing Commander Loudon

was granted leave of absence from the University to become the Commanding Officer of the first school of aeronautical Officer of the first senool of aeronautical engineering under the British Commonwealth Air Training Plan at Montreal. After eight months he was promoted from Squadron Leader to Wing Commander and appointed Chief Technical Officer of the Flight Research Establish-Officer of the Fight Research Exclusivement, R.C.A.F., at Rockeliffe, Ottawa. In May, 1941, he was put in command of the entire Test and Development Establishment, R.C.A.F., at Rockeliffe. He has just recently returned to his work at the University and will retain the control of the research of the control of the research of the res his connection with the forces as commanding officer of the University of Toronto Air Training Corps. Professor Loudon has been actively interested in aeronautics for many years and it is largely due to him that aeronautical in-struction has been developed in the

New Ruling

Contingent Headquarters for permis-ion to train one hour per week under the new regulation issued last month by e Board of Governors of the Uni-rsity. This regulation which applies Third and Fourth Year men in the to Initia and Fourth year men in the Science courses who have completed two years of C.O.T.C. training and have attended two summer camps, reduces the training of those qualified to one hour per week during the spring term.

The number of men who have applied and the number eligible are not availand the number eligible are not available since the status of Science students may be changed by the personnel board that is to visit the University next month. This board, composed of representatives of the Navy, Army, Air Force, and the Wartime Bureau of Technical Personnel, will interview all Science students. Specially studied may Science students. Specially suited men may be selected to attend a summer-long course at a Corps Training Centre. Some of the students who have ap-plied for reduction in training time, have decided not to take advantage of the regulation because they assume this will lessen their chances of being accepted for a summer course.

for a summer course.

Since most Science men obtain leave from summer camp to work in essential industry, there are few men in the University to whom this regulation applies. A large number of Third and Fourth Year men have transferred to the U.N.T.D. and U.A.T.C., and the regulation does not apply to those branches of the service.

Resource the situation is still indefinite.

Because the situation is still indefinite iew men have applied for reduction in training time, and the special one-hourper-week classes have not yet been organized. Final arrangements will depend upon the results of the interviews with the personnel board.

St. Mike's Eds, Co-eds Plan Informal Dance

Men and women of St. Michael's Men and women or 3t. anchaets College will gather in Brennan Hall to-morrow night for an informal gettogether dance, first of its kind ever to be held at the College. Admission is free and the entire student enrolment is expected to turn out.

All arrangements for the dance are being made by the Annual Ball com-mittee, made up of members of St. Michael's, St. Joseph's and Loretto Colleges. The Saturday night affair was planned as a "de-feet" for the winter social season, according to mem-

The dance will be conducted on a "come single" basis in order to draw every student in the college.

About Planning Tours

A special meeting is being held A special meeting is being held today (not yesterday as reported in yesterday's Varsity) at 1 p.m. in the Architecture Library to organize the group tours planned to enable students to see and have explained to them the Toronto City Planning Board's exhibit at the Art Gallery. Those who have already been noti-fied are asked to come, and also any other students who wish any organizations they are connected with to have the opportunity of visiting to have the opportunity of visiting the plan as a group.

Refugee Petition Still Circulating

The total number of completed Refugee Petitions collected from the University of Toronto campus reached about 400 according to Elliott Siegel, a member of the committee. Many of the petitions collected lacked the necessary 20 names and as a result were invalid.

20 names and as a result were invalid.

Although the campaign did not receive unanimous support at Varsity, those connected with it feel that the drive stimulated student interest on the question, according to Stegel. The Arts Colleges and Faculty of Medicine were most enthusiastic in their support and although the Engineering Society did not give its official sanction to the drive the entities were circulated successfully. the petitions were circulated successfully around S.P.S.

The campaign, which is still going on throughout Canada, will be terminated shortly, probably within a month, and the government will be approached on

Trends in Political Economy Will Be Topic of First of Fi day Lectures Sponsored By Teaching Staff Committee

OPEN TO PUBLIC

Dr. H. A. Innis, head of the Department of Political Economy, will give the opening address this afternoon in the series of public lectures on "Trends in Canadian Life," which is being sponsored by the Committee Representing the Teaching Staff of the University. The lectures will be held Friday afternoons at 4:30 in the Botany Building lecture room. Prof. Innis will

Friday afteruoons at 4:30 in the Botany Building lecture room. Prof. Innis will discuss trends in Political Economy.
This series corresponds to that delivered last year entitled "Reconstruction in Canada" and later published under the editorship of Prof. C. A. Ashley of the Department of Political Economy. The committee hopes that this year's lectures will also be published. They are designed to bring the different branches of the University together as well as to enlighten stutogether as well as to enlighten stu-dents and the public.

Next week, Prof. E. A. Alleut, of

Next week, Prof. E. A. Allcut, of the Department of Mechanical Engin-eering, will discuss Fuel Policy. Sub-sequent topics will be Labor Relations, by Prof. H. A. Logan; Social Services, by Prof. G. W. Brown; Education, by Dean J. G. Althouse; Art, by Prof. E. J. G. Alford; Literature, by Prof. J. F. Macdonald. Principal M. W. Wallace of University College will close the series on March 10 with an address on Canada in the Post-War address on Canada in the Post-War World.

Scientists' Meeting To Hear Four Speakers

The I01st meeting of the Toronto

Mulock to be Host

On 100th Birthday

Sir William Mulock, on his birthday next Wednesday, will hold a receipion at his home on Jarvis St.

FRIDAY, JANUARY 14, 1944

Enter The Engineer

Something new will soon be added to the literary world of the University when the Voice of the Engineer, that hitherto unpredictable publication, ike Oike, makes its appearance in regular quarterby foun on the somewhat higher level of the "tech-nical and literary journal." The entire reading population on the campus will await its advent with interest and curiosity. The Varsity in particular wishes to extend a hearty welcome to the Engineering Society's new magazine. Any addition to the growing list of publications of the University is an event worthy of celebration but coming from the much-maligned Engineers, of whose literary capa-bilities The Varsity at least has long been aware, it is doubly so.

Wartime Paradox

It is a strange paradox that in these days of heavy schedules and serious work, students find time to expand their extracurricular activities. It is also most encouraging to note the trend of such expansion. Since the beginning of the war this University has seen a gradual but steady change in the general of the student, the idea being that we are men and women, a good number of us voting citizens, and we are gradually getting around to acting as such. Not that acting our age makes us turn into a flock of sober-faced, library moles. On the contrary, the University is still a place for fun, but humor in the Italian dialogue. when life is unsettled and uncertain the fun rises to a higher plane. So we find Medsmen deciding to spend some of their precious free time getting culture through an Arts and Letters Club and Engineers setting up an organ for the expression of their views on subjects literary and technical.

Plenty of Talent

The Engineering Society should have no great difficulty in finding talent to fill out its quarterly. If the numbers of Schoolmen who annually turn out to help fill the columns of The Varsity are any indication of the spirit and ability of the scholarly gentlemen of School we anticipate a long and fruitful run for the Toike Oike. We would also eongratulate the Society on having obtained as Editor Bud Smith, Assistant Managing Editor of The Varsity, whose experience and enthusiasm should do well by the new publication.

Some believers in the strictly "forty beers" type of engineer (if any still exist) may scoff at the idea of a Schoolman seriously sitting down to write an article for publication. But however scientific and unlettered the engineer may try to appear on the surface, he is human and the urge to tell what he knows or present his side of an argument is common to him as well as the Arts man. And oftentimes his habits of straightforward and factual thinking give him the advantage. Wisely enough, the new quarterly will give Schoolmen a medium for dis-cussing any technical problems they may find inter-esting. This should cause general interest in the The Barber of Seville is one of the best of the comic magazine and raise the calibre of contributions by operas, and last night it was well done. If one goes giving everyone a chance to write about something for opera, what more could one ask?

And Still School

School's new venture strikes us as one which will last, not just a high-flown, hard-falling scheme of the moment. It will last because the Engineers have not gone off the deep end and lost their long-famous sense of humor. In other words, men, don't worry; the good old-fashioned Toike Oike will still appear when the spirit moves it.

Fruits Of Adversity

We have often heard of the fruits of adversity; now for the first time we see a practical example of such in the proposed production of a well-known now for the first time we see a practical example of such in the proposed production of a well-known lishers failed to come through with a Broadway play in a capacious downtown theatre by the U.C. Players' Guild. Left without a hall by the closing of Hart House Theatre last year, University dramatics stood faced with a decision, that of closing on the work of the staff and Students' Directory this breach of publisher's ethics, a slap on the wrist.) up shop for the duration or tramping from hall to up shop for the duration or tramping from fall to hall whenever it had a production, looking for a place to perform. University events hitherto held in Hart House Theatre have been forced to vacate the campus and settle in various auditoriums and theatres throughout the city. University societies deserve a lot of credit for refusing to give up, especially since the control of th lack of a theatre has not been the only difficulty encountered in the past few years.

The silver lining in the general gloom may prove to be this plunge into downtown theatrics, this production of a University play in a house whose capacity is set at 2,000. Perhaps the Players' Guild will not draw any greater audience than it did in former three-night stands at Hart House, but the mere fact of its presenting a play in a professional house in downtown Toronto brings the University into the big time. It will have to be polished production and as such it should appeal to a city audience as well as the loyal rooters of U.C. There would certainly be no disadvantage in having University dramatics become an integral part of the city's theatrics. In fact, in a University of this size it is a matter of wonder that its dramatics have so far remained strictly a campus affair.

As a city, Toronto has shown plenty of enthusiasm and native talent along musical lines, but its lack of dramatic life is complete. These is surely a large potential audience in the city for any local production that might be offered. It looks to us like a challenge for campus dramatics.

Amusing

San Carlo Opera Company

The Barber of Seville by Rossini, was the opera

A great opportunity for singers to display their talents was provided in this work of the 24-year-old Italian genius who had already achieved fame all over Europe. Mario Valle as Figaro, the Barber, was easily outstanding, in singing and in acting. His clear diction—so clear that it was possible to understand much of the Italian—boosted his singing performance above that of the others, but his acting was closely rivalled by the antics of Oscar Lassner as Dr. Bartolo and Harold Kravitt as Don Basilio the Music Master. Mario Palermo as Count Alma viva acted excellently, but his singing was a trifle weak compared with the robust tones of Figaro.

On the feminine side of the cast Lucille Meusel as Rosina turned in a good performance with one small She had the misfortune to miss a few of the highest notes. Sometimes she hits the correct one only to slide down off it slightly through inabality to sustain it. This was unfortunately rather painful, especially on one occasion when a flute which was accompanying her was left playing about a semi-

This is not intended to imply that the general level was not high, however; altogether the company gave extremely pleasing performance.

Rather pleasing also was the frequent comic effect produced by sudden switches of the male leads to falsetto and back again. All in all the quality of farcical amusement offered went a long way to make

The Blue Book

(In view of the fact that the pub

This slim volume will scarcely add to understandable, not to say inevitable.
To such heights as Arts Calendar attains we mortals may not aspire above once in a life-time.

Where Arts Calendar exhibits limit-less magnificence of detail all sub-ordinated to one driving, all-prevading ordinated to one tribute, unity, Directory is aimless, spineless, intolerably diffuse. Nor is this limpness all; the handling of detail no longer expensions of the control hibits the once unfailing sureness hibits the once untaining sureness of touch; lines, planes, tones, values, chiaruscuro, and perspective, are lamentably weak: not to mention pizzozs. It may be helpful to set random passages side by side, in trying (if it be not too late) to recall the compilers to the chief of the property of the compilers to the chief well-weak property of the chief weak property of the chief

heir earlier manner.

Opening the earlier masterpiece at page 52, we find: "In order to secure page 52, we find: "In order to secure standing at the annual examination in the Second or Third or Fourth year, a candidate must have obtained (a) at least 50 per cent in each honour subject of the course together with an average of at least 60 per cent in such honour subjects, as well as (b) credit as defined in section 49 in all, or all but one or two of the pass subjects attached thereto."

Now no one else would have said to

Now no one else would have said the thing in just that way. It is not too much to say that the ordinary human brain is overwhelmed with discouragebrain is overwhelmed with discourage-ment in contemplating such a wealth of ideas. What depths! What overtones! What suggestions to the left and right! And how clear is the link with section 49! From that mark of internal unity alone one may see how freely the compilers are moving within the vast structure they have erected. But of all that there is in *Directory* no hint at all. We have tried, honestly tried to find a passage to stand along-

stried, to find a passage to stand along-side that one; and we have failed. We do not think the fault is ours.

Again, on a facing page, "The marks or the term work in a subject in a pass course will be determined in the manner considered most suitable by the teaching staff in that subject." Exactly. Simple, lucid, sincere, not to say charged with One is reminded of the innumerable felicities in which the poet Wordsworth abounds: "I will not go to Winchester today;

Tomorrow will be more convenient.' Who can deny that the same Piaerian oring has fed these passages?

But with Directory the case is dif-erent. Opening at random we find a curious columnar arrangement of which little can be made. Not prose, obvious-ly, and if verse, what bathos! "Ruscica, Ruscica, Russell, Russell, Ryan, Saba, Sachs, Saeli" run one extract; and we must be excused for saying that we can make nothing of it. The rhythm jogs like a cartwheel, and there is a terrible

lack of verbal aptitude.

At times even that poor inspiration

Jr. School Beat Dents In Group II Hockey

Sabiston Stars with Three Goals and One Assist as Junior School Scores 4-1 Win Over Dents A Team

ICE GOOD

Junior School won out over Dents A with a 4-1 score in a group II hockey game. A lively back and forth brand of play featured the game. The fast rate was facilitated by a fine glassy ice surface, of which there have not been very many in previous games. Sabiston clicked for three goals and

an assist as he was in on every School an assist as ne was in on every School score. The first goal came after eight minutes of the first period. There was no assist credited. Devas scored the second Engineering goal at the 16minute mark, with an assist going to

Cos Castaldi, Dents mixer de luxe and fastest player, scored only a few seconds after Sabiston's goal. Sabiston opened the second period with his second goal pass from Shaw. Miller of Dents on a pass from Shaw. Miller of Denis was in the penalty box at the time. The final goal came a minute later as Sabiston clicked for his third.

McDonough in the School net was

FIRST BLOOD ...

Well, the Varsity team has won it's first basketball game. We hovered about the players' bench last night as Coach McCutchcon shuffled his team and delt a winning hand for Toronto. And it looks as though there's a pack of aces residing in Hart House this year. Perhaps we shouldn't say a pack of aces, but we will go on record as saying that they're all paint cards.

Although the results were which will meet Service and

Although the regular Varsity team, which will meet Service and College teams on the not far-off Athletic Nights, has not yet been definitely selected, the squad that played that practice game last night looks good enough for any league in these parts. They cooled off in no uncertain terms, a team made up of players from two championship squads of the 1942-43 season.

It was, of course, essentially a practice game. Although making sure that the Yorkist party would not top the scoring, twelve players of varying abilities saw action for Varsity. On several occassions scoring sprees were stopped so that the more inexperienced players could see action. A move of this sort just wouldn't be seen in a regular game.

Players shifted positions and worked in different strings. By so doing they were more able to feel out their true position under team playing conditions. On the whole the Varsity players put on a fine exhibition of team play. Complex passing plays were a little ragged as was to be expected, but some of the simpler plays worked to perfection

fection.

The box score shows that the players kept the ball moving as nearly every one had a hand in the scoring. And there need be little fear that those players are going to sacrifice the good of the team for their own glory by hogging the shots on the basket. In this department witness one incident we noticed near the end of the game. Jerry Morton, who had not scored all evening, broke into the clear with Bill Tettmar at his side. There was no one to beat, and Jerry could easily have cinched the shot. But he had had drilled into himthe fundamental word pass. And pass he did. Tettmar made the basket.

There may be, and probably will be, more of these practice games with city senior teams. It is hoped that other teams will be available for the remaining Thursday evenings between now and the first Athletic Night. This is your opportunity to see the Varsity team in action before the regular exhibition game season opens. Spectators are more than welcome. More definite notice of future games will be published next week.

The Sportswoman

By Betsy Mosbaugh

LAST CALL

To-day is the deadline for entries into the fencing class. As we stated yesterday, new arrangements have been made so that any girl in the University may take up the sport. But she must have made her decision before to-day's lesson at 3:40. The only requirement is that the three dollar fee be paid to the Bursar as soon as possible.

This fee also gives swimming privileges at the L.M. pool. Since swimming classes are comparatively small this term, instruction may also be had if you want to arrange for it up at the L.M. So take advantage of what you can get, and invest a trio of smackers in the sports. Maybe you can even get your college or faculty to help you???

REMEMBER . . .

Vie's swim meet on Monday at the U.T.S. pool. All you Vie gals show your usual college spirit and enter into this meet with all the vim and vigour that you have . . . even if it's all you have to contribute. Ruth Virtue says that there's nothing pro about this "splash". It's just an unassuming affair where nothing good is expected, so take a quick dive up there Monday and try a stroke or two.

First hockey match of the season. Will be held Monday night also between 6 and 7. Vie and U.C. will chase the puck around. Such a floating flotilla aught to be worth a trip up to the arena, both for them wot has a sense of humour and for them wo are athletic-like. Our happiness concerning hockey would be consumate if practices could be arranged other than the afternoon or noon hour. If the Varsity Arena is filled up so that night practices could not be held, then we suggest a try-out during the dinner hour. Surely no one will have engaged the rink at that hour. Or will they?

Elegibility slips for hockey players. If you haven't obtained this slip, and intend to play, remember that you may be the cause of the disqualification of your team. The forms may be picked up at the S.A.C. Office or from your team manager. The examination at Hoskin takes only a moment. Take your choice!

Bowling tourneys will soon begin. So get your teams doing their daily double. U.C. plans to have inter-house matches between Falconer, Cody and Mulock denizens. St. Mike's is also thinking of climination rounds. University cards at the Midtown are good only in the afternoons and not at nights.

Discusses Future of the Social Sciences, Their Advancement and Their Relation to the Universities

STRESSES POLITICS

Professor H. A. Innis, Head of the Department of Political Economy, stated in a public lecture Friday afternoon that the universities must deny the noon that the universities must deny the finality of any of the conclusions of the social sciences. Giving the inaugural address in the series on "Trends in Canadian Life," he discussed present-day possibilities for the social sciences, their advancement and their relationship to the universities.

The universities he stated must re-

The universities, he stated, must re-The universities, he stated, must resist the extreme tendencies of modern civilization shown in the rise of the modern state and the tyranny of opinion. The extreme specialization in the social sciences resulting from the demands of bureaurcacies is threatening the influence of the universities in their historical scale act stabilization featural. historical role as stabilizing factors in civilization.

Prof. Innis traced the history of

Prof. Innis traced the history of Western civilization indicating the cir-cumstances which have been favorable to the growth of freedom and with that the spread of learning. The rise of the Department of Civil Engineering, in an address to the International Affairs Society this afternoon at 4:30 in the Women's Union.

Prof. Leggett believes that Canada's northern possessions will have a great effect on her future position in relation to the other countries of the world. In commenting on his speech Prof. Leggett said that be thought the members of the Society might well interest themselves in this aspect of Canada's future.
Having worked for the Hudson's Bay Company himself, Prof. Leggett knows

The achievements of the 19th century

The achievements of the 19th century included the revival of learning in England and the United States, but the end of the century saw the clouds which became the tyranny of opinion, he con-tinued, pointing out that on the North American continent opinion has oc-cupied an even stronger position than in England. Precisely because of the character of its commercial civilization the Anglo-Saxon community, especially in North America, has linked trade to

opinion.

Dr. Innis stressed the influence which politics have come to have on the social sciences, pointing out that this has been striking since the depression and the war. The demands of parties have compelled a liquidation of the prestige of learning in the social sciences, universities have become reserve pools of labor to supply political parties during periods of crisis.

The increasing power of the state has (Continued on page 3)

Five Night Stand

You may well expect the sports department of this paper to praise and point with pride at the prime socio-athletic achievement of their department when Mac McCutcheon announces to the campus that the new series of Athletic Nights is being planned, and while it may not be strictly in our department we would like to add that any praise they may be pleased to bestow upon this unique institution will be heartily supported as the official opinion of this paper and not merely that of the by-line writer who signs it.

Not only are these affairs a boon to the sport and

social minded of the campus and their chronically slim purse, they also, a point frequently overlooked, constitute the source of a large contribution to patriotic and charitable funds as all the proceeds minus very small administrative costs, are disposed of in this way. Although the admission charge is low, the numbers attending are high, and while somewhat of a crush generally results, people seem to like the programs so well that an increasing number attend each one and the committee are usually found trying to devise schemes of limiting attendance Apparently so far matters are on a come one come all

For the benefit of those who are new around here we might explain that the program each evening is divided into two parts, sports and dancing. There are various kinds of sports available for watching, and milder sorts in the form of table-tennis, quoits and whatnot are available for the eager, but not too energetic participant. The dancing is divided into two classes, "round" in the lower gym for jitterbug, or starduster, and "square" in the upper one for the eupeptic individual who has not been worn out by watching others exert themselves. The latter, while strenuous as it is danced at this University, becomes more and more popular and we have a growing characterized by incisive bowing and vigorous fingersuspicion that the people who are dancing downstairs at any time will be found to be made up 99 per cent of those who have been square dancing and a larger and a larger of the square dancing dancing

resting up for another set.

The Athletic Directorate deserves a vote of thanks from the whole of the University for perpetuating this fine, four - year - old tradition of fun and informality.

Ottawa Calling

A Canadian University Press Feature

By Neil MacDonald

UNITED STATES LEGISLATION

The message by the President of the United States to Congress, recommending certain legislation, i being closely studied here in Ottawa for its possible repercussions on the Canadian war effort. Roosevelt suggested five points: a National Selective Service Act, a "realist" tax law, a "cost of food" law, the re-enactment of the economic Stabilization Act, and a continuation of the law permitting renegotiation of war contracts.

The National Selective Service Act, to "make available for war production or for any other essential

services every able-bodied adult in the nation," is necessary, according to the President, because 1944 will be the year when the United States must put forward its greatest effort towards the defeat of the More war material than ever before must be manufactured if a speedy victory is to be assured and American blood saved.

It is only a short time since it was officially announced that cancellation of Canadian war contracts would release 100,000 Canadians from their present employment by next June. Unlike the United States, Canada has admittedly reach the peak of her war production and it would be uneconomical to attempt to switch over production to other war material at this late date. It is to be hoped, however, that there is no intention of allowing war production to slacken in intensity, because, as Mr. Roosevelt said, this is the decisive year.

More important, as far as Canadians are concerned personally, are the three points which aim at stabilization of home front economics. Canada's price control structure has worked as well as it admittedly has, because, among other reasons, it has not been subjected to any severe pressure from the south. These pressures are gathering, however, and, if they should break away, by the removal of safeguards already existing in the States, or a refusal to enact further legislation, Canada will find it well-nigh impossible to hold down living costs. The United States is almost certainly going to have to go farther into the field of subsidizing the essentials of life; Canada has found the system practicable, and, even at a cost of three millions a month, less expensive

To the historian, the final request of the President may well appear the most important. The United States government has made it a policy to review from time to time the operation of the various war contracts to which it was a party. In many cases it has been found that the cost of manufacturing the material of the contract has dropped considerably through refinements in production, or sheer malestimation of its cost on a mass production basis These contracts have been renegotiated with a resaving to the U.S. taxpayer. As Mr. Roosevelt stated, his government is out to see to it that no one shall profit by this war.

For purposes of comparison, it may be noted that Canada has not found it necessary to renegotiate any of its war contrasts (as far as this writer has been able to escertain). Investigations which have been conducted have apparently not made such action

Bowing Without Scraping

Hart House Concert

Miss Zara Nelsova, 'cellist, played a program of uperlative beauty in the Great Hall last night. Possessed of amazing technical resources, parable, I would hazard, to those of the celebrated Mme. Suggia, Miss Nelsova has also a refinement of tone and musical insight that was seen to advantage in Bocherini's Sonata in A Major.

with something left over that you might label sheer pleasure in the playing of such music.

More popular fare was the Intermezzo of Granados, done with Hibernian lilt, while Miss Nelsova's transcription of Chopin's Mazurka in A Minor was a tour-de-force of mood and interpretation. Sarasate's Zapateado had everything it takes and then some. Mr. Barkin's lyrical accompaniment was all part of the magic.

Platitude though it be, it does no harm to re-asseverate the great good fortune of the student body in being privileged to attend concerts of the quality that has distinguished those of this season. With charity to the committee, one doubts if the audience will again hear a program of the unvarying excellence of that of last night.

CHAPTER SEVEN

Three men and three women sat round a table groaning with sumptuous riands. Tall candles shone on their faces with a lazy light. The man at the head of the table, whose imperious eye, lantern-jaw, gleaming shirt-front, tawny leonine locks, and ponderous phraseology impelled respect, was known to the rest as Baron von Qump. We know better, reader. We know him of old—as "Q," King Spy!

"Un zo," boomed a monocled villian, we haff struck a mortal blow at ze physique uf ze allies? Haff ve not, von

"We have succeeded," rasped "Q."
"Larkin is no more. Neither is Zwillhard. As for Gilhooley, we have him in our grasp. P.T. is at a standstill; with no push-ups, no rope-climbs, no seven-minute miles around the gruelling track, the men will grow softer and softer.

"Und zen," burst in the the monocled

Und zen," burst in the the monocled villian, barely suppressing his excitement. "Und zen ve sholl vin der var!"
"Not so fast, "Q" raised a cautioning hand. "I have reason to believe that McGeech is on our trail."
Five hushed voices echoed, "Mc-

"But I have taken steps. The trail he will follow shall be false. We shall lure him to the Hart House carillon tower and bind him in a trice to the biggest bell; and at the next recital, when the key is pressed and the hammer descends on that bell . . .'

"Sqush!" said the monocled villian expressively.

"Precisely. He shall be squshed!" "But how shall we lure him there?" "Gilhooley shall be our tool," hissed Q." "Ring for more wine!"

The butler straggled in, glassy-eyed, trance-like, bearing goblets. There could be no mistaking that pachydermous ponderosity.

"Why," cried one of the women, "our

butler is Gilhooley!"

"Gilhooley buttles," assented "The hypnotic powers of our friend von Schnitzenschnatz persist unabated." Then he turned to the unhappy hyp-notized Warden. "Write as I dictate,

And he dictated the note that was to lure McGeech to a squshing doom.

But all this time McGeech was closer than they knew. Had they opened the wine-cellar door they would have found crumpled behind it the stunned body of their colleague von Schinteraschatz; and then they would have been rightly suspicious of the third man at their table.

But they did not look and they did not suspect. For even now after all those years of almost intimate conflict they underestimated the mighty brain whose every move they vainly sought to checkmate.

How has McGeech so quickly pene-troted to the heort of this dirty dark deed? How will the hopless Gilhooley be rescued from bondage? Don't miss CHAPTER EIGHT

The Sportswoman

By Peggy Graeb

Today's column is addressed to all those hordes of people who, when asked, told us, no they wouldn't play hockey; no. they weren't going in for fencing, bowling or swimming—that they were going to wait for VOLLEYBALL.

Well, it's here. So let's see you do your stuff. Doris Hibbard, III P.H.E., is taking charge of the game and plans to get things under way the early part of this week. Take it away, gals. This is what you've been waiting for. Chalk up your name and give volleyball a real run this year!

And that's an "A" and not an "O"!! Anyway, it's a battle we promise you at the hockey game tonight . . . and we don't mean fight. Vic and U.C.'s number one team pair off at 6 p.m. at Little Vic rink. There'll be the old veterans of last year back on both teams, so that all in all this game will really be a fast one. Incidentally, do you know that a gang of enthusiastic spectators makes a big difference in a team's morale??? So come on, you hockey fans, and help your college win!

The above pearls of wisdom were droped by U.C.'s hard-working athletic rep, Peggy Graeb. Unfortunately her pearls are not of the synthetic type and consequently are few and far between. And thus lamenting this fact we continue on in a hockey vien.

We were the recipients of a very outraged phone call on Saturday night. It would seem that the head of hockey, Shirley Pearse, accuses us of vile, horrid misrepresentations in our fireside hockey chats. It would seem that this year IS NOT the first year of afternoon hockey games! tsk! And it would seem that we simply must stop this inane chatter about trying to get the Arena at times other than the arranged mid-noon hour on accounta because the arena is mostly filled up at any other time!

any other time!

But it would also seem that the schedule has now been arranged so that 22 of the games will be played at THAT convenient time of six to seven. Coronets go to Vic gals for giving up their hockey practices so that these games may be played at Little Vic rink. All this scheduling has been done so that Meds may be accommodated . . . which is what we were kicking up the fuss for in the first place. No comment.

THE BEGINNING . . .

MORE STUFF BY THE ED . . .

Emmanuel and School Tops In Friday's Hockey Tilts

SCORE IS 3-0

The Emmanuel hockey team gained an easy victory over Wycliffe in the first game at Varsity arena on Friday afternoon. The first period opened quietly, but after five minutes Emmanuel's big defenseman, Edworthy, took the puck up to the Wycliffe net and scored an unassisted goal. Ed-worthy passed to Al Smith for the wormy passed to Al Smith for the second Bearcat goal. The scoring of the period ended when Stevenson netted a pass from B. Smith, making the score 3-0 for Emmanuel.

3-0 for Emmanuel.

The only penalty of the game came in the first period, a minor to Harris. Emmanuel were unable to score while they had the extra man. The features of the period were the strong defence work of Edworthy, teamed with Jones most of the time, and the offensive thrusts of Emmanuel's first line of B. Smith, Stevenson and Mould.

Let he first part of the second period

Smith, Stevenson and Mould.

In the first part of the second period Wyeliffe's first line took the offensive away from Emmanuel. Centreman Lyall scored two goals, the first from Cunningham, and the second from Cunningham and Harris. Edworthy and Jones showed some brilliant checking on these plays, but they were outnumbered. The rest of the game was very evenly matched, and the only other very evenly matched, and the only other goal scored was by Al Smith on a pass from B. Smith. The period ended with Wycliffe streaming around the Emmanuel goal, and the teams were slightly closer matched than the 4-2 score would indicate.

Edworthy shone for the winners with strong defense work throughout, and many breakaways which nearly resulted in goals. A! Smith, one of the smallest players on the ice, packed a lot of power, and scored two goals, including the one which cinched the game. Lyall deserves credit for sparking the Wycliffe drive Wycliffe—Storey, Macdonald, Wright,

Campus Airmen Bid For Hockey

MOSHER IS STAR

In the second inter-faculty game at Varsity arena on Friday afternoon, the

Varsity arena on Friday afternoon, the Knox hockey team was defeated by the S.P.S. fifths by a 3-1 score.

The first period opened with the teams taking even parts of the offensive, but after a few minutes of play Knox sent five men into the Schoolmen's end and held the play there for about half the period. The School forwards could not get a drive organized, but Morrison in goal was a stone wall to the Knox marksmen and held them scoreless despite this blitzing attack. spite this blitzing attack.

Shortly after the half-way mark Walker, on a breakaway, scored a goal from Mosher. Just after the face-off, Mosher passed to Walker for School's second goal. There was no scoring action in the rest of the period.

Much better hockey was played in the second period with Knox working to overcome the two-goal lead and School overcome the two-goal tead and school playing to hold that lead. The first goal, mid-way through the period, was the result of a neat passing play from McBride to Duke to Cunningham which put Knox on the scoreboard. School's star forward, Mosher, netted a pass from Hayman at the 15-minute mark. After this coal Vices with a service of the school of the property of the school of After this goal Knox put on a power attack, but were forced on the defensive when Reed was given a minor penalty.

Morrison, in goal, and Mosher, with a goal and two assist, were the best for School, along with Ramsey and Ballou. For Knox, Calder on defense and Cunningham on the offense were the stars.

Knox-Hall, Calder, Reed, McBride, Cunningham, Duke, Hay, Cox, Campbell, Sebben.

Well fellas, here it is! The opportunity of a lifetime, and it's free! Looking critically at our athletic program, it is very easy to see that the once popular muscle-building, body conditioner and all round favorite sport of gymnastics has become almost extinct in our University. This is due mainly to Military Training and the lack of trained or partly trained boys coming from the high schools.

During the Winter term an attempt is being made to revive this activity and hopes are running high that a great number of men will be interested in giving gymnastics a great comeback.

Let's point out the benefits derived from such an activity. Do you know that all prospective officers go through rigorous training on gym apparatus to build up their bodies? Do you know that nearly every report on the physical fitness of our troops overseas stresses the need for more body building? A common remark of all U. of T. grads from overseas is that they regret not having worked on gymnastics while students here at the University. Every man at the University is destined for the Armed Forces. This is an opportunity to get advanced instruction that you will later appreciate.

Since the activity has been comparatively inactive, experienced gymnasts are not expected, but instead the beginners and those merely interested are desired. The intentions are to have the better men under the supervision of one of the best gymnasts on the continent—Charlie Zwygard, undefeated Canadian champion for two years, who turned professional to join the staff of the University of Toronto. The beginners and less advanced student will be instructed by the Volunteer Instructors who are capable of advancing a novice to the stage where Charlie takes over.

Gymnastics sounds tough to some and monotonous to others. Let's go to the upper gym and try it out. Let's get on the parallels. How

Volunteer Instructors who are capable of advancing a novice to the stage where Charlie takes over.

Gymnastics sounds tough to some and monotonous to others. Let's go to the upper gym and try it out. Let's get on the parallels. How a about a few dips on the end! Oh, your arms are weak? Well, a y little practice will strengthen them. Then there are numerous other stunts on this piece, such as front and back dismounts, rolls and shoulder stands. Sounds hard at first but a little effort and patience will accomplish much on this piece of apparatus. Let's try the box horse now. First we will try the spring board. That's it; land on both feet and get a good bounce. The easy movements come first, then you try the vaults, front and back, and then come the harder stunts such as the neck springs. Yes, we all have to learn.

The pommell horse is next and it's a tough piece to work on, so let's do some exercises to strengthen our shoulders and wrists. We learn first how to shift our weight from hand to hand, then we try a few vaults and finally work into some springs and one or two full circles. By this time your body is starting to develop and the moves are coming easier. Well now there's the mats. Let's do a few quick rolls, a cart wheel and few head springs. Matwork is quite easy to learn. Now that you have passed the novice stage Charlie takes over. Hand stands are hard but how about learning to do one on the parallels or the horse. Then you will learn a few new tricks on the rings and finally your mibitions are realized—you learn how to do giant swings on the high bar and fly-aways, too!

As you can see, there is much to this activity, and to naster it requires only a little time and willingness to learn. In the ordinary P.T. classes the groups are too large and the time too short for a man to try the stunts he desires but this class is designed for your benefit and for your recreation.

During the Winter term gymnastic classes will be held on Monday and Thursday nights from five to six. These nights are so chosen so

student in the University.

P.T. credits will be granted upon the discretion of the instructor to those who, in his opinion, are displaying sufficient interest in this

and bring others to Christianity by the influence of his own Christian life in his everyday work.

At a fireside after the service, Miss Harriet Christie led a panel discussion with the six Toronto delegates to the recent Student Planning Conference on the World Mission of the Clurch at Wooster, Ohio. Miss Christie emphasized the fact that this conference was not merely one where resolutions were passed, but one which deeply affected the thinking and lives of those who were present.

Today at 12:30 p.m. in Room 6, University College, Prof. F. W. Dillistone will address an open meeting of the U.C. V.C.F. Students of all faculties are invited. Lunches will be available.

hither and yon with peggy bates

Doubtless imbued with all sorts of Doubtless imbued with all sorts of holiday spirit was the couple we noticed one fine evening. They had declided to race the cars across the road when the lights changed. With the green light came a mad dash, with the little lady in the lead, nosing out a flashy green sedan by a bare fraction.

This feat led her escort to comment admiringly, "My, you have a wonderful pick-up!"

Conceiled, weart he!

And yet another freshie-come-lately tale. In fact this little number was proverbially late, and began to come later and even later. Finally when she rarrived ten minutes before the eon-clusion of a lecture, the professor paused dramatically, and fixing her with a stony stare and a raised cyebrow (as only a lady prof could), drawled, "YOU should get a REFUND."

We have always held that professors have a sense of humor, no matter how perverted. There once was one of 'em that sprang a stiff exam on his student's so stiff was it that many were "finished" 'way before time was up, and handed their pars in.

He riffled through them with a solemn face, and then searched frantically in his desk, finally emerging with a Victory Loan poster which he tacked up on the board with due ceremony. In flamboyant orange letters the poster announced that "NOTHING MATTERS NOW BUT VICTORY!" VICTORY!"

And then there was that helpful co-ed who decided to turn domestic for a change. She announced that she would cook the dinner, much to the construction and dismay of the rest of the family. Poking around in the ice-box she came across a bowl of something resembling the shepherd's pie of yesterday.

Thinking, "Aha, hash for dinner," she popped it on the stove, mixing in anything else she could find for good measure. Finally it was all ready to be raten, and things were going along fairly dubiously at the table—until little-brother came down.

tairly dubousty at the table—annu frue brother came down.

He sniffed the air, looked at his plate, rushed to the refrigerator, and then howled, "Where's that dogfood I mixed yesterday!"

... Yes, guess where?

** ***

And what would life be without an absent-minded professor? This one's wife noticed him writing with a scratchy affair one day and asked him what had become of his nice birthday pen. In lugubrious accents he informed her that he had lost it the week before, and no amount of searching had uncovered its whereabouts.

Nothing daunted, the Mrs. started off Nothing daunted, the Mrs. started oil on the hunt, and came back five minutes later with the truant pen in her fist. Hubby, all awed-like, asked her where she had found it. His mystification increased when she told him that it had been in his waistocat pocket all the time, but when she narrowed it down to the left protect his face cleared.

Nickel industry. Because of the demand for tough Nickel Steel for hattleships and ordnance, its markets had expanded during the first world war. Now these war markets were gone. A few months later Canada's Nickel plants had to close down, the mines ceased

Steps were taken to transform this war industry into a great thriving peacetime industry. Scientists were set to work developing new Nickel alloys. Engineers were sent out to seck new uses for Canadian Nickel in the automotive, chemical, electrical, radio and numerous other industries. Step by step new world markets were huilt up. Within ten years the production of Nickel in Canada had far surpassed the

Today Canada's Nickel has again heen diverted to war purposes. But now this industry looks forward with confidence to the return of peace. Plans are ready to develop and expand old and new peacetime markets so that the Niekel industry may continue, through its own enterprise, to make substantial contribution to Canada's economic welfare.

Prof. R. F. Leggett Predicts Closer Russ-Canadian Unity Result Of North Expansion

Visualizes Greater Collaboration
Following Developed Air
Routes and Increased ComSet at \$7,000 munications

IN POST-WAR PERIOD

Greater collaboration between Russia and Canada in the post-war future was foreseen yesterday by Professor R. F. Leggett, of the Department of Civil

Leggett, of the Department of CVII Engineering here, in an address to the International Affairs Society. Speaking of "Canada's Northern Destiny," Prof. Leggett said that if the north hinterlands of both countries —possessing almost identical climatic and topographical conditions—were de-

countries.

He emphasized the difficulties that must be overcome in nothern Canada before the area could be greatly developed. Illustrating the factual side of his address with a map of the Mackenzie Chine Beain, the sneaker pointed out River Basin, the speaker pointed out that the Mackenzie River affords almost the sole means of access to the Northwest Territories, which from the mackens speaker pointed out that the Mackenzie River affords almost the sole means of access to the Northwest Territories, which from the means of access to the Northwest Territories, which from the means of access to the Northwest Territories, which from the means of access to the Northwest Territories, which from the means of the means

the sofe means of access to the rootal-west Territories, which form the greater part of northern Canada. Rising in the footbills of the Rockies, this river still carries 90 per cent of all freight, he said. Road-building was a necessarily expensive project because of the nature of the surroundings. Barren

the nature of the surroundings. Barren rock was here combined with a multi-tude of lakes and small rivers.

Prof. Leggett remarked that the Alaska Highway was too far south to

be of any use.
Up to 1920 the only development of any note was that made by the Hudson Bay Company and its explorers. Fur remains the main industry of the area, he said

painful, he pointed out. "But there may well be undiscovered mineral deposits which would provide the incentive necessary to open the country. This would be a transitory development, however, and would not support people," he declared.

The speaker said that the most important factor in Canada's north country expansion was the possibility of the opening of air routes between world capitals. Northern Canada lies directly in the paths of these routes, and so must become air-minded in the near future, he stated.

Shortages not Evident in "Top-Notch Display"

The Hart House Camera Committee played host to 50-odd members and their friends in the Art Gallery last night at the special showing of the 21st annual exhibition of photographs taken by members of the House. The

Herrod gave it as his considered opinion that the show as a whole was top-notch. "I don't need to mention shortages of materials and time," he went on, "because their effect simply does not appear. This work is equal to the best that was put on display in pre-war years."

Monty Simmonds, I U.C., made a significant showing, with three first Monty Simmonds, I U.C., made a significant showing, with three first prize awards and a second to his credit, as well as the K. B. Jackson cup for the best print in the Junior division. Commenting on Simmond's prize-winning St. Michael's Cathedral, Mr. Herrod praised it as "a magnificent print in which the maker has overcome a difficult technical crediter. It may fix out the control of the print of the pr cult technical problem. If any of you are inclined to think you're pretty good photographers, I suggest you try a highcontrast subject like that and see if you

can retain the detail," he added.

The genre pictures suffered as a whole from lack of concentrated interest, Mr. Herrod said. Several times he demonstrated how much could be cut out of a print without depriving it of its meaning

"But please don't take my remarks too "But please don't take my remarks too seriously," concluded Mr. Herod. "These pictures are the case for the defense. I am the prosecution. It is my job to pick flaws." He added that each viewer was his own judge, and should not dismiss any print harshly without balancing its virtues against its defeat. defects.

Speaking of the color section, Prof. A. F. Coventry pointed out that as the process was almost wholly mechanical, a color slide, however breathtaking, deserved as a rule less praise than a fine monochrome print. Several of the nne monocurrone print.

Sildes on display were instanced as pictures taken wholly to satisfy the maker's love of color, with but little regard for (Continued on page 4)

Tribute To Norway

Royalty again visits our campus this afternoon when Crown Prince Olaf of Norway receives the honorary degree of Doctor of Laws in Convocation Hall at 3:30. Prince Olaf has often visited Toronto but has never yet made a formal appearance at the University. We would commend the decision of the Senate of the University to confer upon him this highest honor the University is capable of bestowing. In honoring the Crown Prince of Norway they are thinking not only of the man himself but also of the fighting men and dauntless people who stand behind

Prince Olaf has made his exile home in Washington but much of his time is spent touring the various Norwegian Air Force stations scattered throughout eastern Canada. He has been known to remark on the likeness between Northern Ontario and his own Norwegian landscape. A frequent visiter to these parts before the closing of Little Norway, R.N.A.F. training base, Prince Olaf should be no stranger here this afternoon. And he should find welcoming voices among those students who have known and liked Norway's airmen.

We mention today's special convocation in these columns first to express our approbation of the Senate's choice, and secondly to urge all students who have not previously witnessed such an event to attend this afternoon's service and enjoy the impressive ceremony of the conferring of an honorary degree. It is a University affair and one which most undergraduates rarely attend. We recommend attendance at today's session; it is an enjoyable experience and one which will impress you more than ever with the dignity and solemnity of the University. It brings to the fore a side of University life which should be appreciated early in the undergraduate career but is usually never even suggested until the last day of all.

Today's convocation should be of great interest to the student body for still another reason. This afternoon will see our beloved Chancellor presiding over convocation on the eve of his 100th hirthday Since this will apparently be Sir William's only public appearance at this time it will be the student body's only chance to give a concerted expression of their esteem and good wishes.

Borrowed Statement

The problem of a woman's place in wartime has been discussed ad infinitum in every college newspaper on this continent. Every editorial column has from time to time carried its burden of argument defending the woman student for continuing her studies in a world at war. We have even essayed the subject in these columns. Among such a welter of enthusiastic if somewhat confused reasoning it was refreshing to come upon a simple, clear state ment of the case as it was presented in The Daily Californian, undergraduate organ of the University of California. Recognizing it as superior to our own efforts we won't attempt a rehash but give it to you straight.

"There are two sets of motives which influence women when they are deciding whether they

should direct their energies toward the survival of the nation or the preservation of its cultural values. One includes real, the other, false motives.

"The real motives that have convinced some women students that they should abandon liberalarts studies for immediate war service are: concern over the survival of the nation, and the conviction that only outside of the University can they make their maximum contribution to their nation. The false motive that has swayed others is fear of being thought unpatriotic if they continued in school.

The real motives that should guide the women who decide to continue their liberal education are a genuine concern for the preservation of cultural values, and a conviction that by continuing in school they can make their greatest contribution to the nation. The false, unjustifiable motive is fear of the discomfort and hardship that would attend leaving the University for service in industry, agriculture, or one of the auxiliary armed services.

'This simple, sane analysis avoids the emotional emphasis that has frequently been placed on the problem. Too often it has been attacked by contrasting life in Guadalcanal and a Berkeley sorority, concluding that college women are unjustifiiably leading soft lives while marines fight and die.

"While others are working and fighting, the women who choose the course of continuing to seek a liberal education must accept the responsibility of learning and understanding. They must sincerely strive to acquire the background knowledge that will be needed when the time comes to build the peace.

"They must remain apart from the hatreds of war. Theirs is a haven of refuge from blood and sweat, but the function of this haven is not to enable a group of young women to live comfortably while their brothers and sisters are fighting and working. Its function is to turn out people who will be ready to carry on the cultural values of our civilization; to guarantee that there will be no bankruptcy of informed, educated opinion after the war and in the years to come; to guarantee that this generation will suffer the least possible handicap in carrying out its future responsibilities because its education was cut short by a world conflagration."

Let's Not Be Shy

We have a bone to pick with certain thoughtful people about campus who do us the honor of writing Letters to the Eidtor, perfectly good letters which we would be more than happy to print in The Undergraduate Newspaper if only they were properly con-cluded with the writer's signature. As we have mentioned earlier in the year, this is the students' paper and any student has a right to make use of The Varsity for the expression of his views on current University affairs. We would be glad to print anyone's opinion on any subject, whether contrary to or in harmony with our own editorial comment.

The great difficulty involved in publishing Letters to the Editor lies in the dictum that no letter will be printed without the correspondent's name. We have received many missives since the beginning of this session which have had to go unrecognized for lack of signature. Some sought to get around us by using pseudonyms out of season. Others have given the name but requested us not to print it, for no apparent reason. We have no objection to with-holding the writer's name if he can furnish a valid reason for so doing. But if it is merely a case of overgrown shyness we demur. The most flagrant offender among our train of correspondents is the phantom who sends us errant little clips of paper having no apparent source or connection with reality. It is a disappointment to us to receive letters and then be forced to reject them for lack of a name. If your opinions are worth your writing them out and our printing them they are worth a signature.

World Premiere

Royal Alexandra Theatre

For a world premiere (before Broadway) "The House in Paris" that opened last night at the Royal Alex did itself proud. Mechanically, the play was impeccable. Aesthetically, the author left herself open for some criticism.

"The House in Paris" as a story is a psycho-(Continued on page 4)

Grave and Solemn, Cat is Honoured

Cat's Contribution to Gravity of University, to be Recognized at Special Convocation To-day; "Solemn Times"-

READ CAT AND WEEP

Gravity and solemnity will be the eynotes of this afternoon's grave and olemn ceremonies in the Hart House Pool Room as the degree of Doctor of tuff, honoris causa, is conferred on Champus J. Cat, Varsity columnist, in recognition of solemn and meritorious service to the University.

"These are solmen times," said Pres ident H. J. Dody gravely in making the official announcement yesterday, "and no one has contributed more to their gravity than Mr. Cat. He has dis-played a fitting high seriousness, and I have frequently shed tears over his olumn as I contrasted it with the un

column as I contrasted it with the un-seemly levity displayed in other portions of the paper."

Asked to expand these remarks, Dr. Dody went on: "The news columns are frequently laughable and the editorials invariably perverted and irresponsible; the very battalion orders display a perverted sense of humor; and indeed I am afraid I have often laughed the very Champus J. Cat alone has lingered lugubrious to the last. Were it not for his grave and solemn column the pape would have been banned long ago," h

confided. condided.

Tendering his heartfelt congratulations, Tangent McSlydrool, President
of the Engineering Society, declared
that the Cat has awakened Schoolmen
to a new realization of the gravity
and solemnity of their high purpose in life. "Had the Cat not so frequently drawn our beer consumption to the attention of the authorities, the brasslife. oright brew might still be unrationed. In contributing to our sobriety he has wrought us a signal service. The equation, $\alpha \approx 40$ beers!*!:&;\$)!?, omes nowhere near expressing eelings."

Similar feelings were expressed by Similar teelings were expressed by Dean Sawbones O'Scalpel of the Med-ical School. "When Doctors laugh in these times it is fatal—especially for the patient," he declared. "I shall never forget the unseemly levity with which s a young man I strangled my first epistaxis case to secure an office skeleton. But now I read Mr. Cat's invaluable column before every operaion, and my hand is solemn and steady The disinfecting quality of tears is well-known," he added.

Speaking for the Faculty of Arts. Dr. F. H. Underson, of the Philosophy Department, proposed a series of syl-logisms. "What is a Cat?" he commenced.

"A Cat is a solemn pronouncement inhabiting page 2 of The Varsity." "What are its attributes?"
"Solemnity, gravity, felinity, alco-olity."

"Precisely; these correspond to the Aristotelian divisions of the soul; if the attributes of the Cat are attributes of the soul, then the nature of the Cat therefore is not beauty goodness, goodness justice, temperance rubbish, and the Cat a Rat? Consider before you

reply, my dear Glaucon."

Informed that this seemed a non sequitur, Prof. Underson promptly exploded, beginning with his abdomen and ending with the tips of ears; thus il-lustrating the Epicurean doctrine that the stomach comes first. "That is a mimetic representation," he concluded, reappearing for a moment.

A tastefully-worded tribute from

Caesar N. Smacker, head of the Classics Caesar N. Smacker, nead of the Classics Department, commenced, "Omnis Felisis in tres partes diviso," translated "All Cat is divided into three parts—pickled, skinned, and champus." When pressed for a statement regard— (Continued on page 4)

UNDERGRADUATE LOAN FUND

Operated by the Students' Administrative Council

This fund is open to students who pay the S.A.C. fee and are in either of the final two years of their courses. The maximum loan is \$100.00. Interest is charged at 5% from date of leaving the University. Applicants will be interviewed and loans granted in January. Those receiving loans must sign a note, and a satisfactory endorser is necessary. Application forms are now available in the S.A.C. Office, Hart House.

Because of Government restrictions on the use of high-grade paper, only a limited number of copies of Torontonensis can be printed this year.

All college offices, libraries, fraternities, etc., wishing to purchase copies are asked to place an order with the Students' Administrative Council Office before January 31st.

S.P.S. Sprinters Outspeed Vic In Three-Man Relay

School Nabs First and Second Places as Victoria Toddles Across the Line in the Third

U.C. FOURTH

On the Hart House track yesterday S.P.S. ran off with first and second places, while Vie came in a poor third. The event was the three-man relay team, with number one running a single lap, the next going two and the last man covering three laps. The best time of 2.0.6 will be the mark of the teams on today's card which is a continuation of the event.

Sport in Short

The first School team, comprised of Lorimer, Frank Fordyce and Wally Brown, set the pace but were followed very closely by the second trio of Watts, Wilcox and Kerr who clocked the

Wilcox and Kerr who clocked the course in 2.0.9.

Wheeler, Herlick and Hichiki copped third spot for Victoria by running the distance in 2.2.8, this being only a fraction faster that that of the fourth place U.C. threesome. Fifth place went to Trinity while the second team from U.C. took sixth money.

Some 144 runners comprised the 48 teams and that, according to track officials, made the event one of the biggest to date. School turned out over 20 teams, sending their stock in the T. A. Reed Trophy hunt into rapid ascent.

Reed Trophy hunt into rapid ascent.

The teams that will be out today are not known in full but the crack Med trio of Wilford, Fielding and Lewis are due to put in their appearance.

Dent Hoopsters Trounce P.H.E.

Featuring a spirited second-half drive that turned the game into a rout, Dent B trounced P.H.E. II to the tune of 52-17 in the basketball game played

yesterday.

The first half progressed on fairly even terms until the Drillers netted four straight baskets in the last minutes of play to give them a substantial 26-15

play to give them a substantial 26-15 margin.

Led by Whitely and Patzalek, Dents completely dominated the play in the latter part of the game. The P.H.E. team looked bewildered at times as the ball was wisked smoothly around them. Scoring was well distributed among the five Dent players. Patzalek led the pack with 16 points to his credit, followed by Whitely with 14, Rife with ten, Marshall with eight and Tytaneck with four.

with four.
Polos led the P.H.E. attack, gaining Polos led the P.H.E. attack, gaining seven points. Law with four and Mc-Laren, Mathews and Staley with two each, were the other scorers.

Dents B — Whitley, Marshall, Patzalek, Tytaneck and Rife.

SPORT AT CANADIAN COLLEGES...

With Athletic Nigits well on their way, it would be well to look over some of the other Canadian universities and their efforts and achievements. While the local efforts are not quite as feeble as they first seem to the naked eye, activities of the other homes of education put our Varsity sports effort to shame.

Out from the wild and woolly west comes Bill Clark from Alberta with the following cheerful little earfull. "What are the prospects of a baskethall series with Saskatchewan? Local university authorities make it plain that a trip to Saskatchewan? scoming here. Bud Carson, president of the Men's Athletic Board at Saskatchewan, was confident that the series could be arranged if Alberta would post a suitable guarantee."

From this far off horizon, it appears that the powers-that-be are more lax at Saskatchewan than at most colleges in allowing their team to travel to Edmonton. Whether this is an about-face or whether this has been the policy of that university, we do not know. But it does seem to press home the fact that public opinion cannot be totally against intercollegiate games in the west.

Closer to home, Bill Gorrell of Queen's writes: "There has been a great deal of discussion lately for and against the renewal of intercollegiate sports. To be sure, everybody would like to see some good senior rugby or hockey, but nobody seems to have done much about it. Why were intercollegiate sports stopped? There were several reasons for this decision—lack of talent, public opinion, and the difficulty of travelling under wartime conditions. But the universities were not long in finding some substitute for this loss of competition. Our own Tricolor squads play in local rugby and hockey leagues against service teams.

Little need be added to that concise explanation.

At that little known University near London, a football machine

cutty of travelling under wartime conditions. But the universities were not long in finding some substitute for this loss of competition, lour own Tricolor squads play in local rugby and hockey leagues against service teams."

Little need be added to that concise explanation.

At that little known University near London, a football machine named the Mustangs, under the famed Johnny Metras, ran through a difficult series of exhibition games to suffer but a single defeat. This set-back was at the hands of H.M.C.S. York, who are due to display their wares on the local campus. Our secret agents at that university inform us that basketball games have been arranged with leading teams around that neck of the woods. In fact Assumption Raiders fell before the onslaught of the Mustangs by a 36-27 count in Western's first public outing.

Out McGill way, the Redmen are proud occupants of a berth in the National Defence Hockey League and, with the last statistics, were tited with Army for third place in the four-team loop. Earlier in the season, McGill held an entry in the Q.R.F.U. and, surprisingly enough, far surpassed our wildest dreams or hopes by more than holding their own in that tough league.

At present, the Redmen also boast of an entry in the Montreal Senior Basketball League and swing into the second half of the schedule today after giving a creditable account of themselves during the opening session.

Those are only a few. However, it is quite evident that most other universities have representative teams in some sort of a league or if they lack these facilities, participate in a scheduled series of exhibition games. These games give the student body a united front to cheer for and does much to foster good will and friendly feeling between the different colleges and faculties.

Most of the present crop of students have never experienced the thrill of cheering a Big Blue team on to victory over the Red and White of McGill or the Tricolor of Queens'. Most of the students have little opportunity to cheer for any B

impossibility.

Student support and clamor can do much. What do you think?

The Sportswoman

By Betsy Mosbaugh

IT WAS A TOUGH FIGHT, MAW . . .

... but they won, was the lament of U.C.'s first team as they fell off the ice and crawled into the dressing room at Little Vic rink last night. The issue, however, was undecided right up to the last few minutes of the last period, when Lenore Eunson of Vic showed one past the U.C. goalie. Jean Brandon chalked up an assist for herself on the play and thus gave Vic an edge over the Royal College.

The Red and White put up a merry old fight but couldn't quite keep tabs on the smart passing of the Vic forwards, headed by Isobel Gemmil. Nor could they check Lenore Eunson's fast skating and stick handling. But several of the Vic gals found themselves up a blind alley when they contacted the checking of Eileen Cameron of U.C. Liz Kennedy, Peg Graeb and Marg Abbott also executed some pretty fine guarding and passing for the Royal College.

SPORTS IN SHORTS . . .

... was our first thought as we saw the snazzy looking uniforms of the Vic team whip onto the ice. Much credit is due to the fine spirit of sportsmanship exhibited by the gal who refused to momentarily halt the game to repair garter trouble. She is now a charter member of the new Women's Hockey Suffrage Movement which is secretly functioning underground.

We were quite surprised at the audience that turned out . . . that is until we realized that there was an Air Force practice immediately after the game. "You fellahs ought to learn something from watching that team," commented the Air Force coach to his men. Whereupn we felt great swellings of pride. "So watch 'em closely," continued the guy, "because that's exactly what you look like." It was a good game, anyway!

FLASH! THE SPLASH!

Janet Bryce of Vie has just phoned in the results of the big "splash party" held last night at the U.T.S. pool. From all accounts the gals had an aqueous (by courtesy of onlooker) time. It was a great old success, says Janet, and from her description we can well imagine . . . what with beauteous babes baring their teeth in diving for apples; slim merimaidy figures draped in nightgowns swimming around the pool, and all sorts of things like candle relays. Yep, they must have had a wet time of it.

The winging exhibition was you by Helen Shaw and Barbara

The swimming exhibition was won by Helen Shaw and Barbara Hincheliffe. The diving laurels were taken by Lois Lloyd, Babs Hincheliffe and Joan Campbell, respectively. So, all in all, it was a good start for the competitions which are on their way up soon. Great night for Vic, eh???

shake. In this salon, however, many family problems occur and the story of a House in Paris" is Madune Fisher's efforts to unravel the problems to suit her autocratic self.

The author, Elizabeth Bowen, approached closely the French emotion and reaction in her story; and where she fell down, Miss Pitoff was there to pick her up.

Although young Alastair Kyle did a maginficent job of portraying the matter that a stooge in their due work. The assist-stooge in their due work. stooge in their duo work. The assist-ing dancers, Jack Gansert, Norma Vaslavina and Audrey Keane, able enough in a rather youthful, unfinished

aged man. To his lines, as to Pauline Robinson's lines, the author has given way, were apparently employed primuch profound connotation and it is gratingly incongruous to hear a tenyear-old bite off his lines with the clipped accents of a tired businessman. We won't say anything about You! Bryner's portrayal of Max Eblart. His acting is another moving highpoint you have to look forward to.

This is not-to-easily followed psychological markets in the stardonic Green Table school of the Story of the Bandit Queen of the Old West. The acting was a little reminiscent of old, silent chological mean-tie that makes for three western films, but that was no doubt at western films, but that was no doubt at it should be

it should be.

If this review sounds a little bilious
it's only because I didn't know quite
how to take this little pageant of
Slavenskan's. Considered simply as an
evening of dancing it was quite good entertainment; but considered as serious ballet it was, I fear, all too indicative of the confusion that at present afflicts this rapidly expanding art-form.

Pre-War Nicety

Hort House Comero Show

Nearly 100 photographs by members of the House adorn the walls of Hart House Art Gallery this week, in a show that transcends stringent shortages of time and materials to stack up well against anything peace-time exhibitors had to offer,

Monty Simmonds' grand prize print,

St. Michael's Cathedrol, triumphs over that fiercest of technical problems, dis-playing a wealth of finely-rendered detail in the great stained-glass window the altar without sacrificing shado detail in the dimmest recesses of the

The landscapes suffered as a whole from poor printing, with no significant standouts. An unusual number of baby standouts. An unusual number of baby pictures highlight the portrait division, though only one shows what most of them strive for—a genuine high-key print. Generally speaking the highest level of technical excellence is to be found in this department; Murray Wertman's Binuy-builde is a catchy subject and a magnificent print to boot, with C. Woodley's Sun Boby not far behind.

The gems of the architecture section are Simmonds' prize-winner mentioned above and R. A. J. Phillips' Yesterdoys with its splendid rendition of sunlight

are Simmonds' prize-winner mentioned above and R. A. J. Phillips' Yesterdoys with its splendid rendition of sualight streaming through the walls of an ancient barn.

P. W. Gibbs' set of six magnificent cloud effects deserves special mention, as does also R. Legget's Where the Sea Moaus for Rest that Never Comes.

The Kodachrome work reaches an unusually high level, though as always these tiny slides suffer from the display arrangements. One should try to imagine them projected to a fair size; a mental feat easier suggested than accomplished.

CHANCELLOR SECOND ENTERS

Crown Prince Of Norway Receives Honorary Degree From Chancellor Mulock

Wearing the scarlet gown of an honorary degree over his uniform of an Air Vice Marshall in the Royal Norwegian Air Force, Crown Prince Olai on Norway received the degree of an honorary Doctor of Laws at a special convocation of the University yesterday afternoon.

Sir William Mulock, Chancellor of the University, on the eve of his one hundredth birthday, conferred the degree.

hundredth birthday, conferred the degree.

In presenting the Crown Prince to the Convocation, President Cody said that the degree was being conferred on him both for his own achievements and as a representative of heroic Norway, and on accepting it the Crown Prince replied that he received it not so much for himself as he did for his country and for the University of Oslo, at which he was at one time a student.

In his address Prince Olaf related the history of the University of Oslo with its tradition of respect for freedom and truth. "Even under present conditions the University of Oslo was able to live up to these traditions," he said, telling of the Nazi indictment of students for underground activities. "They have not been loyal to the new masters of Norway," he remarked simply, adding that the Germans had not found enough Nazis among the students to mention them in an official statement.

Founded in 1812, the University of Oslo was built by the same generation

Founded in 1812, the University of Oslo was built by the same generation of men who built this university, the Crown Prince said. "Full of courage and hope for the dawn of political freedom and having respect for the individual in their hearts," he described these men.

Quoting the late President N. Burwash of Victoria College, that a university must be a real part of the nation to which it belongs, he said that the University of Oslo had truly become a part of the national life of Norway.

Going on to tell how the university was "re-organized" when the Nazis occupied the country, Prince Olaf said that the students had not allowed themoccupied the country, Prince Olat said that the students had not allowed themselves to be provoked so that the younger ones among them just starting their courses would be allowed a chance to finish. Finally, after unqualified professors had been appointed and unqualified persons admitted to lectures as students because they had the right political faith, the Nazis' opportunity came in the fall of 1943. Students and teachers alike were arrested and were told that, "having abused the rights the Germans had given them, they would be sent to concentration camps 'for their own protection."

"There is no room for neutrality in Europe," stated Prince Olaf; "you are either for or against the new order. These students managed to prove to the world that freedom is worth fighting for because it is worth dying for."

In conclusion the Prince expressed his gratitude for the assistance his country had been given, saying that he hoped after the war this would prove a foundation for international respect and co-operation. The war has brought one improvement to the world, he said—"the true perspective of individual freedom and of individual rights and duties towards each other."

The Crown Prince and Princess Martha, accompanied by their staff, were met by President Cody before the ceremony at the steps of Convocation Hall. The Royal Canadian Air Force Band played for their arrival.

Several members of the Norwegian air force were in the audience as invited

When the party had entered the hall and taken their seats on the platform, the Canadian and Nerwegian National Anthems were played on the organ by Dr. Healey Willan. Convocation was opened with a short prayer by Provost F. H. Cosgrave.

P. H. Cosgrave.

Princess Martha, wearing a black Persian lamb coat, smart black hat and carrying a bouquet of red roses, accompanied the Crown Prince to the platform. He was also accompanied by his aide, Lieut. Col. N. R. Ostgaard, Capt. O. Omejer, Norwegian consul, and Col. O. Reistad, Commanding Officer of Little Bergen. Also present on the platform, in addition to the Senate and members of the Board of Governors, were Lieutenant Governor Albert Matthows, Mayor Conboy, the Hon. George Drew and representatives of the armed forces.

Following the ceremony a reception was held at Hart Honse in honor of the Prince and Princess.

After conferring the Honorary Doctor of Laws degree on Crown Prince Olof of Norway (left), Choucellor Sir William Mulock ond President Cody pouse for a chot in the Choucellor's office.

Sir William Reminisces To Attend Reception About Undergrad Days

By George Elliott

On the eve of his one hundredth birthday, Sir William Mulock-Chancellor of the University of Toronto-was both reminiscent of the past and thoughtful of the present as he talked with The Varsity's representative,

A gleam came to Sir William's eyes when he was reminded of his signature on a window-pane of Room 40 of University College written with a diamond. "Oh yes, that must have been when I first entered the University as a resident in 1859. The west wing of the College was opened up as a residence for the first time in September of that year and I was one of the first boarders.'

Recreation 80 years ago was not as plentiful or varied as it is today, according to Sir William. "Association football was the chief source of relaxation in my undergraduate days," he said. "Many's source of relaxation in my undergraduate days," he said. "Many's the game of football I've played in the park where the Parliament buildings are now." Sir William was, at this point, scornful of the present day football. "Modern rugby is a brutal game," he said, "but there was great pleasure taken out of Association football in the old days." He became enthusiastic and, laughing, said, "Oh boy . . I developed quite a perspiration at times." He dwelt at length on the differences between Association football and modern rugby and said that the old game "was much more difficult."

Here, the conversation got around to politics and Sir William

Favorite anecdote to tell, often of something be said to her personally. Two parts ago at a special visit made to Hutton House, he thrilled everyone present by reciting from memory the whole of Lincoln's Gettysburg speech. The same year Sir William presonally presented all the girls in residences with small nickel-plated plaques bearing the quotation he uses as his motto. It appears on the plaque thus:

Here, the conversation got around to politics and Sir William said that during the years leading up to Confederation of Canada, he took quite an interest in public life. "I was a little older than the other students . . . rather more advanced. I had to take an interest in public service and activities because my father died when I was very young and I had to act as the father in my family."

Talking about the University Act that signalled the founding of Washington—Government-seized rail-way lines were ordered returned to their owners as railroad wage dispute was services rendered by the University. What the scholars have done, I

Mulock House Past Scene Of Receptions

Ever since the opening of Mulock House, Whitney Hall, 12 years ago, Sir William Mulock has made an annual visit to his name-sake residence. This year an invitation has been extended to year an invitation has been extended to lim on behalf of the residents by Miss Marion Ferguson, University College Dean of Women, to a reception in his honor to be held shortly. Until recently, the occasion for Sir William's visit was Christmas dinner,

after which he would always attend the Dean of Women's carol singing party, held in the Women's Union for professor's children. Last year he came to a tea held in his honor in Mulock House, attended by girls from all the University College women's residences. When the refreshments had been served and "his girls," as he likes to call them, were grouped around him, the Chancellor reminisced about the growth of the University in whose history he has played such a large part while his chauffeur waited patiently at the door.

Every girl who has attended one of these parties for Sir William has a favorite anecdote to tell, often of some-thing be said to her personally. Two

"I shall pass through this world but ouce; ony good thing therefore that I can do or any kinduces that I can show to any human being, let me do it now, let use not defer it, or neglect it, for I shall not pass this way again."

The First Hundred

It is with great pleasure and not a little curiosity that The Varsity greets and congratulates the Chancellor of the University on the completion of his first century. Our pleasure on this occasion needs no explanation. Our curiosity is aroused by the application of an old saying to the field of vital statistics. It is frequently said that the first hundred of anything are the hardest, and we would like to ask Sir William Mulock after he has proceeded a is true of the first hundred years.

Sir William has had the rare experience of living to a practically ageless age. Twenty-two years after the close of the Biblical span of his life he was still active in public life. At that time he "retired" and has successfully overcome the problem that usually besets the superannuated, that of learning what to do with his spare time. At his retirement he did not withdraw from his duties as Chancellor of the University, in which position he is best known to all the undergraduates and a large number of graduates of the University.

The Chancellorship, however, is merely a culmination of a series of offices which he has held in the University, and the high point of 85 years of association with his Alma Mater. In his intimate association with the University over a period which encompasses the bulk of its lifetime and the principle developments of its organization, Sir William has shown himself singularly alert to the basic needs of the development of higher education in this province. Although he first appears on public record as the author of a motion of censure against the precursors of Federation 81 years ago, more mature consideration turned him to the support of the plan, and he has lived to see the substantial fruits of his support.

Sir William, with his snow white beard and kindly mein, has become a symbol of the University and at the same time an object of affection for his own personality. Implicit in undergraduate wishes for his continued good health and many friutful years of life has been the sincere hope that when graduation day came around it would be Sir William's confident hands which would symbolize the bestowal of the coveted degree. Graduates who have received the degree and one of his kindly patriarchal smiles from him mark the occasion as one of life's most memorable experiences.

Sir William's stamina on those warm June days when he officiates at commencement exercises is something which causes awe amongst the younger participants who find the length of the ceremonies (such as the Arts Convocation of last June when he admitted no less than 800 students to the degree of bachelor of arts, among them his own great-great-

grandson) scarely bearable.

The attainment of great age is sometimes belittled, but we cannot help but admire Sir William for his feat in completing his first hundred years. Great age might not seem remarkable in a coddled vegetable, or laboratory animal, but in a man who has led a strenuous life in which read work began as a farm lad and did not cease until the age of 92, whose career has partly lain in the rough-and-tumble of the

century mark is a cause for special esteem and admiration. Sir William has proved the adage that in doing one task we fit ourselves to do more and has been rewarded by a "retirement" in which the inevitable clashes and envies of an active life have been quite forgotten and the personality and geniality of the man has been allowed to shine forth and gain ts return in affection, reverence and respect.

It is unfortunate that it has not seemed advisable to have a real public celebration of this remarkable birthday at this time, but the Class of '44, at least will merely consider it postponed and will look for-ward to celebrating fittingly in June.

Circle, Not Cipher

The family circle has been so much neglected as an element in post-war planning as to have seemed to be rated as a cipher. The House of Lords was wakened out of its advanced thoughts on material bases of the post-war world recently by an urgent plea from Lord Elton to make family life the cornerstone of the Britain of the future. He charged present planners with overemphasizing material comfort. Setting comfort, economic security, and a higher standard of living as important to the task ahead, but constituting only an element, he reminded the Lords that family life was the very basis of civilization.

This fundamental fact, which sounds like a rhetorical figure out of a 50-year-old political speech is one which is consistently lost sight of in our time The planners and politicians have come to view men and women as statistical figures and the effect of pre-war literature and early events of the war have been such as to foster the idea of a society of individuals who owe no allegiance to any group smaller than the state and, in the case of the novelist's impression, precious little to that. The re-awakening of an idea of the importance of the family will have little effect on the general nature of post-war plan-ning, but it indicates a return to a sounder point of view which has for some time found representation only in the minds of social workers in intimate little distance into his second century whether this practical contact with the detailed problems of society

Great discoveries have been made in this war in the possibilities of organized play, nurseries, mass feeding and so on in helping the individual to develop and be sustained, but nothing short of the wellbalanced and integrated family circle can produce the individual whose qualities are best developed to the service of society, the state and the wider family of nations.

It is to be hoped that Lord Elton's charge to his peers is a sign of an increased emphasis in planning on the development not merely of well-housed, healthy, well-clothed and well-fed individuals, but of responsible members of society who are such because they have learned first of all to be responsible and contributing members of a family headed by welladjusted and intelligent parents. Such plans will put increased emphasis on such agencies and institutions as tend to produce and encourage the best conditions in the family. Let it not be thought that because we have been able temporarily to disperse the family, that its various units can permanently remain productive if they are dealt out under the jurisdiction of various parts of the state.

Religious Epic

Massey Hall

The outstanding work on last night's program by the Toronto Symphony Orchestra in conjunction Mendelssohn Choir conducted by Sir Ernest MacMillan was Dr. E. J. Pratt's narrative poem Brebuef and His Brethren set to music by Dr. Healey Willan. The composition which is not completely new to the Toronto audience is of such a nature that it would undoubtedly improve with subsequent hearings. The tremendous emotional impetus of the opening chorus returned intermittently throughout. The music which overemphasized the liturgical side of the poem was felt to be lacking in powerful description of the wild Canadian scene. The choir negotiated the difficult chromatic passages with dexterity, while Ivor Lewis as Narrator and Professor Dale of U.C. who portrayed Brebuef entered into the spirit of the poem and the music.

Next in importance was Vaughan Williams' Benedicite with Frances James as soprano soloist. This found the choir not in as good form as it was career has partly lain in the rough-and-tumble of the in the other numbers. However the stirring music politics of a growing nation, the attainment of the was the most intellectual on the program and

Oh well, it isn't every day a fellow gets a LLD, and it isn't every day a fellow can celebrate his hundredth birthday, and it isn't every day we can get out of writing a column; so, carry on, Sir William and Prince Olaf... you two guys can have this Issue.

admirably sustained the emotional con-

admirably sustained the endoublan con-tent of the words.

Before the Paling of the Stars, writ-ten by Banjamin Dale, a prominent English composer of the early 20th century, was not suitable to the words but would have been adequate in itself as a musical entity, integrating choice

and orchestra.

The symphonic poem, Death and Transfiguration, by Richard Strauss, which is strictly program music of the pictorial type, was satisfying in its interpretation of the death struggles and final triumph of Man over Death.

ELIZABETH HOPPER

"Meet The Navy"

Victoria Theatre

Well on into its second week is the Canadian Navy show at the Victoria Theatre, and playing to packed houses, if last night was any criterion. This is a peppy revue, springled with

singable tunes, and turned out with profesional finish. It is quite obvious that a goodly portion of the cast have trod the boards lustily in a previous incarnation, or at least in civilian life.
The opening chorus of Sailors and
Wrens in tropical white, high-step with a precision and verve nigh unto perfec-tion. Women at War is a hilarious skit about the domestic troubles of the leftat-home male, played to the lugubrious peak by John Pratt. Phyllis Hudson contributes an uproarious interlude as the pusser Wren P.O.

the pusser Wren P.O.
A quartet of tap artists, Cross,
Malenfant, Taylor and Sheridan, do a
smart routine, each striving to excell
the other, after some excellent precision
ensemble. Blanche Harris and Alan
Lund make a graceful and expert adagio to, while Ivan Romanoff and his alalaika orchestra and chorus provide note of slavic artistry in color and

John Pratt's inimitable dead-pan ores in his patter song You'll get used to it, for which the audience hailed him back repeatedly and deservedly. He has a rare comic gift, this one. The climax of Act I, a tribute to the three services,

of Act I, a tribute to the three services, was Bruther-in-drunts, ump by Malenfant, Ringham and Carell.

Summonded back after intermission by the shrill tones of a pussers budger, the audience was treated to Beauty on Duty, said Beauty being impersonated by the Versatile Blanche Harris. The threesome of Pratt, Goodier and Murton gave out with the inside stuff Ou Shore Leave; their leers said more than their lyrics. Sea Chanties by Oscar Natzke lyrics. Sea Chanties by Oscar Natzke and his Shipmates were a memorable Shenandoah, done in exactly the right mood. For pure melodrama of the burr-luddier sort, we recommend Munity on the Bounty, in which Cameron Grant does a fascimile of the breast-beating Bligh and the action finishes (like the apocryphal Spanish tragedy) with but the protagonist on the stage.

Mr. Cameron's later monologue about
M. Blow of Quebec—32h'8 of Camp Borden-caught the popular funny-bone rith a vengeance.

Orchids to Eric Wild for his intel-

ligent direction of a 40-piece orchestra, always in good taste, right in tempo.

of the game. With five goals under his belt he deserves that title. He with four goals, Nesbitt with one goal, and Bremner with two goals at the end of the first period made things look

pretty black for Vic with its two goals.

As a matter of fact there was a general air of gloom over the Vic end after the fairly even beginning. Nesbitt had scored one beautiful goal and Cooper, a star Vicite, had cancelled that by procuring the first goal for his side.
From there on the U.C. team took over.
Those red and white stripes could be seen flitting down the ice and huddling around Vie's goal. Bert Moriartey, goalie for Victoria, was unable to block all those swift passes that came his way to be the passes that came his 5 FOR \$1.00 his part.

Incre were a rew long shous have U.C.-wards by Cooper, Fullerton and O'Malley principally, but only two goals resulted—both thanks to Cooper. U.C. had much the better advantage with the specdier players. Vic was trying but just couldn't equal the other boys when it came to haste. Standouts for the Red and White team were Nesbitt, Wade, Graham, Warren and Bremner.

Brenner.

However, in the second half ye olde Scarlet and Gold started to pick up, giving a stiffer fight to U.C. The puck travelled from one side of the cushion to the other with some rather nice passing on the parts of Fullerton and O'Malley. Goalle Skinner found things becoming more interesting, but it was not until near the end of the period that he let the puck through. period that he let the puck through. Cooper was responsible for this goal too, taking a clean pass from McLean. However, the score had already been jacked up to eight for U.C. by Warren's

WEST TELLS EAST . . . BUT GOOD . . .

We wondered what on earth to talk about, since very limited indeed is our knowledge of collegiate sport. So we have decided to reminisce. And reminisce we will, about the good old days that we spent in the good old West. Many Westerners will notice that, although Toronto is a very fine sports town, it cannot equal the phenomenal interest that is taken in sports of all kinds in western cities We know all about Winnipeg and we think it applies equally to Calgary and Regina. So hearken, you lads and lassies of the prairies, to the tales of mighty names in sport.

To Calgary and Regina. So hearken, you lads and lasses of the prairies, to the tales of mighty names in sport.

Remember 1935? That could mean only one thing to a Winnipegger, Winnipeg versus Hamilton, the Grey Cup for the West, and Fritzie Hanson. From '35 to '41 Hanson's prancin' was the pride of the Blue Bombers and the dread of all other teams, even the Argonauts. They thought enough of him to assign half a team to cover him on every play. Of course the western style of play helped to make rugby the game it should be, with men like Hanson, Beiber, Rezholz and Stevenson able to take advantage of superlative team co-operation and then show brilliant open-field running and line smashing. But the east made quick work of all that the West had built up in Western Football. In an effort to keep the Grey Cup games on the program, a compromise was made to make the rules of the game alike in both sections of the country. The West then had ten-yard interference in front of the line of serimmage, the East had three. So the West compromised and there were five, which might as well be three. Passing in the West was allowed from anywhere behind the line; in the east the passer had to be at least five yards behind. A compromise was made and all that had been developed through years of thought and experience was undone. But we will never forget Fritzie.

Then there were the Monarchs of 1937 who won the Junior games on the program, a compromise was made to make the rules, of the game alike in both sections of the country. The West ten had ten-yard interference in front of the line of scrimmage, the East had three. So the West compromised and there were five, which might as well be three. Passing in the West was allowed from anywhere behind the line; in the east the passer had to be at least five yards behind. A compromise was made and all that had been developed through years of thought and experience was undone. But we will never forget Fritzie.

Then there were the Monarchs of 1937 who won the Junior championship of Canada against the Sudbury-Copperchiffe Redment in the control of the line of the remember that series but Winnipeggers do. On that last Saturday aftermoon, when the fourth game of a three out of five series and the championship, the stream but Winnipeggers do. clash. What about an audience???

O.T. AND P.T. IN THE SPORTS WORLD...

O.T. and Physio athletics have developed in the past few years until the University extension courses have at last become recognized as active participants in Varsity Women's Interfaculty Sports. For three or four seasons we have just missed competing in the basketball finals despite the efforts of the P.H.E.'ers who have not only proved invaluable coaches but a great source of encouragement. We feel somewhat regretful that the greatest game of the year is over but are looking forward to the merry old battles of 1944.

The faculty was also represented in the tennis tourney this fall ... it was fun while it lasted! However, timetables and the necessity of combining operations have prevented us from qualifying for the hockey battles this year, but we intend to substitute swimming and volleyball teams. Perhaps said sports may be a bit unskillfully handled but the enthusiasm of the gals balances this defect.

Well, so much for Physio and O.T.—but we'll bet it won't be the last you'll hear from us!

lon't know; but the University is serv

ing a useful purpose."

Asked what he thought were the greatest contributions made during the war by the University in research lines. the Chancellor frowned and said. "In what lines?" We repeated the word and he frowned again. He waved a hand toward a nearby table. "That isn't the toward a nearby table. way you pronounce that word. Get that dictionary and look it up!" We looked it up and the accent is on the last syllable. "Where did you learn that pronunciation?" he asked. We put the blame on a high school teacher and Sir William nodded his head and said, "Probably . . . but don't ever use that other pronunciation. It just grates on other pronunciation. It just grates on my ears. There are too many words that are becoming Americanized. We should always use the accepted British pronunciation." He saw that we were a little uncomfortable and, punctuating his remarks with a steady index finger pointed at us, advised, "Never pass up a word you aren't sure of in your reading. I do a lot of reading now and I never pass a word. I look it up in the dictionary and learn all about in the dictionary and learn all about it. You should always have a dictionary beside you when you are reading." Then Sir William became the inter-

Then Sir William became the interviewer and we talked about journalism. Sir William spoke about the Globe founded by George Brown and chuckled heartily after he said, "Today's Globe is a lot different from Brown's Globe." He asked, "Are you planning to be a writers?" We spoke about advertising and when he heard the word, Sir Wil-liam looked over toward a corner We'd become accustomed to this and we knew that in a few moments he would bring something out of the past. "You know," he said, "there've been some very good advertisements made some very good advertisements made...

Arts and Letters Hears McEachern

Mr. R. A. McEachern, editor of the Financial Post, addressed the Medical Arts and Letters Club at Wymilwood last night on the subject of the problems which will confront Canadians in the which will confront Canadians in the transitional period between total war

and complete peace.

"The problem of conversion of in-dustry to normal peace-time operation is not the cataclysmic one that it is as not the cataclysmic one that it is often suggested to be," Mr. McEachern explained, because the tapering off process of armament production in Canada has already begun. Due to the ever-changing nature of global warfare there is already a perceptible decrease in the demand for the small arms which Canada is producing and the burden of war production has therefore shifted to

the United States.

The problem of absorbing the million and a quarter citizens now in the armed forces or in industry who would normally be at home or at school is by no means insoluble, Mr. McEachern pointed out; for if Canada could succeed in pro-viding employment for only ten per cent more people that were employed in 1939 or 20 per cent fewer than are employed at present she would enjoy unprecedented prosperity.

Canada has made substantial net gain in the war-time years; in industrial maturity she has made the advance of half a century in the skill of her workers

and the efficiency of her equipment, "Canada's war effort, an incre incredible story of achievement, has shown Ca-nadians what they can do." With intel-ligent application of the lessons learned in wartime Canada should not only survive but profit by the transition

came in?" he asked. We remembered came ut?" he asked. We remembered someone walking out of Sir William's house with a not-to-happy expression on his face. "Well, he was a reporter too, only he couldn't speak. I could hardly hear him. You have a good voice."

As we walked to the door, Sir Wil-

that this manwho had devoted his life to public service and to University duties would discuss such mundane things.

Then Sir William thought it would be wise to get back to the interview. "Have you got any more questions?"

We said we had a few more. "Fire away!" Asked if the co-educational system had any effect on a university deducation, Sir William rubbed his cheek thoughtfully for a moment. "Of course, there weren't any women at the University when I was there so I don't know anything about it." he said, "but I don't suppose they've affected it much." He smiled again and that sparkle returned to his eyes.

We had been talking for about 40 minutes and most of the profound questions were still unasked; we'd been talking about subjects that weren't connected with the original purpose of the "Tout" was incongruously sitting beside to put the first was incongruously sitting beside to put the first was incongruously sitting beside connected with the original purpose of the "Burke's Peerage"—resplendent in its "Burke's Peerage"—resplendent in its red and gold trim—rubbed its leather

100 Years-

(Continued from page 1)

Sir William was Liberal member for North York constituency from 1882 until 1905. During his career in the government of Canada he was Postgovernment of Canada he was Post-master General and introduced two cent postage within the British Empire. He was the first minister of the Department of Labor and he inaugurated the Canada-Australia Imperial Cable. Sir William was appointed chairman of the Board of Conciliation in 1907,

operators and miners at Fernie, B.C. When he was Postmaster General, he recommended Mackenzie King for the position of editor of the Labor Gazette. This was King's entrance into the public service of Canada.

Chief Justice

Chief Justice

Leaving the government in 1905, he was appointed Chief Justice of the Exchequer Division at Osgoode Hall. On July 21, 1921, he became acting Lieutenant-Governor of Ontario. With the death of Lieutenant-Governor Lionel Clarke, Mulock's administration was automatically ended. was automatically ended.

Sir William was appointed Chief Justice of Ontario in 1923 and held this oost until 1936 when he retired at the age of 92. It was then he remarked that he wanted to learn what to do in his wanted to learn what to do in his spare time

University Affiliations

He was appointed to the Senate of the University in 1873, was Vice-Chancellor from 1881 to 1910 and in April 1924 was made Chancellor of this University. He was one of the first men to grasp the idea of federation of the colleges. It was through his perseverence and his wise counsel that this was finally realized.

berseverene in this was finally realized.

Each year the College and Faculty football teams battle for the well-known Mulock Cup. Probably few students realize that this award was donated by Sir William 50 years ago in order to promote intramural sports on the realized of the promote intramural sports on the started, what was to him, a tremendous adventure when he planted 15,000 seedling black walnut trees. few years later, though he didn't have much to show for his venture, he planted 20,000 more. His foresight brought 20,000 more. him a fortune in black walnuts. In 1939 he stocked the lake on his prop-erty with 4,000 trout fingerlings and the next year was disappointed when he failed to eatch one. Sir William attributes this fact to the extremely cold winter which may have killed most of the fish.

Many prominent guests have been entertained at the Mulock farm near Aurora. Sir Wilfred Laurier, Mackenzie King and the Prince of Wales were all made welcome there. Sir William was present by invitation at the coronation of Edward VII and Queen Alexandra at Westminster Abbey in 1902.

Right to Longevity

Being born in Bond Head confers an inalienable right to longevity. Many men from the community have lived to be over 90. But calendars play no important part in Sir William's life At each birthday for the past 25 years he has been congratulated for his youthful eagerness.

In 1929, on his birthday, The Varsity titled him "Knight, Jurist and Gentleman"-a fitting tribute for this great Canadian who has served his country for more than 70 years in legal, governmental and university capacities.

Here, with Sir Willred Laurier, of whose first cabinet he is the last

A. F. of L. Representative Discusses Labor Problems: Lauds No-Strike Policy

G. Russel Harvey Emphasizes Adoption of 30-Hour Week to Combat Technological Advances in Industry

EDUCATION OF LABOR

Last night, Mr. G. Russel Harvey, Canadian Representative of the American Federation of Labor, spoke to the Engineering Physics Club in the Music Room in Hart House.

For the duration of the war, Mr. Harvey said, the A. F. of L. has pledged a no-strike policy which with the exception of a few wild-eat strikes, has been faithfully lived up to. In return for this no-strike promise, the governments have set up machinery for conciliation and arbitration which may do away with strikes in future. government has also made unions legal and any discrimination against a worker on account of his belonging to a union, is punishable by law.

"We are emerging from an era which made strikes necessary," Mr. Harvey said.

Organized labor gives the worker security and protection. Wages have en doubled and the time reduced.

Increased wages and a 30-hour week is the only solution to the unemployment which will come due to the technological advances made due to produc-tion. Organized labor also benefits the worker by giving him a sense of se-curity and protection. Future planning is based on the freedom of the individual.

individual.

The A. F. of L. has been organized as a purely economic, constructive force to raise the standard of living of the worker. New members are educated so that they have a better understanding

that they have a better understanding of their responsibilities.

In the discussion which followed the address, Mr. Harvey stressed that political or religious affiliation of labor should be avoided since any good government would pass legislation which was to the benefit of the people. These affiliations limit the membership, and unions which try to control politics defeat their own ends.

Answering the question as to whether labor would try to force employers to maintain their present personnel after the war, Mr. Harvey stated that in all A. F. of L. shops, with the exception of closed shops, the employer had the right to employ whomever he wanted.

with at least two major post-war prob-lems, Dr. E. G. Faludi said Tuesday

at the Art Gallery in his lecture on Toronto City Planning. Besides provid-ing employment for returning service-

men and men now engaged in war work, a definite system of city planning in Toronto would rectify some of the tragic effects resulting from the present policy

Mr. Edward Todd, recently returned NN. Extbora 1 and, recently resurred from Bolivia, will be the speaker at the regular missionary meeting of the V.C.F., tomorrow at 12:30 in Room 210 of the Anatomy Building. He will be showing colored slides on his work and will tell of some of the modern methods used, such as the use of an aeroslane. Linghes will be of an acroplane. Lunches will be available.

HOST OF FRIENDS FETE SIR WILLIAM

Almost 600 people passed through the larvis Street yesterday between three o'clock and six, when Sir William Milcock celebrated his 100th birthday, greeting his numerous friends at birthday tea and reception.

Among the guests were nearly all the important figures in Canada today, including Prime Minister Mackenzie King, Col. George Drew, Premier of Ontario, the Honorable Albert Mathews, Lieutenant-Gowernor of Ontario, the Honorable Albert Mathews, Lieutenant-Gowernor of Ontario, President Cody, Chancellors Brown and Wallace, and many others. In fact when our reporter innocently asked just who was there, we were advised by some one who lenve, just to mention anyone we liked and unless he was sets to stomething he was pretty sure to be present. Just after this we overhead one nice old lady remarking to her equally inclied of friend that, "Oh, there's Sir Somebody, I thought the was dead."

But no, he too was there in the lineTo hetween times we went unstairs to was there, we were advised by some one who knew, just to mention anyone we liked and unless he was sick or something he was pretty sure to be pres-ent. Just after this we overhead one nice old lady remarking to her equally nice old friend that, "Oh, there's Sir Somebody, I thought the was dead."

But, no, he too was there in the line-up waiting to shake hands with Sir Willie. This queue stretched across the central hall and through the rooms on either side, so that the people on the wrong end could not see, but only hope and guess that the worthy centenarian was at the other end of it. Assisting Sir William at the receiving line were his daughters, Mrs. H. H. O'Flynn and his daughters, Mrs. H. H. O'Flynn and Mrs. E. S. Kirlspatrick, and his sister, Mrs. C. W. Monk, who is 97. Each guest received a beautifully engraved card containing an expression of Sir William's gratitude for "my long years of happiness," and his signature. Leaving the reception room the guests was located acest incurrently bonquest.

ere jostled past innumerable bouquets of flowers, including 100 roses enscribed

received a piece.

In between times we went upstairs to see the tables full of unopened mail, all of which Sir William will acknowledge personally. Most precious of all was a telegram from His Majesty the King which went as follows: "It is with great pleasure that I send to you, the oldest member of my privy council, my heart-iest congratulations on your 100th test congratulations on your 100th birthday and on the splendid record of service to your country and to your fellow men that you have maintained throughout your long and useful life.

George R I Buckingham Palace."

Illuminated addresses from the City Council and the Alumnae Federation were also read.

McGoun Debates May be Cut

Vancouver-(CUP) - Under discus sion at present at the University of British Columbia is the proposed Conference on Post-War Development with the three other western universities of Alberta, Sasketchewan and Manitoba. One probable result of the decision to hold this conference would be the cancellation of the "McGoun Debates" which have been the previous method of meeting for the four universities. One factor which is felt to be in favor of the conference is the recent prohibition preventing the University of Alberta from entering any kind intercollegiate competition.

TOWN PLANNING SEEN AS AID IN POST-WAR PROBLEMS

took advantage of the immigration era.

The effects of Toronto's too-rapid streets.

The effects of Toronto's too-rapid streets.

The standard of living. Slums have taken root in a ring around her industrial nucleus. Vaunted as a "city of homes" Toronto is occupied 57 per cent by tenants. Parts of the city most crowded with schools are almost devoid level.

destrial nucleus. Valunder as a Cry of the common of the tragic offects resulting from the present policy of unplanned community expansion, Dr. Faludi explained.

The Toronto would rectify some of the tragic offects resulting from the present policy of unplanned community expansion, Dr. Faludi explained.

The Toronto City Planning Board's exhibit resolves itself into three main parts; past, present and future. One could, he said, not plan for a more desirable future before studying the faults of our present community and the historic trends which produce these faults.

Plans for future reforms involve historic trends which produce the faults.

Plans for future reforms involve historic trends which produce the faults.

Plans for future reforms involve facilities. Three of Toronto's cultural past, he showed for the four periods selected the costumes, mode of transportation, louising conditions and growth of the City. To demonstrate the charts, Dr. Faludi showed how the earty and will be ideal for family spaced houses had given way to smaller, more crowded tenements as speculators

Army Psychologist To Address Club

Colonel W. Line will speak to the sychology Club at Wymilwood tonight on the subject "Psychology in War." Col. Line, a former professor of Psychology at this University, is on leave of absence for the duration to act as director of personnel selection under Brigadier Brock Chisolni in the Canadian Army.

He left at the end of the 1940-41 ses sion and has not returned to the campus until now, with the exception of address to the Royal Canadian Institute last year.

He is a well-known author and teacher in several fields of Psychology.

The meeting will begin at 8:15 in the Blue Room at Wymilwood. Col. Line will have dinner with the executive of the club, including some of his former colleagues, before the meeting.

Abandonment of Feudalism in Japan Outlined in Public Lecture Series

Speaking on the subject "Japan and cent years public, with a two-fold obthe Problems of the Far East," Dr. E. H. Norman, a member of the Department of External Affairs in Ottawa, yesterday outlined the overthrow of feudalism in Japan, during the 19th century. This was the last in a series of public lectures on Factors in Contemporary History which have been given Wednesday afternoons under the auspices of the Department of History. Dr. Norman, an authority on Eastern questions, stated that although Japan was a very backward country until the

questions, stated that although Japan was a very backward country until the middle of the 19th century, since the beginning of this century, has developed an efficient government, politically, economically and militarily, being made up of one of the most homogeneous sets of bureauerats in the world. He pointed out that almost all of the high homogeneous sets of bureauerats in the world.

country. This revolution, marked by numerous civil wars, some of them quite extensive, was essentially legitimate, having been carried out by a military

bureaucracy.

In concluding his address, Dr. Nor-In concluding his address, Dr. Norman compared, very briefly, Japan, with Germany and Italy in respect to principles and practices. Japan's reaction has followed the wishes and ideals of her own leaders, and has not been influenced at all by the ideals of the Nazi and Fascist leaders. The members of the Black Dragon Society have develoned their own system of premaganda. London—A 31-mile breakthrough by the Soviet forces has smashed the resistance of the Nazi lines which have been effecting a two and a half year siege of the city of Loningrad.

San Juan, Argentina—The ruined city of San Juan was again shaken by new tremors today, endangering the lives of two remors today, endangering the lives of workmen engaged in rescue work. The city's buildings were levelled by a severe shock Saturday night last.

Toronto—Dagwood accidently smashes Blondie's green vase. Blondie is irate.

Thunder In The West

It is characteristic of this strung-out country of ours that physical distances tend to produce a psycho-logical isolation of its universities. The universities of the western provinces, while widely separated one form another, make gigantic efforts to keep in touch, and exchange functions have not quite disappeared despite the stresses of war. Two such affairs are very much in the minds of western collegians at present, and while it might be an exaggeration to suggest that a storm was being raised, there are at least clouded brows in profusion.

The question is one of Conference versus Debat-For years there has been keen competition for the McGoun Cup, symbol of western intercollegiate debating supremacy. Representatives from the universities of Manitoba, Saskatchewan, Alberta and British Columbia would be due soon, in the normal course of events, to compete for the cup, but this year the picture is complicated by the appearance of a proposed Conference on Post-War Developments with representatives of the same universities as tender at least a mild protest. participants.

The authorities at Alberta apparently would permit participation of Alberta students in the conference, but frown on the expenditure of money a mere competition. The fate of the so-far unbroken McGoun series now rests on the decision of the University of British Columbia Student Council on the question of participation, for the rules of the competition require that more than two colleges

Since neither of the other two universities feel justified in sending representatives to both, with Manitoba plumping for a conference and Saskatchewan saying they'll follow U.B.C.'s lead, the headaches of the coastal Students' Council must be manifold.

The question raised is indicative of more than extreme unhappiness in the councils of harried undergraduates, however, for the conflict now shown is between the honored traditions of forensic oratory and the precedents of parliamentary government and the growing popularity of less formal conferences of all sorts on the part of purposeful and earnest groups, both high and low and large and small.

Today we have a challenge to the pre-war love of debate for the mere sake of organized argumentation and oratorical exercise in the more earnest desire to discuss problems of general interest in an attempt to get something done about them. The indication is that people are becoming more interested in ideas than in the arts of speech. This is not to imply that there is felt any general desire to throw over parliamentary institutions and substitute a general national town meeting as the basis of the national government. But there is a lesson in the fact that students are tending to turn from formal debating which uses its subject more as a starting point for competitive argumentation than for any real value there may be in it, where sides of a question are frequently assigned arbitrarily, and are turning to conferences where the subject chosen generally ends in a question mark and the energies of all concerned are devoted to finding an answer of some sort to the question.

The cynical may have just cause for scoffing at the tendency of conferences of the more amateur sort to result in no particular material benefit to anyone Actually, though, the plethora of memoranda reports that result may be largely ignored without diminishing the actual beneficial effect of the conference. For this beneficial effect lies in the awakening of new consciousnesses and the clarifying of clouded ideas in the minds of the conferees, the effect of which is seldom seen at any one particular point in public life.

With other factors added this conference-mindedness will be felt by post-war parliaments whose members will find that their constituents will tend to expect more to be done and less to be said that was previously the case. The fine points of making political capital should tend to receive less and less

As all prognosticators do we risk going very wide of the mark here, but one thing we feel sure of: when University debating is again resumed in full strength there will be more matter and less art in it.

Correspondence

There, there . . .

The Editor, The Varsity.

Dear Sir

In one of the recent issues of The Varsity, the Champus Cat column poked gentle fun at the little known university near London and the satire was thoroughly amusing to Western graduates here.

However this verbal buffoonery, especially the qualification 'little known', reflects, it seems to me, an unfair attitude which is prevalent in the out-look of many University of Toronto students and has even taken refuge in the minds of some of the members of the faculty.

The attitude in question is perhaps most simply expressed by the quotation, "Oh, he's a Western graduate," and this phrase along with a well placed inflection leaves even the dull Western graduate with the impression that, in short, the University of Western Ontario is considered to be rather insignificant, even inferior, centre of higher educa-Of course, much of it is just friendly rivalry but enough of it reveals a sincere opinion to make the matter a thorn in the side.

It has even been rumored that the tear gassing of the press staff, however childish, was the result of the final and complete exasperation of some belittled Western graduate. Perhaps the matter is of not much consequence but it does seem in order to

Yours sincerely,

M PHIBBS.

Words And Music

Eaton Auditorium

Helmut Blume, pianist, and Anna Russel, diseuse, were presented in joint recital last night at Eaton Auditorium. A joint recital of this sort may be a good idea in some respects, but it was obvious from the audience reaction that it is hard to choose a sastifying program under the circumstances.

Mr. Blume's program, consisting of two numbers by Bramas, a Chopin Sonata, two bits of trivia from Debussy, and the Delibes Naila Waltz, is an illustration of this point. All of it seemed to be music that cannot by any means be considered profoundly serious, and moreover it seemed selected as a combination calculated to give an impression of brilliant pianism, rather than of musical understanding, which is often apparent in the performance of even the simplest pieces.

The only number that saved the program was the Brahms Intermezzo in E Flat Major, with its purity of melody. Mr. Blume's playing, however, is marred in many places, especially the heavy passages, by excessive pedalling.

Anna Russel's character sketches were generally good, but some of the gags—one can hardly call them any more than that-are pretty poor fare. acting had the merit of appearing perfectly natural, and there were a few genuinely side-splitting moments. The interludes between costume changes, however, were definitely anti-climax, to say the least, in spite of being filled with such beautiful, if frivolous, incidental music as The Robin's Return.

One thing that was extremely objectionable, how-ever, was the manner of playing the national anthem. Admittedly the tune is threadbare, but I insist it is

Goes to a Party

To fuzzy-faced, century-persisting ex-attorney Sir Willie Hillock's natal day fete, STRIFEditor Louse despatched reporter, photographer. Their instruc-tions: "The story; and show lotsa legs." Their reaction: "Imperious, he."

Centenarian Hillock's party impos-sible STRIFEstyle; les dames fully clothed, zootsuitless the men. No hot ot, this.

Hope on horizon: campus daily coeditor Kitty O'Foyle arrives on scene, timidly pays respects, produces notebook for interview. 5 feet 5, waist 22, brownfor interview. Si etc., waits 22, to waityeed, gabardine-garbed, she poses demurely for picture. Her home, Kalaklop junction; her course, Pass Ammunition; her ambition, a man; result
to date, one Category E. Like STRIFE,
thinks Toronto purblind to beauty.

In campus daily office, guys, gals smoke Players, drink cokes, pound type-writers to reel off lugubrious mirroring of semi-Victorian non-STRIFE-reading campus scene. Hacks, they, but happy.

Kitty's chum Sally, 5 ft. 8, platinum-tressed semi-charmer, contacted for interview, explains absence from Hillock interview, explains absence from Hillock fete on score of term test upcoming. Said term-test is economics, taught by beardless pundit McGinty, whose wife, 5 ft. 6, rawen-locked, 25-inch-waisted, in her own right a Ph.D. from Lower California, presses his pants nightly, furnishes limitless hot chocolate for all-night bull sessions with financial heads of infant nation. While posing for picture, she, asked for dry gin by STRIFE tographer, Gsmith, replied sweetly, "We never stock it." True Toronto-bred, she.

Leaving photographer Gsmith to rave

Leaving photographer Gsmith to rave with her about Manhattan nite-spots, mayhap sell STRIFE subscription, reporter Gjones made made dash for phonebooth, spilled into STRIFEditor's phonoperator Betty-Lou Jinks, 4 ft. 11, waist paper, proves further bright spot in dull day. May enliven STRIFE's

Back at centenarian Hillock's to-do, nothing new under sun. Useless her to linger. Back to Manhattan—life-gaiety—gals.

To STRIFEditor Louse late at night, say reporters returing from assignment, "True STRIFErs, we; story well covered, six silk-hosed pairs of legs alluring, crowd-pleasing. Should sel thrillingly, give away-from-home service-men something to dream about; morale-boosters to boot." Editor: "What of centenarian Hil-

Varsity Big Blue Hoopsters To Oppose Airmen Tonight

Team from Manning Depot

IN BIG GYM

Tonight will see the second in the series of practice exhibition basketball agames for this year's edition of the Big Blue team. Their opponents will be a team from Manning Depot.

According to Mac McCutcheon, coath of the Big Blue squad, the game

Given a Stiff Work-Out in repractice Tussle Against a tion variety but more of the practice type. Plays will be run through and juggling of the lines may be prevalent. However, the players will be given a very stiff workout and were warned not to take the tilt lightly.

The Sportswoman

IS THIS A HABIT?

or is Mosby playing me for a sucker? My theory is, and I pass it on as a warning to all possible victims of the future, that ye Ed spends her spare moments singling out persons of weak will-power and filing them away for future reference. These unlucky folk are then subjected to all manner of refined and unrefined (i.e., positively foul) torture until they succumb under the pressure. This means promotion to the rank of Easy Mark and renders you subject to call at a moment's notice. (Will Mosbaugh please subdue her fiendish chuckles to a low gurgle—this is Quiet Hour!!!)

CALLING ALL MERMAIDS

This is not to meet your mermen,—they are rationed, too. No, this is an impassioned appeal by Freddie Baxter, made to all you gals who like to quiver a fin in the water. For your benefit, a swimming meet is to be held in the Lillian Massey pool every other Friday from 4:30 to 5:30, and this Friday (to-morrow) is THE FRIDAY. This is your big chance to display your aquatic abilities, without the fate of the whole college hanging on the outcome. Take a look at what is scheduled; one of these is your meat: (did I say meet?)

Race — Breast Stroke
Style — Side Stroke
Trick — Outstretched Back Somersault
Diving — Back Dive

This is your big opportunity to get a little practice in before the college and interfaculty meets are run off.

And to conclude with a warning note: if there are not more than ten people out, these Friday meets will have to be discontinued.

IN THE SPRING ...

There is no hockey. But who would have thought Spring would come so early? Anyway, arrive it did today with watery ice and all the trimmings. Result: no U.C. II—Vic II game. The PHE I—Trinity game, having the advantage of the indoor arena (are you listening, Mosby?) was played—a close game with the score 2-0 for PHE. The PHE II—Trinity II, remains a mystery to me, no one seeming to know anything about it. Perhaps light will be shed on the matter in a future Sportswoman.

TORONTONENSIS:-

Does that send an apprehensive shudder down the spines of all you Athletic Directors, reps., and managers? Because is should—; those little notices which are appearing daily in The Varsity apply to you too, you know. May we draw attention to the deadline date? And also, we remind you that Torontonensis is streamlined this year—so get rid of all those stiffly-posed pictures against a black velvet back-drop and let's see some of the new informal pictures. Super-smooth shots for smart Sportswimmen!

All right, all right—I'm through, Mosbaugh—.

Because of Government restrictions on the use of high-grade paper, only a limited number of copies of Torontonensis can be printed this year.

All college offices, libraries, fraternities, etc., wishing to purchase copies are asked to place an order with the Students' Administrative Council Office before January 31st.

By Mickey Michasize

PRESENTING THE BIG BLUE TEAM ...

Last night, Mac McCutcheon, coach of the Big Blue basketball Last night, Mac McCutcheon, coach of the Big Blue basketball team released the team line-ups for the coming season along with the information that practice games with other city senior teams have been arranged. The first of these games comes off tonight when the local idols tackle a hand picked squad from the Manning Depot. The airmen, according to the grapevine, are in the pink of condition, as they have seen regular action against strong teams, among them, H.M.C.S. York, who will take to the floor come the first Athletic Night. Thus the airmen will by no means be pushovers, and may come up with a surprise in the form of a victory over the favorites.

To top that, another game may be in the offing before the unveiling

To top that, another game may be in the offing before the unveiling of the team at the first Athletic Night. The name of the other team has been withheld until full details are known and other arrangements completed.

Completed.

This turn in events comes as a very welcome change. Up to now, the only games, supposedly in the basketball class, have been in the Intramural League where the intentions are good, but the skill and talent otherwise. The practice tilt with York Belting a week ago, although of the scrambly variety, displayed high class ball handling and smooth passing at times and could easily be classed as the crowd pleasing variety. With a week's practice under their belts, the local basketeers should more than hold their own with any other team in

the city.

And now for the men that will carry the colors into the fray. A veteran from last year's team, Vern Booth, has the honor of carrying the large number ONE on his sweater. Booth is an experienced and dependable ball handler, and his early season form promises of more to come. Whitey Clayton comes next on the list. Clayton more than earned his place on the squad last Thursday evening by leading his team in scoring with eighteen points to his credit. A player that is equally dangerous from any position on the floor, Whitey will be a marked man during the coming games.

The larger THREE will be gracing the sweater of lanky Don Gibson

The large THREE will be gracing the sweater of lanky Don Gibson who is another old faithful held over from last year. One of the smoothest centres around this neck of the woods, Don was not dressed for the first practice game because of a badly swollen ankle. Jerry Morton is the newcomer on the line-up, but has the rail-birds talking already. Morton displayed his ware on the U.C. team last year in the Intramural schedule.

Don Pringle is back on the team after a season's absence, and is placed opposite number FIVE on the program. Joe Ryan of the Dominion Champion UBC Thunderbirds will wear the large SIX. Ryan is probably the most experienced player on the team, having played in the tough league on the west coast. "Watch Ryan" may be the password before long.

Lucky SEVEN is sported by Doug Spry, who is a second year Vic student. Then comes Stan Spooner, who has all the earmarks of an up and coming basketball star. Spooner is very tricky and a sure ball handler.

NINE is none other than Ross Sturgess, who was one of the main-stays of last years Intramural basketball champions—PHE—and who moves up to the senior squad along with a handful of his team-mates. Stu Scott, the famed football star of the Beach gridders and a member of the last Big Blue team, carries number TEN. Stu has already proved that he is as equally at home on the polished floor as he was on the gridling.

Bill Tettmarr, a speedy and trickey forward, is back for another season. Sport fans will remember the trouble the American teams had with this same Tettmarr, and the warning goes forth that Bill is a much improved player after a profitable summer. A Schoolman, Jim Turner, is the twelfth man on the team, and any Schoolman is dangerous.

dangerous.

Freshman Vandemark threw all caution to the wind in accepting
"13" as his marker. It takes more than basketball skill to do that.
Another former PHE man is Frank Watson, who rounds out the team.
Watson is the type that improves with more work and shows promise to become one of the men on the team.

These fourteen men will comprise the team. Just how many players it will be possible to dress for the games is unknown, but every man will be given ample opportunity to strut before the admiring fans.

And so tonight will see the second game of the year. If you should happen to drop into Hart House you will not go away disappointed, even though it is merely a tune-up tilt. A gallery of rowdy fans will be more than appreciated by the only Big Blue team of the year. How about it?

hither and yon

We entered the R.C.A.F. with a slightair of condescension befitting a university man mingling with the uncultured.
... We found our stock of references
to Donne, Proust and Schopenhauer
falling rather flat with the corporal, and
our system at poker which was given
us for a slight consideration by an
M. & P. man was matched by even
shrewder and more lucrative systems
which hard-bitten ex-coal miners had
doubtless learned at their mother's knee.
.. But we were supremely confident ... But we were supremely confident that our time would come, and come it did. . . At long last the sergeant called for a volunteer with a university education, and with the grave dignity called for by the occasion we put our broom aside and answered our country's call. Five minutes later the personnel of an R.C.A.F. Manning Depot was electrified by the spectacle of an airman crossing the parade square, quoting to himself some of the more delicate to himself some of the more delicate passages from Lyly's Euphines, and bear-on a shoulder that had once held the haccalaureal sheepskin the sergeant's immaculately - pressed uniform, fresh from the cleaners.

The indomitable spirit which wins wars was never more conspicuously dis-played than in a recent wireless class where eager young men in air force where eager young men in air force blue were busily engaged in tapping messages to each other on the key and endeavoring to decipher each other's erratic sending. . . One of the less proficient senders was particularly impressed by the industry of his vis-a-vis whose pencil was working at a great rate. . Finally the sender increased his speed to a point where the dots and dashes dissolver into a blur, but still the other scribbled on . . . "Gosh," said the sender, "can you really understand my sending?" . . "Nope," said the receiver, "I'm writing a letter. But keep right on sending. I need lost of practice."

We entered the R.C.A.F. with a slight | the seldom-revealed mysteries of the

superheterodyne radio received. . . . As he pondered the maze of diagramatically tangled tubes, condensers and resistors, his eyes took on a hypnotic quality and he was heard muttering something to himself. . . . "Rochestert—Comin', Mr. Benny . . ."

The R.C.A.F. is in many ways a remarkable service, but one of the ways in which it is not remarkable is in sheltering its men from the ruder occupations of life. Your civilian hothouse flower is soon attired in garbage-tinted fatigues and can be observed any morning dispensing liberal portions of the morning porridge for the nourishment of his second-best shots. . . . His cars become attuned to the indescribable sound of swill being dumped into a garbage pail and he joins the long line of staggering figures that do precision drill on the milk-can-transport detail under the mappreciative eye of the under the unappreciative eye of the mess sergeant... But on the odd oc-casion even he becomes inspired. . . .

One sabbath eve, from behind a large and noisome pile of semi-shattered, soup-soaked and crumbled crockery at a west-coast station, four usually re-liable airmen and a W.D. swear they heard the dulcet tones of a barber-shop tenor raised in the pious refrain of "Onward, Christian Soldiers."

Care of the uniform is one of the Care of the uniform is one of the R.C.A.P.'s prime duties and the service is justifiably proud of the high calibre of its medical service. But on occasion the average airman finds service solicitude as to his physical wellbeing a triffe wearing. Especially when the orderly sergeant appears in the beautiest of an uncertably shour of his barracks at an unearthly hour of the morning, switches on the lights and inquires in dignified but overamplified fortissimo whether anyone wishes to report sick. . . The effect of this routine on early-morning morale is In the fastness of his study a small devastating, and it was only last week and unobtrusive French-Canadian airman sat in apparent solitude, absorbing to find a remedy. . . . Peering round a that an enterprising sergeant took steps to find a remedy. . . Peering round a barely-opened door, he switched on the lights and purred softly—"Anybody sick?—Good!", and retired forthwith to repeat his good deed in the next

EDUCATION SUBJECT OF CCF SPEAKER

educated citizens to Canada's national welfare, J. W. Noseworthy, M.P., outtion deducational reforms advocated by the C.C.F. Party in an address to the University College Junior Common Room last night. Mr. Noseworthy, C.C.F. federal a member of Parliament for South York riding, opened his address with an estimation of the value of a well-educated citizenty. "Education," he said, "vastyl increases mans material and spiritual welfare. It's supreme objective is to grant the individual a richer and fuller life."

Mr. Noseworthy stated that he to the common state of university decation, and interest should be given the opportunity of a university education, and interest should be given the opportunity of a university education, and the requisite and fuller life."

and spiritual welfare. It's supreme objective is to grant the individual a richer and fuller life."

Mr. Noseworthy stated that he believed Canada was capable of possessing the best-educated citizens in the modern world, if she made efforts to honosazed the disparity between rural schedule and schools in the bir stitutions and the control of the con do so. Turning to the limitations and inadequacies of our present educational system he had criticisms to advance and improvements to suggest. He called at-tention to the narrowness of the present secondary school matriculation system and stated that he believed there should be five different kinds of secondary schools in Canada in order to guarantee

Correction On Refugee Petitions

they lack the complete number of 20 signatures, Constance Hayward, executive secretary of the Canadian National Committee for Refugees, informed The Varsity yesterday.

Miss Hayward made this announce-

ment in reference to a misinformed statement which Elliott Siegel, a mem-ber of the committee, made to The Varsity last week. Siegel had said, incorrectly, that many of the petitions collected from members of the University "lacked the necessary 20 names and as a result were invalid."
"We are only too pleased to acknowl-

edge petitions - whether they contain one signature or 20," Miss Hayward said, "but it is preferable, of course that petitions are completely filled."

Varsity Blitzes Manning For Second Win of Season Of Record Breaking Navy Show S.C.M. Weekend Meeting

FINAL SCORE 53-42

Last night saw the Varsity basketball team take their second victory of

most of the Manning team. The fast see-saw play of the first half agreed with the Varsity team and they turned up at half time with a 23-12 score favoring them.

Ross had moved into position for Manning several times during the period but his shots were unsure and he failed to score. On the other hand, Rafter sank several almost impossible shots, tossing them over his shoulder as he will be about the sank of salt. might a pinch of salt.

might a pinch of salt.

The teams played three minutes of the second half before scoring. Whitey Clayton was the marksman who added to Varsity's total. The second half was rough and fast and each team scored 30 points as the Airmen measured up to all Varsity standards. Up until the middle of the period cach had scored eight points but from then on the baskets came one after another.

For Grad Nurses

A new series of lectures, dealing with developments in the field of medicine which have been given emphasis in warting, is being offered graduate nurses while touring Ontario army camps two years ago. "I got a with the period cach had scored eight points but from then on the baskets came one after another.

The voung actor also played before.

Jim Turner, Jerry Morton, Don Pringle, Joe Ryan, Stu Scott, Frank Watson.

Manning Depot—Boles, Miro, Cough-lin, Tuite, Merson, Ross, McNay; Rafter, Forbes.

Non-Canadian Students Meet at Women's Union

The Students' International Club held its third meeting of the year at the Women's Upion last night. The purpose of this organization is to help new non-Canadian students to get acquainted. A short program is of fered at each meeting.

The program consisted of the singing of various folk songs. Era Neuwett directed the Polish songs, while Jamaician songs and Calipso songs from Trinidad were led by students from these countries. Dancing and refreshments concluded the evening's enter-meants concluded the evening's enter-meants concluded the evening's enter-means concluded the The Students' International Club held

Fast Moving Game Throughout Both Halves; Fighting Rally Today Airmen Measure Up to All Varsity Standards In Hart House

A big, bluff, enthusiastic American, Roland Elliott, secretary of the World Student Relief, arrived on the campus

we been arranged to prepare the Varsity team for its exhibition season on Athletic Nights. Last Thursten Last Thursten Were after the year beyond the Varsity team for its exhibition season on Athletic Nights. Last Thursten Were Booth was the first to score, a few seconds after the game began and the Airmen were blocked for the first five minutes until Miro dropped a shot in the Varsity hoop. Varsity played a fast tiring game during the end of that time. Close checking by the Toronto team accounted for the Air Force tie-up during this period.

Varsity held some advantage in the heights of Don Gibson, Ken Tamand Don Pringle, who

Emphasizing the necessity of our undertsanding conditions in Europe, and the need for relief work, Mr. Elliott went on to say, "One fear in the minds of students there is that the Americans and English who have not shared their suffering with them might not under-stand what they have seen and been through."

Roland Elliott will speak on the sub-ject, "Bread and Books," and will re-

with District Five of the Registered Nurses Association.

Whitey Clayton topped the seoring list, as he did last Thursday, this time with 16 points. Vern Booth scored eight and Don Gibson, Don Pringle and Stu Scott cach six. Ken Tettmar was good for four, Joe Ryan three, and Stan Spooner and Ross Sturgess each got two.

Miro led the Manning team with 13 points, while Rafter followed closely with 12. Tuite scored seven, McNay four, and Coughlin two.

Varsity—Ken Tettmar, Stan Spooner, Whitey Clayton, Ross Sturgess, Thorpe Vandemark, Vern Booth, Don Gibson, Jim Turner, Jerry Morton, Don Pringle, loss Ryan St. Scott. Frank Watson.

Jim Turner, Jerry Morton, Don Pringle, loss Ryan St. Scott. Frank Watson.

Schoolmen Study Electrical Topics

The students in fourth year Engineering Physics and Electrical Engineering will deliver papers on technical subjects.

The speakers will be W. J. Weir, IV

The speakers will be W. J. Weir, IV Engineering Physics, talking on "Backfires in Mercury Arc Rectifiers," W. O. Cartier, IV Electrical, on "Crystal Filters," D. S. Johnson, IV Engineering Physics, on "Frequency Modulation," and H. F. Philip, IV Electrical, who will speak on "High Frequency Workships, and the property of the property is an annual get-together.

U.C. Residences Birthplace

University College can look with a peculiar paternal interest at the activities of the Wrens and tars whose assorted talents are making the Navy Show a howling success wherever it goes. The show was largely rehearsed within the walls of two U.C. residences.

Not long after the girls of Hutton Wous and the men of "73" moved out exhausted after last May's exams, the Navy moved in. Some 40 assorted blues singers, bandsmen, actors, and comedians of the male chorus took up quarters in the U.C. men's residence at 73 St. George, while Hutton House across the road accommodated a similar number of talented Wrens.

"They were a happy bunch," recalled with the world."

One chorine who was not a stranger to thic campus seene during the summer's rehearsals was Wren Barbara Davis of Newmarket. A former U.C. student, Barbara left the University last during the summer's residence at 73 St. George, while Hutton House across the road accommodated a similar number of talented Wrens.

"They were a happy bunch," recalled when they went to buse the stage.

"They were the jolliest bunch you could ever hope to meet," Mr. Jennings went on. "I wouldn't have missed that campus seene during the summer's to the campus seene during the summer's releastable was Wren Barbara Davis of Newmarket. A former U.C. student, Barbara left the University last. May to join the navy, and a few more weeks found her back in campus haunts rehearsing in familiar Hutton House. In the same of the properties of of the prop

across the road accommodated a similar number of talented Wrens.

"They were a happy bunch," recalled smilling Jim Jennings, "73" caretaker, leaning on his mop to reminisce. "They were raising a sort of bedlam from morning to night. We had a band playing in room 5, and choruses tapping across the floor of the common room, not to mention singers holding forth duction of "The Man Who Came to in their bedrooms every evening. We

May to join the navy, and a few more sweeks found her back in familiar Hutton House. In the samely and has a small comedy part in the somewhat anamalous role of "mailmorning to night. We had a band woman." Campus playgoers will remember her performance as the harassed hostess in the U.C. Players' Guild pronot to mention singers holding forth duction of "The Man Who Came to in their bedrooms every evening. We

Gotham-Seeker Off to Good Start On Fuel Policy

Twenty-year-old Vernon Chapman who plays the romantic lead in the University College Players' Guild pro duction "Candle in the Wind" on Sat urday, Jan. 29th at the Victoria Theatre is by now an old timer at smcaring grease paint-he has been doing it since 1939, when he acted in a one-act play at Mimico High School. Since then the acting bug has bitten him hard and he has been active with many other little

The young actor also played before the foot-lights of the Shakespearian Society, the Dicken's Fellowship and Society, the Dickens removaing and the Theatre Player's Guild-three To-ronto groups of which he has been a member. Last year he was in James Barrie's "Quality Street" at the Eaton Auditorium with the Pearson Players, who are associated with the Canadian National Institute for the Blind. Add to that the Victoria College Dermaits. to that the Victoria College Dramatic Club. Vernon played in their produc-tion of "The Importance of Being Earnest" and the critics were unani-

Earnest" and the erities were unani-mous in thici praise.

Carrot-topped, soft-spoken Vernon thinks and talks in terms of the theatre when he isn't at his lectures. But he believes that for a man of ambition the Toronto theatre doesn't offer many

Toronto theatre doesn't offer many opportunities.

"Someday, who knows, maybe I'll try my luck on Broadway," Vernon says.

"I'm trying to amass some good experience first of course. But if a chap wants to reach the theatrical pot-of-gold he'll find it's located at the end of the rainbow—in Gothan."

Dr. Cohoe to Discuss "Science and Industry"

Allcutt to Speak

Second lecture of the series of public ectures on "Trends in Canadian Life" to be given today by Professor C. A. Allcut of the Department of Me-

E. A. Alleut of the Department of Mechanical Engineering, who will speak on "A Fuel Policy for Canada."

Prof. Alleut has made a study of the fuels which will be available when our present supplies become exhausted and how soon their use will become necessary. He was recently chairman of a sub-committee of the National Research Council investigating this problem. Council investigating this problem Some of the information embodied in the report of this committee will be conveyed by Prof. Allcut in his lecture. The Canadian Emergency Gas Pro-ducer as selected by the committee and a sample of gasoline produced by hydrogenation from Canadian coal wil also be shown at the lecture.

The lecture begins at 4:30 p.m. it Room BB6 of the Botany Building.

I.S.S. Handbook Small But Potent

The handbook put out yearly by the central committee of the International Student Service (I.S.S.) is not a big

It's about as large as your lecture

notebook; about one tenth as thick as the University of Toronto directory. It has to be that way. For the small handbook tries to cram within its 14 by 10 inch confines as many letters as it can. The letters are niessages from students, victims of war,

from every corner of the world, who have been assisted by I.S.S. funds. Here is a letter from Ynge Frykholm, secretary to the European Student Relief Fund, describing a visit to an American prisoner of war eamp in

Germany:
"...like most of his fellow prisoners, this student had not yet received a single communication from his home since being taken prisoner more than four months previously. Now here he was unexpectedly approached from the outside and offered personal assistance

Engineering Physics, talking on "Backfrest at each meeting.

The program consisted of the singing of various folk songs. Era Neuwelt directed the Polish songs, while an advantage of various folk songs. Era Neuwelt directed the Polish songs, while an advantage of various folk songs and Calipso songs from Trinidad were led by students from these countries. Dancing and refrest, meats concluded the evening's enter-tailment.

"Although the Students' non-canadian students," said Erel Tomlinson, "IV Electrical Engineering Physics, on "Frequency Modulation," and H. F. Philip, IV Electrical, who will speak on "High Frequency Transmission." Prizes will be awarded for the best efforts.

"The program consisted of the singing of the Toronto Chemical Industry," tonight at 8:00 in Room 22, Mining Building.

Roland Elliott To Attend

Room to debate the topic, "Resolved: expand beyond the Japanese islands

"Japanese territorial ambition is a standing threat to world peace and international co-operation. It cannot be appeased by any territorial concessions," says Prime Minister Roy Clark, speaking for the government. "Japanese territorial ambition is a Clark, speaking for the government. Philip Cooper, Minister for International Affairs, will support the government (affirmative) on this issue.

Paul Reecke, Pol. Sei. III, acting Leader of the Opposition, states that, "It is unthinkable that in the post-war world Japan should be kept within the narrow confines of the volcanic islands. The only hope for a just peace in the Pacific lies in allowing the Japanesc to realize their full position as a great nation."

After the adjournment of parliament last Friday, the new Prime Minister appointed Reeke acting Leader of the Opposition. It is expected that the House will confirm his position this afternoon. Reecke is the leader of the National Democratic Socialist Party.

The Varsity Reviews

The Permanent War

time thought-provoking.

The substance of the argument is as follows. When peace comes, Professor, Morgan says, the Canadian economy will have to move in one of several directions, each of which either has too many defects to be adopted, or else, in the case of socialism, is too improbable on account of "a popular misconception . . . that Human Nature would not stand for it." stand for it."

This being the case, he concludes, the This being the case, he concludes, the only practicable alternative is to continue in a state of war; not an unscientific war like the present one, which has passed beyond the bounds of control, but a carefully regulated small-scale war, that will give the economic system just the proper stimulus to keep it functioning at a brisk level, without the necessity to impose back-breaking taxes to balance huge budgets.

Summarting the theory with evidence

to balance huge mugers.

Supporting the theory with evidence of the rapid advance in social reform (and for that matter in almost every other field) during the past five years, Professor Morgan draws a striking contrast to the great depression of the 'bibities'. 'thirties.

But to overemphasize the serious

Panel Discussions to Deal with New World Faced by Chris-tian Students, Reconstruction at Home

TRAVELLED IN EUROPE

Roland Elliott, Secretary in North America for World Student Relief, will be one of the leaders at a Conference to be held this week-end by the Student Christian Movement with officers of the World's Student Christian Federation.

National Secretaries of the S.C.M. of Canada, who have recently returned from tours which have taken them to every university campus in Canada, Mr. Elliott, who is now Reconstruc-

Mr. Elliott, who is now Reconstruc-tion Officer of the W.S.C.F., will give a report on "Christian Students Face a New World" to open the conference on Saturday afternoon, followed by general discussion. On Sunday afternoon he will lead a panel discussion on the subject "Reconstruction Begins at Home,"

Mr. Elliott has been Executive Sec-retary in North America for World Student Relief ever since its founding correlated all relief work for students in Europe, America and the Far East. This organization includes the W.S.C.F., This organization includes the W.S.C.F., Pax Romana, and International Student Service. Mr. Elliott is in charge of ar-ranging for shipments of books, food and other relief supplies to students in Europe and the Far East, and has been responsible for much of the work which is done for prisoners of war held in the United States and Canada.

In his capacity as Reconstruction Officer of the W.S.C.F., Mr. Elliott participates in the Emergency Council of Christian Organizations, which is

This pamphlet by Professor Morgan, of the Department of Political Economy, dedicated to Lou Somers, R.C.A.F., reported missing last June, is in the form of economic satire. As such, it is both highly amusing and at the same time thought-provoking.

The substance of the argument is as follows. When peace comes, Professor, Morgan says, the Canadian economy will have to move in one of several disastires expected with the base for the World's Student Christians to come from the World's Student Christians to recent the member of the World's Student Christians to recent the member of the World's Student Christians to come from the war. He is the most recent professor, which have to move in one of several will be the state of the world's Student Christians and the several warms and the several warms and the several warms are several warms and the several warms and the several warms are several warms are several warms and the several warms are several warms and the several warms are several warm

Mass Meeting Today

The student committee for the forthcoming Inter national Student Service drive warms up for the pitch with a "mass student rally" in Hart House Theatre at one o'clock today. Not to sound disparaging, we would nevertheless caution the committee in regard to their optimistic terminology From what we have seen of this heterogenous University one seldom achieves a "mass student rally" until one provides something of the universal appeal of a typical co-ed contest. Today's meeting will be more in the nature of a gathering of interested students who wish to learn more of that which interests them. No doubt what the committee meant to imply is that every student on the campus is urged and requested to come to the Theatre this noon and fiind out just what the I.S.S. is and does

Speaking today is Roland Elliott, North American secretary for World Student Relief, on organization which correlates the relief work of all student groups. Mr. Elliott should prove both interesting and informative if one can judge from his past experience in both relief work and lecturing. He has first-hand knowledge of the European situation up to and including the first months of this war and has spent the last few years lecturing in Canada and the United States on student relief and rehabilitation. If anyone can explain the work of the I.S.S. in Europe today, Mr. Elliott can.

Toronto students have contributed to the war relief work of the I.S.S. every year since the war began. But every year the student body asks again: What is that mysterious three-letter society? Why should I shell out for the I.S.S.? It is only natural that they should ask; new people come in and the older ones forget. So today is everyone's chance to meet in Hart House Theatre and discover for himself just what the I.S.S. does.

The Rise Of Radio

A university, according to Cardinal Newman's classic definition in must teach all knowledge or it is not worthy of its name. Scarcely any university has ever satisfied so exacting a formula. Today's centres of higher learning are generally content with providing, in their courses or in extra-curricular activities, all knowledge which they deem to be of interest or importance to their students. Under such a system it is up to the students to get out of their university whatever they can. And today more and more universities are becoming aware of an increasing student interest in that still experimental and promisosry field, radio. The new interest in radio finds expression on the extra-curricular side here in Canada with student societies and workshops. In the States, courses in the various aspects of radio art have in some Universities been granted college credits.

Conservative Culture

the university as the home of culture and the humanities, not to be defiled by the teaching of mere trades or anything vaguely reminiscent of such.

They would allow the science departments to teach It was followed by a song from the pen of America's Music Concerts at the Toronto Concert and the Toronto Concerts at t

the mechanical processes of radio but for the arts department the subject of radio is grossly inferior. radio work should not be regarded merely as a trade. It belongs to the art of rhetoric, the art of expression. Radio is verbal literature, reflecting the warp and woof of our age. It is all well and good to call for a sound, basic education in the liberal arts. The university must still expand with the times and provide the extra education this changing world demands.

McMaster University students have announced McMaster University students have announced that beginning in Fébruary they will broadcast a series of weekly radio programs. The series will be conducted jointly by the Dramatic Society and the Operatic Society and will present dramas and comic operas. This is apparently a case of students banding together to use the skill they have already acquired in two fields to aid them in opening another. Students generally tend to try out in school the various ways of life which they might like to follow after graduation.

More Enterprising

The University of Alberta conducts its own radio station and has a regular broadcasting schedule. By far the most enterprising of the Canadian universities, Alberta presents a variety of programs: music, including opera and symphony; a series of radio dramas; a local folklore and history project; and a college news broadcast sponsored by The Gateway, University of Alberta undergraduate newspaper.

McGill's year-old Radio Workshop is a student

society whose main activity is recording plays for broadcasting over the local networks. Last year four Workshop productions were broadcast, two of them in connection with the Victory Loan campaign. This year saw them producing a full-length narrative poem for the Fifth Victory Loan. Still another uniersity in the east, Dalhousie, is active in radio production.

Radio, then, is becoming an accepted thing on Canadian campuses. Yet we see no signs of it in Toronto. Granted that smaller universities with compact student groups can be more easily and quickly converted to new schemes. But what dramatic group in any of our four Arts colleges would not stand in competition with any other University's dramatic society? In this sense the University of Toronto has four dramatic societies where the others have one. What, then, would prevent our having four radio workshops if our student body, taken as a whole, is not sufficiently malgamated to produce one?

Correspondence

The Editor. The Varsity.

Dear Sir:

I would like to take this way of expressing the gratitude of Lou Somers' many friends and admirers to Professor Lorne T. Morgan for his dedication and epilogue in his recent pamphlet "The Permanent War.

Lou was indeed worthy of the highest praise for his many and varied achievements, his moral character and his leadership in his undergraduate days at the University of Toronto.

DAVID SHANOFF,

School of Law II.

A Bit Thin

Eation Auditorium

Back after a lapse of two or three years was Helen Jepson, Met soprano, at Eaton Auditorium The platform personality is as nice as neath a Weeping Willow's Shade, rather ever; all dignity and grace of motion. But the voice has worn a bit thin in spots. Faulty intonation was noticeable at several points.

Two Handel arias from little-known, long-dead operas served, as seems to be the custom, for warming-up. Of better calibre was Dove sono from Mozart's "Marriage of Figaro." The Lieder group

Some will cling to the conservative tradition of book," while Del cabello mas sutil of Obradors was

Lessons in Journalism

LESSON I

HOW TO BE A SPORTS REPORTER

(Coaxed out of retirement, a broken down (aren't they all?) sports columnist from Toronto's only four-page paper told the author of this series of columns the follows:)

1. Whenever a young apple-eheeked Whenever a young apple-enceked boy or girl comes to me and says, "I wanta be a sporting writer," I usually snarl back at them, "Yer erazy!" This has happened so often that, speaking generally, a person who wants to be a sports writer must be so crazy that even Lydia Pinkham's won't help him.

even Lydia Pinkham's won't help him.

2. If anyone gets into the position where he can actually write a sports story, I first caution him to refrain from learning too much about the game he's reporting. If he knows too much, his boss will fire him. Sports Editors don't know very much, you know, and they have to hang onto their jobs some-

3. Writing campus sports stories is the easiest job in this field. The general practice of The Varsity is to have all the male reporters resign early in the fall and then get a little girl to do the story. It is important to note that girls can do better stories than men.

4. Students who want spice in their stories for a campus publication must always remember to misspell every name in both line-ups of teams. The random and irresponsible quoting of the Ath-letic Director in Hart House (specially when he's been in Ottawa for the last eight weeks) will always bring down the wrath of somebody important. It's

5. Writing female sports is a wide-open field on The Varsity. The best way to break into it is to stand at the corner of College and Bay and whisper,
"I'd like to write a Sportswoman." It won't be four seconds before you are wisked in front of a portable typewriter with a elub over your head. Standard practice for both male and female aspirants to the job of writing a sport-ing column is to have absolutely no reference to anything more energetic than a fast game of shove ha'penny. Brutal references to anything violent like ping pong or,heaven forbid, volley-ball, is too hard on the nervous system of the two Tuek Shop attendants who are the only people who read the sports

are the only people wan read the spots page, anyway.

6. Pack all your sentences with punch-packed punchy phrases like, grid-iron, gridsquad, gridfion heroes, griddle cakes. Use lots of synonyms for the word "win." Good examples are: enquer, defeat, grind into submission, rub the opposing teams," respective noses into the hardwood floor by a devenier, bit, for grantin hunder, or. thumping big margin, thunder on victory, be victorious, and any of nonsense you can think of. It's

7. Wear glasses. Athletes are usually bigger than sports writers. This point is obvious, I think.

PILLWHISTLE MCSHACKLESTRAPPER

composer, Francis Hopkins,

in the style of a medieval carol.

Stevenson Barrett at the piano was competent throughout, and at halfway mark did a Rameau Sarabande and two Evulatation, and Zimbalist's One, Two. Three brough the program to a novel close, with the prima donna sweeping off the stage on the concluding phrase:
"One, two, three . . . don't follow me!"
Coy yet sufficienty amusing.

The Sportswoman

By George Elliott (not to be confused)

C'MON, ST. MIKE'S, GET HEPI

C'MON, ST. MIKE'S, GET HEP!

Head of Hockey, Shirley Pearse, walks over to us and gives us a medium hello today and confides that the girls from the other side of Queen's Park—namely the cup-cakes from St. Michael's College—have withdrawn their team from the hockey schedule. The lack of promotion and that of' team spirit appears to be the real reasons behind this tradition-shattering move. For many a moon back, girls for St. Michael's have been in the vanguard of the she-hockey group. Since the schedule has been revised (see elsewhere on this page), all we can do now is hope that this isn't indicative of St. Mike's future sporting activities.

VIVA EL TRINITY!

Yesterday afternoon, we hid behind a pillar up at Varsity Arena and watched a zippy hockey sextet from Trinity down a similarly zippy sextet from the Faculty of Medicine by a 3-1 score. Satellites for the Hoskin Street Club were Mary Cochrane and Helen Johnson and Madame X whose name slipped everybody's minds, but who scored one of the Trinity goals. Then this Horton biscuit did quite a neat chore. Of the girls from Dean Gallie's Department of Gore, we liked Dorothy Ley the best. Trouble with girls' hockey is that each girl is pretty much as good as everybody else on the ice, including the referee. To pick out the outstanding players is difficult . . . it would be more fun to pick out the outsitting ones.

ACHTUNG!

Now look here, the women's sports editor tells us something drastic is liable to happen—like the whole swim meet cancelled—if all you mermaids (to coin a phrase) don't get out to the Lillian Massey pool this afternoon. Freddie Baxter has gone to a great deal of trouble to arrange the swim meet we hear and it's desperately important that the shapely water-sloshers practice for the big Athletic Night at Hart House the end of February.

COMES THE REVOLUTION . .

Someday, we hope, the time will come when the male animal won't ever write women's sports.

Well?

hither and you

SPEAKING of SPORT

By Phil Shackleton

That's how the teams are falling be-fore the tide of this year's edition (revised) of the Varsity basketeers. Last

vised) of the Varsity basketeers. Last night's game was the second practice session for the Blues and likewise the second victory. And the Manning Depot team is no slouchy corner lot team at that.

The team has reached a point where a group of players are beginning to show themselves the top men on the floor and consequently the players who will, more than likely, see the most action during the Athletic Night series. Players like Don Gibson, Ken Tettmar, Whitey Clayton, Joe Ryan, Don Pringle, Stu Scott, and Vern Booth are turning up with the majority of the scoring up with the majority of the scoring

up with the majority of the scoring and general team play honors.

Mac McCutcheon told us last night that he is still seeking a manager, an official scorer, and a timer for the team Anyone interested in any of these posi-tion should see Mac himself.

Another item on the agenda is the matter of Mr. Tettmar. It seems that we have been referring to him as Bill while his fond parents have always known his as Ken. In order then to clear up any difficulty which may be encountered we shall comply with convention and from now on grace him with Ken.

P.T., we've always suspected, is a fatiguing chore. Our suspicions were confirmed last Wednesday in Hart The second half of last night's game House locker room when, over a bat-tery of lockers came drifting, "Well, if the plural of index is indices, why can't I say Kleenices? made really interesting spectatorship material. Rough and fast it may have been but it was far from double A ball. Many shots went without aim and the ball was introduced to every square inch of the blackboard at each end of the floor. Paradoxically, however, there Not sure if this has been mentioned before, but someone in the Tuck Shop has apparently made a drastic attempt was nearly twice as much scoring in the

The Manning team had at least one former college player in Miro, one-time Assumption star, who led the Air Force scoring with 13 points.

At-Home last night, I find I'm getting the same way."

Then there was the excitable young woman in the loney of the Royal Alex inght before last who was describing some horror play she had seen and concluded by saying, "So finally she had to give up and she died of carbon monoxide poisoning . . . my dear, it was WON-derful."

Two lumps of arsenic? or three?

Engineering Professor Warns Of Shortage Of Fuels In Canada

Outlines Threefold Policy of Fuel Conservation and Substitution in Canadian Trends Ruined University Series Lecture

REQUIREMENTS INCREASING

The shortage of some fuels is likely The shortage of some tuets is likely to continue after the war, Professor E, A. Alleut said at a Canadian Trends lecture Friday. It was his opinion that the establishment of a national fuel policy as to conservation, reproduction substitution is a matter of im-

and substitution is a matter of immediate importance.

In spite of attempts to harness tides and the sun's rays, fuel remains the world's main source of energy, with water power assisting to the extent of two per cent. Forty per cent of the energy produced from fuel is used for power production, the rest for heating purposes, he stated.

End requirements for power produc-

Fuel requirements for power production have increased enormously in the last decade, and show evidences of doing so after the war at an even greater

A second part of the governmental rate. We are told that Canada will be the centre of world transport; and even the T.T.C. is visualizing aircraft for semi-local transport, Allcut said.

The increased demand, especially for

liquid fuels, is unfortunately unaccompaned by increased supply. In the U.S.A., new oil wells drilled are becoming progressively less productive. A geological survey indicated a life of the world's oil supplies at 60 to 100 years. Assuming an increased rate of consumption, this becomes 30 or 40 years, with an oil famine felt long before. Anthracite is also scarce, although our soft coal will last several thousand

Oil shales and the tar sands of Oil shales and the far sames of Alberta may become economical for oil production as its price rises, but this will merely postpone the crisis.
"It therefore seems reasonable," Prof. Alleut reasoned, "that petroleum products be reserved for purposes, such as street," where are obstituted as a validation.

aircraft, where no substitute is available and that other fuels be developed." Fuel consumption can be reduced by

react economy in the heating of buildings in two main ways: effective insulation and large central heating plans (for the household furnace is comparatively inefficient). These plants would produce electricity by steam roduce electricity by steam with the exhaust steam used

Kiev, U.S.S.R., Jan. 20-The University of Kiev, which was laid to ruins by the German war machine, was being rebuilt, while the wreckage of the city was still smoking, Tass, Soviet w agency, has reported.

Word of the reconstruction spread and a history student who had left school in 1941 came in from the German rear lines and registered for classes. He left for his detachment, promising to rehen studies began.

Tass said that the buildings would be restored in six months. The city was scoured for text books and stores were opened to buy books from the citizens so that the 1,300,000 books destroyed by the Germans might be replaced.

A second part of the governmental policy would be reproduction of fuels agriculturally, he said. Alcohol, which may be blended up to 20 per cent with gasolene, could be produced from potatoes, barley, artichokes, corn, sugar beets and wood pulp. One hundred million bushels of our annual wheat surplus would give 20 per cent of the 1941 fuel consumption in alcohol.

Wood could also be used to make producer gas for transport purposes, said Alleut. There are about 800,000 mobile producer plants in Europe. Sweden is almost entirely dependent on them for heavy transport.

The quantity of fuel that can be grown falls far short of present congrown talls tar stort of present con-sumption however, and substitution of other sources of energy are necessary. Electricity, although clean and con-venient, is uneconomical for heating or transport work. Electrically-produced gaseous fuels must be carried in heavy paseous fuels must be carried in heavy bulky steel bottles, but many European vehicles operate in this way. Our abundant soft coal could be used as colloidat fuel (suspended in 60 per cent oil) for marine work, or transformed chemically into more convenient fuels. It has been estimated that half of Germany's and one-fifth of Grcat Britain's liquid fuel is produced from coal by burdrageration.

The Annesley Hall.

30 Failures Must Quit At Western

Thirty students at Western University are to be forced to leave as a result of their failures in the annual Christmas examinations. Fifty others who failed but came very close to pass ing, have been placed on probation. As an indication of the determination of Western to eliminate all those who are not doing their best, for the first time in history three seniors are included in those who have been given notices,

Of the 30, 20 are men and will reeived their draft notices almost immediately. Even if they should fail in their army medical, they will not be allowed to return to the university.

Among the pre-medical students there was only one failure and one probation This is due to the fact that these students are hand-picked, representing only about one-third of the number who made application for that course.

Actually, the results are no wors than usual, since the failures number about three per cent of those who wrote the examinations.

TAGGERS NEEDED

Many co-eds are needed to help tag on the campus on L.S.S. day, Jan. 28. All those willing to join in the effort are asked to look at the bulletin board in the Women's Houses, or to telephone Mary Strick-land, Mi 9543 and state the hour or hours in which they can tag. All hours in which they can tag. help will be greatly appreciated.

Hears Elliott Speak on Post-War Christian World Reconstruction

NOT FOR DILETTANTES

"Christian Reconstruction is simply another word for Christian dedication," said Rolland Elliott, Reconstruction Of-ficer of the World's Student Christian Federation, at the Student Christian Federation, at the Student Christian Movement Conference over the week-

Speaking on "Christian Students Fac a New World," he warned those wh Speaking on "Christian Students Face a New World," he warned those who are interested in taking jobs in the reconstruction work that will have to be done all over the world after the war, that such an undertaking is not for dilettantes who are willing to give up only a year or two to it. "We must be willing to put our whole lives into it," Mr. Elliott said. "Only in terms of an absolute lifetime vocation commitment have we any right in the face of the situation to dabble in the work of Christian Reconstruction."

Another qualification that Mr. Elliott

Another qualification that Mr. Elliott stressed was willingness to work under and with people in the country where the work would be done, and not simply for them. "The people of Europe and the East where actual fighting is taking place have endured suffering of which we can have no conception. We are not competent to do anything but to offer ourselves to work under them. They will not need leaders, for they are already aware of what will have to

he done."

Mr. Elliott enumerated several factors which must be taken into consideration (Continued on page 4)

ence of Hope Brought to War Prisoners by International Students' Service

DESCRIBES GREAT NEED

"Need" is a word which must be burned into our consciences said Roland Elliott in his address to the Inter-national Students' Service Friday noon. "We must understand what fellow stu-

"We must understand what fellow students today are encountering before we can understand what the LS.S. means and does," he stated. When travelling in Europe recently, Mr. Elliott, who is North American Secretary for World Student Relief, discovered that there were six million prisoners-of-war in Germany alone — more than there were allogether in the last war. Of these, only 15 per cent were behind barbed wire, he found. The rest were organized in work units, rest were organized in work units, carrying on a variety of projects. There was usually an elected representative in each camp and unit whose business it was to keep in touch with the I.S.S. headquarters in Geneva. Geneva, in turn, sent out neutrals to travel through Geneva, in ecupied territory, and Germany itself, to investigate conditions and bring ma-terial to aid them. There are also no fewer than 25 universities being carried on in prison camps in Europe—under restrictions, of course—but nevertheless being carried on.

being carried on.

Another group of homeless people,
Mr. Elliott went on to describe, are the
refugees of whom there are at least
30 million wandering around the world. To make it possible for the university students among them to continue their studies, is one of the tasks of the Inter-national Student Service. And the speaker told of a group of 1,000 Poles who literally fought their way out of their native country, through France and south of Leningrad smassned to within their native country, through France and their native country, through France and the within the state of the LS.S. Returning servicemen with matricula-

Returning servicemen with matriculation standing will present a problem to
the universities, according to Dean D,
S. Ellis, Faculty of Applied Science,
Queen's University, who addressed the
Association of Professional Engineers
of the Province of Ontario at their annual nuesting Saturday.

"These number 14,250," Dean Ellis
stated. "Should a quarter of them enter
engineering and another quarter enter
other faculties, there will be 1,200 appiled science students seeking admission
at Toronto and some 600 at Queen's
University." He announced that ten
scholarships, to the value of \$800 are
to be awarded by the association to
engineering students eithers
engineering students in these universities.

The rchabilitation of professional ngineers after the war will also present problem as there are to be considered 1,000 engineering graduates who went directly into the armed services: 500 who graduated prior to 1939 and now also in the services; and over 2,000 xperienced engineers engaged in war

rojects.

Lights Coming On

For some time now the eclipse of higher education has seemed an inevitable part of the world's troubles. The world, or at least the free part of it, has accepted this with more resignation than most of us like to acknowledge and steadily the toll exacted from education has mounted. Beginning with the early Nazi book-burnings the process has gone on through the gradual stifling of academic life in Germany, through the Prague University massacres to extend itself to the elimination of all centres of higher culture in the lands overrun by the Axis invaders.

Some universities attempted to take refuge, the universities of North China were the first and remain the most notable examples. They are safe now, though their existence is eked out on meagre lines. fortunate was the case of the University of Strasbourg whose students and professors fled into unoccupied France in 1940 only to be ruthlessly "climinated" by the Germans last summer.

Even in those Allied countries not overrun by the Axis tyrrany higher education has suffered a grave setback. In England men have been gradually forced from the universities by a steadily lowering draft age, while a similar phenomenon has been seen in the United States where manpower needs have forced all fit men above draft age out of civilian classrooms and the colleges have been adapted as far as possible to fill military needs. The U.S. colleges are being saved for the peace that is to come, but for the education in the broad and liberal sense is very closely restricted through a lack of students.

Even in Canada, where, of all the nations participating in the current struggle, the universities have suffered the least from the war, the academic life is very barren compared to what it was in peace Just how much has been stripped away from the fullest college life is little realized by students here today because they never knew it. the lamp of learning burns with a strong light here its full brilliance is somewhat dimmed.

But even as we reflect on the terrible period just past when the lights seemed to be going out over more and more of the world, news comes through to us in Canada that the lights, although scattered, are being rekindled. We already know a good deal of the courageous Chinese universities, and to that company are added the four so-called Polish universities in exile. These consist, not of actual Polish universities, but of four groups of Polish soldiers attending classes at four Swiss universities. These men are members of a force at 10,000 which fought in France after the fall of Poland and fough their way out of France to Switzerland in 1940 Interned in the neutral country, 1,000 of these men who were ready for university or had partially completed their university work, were allowed by the Swiss to attend their universities.

Besides these examples of definite university groups there are literally countless classes in prisoner-of-war camps and in refugee compounds, and internment camps who are studying and im-proving the time until they shall be released into a proving the time until they shall be released into a world that is free. The agency which in part arranges courses, but is chiefly concerned with supplying the materials for study is represented on this campus by International Student Service.

Only" sign last night at the Wymilwood Musicale, when Eric Treadwell sang one of his well-known "popular" programs. In as good voice as could be reasonable expected, in this printemperate winter, (Continued on page 4)

(Continued on page 4)

The object of the I.S.S. drive here this week is to raise as much money as possible to buy these materials and ship them wherever there are students who need them. The objective for this campus has been set high. \$7,000 is the mark the local comnittee is aiming at, a small fragment of the mighty half-million mark needed to carry on the organiza-tion's work in 1944. The individual student's share of this will make him feel the burden, that cannot be denied, but that it is his rightful burden cannot be denied either, for it is due to many of these students who need and that he is able to continue his own comparatively unhampered work here.

Ottawa Calling

A Canadian University Press Feature

By Neil MacDonald

NATIONAL WAR LABOR BOARD

Just now, the National War Labor Board is in a state of transition. In a few weeks, its constitution will be changed and its decisions rendered under a new authority. Instead of being made up of three members, it is being enlarged to six, a chairman, a vice-chairman, one member for each of labor and capital and two members representing the consumer public. Its decisions, at present based upon a comparison with wages for comparable work in a similar industry in the same or a similar locality, will then be based upon the inequity of the situation, and authority has been given either to raise or to lower wages to injustices and inequalities. It is clearly stated that wages are to be raised if necessary, if the the industry can afford it.

A short time ago, the National War Labor Board was called upon to give a ruling upon a decision of a Regional War Labor Board which had raised the wages in a certain industry. The plea of the appealing employers was their inability to pay the increased wages at their product's present selling price. The Board's decision, unfavorable as it was to the employer, gives a possible indication of the application of the new authority. The present chairman of the Board, Justice McTague, called for the figure of the profits of the company under its present wage scale These profits, examined, were found to exceed the cost of implementing the salary increases, and the increases were upheld.

Assuming that this is to be the policy of the War Labor Board in applying its new authority (and admittedly that is a large assumption), it would seem that the criterion as to whether a justified wage increase can be supported by an industry is whether the company in question is still making profits. With the justice of that idea, this writer will not at present quarrel, although legitimate objections might be raised upon the manufacturers' side What is extremely important is the evident fact that the agency of a non-socialist government has dismissed the profit motive and free enterprise in order to benefit the worker.

If the decisions of the National War Labor Board are to be based on the principle, that, as long as the money is available, fair and equitable wages must be paid to the employees in an industry, Canada has taken a long step towards removing the possibility of the C.C.F. being elected merely on a vote of discontent.

Yes, it might have something to do with elections.

More will be said shortly in this column about the forthcoming session of parliament and the strategems which may be expected to be unveiled there. Suffice it to say at this point that the fight will be fierce and bloody, with the government control systems coming in for devastating attacks from both the other parties. These attacks will be based upon the grumbling which is going on in many parts of Canada, and will be pointed at the errors and omissions which have been allowed to creep into Ottawa's bureaucracies. The attackers will take little account of the marvellous achievements which have been accomplished. But that, dear readers, is politics.

S.R.O.

Wymilwood Musicale
The Committee put out the "Standing Room
Only" sign last night at the Wymilwood Musicale,
when Bric Treadwell sang one of his well-known

We return to the terrible moment when Dr. McGeech has flung open all the drawers of the filing cabinet in his office, seeking the terror-stricken War-den Gilhooley whom an hour before he filed for safe-keeping under "G."

CHAPTER EIGHT

There could be no doubt about it.

Gilhooley was gone.

No one could say of McGeech that he was not thorough. He hunted as though for his salary cheque. He opened the inkwell. Gilhooley was not in the inkwell. Nor was Gilhooley concealed among the paper-clips. He lifted the lush, plush rug, gift of Prince Bulbus ab Domen, the Bernardine Shah. There as only dust under the rug.

was only dust under the rug.

Having dashed off a note of com-plaint to the janitorial division of the superintendent's office, McGeech hope-lessly played his last card. He lifted the pot with the blooming or common aspidistra, sole souvenir of the Sumatran poisoning case. Beneath that benignant bloom he had found, 11 years before, the damning documents whose disclosure had sent Durningham Datchaway doomyards. But no Gilhooley lay flattened eneath the pot. But something else lay beneath the

ot and on the wall behind it-a shadow

He moved the pot, and the shadow

would have fled, howl-A lesser man would have field, nowing for the D.T. squad. But McGeech had nerves of steel. He collapsed into a chair and furiously considered this, his first tentative clue. The case was assuming international proportions. Its

ramifications were proving infinite.

There could be only one explanation for the immobility of this disembodied shadow: hypnosis at the hands of von

Schnitzenschnatz.

Before the last war, in Vienna, the Austrian madman von Schnitzenschnatz, had hypnotized McGeech, and McGeech had believed for hours that he was a frustrated camel. McGeech sweated as the recalled, how after that horrible en-counter, his own shadow had been ocked on the wall behind him; how moths hung motionless in mid-air, and how the very air was frozen so that the wind ceased to whuffle. So von Schnitzenchnatz out of Austria

So you Schnittenchinate out of Austria entered this case; and Gilhooley had been hypnotized by him in this very room. McGeech leaped electrified from his chair. He had an old score to settle with yon Schnitzenschnatz. Where was Gilhooley now? A quick invention of McGeach's enthiles went.

spection of McGeech's matchless wardinspection of McGeech's matchless wardrobe of disguises settled that point.
Fragments of that wardrobe littered the
floor, and the butler's disguise was
missing. Gilhooley had been spirited
away, clad as a butler, believing in his
mind that he wors a butler.
He could not be far away—of that
McGeech was sure. The only conceivable point of this plot could lie in
keeping Gilhooley close to his campus
haunts.

naunts.

Only in one place on the campus would a butler blend undetected into the surroundings, accepted as part of the inevitable furnishings of the place.

That place was Trinity College.

The astute reader will not need to be

VIC PUCK OUT OF HAND

The Army Course hockey squad over-

The Army Course noticely squad over-whelmed Vic I by a 9 to 2 score last Friday afternoon at Varsity Arena. The first period started out fast and the pace was well kept up throughout the game by the fast skating of the Vic started out with a

handling and at the eight-minute mark of the first period Rocky Houson started off the scoring for Army. His smooth rushes were highlights all through the

rusing were management of the game.

The next two goals were Army's, by Maize from Shortt and Huycke and Huycke from Maize and Shortt. Then the bell went to end the period but it was discovered that the anxious time-

pletely.

After this score Vic pulled themselves chances for breakaways but they could not seem to control the puck. The ice at this stage of the game was very poor.

Army took over the rest of the coring as Haldenby netted onc, assisted by Cummings. Houson's spectacular offensive dashes featured the rest of the game and his pass to Huycke was good game ann ins pass to Hilycae was good for Army's sixth goal. The soldiers' passing plays knocked the Vic defense to pieces and they scored again, Maize from Wyse. Cooper of Vic turned in some nice rushing at this point

Houson scored unassisted as the Vic team were powerless against their superior opponents. Moriariey was very much overworked in the Vie goal. The game ended with Houson scoring his third goal, assisted by Haldenby

The Army victory was particularly significant since they were forced to clean off the ice before the game. C'est

clean on the see before the game. Cest le guerre?

Army: Howayth, Ncale, Wyse, Steed, Houson, Cummings, Arnot, Haldenby, Sherry, Shortt, Maize, Huycke.

Vic: Moriartey, O'Malley, Schell, Price, Cooper, McClean, Cillerton, Hamilton, Dederich, Burford, Martin.

Because of Government restrictions on the use of high-grade paper, only a limited number of copies of Torontonensis can be printed this year.

All college offices, libraries, fraternities, etc., wishing to purchase copies are asked to place an order with the Students' Administrative Council Office before January 31st.

few very good offensive plays, but it wasn't long before their defense gave way to the powerful Army team. Arnot and Wyse turned in some tricky stice, handling and at the eight-minute mark totally fine scrimmer, the writer is the monager of the Blue and White minutes.)

WE'RE MAD

We're Mad We're Mad Me're Mad Me're

added inducement, we hope to see many up in the gallery of the pool next Saturday night.

There are also two large Interfaculty meets in the not too distant future. First is the Junior Novice Meet. This meet is for the benefit of any who are interested in swimming. It gives a chance to the freshman, or any other man, to get in competition that is not away above him, by barring most of the experienced swimmers. The other meet is the Senior Interfaculty Meet which will be held on the fourth Athletic Night. This meet is in reality the Varsity Swimming Championships, although each faculty is restricted to one complete team. More details will be published on both of these meets giving scents, etc. 24 a later. will be published on both of these meets, giving events, etc. at a later

And now to mention some of the swimmers that you will probably And now to mention some of the swimmers that you will probably see performing on these Athletic Nights. There are many around that have had experience swimming for Varsity. Stu Robinson is perhaps the only one that swam Intercollegiate in pre-war days, but there are others that have swam for the Blue and White for two and three years, such as Bill Moffat, Pam Lockhart, Al Patterson, Pete Aykroyd and Norm Lea. There are quite a few good first and second year men that will probably make out a well balanced team, which we hope will keep their record of never having been defeated in any of their meets in the past three years.

STANDING COMMITTEE ON SWIMMING, MEETING 12.30

The Sportswoman

By Betsy Mosbaugh

We certainly don't need Dunninger to tell us that we're thinking that the weather has no future in store of rathletic babes. What with no skiing, no hockey, no badminton, there's going to be an outbreak of frustration to the nth degree. But Doris Hibbard has saved the day by bringing in the volleyball schedule. So all you sports loving gals can start to sublimate quick like a flash today, at the L.M. gym.

The head of volleyball intends to extend these practice periods over two weeks and then substitute tourneys in their place. The schedule of opposing teams for practices may be found at the end of this colyum,

VIA THE UNDERGROUND

We hear that ole man weather will cool towards the wet blanket he We hear that ole man weather will cool towards the wet blanket he threw over the hockey games last week. You'll also find the new schedule somewhere else on this page, and hence may prepare to resume your graceful slugging at any moment. And while this hockey business is predominant... some of the younger medicos are still wavering between attending and not attending their hockey practices. It seems that these engagements get under way a couple of hours after the set time. Aside from being a bit numb around the teeth and other parts of the anatomy, these babes say that they have to travel all sorts of distances to collect their implements of the game. Which is it??? Are they either too young or too old?

THEY GONNA BUY A PAPER DOLL?

THEY GONNA BUY A PAPER DOLL?

Where are all you beanteous mermaids who were such swimming enthusiasts? Freddie Baxter of the L.M. pool, tells us that the monthly competitions held up there are cancelled from now on. On Friday only two participants turned up. Henceforth there will be free swimming every Friday from 4.30 to 5.30, in its place. Let's hope that there'll be more enthusiasm shown over this opportunity than there was concerning the competitions. Conjure up the encrgy, gals, and whip off to the Splash. Remember that Athletic Nights are in the offing ... and You, Too, may be the ...

30 WITH SCHEDULE

So by way of finishing, here is the volleyball schedule:
On Monday from 5.30 to 6.30, St. Hilda's; from 6.30 ot 7.30, Vic takes over. On Tuesday from 5.30 to 6.30, Physios; and from 6.30 to 7.30 P & HE carry on. On Wednesday from 4.30 to 5.30 St. Hilda's; and from 5.30 Vic holds the fort; at 6.30 U.C. gets her practice. On Thursday from 5.30 to 6.30 P & HE have the gym; and from 6.30 to 7.00, Physios again perfect themselves. This latter arrangement is somewhat dubious, so watch for alterations. On Friday from 5.15 to 6.15, U.C. zips into action.

Trinity Formal

ffe, and "Q" suspected nothing.

But as Gilhooley went off downstairs or mail the fatal letter, the mind of

The Only Show Of Its Kind

The only formal event of the current social season, the annual Trinity Con-versat, was held last Friday night in Strachan Hall to the music of Gren Hobson's orchestra.

A distinctly original touch was the floorshow put on by eight members of the Volkoff Canadian Ballet whose five numbers included the ever-popular Swan Lake, a tempestuous gypsy dance, and a ludicrous interpretation of the malicious Shostokovitch Polka.

A hint of the forthcoming Interna-tional Students' Service drive lay in the selling of corsages of roses at the door in aid of I.S.S. activities.

hither and yon

with dick mansell

To keep you lonely, frustrated creatures at the South End of the campus as contented as liquor rationing allows, there is a case on the record of a Vic man who didn't learn about Annesley Hall until his third year. He is now in fourth and has just found out where Whitney Hall is.

Outsiders little suspect the keen rivalry that goes on for the make-up of this column. A reporter was afronted last term to discover three of his carefully nurtured hither items present under someone else's name. He stormed into The Varsity Office foaming at the mouth, to find no one there.

But not for long. A non-reporter stormed in after him and said:

"Are you the editor around this place?"

"Nope," he replied in a snurly voice.

home-town, one returning Summer Vacation sailor accepted the invitation of a chap who had given him a lift and accompanied him into a nearby hostelry. They chatted this way and that and eventually the question came up:

"What did you do before the war?" Recalling shopwork time spent in the interest of his degree, the rating muttered something about machine tools, fitting shops, lathes and so on,

But not for long. A non-reporter stormed in after him and said:
"Are you the editor around this place?"
"Nope," he replied in a snurly voice.
"Well, they've swiped two hither items of mine for today's paper!"
They got their heads together (mathematically I mean) and reasoned that for the seven items used, there were two still unaccounted for. The leading question nove is, where did the writer steal them!

Carrious as to the hospitality of his home-town, one returning Summer Vacation sailor accepted the invitation now, if you arts students will

MEDS ELECTION RESULTS GIVEN AT SOPH-FROSH

John Wilford Elected President; George Lewis, New President of Athletic Society, Presents "M's"

AT HART HOUSE

To climax the Medical elections last

To climax the Medical elections last Friday the first two medical years had their soph-frosh dance in Hart House gym with Jack Evans and Charlic Hannigan supplying the music.

In the centre of the gym hung a gay young skeleton dancing the sailor's hornpipe. Skulls and cerossbones in red and black and cartoons done by the

students were hung on the walls.

One of the features of the evening was the magician, a lad from the first

was the magician, a lad from the first year, John MacDonough.
Several athletic awards, including the new letter "M," were made during the intermission by the new president of the Athletic Society, George Lewis.
To cap the evening off the final election results were announced. The executive of the Medical Society is as follows:

President, John Wilford; Viee-Presi-

struction. There are more than 35,-000,000 refugees scattered around the world who will have to be repatriated. After the war the hatred and the mount ing vengeances which have become the watchword of millions in Europe will

be let loose. Destroyed, weakened and perverted institutions of religion and education will have to be reckoned with. Political chaos and industrial and economic chaos will have to be restored to normaley. The problem of starvation and the inevitable results of prolonged undersouriebuset will be a tremendary. undernourishment will be a tremendous

undernourishment will be a tremendous one to deal with.

Mr. Elliott emphasized the importance of public opinion in influencing the policy of political interdependence which is the primary fact to be considered in the kind of world which Christian groups are endeavoring to build, and whose fate will be decided on this continent. "Apart from doing our share in forming an informed body of public opinion, we are quite ineffectual dabbling opinion, we are quite ineffectual dabbling in polities," he stated.

ROBINTEX

GUARARTÉED BRITISH MANUFACTURE

concert, a line, but masking the fact gracefully.

A recitative and air from Handel's oratorio deis and Golatea, while sung with plenty of bet cauto, also demonstrated the inantities to which old George Frederick's libretitist were prone. Of the Schubert group, Der Leiermann got the optimum of vocal shading: Ungoduld was raced through, dropping umlautright and left. The singer's satirical comments on the English translations of Lieder made for much audience fun. The asceompaniment of diminutive Frances Marr was the anticipated work of art. Her piano interlude, Debusy's Arabesque and Danse, spun web of gossamer though it was, suffered from certain annoying mechanical deficiencies in the Wymilwood piano. But in spite of that, she maintained the impressionist mood throughout.

Home-Grown

Volkoff Canadian Ballet

Notwithstanding its annual midsum-mer appearance at Prom Concerts, the work of the Volkoff Canadian Ballet work of the vorkor canadian Ballet is still barely known to the public at large. Those attending the Trinity Conversat last Friday had an enviable opportunity to see members of this group in action.

From a technical standpoint the danc-

ing was nearly perfect. Its unconven-tional choreography was profoundly interesting. Altogether, the brief per-

Range

The Parlow String Quartet
Saturday evening, in the first of two concerts in Eaton Auditorium, the Parlow String Quartet gave a solid but well-balanced program of two heavier quartets by Schubert and Ravel separated by a Mozart quartet.

In the Schubert Quartet in D minor, the quartet demonstrated how flexibly out for special mention the interpretation out for special mention the interpretation out for special mention the interpretation out for special mention the interpretation.

the quartet demonstrates it could change from dramatic vigour of the brittle and which powerment was amazingly performed, with the galloping rhythm of the unison opening theme, played so lightly and yet so itresistably, carried on through to the full, rich, and immensely exciting chords of the conclusion, played with power that not a hint of forcing of tone. full, rich, and immensely excuting cnorus
of the conclusion, played with power
but not a hint of forcing of tone.

The high point of the performance of
the Mozart Quartet in C major was the
housifully malved.

the chorus of tour displayed perfect precision, and the arrogant soloist electrified everyone to the end.

One wishes one could see more of these artists. It is time Canadians realized that art is being patiently evolved in their midst. As Mr. Volkoff himself phrased it, "The trouble is, seenle stitules come form econes the people think we come from across the line. Or from Russia. But we don't— we come from Yonge Street."

THE UNIVERSITY OF TORONTO, TUESDAY, JANUARY 25, 1944

Benefit From Work Of ISS Is Speaker Will Campaign This Friday

Distribution of Last Year's Funds Announced; Prisoners of War and Internees Are

MONEY NEEDED FOR BOOKS

If you help the International Student Service eampaign this Friday, here is what is done with your contribution:

The International Student Service raised \$10,264.40 in Canada last year. Of this amount, the University of Toronto collected \$2,140.00.

Chinese students received books and material amounting to \$3,000.00. Half of this was employed by the LS.S. International Committee to put text books in the central library. The re-maining half of this money was used by the Chunking Student Relief Com-mittee for the purchase of significant books other than text books to be put in the nearly completed Y.M.C.A. Stu-dent Service centre. These books are much too expensive for individual students to buy and there is urgent need for the reading rooms thus supported.

Canadian, British, American and United Nations prisoners of war re-ceived over \$3,000.00 worth of books, ceived over \$3,00000 worth of obots, writing material, and recreation equipment for the duration of their captivity. Prisoners of war and internees in Canada are supplied with books, university courses and recreational equipment. Refugee students and internees in Switzerland are also helped in this

At Varsity this year the I.S.S. has collected the sum of \$336.24 from the S.P.S. Frosh-Soph Dance, the All-University Dance, the Women's Auxiliary at St. Hilda's, the St. Hilda's Dance and individual donations.

New Lecture Series Begins Thursday

Professor Chester Martin, Head of the Department of History, will in-augurate the new series of public lec-tures entitled "Pillars of the United Nations," sponsored by the Departments of History and Chinese Studies, to held this and the three succeeding Thursday afternoons at 4:30 in Room 8, Uni-versity College. versity College.

Prof. Martin will speak on the ject "The British Commonwealth.

Second in the series will be "The United States," when Professor Edgar W. McInnis of the History Department will be the speaker.

Bishop W. C. White, Head of the Department of Chinese Studies, will discuss "China" and the concluding address will be given by Sir Bernard Pares who will deal with "The U.S.S.R."

French Philosopher To Lecture in Teefy Hall cast are Dorothy French, I U.C., and

Paul Vignaux, noted French philosopher and Director of Studies at the Ecole des Hautes Etudes, Paris, will speak of "Humanism and Theology" this Thursday at 4:00 p.m. in Teefy Hall, it was announced yesterday.

Prof. Vignaux was In the United States when France fell in 1940. He

Prof. Vignaux will give his lecture here in French.

MASTHEAD MEETING

All members of The Varsity mast-head are asked to meet in the News Room between 1 and 1:30 p.m. today for an important conference. The customary grim penalty will be exacted from the most conspicuously absent.

Queen's Graduate Was Arts Dean

Kingston, Jan. 24— (CUP) — John Matheson, M.A., LL.D., Dean Emeritus of the Arts Faculty of Queen's Uni-versity, died early this morning in the Kingston General Hospital of a heart ailment. In poor health since last year, he was confined to the hospital for three weeks before death.

The 71-year-old Dean was a graduate of Queen's, and had been on the University staff for over 40 years before his retirement last summer. He first enrolled as an extra-mural student in 1885, and came actually to the university in and came actually to the university in 1898, to graduate three years later as a Master of Arts. He joined the staff in 1902, and by 1911 had become head of the Department of Mathematics. In 1924, he succeeded the late Dr. O. E. Skelton as Dean of the Faculty of Arts, which post he held until he retired last September. He was the oldest member of the university staff, and had the second longest record of service.

Principal R. C. Wallace this morning said of him: "Dean Matheson left an imprint on the minds of the young people with whom he came in contact Principal K. C. Wailace this minimal said of him: "Dean Matheson left an imprint on the minds of the young people with whom he earne in contact in a way that is given to very few people to do. He had patience, wisdom, understanding, He searched beyond the international field. This will be the merely intellectual difficulty underlying the problem of spiritual balance. He taught with expert understanding in the class room, but showed an even deeper expertness in the countless private interviews for which many students are grateful to him. Dean Matheson was a great builder, his character was an influence on students more profound than that of any other I have known."

At Joint Meeting EXPLAINS DIET PROGRAM

Miss Marjorie Bell, M.B.E., spoke ast night in the Household Science Building to a joint meeting of the Toronto Dietetic Association and the Household Science Alumnae Association, University of Toronto. She stated that "nutrition has arrived" as a result of long years of hard and often discouraging work on the part of the pioneers in the field, among whom she ranks high. Miss Bell stressed that as this work is done, need for more work is seen, and that if a program worked on, and prepared, an opportunity will usually arise to present it.

Miss Bell illustrated, by an account of her work among the low-wage groups and unemployed, that "the nutrition program had to be an economic program as well as an educational program," The problem she and her associates faced, was always to take a limited amount of money and make the nutrition fit the funds, she said. Later, they gradually began to get the idea across that the food lists should be set by standards, and the costs arranged to fit these. In ad-dition, food lists must be sound and practical, and are useless unless put into effect by people actually making their teaching effective. Nutrition must also constantly work with Home Economics to keep housekeeping as well as cooking in mind. Toronto now stands as the first city

in Canada to take a scientific basis for all relief diet work, which is a great accomplishment, Miss Bell said. There

'Where Do We Go From Here?" Is Topic of Group Discussion at Wymilwood; Eight Senior Students to Express Views

TOMORROW AT 7:45

Representatives from each of the four Arts Colleges will participate in a rousing panel discussion on the topic, "Where do we go from here?" at a meeting of the Modern History Club tomorrow evening at 7:45.

The club, which will meet at Wymil-wood, will listen to students in their third and fourth years of Social and Philosophical Studies.

One senior man and one senior woman from each of the courses, Psychology, Political Science, Sociology and Mod-ern History will discuss their ideas on: why they entered the course they are now in; how much the course they are now in; how much the course lived up to their expectations; and the value of the various subjects covered in each year. Each participant will speak for six minutes and when each one has covered the topics there will be an onen discussion. pen discussion.

The meeting should be of particular value to students in first year Social and Philosophical Studies who will have to chose between the various courses next year, said Roy King, IV Vic, president of the club. He said there would be some faculty members present

would be some faculty members present who will contribute to the discussion.

Advice fo' Chillun'

The Modern History Club, long noted about the campus for its progressive ideas and close-knit organization, has announced plans for a meeting and panel discussion tomorrow night which is intended to be of guidance value for the youngsters of the History Department, those in first year Social and Philosophical Studies. Students in the History Department have always seemed to possess a certain unanimity generally lacking to members of other courses, probably because there is only one such department in the University and students from all four Arts colleges are joined together in the study of history. They are for the most part a congenial group and usually become known to each other socially, not content with the formal lecture-room relationship so common to members of other courses The social-minded members of the various history courses are to be found in the Modern History Club and an indicative sample of their work is this new plan to provide the beginners with a little guidance and sage advice.

Setting up a panel of eight senior members, one man and one woman from each of the four courses open to students in first year Soc. and Phil., the Club will attempt to provide the freshmen with a student's view of each course, thus either strengthening or helping to form each student's opinion as to which course is the right one for him. Not many students on this campus have the advantage of hearing the pros and cons of a course argued by senior students before he is compelled to chose his field. The eight members of the History Club's panel are drawn from all four Arts colleges and, in order to make them truly representative of the course as a whole, they are not all of the "first in first class honours" variety. Just eight ordinary people who will tell the freshmen exactly what they can expect in each course.

The panel members will not merely give their own personal impressions of the course as a whole. Each will endeavor to answer the three questions: Why did you enter your course? How has the course lived up to your expectations? What is the value of the subjects covered in each year of your course? Following these lines, they will provide the freshmen with a view from both ends of the telescope and should preclude possible mistakes in choice of a course. Club members promise a frank analysis of each course with no holds barred. There will be time for questions and open discussion afterward and if any freshman fails to get the "lowdown" it will not be from lack of effort on the part of the senors. Members of the faculty are also expected to be present and to join in the discussion.

Students at Toronto have always taken an active interest in the form, purpose and achievement of the various courses offered, thus showing signs of an active and wide-awake undergraduate group. Mem-bers of the faculty always consider it an advantage to learn the students' opinion of his course. We saw this two years ago when members of the course in English Language and Literature met to evaluate their course and suggest improvements. We saw it the most part was sympathetic and subdued. again last year on a larger scale when the Staff-Student conference met to discuss tthe function of a

university in wartime. But the History Club has brought out a new twist in this plan to give the freshman all the advantages of a senior's experience to help him chose his course.

Come One, Come All

A little box has been appearing on the front page of The Varsity these last few days. Just a little box asking for more co-eds to volunteer for tagging on International Student Service Day scheduled for this Friday, Jan. 28. It is a box which many girls will ignore and many will dismiss with a "haven't got time," but any who stop to consider the significance of the I.S.S. and what it means to be on the giving rather than the receiving end will manage to find a spare hour or two to help the tagging along The University committee is faced with a staggering \$7,000 quota and they will need the co-operation of every student on the campus to even vaguely approach it. For the girls this co-operation mean more that just buying a tag and attending the skit night and dance; for the girls it means tagging as well. The whole success of the drive now depends on the result of the tagging and unless there are enough volunteers to completely cover the campus the drive will fail.

A word of advice to the freshies-tagging can be Two do in a work to the frames again can be fun. It is your only opportunity on this staid old Toronto campus to say "hello" to everyone you meet. Not only do you say "hello"; you do your best to stop and talk. Other campuses get friendly with a Hello Walk or some such tradition for breaking the ice, but in so large a university as this such tricks are not feasible. So we have to depend on tag days o crack that Toronto reserve. You will also see parts of the campus which would otherwise remain unknown to you, it past tag days are any example. Last term, taggers invaded lectures and labs to sell their wares; thereby gaining something new in the line of knowledge. All in all, it is not an unpleasant experience; you can make of it what you will. So just spend a few minutes considering the work of the I.S.S. and what it does for our less fortunate brother-students abroad, then run, don't walk, to the nearest bulletin board and sign up for Jan. 28.

Drama & Vagary

Eaton Auditorium

It's rarely enough that a dramatic soprano comes o town, and when one is recalled by popular demand, it is a noteworthy event. Caterina Jarboro, negro dramatic soprano, sponsored by the Afro Community Church, sang at Eaton Auditorium last night for the second time.

Gowned all in black, relieved by a splash of turquoise, this handsome diva made an imposing picture as she sang Piangere la Sorte Mia by Handel. Her voice is a remarkably plastic instrument, capable of various degrees of tonal chiarascuro; this was demonstrated in the contrast of styles between Handelian sonority and the piquant Minuetto Allegro of Gaffi.

Of the Gallic group, L'heure delicieuse by Staub, with its overtones of Debussy, came off best. Chanson Romaine, by the Belgian composer Jongen, had many vagrant, pleasing harmonies. For a humorous encore, Miss Jarboro came out, and with her accompanist rolling out Wagnerian bombast at the piano, hurled the Valhyries' Battle Cry at an astounded audience and quivering rafters. Contrast again was Verdi's Ritorni Vincitor, which followed, every dramatic nuance in the thing played to the hilt. I should like to see her in Aida, with a proportionately decent cast.

The English section had a moving dramatic item in Hunger by Turner Layton, every line a compact emotion in itself. S. Coleridge-Taylor's She Rested by the Broken Brook was an episode of subtle imagery. In the group of encores, outstanding was Il est doux, il est bon from "Herodias" and Sinding's Silverin. Both had a seraphic quality quite at variance with the melodramatic instinct displayed in most of the program.

Miss Jarboro handles the lower register, in which she is no comfortable, with a fair degree of adroitness. It seems a rather remarkable feat to sing an entire program, encores and all, from memory and with never a trace of hesitancy. She is fortunate in her accompanist, Oscar Kosches, whose work for

23 SKID00!

Broken beer bottles, old cigar butts, Broken beer bottles, old cigar butts, empty Irish whiskey bottles and green fumes littered the publicity office of the International Student Service yesterday as The Varsity representative called on the I.S.S. publicity directress—Miss Barberpole McGrah, a graduate student in the Faculty of Applied Finnegling. "Yer durn tootin' we're gonna have a real zippity-swoosh bang-up rare-em tear-em whoop-de-do sort of a campaign that'll knock the spots off every other campaign that's ever been run on other campaign that's ever been run on

other campaign that's ever been run on this campus, by cracky!" From the tone of Miss McGrab's

voice it was easy to see that she had absolutely no interest in the campaign whatsoever and as a result of this, The Varsity concluded that the I.S.S. drive as doomed to failure.
But from the director of the I.S.S.

we got another viewpoint on the

situation. "Why, if she got too enthusiastic she'd be just as likely to get too much money as roll off a log," said Chauncey McWhiffletree, I.S.S. director on this campus. Asked to elucidate, Director McWhiffletree said, "Well you see, we are only out after \$47,000,00. If we collect too much money we won't know what to do with it. Can you imagine what the Chinese would say if we sent what to do with it. Can you imagine what the Chinese would say if we sent them a whole buncha money. Sure, they'd use it; they'd have a whole buncha universities set up all over the country and nobody would need any help from us. Then we'd start helping the universities in Greenland until they

the universities in Greenland unit mey wouldn't need any more help either."

McWhiffletree sounded frightened as he spoke. "I tellya, if we get too much money in this campaign, we'll just put ourselves out of a job, that's all we'd do. I tellya, they just ain't no percentage in

collecting too much money these days."

Miss McGrab burst into the director's office and said quietly, "Whazzamatter in here anyway? Who's runnin' this dashed *\$'&œ-?1 campaign anyway? I

tellya I won't stand fer no nonsense from them people from The Varsitythe rats."

Confident that the I.S.S. people didn't

Confident that the I.S.S. people didn't want any publicity for their campaign, the reporter left the office in a flurry of explctives and vowed that nary a word would appear in the paper in support of the I.S.S.

"I hope they don't get more than 17 cents," he snarled.

Miss McGrab made some pecuniary noises with her teeth and went after the reporter. One foot on his fourth lumbar region and the other balanced on his adam's apple, she extracted a seven-dollar bill from his sock and walked away contentedly.

which finally culminated in a 2-0 score. The playing was rough, increasing in tempo as the game wore on with no scoring incidents. In the first period the fighting was fairly even. The School hops played hard; in fact so hard that they were rather done out by the second period when the U.C. teamed turned on the heat.

The first period, although uneventful as far as scoring went, was definitely interesting, with both goalles making several good saves. Ross Clair drove several long shots toward the U.C. nets

several good saves. Ross Clair drove several long shots toward the U.C. nets that looked promising. A boy who can really skate and hadle a stick, he buzzed down the ice in true Skool style. The combination of Wilcox, Boa and Walker did credit to S.P.S. as the little chunk of rubber flew from one to another in some pretty clever passing.

U.C.'s co-operation, although not as

polished, was efficient enough to get some good plays going. Nesbitt, Wade, Warren and Bremner did themselves proud on the ice, as usual demonstrating some fairly fast skating. Hart put up several scrappy fights throughout the

game.

The second period saw some close work but it was apparent that U.C. was

Send News of Your School Events to "LET'S GO FORMAL" Tuesday --- CKCL --- 7 p.m.

The R.C.A.F. stationed at No. 23 P.A.E.D. at the north end of the campus U.C. hung another scalp on its belt yesterday when the first team shaved Senfor School at Varsity Arena. The spectators saw a snappy game of hockey which finally culminated in a 2-0 score. The playing was rough, increasing in tempo as the game wore on with no

when he planted a fast puck into goalie Skinner's stomach.

As the game got rougher there was some mighty fine golf. One or two sticks met their doom and the players themselves were constantly being flattened on the boards or the ice.

U.C. was really fighting now, and School was waning. The puck darted back and forth, gradually making its way down to the Blue and Gold net. The players milled around the goal like bees and then the red light flashed. Graham, U.C.'s best scoring bet, had lipped one in.

It must be said for School that those It must be said to School data those boys really tried then. Bob Hamilton and Dudley Wilcox were tumbled into the penalty box for getting over enthusiastic. The Schoolmen headed for the Red and White end but were knocked back enough times so the Just before the final bell Graham made another triemes. other triumph.

Because of Government restrictions on the use of high-grade paper, only a limited number of copies of Torontonensis can be printed this year.

All college offices, libraries, fraternities, etc., wishing to purchase copies are asked to place an order with the Students' Administrative Council Office before January 31st.

By Phil Shackleton

TRACK .

Some 170 odd competitors took part in last night's track meet. Which is some hundred and some odd more than competed last year in a similar set-to. And School and Meds threaten to send out still more and more men to swell the already swollen lists. Miss Boyd, struggling with eligibility lists, shakes her head and utters an unprintable syllable or two. But in the centre of it all Hee Phillips, calm and determined, clocks runner after runner, and heat after heat. Are we put out? Far from it, is Hec's theme. "We'll run them off till twelve at night," he said yesterday afternoon after the last competitor had retired to the showers.

Of course, the purpose behind School's and Med's flooding of the

University, have contacted him and that he hopes to arrange exhibition matches in the near future.

However there has been difficulty in setting times for the games, while the Airmen are impatient to play. Any team wishing to meet the campus Air Force squad should phone Mr. Finlayson at Mi 4244. They are ready to play practically any day, even this week, after the regular training hours.

The Air Force team is made up of players from the four teams of the house league that has operated in the station this winter. A goodly number of first grade players, some formerly of Senior O.H.A. teams, are on the line-up.

Packing everything into the game now. Nesbitt and Wade were outstanding for their alterness. Meanwhile School's Jack Shand gave the U.C. Ians a start when he planted a fast puck into goalie

a pulp diet.

GYMNASTICS

ATHLETIC NIGHTS . . . Those Athletic Nights, for which we have been intermitently, but Inose Atmetic Nights, for which we have been intermitently, but, enthusiasticly beating our columnistic drum, are creeping closer. The first in fact is in sight, looming like a great beacon at the far end of this week. That means Saturday. Guest artists of the evening are a group of nautically-minded gents from H.M.C.S. York. These good sailors are to be featured in two fields of action, the basketball floor and the symmion good.

and the swimming pool.

But the Varsity teams are well prepared. The basketball team has won two practice games in the last two weeks. About the Navy squad we know little, but we're prepared to back the Blues' chances. And the swimming team, although somewhat put out at finding that the Hart House pool has been drained for repairs, practiced faithfully up until the time some official pulled the plug at the bottom of the pool.

Shackleton Lasts To Cop Feature Race In Fast Time

out the Half Mile

In a thrill packed race that featured a blanket finish in the unain half-mile event yesterday, Sportsed Shackleton of U.C. edged out Johnny Watts and Frank Fordyce, both of S.P.S., and then began to wonder who would write upthe meet. The three came down the stretch abreast and the result was in doubt to the tape. The winner's time of 2.S.I is considered very good by veteran track men around the indoor nath.

Winner in Blanket Finish with
Watts and Fordyce of S.P.S.
After a Killing Race Throughwas due to the fact that Kerr is an
experienced high immer and was never experienced high jumper and was never considered a threat in the running field.

LARGE ENTRY IN EVENTS

Gord Lorimer of S.P.S. placed fifth, while Geoff Parke-Taylor of Wycilfred was skth. The six mentioned all rorssed the finish line under 2.10, which

NO DICE!

Indoor Track 4.45

Sportsbabes certainly aren't shooting any naturals these days as far as gambling with the weather is concerned. We are still forced to lament no hockey . . . no nuthin'. It's during unpredictable spots like this that the lack of an indoor sport such as badminton would come in

this that the lack of an indoor sport such as badminton would come inhandy.

Now we've had our little say about the resumption of this game, but apparently it struck home like water with a duck. The gals around U.C. and the other colleges are still muttering about a tourney, and add that they are quite willing to use the new substitutes for birds.

Is the head of badminton going to continue on in her gay old apathetic way or are we going to get some action? There's still time to whip up teams and run off a tourney.

HERE'S HOPING . . .

that to-night's game will be able to be played. If we get a break, then Trinity II and Vic II will toss the puck around up at Little Vic at 6 o'clock. Liz Kennedy, head of U.C.'s hockey, says that probably the games which have been postponed will be played off at the end of the schedule. The gals of the Royal College's second team are really getting frustrated... they haven't played one game yet. And what with one practice to their credit, they promise us to be in rare form. They intend to have veritable aces like Mary Perguson and Marjorie Bowman to dust off the ice for them. That is, if the team plays anytime after five o'clock! Take it easy on that body check, babes.

ATHLETIC REPS

The Athletic Rep's

The Athletic Reps from each of the faculties and colleges should be well on the way to completing their sports pictures for Torontonensis. As we have said before, this year's policy is to have the pictures taken in a setting compatible with whatever sport is slated for the camera. Ruth Margesson of U.C. is zipping along at a good rate with termis, and basketball pix already marked off the list. The deadline is sometime in February, so let's have some lights, camera and action eh?

Hill, Wyse, Sherry and Workman Lead Army Squad; Cras-weller and McIntyre Most Prominent for Physicians

VERY DISORGANIZED GAME

Army defeated Meds 5-2 at Varsity Army deleated Meds 5-2 at Varsity Arena yesterday afternoon. It was a game which showed more fighting spirit than good hockey. After one minute of play in the first period Crasweller of Meds netted one from McIntyre. The Meds teams, by dogged determination, carried the play in the first part of the game. Crasweller scored again unassisted five minutes later. Army came back with a goal by Hill from Cummings and Cole. Army's offensive play improved at this point and they tied it was Medseus from Medica. up, Workman from Maize.

With the score even, the players were bunching and sticks, helmets and every-thing in general went flying. There was some nice stopping by goalie Howarth

ative. Cam Burgess, leading the field ative, Cam Burgess, leading the neid with the time of 58. Bd Mathews (U.C.) clocked the course in 5.9. Four men tied for third with the time of six seconds, Bauman (U.C.), Hilchin (Vic.), Fordyce (S.P.S.), and Sebert (S.P.S.)

Those are the results of the first day of the two-day event. Today brings forth a crack Med team who are certain track men around the indoor the mob out. Some I31 hopefuls covered the Bill Kerr, another Schoolman, prothe distance with a Trinity representthe distance with a Trinity representthe distance with a Trinity representthe Meds—Bryans, Callahan, McMillan, Crasweller, Sraut, Spence, Laidlaw, McIntyre, and Hughes.

VIC GIRLS' WATER POLO

Practice on Thursday at 5:00 p.m. in U.T.S. pool. All those interested are

their score. At times their passing was good and their defense strong, but play soon lapsed into shinny style with pucks being golfed goalward.

Army scored first in the second period, Sherry from Huycke and Shortt. Then Sherry from Huyeke and Snortt. Anen Wyse netted one unassisted for the Army Course. Neale, in the nets for Army in the second period, made several nice stops as Meds forced the play to their opponents' end of the ic spell.

Wyse scored Army's fifth goal in the

scramble. McIntyre, Meds' right wing, stood out for the "does" on offensive play and "Beefy" McMillan was fairly solid on defense.

solid on defense.

On the whole it was a very disorganized game, with both teams failing to show anything in co-ordinated passing or defensive work.

Army — Neale, Howarth, Houson, Steed, Wyse, Shortt, Sherry, Hill, Huycke, Workman, Cummings, and

Some people are born wolves, some people learn to be wolves, and some are Schoolmen. For instance, take the Schoolmen at the Wymilwood Musical the other night, whom we heard say to two unescorted females, "Aren't you the two girls that we whistled at in front of the Mining Buildings" all "Yes," Surprisingly enough, they said "Yes," A fellow was complaining to us the other must be something to all this so there must be something to all this so the and started to do her hair a different way and he wasn't any too fussy about it. Mind you, she still looked

talk about manpower shortages.

Engineers are solving all sorts of problems these days. The other day we had the pleasure of talking to a Schoolman who had found a solution to the transportation problem. It seem that his elass was having a dance at the Women's Union and with an eye to the gasoline shortage, he dates up one of Whitney's fair femmes. However, at the last minute, the dance committee decided that the closing hour of the aforementioned is far too carly and so they cancel their reservation, moving the dance to a little place way out in the west end. This, as you can see, presented a problem to our patriotie hero, but not to be daunted, he calmly breaks his date and blandly MAKES A DATE WITH A BABE IN THE WEST WITH A BABE IN THE WEST

Must be nice to hove girls all ove

We see that yesterday's Varsity has secoped again. In what other Toronto daily would you find that the Annesley At-Home will be held this Friday, Sept. 28. . . . 1944?

This story concerns war-time secrets, so please don't mention it to a soul. Promise? O.K. As you all know, the services are giving all kinds of courses at the University and therefore it's not too great a stretch of the imagination to suspect that there are some books being used that are definitely lush-hush, being used that are definitely lush-hush. Well, we're running out of space so we'd like to end up with a yon culled from somewhere or other:

Necking's an obnoxious deed—

I like it.

I tiolates the moral creed—

I like it.

Once it's begun, it's more darn fun, books was lying out on a table right, where anyone could have read it, where the was discovered by some very high-ranking officers who were on a tour It makes her pa reach for his gun. You never get those darn labs done. I like it. of inspection. Naturally enough, there was quite a fuss raised since this kind

A fellow was complaining to us the other day about his girl. It seems that she had started to do her hair a different way and he wasn't any too fussy about it. Mind you, she still looked beautiful but somehow he yearned for her as she used to look. Trying to be helpful, we suggested that he come right out and tell her that she looked better the other way. After all, she was only trying to please him. "Oh, I can't do that," he moaned. "I've already told her it looks wonderful!"

full"

One of the misfortunes of getting into fourth year down at School is that after you have decided to have a real bang-up you have decided to have a real observation in your last year, the profs start making very taetless remarks about theses and due-dates, etc. All of which brings us around to the ambitious sort of chap who decided that merely writing his thesis wasn't enough, so he'd type his himself. A couple of days after he have to remain about had started, he began to complain about how this double spacing must drive typists crazy. Hearing this, one of his

Chief of Toronto Librarians at R.C.I. Tells "How to Judge a Book"

stitute Saturday night in Convocation
Hall, Charles R. Sanderson, Chief

At Convocation Hall Librarian of the Toronto Public Libraries, said that to be able to form a competent judgment of a novel it is necessary to understand its background and to place it in a literary movement. Mr. Sanderson was speaking on the subject, "How to Judge a Book."

He also explained that it is necessary to be familiar with the author's person experiences to properly estimate his work. This is because it is the function of the novelist to translate his own life,

personality and time into words.

Mr. Sanderson traced the opposing streams of romanticism and realism in English literature from Jane Austen down to the turn of the century trio of Galsworthy, Wells and Arnold Bennett, pointing out the entry of a

cosmic significance into the novel with the works of Emily Bronte. To understand the work of the writers

To understand the work of the writers of the period after the last war, we must be aware of the trends of thought in those years, especially the popularization of psychology and the general feeling of distillusionment with human nature, he

typists crary. Hearing this, one of his more helpful elassmates explained that practically all typrewriters had a througle pin for leaving double spaces between the lines.

"Oh, is that what double spacing means?" exclaimed the typist. "Tvc been leaving double spaces between the lines.

"When leaving double spaces between the typist." The tent leaving double spaces between the wewers."

any means at their disposal.

J. Turchin, for the opposition, said that in preparing for this war, Japan was aided by materials from Manchuria, Korea and the United States, and is not economically self-sufficient. The question, he said, is not one of whether Japan should be allowed to expand or beautiful the control of not, but the degree of expansion which should be allowed.

After the debate Prime Minister

Clark resigned and was succeeded by Right Hon. Paul Reecke. The new leader of the opposition will be Ralph Shepherd.

Speaking to the Royal Canadian In- ISS Features Skits

A series of colorful and humorous skits will be staged this Friday at Con-vocation Hall as part of the Interna-tional Student Service campaign, members of the campus committee announced

Meds are putting on a masterpiece entitled, "Capers in the Rue Morgue" or "May I Cut In?" The Dents are presenting a mystic East drama, centred around Cairo, called "Bridgework or the El Alemaigne." And Trinity wil put on a comedy, "Twas the Night Be-fore Conversat." The "Rami Swami" skit by U.C. with Al Seigel and Gorden Stulberg will be performed by request from those who saw it at one of the U.C. Lit meetings.

Jim MaeDonald, of U.C. Follies fame will have his orchestra there and the short and tall choruses will be there, too. Follies fans will be glad to learn of the reappearance of the four professors, "McAndrews, Beatty, Wallace and Place."

The Harry Red Foster Studios have donated a sound truck for the morning and most of the afternoon of the Skit

got away up high and then dived down like two Stukkas. The poor squirrel didn't have a chance. I watched him turn tail, the two robins zooming behind turn tail, the two rooms zooming behind him, as he scrambled down the tree, across the lawn, legged it up the hillock nearby and finally dived into the build-ing's ventilator. Was the last time that that black squirrel attacked that nest, I'll bet."

Did Jimmy have any other human in-terest trivia? Well, there was some terest trivia? Well, there was some more interesting stuff he recalled about squirrels. It seems that ten years ago there were two species of squirrels occupying the area surrounding the Eeo-nomics Building; the black (or Sciurus Vulgaris) and the red (or S. Carolinensis). But as each group regarded the other with jaundiced squirrel eyes when it was a matter of sharing bread crumbs provided from students' lunches, there ensued a violent battle. Result: the Sciurus Vulgaris breed knocked the S. Carolinensis boys all hollow. And

S. Carolinensis boys all hollow. And to this day a red squirrel hasn't shown its nose on the campus.

Did Jimmy have any other squirrel stories? No, but there were plenty of other tales he had on hand about other varieties of pests. There was the time, for instance, when a bat fluttered into the midst of a political science lecture, and everyone seeamed because they thought it would light in their hair, and Jimmy had to ...

Jimmy had to . . .

But that's another story. This piece was about squirrels.

Medical History Professor Lectures To Address Health League Announced At Convocation Hall

Dr. H. E. Sigerist, of Johns Hopkins University Who Ad-dressed CAMSI Conference, Will Speak February 7

TICKETS NOW AVAILABLE

Dr. Henry E. Sigerist, Professor of the History of Medicine at Johns Hopkins University, will speak under the auspices of the Health League of Canada in Convocation Hall on Monday, Feb. 7 at 8:30 p.m.

Dr. Sigerist visited this campus recently when he addressed the seventh annual National Conference of Canadian Association of Medical Students and Interns.

Dr. Sigerist graduated in Medicine in 1917 from the University of Zurich, Switzerland. He became Professor of the History of Medicine at his alma mater in 1924. The following year he succeeded Sudhoff as Professor and Director of the Institute of Medical History at Leipsig. In 1932 he became Professor of the History of Medicine at John Hopkins University.

Of Swiss parentage, he was born in Paris. In addition to his other achieve-ments he graduated in Oriental Lanments ne graduated in Oriental Lain-guages from the University of London. Dr. Sigerist is the author of many books, "Man and Medicine," "Great Doctors," "American Medicine," "So-cialized Medicine in the Soviet Union," "Medicine and Human Welfare."

"In "Medicine and Human Welfare' "In "Medicine and Human Welfare" he writes: "Medicine today is in a period of transition. . . It has forged new and powerful weapons for the conquest of disease, but we have not yet learned how to use them in a society whose structure has changed basically in the past century. . . While some physicians are fully aware of the trends of the time and have the courage to face the problem openly and to seek its best possible solution, others are a fraid best possible solution, others are afraid of any change. . . The purpose of this little book is to discuss the manifold relations between medicine and human welfare and to clarify the present situation of public health by analysing it historically and sociologically."

Tickets for the address may be obtained from the Health League, 111 Avenue Road, or from the S.A.C. office free of charge.

H.E.T. Houltain, Prof. Emeritue of Mining Engineering, Out-lines Use of Unconscious Mind in Solving of Problems

OFFERS PAMPHLETS

The use of one's unconscious mind as basis for creative thought was discussed at a meeting of the Engineering Society in Convocation Hall yesterday by H. E. T. Haultain, C.E., Professor Emeritus of Mining Engineering.

Professor Haultain was the first student president of the Engineering Society (formerly headed by the Dean of the Faculty); later he returned to S.P.S. as a professor, and is now en-gaged in mining research work.

gaged in mining research work. The speaker broached the subject by asking for a show of hands as to how many present had had the experience (especially as young boys) of wanting to wake early in the morning, say for a fishing trip; and had succeeded in doing so without the aid of an alarm clock. This, he said, gives evidence of the existence of an unconseious mind which causes us to do things without enscious thought. onscious thought.

Prof. Haultain ooce asked a psy-chology savant whether he had ever had this happen; and if so, how it had been done. Expecting a long philo-sophical explanation, he heard merely:

'Why, yes. When I wanted to get up at four o'clock I simply bumped my head four times on the wall!"

nead tour times on the wall?"

Another phenomenon of the unconscious mind is the case where one strives in vain for the solution of a problem, only to have it flash to mind while one runs for the street car or lies balf awake in bed. It is here that the unconscious mind becomes of interest to Engineers, for psychologists give this proceedure for solving a problem:

1. Go carefully over the raw ma-

1. Go carefully over the raw materials available.

Seek any relationships known to exist among this material.

3. Relax-say at a movie-to give he unconscious mind a chance to

4. Check the solution mathematically or analytically.

Prof. Haultain said that the existence of an unconscious mind is more ap-parent in children than in adults; but it may be developed by resolving to have an objective (or unconscious inten-tion) at a later time—on waking next morning, for instance. He offered a pamphlet on this subject to any stu-dents who will call at his office in the Mills Building.

Adults To Learn Care Of Children In Course Given By Child Institute

The University Institute of Child Adult education of this sort is par-Study will repeat a course, "Learning ticularly important today, since most in the Pre-School Years," which it held parents, including mothers, are apt to in the fall. Repetition of the lectures has spend more time working, a fact which in the Fre-School Years, which it held in the fall. Repetition of the lectures has been made necessary by the large en-rolment which the Institute feels is

rolment which the Institute feels is indicative of a growing interest in scientific child care.

Beginning on Monday, Jan. 31 at 8:15 p.m., the series of lectures will continue for ten weeks. The following topics will be discussed: attitudes toward bringing up children; the child's native equipment; learning in the early years; the daily round — eating, sleeping, elimination; sex edineation; creative activity; anger and fear as assets.

The object of this series is to enable those who are enrolled to plan the daily

Peacetime Conscription

Plans are now maturing in Washington for a prevention in peacetime of the decay of the nation's military might such as occurred in the 23-year lull in hostilities which ended with Pearl Harbor. These plans, which include a year's military service for every fit young man after he leaves high school, bring up the question of what will be done in this country when peace comes.

The war should not obliterate in our memories the fact that in the years immediately preceding this present outbreak of hostilities the people of Canada, along with most of the rest of well-meaning mankind, allowed themselves to be wheedled by a crack-pot minority into a state of utter psychological disarmament the depths of which were not fully realized until almost too late-when the panic of Munich brought the perilous state of the democratic mind very rudely to our attention.

The reference here, of course, is not merely to the matter of material disarmament to which we attended with righteous scrupulousness from 1919 on, but to the creeping tide of false pacifism which gradually rose about us and seeped into every cranny of our thinking, dampening our best intentions and mildew-ing the fabric of our safety as free people. This was manifested for instance in the indigant protests of parents against cadet training in the schools and the eventual disbandment of nearly every cadet corps in the country. It was the era of Cry Havoc, World Peaceways and abandoned condemnation of war as a mere commercial venture

The result of this when the test came was appeasement, hurried rearmament, and war before we were ready to fight it. This led to training without equipment and attempts to fight with a minimum of The debacle of Frances, the agony of Dunkirk, the futile gestures in Greece and Norway, the numerous retirements "to previously prepared positions" and all the losses and humiliations with which the first part of the road to victory were strewn are directly traceable materially and psychologically to the slump, revulsion and utopian attitude toward peace which followed the first section of the world conflict which we are now trying to finish.

That this must not happen again is apparently the resolution behind the plans now being formed in the United States. Their leaders seem resolved that their nation shall not again be caught napping. This is an encouraging sign, coming from a nation, which, while it carped smugly at the fighting democracies in the early stages of the war, for their failure to wake up to their dangers, was itself caught taking an extra forty winks when the hour of its own immediate

The United States plans seem to be only of a military nature as yet, and of these the outstanding

A year's service for every able-bodied young man after graduation from high school, with the option of a three-year postponement.

Probable choice of branch of service.

Basic training such as is now given inductees, plus the advanced specialized training most suited to the aptitudes of the draftee.

Enrolment as a reservist for from four to eight years following completion of the year's training.

It is estimated that the nation would train a million young men each year under this scheme as part of a peacetime armed establishment of 2,500, Required reserve enrolment would mean that nation could at any time mobilize from 4,000,000 to 8,000,000 additional trained men, bringing the total establishment up to almost the present level of 11,000,000 men and women.

Enactment of any such program as law will un-doubtedly be difficult, because United States citizens, and most other democratic peoples, have habitually viewed peacetime conscription with distaste. However, with conscription now in force, and the preliminary terrors of the war too close to be ignored, the wisdom of such a scheme will have to be admitted, and it should not meet with difficulty in becoming law.

While Canada has no conscription for overseas service, the present compulsory military service for home defence could be continued after the war as a basis for the establishment of a similar reserve. Canada has been the originator of a number of wartime measures adopted in the States. In viewing the peace it would not be amiss to honor our reciprocity by giving these plans consideration. Though we should, as we hope to, make this the last great struggle for what we regard as the right, the value of such a scheme in making youth realize its responsibility to the nation alone makes it

They Know How

With the Chief Librarian of the Toronto Public Library having spoken recently on the subject "How to Judge a Book" it is interesting to note a recent report by the American Library Association on the current trends in reading. Apparently readers in general are becoming better judges of books, perforce, than they were before the war. With less leisure in which to read, they choose the type of reading matter which will give them the most satisfactory return for the time spent on it.

Thus reading has dropped off in volume and the neaviest loss in popularity has been suffered by the lighter type of novels and non-fiction. Practical reading has also decreased, but interest has intensi-Books dealing with the war and international politics have gained greatly in popular interest in the United States since Pearl Harbor.

Sidelights on the reading public are shown in various instances. Teen-agers are reading aviation books more avidly than ever, but books on Japan, once popular with readers of all ages, are left to gather dust on the shelves, or else, as in Pittsfield, Mass., they disappear from the shelves entirely High point of this reaction is in the case of a book of Japanese fairy tales which was thrown on the floor and trampled in indignation. Fittingly enough the perpetrators of this symbolic act of literary intolerance were a group of ten-year-olds.

Subjective Electricity

Nathan Milstein and Toronto Symphony Orchestra

Art welters in subjectivity today. A man no longer paints trees, but what he glibly calls "the soul of the tree"; which I suspect means "how I would have made trees if I had been consulted." In the same way one gets music played as the performer wishes the composer had written it. The usual complaint when one has strength to complain—is that most "interpreted" music is interpreted morbidly. Nathan Milstein brought down the house less right in the property of the p last night by interpreting Bach and Tschaikovsky an out-of-the-ordinary personality is certainly re-The imposition upon Bach & Co. of freshing; but one wonders whether any sort of personality should be so strongly imposed. It was refreshingly done-but should it be done at all?

I do not say that one wants mere mechanical striking of all the notes in their right order-à la Seitz. One wants meaning; but a reasonable attempt at the composer's meaning. I cannot have too much of the mind of Bach; but I am easily surfeited to be blunt-by the vigorous soul of Mr. Milstein When Milstein plays Bach I am happy; when he submerges Bach I am not. For Milstein is transient;

merges Bach I am not. For Milstein is transient; but Bach endureth forever.

Because Bach is dull to so many, he probably suffers least by being heavily interpreted. Mr. Milstein seemed thoroughly at home in the A Minor Violin Concerto, and the orchestra with Sir Ernest Violin Concerto, and the orchestra with Sir Ernest

Professor Wins Nobel Math Prize

At Least Rumor Has It To ronto Man To Be Honored For Multiplication By Roman

URK-SPLTT-FNFF, COMMENT

Stockholm, Sweden, Jan. 24-(CUP) Stockholm, Sweden, Jan. 24—(CUP)—According to an unconfirmed report published here today in the Swedish Railway Journal Allabord the recipient of the next Nobel Prize for Mathematics will be Prof. T. F. Mackerelweight, Assistant Curator of Long Lost Articles at the Royal Ontario Museum. Prof. Mackerelweight has been noted for his research into the problems of long division and multiplication in Roman numerals which he started last fall in numerals which he started last fall in the Faculty Union dining room and later removed, at the suggestion of Prof. A. F. Covercharge, to an upholstered study on Queen Street West,

(An eye-witness account of the in-auguration of these remarkable studies is published below.)

is published below.)

Conversation was lagging, and for no particular reason I happened to ask Prof.

Covercharge, who was sitting opposite me, how the Romans ever reached such a stage of civilization with such confusing numbers. "For instance," I asked, "how did they do long division?" "Oh, obviously they must have used an abacus," came the answer in clipped accents.

accents.
"Oh, surely that wasn't necessary,
Covers," was the amiable dissent of
Mackerelweight. "But you can't do it
any other way." "I don't see why not,"
Mackerelweight challenged and fished out a piece of paper and a pencil on which he set himself this problem:

XCV)MCMXXVIII

As Mackerelweight started to apply pencil to this problem Covercharge re pencit to this problem Covercharge remarked, "See, you can't do it, my dear Mackerelweight, you have no positional values!" The air of triumph was unmistakable. "But certainly, Covers, they are implied. See, XVC gives into M IX times."

"Yes, yes, but you are still thinking in terms of Arabic numerals." "No, not at all." "Yes."

"Noo. Let me work this out and I'll show you." With that Mackerelweight relapsed into silence and the conversation drifted away from Roman numerals, but at one point I heard him mutter "Perhaaaps, if I ju-ust learned to

"Perhaaps, if I ju-ust learned to mul-ti-ply fir-irst, then I could deduce a method of division."

A little later he startled the company by muttering, "Murshk, unkk, phunk-shmack," and I leaned over to see him hard at work on this problem:

XCV V

For a moment his muttering became intelligible and I heard, "V times V is XXV, put down V and carry XX." Then he relapsed into more snuffing and smacking sounds. It was at this point that Covercharge suggested the study on Oueen Street.

on Queen Street.

When I interviewed him there yesterday to get his comment on the Swedish rumor his eyes lit up most encouragingly (both of them) and his first remark was, "URK-SPLTT-FNFF"

When I begged his pardon he said, "Oh, excuse me. I'm sorry, but under the pressure of my studies I must have reverted to the Bantu aspirate dialect in which I habitually do all my thinking. If you don't mind, would you show the keeper that newspaper item and get me out of here?"

—Opphruss.

Burgess Wins 50-Yd. Dash, Time 5.8

Shackleton and Moull Finish First in Senior and Novice Half - Mile Events; Latter Breaks Record

NEARLY 500 RUNNERS

The final results of the half-mile and the 50-yard distances were obtained last night when the last of the numerous ramers had crossed the finishing line.

Cam Burgess maintained his hold on the top spot in the shorter distance, despite the threats of the conditioned Med team. Cam's time of 5.8 was unmatched by any of the other 379 runners in that

Tied for the second position with the time of 5.9 were Vern Booth (S. P. S.), G. Lewis (Meds) and Mathews (U.C.)

Mattews (U.C.)

The half-mile was divided into two sections, the senior and the novice. In the senior Phil Shackleton nipped in ahead of a classy field. The soph flash literally flew around the track in the remarkable time of 2.5.1, but was closely followed by Johnny Watts of School and Frank Fordyce also of School and Frank Fordyce also of School and Frank Fordyce also of School. Their respective times were Their respective times were 2.5.2 and 2.5.5.

A new junior indoor record was set If a new junior indoor record was set up as C. Moull of S.P.S. broke the tape in 2.10.6. Zeifman of U.C. was second in 2.16.2, while Hickman of Trinity placed third with the time of 2.16.9.

Some 117 participants invaded the half-mile field thus bringing the total numbers of runners in the two-day event close to the 500 mark, which brought joy to the heart of the track

Swimming Meets Schedule

The following is the schedule for the priliminary college swimming meets at U.T.S. Pool. They will take place from 7:30 to 9:30 p.m.

Nurses and Meds-Thurs., Jan. 27. Dental Nurses and S.P.S.-Wed.,

Dental Nurses and S.F.S.—W. Feb. 2.
Trinity—Thurs., Feb. 3.

TEARS IN OUR BEER ...

Plumb tuckered out after putting The Varsity to bed yesterday, Assistant Sportsed Mickey "The Lug" Michasiw staggered over to our side of the office.

"It's yours," he yawned, prying his eyelids open. "It's all yours tonight. Write me an S.O.S., will ya, please. Throw in some squirrels, a few refugees. Lots of that color and human interest stuff, Do anything. Make like Jim Coleman. Please write me a column for tonight."

Always a sucker for a hard-luck yarn, we consented, and before Michasiw's knees gave way, we rolled him under the office desk, propped his nodding head on a stray tin of Pard, and left him to his dreams of what the column would look like this morning.

Anyway, gents, here's some color. Some human interest stuff And our nostalgic tale begins with Jim Coleman.

A DROP FOR JIM COLEMAN . . .

As a matter of plain fact, we did know Jim Coleman. We knew him two years ago, when the bespectacled admirer of Damon Runyan was pounding out copy for the radio news department of The Canadian Pres. Coleman, whose face now smiles down at readers of the Globe and Mail's sports page when they turn to his morning column, was then a rewrite editor for C.P.

then a rewrite editor for C.P.

That meant that his duties included writing news, features, bulletins and four special columns, all of which were flashed to radio stations throughout Canada and read to an eager public by some milk-and-honey voiced announcer. One of these columns—which he dearly loved—was a sports column; and another was a farm fare column, which he probably dearly hated and which undertook to instruct farmers in the care of their kith and kine.

We get the second second of the beautiful properties of the second of the second

We got to see Coleman at C.P. because we were then a humble copy

That meant that our duties included answering the beck and call of any rewrite editor, who felt like ordering us to procure some bagels, Pepsi Cola and Sweet Caps at the corner bagel bistro on King Street.

Coleman was never a man to indulge in bagels, but he was a push-

over for fat, cellophane-wrapped cigars, whose aroma, it seemed to us, had an affinity with the odor of used-up tires smouldering stalely in Miltonian Purgatory. It was a pleasure particularly to watch Coleman inhale deeply of one of his El Ropos while he was in the process of writing his radio sports column.

Coleman exhibited a vehement adoration for that sports column was the crowning moment of his daily existence, and the writing it was contrived with all the fondness of a co-ed for her first college date.

When he was hot in the throes of creation, he would thump care fully at the typewriter, and he would grip the El Ropo between perspiring lips as he puffed clouds of smoke to the ceiling. It was a serious job, this writing of a humorous column, and the size of the puffs were always a sure indication of the excellence of his copy.

When he was middly aroused, only tepid smoke-signals would escape. But when he was hep, he was a joy to watch, and it was difficult to judge whether his El Ropo or the Sam MacBride Ferry smoke-stack were more procreative in steam.

The epic would reach its conclusion. And then Coleman would snap the story out of the typewriter. And chewing his cigar, lips still rigid, he would read the column carefully, blue-pencilling any errors. Almost ruefully, the column would be submitted to the teletype operator, and it would then find its way to the radio stations wimming meets) are intraumula; and still throughout the land.

AND A SOB FOR SCOTT YOUNG ...

While Coleman would ponder long oved his gems, Scott Young would dash out his words without hesitation. Young was the C.P.'s newspaper sports writer, and his by-lined Sport Snapshots column would appear in most of Canada's journals.

We we were at C.P., Young—who was later to become a correspondent in London—amazed us at the abandon with which he turned out his copy. He would place his two index fingers to the machine, and then pick at the keys so quickly that the rush of air so caused would remind us of Dagwood Bumstead's notorious morning "SWOOSH" to the busstop.

But while Coleman was a contriver of colorful tales. Young wrote

BOXING & WRESTLING Thursday at 12.30 Athletic Directorate Room, Hart House

- Friday SWIMMING Athletic Directorate Room, Hart House

N.B. The Junior Interfaculty Meets to be held next week will be arranged at these meetings. Please be on hand.

ATHLETIC FEE PRIVILEGES

Women's Bowling Club

Bowling privileges under the Athletic Fee are available to women students on payment of the additional \$1.00 fee for 20

Arrangements have been made as last year with the MIDTOWN BOWLING ACADEMY, 503 Bloor St. West (West of Brunswick Avenue) for rental of alleys any weekday afternoon before 5 p.m. and Wednesdays before 4 p.m.

Members may begin to bowl at any time, and should register with their respective faculty or college representatives or phone ISABEL GEMMILL, VIC IV, KI. 2789

In return for the \$1.00 fee the applicant will receive a numbered card, which must be turned in at the bowling alley before the stu-dent can bowl. The applicant should indicate the time she prefers to bowl and an alternate time, also indicate any groups desiring to bowl together. Five or six is the best number for a team.

The Sportswoman

snap the story out of the typewriter. And chewing his eigar, lips still rigid, he would read the column carefully, blue-pencilling any errors. Almost ruefully, the column would be submitted to the teletype operator, and it would then find its way to the radio stations throughout the land.

Then Coleman would turn to some news item or feature, or maybe to the farm fare column. It was true that he continued to smoke this cigar while working. The El Ropo would be jutting out at an angle. Its end would be glowing. But now, with the sports column completed, the puffs of smoke were mere minutea, insignificant, without vigour, without life.

AND APOTENTIAL MERNAIDS???

Swinning Meets—great things! Specially when the participants are of the supposedly weaker sex!! More specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural; and still more specially when they (the swimming meets) are intramural swimming meets) are intramural swimming meets) are intramural swim

Thursday 3.30 p.m. 5.00 p.m.
Friday 4.00 p.m. 5.00 p.m.
(Anyone interested see your college or faculty swimming rep.)

We we were at C.P., Young—who was later to become a correspondent in London—amazed us at the abandon with which the turned out his copy. He would place his two index fingers to the machine, and then pick at the keys so quickly that the rush of air so caused would remind us of Dagwood Bumstead's notorious morning "SWOOSH" to the busstop.

But while Coleman was a contriver of colorful tales, Young wrots simple sentences, and once you had read one of his stories, you knew that his facts were as impeccable as Shadrach, Mishach and Abendigo.

The reason why we mention Young now is that unlike Coleman, he never smoked cigars, but always had a cigarette in his lips while writing. That he was an excellent writer of sports stories while calmly smoking his cigarettes, no one would argue.

So, the moral of our story today is that if you want to become a famous colorful sports writer like Coleman, gents, smoke a cheroot. And if you want to be a famous clear, factual writer like Young some day, smoke cigarettes.

You't dinik by the sound of things that we were absolutely desperate ready to entice the aforementioned participants into aquatic neady to entice the aforementioned participants in a to advite the aforementioned participants in a to activities by any available means. Maybe we are! There are !! teams, heaver, entered in the meet this year; namely: U.C.; Trinity: P.H.E.; St. Michael's; O.C.E.; Vic; S.P.S.; Meds, Nurses; Physical activities by any available means. ART, MUSIC & DRAMA

and heaved to a heaven-storming finale that drew forth the last resources of the orchestra; it is to Sir Ernest's eredit that he never let such turbulent material get out of hand, confronting his get out of hand, confronting listeners with the highest artistic para-dox — enormous power wielded with lassical restraint.

NotwithstandingSibelius' repeated de-nals of programmaticism, most listeners persist, I think rightly, in connecting the nood of his works with the sullen out door starkness and grandeur of Fin-land. His departure from the Wag-nerian concert-hall atmosphere is the most healthy feature of his works. The very winds blew through last night's interpretation.

Footnote of relief-Torontonians generally tremble when their orchestra essays extended passages for the horn; but for once, throughout the droning introduction, the solo first horn wavered

not.

1bert's delightful Divertissement is a thing of joy from beginning to end. The pomp of the well-known Wedding March interrupted sardonically with the brash sarcasm of the trombones was brash sarcasin or the dominones was especially funny; the sly waltz to end all waltzes continued on this plane of high comedy, and the pompous parade with the exuberant outbursts of the planist rounds the work off on a note of joyous humor. I doubt if the staid T.S.O. fully realized the comedy they Isso, may reassed the tonico mey were supposed to be playing. Perhaps the players' solemnity adds to the deadpan comic effect; but this comedy is hardly deadpan. I found it much pleasanter to listen with my eyes shut and imagine the players were smilling. There is such a thing as being too businestilks. businesslike.

Students such a tuning as being too businesslike.

But to return to Nathan Milstein. His besetting pitfall of over-interpretation yawned wide throughout the featured Tchaikovsly Concerto in D Mojor. The audience did not yawnthey lapped it up. The soloist's early strident tone was conquered by the time the second movement was well under way, but it marret the strange cadenza of the first. In fact, Mr. Milstein chopped his way through that cadenza in a very strange manned indeed. He laid bare his soul, and it was all wires and currents. But his impatient wilfulness was strangely suited to the mood of the restless Tchaikovsley.

The second and thir movements were Tooling to the mood of the restless Tchaikovsley.

The second and thir movements were treated in a more approved manner, al-though the soloist was a bit smothered though the soloss was a bit smothered at times under masses of orchestral tone. After rounds of applause following a brilliant ending he obliged with a set of Wariations on a Theme by Paganini which fully exhibited his authoritative style.

All in all, this was one of the most concerts we have attended, ably the most thoughtinteresting

Senior Social and Philosophical Students Talk on Value, Students Talk on Defects and Future of Their Various Courses

OPEN DISCUSSION FOLLOWS

Students in their third ad fourth years of Social and Philosophical studies participated in a panel discussion on the topic, "Where do we go from here?" at last night's meeting of the Modern History Club, held in Wymilwood.

Each of four courses, Political Science and Economics, Modern History, Psychology, and Sociology, was represented by a senior man and woman, who spoke for six minutes on their respective

Members of the panel were, from Modern History: Beth Gibson, IV Vic, and Frank MacDonald, IV St. Mike's; Political Science and Economies: Mary Aitken, IV U.C., and Paul Fox, IV
Vic; Psychology: Ruth Tobias, IV
U.C., and Ben Holdsworth, IV U.C.;
Sociology: Barbara Rowe, IV Trinity,
and Muni Frumhartz, III U.C.
The representatives stated their reas

The representatives stated their rea-

might be expected to enter.

They agreed, generally, that the value of any course does not lie in its factual material, but in the fact that it trains the individual to think, and thus is a good background for whatever career

ne may follow.

In the open discussion which followed, criticism was levelled at the pass options offered during the courses. Some expressed the opinion that the Social and Philosophical Courses were to specialized, and that a mathematical or scientific subject should be introduced as a pass option. Other speakers felt that, as the student will choose to specialize sometime, he cannot go on puttering about forever in an attempt to learn something about the exception.

Members of the first year course in Social and Philosophical Studies, who will have to choose among the various courses next year, took part in the discussion.

Visitors' Day at Hart House

Next Sunday will be visitors' day at Hart House for members who may bring their friends, including ladies, to see through the building between the hours of 2 and 4 in the afternoon. The annual exhibition of photographs by members of the House will be on view in the art

Prison Camps Subject of Talk

"Prisoners of war who have had intellectual interests in civilian life, such as students, are the ones who are able to bear up best in the life of a prison camp," Prof. H. Boeschenstein told the German Study Club last night. Dr. Boeschenstein, Assistant Professor in the Department of German, is on leave of absence for the duration of the war. H. is doing Prisoner of War Relief.

Service (I.S.S.).

The opportunity to learn new things is asked for by all prisoners. Schools are setablished in almost every camp, od background for whatever career may follow.

Subsidized Education

The following editorial on subsidized education was an entry by R. T. Mansell in The Varsity Christmas Issue essay contest. Although it received honorable mention it was felt that to publish it in the same issue with the First and Second Prize winners would be too much of a good thing, and it was decided to hold it for publication here early in the New Year .- EDITOR.

Few thinking people in this country are aware of the thoughts of the so-called lower classes regarding democracy. The average working man has decided that democracy isn't succeeding under our present system of free enterprise. Some are out-and-out socialists, while the more conservative think merely that democracy needs a lot of house-cleaning. It is the vote of these people that is going to effect any change in our type of government.

Theoretically, democracy gives men equal chances of advancement in life. Actually, only a boy whose father is in the higher income brackets can obtain the education which leads to self-improvement. True, there are students now in university whose fathers are lathe hands, diamond drillers and pattern makers; but these are far outnumbered by others to whom the price of a degree is not as great. True, we have scholarships which go to the boy of poorer just as often as to one of richer means; but there are not enough of these to offset the advantage of the upper

Taken as a whole, democracy has become stagnant. Present-day Lincolns are few in comparison to the numbers of well-off yet mediocre students. There is a flow of talent from the lower to the upper classes (which is one purpose of democracy) but it is now so slow as to be imperceptible.

The reason is of course that it is uneconomic for some boys to continue their education beyond the age of sixteen. If they remain in school they not only cost their parents over three hundred dollars a year directly, for food, clothing, board and recreation, but they decrease the family's earning power by a thousand dollars. (This latter figure will naturally vary; when it was low during the depression, the effect was literally to force children to stay in school.) Is it any wonder then that ambition is squelched by the boy's desire to get out family finances? This discussion neglects the education of women, a problem which is more complicated but which has less effect on our system of free enterprise.

The conclusions are radical by present-day standards. To keep a body such as those described in school until matriculation would require at least a thousand dollars a year; to foster an incentive to continue into university would require fifteen hundred. The enormous funds involved would have to come out of the taxpayer's pocket, but wouldn't to come out of the taxpayer's pocket, but wouldn't it be worth that price to retain the freedom to the democratic way of life? This system would be comparable to the subsidized education of the U.S.S.R. and if Russia can support such a plan

students of all income groups, but this would still give the son of a rich father an economic advantage. A sliding scale of bursaries could be used, according to which a boy would be given only a small per-centage of the sums suggested if his father were in a given high income group. Another possibility would be to restrict attendance as to scholarship by entrance and annual examinations, for already tandard of education is beyond our national and industrial requirements - in the depression years many university students went without work.

A combination of these last two possibilities would give a system closely resembling that of Soviet Russia. In other words, it is my contention that Russia. a socialistic system for education is required to make free enterprise system in business democratic. This conclusion is paradoxical and as mentioned before, radical by the standards we have set up. It presents a challenge, but if we are idealistic enough to consider free enterprise worth preserving, steps will have to be taken soon after this second of We have enlisted the common people to help defend our way of life; we must therefore make that way of life worth while to them.

Give Till It Hurts

Looking back over the four and a half years during which the University has been part of a nation at war, there is apparent, among other things, a tremendous enthusiasm about those three letters, I.S.S., coupled with a strange lack of feeling or even of knowledge of their meaning on the part of the average busy student.

These three letters letters stand, as you will read sewhere in this issue, for International Student number of others to make education available to prisoners of war, internees and refugees the world over. To them the opportunity to study must mean far, far more than it does to most of us: it means food for their minds which would otherwise residue to the food for their minds which would otherwise residue to the state of art.***** You will probably reply, sin, that "The Varsity" is not the Encyclopedia Britannica.****** Alright, but after all, I can read the continuation of the state of the st idleness, and it means the establishment of learning as something they must have if they are to emerge after the war as citizens of value to their countries.

The problem used to be a small one: now it is and still growing as more and more prisoners are taken by both sides in the present struggle. Consequently it needs support on a scale which has been considered before and the financial objectives set before us for tomorrow's drive may give use quite a shock. Most students here are fortunate enough to be able to spare a dime, as they did for the same cause in the March of Dimes two years ago, but most of them will think they have to cramp their budgets considerably in order to dish out the dollar which is expected from them tomorrow. And they will find that this drive will be far less of a slap-happy gala, mass horse-play festival than past ones have been.

But they will realize that the matter is serious; that they themselves have had to give up much of the colorful, youthful display of college life on this continent in order to become students in a real ense; and even so they are incomparably more fortunate than those whose careers have been torn away from them or stalled at the dead monotonous evel of life behind barbed wire.

And if those privileged to be here think a little further they will be impressed by the fact that some-how in the midst of this world torn by the ultimate arbarity of modern war both sides allow the torch of learning to be carried to those who are being kept at great cost out of the fight. It will really ecome a matter for pride to be one of those asked to contribute to the furtherance of this paradoxical bit of progress in the midst of calamity

It is a fact that, while the rest of the life-energy of the greatest powers of the world is being used up in a process of systematic mutual destruction, two organizations, the Red Cross and the Y.M.C.A. have access to the unfortunates of both sides to help them bear through it all. The I.S.S. too is inter-national, but to simplify the international procedure, it works through the Red Cross and the "Y," carrying on the work of making knowledge available to hose who must have it if their minds are not to become stultified by years of captivity. And this is work that has been done now through the two greatest wars in history: there are professors of the University of Toronto who were by similar efforts kept mentally going while incarcerated in Germany during the last war; there is even the well-known case of Sir Ernest MacMillan who wrote his oratorio on Ode to England for which he received his Mus. comparable to the substituzed education of the U.S.S.R. and if Russia can support such a plan surely so could we.

In detail the plan would become complicated as several methods could be employed. A gift of the sums suggested might be given indiscriminately to

Come Single

the College Papers

As we have mentioned earlier in the year, this is the students' paper and any student has a right to make use of The Varsity for the expression of his views on current University affairs. We would be glad to print anyone's opinion on any subject, whether contrary to or in harmony with our own editorial comment.

University students are dedicated to the search for truth, and they seek to arrive at their goal by the use of logic. Methods learned in the classroom may be well applied to the world, and the extent to which they are applied is a measure of a graduate's

Contributor: Shall we tell the one about the cheer leader? Editor- Now, now---no rah jokes.

MORE ABOUT "A" NITES . . .

All you guys and gals in your startling tartan shirts had better get in line early come Saturday night. Communiques from Hart House, theatre of action on that occasion, promise a really worthwhile show. Jimmy Graham, U.C. athletic director, tells us that the informal theme is to be stressed. Suit coats and clinging gowns are strictly taboo. Evidently the females are expected to appear as infemimine and the males as comfortable as possible.

And they also tell us that it is to be a "come single; go home as you please affair." That means you can come stag if you want to and you won't be ostracized for doing so. What's that you say, Graham? Oh, you say that this applies to babes in particular? Fine, I'll tell them that. Pardon me, dear readers, but that was Graham again. He says that this applies to babes in particular.

A final word from us. (Graham takes over this chunk of space tomorrow.) Tickets are available at the side door of Hart House. The one leading into the athletic wing. For further details tune in at this same time tomorrow.

TRACK HIGHLIGHTS . . .

School has crept up to pass University College and take over third place on the ladder. U.C. has thus fallen to fourth. School's jump can be attributed to the huge entry list of baseball and basketball teams. This standing is complete to date and contains the points warded for team entries in hockey, baseball and basketball.

Meds ... 4,051 Emmanuel ... 1,645 Ayd Ekono ... 1,525 S.P.S. ... 3,279 Victoria ... 1,203 U.C. ... 3,131 Wyeliffe ... 1,003 U.C. ... 3,151 Wyeliffe ... 1,003 U.C. ... 1,515 U.C. ... 1,51

Just behind the place men in the 50-yd, event there was a sizeable host of runners locked in the runner-up spots. Seven men clocked a six-second stretch. There are Bachynski and Dyer of Meds, Sibert of S.P.S., Bauman of U.C., Johnston of Forestry, Castaldi of Dents, and Hichiki of Vic. A tenth of a second behind were Price of S.P.S. and Young of Meds.

and Young of Meds.

Now comes our moment of triumph. Remember Bob Delaney's rash promise that Meds' George Lewis would defeat Cam Burgess in the 50? We do, and we think Delaney does too. At any rate, Bob promised to eat George's entry form if he didn't come through with the lowest time. Unfortunately for him, Lewis missed out by a tenth of a second as Burgess clocked 5.8. And now we're waiting to see Mr. Delaney make with the mastication. Are you ready, Bobbie?

The Sportswoman

By Helen Stewart

It was a game well worth sceing—please note, all you hockey enthusiasts who were not there—as Vie II took U.C. II to the tune of 2-0 yesterday afternoon in Varsity Arena. Though lacking experience in stick-handling and passing, both teams made up for this with their spirit.

The Scarlet and Gold put on a power drive during the first three minutes of the game as they swarmed about the U.C. net. Despite the edge the "Vicettes" had over their opponents no goals were scored in this period. Vic's goalie, Helen Cox, blocked a good play by Eileen Gallager, U.C.'s center and its outstanding player in the

game.

In the opening minutes of the second period Vic chalked up its first goal as Marylysbeth Barker, on an assist from Janet Hardy, sank the puck in the U.C. net. A few seconds later Barker stick-handled her way past the opposing defense to earn her second goal.

The last ten minutes ended with a drive on the Red and White goal, but their goalie made some sensational saves. Beryl Rutherford, a Vic forward, made a nice run on the goal but her short was blocked.

On the whole the Scarlet and Gold earried the play but U.C. starred in several rushes. Their passing technique was rather nil but in spots their fast skating proved superior to that of Vic.

It is encouraging to see so much enthusiasm and spirit among the players of the second teams. Who knows but one of them might be a dark horse who will play off against the winners of the first group, and perhaps win those elusive Junior "T's."

ICE NEWS . . .

ICE NEWS...

Shirely Pearse tells us that Vic ice will be no more. Consequently arrangements have been made to use Varsity Arena to complete the schedule and insert the games that have not been played owing to inclement weather. The schedule is divided into two groups, A and B. The First two teams in A group will play off as will the best two in B group. The semi-finals will find the first teams of each group battling for the final bout. Up to the finals only one game will be played instead of the usual home-and-home affair. But the finals will have two games. Thus each team will have played each other at least once . . . so says the new schedule.

hither and yon

with kenner and elliott

offence is far superior to the German blitz method of attack."

"But look at the casualties the Rus-

sians are suffering." Then came the Tuck Shop attendant's raucous voice, "Hey, you two guys, bring yer mugs back when yer through with them."

We hate to do this, because it's our favorite professor; but the fact that he's a nicotine fiend isn't our fault, is it? a moother held lish to direct the Anyhow, this savant just can't get through a lecture without dragging several Chesterfields down to half-inch stumps. So just to be fair he passes out tin ash-trays in one of those seminar rooms in (censored) college where

"But please," he implores thickly through smoke-filled air at the close of the lecture, "please dump all those ashes out the window. Because Professor (censored) has the next period in here and I've been keeping this from him all these years!"

Then there was the day last fall when we walked by an open door in one of the Arts colleges and as we looked in we heard a professor holding forth to his class thusly, "The pernicious in-sinuations of the Eleaties are obnoxioussimuations of the Eleates are comoxious-ly vituperous." And the next time we saw this professor, mind you, he was hunched over an open pay phone at a local eatery saying, "But I tell you, they don't open till four o'clock."

And they are human too. At one of those select fittle three-man classes where an absentee sticks out like a floor, prize-fighters missing took, one of The Varsity's ubiquitous humorists was has it in for me."

We were never ones to talk down professors. Or even laugh up our sleeves at professors But when professors of their own fre will, mind you, start doing hitherish things we can't help it if we happen to be hovering, pixel-like, at their elbows. And we have a handy little note-book, too. Sooo ... *

When we last went into the Tuck Shop in Hart House to nuzzle a dram or two of their victous "coffee," we found two professors from the little red schoolhouse at each others' throats over four o'clock coffee and doughnuts. Strategy and battle-tactics were the topics of the argument and the near-free-for-all wound up like this:

"The Russians have definitely proved that the long elastic line of detence and offence is far superior to the German blitt method of statak!"

We hate to do this; but this particular professor really asked for in 4 third year honor philosophy studed was seminaring an afternoon away with his method of estatak!"

We hate to do this; but this particular professor really asked for in 4 third year honor philosophy studed was seminaring an afternoon away with his method of estatak!"

We hate to do this; but this par-ticular professor really asked for it A third year honor philosophy student was seminaring an afternoon away with her arms folded over a ponderous tome and her head nestled neatly and comand her head nestled neatly and com-fortably on her arms. Sleeping soundly, she was awakened by the appearance of a young character who looked down on her and said, "Frightfully," she answered with an annoyed frown and turned her head away from this bothersome character (heh, heh). So bothersome character (heh, heh). So this bothersome character sits down at at the other end of the table, puts down a weighty tome, opens it, folds his arms over it and deposits his noodle down for a quiet snooze. Said honor philosophy student strides out of the room in a huff and just before she slams the door says, "Frightfully interesting book, I imagine?"

Guess who was whose new professor.

Guess who was whose new professor at the beginning of the spring term?

Aristocracy is not for us. Hoi polloi rubbing elbows with the gods is our meat. But sometimes it happens for the darndest reasons. A while back we spotted a youngish professor shyly fork-ing over his two bits and a bit in the Hart House Great Hall and teetering over his place, tray in hand, with evident discomfiture. When we sat down op-posite, he was trying to look an unprofessorial as possible. But we were

merciless.

"Faster down here, eh?" we opened.

"No . "Food better maybe?"

"Softer scats than up there?" (point-

Sends Team To Debate

McMaster University representatives will meet Victoria College debaters in the first intercollegiate debate on this campus in the new year, Glenn Ten-nant, Prime Minister of the Victoria College Debating Parliament, announced

The debate, which is to be held at 8:00 p.m. Tuesday, Feb. 1, at Vic, will be on the topic, "Resolved: That Ger-many should be granted a liberal peace."

many should be granted a liberal peace."
Upholding the affirmative, the McMaster delegates will be opposed by a
Vic team composed of Kae Thomson,
III Modern History, and Paul Fox, IV
Political Science and Economics. Fox,
who is Speaker of the Victoria College Parliament, will step down from
the chair for the night to engage in the
contest, while Ralph Hicklin, IV English Language and Literature, will take
his place. his place,

Questioned on the debate, Miss Thom-Questioned on the debate, Miss i nom-son said she thought the topic was of much importance at this stage of the war. "My colleague and I have decided to take a certain line of argument in the debate. I think it should prove inter-esting," she added.

Commenting on the subject, Fox said, Commenting on the subject, Fox Said, "The debate should provole some in-teresting discussion, but I'm afraid the title of it is a bit vague. In fact, the only thing definite about it would seem to be that 'liberal' is spelled with a small I'. However, that's probably our fault, since we selected the resolution."

Prime Minister Glen Tennant expressed pleasure at being able to have his government play host to the Mc-

Wycliffe College, The Reverend M. A. C. Warren, General Secretary of the Church Missionary Society of England, referred to the honor done the link between the Church Missionary Society and Mission work in Canada, and the additional honor and encouragement given to the teaching of theology. In speaking of the work being done by theological schools all over the world, Dr. Warren mentioned, among others, the Union Theological College of Canton now in exile.

Dr. Warren was presented for the

over Dr. Warren's lead by The Reverand R. Armtiage Principal of Wycliffe College.

In presenting Dr. Warren for the
degree Dr. Dixon reviewed the candidate's career as a young man of
aissionary family. Dr. Warren gradutated from Jesus College, Cambridge in
1926 with a double first in History and
Theology. After studies in Riddey Hall
the went to Nigeria as a missionary, but
was forced to return after a few years
because of ill health. He was ordained
in 1931 and 1 1936 was appointed to

D.D. Degree

In acknowledging the degree of Doctor of Divinity (Honoris Causa) conferred upon him last evening by Wycliffe College, The Reverend M. A.

Dr. Paul Dominique Vignaux, a member of the staff of "L'Ecole Libre des Hautes Etudes" in New York, who is travelling in Canada under the auspices of the War-time Information Board, discussed the question of "Humanism and Theology in the Middle Ages" at Teefy Hall, St. Michael's College, yesterday.

Mrne. Vignaux, wife of the All of th

yesterday.

Mme. Vignaux, wife of the 40-yearold professor, who acted as his interpreter, told The Varsity yesterday that
Dr. Vignaux was a graduate of the
Ecole Normale Superieure de Paris and
had continued to study the history of
Medieval Philosophy under Professor
Gilson of the Sorbonne, and juristical
sociology under Professor Boulgé after
his graduation.

speaking of the work being done by theological schools all over the world, Dr. Warren mentioned, among others, the Union Theological College of Canton now in exile.

Dr. Warren was presented for the degree at the Missionary Convocation in the Sheraton Memorial Hall at Wycliffe by The Reverend Canon L. A. Dixon, General Secretary of the Missionary Society of the Church of England in Canada. The hood was placed over Dr. Warren's head by The Reverend Canon L. A. The The Tender of the Church of England in Canada. The hood was placed over Dr. Warren's head by The Reverend R. Armlage, Principal of Wycliffe College.

President Cody Issues Appeal For Student Support of I.S.S. Drive

Today we make our annual appeal for the students suffering in various countries under the hardsbips of war. Their needs range from books down to the very necessities of life. On us who enjoy the privileges and comforts of freedom in a land far removed from the actual horrors of battle and hostile occupation rests the responsibility of being our brothers keepers and helpers. I heartily endorse the effort now made on behalf of the International Student Service. Let us give according to our ability.

A g body

Skit-Nite Show Reveals Multifarious Talents

Tonight All-University Skit Nite lost 25 pounds as he strove to operate comes off in Convocation Hall—the first time since before the building of the The script calls for the house to be acceptable blacked out helf of the time Theatre in Hart House that a student Theatre in Hart House that a student show has been produced on Convocation Hall's stage. With a dance in Hart House Big Gym to finish off the day's L.S.S. drive, the show will be a combination of features from all of the various faculty productions put on by Meds, Dents, S.P.S., U.C., Trinity, all tied together by an All-University Orchestra. Orchestra.

Orchestra. A macabre scene was unfolded last night as the LS.S. show had its dress rehearsal. Against a background of sylvan scenery from a "Midsummer Night's Dream" production, doctors, dentists, switchboard operators and live dentists, switchboard operators and live paracher rubbed shoulders to the accomprability cavorted, as colored lights went on and off at random and the director gradually lost his voice. A 250-pound electrician running madly through a crowd of chorus girls and professors

four switchboards at once.

The script calls for the house to be completely blacked out half of the time, and a continuous flow of prop men stumble around picking up and dropping veird objects.

The Champus Cat's views on college

The Champus Cat's views on college women were aired for the first time, and the fabulous Sergeant McSlidrool made a personal appearance. A snake charmer, a male strip teaser, and a yogi or mind reader, with a battered and scarred stooge, lent the confused crowd an exotic air. The show is a mixer for the various faculties who have put on campus shows in the past year, and Meds, Dents, S.P.S. U.C. and Trinity talent rubbed shoulders to the accom-

Graduate Speaks To Philosophers

At the University Philosophical Club's third meeting of the year last night. Emil L. Fackenheim, a student in the School of Graduate Studies last year, presented a paper entitled "Some Metaphysical Implications of Prag-matism"

matism."

Mr. Fackenheim first outlined some of the pragmatic hypotheses as written by the American psychologist and phil-

by the American psychologist and philosopher William James. In place of the pragmatic theories of reality and truth, Mr. Fackenheim upheld a philosophy of Kantian transcendentalism.

Before his speech, Mr. Fackenheim pointed out that in yesterday's issue of The Varsity there were seven mistakes printed concerning his appearance at the club. These he hastened to correct, particularly the report that he had received his Ph.D. from Toronto last year.

Door Is Open To S.P.S. Visitors

The spring social season will be officially opened tonight as three of the engineering buildings are thrown open parents and other guests. to parents and other guests. For what is believed the first time, graduating students in civil, mechanical and electrical engineering will be able to shown to parents the laboratories which have figured largely in their conversation for the last four years.

In addition to the Electrical, Materials-Testing, Hydraulics and Heat Engine Laboratories, with experiments progressing under the hands of third and fourth year students, two extraand fourth year students, two extra-curricular features are to be added. A demonstration of photo-elastic stress analysis using polarized light and the Wind Tunnel, a mystery to most school-men, will be on display. Also, Pro-fessor Angus has consented to illustrate

All-Day Drive is Being Held as University of Toronto's Contribution to International Student Service

OBJECTIVE IS \$7,000

Today Varsity students are to put Today Varsity students are to put over another monster war service drive, this time LS.S. Day—for the International Student Service, the organization which makes possible the carrying on of university work even inside prisoner-of-war camps. Co-ed taggers, Harry "Red" Foster's Sound Truck, the Doughgirls of theatrical fame to open and take part in a fundraising street-dance, an All-University Skit Nite in Convocation Hall and a dance in Hart House Big Gym as a finale—all go to make up today's quota of activities to help raise Toronto's quota of money being collected from Canadian students to aid harassed student life elsewhere tion which makes possible the carrying on of university work even inside prisoner-of-war camps. Co-ed taggers, Harry "Red" Foster's Sound Truck, the Doughgirls of theatrical fame to open and take part in a fundraising street-dance, an All-University Skit Nite in Convocation Hall and a dance in Hart House Big Gym as a finale—all go to make up today's quota of activities to help raise Toronto's quota of money being collected from Canadian students to aid harassed student life elsewhere in the war-torn world.

From 8.30 a.m. until late afternoon blue-and-white and red-and-white tags are being sold to the students on the campus. The 50-cnt red-and-white tags will admit beer at Hart House afterwards. The blue-and-white tags at 25 cents will admit beare to the street dance in front of Hart House from 12.30 to 2.40 am.

to the street dance in front of Hart House from 12:30 to 2:00 p.m. Nearly \$400 has already been contributed to I.S.S. by various campus organizations, but the expanded operations being undertaken by I.S.S. and co-operating organizations with the vast present increase in the number of present increase in the number of prisoners-of-war, internees and refugees have resulted in a call for \$7,000 from Toronto students as their quota of the \$20,000 to be raised in universities across Canada.

I.S.S. is an international,

sectarian organization run on a purely student-to-student basis. Only students contribute to it, and the money is spent only on students. The I.S.S. was formed to meet the needs of students whom circumstances forced to leave their studies and enter a concentration camp to meet the needs of students whom circumstances forced to leave their studies and enter a concentration camp or set out for a new country. I.S.S. has given gifts to students ranging from entire libraries to single text-books, or a week's food. One-third of the I.S.S. flunds go to China, and the rest help students of every nationality in Europe and America. The scope of I.S.S. aid increases continually as new camps are opened up to I.S.S. representatives, and prisoners of new nationalities are contacted.

St. Mike's Ball

The first in a series of four lectures on "Pillars of the United Nations" was given by Professor Chester Martin, Head of the Department of History, yesterday afternoon, in University College. The series, Dr. Martin said, was "an attempt to explore the potentialities of the four great powers who have set their hand to that task at Cairo and Teheran." Prof. Martin's subject was "The British Commonwealth," and the succeeding lectures will deal with the

whose basis of its unity changed, although the process of this expansion to full nationhood of colonies is even now not as well known as it should be. India is the one part of the British Empire which is now officially an Empire, and it may remain so after it has gained its full nationhood.

Now we are no longer beld together

it has gained its full nationhood.

Now we are no longer held together
by an imperial administration, but by
the bond of a commonwealth symbolizing the common good, a bond so

FRIDAY, JANUARY 28, 1944

One Last Word

For the past week and longer the columns of The Varsity have been filled with articles, features and editorials about International Student Service and their annual drive for funds. We have explained at length what the I.S.S. is, what it does, and what it needs. We have tried to impress the students with the fact that this is our charity, that students are the logical people from whom financial support should come. Today the drive is on and the whole thing passes out of our hands and into those of the individual student. We rest our case and await the final verdict, the response of Varsity men and women.

That this response will come up to expectation is a debatable point. If everyone continues to regard today's drive as just another tag day it certainly not. Toronto has become inured to tag days The average person has become resigned to his fate and stoically parts with his dime and wear a tag without inquiring into the day's beneficiary. This is not conscious benevolence. It is merely the sacrifice of one insignificant dime to insure protection against the importunate taggers who pursue the pedestrian with a zeal born of conviction. You can imagine the victim's wrath and consternation when confronted with a request for 50 cents, not ten. It is unthinkable, it catches him in his most vulnerable spot. Ten cents is nothing, but 501 Why that represents hig things in the mind of the perpetually penniless undergrad. Even the added attraction of admittance to a Skit Nite and dance will not reconcile in his mind the expenditure of so great a sum for an ordinary, everyday tag.

This is the crux of the whole matter. And the

success of the drive may well depend on whether ore success of the drive may well depend on whether or not the average undergraduate has been sufficiently impressed with fact that this is no ordinary tag, that his 50 cents does not purchase a tag and stop there. When you consider the purpose of this I.S.S. drive and the use to which our contribution will be put, even the startling quota of \$1.00 per student does not seem exhorbitant. We spend many a dollar on foolishness throughout the year with never a thought for its passing. We do not grudge those dollars because we consider the purchase worth the expenditure. Our tranquility lies in knowing what we are getting and considering the price a fair one. After the past week's campaigning every student should know exactly what the I.S.S. tag represents and should be happy enough to pay the price.

It is an accepted fact that the proceeds of today's tagging will not even approach the U. of T.'s \$7,000 quota. Granted also that we should come as near to achieving this goal as possible, there remains a further duty for every student on this campus. One way of helping to boost the total has already been brought to light and put into practice by the Trinity College men who voted that an extra assessment of 25 cents each be made through their Board of Stewards and presented to the I.S.S. as a lump contribution from Trinity College. If this practice were to be followed in every college and faculty the objective would be ours

Do You Think?

Life in a residence is hectic at best, but even more sa when the harassed editor sits down befare a typewriter and attempts to disappear in a haze of cancentration from which there will emerge hours later

the ghost of a former self and two calumns of editorial comment. This cancentration is complicated ore often than not by surrounding chatter af loungers who grossly underestimate the labor entailed in that mose awesome task, the writing of an editorial. We encauntered two such scaffers yesterday who held forth at great length on the simplicity day who held forth at great length on the simplicity of such an undertaking, on the poor choice af subjects made by The Varsity's present staff af editarial writers, and on the ability of "anyone" to sit down and rect off a satisfactory calumn. Tired and beaten, we accepted the challenge and held them to the writing of an editorial. They approached the task with tongue in check but the heated arguments which engued between our Third Van Pare sel. which ensued between our Third Year Pass collaborators convinced us of the sincerity of the opinions odvanced. For this reason we print their finished product. For this reason, and also that they too may have the experience of reading in the cald light of dawn the inspiration of the night before. -FDITOR.

In view of the fact that sufficient editorials have been devoted to dull, uncontroversial subjects (such as the upkeep of the campus grounds), in this editorial we would like to present views pertaining to the sterility of the student mind. The disease of this generation lies in its mental inactivity and laziness, its failure to formulate individual ideas. This is due in part to a system of education which deteriorates rather than stimulates the intellect; in part to the fact that the student has taken advantage of this condition and has allowed his mind to become passive, ready to accept views without challenging their veracity or investigating their foundation. This state is below the dignity and capabilities of the human mind. It renders the student subservient to scholastic authority, reducing him to the status of a slave to the dictatorial professorial system.

This deplorable condition arises from spoonfeeding on the part of the professor. He doesn't deem the student capable of thinking for himself and conequently presses upon him his own ideas which may or may not be correct. As a result, the brow-beaten student himself adopts the same unfortunate Instead of thinking for himself and forming individual opinions the student finds himself quoting stale, second-hand information and nine times out of ten leaves the campus after four years without completely investigating all sides of any one issue. Acceptance of a professor's view is com-mendable in so far as the student understands and is completely converted but there are too many students who stolidly note every word the lecturer utters simply because they want to pass an xamination.

The typical attitude of the individual student is: "Why should I bother? You can't expect me to do better than the professor." Therein lies the fundanental fallacy. Is the professor infallible?

We urge the professor to realize the potentialities of the student, to encourage him to think for himself, to lay the facts before him but permit him to accept and refute as his mind dictates. As for the student, n an age of such great intellectual possibilities it is his duty to take advantage of the wealth of learning laid before him. He should realize that it is a privilege, especially in these times, and that his will be the job of reconstruction after the war.

Correspondence

The following letter is not published with any feeling that it is of vital cancern to any great section of the student body, but because it is signed and in consideration of the joyous maydron inflicted on its ananymans precursor we feel justified in printing it, although we were brought up never to toke dares—The Editor.

The Editor, The Varsity. Jan. 27.

Re: Yesterday's "Cat"

Dear Sir,

My lawyers have informed me that I am entitled to sue The Varsity on account of:

a) Adding asterisks to my letter without also adding "Our Asterisks."

b) Putting it in the "Champus Cat" column. (Your added treatment proves my point!)
The word "LIBEL" is defined on page 995.

Volume XIII* in Encyclopedia Britannica My lawers receive appoligies between 9-12 a.m.

every weekday, if you don't like making a public apology.

Now print this, if you dare!!

Yours extremely sincerely,

Disgusted Freshman (E. DEUTSCH)

**Bad Luck—W. C. Sellar and R. J. Yeatman on almost any page of 1006 and All That.

To Auction Whale At I.S.S. Dance

Whale's Many Uses Unknown to Average Home-Owner Says Chairman Announcing Grand Prize of Evening

MUST TREAT IT GENTLY

Usefulness will be the keynote of the articles to be auctioned at tonight's I.S.S. dance in Hart House, said auc-tioneer Slugworthy Z. Bidwell, announcthat the committee had secured a e whale to be offered as grand prize ol the evening.

ol the evening.

"Theatre tickets, purses, cigarette eases, chocolate bars, and the Works ol Homer are passé, especially since no one has now any time, money, cigarettes, appetite, or knowledge of Greek," went on Mr. Bidwell. "Hence we have tried to procure only really useful objects lor the big auction,"

"In pursuit of this policy we are offering as our grand prize a whale of a whale, Osear whole de whole, to fill a lack only too gravely felt in the

lack only too gravely felt in the verage home.

"In these days of want and rationing how many home owners really know what it is to keep a whale?" he pursued. "In one Toronto home at least we aim to fill that gap. A live whale will amuse the little ones for hours. Also it will keep away salesmen, insurance agents, Gallup pollsters, and representatives of the Evening Belly. Its roar will drown out the neighbor's radio, and by thrashing its tail it will air-condition your

"What other gift could mean so

Announcing that the whale was at present being kept in the Hart House pool and being fed Tuck Shop attendants, acting Warden Gilhooley declared that he was behind the auction heart and soul.

"They eau't unload the whale comebody too soon to suit us,"

Interviewed by The Varsity at hi home last night, Dr. Splittem N. Pickelem, of the Biology department, obliged with an oration on The Whale, Past and Present; the Whale in Christian and Pagan Art; the Whale in Music; and Are Whales Necessary? "I have inspected the specimen being anctioned tonight," he concluded, "and there is no doubt in my mind that it is a whale of a whale."

Adding that his love for whales was only exceeded by his love for mollusco and creeping things, Dr. Pickelem ex pressed the hope that the whale's new owner would treat it kindly. "You have no idea of the agony of a whale in an unsympathetic environment. Lonely people who keep a whale say that it is the most sensitive of mammals. The S.P.C.W. investigated nearly a dozen eases of Cruelty to Whales not long ago, and as a result we had to forbid utterly their presence in private homes. But this regulation is being waived lor the I.S.S."

A solemn warning from Col. Les Pants that any student in residence winning the whale and proposing to keep in would be required to turn in extra ration coupons damped no one's

extra ration coupons unique in ones ardour.

"I don't see why the whale's consumption of rationed meat should be heavy," said Dr. Solomon Grave, Provost of Trinity, citing the ease of the scriptural whale who lived three days on Jonah and gave him up unscathed

in the end.

School, Wycliffe Icemen Win Intramural Matches

SCORE 4-0

Jr. S.P.S. edged out the Medsmen in a hard fought hockey struggle last night by a margin of 4-0. The score was not entirely indicative of play, as the Meds were outlucked on more than one occasion, due in great part to the cool work of McDonough in the Blue and cold nets.

Play started off at a fast clip with for high-sticking.

Early in the second frame Brantford calminated a nice solo rush with a shot to the lower corner of the net to put the Engineers three up. Brownridge, who was carrying the mail in a big way, ended the scoring at the seven-minute mark in the second from a goalmouth scramble.

The game was cleanly played with The game was cleanly played with only thre penalties being called, the lind's share going to the winners with two. One of these caused a slight suffling of tempers when Davis went off for "grabbing the puck." The offender claimed he only shoved the puck but the whistle man waived him off.

The School the too like was that.

For School the top line was that of Brownridge, Sabiston and Sutton, while Bain and Davis got orehids for their rear-guard work. The Medsmen gave little protection to their goallie, Callaghan, who nevertheless pulled off some nice saves. Bailey and Gear on the front line turned in a smooth effort in

U. N. T. D.

All University Naval Training Divi-sion ratings intending to remain on Active Service for the duration of hostilities on the completion of their Academic year are to report to the Divisional Officer, U.N.T.D., Shy's Office, Hart House.

Office, Hart House.

Only those ratings who are remaining on Active Service on the completion of the Academic year are allowed to appear before a Preliminary Officer Candidate Selection Board, for selection as Officer Candidates. This board will be held in the very near future and therefore it will be necessary for all ratings to report to the Divisional Officer as soon as possible.

SCORE 5-1

Wycliffe emerged the winner in the hockey tilt with School in the Arena last night by a 5-1 verdict. Although the Wycs earned their win, they needed all their best efforts to do it, School just missing the occasions.

Wycliffe put on the pressure from the first bell, tying up the very junior Engineers with their close checking, Play started oil at a last clip with several end-to-end rushes from which School managed to slip the puck in at the nine-minute mark, Brownridge being the marksman. He added another just as the bell went to end the period. Gentles and Bain drew minor penalties was the sniper with a smart shot to the lower left corner. Harris set manager Lusil up for another sense the sniper with a smart shot to the lower left corner. Harris set manager Lusil up for another sense the sniper with a smart shot to the lower left corner. Harris set was the sniper with a smart shot to the lower left corner. Harris set manager Lyall up for another one a minute later. School then started a rally which put them back in the swim with a counter at the 12-minute mark, Stoddard from Fryer. The period ended with close checking and generally even

play.

At the start of the second canto the At the start of the second canto he V's put on the pressure which had a perfect backfire when Cunningham flipped one in from close range. After this lucky counter Wycliffe took the initiative, and kept it up for another score at the seven-minute mark, Lyall getting his second counter on a nice solo effort which dropped from the red line. Cunningham ended the scoring at 9.45 of the second period when he took Wright's pass for the fifth goal for the Blue.

The game was somewhat scrambly

with some flashes thrown in in the form of the goal productive rink-length rushes. For Wycliffe the line of Lyall, Harris and Cunningham were the main-Stays on the attack, with McDonald and Wright toiling to good avail on the rear-guard. Best men from School were Walker, Stoddart and Fryer up front with Glenn and Freebury on the blue-line. School were without the services of two of their key men, O'Sullivan and Mosher who were out due to the physical eligibility rules. School V—Morrison, Balleu, Venton,

Glenn, Heslip, Freeburg, Fryer, Walker and Stoddart (1).

Wycliffe — Storey, MacDonald, Wright, Harris (1), Cunningham (2), Lyall (2), Miller, Roberts, Lenon, Ross, Storey, MacDonald Halpenny.

WOMEN'S FENCING

Instruction today from 3:40 to 5:15 p.m., at the L. M. gym.

The Sportswoman

By Polly Mutz

SOME CALL IT SLOW .

The "Big Boss" has deserted us tonite for the more "inspiriting" (?) atmosphere of the Philosophical Society with instructions to let you know how the hockey games turned out. The scene of action was the Varsity Arena. The time was 12:30. Vic I defeated Trinity I by a score of 4-0, Billie Bain scored the first goal with a professional back-hand. In the second period, Leone Emerson took a long shot and scored. Shirley Pearse shot the puck in a scramble around the goal. Jean Brandon caught a neat pass from Leone Brandon in the final period to chalk up the fourth goal.

The skaters testified that the ice was good, the playing fast, and that Vie's goalie was much too awake.

The second game was between U.C. and P.H.E.. U.C. was the victor with a close score of 2-1. Pattison, for P.H.E., sank the first puck in the U.C. net, then the U.C. girls kept the action down at the centre at the other end of the Arena. Peg Graeb and Isabel Reid were the scorers for U.C., in the second and third periods respectively. The goal scored by Isabel Reid was "spectacular and speedy." Eileen Cameron skated up on the right of the goal, passed the puck to Isabel Reid. She shot—she scored! It was the final and winning goal, They boasted an excellent defence in Marg, Abbott and "Liz" Kennedy.

This team complained of poor ice, very slow play. We don't specialize in "Which paragraph d'ye read?"—but take your pick of slow or fast ice.

WE "TOAST" F.L.E. . . .

To return to "Home News' again, we'd like to say that the "Cup Cake Cuties—so dubbed by "Fuzzy Lipped" Elliott—have begun to sign up players for a badminton tournament. It is an interfaculty affair, and co-operation between Loretto and St. Joseph's to make up a crack team is urgently requested. The big problem is the shortage of badminton birds. We would welcome any suggestions on where to find either birds or substitutes for birds, with one exception. We won't accept Elliot to any terms.

Much interest and enthusiasm over bowling has warmed our hearts of late, when such warmth is greatly needed. The many gals of Loretto who have visited the Midtown Bowling Alleys have returned with glowing reports of the ultra modern alleys, and "Gee, what a reduction!" Get crackin', St. Joe's, we'd like to see you playing there with us, Teams are to be organized and may the better half of St. Mike's win.

School Emerges Winner Over Medsmen in Hard-Fought Hockey Struggle at Arena Last Night

Wycliffe Team Opposing School
V in Scrambly Tilt at Arena (EDITOR'S NOTE: Today's column is strictly a propaganda outlay sent your way by University College's athletic director, one of the hory on tomorrow night's athletic spree.)

By Jim Graham

By Jim Graham

Hi yuh, guys and gals and Dolls and Pauls. In our second attempt at writing this "hot" column we have tidings of great joy. Yep. the Athletic Nights are here again. This Saturday night at eight o'clock in Hart House U.C., P.H.E. and Knox play hosts . . . and whatta program. The night is strictly informal. The dress is plaid shirts for the fellas and sweaters and skirts and loafers and what have you—for the gals. We can't (so MacCutcheon tells us) toss you out if you wear a suitcoat . . but we can assure you that you'll be a sore thumb. So get in that spirit and we'll look after the rest. What's on the menus? Well, in the main gym the lassies are going to toss around the old basketball till the big game between Navy and our Blues. Don't turn your noses up, fellas, the girls can play basketball . . and even if there are some skeptics among you I am sure the game will prove interesting. In THE game our Blues struggle with Navy. At half time there's a ping pong display. Then . . . aw . . . then dancing. Thrown in here are some great attractions such as Lucy from U.C. (and you School men, she isn't looking for O'Toole from Skool.)

There are game rooms . . including a ping pong room for you layers of earlier sures.

master of ceremonies and get a prize.

So there's the night. . . . We'll be seeing you, and don't forget you can't get in after nine o'clock.

ART, MUSIC & DRAMA | tolerance.
Then tolerance | The tolerance

give this statement a blank denial, yet there are legions of people that frequently express varying degrees of disapproval of criticisms on the grounds that they are "wrong." Here they fail to realize that criticism, as a subjective art, can never be considered as "wrong," but can only be attacked as demonstrating immature judgment or lack of a depth of perception. In other words, a review that honestly attempts to delineate the writer's impressions is always correct in the narrow sense of the term, even though it may be open to attack on grounds of wildly unorthodox consideration of the subject.

What are some of these factors, then, that make different people view the same thing in vastly different ways? suppose someone writes plimentary review of ,say, a pianist, that plimentary review of say, a planist, that runs counter to one's own cherished opinion of that same pianist. Leaving aside the rather remote possibility that this particular performance may have been far below the artist's usual stan-dard, there are several other consider-ations that enter into the picture. On the performance side, there is the de-gree of interpretation given the music. A man who has gone to hear a com-A man who has gone to hear a com-poser's ideas is unmoved by the mere expression of those of the artist's, and

the reverse is equally true.

But perhaps the chief causes of personal predilection lie in the sphere of the music played. To cite an extreme the music played. To cite an extreme example, a person who considers that music is the expression of an intangible ideal is not likely to be favorably impressed by a modern piece that stresses realism first, last and throughout. If this personal bias cannot be completely pardoned, it should at least be reckoned with and given some measure of

Then too, many minor reasons, most of them of little importance in themselves, together constitute a considerable divergence in viewpoint. It is because human sense perceives things differently that criticism can never become an objective art. And if it could be reduced to a state where effects could be measured mechanically, the senses would no longer be the criterion of what is good in art. When this situation obtains, there would no longer be any art at all. — R.D.M.

Canadian Campus

A C.U.P. SERVICE

(This is the first of a regular series of columns to be distributed by the Canadian University Press to its 16 member papers at colleges across the Dominion. Each will be a digest of Canadian student activities and opinions on a topic of current interest.)

The Campus War Effort

The Campus war effort has been a feature of university activities across Canada for so long now that the college student is coming to regard it as a routine part of his daily existence. Probably the most difficult task facing student organizations is that of con-tinually reminding the campus that every individual must do his share if the total effort is to be worth while. To this end war effort planners are constantly scarching for novel means of arousing student interest.

arousing student interest. Voluntary activities in support of the war effort this year have been very similar at most Canadian universities. Blood donations, fund-raising for the Red Cross, I.S.S. and other organizations, and community service work by co-eds are the main forms in evidence. These are of course in addition to the These are, of course, in addition to the universal military training and lending of residences to the services—Varsity has detachments from the air force, army, CWACs and WRENS—which are probably the sacrifices most keenly felt by the students.

Dr. Wulff Explains Metal Ceramics

Metal Ceramics will be the subject of an address to be given by Dr. John Wulff at a joint meeting of the Royal Canadian Institute and the Toronto Chemical Society on Saturday night in Convocation Hail. Dr. Wulff, Associate Professor of Metallurgy at the Massa-chusetts Institute of Technology, is an institute in Sanday. industrial consultant on powder metal-lurgy to various private and government agencies in the United States.

The speaker will show how metallic The speaker will show how metalic powders are made by gascous reduction, by electrolysis, and by mechanical devices, then describe how these are further treated and used. Pressure molding will be illustrated before the audience. The lecture will be open to the nothic audience. the public.

Dr. Oughton Talks On Pacific Shells

The second in a series of Saturday afternoon lectures at the Royal Ontario Museum will be given Saturday afternoon, Jan. 29 at 3 o'clock. Dr. J. C. Oughton, of the Invertebrate Zoology Department, speaker for the occasion, will discuss the subject, "Shells of the Tropical Pacific."

In his address, Dr. Oughton will deal with the great number and variety

deal with the great number and variety of Pacific shells. In the modern world shells are not as important for they have been replaced by metal and glass. Primitive people used shells for food as well as for dishes, spoons and ornaments.

busy at Queen's as at many other col-leges. At Western co-eds "have espe-cially enjoyed taking a course in small arms training," while at Acadia many girls have assisted the I.O.D.E. in filling ditty bags for the navy.

Special Drives

These include every known device by which students can be encouraged to contribute. . . . Queen's are staging an ice follies show to purchase a mobile clinic, Western has sold War Savings Stamps with colors at rugby games, the War Effort Committee at U.N.B. has taken a 50 per cent "cut" on all society and faculty dances. Acadia has staged an amateur show and a musical show. U.B.C. expects to net \$2,000 this year from the voluntary waiving of students' \$5 caution money. . . . McGill has four shell cases with nickels in a . McGill has filled out' campaign.

General Attitude

The general attitude varies considerably as reported from the different campuses. At U.N.B. "the War Fund has never seemed so vital and is meeting with excellent response." Probably many would reflect the opinion at Western where "most students feel that the Uni-versity war effort should be expanded."

Varsity Blues Dunk Navy 49-36 In Basketball Tilt Featuring Much Fast Play

Navy Neutralized By Impenetrable Varsity Defence, But Scores Frequently on Free Shots; Barrage in Last Half

GIBSON STARS FOR BLUES

By Phil Shackleton

The Varsity Blues, revised 1944 edition, won their third cage decision of the year Saturday night as they dunked Teddy Morris' Crew from H.M.C.S. York for a 49-36 count. The game, which was the feature attraction of the

which was the feature attraction of the season's first Athletic Night, was Varsity's all the way.

Joe Ryan opened the scoring at the two-minute mark to give Varsity a lead which they never lost. The Navy was held scoreless for the first nine minutes by the impenetrable Varsity defence, and even then their first score was on a foul shot. Meanwhile the Varsity marksmen had little trouble in going through Navy's armor plate to score. Big Don Gibson was certainly the shining light as he piled up seven baskets.

ing light as he piled up seven baskets for a total of 14 points in the first half.

Giskon followed Ryan's opening boop with several of his own to jack the score to 12-1 at the ten-minute mark. Rod Turner, last year a medical student at Varsity, collected Navy's one point during this time. Clayton to Giston was a beautiful play for a basket which caught Navy off guard once during the first the control of the control of the caught Navy off guard once during the first three minutes are control of the caught Navy off guard once during the first three minutes are considered as the caught Navy off guard once during the first three minutes are considered as the caught Navy off guard once during the first three minutes are considered as the campus.

"Not so bad as it might be," said Jane Strickland, I Trinity, asked how business was going. "But some of those engineers could be more politic. We waste smiles and honeyed words on the many political control of the campus.

Gibson was a beautiful play for a basket which caught Navy off guard once during the first half.

The Varsity showed their offensive beautiful play for a basket with the varsity showed their offensive backboard consistently during the first half. At the same time they kept the Naval forces away from their own basket for the best part of the period. The York players began to sift through the Varsity defence during the last few minutes of the half as Harry Watts and Roy Lowe threw in some pretty teamwork to start Navy's serious scoring. They also cashed in on a large number of free shots for Varsity fouls which increased near the end of the half. A minute before the half-time whistle

all scored within less than a minute from the starting jump. Tettmar sank a foul shot and then Steve O'Gradick

"T"-Dispensers Get Their Man

Despite the swirling mists that enveloped the campus Friday, I.S.S. taggers were out in force and from all reports enjoyed their various ex-periences. But they have a bone to pick

After tagging for ten minutes in front of her own college, Patsy Grant, II U.C., concluded that drastic measures were required. "We have to get them down and jump on them," she declared. Dorothy Claridge, U.C. I, suggested an auxiliary tag-day Monday. "The Air Force doesn't get paid till then," she said.

"It seems there are wolves in Wycliffe," smiled Ainslee Campbell, III U.C., telling how certain theologs had offered themselves as a bodyguard before she entered their college. She fore she entered their college. She added that she found them good cus-

to Don Gibson who flipped the ball home with no one to stop him. Rod Turner's basket for Navy ended the period's scoring at 26-13.

The second half opened with a scoring barrage as two Varsity players, Gibson and Sti Scott, and a Navy player, Lowe, all scored within less than a minute from the starting jumn.

from the starting jump. Tettunar sank a foul shot and then Steve O'Gradick of Navy began what proved to be a one-man scoring spree. He scored his entire eight points in the last half.

Unlike the first half, scoring in the second was evenly divided between the (Continued on page 3)

S.P.S. Holds Open House

The Faculty of Applied Science and Engineering held its first open house Friday night at which parents and friends of graduating students were conducted on tour around their lab-oratories. Demonstrations of many phases of the Schoolmen's work were put on and explained by third and fourth wear studenty. year students.

The chief point of interest was the Wind Tunnel exhibit. Here a model flying in the airstream showed what happens when an airplane falls into a spin and a fourth dimensional equation on the side showed why. Models and drawings of airplanes designed by fourth year Engineering Physics students were displayed.

About 375 guests were present. This is the first time an open house for parents has been held since the School building first opened. Graduating studies are the school building first opened. dents in the various courses were able to show their parents and friends the machines and equipment which had held their interest for the past four years. Tea was served in drafting rooms in the School building.

In the Mechanical building Professor Angus' river-site model for a Hydro development was displayed. Tests were run on steam and gas engines, and guests were shown how fuel research workers measured the octane rating of gasoline. In the Applied Physics Laboratory the use of plastics and polarized light in photo-elastic stress analysis was demonstrated. Using polarized light, colored lines in the sample under test showed accurately and unmistakably the position and types of strain in the sample.

ators and alternators were put to work ators and alternators were put to work to show the equipment and skill neces-sary to supply those every-ready plugs in the wall. Another exhibit showed how the T.T.C. measures the resistance of street-ear tracks. The Radio Lab-oratory connected oscilloscopes to show the shape of the sound waves that were produced by different musical instru-ments and conducted tests to see how high a musical note the guests were able to hear.

Doughgirls Aid I.S.S. Campaign

Opening Friday's I.S.S. drive with Opening Friday's I.S.S. drive with a bang before the eyes of several hundred googling males, two petite members of the cast of 'Doughgirls' giggled and winced at the quips of Master of Cerenonies Gordon Stulberg, sporting-ly agreed to raffle kisses, and told what it was like to dance with Frank Sinatra.

Campus-Wide I.S.S. Drive Nets \$1,500 Thanks To Enthusiastic Tagging, Dances Of Co-Eds And Visiting Doughgirls

Humorous Antics At Skit Night

By Janet Bryce

From a rabbit in a maternity ward to an eastern harem scene, with snake-charmer music, "Stanke Finatra," and the Schoolmen's build-a-house chorus, to say nothing of the other type of chorus which appeared as short or long U.C. Follies girls—the LS.S. Skit Nite ran the gamut of Varsity humor. No faculty or college was unrepresented in the capacity audience which packed Convocation Hall on Friday night and took a major part in the proceedings. Master of Ceremonies was Dave Bairstow, IV U.C. who kept the informal ball rolling in spite of shaky seenery which seemed to keep threatening his life, and various other unpresent chorus which appeared as short or

scenery which seemed to keep threatening his life, and various other unprecedented incidents. The program itself-comprised a number by the Follies short chorus, which proved unusually Casino-like; a break-in by some Schoolmen who offered bread, milk, books, moncyno, books—in genial response to the I.S.S. appeal. This was followed by a Trinity piece entitled "Twas the Night Before Conversat," after which no other than the Champus Cat appeared on the

than the Champus Cat appeared on the stage, riding along on his tricycle. About this time in the program, entered The Four Professors, also of entered The Four Protessors, also of Follies fame. They were welcomed as enthusiastically as ever, and were brought on by request later on to con-clude the entertainment. The medical students presented a skit called "Capers in the Rue Morgue" or "May I Cut In?"—the later being, literally, more In?"—the later being, literally, more appropriate. Dentistry, not to be outdone, eame next with a nicely-rchearsed (through Dentanties) scene with a mystic oriental setting, and dancing girls, and dancing girls, and dancing stream of the company of the control of the control

next number, which featured Alex Siegel as Rami Swami, a renowned magician. When the point of the thing magician. When the point of the thing was eventually reached, it turned out to be a dull sword run through (?) an individual enclosed in a cardboard box, with gory gestures by the performer. This was greeted with much delight by the audience. Finale of the show was the "glamazon" tall chorus, again from the HC. Follies.

the "glamazon" tall chorus, again from the U.C. Follies.

Immediately after, the all-Varsity gathering wound its way into Hart Honse, where an informal dance took place . . . the music being of the canned variety instead of the far superior orchestra, under the direction of Jim MacDonald, which had supported the

Logan Outlines Labor Relations

"Canada is drifting along in a maze of inconsistencies," stated Professor H. A. Logan of the Department of Political Economy in his Canadian Trends Series Economy in his Canadian Trends Series lecture Friday afternoon. Speaking on "The State in Relation to Collective Bargaining," Dr. Logan explained that Canada's state attitude toward labor relations did not at the moment fall into any of the three phases which such attitude has taken in its development in leather contribution. other countries.

The three phases in the developing The three phases in the developing attitude of the state toward collective bargaining have been, he stated, positive opposition, as in the Combination Acts early in the 19th century; passive hostility, such as occurs when the use of injunctions and the allowing of yellow-dog contracts hinders collective bargaining while no actually hostile legislation exists; and thirdly, positive encouragement by the state.

Elaborating on the third phase, Prof.

encouragement by the state.

Elaborating on the third phase, Prof.

Logan told how a favorable attitude was first seen in New Zealand and Australia when laws compelling court arbitration upheld the rights of groups as against those of individuals. Europe, he said, has on the whole gone the way of Sweden with direct support and enforcement of collective agreements, rather than Britain where settlements are made and carried out on a voluntary

Canada, he said has inherited the British method of leaving contracts to be enforced by the parties in question, but is now starting on a policy of state enforcement. Canada is therefore in a state of evolution at present.

state of evolution at present.

The United States led the way in the deliberate promotion of collective bargaining, Prof. Logan asserted. In 1933, "when labor was at its lowest ebb." she inaugurated the National Recovery Act and in 1935 passed the National Labor Relations Bill which listed unfair labor practices and emphasized the obligations of the employer.

Lates bill, onch as the Ontario College.

Later bills, such as the Ontario Col-lective Bargaining Act of 1934, have been careful to lay restrictions on both been careful to lay restrictions on both parties, union as well as employer. Certain valuable patterns for action by collective bargaining have now de-veloped, Prof. Logan said. These he outlined as follows: (1) Majority rule; (2) An administrative board or court to determine the unit for bargaining; (3) Elections to be held to determine (3) Elections to be held to determine the most representative organization.

Fran Aitken, Committee Head, Expresses Herself as Appreciative of Tagging Efforts of Co-Eds

DOUGHGIRLS DANCE

The International Student Service campaign of Friday shows proceeds of approximately \$1,500 of the \$7,000 quota which Varsity has to fill this year. Four hundred dollars had been year. Four hundred dollars had been collected previously in the year which was not included in the day's proceeds. In addition to this the Faculty of Medicine has decided to raise \$1,000, including \$40 raised by ten boys in the clinic and \$135 raised by the fifth year men, all to be given as an extra donation to the I.S.S.

Cheerful co-ed taggers were stationed on the campus bright and early Friday morning and started the day off by stopping everybody on their way to 8:30 the girls worked hard, and stuck to their beats until about 3:00 p.m...

their beats until about 3:00 p.m.. Expressing her appreciation to all the taggers, Fran Aitken, IV Vic, head of the I.S.S. eampus committee, said, "They were just marvellous." One girl, said Miss Aitken, took in \$30 in an hour while tagging at Trinity. About \$100 was collected from the sale of tags at Skit Nite.

At 12:30 p.m. Misses Peggy French and Lenore Ulric, stars of the produc-tion "Doughgirls" now at the Royal tion "Doughgirls" now at the Royal Alexandra Theatre, appeared on the steps of Hart House to send the drive on its way. Before the girls appeared Gordon Stulperg, II U.C., welcomed the crowd and assured everybody of the quick arrival of the stars. "If you think our co-eds have looks just take a look at Miss French," said Mr. Stulberg. Remarking on the number of men present Mr. Stulberg advised them to act as University of Toronto students ought

to act.

The girls were interviewed before the microphone and said how pleased the were to have been asked to come. They have been on the road for II years and said that things have been tough all over. But they said they would be glad to do anything they could to help the I.S.S. drive. "But there's only two of you and so many of us," Mr. Stulberg replied. A. B. "Wacky" Taylor, III S.P.S., welcomed the girls to the south and of the campus, and a Meds man, although at a loss for words, said he was looking over the crop as a true were to have been asked to come. They as looking over the crop as a true Medsman and was glad to welcome the girls. The girls told something of their careers and that of Miss Ernst, the star of the show, who was unable to come.
There wasn't time to raffle off dances
with the girls so they waved the crowd
goodbye and disappeared into Hart

goodbye and disappeared into Hart House.

Music poured out of Harry "Red" Foster's sound truck and several couples joined in the Street Dance. The "Doughgirls" reappeared to dance a few numbers and then drove away. Due to the rainy weather the Street Dance didn't last long and the crowd dispersed, but Red Foster's yellow-and-white truck toured the campus the rest of the day urging everyone to contribute to the drive and reminding everyone or to the drive and reminding everyone of the \$7,000 objective.

The First Step

Friday's as yet uncertain total of about \$1,450 collected on behalf of International Student Service brings the University's total for I.S.S. up to nearly \$2,000, and there is now a prospect of another thousand from the Faculty of Medicine. Considering that the University has already contributed an amount about equal to Friday's collection in the earlier War Service Day drive, we may feel proud of ourselves. We have surpassed the contributions of any previous war years as far as organized collections for war charities go, but we are still far from the ambitious and flattering \$7,000 quota asked of us by I.S.S. That we can reach that quota seems doubtful, but we should not despair of reaching a figure very close to it. International Student Service is the students' organization; were we oppressed and in want the student relief organization would not hesitate to do its best for us. It now needs our money to help others.

We have made a substantial first step toward our There will not be another canvass for funds of the sort we have just had, but if I.S.S. is given first consideration by all chairmen of benefits and all social and athletic events that have a surplus to dispose of, the profits of our diversions will swell the total and sustain our comrades-in-study in the serious business of intellectual, and sometimes of actual physical, survival.

Ottawa Calling

A Canadian University Press Feature

By Neil MacDonald

Fifth Session; Nineteenth Parliament

Parliament is in session again, possibly for the last time before an election; its deliberations, therefore, will be of especial importance to every Canadian

Three items in the Speech from the Thone are of particular interest: the provision of three new government departments to look after Canada and her citizens, the statement that there must be no let-up in the Canadian war effort, and the promise of machinery to record the vote of the men in the forces.

The first new department, to be in charge of veterans' affairs and allowances, has long been becoming inevitable in Canada. The present set-up, where Pensions and National Health are joined together, makes each half impotent. Pensions should be only a secondary phase of the solution which must be found of looking after our returned men adequately. The new department should be pri-marily occupied with rehabilitation and reestablishment.

Now that the Department of Munitions and Supply has passed its pinnacle of importance, its The story mingles love and anti-fascism in an im-function is to be taken over by a department of perfect blend. The heroine, an American actress, Supply has passed its pinnacle of importance, its reconstruction, whose purpose will be to provide "a lingers in France after its conquest by the Nazis to rapid and efficient conversion of war industries, the try and engineer an escape for her French lover enlargement of markets at home and abroad, from a concentration camp. With the aid of a Nazi intensified research into new uses for our natural

resources, and a program of national and regional development. . . With such an organization set up now, it may be possible for Canada to bridge the gap to a peacetime economy without too much dis-

Perhaps, however, the purpose of the third department, social security, is most important. ment, social security is most important. Canada trails behind other countries in her provision of social security. The Speech from the Throne has promised that all this will be rectified, by "a comprehensive national scheme in which federal and provincial authorities will be integrated and which will include nation-wide health insurance. . . . You will be asked to approve of a measure making provision for family allowances." The chief objection which was voiced against family allowances when they were suggested as an anti-inflation measure last fall, was that they should be allowed to stand on their own merits, as a social security measure. That, the government is prepared to do.

A good many Canadians, nervous over the various statements about the curtailment of the production of war material in Canada, will be reassured to learn that the government has no intention of stopping until the job is done properly. What is being done, and sensibly, too, is the curtailment of the manufacture of war goods when the surplus has reached a certain level. The excess production facilities are then diverted into other war manufacturing, or into the production of consumer goods, in extremely short supply.

Having produced a program which promise needed and desired reforms, the government of the day is also going to set up machinery to record active service vote, just supposing an election might take place. The government is going to be prepared; let us be also.

Modernism

Hart House Concert

Alberto Guerrero, pianist, was the artist at the Hart House Sunday Evening Concert last night. His program consisted chiefly of Spanish and Latin-American pieces, along with a Weber Sonata and two selections by Debussy.

Mr. Guerrero is an exceptional pianist. His shading and sensitivity of touch leave nothing to be desired and he retains throughout a sense of deachment which places his artistry far above the usual standard of pianists. Specifically his trills, of which there were a considerable number last night, were beyond criticism.

This is not the place to enter into a general disussion of the trends of modern music, but last night's program was typical of one of its main characteristics. It left the listener with the rather sour feeling that he was leaving no more satisfied than he had come.

True music, like true literature, must express omething, either in thought or mood. Without this, it does not come within the realm of genuine art. For example I would cite the Scarlatti Sonata which was played as an encore; it was superbly done, the highlight of the entire program.

KEN MCRAE.

Play vs Players

"Candle in the Wind

The atmosphere was that of a Broadway premiere when the curtain went up on the University College Players' Guild production of Maxwell Anderson's "Candle in the Wind" at the Victoria theatre Saturday night. The setting was a grandiose one for a campus production, and demanded a first class performance to justify it. Under such conditions a flop would have been a FLOP. However Saturday night's production was far from a flop. The Players' Guild put on a smooth-clicking and integrated performance. The faults were chiefly Maxwell Ander-son's. Or perhaps Hollywood's, for the play itself was too reminiscent of the rash of anti-Nazi movies which has broken out during the last two years to be

very moving or convincing.

After a long and rather tiresome first scene, which put the principals on the spot to start with, the play became considerably enlivened, and the applause was resounding when the curtain fell.

(Continued on page 4)

Readers who have been counting the days since last Monday will not need to be reminded of Dr. McGeech's perilons position among the conspirators, where position among the conspirators, where dispuised as the hypnotist von Schintz-enschnatz he listens to the spinning of a plot on his oven life. Less attentive readers may go peddle their papers for all we care.

"We Make You Think

CHAPTER NINE

Gilhooley, hypnotized, helpless, drew his overcoat around his butler's garb and slouched out into the night to mail ne fatal missive.

McGeech rose instantly; his duty was

clear. Gilhooley must be restored to his ormer self.

Only one man could restore him: the Only one man could restore time: the hypnotist yon Schnitzenschnatz, whom McGeech was impersonating. Von Schnitzenschnatz lay where he had left him, slugged and bound in the wine-cellar. He, McGeech, must leave that unhallowed gathering. He must somehow take yon Schnitzenschnatz with him and ge in pursuit of Gilbooley. him, and go in pursuit of Gilhooley. Then the two must be brought together, and von Schnitzenschnatz compelled to undo the spell. McGeech rose unsteadily to his feet.

"Must you go so soon, my dear ve Schnitzenchnatz?"

"Go I must, dear 'Q'," said McGeech, mindful of the part he was playing.

* *

Horrors! In a kitchen chair, con-

fronting him, fully conscious, sat von Schnitzenschnats. Beside him stood his deliverer - Snuffy, genius of throggle-pin!
"You are I

on are Dr. Squeolly Villain," in toned the hypnotist, transfixing Mc-Geech with a glance. And McGeech passed instantly under

that spell which no living being could resist. He stood, locked, frozen, in a stupor, convinced that he was that celebrated maestro.

He sat down at the proffered piano and felt his fingers wander idly over the keys; he was going through the the keys; he was going through the motions of playing the celebrated Fugue in Three Flats and a Basement. But it was not the prayerful melody of Bach that issued from the instrument. Instead there issued the raucous, rococco rhythms of Barrelhouse, Boogie-Woogie, and the Blue and the State of the State

rhytims of Darrelmss, 2003, and the Bhies, and the Bhies, "You see?" said Snuffy in triumph. "I have manipulated the throggle-pins of the piano. He plays Bach, but it comes out Barrelhouse."

comes out Barrelhouse."

It did indeed.

In an instant "Q" was within the room, spitting out details of his newhatched, evil scheme.

"Snuffy," cried "Q," "I have hit on it. Dr. Squealy Villain plays at the next Sunday Concert. We must kidnap him. He shall not appear. McGeech shall play instead."

"At the Sunday Evening 'Concert?"

"At the Sunday Evening Concert?

"At the Sunday Evening 'Concert? But why, boss?"

"Because you shall have once more manipulated the throggle-pins. He shall play Brahms, and it shall come out Boogie-Woogie. And a music-lower shall jump up at the rear and shoot him?"

"Are you sure, boss?"

"I am sure. I shall be that music lover," said "Q," "And I shall be safe. In Toronto that will pass as justifiable homicide."

"Boss," breathed Snuffy in adoration,,
"that is the goods. It. The greatest
scheme of your long and scheming

career."
"Q" took a bow, his vanity touched.
"I flatter myself that it cannot fall,"
he said simply.

-Woo.

two teams. Navy solved the Varsity defence problem and Watts, Lowe, and O'Gradick accounted for the better part of all the York scoring during the half. Varsity scored nine for Navy's cight in the first ten minutes.

Gibson continued his power scoring to sink three baskets during the period while singles or better were scored by most of the Varsity players. Don most of the Varsity players. Don Pringle recovered after a Gibson foul shot which missed and sent a payoff shot basketward. Whitey Clayton followed up with a one-handed effort. The last five minutes saw alternate baskets scored by each team. Lowe and Watts was a break-away score at the 15-minute point. O'Gradnick, Scott, Ryan, Surgess and Waldon followed with baskets in that order. O'Gradnick sent the last hoop home bare seconds before the game's end.

FATE IS SO CRUEL .

FATE IS SO CRUEL...

Petty Officer Teddy Morris has been dealt a sad blow. He's in the wrong profession. We arrived at the above conclusion while playing a spectator in a seat directly behind this august Navy coach Saturday night. Of course he has been doing some pretty fair work in the athletic world, but nevertheless his services could be much more advantageously employed in another field. Teddy belongs in a carnival.

And a more likely looking gazooni we can safely say we have seldom seen. Gum-chewing and talking out of the left side of his mouth, he reminds us muchly of the big boss of one of the country's foremost outdoor shows. And we're sure that the said big boss would lose no time, at all in up-signing Teddy for the coming season were it not for his contract with Col. Ralston. Teddy's got the face and the voice of the ideal carnie, and the face and the voice are among the more important things which a carnie must have. Other people have been known to get along without them, but never a carnie. That is with the exception of certain freak show attractions.

Teddy was blowsing about like the typical gazooni Saturday night. "Get yer checks there!" he kept grinding away. Transfer him to the show lot and he'd scarcely have to change his spiel. "Get yer cards here!" he might say. "This is where they all play bingo. Ten cents a card, two for fifteen. Play two cards and have twice the chance."

Or perhaps, "We're giving them all away today—the kewpie dolls, the teddy bears, and the big buckets of groceries."

He also showed the great diplomacy which a carnie must have when he snarled, "That was no more foul than—"

That turned up Irish nose looks much like one we saw outside the freak show last summer. In Calgary we were awakened each morning by the masal thundering of an erudite soul who beat on a huge gong and bellowed, "The first big show of the morning! Gather round while we bring out Eko and Iko, the sheep-headed twins from Ecuador, Sam Alexander, the man with two faces, and Zaba, the elephant-which he add

which he addressed his players Saturday night are just the ones needed to fill the big top to capacity.

Some people have got that tone; some haven't. The ones who've got it are natural carnies. Teddy's got it. A couple of marks passing Teddy's chuk-a-luk or crown and anchor wouldn't stand a chance. And proof that he would captivate the fair sex, came when one young lady pointed out to us "that ente little curl at the back of his head, where his hair won't stay down".

AFTERTHOUGHTS ...

AFTERTHOUGHTS...

The prettiest play of the evening: The ref snatching Jerry Morton's glasses from mid-air and returning them on the second bounce (the ref, not the glasses). One complaint about the evening: there was too much going on. We managed to cram in a basketball game, a table tennis match or two, a glimpse of Lucy from U.C., and the odd two-step, but what about the boxing, swimming, game room, square dancing, etc. We didn't even get as far as the Tuck Shop. Persecution department; guys what is so formal as to wear suit coats to these affairs should be barred. Standing room only sign: there were 1,500 hardy souls at the first "A" Nite, but 300 were turned away because they arrived after 9,30. Let it be here announced to all and sundry, that any one who arrives after 9,30 will not be admitted. Remember that next week.

Varsity and Navy Aquamen Tangle in Slick Swimming Meet

A very assorted dish of aquatic that was in the best race of the night, activities was served up to the pool fans in the Hart House tub last Saturday night, as U.C., P.H.E. and Knox took the major domo role. Main event of the varied activities was Varsity's laff a foot in the 200-yd. relay.

day night, as U.C., P.H.E. and Knox took the major domo role. Main event of the varied activities was Varsity's first swim meet of the season, as the team came through with a very convincing win with 39 points over Navy's 15. The Blue and White took is not seven firsts to roll up their 17th straight win in the last three years of unbeaten competition.

The meet got underway with Captains Johnny Northwood and Bobbic Pearce taking a bow. Bobbie is sports officer at H.M.C.S. Star in Hamilton, and got a great hand from the crowd. Not daunted by reputation, the Varsity swimsters stepped right up and took the first event, taking first, second and third slot in the 150-yd. medley, time 1.31. Navy showed the old fight but seemed to lack the condition displayed by their hosts. Only once did the boys in the dark blue take top honors, but the services of Ken Tulley with the services of Ken Tulley with suffered a broken foot Saturday, and Johnny Dean who very recently who suffered a broken foot Saturday, and Johnny Northwood, a veteran did great hand from the crowd. Not daunted by reputation, the Varsity showed many of the old faces and one or two new ones for the show. Johnny Northwood, a veteran the first event, taking first, second and third slot in the 150-yd. medley, time 1.31. Navy showed the old fight but seemed to lack the condition displayed by their hosts. Only once did the boys in the dark blue take top honors, but

WHAT PRICE HOCKEY???

WHAT PRICE HOCKEY???

(Note: Owing to the current steak shortage, all female hockey enthusiasts are asked to refrain from batting other babes in the eye with their sticks. Order in council No. 6666.75.)

But mind you, hockey isn't a rough game, we keep telling ourselves, Aside from a few swats on the geezer and other pertinent points, compled with the inevitable collapse after the final gong, we are quite convinced that it's a fine sport for the femmes.

At least that was our conclusion as we wandered ethereally off the ice last Friday noon after a rootin' tootin' tussle with P.H.E.'s second team. (Note: We are with U.C.'s second best stick handlers . . . second team to you). The phys eds slipped three goals past the red and white's goalie, Allison Foster, who showed rare old form in the matter of chasing the puck away from the net; but K. Mc-Millan whipped in these three quickies with no mean dexterity.

As we emerged from a mass of sticks we caught an occasional glimpse of one Joan Christie, P.H.E., making with the puck like an Ace Bailey, but we are unable to do this babe justice in our description as we haven't had the energy to figure out exactly what she was doing if we'd been standing up and facing her.

We also noted one Eileen Gallager's skates zipping like fury down t'other end of the rink and so we suppose that she made some very valiant efforts to chalk up a score for U.C. All in all it was a sticky affair and if you want to take a gander at gals' hockey, wander up to Varsity Arena today at 12:30 to see Meds tackle U.C. II.

LUNGE AND PLUNGE

LUNGE AND PLUNGE
You can take your choice any Friday afternoon up at the L.M. of fencing or swimming. The fencing class has progressed to a point that the sacrosanct walls of Whitney Hall are ringing with clashing foils as eager students execute their fencing homework. Already some of the Household Economics gals are going to indulge in this sport as they think it entails petty point and fency work. And with that remark we are quite certain that you'll whip in for a dip at the pool instead. Freddie Baxter tells us that the Nurses held a swimming meet the other night which was very successful. The teams of the other faculties and colleges are shaping up very nicely also in preparation for the preliminary competition coming up in February. Remember that every Friday at 3:30 brings an opportunity for a free swim, so let's see everybody get as enthusiastic as the Nurses and Vic, eh?

AT LAST
Joan Snyder, head of badminton, is working on a badminton
tourney. She has finally succeeded in obtaining enough birds (but
scarcely enough) and is now scouting about for a court. Hence plans
are still in embryo but, God willing there is an available court, a
match will definitely be held. Owing to a scarcity of birds there
will be no opportunity to hold preliminary games or practices, so we
will start right into the fray. Dust off those racquets, gals, and be
on your mark! Here's a great opportunity for some of us to stop
beefing and do things along the constructive line such as making a
real go of this sport.

ATHLETIC NIGHT

ATHLETIC NIGHT

All the gals were out in their Saturday best at Athletic Night. There were a couple of feminine "do's" worth noting, P.H.E. maintained their championship standard by trouncing U.C. something like 36-14. It was a dandy beating that the Royal College took, even though Miriam Allison, Mary Manson and Liz Kennedy constituted a staunch part of the tean. Virginia Kitto, Jean Stinson and Connic O'Connor shot some neat baskets for the phys eds. Later on in the evening the P.H.E.'s showed some fancy strokes in the pool.

O.C.E. Gymnasium.
Members of these groups assigned to
Transport Training on Tuesday, Feb. 1,
are excused from N.C.O. Training for
this week.
(78) MOTOR MANIMENT.

AT THE CLOSE of the last war, Nickel was no longer needed to huild battleships and artillery. The demand for Canadian Nickel

fell off sharply. Soon the Canadian Nickel mines had to close down.

But the men who managed these properties could foresee possible new markets for Canadian Nickel in the growing automobile, electric, radio, chemical and other industries. They organized a Research and Development department to work with engineers in these industries, and to promote the use of Nickel and its alloys wherever hetter materials were required.

Shortly, operations were resumed. In 1924, the Nickel industry opened a new mine. In 1926 it hegan enlarging

its smelting and refining plants. Within a decade it was paying out 15 millions of dollars a year in Canada for wages.

Although the entire output of Canadian Nickel is today diverted to war uses, this industry has definite plans for the post-war period.

Then it will turn again to its peacetime markets, and will proceed to develop new markets hased on research now in progress. Through its own enterprise, the Canadian Nickel industry plans still greater contrihutions to Canada's prosperity.

Atlantic Charter Provisions Favoured By Polish People, Foreign Affairs Club Told

Sketching Homeland's Political History, Neuwelt Says Parliamentary System Native to Polish Temperament

FIRST - HAND INFORMATION

Saying that the Polish people favor Saying that the Polish people favor a legislative system such as that provided in the Atlantic Charter, Mr. A. Neuwelt, graduate in Law and Economics from the University of Lwow, Poland, was the featured speaker for the meeting of the International Affairs. Society, held in the Women's Union yesterday afternoon.

A native of Poland, Mr. Neuwelt had

A native of Poland, Mr. Neuweit had much first-hand information, although he could not claim friendship with Poland's leader Paderewski, as men-tioned in The Varsity. Mr. Neuwelt began with the union of Poland and Lithuania at the end of

the 14th century. Of the two countries, Poland was the stronger due to Latin culture and Western civilization. In this golden age of Polish history their rulers were strong enough to resist in-vasion. However the misused prosperity of this period caused the loss of Polish freedom.

At that time Poland's parliamentary system was organized and in 1425 a law was promulgated preventing the law was promutgated preventing the arrest of any person without a trial. A second law was passed which made legislation unactable without common consent, which restricted the power of the crown and the Diet. Thus the nobles, desiring to prevent their king from bearing to extraor approach by: from becoming too strong, opposed his desire for a strong standing army. Poland, who was unable to defend her frontiers, was weakened by attacks of foreign powers.

was dissatisfaction with the There was dissatisfaction with the administrative system in Poland which was modeled on the French deputy system that allowed one deputy to paralyze the whole state machinery. This internal dissatisfaction and subsequent rebellions preceded the alliance of Frederick the Great of Prussia and Catherine the Great of Russia who agreed upon the first partition of Poland in 1772. The castern nobles chosen is considered to be very constirred up a belated resistence and in May, 1792, the first written democratic constitution of Poland was formed. This constitution of Poland was formed. This constitution was said to have been inspired by the French Declaration of the Rights of Man and also by the American Declaration of Independence. Among its most important political and social reforms it made provisions for (Continued on page 4)

Mac Debaters To Invade Vic

A debating team from McMaster will be the guests of the Victoria Debating Parliament tonight at 8:15 in Alumni Hall. The debaters will take as their topic, "Resolved, that Germany should king be given a liberal peace."

Glen Tennant, the president, speaking on behalf of the Victoria Parliament of the pleasure they felt in having the opportunity of meeting a visiting team said, "We consider it very important that we keep every contact with other universities that we possibly ean, so that after the war the intercollegiate debates can resume full swing once

He said that a close debate is fore seen by both teams, for the subject chosen is considered to be very con-

At Arts Ball

Surprise Novelties, Traditional Crowning of "Queen," to Highlight Annual U.C. Party at Royal York

INFORMALITY KEYNOTE

One week from tomorrow night, the 40th annual Arts Ball will be held on the convention floor of the Royal York

Tickets for this-University College's higgest dance of the year—go on safe in the rotunda of the college today at 10:30 a.m. Tickets will be available from 10:30 to 1:30 every day this and

This year, the executives of the U.C. Literary Society and the Women's Undergraduate Association have planned a more informal type of dance than has been customary in the past. As well as boasting Mart Kenney and his has been customary in the past. As I well as boasting Mart Kenney and his Western Gentlemen, the dance program will include special dances and some surprise novelties. As well as these, the traditional choosing of "The Queen of the Arts Ball" will take place.

The idea of the joint Lit and W.U.A. councils is to make this year's Arts Ball more of a big informal and friendly party rather than just a dance. The ballroom at the hotel will be decorated with the familiar red and white colors of the Royal College. As well as in the rotunda, tickets can be

well as in the rotunda, tickets can be obtained from any member of the U.C. Lit and W.U.A. executives,

The four professors will not be there.

Trinity Duo-Pianists To Give Recital Today

Sandy McKay and Pat Orr of II Trinity will give a two-piano recital in the East Common Room of Hart House at 1 p.m. today. They will play the following program:
Sheep May Safely Graze Bach-Howe

Rendo (Concerto for Two Pianos) Variations on a Theme Mozart

by Haydn Brazileira (Scaramouche Suite)

Milliand

ATTENTION ALL VARSITY STAFFERS

There is a large document hanging on the bulletin board, which requires all your signatures personally. In-cidental information is that the thing cidental information is that the thing will be an informal brawl Saurday night, and easily available to Athletic Night. Assignments for the evening will be dealt out broadwise on Fri-day, so please okay them then.

Unofficial Memo

In the vast confusion of values and objectives thrown up in a hostile world, there is one persistent and universal cry: in the future every citizen shall have the right to live out his life in health and The possibility of fulfilling this modest request is being settled not only on the battlefields of Europe but in the conference rooms of every democratic country. Social security has become the central preoccupation of governments, for it is the core of all the issues for which we are fighting. Persons who work according to their capacities should, with their dependents, be secure in the rights of suitable work for a fair wage, rights to health, education, training, and adequate maintenance whenever they are unable to work. This is social security, in its broad meaning, and no society can be regarded as civilized which does not organize itself provide its citizens with these essential and inalienable rights.

Three documents have been published suggesting plans for social security in Canada. The Marsh proposals and the Heagerty Health Insurance Bill now under government consideration. Charlotte Whitton's memo, "The Dawn of an Ampler Life," is an unofficial commentary. There is a foolish notion abroad that concern with the details of social security is the occupational disease of social workers and actuaries. The reverse, of course, is true, for social security is the concern of all people who are exposed to the hazards of our economic system. While so many young people are spelling out the future with the terrible price of their lives, the least that the students on the campuses can do, is acquaint themselves with the facts of the plans which are being prepared for the aftermath. Very soon, the fight for and against social security will be shaping up and we will be in the thick of it. We had better know what it's all about. One young soldier recently wrote home: "We can endure almost anything if we know we are not being sold out on the home If that disastrous time should ever come, the privileged who stayed at home will be the

It has always been the special concern of univer sities that the intellectual and moral climate of their country shall be kept free and spacious. This con-cern is intimately related to the social conditions in which the universities operate. Unless all people are assured of an existence at a decent level of life, then the atmosphere becomes petty and fearful . . . the breeding ground of a fascist mentality.

For those who say that post-war planning is premature while we are still engaged in a desperate struggle, let them remember that in a total war. post-war plans are a mighty consideration from the standpoint of war morale. No one can be expected to give fully of his energies and even of his life, unless he has assurance that his welfare will not be disregarded in the post-war world. The bitter memories of the desparing thirties are clear and sharp. We are deciding now whether we shall return to the iniquities of the past or move forward to the promise of the future.

Fresh Breeze

Vic's debaters seem determined to keep some semblance of intercollegiate competition alive on this campus. Tonight they will toss the conversational ball around with representatives from McMaster University in a full-fledged parliamentary debate on the subject of whether or not Germany should granted a liberal peace. We extend to the Victoria Debating Parliament a hearty pat on the back for their undiminished enthusiasm in the face of presentday difficulties. Keeping up their regular schedule and at least one intercollegiate debate every year they have shown an interest and enthusiasm which is so often lacking these days in other quarters. The mingling of students from different universities is a healthy sign that individual undergraduate groups are not becoming isolated and stagnant. Especially is this true of debates, where students meet for the discussion of current problems or questions of popular interest. Debaters from another campus ome as a fresh breeze to enliven our native thought. It is good to see this persistent attraction at Vic for intercollegiate activities. If the spirit is thus kept alive in small ways, a post-war return on the grand scale is assured.

Something New . . .

School did it again. The ingenious Engineers added another and somewhat novel custom to their already lengthy list when they threw open the doors red schoolhouse last Friday and held open house for parents and friends of the graduating class. For the first time in history the inside story of the life of an Engineer was laid open before the public. Visitors watched actual experiments being performed and were treated to some of the sciencemen's most precious demonstrations. It must have been a revealing evening for friends and relatives of

Schoolmen seem always possessed of a rare energy for doing things and this open house is a character-istic outlet. Their work is their life and it is only natural to wish to share it with friends. The mysterious halls and laboratories of School cannot be described as easily as the bare lecture rooms of U.C. They must be seen to be appreciated. The Artsman has nothing but an empty building to show off so the open house will probably remain an S.P.S. institution. But remain it should as an annual ray of light for the audience of School.

Ballet, And Then Some

Royal Alexandra Theatre

Another revue blew into town yesterday on January's dying gasp. Vincent Youman's "Fiesta" opened at the Royal Alec an hour and a half late, having experienced trouble crossing the border—as happens all too frequently with the Russian ballet groups. The audience, however, waited in a happy frame of mind while Max Goberman led the symphony orchestra through Tchaikovsky, Debussy and

We whiled away the time snoozing and reading such program tidbits as: "Look around and choose the nearest Exit to your seat" and "Ladies are requested to remove their hats" and "Défense de

Once the revue got under way, there was no evidence of hurried preparation, and everything went smoothly, apart from a slight shuffling of the order, of no consequence in an episodic program anyway. A Massine ballet Antar, with music from Rimsky-Korsakoff's Second Symphony, had Ivan Kirov, supple young Russian in the title role, while Katia Geleznova danced the Princess in dove grey and canary yellow constumes, and Jean Guelis mimed the Bird of ill omen. There was no obvious thematic material in this work, but M. Massine developed it around classic choreographic forms, introducing certain duncanisms which would have horrified the old Maryinsky schoolmen. They appeared merely ludicrous to the scattered philistines in the audience, who appreciated even less Kiro's impeccable jetth and fouetté. This dancer of superb physique has a

classic sense of line and sustained mimetic ability.

Nestor Chayres, a fulsome Mexican tenor, gave tongue with Lecuona's Valencia Mora, and Olga Coelho, Brazilian soprano, to her own inimtable guitar accompaniment, sang the Frog Song at breakneck speed, following it with Lemon Tree, which she declared to be the favorite song of El Presidente

(Continued on page 4)

Lessons Journalism

The student will find that journalism holds no greater satisfaction than that of berating celebrities in a music re-view. Any style will do for these reviews so long as it is distinctive and runs counter to all accepted newswriting canons. The student cannot do better than model his work on the following examples from the pens of four masters in this Elysian field.

LESSON Two

How to Be a Music Critic

The Wiskered Nineties

By Achilles McSwillsworthless

The harmonic possibilities of the comb d the kazoo were never better realize than at the brothers Swinebag's charm ing recital at Etaoin auditorium las night. The Bach Sonata in Q, revised and fingered for comb and kazoo by vor and ingered for comb and kazoo by von Swill, droned on with charming intimacy recalling the appearance of the
virtuoso kazooist McGluneksz in old
Massey Hall 43 years ago—or was it
34? Anyhow, it was in the year of the
big wind in '99--or was it '79? I shall

pages of th never forget how my beard was tossed about by the wind on that memorable night. It was a fine black beard then, and my mother had just combed it, for

and my mother had just combed it, for I was a little boy of eight, searce loosed from her apron-strings. Anyhow, the impression made upon me that night by the kazooing of von Gluncksz shall never fade from my mind. The Brothers Swinebag's charm-ing and public attempts to spiller by the ing and noble attempt to realize to the full the standard set by the charming nobility of my old master left little to be desired-or is it his noble charmingness I mean? My memory has be-failing these 40 years.

Ah, youth!

No Herrings

By Atoysius Checkrein

Eleven hundred listeners enthralled-comb and a kazoo-blown by masterly a come and a kazoo—blown by masterly lips — dazzle-razzling. Unforgettable. Much verve—much vim—traces of vip — wheezing of the elder Swinebag nearly inaudible now—improved since I last heard him—or have I? Intimate finesse of tonal harmony—

lots of verve — vim — vip — Could any-thing be finer—?—?—? Seven red herrings on an iceberg—also a camel no encores—and herring's teeth scarcer.

Hen's teeth scarcer still—can I be wandering?—Could anything be finer?—Vippier?—Vimmier?—Not I.

Just Ducky

By Lack Grace

A really dandy if somewhat im-noderately magnifizzling recital on omb and kazoo beat through hushed silence upon 1100 pairs of eardrums at Etaoin auditorium last night. The elder McSwinebag made his kazoo elder McSwinebag made his kazoo sound like the human voice, thus ap-proximating the ideal of all instrumental playing, that most perfect of all instru-ments just mentioned—the human voice. In the words of the divine Mozart, I will not write for the kazoo"; and would hesitate to suggest that he was prejudiced. I have every respect for his Duct for Kettledrums and I am glad that this otherwise perfect recital was not spoiled by an attempt at that divine effluvence of the master's genius. C side of this I can find nothing

Ughl

By Heet McRouald

By Heet McKonold
I was utterly disgusted by this con-cert. The audience breathed heavily-and my nerves were simp-ly wrecked, Toronto audiences will never grow up and learn not to insult visiting artists. (Continued on page 4)

Tid-bits from the College Papers

Today Sir William Mulock is holding his annual openhouse at his residence on Jarvis Street from four to six o'clock on the occasion of his one hundredth birthday.

President Gody, as well as Principal Brown of Victoria College, and Principal Wallace of University College, are expected to attend the Chancellor's reception.

A special feature of the birthday celebration will be a birthday celes and presentation at three o'clock in the Chancellor's home before the reception.

The Rt. Hon. William L. M. King, Prime Minister of Canada, as well as the Hon. George Drew, Premier of Ontario and other political figures will be present to offer congratualiston to Sir William who is the only surviving member of Sir William Laurier's original cobinet.

The Varsity

The first meeting of a new McGill Club is scheduled to take place this week, when the Cameia Club gathers in the Union Muile Room at 8 p.m. Thursday evening. This club is the direct successor of a previous club of the same name, which came as auden end upon the campus three years ago, after a typographical errol in the announcement of the membership fee.

TWIN PUCK SHUTOUTS PULLED BY U.C., S.P.S.

PLAY CLEAN BUT RAGGED

U.C. II last night walloped Knox 5-0 in a one-sided hockey battle at Varsity Arena. From the opening whistle U.C. kept up an almost continuous ganging attack, outshooting their weaker rivals

As soon as referee Gord Ball dropped the puck U.C. started their power play and at the four-minute mark, Chechalk and a screened shot which goalie Anderson never saw. At 7:30 Nichol sank a shot from a scramble to one side of the net. Play then settled down side of the net. Play then settled down until the ten-minute mark when Ander-son made the highlight play of a rather dull game, a sensational save on a solo breaksway by Staley. From the 13-minute mark Knox made a determined bid to get back in the game. Their attack collapsed, however, when Cam-eron drew the game's only penalty for visioning. tripping.

In the second period Volpe scored, assisted by Bartlett to lengthen the U.C. lead. Henry from Bartlett at 12:00 and Purcell from Polos at 14:40 completed the scoring.

For U.C. the second line of Bartlett, Henry and Nichol starred. Anderson, in goal for Knox, turned in a sensa-tional performance but received no pro-tection from a very weak defence and U.C. shot on him almost at will. Volpe with some fine sweep-checking and Bartlett at centre starred for U.C. with Eilbeck in goal earning his shutout.

Self for the losers never stopped trying but suffered from a severe lack of support. Play was clean but very ragged, both teams being badly in need of more practice.

Big Entry List For Track Meet

Yesterday's track events saw a goodly number out for the 100-yd. dash and the two mile relay (four man). Some 155 runners covered the shorter distance and the final result placed Cam Burgess of Trinity and Mathews of U.C. in the top slot with the time of 11.3.

Another couple were tied for second place in Hikicki of Vic and Wesson of Trinity who broke the tape at II.7. Mouse Fielding copped the next place in 11.73 and Wilford also of Meds dood it in 11.8.

Two quartets ran the relay which resulted in a victory for School over Vic. School's time was 9.48.2. The "four old faithfuls" made up the team: Fordyce, Lorimer, Watts and Kerr.

The meet continues today with another host of runners in both events.

FELT CRESTS

U.C. Team Push Attack from Opening Trinity Drive Falters;
Drop of Puck to Batter a School's Steady Power PreWeak Knox Defence for 5-0 vails to Take Hotly-Fought vails to Take Hotly-Fought 3-0 Win

PLAY ROUGH THROUGHOUT one

PLAY ROUGH THROUGHOUT

S.P.S. III shut out Trinity in a vigorous and rough hockey game last night by a score of 3-0. The game was hard-fought from start to finish but School held a definite edge on the play and outshot the Artsmen 34-17.

As play started Trinity put on their strongest attack and had McComb, in the School nets, hopping, to make four saves in the first minute. At the one-minute mark, however, School's starting line clicked and Anderson put the puck back of MacDonald. White drew an assist on the play. Both teams them settled down to hard play with many fast end-to-end rushes. School showed more polish around the net and at the 12-minute mark Hammon took a passi from Anderson to beat MacDonald with a 20-foot shot. The Trinity goalie had no chance on the play as his defence blocked his view. At the 16-minute mark Burgess went off for tripping and School pressed but falled to cash in on their advantage. As the period ended Trinity were really hot but falled to their advantage. As the period ended Trinity were really hot but failed to beat McComb.

Almost as soon as the second period got under way Burgess went off for boarding and School once more pressed but failed to cash in. As soon as Burgess returned to the ice, Stock of School went off for tripping but Trinity could not get an attack organized. Feature of the period was the sensational rushing by Tommy Hull of Trinity, who constantly threatened to put the Red and Black back in the game. Trinity developed a ganging attack at 13:20 when Stock was sent off for charging but were caught flat-footed when School broke and Kaufman scored unassisted with 45 seconds left.

Play was rough throughout with referee Gord Ball handing out four penalties, two to Burgess of Trinity and two to Stock of School.

For School the standouts were Mc Comb in goal and Anderson at centre Stock on defence and Burgess at right wing also turned in good efforts. Hull at centre and Burgess on defence starred for the losers.

SPORTS NOTICE

All men who desire to enter the Assaults must fill out their entry and sign the eligibility list in the Athletic Office before five o'clock on Wednesday.

By Mickey Michasiw

A PUNCENT ODOUR.

A certain pompous individual once said that it was unwise for any-one to write about hockey unless it was after a good sleep. And sleep we had over the intraumral games. With a few notable exceptions they are hardly of the variety that prompt twisting and turning in ones

we had over the intramural games. With a few notable exceptions they are hardly of the variety that prompt twisting and turning in ones sleep.

The variety of hockey reaches the two extremes—commendable and a strictly censored word for the opposite brand. On the whole, however, it has been in the former class which is quite encouraging, not only to the players and the different geniuses and genii who act as athletic directors, but also to the odd miserable, friendless fan who wanders down to the ice palace to gawk at the flashes.

The cynical sports staff, as this department had often been referred to in the past, adopted, by popular demand, the attitude during the fall term that come-what-may, we are through begging fans to come out for the intramural set-ups. It is quite conceivable that most of the players spread propaganda amongst their friends against other teams in the league, and hence discourage the populace from attending. Whatever the cause has been, it has certainly weathered the time element.

But to tread back to our intended path, we note with some alacrity that a certain team has been greatly imposed upon. Such an affair is unpardonable, and had some college or faculty been faced with the same situation, a yell would have resounded from here to Uraskal U.

The team concerned was the Army, who have gone about without a word of complaint. From authentic reports, it seems that before they could proceed with a scheduled game, these lads in khaki were literally compelled to clean the ice. True, a game could have been played on the slush-covered surface, but only the more hardy individuals venture forth now days for golf.

Fiverything in the book has been thrown more often than enough at

a word of complaint. From authentic reports, it seems that before they could proceed with a scheduled game, these lads in khaki were literally compelled to clean the ice. True, a game could have been played on the slush-covered surface, but only the more hardy individuals venture forth now days for golf.

Everything in the book has been thrown more often than enough at us for enthusiasm over the Army teams. Our opinions were not biased but were formed on the fact that they have shown as much, if not more, sportsmanship than any other organization on the campus. And we say that without begging anyone's pardon.

It was with this same spirit that the ice was cleared in this particular instance. However, such a condition connot be condoned and whilst it could easily have been the oversight of some poor ponderous individual, it is a situation of which the intranural body cannot be too proud.

MORE AND MORE AND MORE...

While this is itself is not force and the presence of the presence of the resonance of the reporter. While this in itself is not.

MORE AND MORE AND MORE...
Other birds of ill onen are the referees. While this in itself is not unusual, the local fire-pot differs greatly from that provokable strait. The refereeing does not lack in quality as far as the rule book goes, and most of the fellows out-manage to look intelligent at the proper moment, which, according to Kenner's Manual on Refereein—excerpts of which were published in these pages early in the year—constitutes the main portion of a referee's qualifications.

The officiating has been of the better variety, and yet some allesential is missing, according to latest complaints. This bewailing is caused by the lack of uniformity amongst these white-garbed guardians of the rule book. Group 1 looks like the cream of the cream of

outh each other han with their steas—a retary has a pente every time out.

Other leagues usually call their officials together to hash the rules out beforehand. Whether this has been done here or not is not known, but constructive criticism is always most welcome, so perhaps this is not an exception.

against people talking on the phone for more than an hour. Having had a bit of a bout with the flu' yesterday, we were unable to fight for our acey old team when they clashed with Meds. So what do we do? We phone up no less than ten babes and either the line is continually busy, or if we do manage to get the odd soul or two, she only gives with the info that U.C. It won 3-0! Who got the goals we query of one hockey sodden U.C.-ite??? "Oh I don't know THAT," she sez, "I was too busy playing."

But finally we contact a medico who remembers that Jean Mann

"I was too busy playing.

But finally we contact a medico who remembers that Jean Mann knocked in one goal for the Royal College. The source of the other two points is still a mystery. 'Stoo bad we can't conjure up a bit of revelation to fill in this obvious discrepency, but it wouldn't net us any-

. except a couple of goals.

FAIR WARNING

FAIR WARNING

The Athletic Directorate held a meeting yesterday, the upshot of which was that from now on eligibility slips must be handed in before anyone may be permitted to enter a sport. The laxity shown in the past, finds its roots only in you gals who have not the energy to get a slip from your manager or at the S. A. C. office, and whip up to the medical office. The Directorate is on the warpath, with intentions of drastic action for future misdemeanours in this business, so when we say remember to give 'em the slip, we don't infer at all what you're thinking. MR. FIVE BY FIVE

And so if this colyum is wider than it is long, blame it on the fiend who put ground glass in my sasparilla.

One doubts if he could have sung it this way. Another outstanding solo turn was that of a young puppeteer, uncredited in the program, who Pas de Cinq with marionette stars Carmen Miranda, Ostrich Ballerina and Sonja Henie, drew rounds of applause.

Henie, drew rounds of applause.

The Van Grona ballet troupe did several interludes such as Black Rhapsody and Rhumba Ballet which were lavishly designed and gorgeously costumed, but did not come up to the Massine productions in technical proficiency. The touch of the master is infallible. His Daphuis and Chlae (Ravel) and Rovolandson Conia Ballet (Lecuona) were masterpieces in con-(Leeuona) were masterpices in con-ception, although in the first the corps de ballet was patently better drilled than the principals themselves. I have yet to discover where Mr. Youman figures in all this.

On Drums and Organs

Convacation Hall

For Dr. Healey Willan, organ recitals at Convocation Hall must, in a sense, prove a hapless task. Certainly it is thankless one. It is difficult to say

for those who have knowledge of the instrument. Some say that the listener

settled in life and more receptive to this musical form, which appreciation, ap-parently, requires a contemplative frame

of mind; young people, they claim like jazz or symphony—which is flashy and

It is true that there were eight grey eads among the 30-odd that attended esterday's recital, and it is likely that

the few students who did attend were not beyond the pale of the ordinary

campus mentality. They were average students—if such there be—who came, saw, listened, and left the hall vastly soothed and refreshed. It would seem

that there are many like them, who, not

knowing what they are missing, con-tinue to stay away and continue to miss out. In the final analysis, all that the

recitals require, perhaps, is added pub-licity; and if there were enough beating of the publicity agent's drums, students

would come flocking to Convocation

The pity of it all is that Dr. Healey

Willan is an organist whose ability little requires a drum-thumper to herald

ts merits. An organist who has com-

nosed more than 200 works during the course of his 65 years of life in Canada and England, he is head and shoulders above any of his contemporaries in this country. Yesterday his eraftsmanship at the keyboard was obvious.

As a fitting aperitif, Mr. Willan served up Johann Sebastian Bach's popular Prelude and Fugue in E minor,

Most interesting, perhaps, was his handling of Karg Elert's somewhat artificial Souata in A Minor. This was a Miltonian number, you might say, and its rumbling deficiencies are offset by magnificent chordal thunder with which it ends

THE UNIVERSITY OF TORONTO, WEDNESDAY, FEBRUARY 2, 1944

Inter-Year Debaters In Robinette Finals To Be Held To-Night

Position of Women in Post-War Period is to be Topic Discussed in Women's Union Theatre

STAFF MEMBERS JUDGE

The finals in University College's annual Robinette Debates will be held at 8 o'clock sharp tonight in the theatre of the Women's Union. The subject for the debate, which is an inter-year competition for the men of the college, will be "Resolved that Canadian women should play as large a part in the post-war period as they have done during the war years."

The third year will be represented by Frank Watson and Dennis Wrong. Watson is a P.H.E. student and Wrong is in Sociology. They defeated the first year team of Sid Jourard and Phil Cooper yesterday to move into the final event. The second and fourth year teams will meet today at 12,30 to decide the other finalist. Jimmy Graham of Political Science and Ross Skinner of Commerce and Finance make up the fourth year team; Gordon Stulberg of Law and Frank Rasky of Pass Arts make up the second year team.

Judges for the final debate will be Principal Wallace, Prof. Finch of the French department, and Prof. Anderson of the philosophy department.

In addition to the Robinette final, the winner of which will be presented with the Robinette Shield, a one-act play will be enacted by the U.C. Players' Guild. Refreshments will be served and music will be provided for dancing following the entertainment. Admission is free to all U.C. students. The four professors will not be there.

ATTENTION ALL VARSITY STAFFERS

There is a large document hanging on the bulletin board, which requires all your signatures personally. In-cidental information is that the thing will be an informal brawl Saturday night, and easily available to Athletic Night. Assignments for the evening will be dealt out broadwise on Friday, so please okay them then.

MASTHEAD MEETING FRIDAY

There will be an important meetof The Varsity masthead Friday 4:30 p.m. in Room 82, University

Indian Princes Is Coleman Topic

Professor L. C. Coleman of the Professor L. C. Coleman of the Botany Department was the guest speaker last night at the Medical Arts and Letters Club at Wymilwood on the subject, "The Role of the Indian Princes in the Future of India."

Professor Coleman said there were

three major difficulties in India with regard to unification and independence. First was the Hindu and Moslem struggle which was further aggravated by the rise of the Moslem League after their services in the last war failed to

win adequate government recognition. Second major difficulty was the native prinees, which Professor Coleman called an anachronism that can be eliminated only in time because of treaties with states." By means of slides the speaker states." By means of slides the speaker illustrated the striking contrast between the luxurious splendor of the maharajahs and the squalor of the poor. He pointed out that the princes control one-eighth of the total income of their states, with perfect liberty to spend the money as they please. They pay no income tax and please. They pay no income tax and pleases their private revenue as well as income from the state. Out of this revenue they keep up state armies, ostensibly for police up state armies, ostensibly for police. up state armies, ostensibly for police purposes, but since the central govern-ment already has a large expenditure for the protection of India, this means that the poor farming population have to pay twice for the same thing out of a very small income.

to pay twice for the same time of a very small income.

However, he stated, a realization of the hiatus between the classes is spreading among thinking people in India, though this is to a large extent conteracted by the fact that even if the maharajah takes an interest in his people, he does not understand their problems and often is kept from doing so by the protective hierarchy that surrounds him. Up until the recent famine it was the same with the Viceroys, Professor Coleman said.

Another difficulty in the way of independence and unity is the present impasse between the native princes' "chamber of princes" and the Congress.

The general opinion on England's offers

Leads Off

The first in a series of lectures to be given by the Victoria College Council will be presented by Professor E. A. Havelock this afternoon at five o'clock in Alumni Hall, Victoria College.
Every year at this time four Council Lectures are fiven by the seabilities.

in Alumni Hall, Victoria College.
Every year at this time four Council
Lectures are given by the teaching staff
of Victoria College. This year the
subject of the series is the Epic poem.
Professor Hawelock's topic today is
the "Making and Shaping of Homer."
In subsequent weeks Professor N. W.
DeWitt will lecture on "Virgil and the
Roman Epic," Professor I. E. Shaw on
"Dante's Divine Comedy," and Professor V. de Beaumont on "Varieties
and Outgrowths of the Epic in France."
Professor Hawelock stated that his
lecture will cover material of special
interest to third year English students.
In his lecture today he will deal with
the problem of Epic technique and the
growth of Homer from the ballad form.
He said in an interview yesterday that
Greek art development in pre-historic
time reached perfection on the coast of
Asia Minor about 800 B.C. "The Epic
poom had to be shaped so as to be
remembered and handed down. Thus
we have the metre and special vocabulary. Homer then was the end product
of a long oral process." of a long oral process."

Chemistry Lab Scene of Fire

The fourth year chemical laboratory in the Mining Building was the scene of a fire which broke out early Sunday morning, Col. A. D. Le Pan, Superintendent of Buildings and Grounds, told

The Varsity today.

The cause of the conflagration is un-

The cause of the conflagration is un-known, however, as there is no defective wiring in the lab. Authorities assume that it started in one of the lockers where apparatus is stored.

The alarm was turned in promptly by the city police who saw the reflection of the flames from the College Street Station. Firemen soon had the blaze under control and prevented its spreading through the building. Despite as yet unestimated damage to decorations, againt varnish and windows, engineering.

Enduring Peace Topic To-morrow

Tomorrow night at 8:15 p.m. a discussion on the "Basis of Enduring Peace," under the auspices of the Tonto Branch of the League of Nations, will be held in the Economics Building. The discussion will concern three proposals: Federation of Nations, League of Sovereign States, and Peace through

of Sovereign States, and Peace through Alliance of Big Four.
Chairman of the discussion is B. Wilkinson, professor of Medieval History at the University of Toronto.
Professor L. M. Gelber of the Modern

be held. The speakers, he said, did not need much introduction, all of them being well-known people who have done

a good deal of thinking on the subject.
"The purpose of the discussion," said
Prof. Wilkinson, "is to express their
views and not to venture a solution."

C.C.F. Speaker To be J. Cohen

Mr. J. L. Cohen, K.C., will speak to the C.C.F. Club on "Labor and Na-tional Policy" at 8:15 tomorrow night in the Common Room of the Women's Union.

Union.

Mr. Cohen is a former member of the National War Labor Board. He was active on the Techuse Mine and Scamen's Union Conciliation Boards.

A new secretary will be elected at this meeting, and a new lending-library for C.C.P. literature and other progressive literature will be introduced, as well as the usual literature sales. The speaker, Mr. Cohen, is a graduate of Osgoode Hall. Since the Oshawa strike case of 1937, Mr. Cohen has pleaded many labor cases in Canada which were the subject of much controversy in the press. He is an author-

Affirmative Speaker Points Out That Allied Nations Embarked on Liberal Peace Polisy on Their Acceptance of the Atlantic Charter Which is a Statement of Their Intention to Co-Operate with Germany

A POLICY OF THE SWORD NEVER BRINGS PROSPERITY

The resolution that Germany should be given a liberal-peace was upheld by a vote of 47 to 24 in the Victoria College debating parliament last night. This was the first intercollegiate debate of the 1943-4 season, and Vic played host to a team from McMaster University. The first speaker, Harold Fawthrop of McMaster, first of all defined the meaning which the affirmative side took from the phrase "liberal peace." A liberal peace," he said, "is one in which the Allies will collaborate to establish and maintain order, prevent outbreaks of aggression and facilitate the spread of freedom and justice." He then proceeded to uphold the resolution on humanitarian grounds. He pointed out that the Allied nations were in reality already embarked on a liberal peace policy as exemplified in their acceptance of the Atlantic Charter, which is a lastament of their intention to co-operate are with Germany instead of crushing her completely. He said that this charter completely. He said that this charter is of our wor of intered was on the raceous content of the process of the atlantic Charter, which is a lastament of their intention to co-operate of working the process of the Professor L. M. Gelber of the Modern History Department, ex-Controller Duncan, Mr. E. Ertt and Mrs. John Davidson will be the participants.

Prof. Wilkinson said yesterday that each member will be given ten minutes in which to express his views, following which a round table discussion will be held. The speakers, he said, did not cooperation with and good will towards to cooperation with, and good will towards to cooperation with specific to complete the said that this charter was a concrete example of our "message of good will to mankind," and that, in keeping with this policy we could do not be account to the properties of the said that this charter was a concrete example of our "message of good will to make the properties of t

co-operation with, and good will towards Germany were necessary for lasting proace and prosperity and maintained that we cannot reconcile that necessary goodwill with harsh peace terms. The policy of the sword can never bring prosperity." In closing, the member stated that any other policy than a liberal peace ealled for annihilation or subjugation of the Germans, which would be absurd.

Lorraine Ackert, second speaker for the affirmative, followed up her colleague's arguments for liheral peace by arguing on economic grounds. She explained that the cenomic future of Germany was important, not only to

The resolution that Germany should that nation, but to the whole world,

take either dictatorship or democracy. If they chose dictatorship we have lost the very thing we fought for; if they take democracy they could not possibly make it succeed amongst a people unversed in the art of democratic government. She stated that we are, in these years, undergoing a revolution of our way of life. A liberal peace would be a step backward, that we need "a new, planned Europe:" Besides being a step backward, such a peace would not be in the interests of the average German who must be of the average German who must be

of the average German who must be protected and guided. To sum up, Miss Thompson said that this settlement

Home From Home

The news appearing in The Varsity yesterday that Holwood, formerly the residence of Sir Joseph Flavelle, was to become a men's residence for University College, comes as a pleasant surprise to University College students, although reaction is not unmixed. Men students of U.C., now scattered because of lack of residence space, must view the prespect of a new residence with pleasure even though it is doubtful if any of them now enrolled at U.C. will ever reside there.

The reaction of women students of U.C. and those enrolled elsewhere on the campus is naturally less enthusiastic, since they have long been under the impression, not unsupported unofficially by official sources, that Holwood was to be a women's union corresponding to Hart House for the men. (As a matter of fact a name, "Hind House," had already been found by one irritating male professor.)

Holwood will undoubtedly be considered palatial as residences go, but except for its architectural grandeur there is not a great deal to recommend it as a university residence. For one thing, it is comparatively remote from the college it is intended to serve. Not not only will it be a home from home for men students in the commoner sense, but it will very defintely be found isolated from their academic home, the building in which most of its residents The distance between old U.C. and the corner of Hoskin Ave. and Queen's Park Crescent does not look great to the casual observer, but in the cold dawns of some later year it will constitute a more than bearable sprint for an 8:30 (or possibly 9 o'clock) lecture. While still a makeshift like "73," Holwood will not have the advantage of the older house's proximity to the college.

University College has been less fortunate than the other Arts Colleges in the development of a closely integrated college life, and the acquisition of a distinct college residence of any sort will mean much to the life of the college. It is to be regretted, however, that physically this residence is not in a line of direct organic development, but will constitute an ungainly appendage. There were rumors that a new residence was to be built along St. George Street below the Women's Union. This would seem

What would be ideal, however, would a return to the old quad, and the building of connecting residences across the open end of it and extension to form another quad on the back campus, forming a unit such as is envisaged in the plans for Trinity College. Here, of course, the problem of space arises. Such a building would reduce the size of the back campus by half as far as the playing of organized games was concerned. The present arthetic space of the University is only barely adequate and seems likely to diminish as Trinity eats into its own playing field, and land is sought to build, among other needed buildings, the long-

is not spent on alterations which will be useless when the building is turned back to the University for some other purpose as the college develops more for some other purpose as the conege develops more suitable residences close to home. And it should be a continuing hope that such a development will take place soon, for, despite pat mutterings about sectionalism, the life of a college as a unit is a valuable element of University life of which students should not be deprived.

Uruguay Suggests

One suggestion, among others made the other day One suggestion, among others linder the other day by the new Uruguayan Consul to Canada for the strengthening of ties between Canada and his country, should be embraced immediately with enthusiasm by undergraduates and members of this University. In addition to trade and travel reci-procity he recommended an interchange in cultural and academic fields, and proposed that exchange scholarships be instituted between the two countries.

It is not impossible to institute such scholarships

at the present time, although it would be difficult. Certainly there is no reason why the institutions of the two countries should not start making plans, for such cultural exchanges are a recognized part of the pattern of a lasting peace. They have been recommended as a way toward better understanding They have been of our present and recent enemies. How much more fruitful might we not expect such exchange to be when carried out between friendly, but not too well acquainted nations.

This University, being the largest and one of the most cosmopolitan in texture in the country, should be the first to make contact with Uruguayan universities for the development of exchange scholar-While we have a notable group of students here from all over the world; of the 139 men at the Warden's Christmas Dinner at Hart House, given each year for men of the remote provinces or from distant lands who cannot get home for Christmas, only three were from Latin American countries one from each of Chile, Venezuela and Mexico The dearth of our contacts with the Latin countries of this hemisphere is shown by this index. We lose valued experiences because most Central and South American students who study in the north go to the United States, attracted by the main factors of distance and a consistent policy of Pan-Americanism.

Correspondence

Thanks from I.S.S.

Jan. 30, 1944.

The Varsity.

Dear Sir,

I should like to express to The Varsity the thanks of the University of Toronto Committee for Inter-national Student Service, for your help and support during its recent campaign. The Varsity has given excellent service and we are grateful to you. Surely there is no one on the campus who has not heard of I.S.S. now.

We owe a debt of gratitude to Dave Bairstow, IV U.C., Gordon Stulberg, II U.C., Mary Roadhouse, II Trinity, Joan Corbett, III U.C., Mary Strickland, II Trinity, Barbara McNabb, IV Victoria, who worked very hard to make the drive a

Dave Bairstow, as M.C., wrote much of, arranged and presented a show which was the first of its kind on the campus. He performed quite a feat in co-ordinating so smoothly such variety with as much fun as went into the show. Dave was quite in-dispensible—an absolute necessity. We would like thank him, too.

To the Medical Society we would like to say how inspiring we find the announcement of their intention of raising another \$1,000 for I.S.S. Such initiative on their part shows a clear comprehension of the worthy nature of I.S.S. work which is being carried on the world over among imprisoned, interned, and refugee students.

FRAN AITKEN, Chairman

promised University women's union. We shall not go in chronological order of the Undoubtedly the college has considered well any problems we might raise here and the Holwood scheme must seem to them to be the most feasible solution to the residence question at the present time, but it is to be hoped that too much money

She's Engaged! She's Lovely! She Uses Drano!

There was little fanfare when one of the greatest celebrities ever to visit Toronto arrived at the Royal Ontario Museum. This quiet, refined lady is the famous Baktu Bak, former premiere danseuse at the court of Cleo patra. Brought to this country at great expense, Miss Bak will star in a forthcoming extravaganza* to be produced at the Museum Theatre under the direc-tion of Tangent McSlydrool, president of the local Temperance Club.

When interviewed by The Varsity, Miss Bak was reclining in her portable combination bed-dressing - room - wardobe, tastefully at ease in a lounging robe of overlapping linen strips. She in-formed interviewers that she left Egypt before the outbreak of war in the company of her sister, Miss Phruntu Bak-the well-known sweater girl.

Informed that she would be the first Egyptian dancer of her dynasty ever to tread any Canadian stage, Miss Bak lightly dismissed the honor.

"In Egypt," she said, "I was the idol of millions. A Pharoah even promised to build me a pyramid if I'd marry him. But I had my career to think of so, so we settled for an obelisk." Reaching so we settled for an obelisk. Reaching into her sarcophagus she withdrew a locket worth a king's ransom and inscribed, "Ab Marco Antonio ad Baktu Bak." "He gave me this because he admired my smile," she confided. (It is reported that Cleopatra wore a patra). plate.)

In spite of the fact that she is over 2,000 years old, Miss Bak still preserves a youthful, tanned, healthy appearance that would shame most of the campus glamor girls. She attributed this to the catalytic action of an ingredient in her embalming fluid. "This ingredient," she said, "is available today but it seems to be a little bit more difficult to procure. The stuff you people line up to buy I would not be found dead in."

She said that her principal number in the show would be an old Egyptian torch song called "Mummy." Informed torch song called "Munmy," Informed of a similar number made popular by Al Jolson, she said, "That drip? He's a ham from way back. His steal of my composition is another example of the tendency of today's composers to jazz the classics." Miss Bak also confided that the way accept the confided that she was secretly engaged to Tangent McSlydrool, her producer; but added that they would not be married until his graduation.

"He's just about half dead now, but after his exams are over he should be every bit as lively as I am," she con-fided, taking another gulp of embalming fluid. "He's been training on this stuff for two weeks and the effect has beer simply marvellous."

AD NAUSEAM ...

AD NAUSEAM...

Up until yesterday we had a fair amount of respect for the School of Law in this University. Then we heard the Law Club's latest. Instigated by a character named McGuiness, a movement to separate Law students' sports activities from the Arts colleges they are now associated with, has been sanctioned by that organization. Whether they realize it or not, what these people really want to do is to form a separate faculty which will have no ties with the Arts colleges. At the present time there is a fair number of Law students playing on Arts college teams, and as far as we have seen they have been satisfied with the brand of sport they are provided with there. Now they want, or at least some want, to break these students away from their ties in the four Arts colleges and to unite them in one small band.

away from their ties in the four Arts colleges and to unite them in one small band.

All well and good if there are a great number of Law students. Suppose, for example, that they were sufficient to compare their numbers with the Faculty of Medicine or Dentistry or Science. The large registry in those faculties justify their existence as separate competing athletic bodies. The number of Law students here is scarcely more than a hundred. And interfaculty records show that about 50 per cent of the men students at Varsity take part in intramural sports. That gives the proposed Law athletic body 50 men to work with. You can see right away that this would mean no rugby team for Law. And we'd be surprised to see the same body raise a hockey team of any ability at all.

The present athletic fee paid by all male students is about four dollars. That would give them \$400. Not much to outfit teams in a dozen different sports. Or perhaps they're counting on their powers of rhetoric to win games.

dollars. That would give them \$400. Not much to outht teams in a dozen different sports. Or perhaps they're counting on their powers of rhetoric to win games.

And judging by recent standards Law's enthusiasm for sport isn't so over wonderful. Witness the case of an intramural team lately flaunting a Law banner. One of their game's some time ago saw a grand total of one man out. There's hev men on an intramural basketball team, remember, boys?

Fortunately the Law Club is not the highest court of appeal in intramural sports. The Athletic Directorate still holds that position and it is to that body that this motion will have to be referred. That is unless the Law faction intends to make the split complete and cut themselves completely away from the Arts colleges. After all there is little use in these half-way measures. But if the Law students realize just where their margerine is coming from they'll stay where they are. They now can cash in on the benefits of extensive sports as operated by the Arts colleges who are financially well fixed in comparison to the small sum which a Law faculty would have to work with.

If the Law faction were to break from their present position surely other courses would follow. We might have an Economics faculty, a Philosophy faculty, a History faculty, and perhaps even a Pass Arts faculty. Some opposition to put up against the Engineers or Medsmen. Did you ever hear the "united we stand, divided we fall" maxim?

evening's concert by the Toronto Symphony Orchesta, Sir Ernest Mac-Millan conducting. The work is in three movements, an Adagio between two liveller ones, and the whole adds up to average symphonic

the whole adds up to average symphonic length. It is, generally, a lyric rather than heroic composition; never does it appear to rise to any extreme emotional climaxes or crises, and it is blissfully free of harmonic or other sorts of sensationalism, as well as of much reathing noise for its own sake, which seems to be the general characteristic of far too large a percentage of new music. Knowing something about Dr. Walter's artistic scruples, we may safely assume that when he did write a fortissimo-tutti passage, he did so for a definite musical purpose.

assume that when he did write a fortistismo-utility passage, he did so for a definite musical purpose. Most of the time the Symphony is stored effectively, if not richly, at though disturbingly scored at times. There certainly were moments where one wished for greated power to sustain a well-begun phrase, which would stacken off in intensity as it progressed, instead of the reverse happening. Also, there was, possibly, a bit too much obvious writing for one particular choir alone, with weak or too little support from the others. Furthermore, one also detected, at the rare moment, not the happiest choice of medium for expression of a them. Most of this criticism applies to the last movement (Andante; Allegro motto econ brio), and some to the first (Lento; Allegro vivace). But the middle movement (Adagio), is almost faultless, a thoroughly cnjoyable and lovely gem. There are also many fine moments in the other two

Entries Not Up to Size Expected as Many Weight Divisions Attract Very Few Assault Contestants

FINALS SATURDAY

The junior boxing and wrestling tournaments start today and continue till Saturday night when the finals will be held. Four boxing and three wrest-ling matches are carded for today.

The tournament entries did not reach the size desired by the assault pro-moters of the University, and all told there are 19 entered in the boxing and

there are 19 entered in the boxing and 15 in the wrestling lists.

In the boxing field four have entered the 135-lb. class, five the 145, six the 155, while only two have entered the 165-lb. and the 175-lb divisions. In cases where only two have entered the bout will be held as the final on Sat-

nout will be held as the final on Sat-irday night. The wrestling tourney's largest entry is in the IS5-lb, class. Six have signed for that division. Two have entered the I25-lb, three the I35, two the I45, and two the I65.

The Sportswoman

(Editor's Note: To-day's colyum is written by a rare bird, indeed. Back in the old days he used to pound out sports news for The Varsity. Since then he has become a corporal in the RCAF, is wearing overseas service stripes and still he graces us with a few words before he leaves for the west.)

By George Forster

IT COULD BE SMITH, TOO!

IT COULD BE SMITH, TOO!

Some energetic babe, sez the female sportsed, has just handed in a notice about Vic and U.C. water polo fans having a practice on Thursday in the U.T.S. pool at 5 p.m. Now this is the spirit we like to see ... but according to all accounts this spirit has not been what you would call rampant in the past. Especially as far as hockey and basketball is concerned, we note, from looking over past editions of this colyum—teams have dropped out of both sports apparently.

It seems that the lack of interest shown in female sport roundabouts is almost deplorable. Apparently it is no longer possible to reconcile being femininme and athletic both. But whatever the reason faculty athletic directors are finding it increasingly difficult to field teams, and spectators are practically a fond memory; and, (says the female sportsed) that is most definitely a bad thing.

At the present rapid rate of ratrogression, the day is not far distant when organized interfaculty sport will consist of the P.H.E. Crocheters squaring off against the Dental Nurses Purlers in the O.C.E. gym, in a super sweater manufacturing match. And just think how Vassar would snicker then.

In fact it's about time that youse gals pulled up your socks, put

Vassar would snicker then.

In fact it's about time that youse gals pulled up your socks, put your jolly old shoulder to ye jolly old wheel, and took the shine from your nose by applying same assiduously to the grindstone (and incidently getting rid of a wee bit of avoirdupois so you can go back to steaks and chocolate malteds) by turning out for your local baskeball, volleyball, swimming, hockey or wrestling team (and don't forget archery when they get it, but which they should have now, says the night ed). We can promise you you'll have a lot of fun and feel a lot better for the effort. Athletics (says the female sportsed) are an integral part of a university education.

If it's absolutely impossible for you to participate activate (which

part of a university education.

If it's absolutely impossible for you to participate actively (which we refuse to believe) you can at least show up and give three rousing cheers every time the gals bulge the net, ruffle the twin, set a new backstroke record or perform some other prodigous and valorous feat. We hate to bring up the much discussed subject of rah! rah! rah! for dear old Occupational and Physiotherapy BUT—YOU WOULDN'T WANT VASSAR TO SNICKER, WOULD YOU?

First Intercollegiate Debate Won By McMaster's Team

and should take two forms. Firstly, the youth should be re-educated into demo-cratic ways, so as to get rid of all Nazi ideals, and secondly, the adults should be instructed in the techniques of demo-cratic government. The army should be so organized that the sympathies of the old Prussian aristocracy will be few street on a roller of the old Prussian aristocracy will be few street on a roller of similar to the street of the old Prussian aristocracy will be few street on a roller of similar than the street of the s

Any time's SHOPPING TIME!

ADVICE TO A PERFECT LADY.

Next time one of the two or three males left around the campus slides up with the summons "May I drop in and hold your hand Saturday afternoon?" soften the sparkle in your eyes and reply firmly "I usually go dancing Saturday afternoons. Sorry." Next time hell do the handsome thing and make it a bid to the King Eddy Thi Dansont, where, heaven help him, you'll have things pretty much your own way what with Norm Harris and the boys breaking down his resistance to showing a girl a good time. The Dansants are held each Saturday afternoon in the King Edward's Vanity Fair where all is eon-ducive to soit laughter, gentle glamess, and romance.

FRESHEN UP lost yeor's suit, with a blouse! It will make the ald suit perk up like nobody's business. When you take off your jacket you'll be proud to be feutinine in a pretty white blouse. Mony a glamour gal like yourself likes the shirt style, or on the other hand if you like something a bif fussier, you can choose anything from the uew shee string blonse to the artist's bow blouse, in Fairweather's prand spring collection, some ruifles are featured, some of the new blouses have buttons all the woy down the front. Fairweather's have a VERY state new collection of blouses to choose from.

MAKELIR can he as much a defect as What's On Today. ADVICE TO A PERFECT LADY.

MAKEUP can be as much a defect as an advantage unless it's applied with skill and experience. If you know how to put it on there's no doubt about it, the improvement is considerable. Helena Rubinstein is offering a worth-while course in the art of applying make-up the sure, sure way, the way which adds up to personality plus. A two hour course in the art of using your cosmetics, in applying make-up to make the best of every line and contour of your face. All preparations supplied free. For groups of ten or over, a reduction is made in the price of 2.00 for the class.

SUIT NOTES FOR SPRING!
They're smort, youthful and softly tollored, just the thing to go stepping out int Corded serge, in red pepper, with pleats in the skirt front and back, a five buttoned jacket. A stunning Shetland Club suit, in many pretty shades, skirt has pleat front and bock, with four darling pockets in the jacket. New Cardigans in English Tweeds with soft fulness at weist line, three buttoned soft fulness at waist line, three buttoned front. Another that you'll really go for, is a very chic wool Shetland, in hot orange, saddle stitching on pockets, lapels and all the way round the edge of the front. All these suits you'll find at Northways Junior Miss Department,

GALS! FOR A SOFT and lovely skin, GALS! FOR A SOFT and lovely skin, use a cleansing cream every day. DuBarry is an exceptionally good buylong lasting, smooth as silk, and as soft to the skin as apple blossoms. So help yourselves to June in February, by using a reliable cleansing cream. You take off all old make-up, give the skin a chance to breathe. Put a little eream on your finger and apply to your face, using an upward circular movement. This penctrates into your pores and removes every bit of the day's make-up.

MORE . . . ond softer Suits—thot's the fashion story of the newly opened suit centre at Simpson's. Suits—a big word in fashion's Spring accadulary—"softer" another. Put them together and you have the story of the new fashion season. Dressmaker suits voith soft pretty detail—collarless cardigans, shu, straight and young—tailored types with a new softness of line and detail. Suits are utterly, transly, deliberately femining. are utterly, frankly, deliberately feminine. See the suits in Simpson's Suit Centre reflect this theme.

Society.

After the vote had been taken, Mr.
Fox arose on a point of privilege, and speaking for himself and his eolleague, congratulated the house on their league, congratulated the nouse on their decision. He explained that both he and Miss Thompson agreed whole-heartedly that Germany should be granted a liberal peace and that they had taken the negative side only by force of circumstances and not through

with dorothy harley

Our experiences as a green and hayseed freshie have shown us that though
maybe you can fool some of the people
some of the time, you can't fool a prof
ever. So there! And just because this
is such a revolutionary and precedentshattering thought we are passing the
proof along to you right here. Don't say
we didn't tell you!

**

We were disillusioned right at the
beginning of the game. Way back last
term a Varsity staffer we know, in her
capacity as a reporter, was endeavoring
to acquire fluency with the typewriter.

But al, again dissillusion! When the

We were disillusioned right at the beginning of the game. Way back last term a Varsity staffer we know, in her capacity as a reporter, was endeavoring to acquire fluency with the typewriter. Just naturally it occurred to her that here was the perfect thing with which to do a little apple polishing. What prof on earth, thought she, could resist the sight of a beauteously typed manuscript artisticly decorated with red underlinings? Therefore, come next cssay, this eo-ed handed in a laborously enconceted printed episte. It had every—some there were being 99 or 98 at least in the upper right hand eorenr, there was something we promised faithfully we wouldn't mention, and printed undermental it—"Amount of similarity noted."

Sareazin, we pressure.

* **
Possibly we have said enough about; eoncoeted printed epistle. It had every-thing; you don't know the half of it. What prof, as we have said, could

resist it?

But it seems one did, because when the masterpiece came back to its owner it bore, in aggressive looking letters across the top, "Your typewriter spells ABOMINABLY."

Then again there is the sad little episode that oceurred in a 8:30 French class. One murky morning, in walks the prof and decides to take roll call. Now, prof and decides to take roll call. Now, Miss Brown not knowing about roll call y'see, has overslept. So Miss Jones, who happens to be there that day, answers for her. Everybody knows that in all respectable professor stories profs are always fooled by this sort of thing—but not THIS one. He just books up and remarks in a sinister sorta way, "You weren't Miss Brown last time I saw you."

We were further disillusioned along the professor line when we heard about the co-ed from Trinity. Myrtle, or somebody, went to get a leave for the Conversat from one of the Saint Hilda

"Well," said the prof, "be as careful

L.C. JOINT MEETING
Last joint meeting of Lit and W.U.A. in the Women's Union at 8:00 p.m. All story we even heard was the one we got from a U.C. co-ed. She had the John Last all that professors wanted on the last all the last all that professors wanted on the last all that professors wanted on the last all the last VIC V.C.F.

Dr. Northcote Deck, a missionary to the Solomon Islands, will address the romarks, which of course is probably "Huh," said the gentleman, as he non-hour meeting of the Vic V.C.F. tin Jackson Hall today at 12:40.

Possibly we have said enough about professors. Now we're branching into other fields with a couple of those one-sided conversations we've been reading

sided conversations we've been reading in the hithers of late.

We snooped No. One a few days before the Trinity Conversat as we were passing through the porter's lodge. Something like this was eoming out of a leaky phone booth:
"But ean't you...but...now listen...ah, please...we're having blackout dances."

Final appeal, huh?

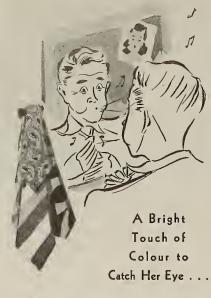

No. Two we overheard on the Welles-ley bus. Sitting behind us were two of the elass of '44 discussing their

Said the first, "With initiative and esource you can do practically every-

Said the second, "I'd feel safer with initiative and resourcES."

Cynic, don't you think?

We witnessed this one when we were walking along Harbord St on our way back from the usual place. It happened like this. A blonde and her escort were walking towards us but between them and us was a milk wagon and horse. As the couple passed the horse the co-ed leaned over and patted it on the nose with an angora glove. But it seems that the horse didn't appreciate it properly because he gave a sneeze that blew the little lady several yards

Women's Post-War Duties Final Figures Is Topic Of Final Debate In U.C. Inter-Year Series

Robinette Shield Won By Gra-ham And Skinner Of IV U.C.; Two Professors And Dean Of Women Are Judges

WOMEN'S PLACE AT HOME

By Loggie Klaus Jim Graham and Ross Skinner, debaters for fourth year University College, last night defeated the resolution: "That Canadian women should play as large a part in the post-war world as they have during the war years," to win the Robinette Shield for interyear debating. Frank Watson and Dennis Wrong Frank Watson and Dennis Wrong were their opponents in the debate which was held in the Women's Union before a joint meeting of the U.C. Literary and Athletic Society and the Women's Undergraduate Association. Commenting on the decision, Professor F. H. Anderson, one of the judges, said that debating technique is essentially different from essay presentation and gave that as one of the reasons.

tion and gave that as one of the reasons for the loss of the debate by the af-firmative side. The other two judges were Professor R. Finch and Miss M. Ferguson, who took Dr. Wallace's place. Dennis Wrong started the debate by

saying that in this modern age a home is no longer self-sufficient. The social system is not oriented in the family, education is sought elsewhere. The foeal point of the social system has swung outside the home. Housework has become monotonous because of the countless labor-saving devices and con-sequently women must seek employment elsewhere to offset the ennui.

elsewhere to offset the ennui.

Ross Skinner of the negative side challenged the above statement saying he had yet to meet an idle housewife. He stated that women played parts of equal importance in both war and peace and that only their functions were different. However it would be impossible, he continued, for women to maintain their present role in industry after the war because of the economic situation. When the men come back the women When the men come back the women should return to their homes — their prime metier. He concluded by saying that women should have equality with men but that they should not usurp man's field.

Frank Watson replied that women could not be equal to men for physical could not be equal to men for physical and emotional reasons. He contended that after the war industry would expand to produce peacetime necessities and thus keep in employment the womanpower. Women would be as indispensible in winning the peace as they are in winning the war.

ATTENTION ALL VARSITY STAFFERS

There is a large document hanging on the bulletin board, which requires all your signatures personally. In-cidental information is that the thing will be an informal brawl Saturday night, and easily available to Athletic Night. Assignments for the evening will be dealt out broadwise on Fri-day, so please okay them then.

Dr. Yergan To Be Speaker

Noted Author Talks on Homer

Homer's poetry read in modern times was compared to the broadcasting of a radio station imperfectly heard through interference in our own atmosphere, in Professor E. A. Havelock's public lecture yesterday in the Victoria Colmodern readers.

Using the Lang, Leaf and Myers prose translation of the Iliad, Prof. Havelock illustrated both the characteristics which are admired and those which are disliked in Homer. The first,

Homer's language is an "amalgam" of several dialects in which Ionic Greek predominates, and it is in the idiom developed by the professional minstrels.

Prof. Havelock described the imporance and the function of the Bard in ancient society. He learned, and taught to his people the history, technical knowledge and religious rituals of their race. Many passages in Homer, tediou to us, can be justified by this purpose.

Prof. Havelock said that there were more grounds for comparison of Homer's Epics with the early Teutonic sages than with Virgil's Aeneid which is written to be read, not sung.

MASTHEAD MEETING FRIDAY

There will be an important meeting of The Varsity masthead *Friday* at 4:30 p.m. in Room 82, University College.

Watts to Speak On Japan Today

"Factors and Forces in Present Day Japan" will be the subject of the sermon by the Rev. H. G. Watts at the Uniby the Rev. H. G. Watts at the University Service this Sunday evening at 7:30 in Trinity College Chapel. Mr. Watts, who is a present Field Secretary of the Missionary Society of the Church of England in Canada, returned to this country shortly before Pearl Harbor after spending 14 years as a missionary in Tanan.

"that Japan occupies the position she does in the eyes of the modern world. Only 80 years ago the Japanese were a primitive barbaric race similar to the North American Indians two centuries past. Since then the Western Powers have given their material culture to Japan until she has now reached the lecture yesterday in the Victoria College series on the Epic. The high position which Homer's epics now hold is, Japan until she has now reached the said Prof. Havelock, due to a quality level of Western civilization. Yet the in his work which lives in spite of both its translation into prose and some characteristics which offend the taste of spiritual culture, and as a result the spiritual culture, and as a result the Japanese people have advanced very little spiritually during the past

Dr. R. B. McClure will speak and lead a fireside discussion after the ser-vice in the Provost's Lodge. Dr. McClure is a medical missionary br. Mcclure is a medical missionary br. has recently returned from China on a which are disliked in Homer. The first, structure, psychology, humor, itracic inroy, are the product of his art; while the episodic nature of his art; while the episodic nature of his style, the constant interruptions, repetitions and the many loose ends, he explained by the fact that the Homeric Epic was based on the oral tradition.

This was the reason he gave for calling Homer "a sort of cultural index to his age." He said that he took his material from the oral legends of the heroic age and the dark age in Greek history and wrote them down somewhere between 800 and 690 B.C. Homer's language is an "amalgam" of legends of the homer's language is an "amalgam" of legends of the langua

Toronto Must Be Prepared For Inevitable Development; Eng-ineering Buildings And Expansion Of Library Proposed

WOMEN'S SOCIAL CENTRE

priorities can be obtained on building materials and as soon as financial resources permit, nine building projects will be started on the campus to take care of the "inevitable development of the University," President H. J. Cody stated in his recently issued annual report to the Board of Governors. The President said that plans for such post-war developments were being made now to escape "the fault of unpreparedness which helped to bring this second global war upon us."

The report states that a new central bestiers are such as the said to the said to

heating and power plant should be erected on a new site because the pres-ent plant has been in operation for over

ent plant has been in operation for over 30 years now and cannot serve any new buildings when they are constructed.

The appearance of the Chemical Building will undergo a radical change when the University building program gets under way. Plans are under way for a new Chemical Engineering Building to be erected on College Street and adjoining the present Chemical Building. An extension to the Chemical Building will also be made.

In the report that was released yesterday, the new men's residence for University College is included as one of the buildings necessary.

Construction after the war will include an extension to the present Mechanical Engineering Building.

The President's report states that either a completely new building will have to be erected for the School of Nursing or an extension made to the sent accommodation. Expansion in the Banting Institute is

foreseen in the report and it states that the Institute will be added to to take care of the Institute of Physiology and to provide much needed space for general medical research.

A woman's symnasium and athletic and social centre also comes in the list of buildings needed after the war, as well as additional accommodation for the main library.

"These buildings," the report states, "are not an extravagance, but are really are not an extravagance, one are reamy necessary to the normal expansion of the University. Towards some of these, there is money on hand or in prospect; for others we shall need further financial help."

Show Us The Plans

The recent announcement by Principal Wallace of University College that the Flavelle House at the north end of Queen's Park will be converted into a men's residence after the war came as a distinct shock to the women of the campus. Long accustomed to thinking of the Flavelle House as their own property, as the concrete form of their hope for a University women's union, the first reaction of the co-eds was one of rage at being robbed of a longcherished dream. But when the smoke cleared away and the girls had time to think it over, it was clearly realized that the house in question would be much more suitable and more readily available as a residence than as a women's union. However, the move had served to knock the women out of their patient five-year complacency regarding the eventuality of a union, and focused their attention on hearing definite and complete plans for immediate post-war construction.

For the past five years student agitation for a women's union has been shelved in the face of that irrefutable dictum "after the war." There was no use arguing for a new building when everyone knew it could not be started until war-vital materials were released. But the Flavelle House stood as a monument to the project, a constant reminder that the women's union was promised and would appear among the earliest blessings of peace. Now that the house has been relegated to another use the women are expected to keep hoping on the basis of reassurance that the money for the new building is accumulating and the Board of Governors continue to hold the project dear to their hearts. But the women are aroused now and mere reassurance will

For some 20 years Hart House has stood as the mecca of all men on the campus. Whether athlete or intellectual, every male student has found companionship and close friendships within that fabulous But the women of the University have remained scattered and secitional in their acquaintances, roaming the campus yet always returning to the individual college common room for leisure moments. The women of other colleges and faculties remain strangers to them. And so they will remain until the women of this University have a common meeting place.

Of course all this is an old story to permanent members of the University. They have heard this cry year after year and have seen it put down by a cry year after year and have seen it put down by a soft answer. But now the cry is in earnest and the answer must be concrete. Let the Board of Governors make good their intention by drawing up now full plans for the construction of a women's union. Let them show us their plans and make known their intention to start construction immediately the materials are released. mediately the materials are released.

For five years the women have waited quietly on For the years the women have water quiety on the strength of a house and a hope; now the house it at one of the celestial theatres. After crossing is gone and the hope needs bolstering. In the first confusion of peace, when all the half-formed post-through about three hours of concentrated drama, bewildered eye, it would be only too easy to turn to over. The costumes were spectacular, as was the chemistry and physics and let the women go wander-

another ten years. There will be no time then for long and serious planning. Let the planning come now and with peace, the action.

Annual Report

That annual document of the status quo, the President's Report to the Governors of the University on the academic work and general condition of the University and University College for the year ending June 30, 1943, has finally passed from the hands of the printers and appears now for general perusal. A report on a year now six months dead may seem untimely to a few but for a complete and exhaustive picture of this University it rivals comparison. We have neither space nor inclination to give a report of the report but certain features in it deserve mention here.

Of first importance in view of the day's discussion The Editor, is the section devoted to buildings after the war. Dear Sir, Nine specific additions to the present University buildings are outlined as necessary for "adequate accommodation and for inevitable development" of Barracks for the help and generous the University. It is encouraging to note that post-war expansion is being planned already but do the columns in our drive for more men so that we can have a Trinity Barracket. plans go deeper than mere mention of proposed buildings in the President's Report?

Brief mention is made of one very important phase of wartime education, the work done by University Extension among the troops. An extensive program has been set up for the education of troops on service a program which receives little or no notice on this campus. An indication of the real need for this work is seen in the amount of Dr. Dunlop's fan mail. According to Dr. Cody's report he has received The Editor, The Varsity. from 200 to 400 letters a month from men in the Dear Sir, (a armed forces asking for advice and guidance in their studies. If University ties are kept to such an extent by the men away from here we need not fear for the post-war world.

Correspondence

Tut, tut, Mr. Shackleton

Sports Editor, The Varsity.

Dear Sir,

Up until yesterday we had a fair amount of respect for the "Speaking of Sport" column in The Varsity. Then we read your article entitled "Ad Nauseam. Your statements are totally unwarranted and based upon an ignorance of facts which could have been easily cleared up had you taken sufficient interest to consult a member of the Law Club executive.

To benefit yourself and any unsuspecting readers, I should like to inform you of the true state of affairs. In view of the expanding size of the School of Law, it was felt that we should take a more active Dear Sir, I'm not accustomed to the exercising of my freedom of speech; but this morning when I read that story about how A report is to be made at the next meeting. No definite action was at all contemplated.

I might add that the Law Club is aware of the oundness of some of your arguments and takes no exception to it, thought we were fully cognizant of these facts previous to your writing.

We do, however, take strong exception to your nsidious innuendo concerning Mr. McGuinness, Law III : your totally uncalled for remarks about the Law Club, and your ridiculous statement on the subject of the breach with the Arts colleges which is insult to the intelligence of every member of the Law Club.

A retraction of your statements would be appreciated.

SYDNEY L. ROBINS, President, Law Club

Hon. Property Man

We were down in Chinatown the other night wielding the old chop-sticks, and afterwards dropped war plans ever conceived are milling before the and walked out at 11:30 when the play was but half (Continued on page 4)

Correspondence

(Space limitations have prevented u from printing all the correspondence that The Varsity has received this week, so the column usually oppearing in this space has been deleted to remedy this situation today.)

I should like to express to The Var-sity the thanks of all the girls in Trinity that we can have a Trinity Barracks Annual At-Home tomorrow night. I said I should thank you; but I'm dog-goned if I will. Fat lotta good you did Phooey!

Yours sincerely, Daisy Chain, Major, O.C., C.W.A.C.

Awwww shaddop!—ED.

The Editor.

Dear Sir, (and you don't deserve that sir, you rat!),

sir, you rati),
For years now, I have been working
for you and your rag. I think it is
safe to say that I am the only person
that reads your paper (?) from cover
to cover. It is unavoidable. I am a
victim of circumstance. I have to ead,
don't I? So I am the linotype operator.
With it is out of the the IT we as the eads don't I? So I am the linotype operator. Night in and night out I've sat here and read newsstories, newsfronts, editorials (ugh), the cat, the lither, C.O.T.C. notices and so on and so on, ad nauseum. Don't you think I deserve a medal or a pension, or something? Honestly, I've restrained myself and done my work properly. You don't know what a temptation it has been for me just to give up and do this right in the middle of all this junk; etaoin EtaOiN, shrdl emfwy vbgkq 123456, 654321, thadow ram Hdorawa)o... aod. Ah, now I feel better!

Your sincerely, Your line op.

of my freedom of speech; but this morning when I read that story about how
the men in U.C. are going to get that
big house for a men's residence after
the war why I just boiled right over.
What are all us poor gals going to do?
We've been waiting for years for a
girls' Hart House and we thought this
was going to be it. Why don't you
get up on your hind legs and fight for
us poor helpless little unprotected. us poor helpless little unprotected females? Eh? Whyntcha?

Yers trilly, Lucy from U.C., Gloria from Victoria, Miss O'Toole from School, Dimity from Trinity. Awwww shaddap!-ED.

The Editor, The Varsity.

Dear Sir, We think your paper stinks.

Yours truly, Three disgusted Tuck Shop Attendants.

Aururero shaddop1-En.

The Editor, The Varsity Dear Sir, So do I.

Yours affectionately, Warden Gilhooley of Hart House

The Editor,

Yours, all yours, ALLEY CAT, JR

Both Med Pucksker Teams Make Clean Sweep of Foes

Vic's Weak Defence Seized By Meds Second Team Trounce Meds I, Nets a Decisive And Dent II In Fast Moving Game; Deserved Victory; Hughes, Crassweller Open Scoring

SCORE 8 - 1

Meds I poured through a weak de-fence last night to scuttle Vic I, 8-1. Featuring an all round power-packed team, Meds outfought, outskated and outplayed their disorganized rivals and on the play deserved to win by a decisive

In the opening seconds of the first period Vie held their own, but at the strong medical defence in front of goalie 5:30 mark Hughes netted the first Meds goal on a pass from Grout to climax a classy passing play, and from there on it was just a matter of how many went off for boarding at the 10:15 mark more pucks would end up in back of Despite this disadvantage Dents carried Beet Moriarity. At 15:05 Crassweller the play Langmaid got the carts for

Hughes from Callaghan at 4:40 and Crassweller from Cole at 6:20 completed the scoring for the starry Medsmen. Shell netted Vic's only goal at 13:40 on a breakaway. Only penalty of the game was given to Hughes for tripping with only 18 seconds of playing time

remaining.

For Meds the line of Grout, Hughes and Self starred, with Cole also turning in a fine performance. On the Vic team several players were very bad but one who merited mention for his efforts. was Shell who never stopped trying and

Meds had 33 shots on goal of which eight found their mark, to 13 for the eight found their mark, to 13 for the Collegians. It was a case of a very good team against a weak team and the only suitable comment is that is seems a pity that Bryans in goal for the doctors could not get a shutout.

TORONTONENSIS MATERIAL

Team pictures and organization pictures should be accompanied by complete name lists. Forms for this purpose may be obtained in the Students' Administrative Council Office, Hart House.

Lack Of Spectators Is Very Obvious

SCORE 2 - 1

Meds II made it a perfect score for their team as they edged out the Dents B squad in the second hall of a hockey doubleheader at Varsity last night. From start to finish it was an even, hard-fought hockey thriller, with play see-sawing back and forth from end

goal on a pass from Grout to climax a classy passing play, and from three on it was just a matter of how many more pucks would end up in back of Bert Moriarity. At 15:05 Crassweller from Cole made it 2-0 and then three goals in quick succession, Cole unassisted at 16:30, Hughes unassisted at time Langmaid returned Meds had only 12:20 and Spence from Hughes it

sassisted at 16:30, Hughes unassisted at 17:20 and Spence from Hughes at 18:05, converted the game into a rout. Moriarity in goal for Vic was very weak in this period, making only seven saves to five for Meds.

At the start of the second period Vic went all-out in an attempt to score, only to see Callaghan net another at 3:25 on a breakaway with McIntyre when Vic had only one man back. Hughes from Callaghan at 4:40 and Crassweller from Cole at 6:20 completed the scoring for the starry Medsmen.

Shall netted Vic's only goal at 13:40 game.

Granovsky in goal for Dents did a etter than average job but was overshadowed by Stock, who was moved back from his regular defence post to fill in for the missing Meds goalie. Paul at centre and the strong defence of Hill, Peller and Callahan starred for the Medsmen. Langmaid was the bright spot for the game and hard-

fighting underdogs.

Shots on goal in this game did not give a Iair representation of the play.

Meds outshot Dents 24-12.

Many students missed one of the best exhibitions of fine hockey put on any-where this scason. The meagre crowds turning out to witness these games are really disgraceful in a year when there is no intercollegiate hockey.

Meds III—Stock, Hill, Peller, Paul, Procunier Mowbray, Callahan, Coons, Merritt, Mastromatteo, Butt.

Dents B-Granovsky, Wright, McComb, Langmaid, McColman, Marshall, Shapiro, Richardson, Matheven, Rife,

U.C. WOMEN

MORE NAUSEAM

Sometimes we trundle on and on spilling the same theme of patronage and propoganda into this column day after day or issue after issue. And does anyone say anything, offer any comment or constructive criticism? No. But occasionally we step into crusading sandals and tread on other toes which we think are overstepping themselves. That we did yesterday, the trodden toes belonging to the Law Club. Today we publish a letter received from the president of the Law Club, a letter seeking the retraction of our comments yesterday. Needless to say the retraction is not forthcoming.

Mr. Robins writes that no definite action was contemplated in re-

Mr. Robins writes that no definite action was contemplated in regard to this matter. With that we suppose that we are to conclude that the Law Club members talk for the sake of talk. With no action aforethought.

He also accuses us of committing insidious innuendos upon the person of a Mr. McGuinness, instigator of the whole messy schismatic movement. Carl say that we recall any insidious remarks (evidently some of these law students have imagination plus at their disposal) but we would like to point out one salient little matter concerning this McGuiness character. Although he rises to shout about the poor condition of sports, he himself takes no part in any. We have seen this happen often before and are beginning to wonder when some people will learn to concern themselves just a little less about matters which concern them to such little extent.

It may be of interest to mention that most people we spoke with

It may be of interest to mention that most people we spoke with yesterday, including a number of Law Club members, believe that the Law Club's athletic case is so much tepid atmosphere tainted with legal terms.

ATHLETIC NIGHT NUMBER TWO . . .

To return to a pleasant subject for a change, let us discuss the extravaganza to be presented at Hart House come Saturday eventide. We secured us a program of the evening's entertainment yesterday, and are now prepared to give you all the dope.

and are now prepared to give you all the dope.

In the main gym from 7.30 to 8.30 there will be a basketball game between the Campus Airmen of No. 23 P.A.E.D. and an all-star team made up of players from the three host Faculties, Victoria, St. Michael's and Emmanuel. From 8.30 to 10.00 the feature basketball game between the Varsity Blues and the R.C.A.F. Pendleton team will take place. At half time you will be treated to a badminton exhibition, headlining four bird chasers of the highest calibre, Jack Purcell, world's champion, F. W. Percivel, former Canadian doubles champ. Tim Gray, pro at the Badminton and Racquets Club, and Gordon Cook, pro at the Carlton Club. Dancing will begin at 10.00 and continue till 11.45.

In the upper gym the finals in the Junior, Roxing and Wrestling.

and continue till 11.45.

In the upper gym the finals in the Junior Boxing and Wrestling tournaments and exhibition fencing matches will be held between 8.00 and 9.00. From 9.00 to 10.00 the card very innocently proclaims spectator participation volleyball. And from 10.00 to 11.45 square dancing will hold the spot light.

In the pool there will be a Water Polo game from 8.15 to 8.45 between Vic and Emmanuel and St. Mike's combined. The feature swimming meet between Varsity and combined Toronto R.C.A.F. stations will fill the gap from 8.45 to 9.45. Then a girls' Water Polo game between U.C. and Vic will run from 9.45 to 10.15. The fencing room "lounge", the boxing room table tennis, and the wrestling room table games will be open for business as usual.

The Sportswoman

LEAVES OF GRASS

Joan Snyder, head of badminton, gives with the news that arrangements are being made to hold a quick tourney at the Granite Club some time this month. (Which throws a new light on the ground glass in our sasparilla the other day). She expects the matches to be run off in a couple of days' time with no preliminary rounds. All of which is a very fine thing, as it provides the right amount of badminton and competition without sacrificing work. And if anyone is in a position to laugh at that last remark, they can write us a Secretary.

A final warning goes out to athletic reps for Torontonensis. If they want any pictures or data in, they must be handed in to us at Cody House before Feb. 22. A reminder goes out to the U.C. hockey teams that their picture will be taken today at the Arena at 1 p.m. Members may obtain extra rations of Vi-Tone and U.C. sweaters from their managers.

The Royal College's tennis picture will be taken at the L.M. gym on Friday afternoon at 4:30. Compatible (with tennis) outfits along with raquets are the order of the day.

AN' FURTHERMORE . .

While we're on the subject of hockey—This weather business is putting a cramp in the schedule again. Now that the outdoor rinks may be used it is still undecided whether or not the schedule will be rearranged. It is probable, however, that games will remain in the usual setup as Little Vic rink will take many days of fixing before it will be usable. By which time, the games will be over.

A PERTINENT QUESTION

For quite some years the women of the University have been using create battlefields for athletics as well as meeting places. For years they also have been promised future Elysian fields in the form of a women's Hart House. This dream, of late, has been closer to reality than ever before with the donation of the Flavelle home.

than ever before with the donation of the Flavelle home.

We feel that the erection of such a building would fulfill one of the most urgent needs of co-ed life. No longer would athletic representatives be forced to scrounge about looking for badminton courts, trying to slip the odd gal in the Hart House pool on Athletic Night, renting fencing facilities, arranging for basketball games to be played in various gyms and fighting for places to run of volleyball, water polo, bowling and tennis tournament. In all these sports women have had to either wait until the men have finished their own tourney or find some obscure out-of-the-way place, usually not as satisfactory. Can we let such an opportunity be taken from us?

(Continued from page 2)

make-up—highly stylized and greatly exaggerated.

The point of all this is that it reminds us of another excursion into the Chinese theatre on its home territory. When we lived in West Chinasome dozen years ago, the Tragedy of Prince Liu was playing at the Slim Leung Theatre in Chengtu. So a party of us went down, determined to do or die in the name of thespian research. The theatre was crowded and noisy when we entered—fathionably late—during the first act. We could searcely see the stage for smoke. Orange vendors and hot towel merchants paraded up and down the siles, crying their wares. When a customer signaled his need, a sopping perfumed like in the name of a sopping perfumed his lifted hand. Said customer would wipe his perspiring visage, wrap a coin in the used towel and with a shout hurit back at the ubiquitous vendor.

(To be continued) wipe his perspiring visage, wrap a coin in the used towel and with a shout hurl it back at the ubiquitous vendor.

ing out a paper maché sword to the hero, of whom the script demanded that he make like "a hero, about to set off of fields of conquest."

The music as such, was painful to western ears, conditioned to Bach Mozart, Hadyn and A.

Saturday Deadline College Profesors will come into the For Swim Entries

Entries for the junior intramural wimming meet are now being taken in the Athletic Office and will be taken up until 12 noon of this coming Saturday. Swimmers are urged to get their entries

Swimmers are urged to get their entries in early and to sign the eligibility sheet also available in the Athletic Office. The semi-finals in all events will be traced to neglected homes. After the debate, Dave Bairstow gave an impromptu speech and the Players Guild presented "The Fatal Gazone," directed by Martin Clemana, Later there was dancing and refreshments and the four professors were conspicuous by their abse e.een qp_ti, for (i - h h) their absence.

Swimmers are urged to get their entries in early and to sign the eligibility sheet also available in the Athletic Office. The semi-finals in all events will be held on Monday and Tuesday, Feb. 7 and 8, at 4 p.m. All competitors must state upon which of the two days they would prefer to swim. The finals will be held on Thursday, Feb. 10 at 8 p.m. All competitions will take place in Hart House pool.

Eight events are on the

House pool.

Eight events are on the program.

Two relays, a 300-yard medley and a 200-yard sprint, the 50-yard free style, a 300-yard free style, and 200-yard breast stroke make up the swimming event. The diving competition ealls for four compulsory and four voluntary dives.

Further information as to minimum

Further information as to minimum time requirements, eligibility, diving regulations, and penalties is available on mimcographed sheets in the Athletic Office.

Face-Pushers Battle, Toe-Twisters Grapple In Preliminary Bouts

The preliminaries in the junior box-The preliminaries in the junior box-ing and wrestling tournaments, which began yesterday, have already involved nearly half the total contestants. In the boxing department Bazos of U.C. defeated Baker of Trinity and Goodman of U.C. defeated Mackie of Trimty; Both these bouts were in the 135-pound class. In the 145 Dafoe of S.P.S. de-feated Salter of Meds and Roberts, also of S.P.S., defeated Kuryluk of P.H.E.

Three wrestling preliminaries were cun off yesterday. Lind of Dents de-feated Stewart of Vic in the 135-pound division. Two bouts in the 155 class went to Yoshioka of Vic and Mc-Donough of Meds over Delaney of Meds and Currie of Dents, respectively.

Basketball Tonight

Mac McCutcheon announced yester-ny that the Varsity basketball team will meet a team from the West End Y.M.C.A. at 7:30 this evening in Hart House. The game is intended to be a practice session similar to the games played recently with York Belting and Manning Depot. The Blues will be out tonight seek-

ing their fourth straight win and a repeat win over the West End Y players, whom they defeated last year about this same time.

C. R. C. C. ORDERS BY Miss A. E. M. Parkes, Commandant University of Toronto Detachment Canadian Red Cross Corps 3-2-44.

Librarians must have some lucky charm. Or maybe they learned the secret from the library plumber. Any-way, we're ready to swear on a stack of Bibles up this high, that the other of Bibles up this high, that the other day we saw one of those women press the lever on a certain tap in the library AND THERE WAS NO BIG SQUIRT THAT ROSE AND HIT HER ON THE NOSE.

(NEVER HAPPENED TO US 1)

And here's another one of those bits of stray conversation you pick up. This one was wended our way in the library 'tother day. Two artsmen, their books laid aside for a moment, were deeply

into aside for a moment, were deeply imbued in their private affairs.

"It's this way, see," said one artsman. "I find I can't concentrate on my studies at this library any more. I start studying French fr'instance, and darned if before I know it, my mind's off in the clouds" off in the clouds."

"I used to be bothered by the same thing," said the other A.M. "But I've since got me a steady girl, and she in-

tion that sponsored the dance in 1904. In those days it was known as the U.C. Literary and Scientific Society. Forty years ago, the Royal York was non-existent. The first Arts Ball was held in the University gymnasium on the night of Feb. 5. The gymnasium was a rather primitive building that stood in the neighborhood of where Hart House is today. From The Varsity of the week of February 7, 1904, the report is gleaned that the "programme of twenty numbers with extras and extra extras was not since got me a steady girl, and she inspires me, sort of, to keep me up to scratch."

"Yeah, but that's just my big worry,"

"Get retorted the other A.M. "I keep day-dreaming about two gals I know—and I that!"

It's really encouraging the way some people talk about the hithers! And then of course, sometimes it sint. But every once in a while you hear that name flung around in some way.

A couple of weeks ago we heard one such a thing. It was one of those wet and puddly days on the campus. Right ahead of us was a rather affectionate couple, walking hand in hand and all that. When they got to the campus the girl shied off.

"I think you ought to put your coat down," she told him.

"Ah, I know a better way than that. Let's create a hither and I'll carry you over my shoulder."

But he didn't...

Librarians must have some lucky charm. Or maybe they learned the secret from the library plumber. Anyway, we're ready to swear on a stack of Bibles up this high, that the other learned the secret from the library plumber. Anyway, we're ready to swear on a stack of Bibles up this high, that the other friend following, to finally discover ar open door leading into a cosy-looking sitting room.

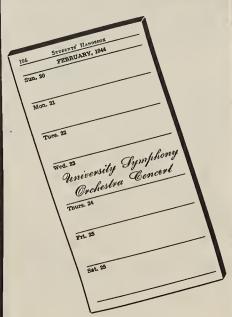

"The common room!" they told each other, and went in. Miss Reporter proceeded to clear the books off the proceeded to clear the books on the table and dig into her assignment, while "tcusty friend" picked up one of the afore-mentioned books and began to read. It was thus that the Dean of Women found them when she earne into her very own private sitting room some time later.

And talking about reportresses. long, long time ago somebody wrote a hither about the brilliant sayings of one of our up-and-comers. She had just written a rather clever and humor ous feature and was being complimented on it. You probably remember it . . . she was quoted as moaning, "If only people said things like that!"

Well, we were talking to her later and mentioned it.

"Gee, was that you?" everybody said. "Well, yes. But I don't think I said

Report Shows \$622,000 Spent On War Projects

ACTIVITIES DIVERSE

In the list of Government grants for special services and war research, the purposes of the grants are concealed in a few letters. It is obvious that these projects are not described in any de-

projects are not occurred in any de-tail for military security reasons.

From the Bursar's report, though, clues can be gathered that indicate a diversity of war services that this Uni-versity has been conducting in the past year. A total of \$18,000 was received from the Government for purposes of acceleration in the Faculties of Dent-istry and Medicine. An additional \$9,170 was received for a Dental Tech-

nicians' Course last year.
For the No. 1 Canadian Army Course, For the No. I Canadian Army Course, over \$73,000 was required to establish training facilities on the campus. The Pre-Aircrew Training Course for the R.C.A.F. also required over \$73,000. Other personnel training and technical training courses that were and still are being carried out on the campus received \$195,800.

received \$195,800.
In specific research lines, the Faculty of Medicine, the Banting Institute, the Department of Physics and the Faculty of Applied Science and Engineering shared almost equally. Most of the expenditures in these departments are shrouded in military secrecy; but of the four that each person to make a Medical few that may be spoken of now a war project under the direction of Professor E. F. Burton and Associate Professor A. Pitt of the McLennan Laboratory is the biggest with a value of \$70,000. What the project deals with will only be known after the armistice.

M'Guinness, Lawyers Seek \$1500 Alleged Defamatory For

Text of the Law Club's Letter

Feb. 3, 1944.

Editor of The Varsity and Mr. P. Sbackleton, University of Toronto.

In view of the fact that the Sports Editor of The Varsity has refused to retract his false and malicious statements of Feb. 2nd and has seen fit to augment them by remarks which go far beyond the limits of fair comment, it now becomes necessary for some positive action to be taken in order to defend our reputation on this campus.

This letter is to serve as notice that the Law Club and Mr. J. H. McGuinness have issued a writ in the University of Toronto Moot Court against Mr. P. Shackleton and The Varsity for the publication of defamatory libel and claim \$1,500 damages.

Sincerely,
Sydney L. Robins,
Law Club President.

To Return Unused Tickets

Sunday Evening Concert will be announced in The Varsity and in the nsuing competition for tickets many will be disappointed. This number wil be reduced if an announcement made yesterday by J. R. Gilley, Acting Warden of Hart House, is heeded. Mr. Gilley said that members of the house who find they are unable to attend concerts for which they have tickets have been requested to return them and there are usually a number of these to be had at the Hall Porter's desk between the time they are originally distributed and the evening of the concert.

Because of general ignorance of this fact a number of tickets have gone unused this year. Mr. Gilley suggested that the information concerning returned tickets would be of special in-terest to men in the first year who, in some faculties, have found it very difficult to get tickets.

GAUNTLET THROWN

Undergraduate Newspaper And Sports Editor Named As CoDefendants In Action Arising Out Of Statements In Sport
Column On Wednesday And Thursday; Case To Be Tried In Moot Court

SHACKLETON UNPERTURBED

Notice that a writ of defamatory libel against The Varsity and P. Shackleton had been issued in the Moot Court of The University of Toronto by the Law Club and J. H. McGuinness was served on The Varsity yesterday in a letter signed by Sydney L. Robins, Law Club President. According to Robins the writ was issued "In view of the fact that the Sports Editor of The Varsity has refused to retract

his false and malicious statements New Guinea Today of Feb. 2 and has seen fit to augment them by remarks which Talk Next Friday

go far beyond the limit of fair comment. ..." Damages of \$1,500 were asked.

When asked to comment on the action of the Law Club and McGuinness, Rex Wilson, Editor of The Varsity, said that he did not wish to do so "in view of the Acceptance of the Club and McGuinness, Rex Wilson, Editor of The Varsity, said that he did not wish to do so "in view of the Acceptance of th ment. . . "Damages of \$1,500 were asked.

The Reverend John Bodger, an authority on one of the most engrossing of the world's battlefronts, will speak to students of the University on "New Guinea Today" in Hart House Thearte one week from today, J. R. Gilley, Acting Warden of Hart House, announced yesterday. Mr. Bodger, a resident of New Guinea for the past 14 years, is a member of the Legislative Council of Australia representing that territory. On the endorsation of Lieut. Gen. Douglas MacArthur, Mr. Bodger has flown to North America to help acquaint the people with the country in which one of the most bitter eampaigns of the war is being fought. He has been speaking for the past few months throughout the United States and will have only a limited time for speaking in

This is the first time The Varsity has been sued for libel within the memory of students now enrolled, but have only a limited time for speaking in Canada.

Mr. Bodger has found it possible to work next Friday's speech into his schedule and will speak in the theatre between 1 and 1:30 p.m. It was at first thought that the speaker might use the Debates Room in Hart House, but the Debates Room in Hart House, but the connectivate small size of the room.

MASTHEAD MEETING FRIDAY

There will be an important meeting of The Varsity masthead today at 4:30 p.m. in Room 82, University College.

PERSECUTION!

It is easy to raise the cry of "PERSECUTION!" for lack of any other suitable comeback when crossed, but it is not for that reason that we are raising it now in connection with the writ issued in the University of Toronto Moot Court against The Varsity and its Sports Editor, P. Shackleton. The Varsity has no fear that the ridiculous and unfounded charges of the Law Club will be supported by an intelligent jury. We have only delayed engaging consel because we are trying to think of a fit manner in which to approach a competent lawyer so that he will not be offended when the flimsiness of the charges brought against us become apparent.

What makes us feel that persecution is being done is the light manner in which the Law Club and J. H. McGuinness have seen fit to engage in litigation. Not only do they diminish the reputation for common sense borne by members of their faculty, but they impose on them by association one of touchiness and shysterism which the great majority of them, we feel, in no way merit. This is persecution, for it gives the unhappy majority no opportunity for redress.

The persecution of The Varsity is no less marked, for although we attempt at all times to uphold the reputation and dignity of campus journalism as distinct from the sordid maunderings of the com-mercial press, we are now forced by the plaintiffs' litigious whim to emulate our downtown contemporaries in their least admirable aspect, that of engaging in libel suits. For that reason we cry "PERSECU-TION!" and at the same time resolve that unless the plaintiffs wish to withdraw their outrageous writ immediately we will gladly, and with crusading zeal, enter this fight on behalf of that sacred concomitant of Freedom of the Press, the Freedom of Fair

Send Home To Them

There's nothing quite so dull as a much re-read magazine, therefore no sacrifice is required of those who conform with the Athletic Directorate's request that each admission to tomorrow night's Athletic Night program be accompanied by a used periodical of recent date. For those who need urging in the matter of such small gestures we would point out that while an old magazine is a particularly useless thing here where we have a continuous supply of new ones, it is a welcome companion and a warm link with home for the men on service who have little opportunity of getting new ones.

The men doing the fighting have little enough to remind them of the old life which they have had to foresake temporarily. Your letters can do much to sustain the link with their own immediate circle in civilian life, but only periodicals can give them the sense of the general home-front picture. Magazines of current events help them to keep the developments of the world wide picture in perspective and will be a great help to them in adjusting themselves to a world which, while a welcome relief from the unreal one of total war, will differ markedly from the one they left. Magazines of a more specialized sort will be welcomed too, for bobbyists of all sorts

will be welcomed too, for bobbyists of all sorts are in our citizen forces.

Last week's contribution of reading material was pitiful. For that The Varsity must take a fair share of the blame, for in our general enthusiasm for hall. The Brahms Sonata in F Major is a work

Athletic Nights we neglected to emphasize this important detail. So now there is a compartively barren night to make up for and we hope that Varsity students will pile the periodicals higher on that account. Magazines will not help directly to bring him home sooner, but they will take home to

It's Getting Crowded

There is a justifiable thrill of pride in the term the "inevitable development of the University" used by Dr. H. J. Cody in his recently published annual report to the Board of Governors and under-graduates and members of the University look forward to its expansion as represented in projected necessary buildings. That this University badly in need of additions to its physical plant is undeniable and at least one group has strong opinions on what it needs, but there is one problem which must beset everyone who has given new building a little thought. That is the crucial lack of space for expansion.

The University is now hemmed in all sides by built up property. It has built virtually to the limit of the original grant (minus space appropriated by early and unwise parliament for government buildings and a tract leased to the city in the 80's for 99 years by an equally unwise University. The vision of the City Planning Board has led to its suggestion that land westward to Spadina Ave. be reserved for the future expansion of the University. This seems to be the ideal solution to the besetting problem, but the legal difficulties in its way will be enormous unless the City Planning Board is given

power to implement its plans on a broad scale.

Although the University campus is large it is unified, and it would be extremely unfortunate if it unified, and it would be extremely unfortunate if it had to find room for expansion on sites scattered when the Clerk of the Zoot Court of over the city. As plans mature it will be necessary the Law Club of the University for every graduate, including those now studying staggered out of an in camera session here, to devote all possible energy, influence and money to the task of making room for the "inevitable development of the University."

Correspondence Feb. 2, 1944.

The Editor, The Varsity.

Useful suggestions, we understand, are heartily welcomed in your office. We have one, which, we sincerely hope, will meet with your approval.

As has already been mentioned, the I.S.S. drive is being continued in Medicine, by asking each student to contribute an extra dollar toward the fund. The response has been very good -- even those poor, undernourished souls who haunt the halls of Anatomy Building, have dug down for their last

The students of the first and second years of Medicine have gladly accepted the proposal of their executive of contributing the proceeds of their Soph-Frosh Dance held last month, in the form of this \$50.00 cheque, to the I.S.S. fund.

There are a great many executives and clubs on this campus who have an equal number of social affairs. If The Varsity found it possible to publish contributions received in the form of a daily list, as do those "other two" Toronto dailies, when they are backing a fund, we feel that the proposed \$7,000 goal would rapidly be reached.

Any executive should find it possible to contribute ome small sum to the I.S.S. from its treasury. This plan would help to relieve the financial strain on the already over-taxed student, allow all students to realize how close they are to their objective, and, certainly, help to push the drive over the top.

We hope that it will be possible for you to publish this letter, and so, promote executives from other faculties to follow us in support of the I.S.S.

Sincerely,

J. M. FINLAY, per Meds Soph-Frosh Executive, 4T6 and 4T7

CAT

Oh Fer Goodness Sakes Alive Oh Me Oh My Oh My Oh Me Where Can We Get \$1500.?

PHOOEY!

A surprise development to the case of libel now resting in the gaunt lap of The Varsity, the Undergraduate Newsof the Court with the following announcement:

Hear ye! Hear ye! Hear ye!

Be it now made public that as of the present date publication of the column known as the Champus Cat in The Varsity, the Undergraduate Newspaper, will cease. Mr. Justice I. Thought has passed down this ruling in view of recent libellous statements made in the said column about certain well-known personalities of the eampus. God Save the King.

Inquiries here and around the environs of the University made by an astute and enterprising reported of The Varsity revealed some startling reactions to the

revealed some startling reactions to the arbitrary edict.

"A snap to that Pillwhistler Mc-Shacklestrapper!" chorused the members of the Zoot Court as they dragged on illicit cigarettes in the hall of the Law Building.

"May they all wake up one morning and find lumps in their porridge," said the Editor-in-Chief of The Varsity. "If they cat porridge, and I doubt that they

they cat porridge, and I doubt that they do

Said a well-known University Presi-ent, "At last, they can't ever spell my

name wrong again ever."

Said the Feature Editor of The Varsity, controlling a violent twitch, "I Varsity, controlling a violent twitch, "I allatime know more people read the Cat in place of the editorials, Personally, and speaking for myself, I think they are just a bunch of rooty-toot Zoot Court sharpies that are trying to make a lotta trouble. But don't quote me, mind you."

which has very little outside the last movement to save it from mere mediocrity. It is long, it wanders aim-lessly, yet it shows off to good ad-vantage the balanced interplay of piano and cello.

and cello.

Similarly the two Bach works, the Adagio from the Toccata in C Major for organ and the Organ Prefude and Fugue in D Major were hardly chosen from the most famous of the composer's works, but were numbers which deworks, but were numbers which de-manded and received brilliant treatment from the pianist. Moreover, I suspect many additional frills were added by Busoni when he arranged the piano transcription that was played last night. Later on the group of piano solos by Chopin secmed to have the same aim. They were technically difficult piaces. They were technically difficult pieces, not altogether lacking in a certain charm, but primarily they conveyed a sense of display.

a sense of display.

After these pieces had been played
the two brothers turned to less adulterated music. Then, and only then, did
they render a few numbers in which
technical considerations were subordinate. Here might be included the

'T' Basketeers Win Again Trounce West End 52-25

Show Superiority to Short-handed Opponents; Team the sides of the Blues all evening. Members Share Scoring

TAKE EARLY LEAD

The Varsity Blues continued their winning ways and their undefeated string last night by downing a short-handed and hapless West End Y quintet handed and hapless West End Y quinter to the tune of 52-25. After playing on even keel for the first five minutes, the Blue took up the lead they never

relinquished.

The West Enders are at present tied for the leadership of the City Senior League, which in reality is of Intermediate calibre. Besides, two airremand a soldier who were unable to at-

and a soldier who were unable to attend the game last night, the team
usually features the well known faces
of Don Gibson and Whitey Clayton.
Ross Sturgess, who is a member of
both squads, played for the "Y" boys.
The smooth Varsity ball handlers
were led to the victory by the starting
line of Tettmar Gibson and Scott.
However the scoring was well distributed throughout the team. For the
victors. Hal Axon, a former Varsity visitors, Hal Axon, a former Varsity man, was the spearhead of the attacks which commonly fell short due to their

The Blues showed a marked su-periority during all phases of the game and there were times when the op-ponents seemed lost as the ball was whipped quickly about from man to man. The confident ball handling of the locals was one of the features of the game, as was their slow passing attack. Only once, and that early in the second half, was the playing pattern changed. Don Gibson scored the opening basket

Both Gisson scored the opening basket less than a minute after the opening whistle. The lanky centre took a short flicker from Tettmar and pushed the ball in neatly from under the basket. The same combination came right back and the play was reversed with Tett-

and the play was reversed with Tettmar sinking one from the keyhole.

The West Enders came to life and
fired two rapid baskets as Bob Whitlaw
and Hal Axon swept down the floor
with a snappy passing display which
caught the Blues napping. A flaw in
this game was quickly detected and
from then on it was smooth sailing for
the home team.

Stu Scott, after a very slow start,
came on with a spurt that marked the
difference between the two teams late

EDITOR'S NOTE: Today's column brings relief from the Law Club incident as we introduce Bill Doyle, Athletic Director at St. Michael's College, who will wise you up on the colossal evening planned for you at Hart House to-morrow.

By Bill Doyle
May we introduce to you, on behalf of the hosting colleges, Vic, Emmanuel and St. Mike's, the super-duper program planned for the stees of the R.C.A.F. Rumor has it that the boys in the back room have lined up, not one, not two, but SEVERAL outstanding features. To begin with, the early splashing in the pool will be caused by the Bill Tilson's Vic water polo squad and Bill O'Brien's combined St. Mike's - Emmanuel squad trying to prove who's best. These early splashes become mere ripples as the R.C.A.F. swim team churn up the H₂O with our Blues in the swim meet. And then—ah then—the feature of the aquatic program—the exhibition GRIES.' water polo jam with Bill Tilson's trained mermaids—the beauties of Vic-U.C. (Whew!!—and no crowding, please!)

Moving then to the Upper Gym we shall find the artists of the mit and mat gayfully trying to distort the features or limbs of a not-too-will be watching the Junior Boxing and Wrestling Interfaculty finals. Fencing will prove further interest. The removal of the ring will be the signal for spectators to warm up for square dancing by participating in a rousing session of mixed volleyball.

Moving below to the Main Gym, early excitement will be due to the No. 23 P.A.E.D.—R.C.A.F. hoopsters trying to toss more passets than can the combined cream of St. Mike's, Vic and Emmanuel basketers. The main event which brings together Pendleton R.C.A.F. station—led by two of Warren Steven's last year's Varsity stalwarts, Murray Thompson and Gord. Wallace—and our own unbeaten Varsity Blues. Promises to be a ding-dong scrap!

Our half-time feature we think will reach a new high in interest. Jack Purcell, world's champion in their own right. This worthy quarte of Purcell, F. W. Percival, former Canadian double champion, Tim Gray, pro. at the Carlet

making this mixer a success.

Well, there it is—a truly interesting evening. Come one, come all, but come early because, in order to control the crowd and out of fairness to those who do come early, we are stopping ticket sales at

9:30 sharp.

Get out and salute the Air Force!

The Sportswoman

A DUCKY TIME

A DUCKY TIME
Gals certainly are getting athletic come these Athletic Nights.
Vic and U.C. have even fished up a water polo team for the big event of Saturday. They tell us that they've had to stop using water horses for water polo because there were too many wet blankets.
But this aquatic joust has all the earmarks of a thing worth seeing . . especially as there is practice for both teams today and practice for U.C. tomorrow. So take time out on Saturday to watch the leastly of the year.

battle of the year.
CONTINUED BY MICHASIW

With the usual column donated to the directors of the Athletic Night, the male side of this department were left in the cold until the ever kind-hearted Mosby moved over and coralled some much needed

ever kind-hearted Mosby moved over and coralled some much needed help.

We are definitly feeling low tonight. Not only because the liberature of a little news item we accidently came across today,

It concerns two students at Ithica College who were given physical findicess added up to 2,574 and 2,427. The coach figures that any man with a score of 2,590 has the power to make a college football team had strength indices as high as the required number.

Now don't fall over, girls, but the fitness tests tests referred to above were given to two members of lats vealed weaker sex.

interesting Kol Nidrei by Max Bruch, and a pleasant arrangement of Paderewski's well-known Minuet in G.
But the question remains. Is it

erewski's well-known Minuet in G.

But the question remains. Is it necessary for the concert artist to prove necessary for the concert artist to prove beyond a doubt by means of purely technical pieces that his reputation as an artist is justified? Here it is not a question of popular taste versus great classical music, but rather display of skill versus true musical understanding.

It would seem that there exists no necessity for the artist to prove his worth conclusively at the start of his program by a display of what must surely come within the classification of exhibitionism.

Varsity Wins Fifth Game Board To Interview Science Students Johns Hopkins Professor Before Near-Record Crowd As R.C.A.F. Bows 60-43

Slow-to-Start Blue Team Came From Behind to Edge Pendleton Station Airmen in To and Fro Basketball Game

SCORING WAS STREAKY

Time Out For Consultation Revives Outclassed Blue Team That Was Bewildered by Accuracy of R.C.A.F.

After a slow start, during which Pendleton took a lengthy lead, the Varsity Blues recovered to win their fifth straight basketball game Satur-day night before a crowd of 1,700, the damage second largest ever to attend an Athletic Night in Hart House. The final score was 60-43. However the score was far from indicative of the Airmen's playing ability. They make up the type of team liable to break into a hot scoring streak at any time and Mac Mc-Cutcheon had to keep his first string players on the floor almost entirely.

players on the floor almost entirely. Stu Scott opened the scoring with a Varsity basket only a few seconds from the jump ball, but Flying Officer Ray Crouchman tied the score and Gord Wallace, a graduate of Warren Stevens' Wallace, a graduate of Warren Stevens' squad of last year, put the Airmen out in front. Doug Spry tied it up again and then the Pendleton players hit one of those hot streaks. Muray Thompson, another of last year's Varsity cagers, scored two field goals, while Watson, Crouchman, and Wallace stood by to give Pendleton a 13-4 lead.

The Varsity five seemed dazed by the Air Force attack and had trouble hang-

Air Force attack and had trouble hang-ing on to the ball. For some time the Pendleton players crashed right through Varsity defence to score almost at will. Toronto called time out to talk the situation over and then proceeded to square accounts.

Don Gibson was good for three baskets within minutes as Varsity really came to bat. Doug Spry netted and Stu Scott a single to give the home team an 18-13 lead before Pendle-(Continued on page 3)

In Libel Case

"In view of the extreme importance of the Law Club suit against The Varsity, the Moot Court has decided to have three judges sit during the proceedings, Chief Justice J. A. R. Grant has announced. Aiding Chief Justice Grant will be Mr. Justice L. W. Houlden and Mr. Justice J. M. B.

The case in which the Law Club and J. H. McGuinness are seeking damages of \$1,500 on a charge of defamatory libel against The Varsity and its Sports Editor P. Shackleton, will be tried at a public hearing in the Moot Court open to all students. Time and place of the hearing have yet to be announced.

The case will be tried as a jury hearing, and subpoenas are being sent to students representative of most faculties.

Counsel for McGuinness and the Law Club will be J. H. McGuinness, Ram Pershad and Milton Cadesby. Counsel for The Varsity includes Telford Georges, Louis Paslawski and Royce Frith.

McInnis Speaks On U.S. Policies

Professor E. W. McInnis, speaking Professor E. W. McImis, speaking on "The United States," second in a series of lectures on the "Pillars of the United Nations," last Thursday, stated that foreign policy in the United States has changed from the position of a generation ago, when it rejected the idea that she could not stand aloof from world affairs.

"The United States realizes now that the world has become inseparably one," he said, "and there has been an attempt to educate the whole nation to this idea, a thing which President Wilson was unable to do."

There are, however, still some doubts founded on conditions fundamental to the American system. While the Pres-ident's policy is behind that of world icent's policy is bening that of world collaboration, and this has the support of the vast bulk of the nation, the real question is whether the will of the majority can be made to prevail against a handful of strong and still irreconcilable isolationists.

The isolationists can appeal to the traditions of the Monroe Doctrine of 1823; circumstances have made it possible for certain principles of policy to be broadened into a comprehensive tradition of isolation which special interests have turned to their own reds. have turned to their own ends.

The United States now realizes that

February 21-23

The President of the University has received a letter from the Wartime Bureau of Technical Personnel stating that Selection Board of the three Services, together with representatives of the Bureau, will visit the University of Toronto on February 21st, 22nd and 23rd in order that they may interview Science students who will graduate in 1944, and who are candidates for appointments as technical officers in the Services.

Lists of the students concerned are being prepared by the U.N.T.D., the C.O.T.C. and the U.A.T.C., and during the week of February 14th schedules giving the time and place of the interviews will be issued.

Science students who expect to graduate in 1945 may present themselves for interview, provided they desire to take Summer training in the Navy, R.C.O.C. or R.C.C.S. The names of these strudents will be included in the lists furnished by the U.N.T.D., the C.O.T.C. and the U.A.T.C.

When the work of the Board is completed arrangements may be made, if desired, for Science students graduating in 1944 to meet the officers of the Bureau to discuss such matters as civilian employment, or other subjects in which these students may be interested.

Information issued by the Department of National Defence regarding the qualifications for the various technical officer appointments will be available during the week of February 14th and may be obtained at the Ship's Office, U.N.T.D., the Orderly Room 1st Battalion C.O.T.C., the Secretary's Office, Faculty of Applied Science and Engineering, and the Registrar's Office, Simcoo

To Speak on State Medicine In Convocation Hall Today

Social Trends Henry Sigerist, Professor of Medical History, Camsi Guest Jaffary's Topic

Speaking in the Trenos in Canadian-Life" lecture series Friday afternoon, Dr. S. K. Jaffary, director of the School of Social Work, pointed out that one of the trends in social service is the acceptance of responsibility on the part of the government for social security. The need for social services has been set forth in the recent Speech from the Throne as well as in the Beveridge Report and the Marsh Report. Canada has been the last among her

fellow dominions of the British Commonwcalth to adopt social services, Dr. Jaffary stated. Among rugged indi-vidualists it was a sign of decadence to admit the need for such services. How-ever, in the course of the increased in-dustrialization of Canada under a program of wartime production, the government has drawn up a social security plan, Dr. Jaffary said.

The trend towards adequacy in social service provisions of today is illustrated in the grants allowed to soldiers' fam-ilies in this war as compared with those of the last Great War. Our Federal government accepts responsibility for the whole soldier's family whose in-

come is scientifically worked out.

From the piece-meal system of services there is a trend to recognize the inter-relatedness of human affairs. This co-ordination of the various social ser-vices and related professional groups has provided closer observation of cause and effect, although such knowledge was and effect, although such knowledge was already available but not applied. Such problems as absenteeism, child de-linquency, housing, nutrition, and re-habilitation of men discharged from the armed forces, requires the team-work of various professional skills.

of various professional skills.

The necessity for a body of personnel capable of administering social services has caused the emergence of the profession of social work. During the last century 42 schools have been established in the United States and a total of seven in Canada. This profession has a body of professional knowledge and skill, a code of ethics, and a certain responsibility to the community inasnuch as the profession tackles the job (Continued on page 4) (Continued on page 4)

Program Next Sunday Concert

Harry Adaskin, well-known To-ronto violinist, will give the Sunday Evening Concert in Hart House on Sunday next, Feb. 13, at 9 p.m. in the Great Hall. He will be accompanied by Frances Marr. They will play the following program:

Violin Concerto

"O Days of Youth" (Lensky's

Aria form the opera Eugene
Onegin) Tchaikovsky-Auer Onegin) Beau Soir Debussy-Hartmann Gypsy Air

Representatives from the various colleges and faculties are asked to call at the Warden's office today for their at the Warden's office today for dear allotments of tickets for this concert. Any member who is successful in se-curing a double ticket and finds he cannot use it is requested to turn it in to the hall porter's desk to be given out to some one on the waiting list.

Last Fall, Will Discuss "Medical Care For All The People"

TONIGHT AT 8.30

Address of Noted Authority Sponsored by The Health League of Canada; Tickets Available at The S.A.C. Office

Dr. Henry E. Sigerist, Professor of the History of Medicine at Johns Hopkins University, will speak under the auspices of the Health League of Canada in Convocation Hall today at 8:30 p.m., on the topic "Medical Care for All the People."

ior All the People."

He spent the years 1936 and 1937 in Russia, studying the Russian language and reading Russian literature and is an authority on Russian Medicine. He has written several books on medicine which include "Man and Medicine." and "Socialized Medicine in Soviet Russia."

Tickets may be obtained at the S.A.C. Office or at the Health League of Canada Office, 111 Avenue Road.

Canada Office, 111 Avenue Road.
Dr. Sigerist graduated in Medicine in 1917 from the University of Zurich. He became Professor of the History of Medicine in 1924 at his alma mater. The following year he succeeded Zudoff as Professor and Director of the Institute of Medicial History at Leipsig. In 1932 he became Professor of the History of Medicine at Johns Hopkins University. He was born in Paris of Swiss parentage. He graduated in Oriental Languages from the University of London. of London.

Dr. Sigerist visited this campus recently when he addressed the seventh annual conference of the Canadian As-sociation of Medical Students and Internes. In his address to them he cited the advances made as the result of socialization, particularly in Russia.

He gave a comprehensive outline of the history of medicine since prior to the last war and pointed out that today all doctors in Russia are trained in military medicine. This, he explained, was responsible for the large percentage was responsible for the large percentage of successfully rehabilitated soldiers from the Russian-German front. Further in his talk he outlined the basic prin-ciples upon which Soviet medicine is based, stressing the fact that medicine is a public service devold of depart-mental distinction.

mental orsunction.

He concluded his address to CAMSI with remarks on the state of medical science in Russia, saying, "We in Canada do not know too much about Russia. It is absurd that Canadians and Americans are working in their labs and leastly the company of hospitals on the same problems as the Russians and they still don't know each other."

M'Gill Opens ISS Drive \$7,000 Is Objective, Raised \$1,500 in 1942

Montrcal, Feb. 7— (CUP) — Today McGill University will open an LS.S. campaign for World Student Relief. During the period of the campaign, which will last all week, every faculty will be canvassed in order that the objective of \$7,000 may be reached.

Last year McGill University succeeded in raising \$1,500 for World Student Relief.

Coming Back

We have now reached that stage in the war when an appreciable number of veterans are being dis charged from the forces and returning to our midst. Many of these are mained, others have been discharged because of impaired health. The latter group constitute no great problem, but the former deserve the strongest exercise of intelligence of which we are capable. Those of us who possess all the bodily members with which we were born cannot appreciate the psychological effect of losing an arm or leg, or even a hand or the toes of one foot. Whatever the technical name for it may be, the consciousness of circumscribed powers, the necessary abandonment of previous pursuits and the overwhelming frustrating feeling of change and the resultant depression have been expressed in extreme cases by the wounded man's retreat, or actual hiding away, from his fellows, and refusal of any but the minimum contacts with his own family.

In a world which seeks to return all mankind to the fullest realization of the potentialities of life such tendencies must not be allowed to cheat the men who more than any others have given the rest of us the chance to live as we like. The problem of returning these men to normal life and normal contacts will be general, but it will be particularly pressing in the University, for comparatively few of the maimed will be absorbed into industry and probably even fewer will return immediately to professional or white collar jobs, since for the most part they will belong to the age group that interrupted its education to go and fight. Therefore it is to be expected that many of them will be found in the University completing that education.

The University should be an especially good place for them to pick up the threads of civilian life, for it is here that the emphasis will be on the core of the real man, the mind, of which the limbs are the not-quite-indispensable appendages. But this admirable haven can be marred by the well-meaning but squeamish individuals already in it. Incidents like the following must not occur:

Recently in a department store downtown a returned man on crutches was making some purchases. A woman further up the counter, catching sight of the crutches and with morbid curiosity, leaned back to see around the intervening shoppers and looked for the reason for the crutches. On catching sight of the trouserleg pinned up neatly around the stump of his amputated leg, she turned quickly away exclaiming in a not-too-subdued voice to a friend, "Oh, my dear, I can't bear to look at that sort of thing, it makes me ill!"

This sort of thing is just what will inspire destructive self-consciousness and spoil, or retard the psychological recovery of the wounded. On the other hand extreme sympathy is just as damaging. Dwelling on a person's mis-fortunes and handicaps will only make them the more real and therefore more difficult to overcome. Understanding and co-operation must not be neglected. It will be impossible simply to ignore some losses, for they will require consideration of the individual on occasions, but this consideration must be unobtrusive to be truly considerate.

Some of these men will in time be the proud and puzzled possessors of artificial limps. modern artificial limb is a marvellous device, capable of amazing simulation of the action of the original Learning to use one is an adventure in itself, and hose we have known who have embarked upon this dventure have done so with considerable gusto, and pride at their increasing dexterity has been unconby the owner of the limb, no embarrassment should be felt in sharing in these adventures. Undoubtedly the learning of Braille by the blind is frequently accompanied by a similar sense of triumph.

A good guide to our part in the rehabilitation of the maimed is contained in this set of rules laid down by Major Walter E. Barton, United States Army Psychiatrist:

- Remember a wounded man is a normal person. Don't expect him to behave in any unusual fashion. Train your nind to think about what's left, not what has been lost.
- Don't dramatize either the wounded man or his bunds. Confine your conversation to other subjects unless begins to talk about his wounds ...
- 3. Don't try to gloss over his handicap...
- Don't show horror or sorrow at deformity either in your voice, manner or facial expression.
- 5. Give him a job to do... Encourage him to carry on his social life in contact with others....

Whatever may be the individual circumstances it is not merely out of consideration for the men returning, but as a matter of duty that we should steel ourselves against noticeable reaction to disfigurement, to control our sympathy without harden-ing our hearts, and above all to concentrate on what is left of the man instead of bemoaning the irreparable physical loss. It is the mind within and the personality which must be recognized as normal and accepted by society as of undiminished value.

Ottawa Calling

A Canadian University Press Feature

By Neil MacDonald

FOREIGN POLICY

Perhaps this column was in error last week in speaking of the three most important aspects of the Speech from the Throne and neglecting Prime Minister King's announcement on foreign policy. Certain it is that around Ottawa, the gos plentiful and the comments many on the subject.

The particular reference in the Speech from the Throne to the address by Lord Halifax in Toronto is not, it would appear, to be taken too seriously. The address given at that time merely served to precipitate the taking up of a stand which would almost certainly have come anyway. If it came a little sooner, it will serve to bring part of the post-war planning, that we may expect eventually home to us earlier.

What Lord Halifax proposed had already been developed more fully by Prime Ministers Smuts of South Africa and Curtin of Austrial. The greater unity among the nations of the British Commonwealth of Nations, working together as one great power towards world peace and harmony, could be onderful beyond description; properly handled, and divorced from mere "British Imperialism." it might become the greatest single force in world reconstruc-tion, because of its peculiar unity in diversity.

Mr. King, however, would appear to have taken xception to the manner in which Lord Halifax had his idea introduced, as the necessary outcome of the ties of British Blood which bind the Empire to-That, Mr. King rightly saw, is dangerous, perniciously dangerous, in that it sets up, almost automatically, a holier than thou attitude which will lead us to isolationism and balance of power politics

Mr. King's alternative, that of closer co-operation among the great powers after the war, is that of a practical idealist. No one better than he is to estimate the facility which nations and governments can show, in time of peace, in drifting along from one lethargic state of isolationism to the next. There is a good deal of truth in what he says of the danger inherent in the Commonwealth

On the other side, however, certain things have yet to be stated, at least clearly and distinctly. The chief danger which will beset international politics after this war will be the possibility of such a great world power as the United States reversing its present world-embracing policies for ones of mere hemisphere solidarity. And, unless Canada is the member of such a union as the Commonwealth of Smuts and Curtin, she will, almost inevitably, be caught up in the same continental trend. Those who are supporting the Commonwealth plan are doing so, not so much because it is "British" as

Dr. Aloysius P. Q. R. McGeech Dr. Aloysius P. Q. R. McGeech, Terror of the Underworld, is in the most dire peril of all his career. Far he is hyphotized, helpless in the hands of his archenemy, "Q." And "Q" is con-templating the perfect crime. . . . Ta-day's instalment opens ten minutes before the Hart House Sunday Evening Concert.

CHAPTER TEN
Night has fallen over the Hart House quadrangle; it has been dark out there for three full hours; and in those hours the creatures of "Q" have been busy. Darkness conceals from all what they have effected; but could you inspect the quadrangle now, you would notice a strange omission.

a strange omission.

The centre-piece of the quadrangle, the brazen statue of Hart House Herbie, the unclothed athlete, is missing. It has been spirited away. The plans of "Q" are developing apace.

The moment has come for the concert to commence. The artist of the evening, Dr. Squealy Villain, is escorted towards the Great Hall by Hart House towards the oreal mail by Mail Muse officialdom. As they pass down the corridors, figures lurk in the shadows: "O," the hypnotist von Schnitzenschnatz, and Snuffy, creature of "Q."

As they pass the shadowy Hart House stairs there is a slight, a scarcely-

noticeable commotion. .

Is this Dr. Villain who now parades into the Great Hall, bowing to the salvos of the multitude? It is not. It is McGeech, hypnotized and helpes. Under the strange spell of von Schnitzenschnatz, he is about to give the con-cert in spite of himself. Where is Dr. Villain?

Ah, that is a good question. You are on your toes tonight, dear reader. The answer to that question displays the

diabolical ingenuity of "Q."

In the darkness of the corridor a substitution has been effected. Dr. Villain too has fallen into the snare of von Schnitzenschnatz. At this moment he stands in the quadrangle, unclothed, bitten by wintry winds, in the attitude of the brazen statue of the Grecian

Dr. Villain is under hypnosis. He be lieves that he is a brazen statue is valiantly fulfilling that role. He will stand there in the chill quadrangle until the schemes of "Q" are fulfilled.

the schemes of "Q" ore fulfilled.

McGeech marches to the piano. All
eyes are fixed upon him, the erstwhile
Terror of the Underworld. He knows
that he is in mortal peril. But he is
helpless to save himself. And not one
hand in all that throng is lifted to save
him. For he is skilfully disguised. The
audience settle in their seats, rapt in

FREVOR, SHERMAN BEST

The campus-stationed Airmen of No. 23 P.A.E.D. had to battle all the way to edge out a combine basketball team made up of players from the three host made up of players from the three host colleges in the 7:30 game Saturday night. Each matching the other team's scoring, one basket after another, the decision was tied until the last minute of the game and the final score was 35-34 for the P.A.E.D. boys. Half time score was 20-20.

Frevor of the St. Mike's-Vic-Emmanuel Combines topped the scoring sheet with seven field goals for I4 points. Well behind were Stoek and Donnelly cach with six points. Foley cored four, Carmody three, and De Felippo one

Felippo one. Sherman was out in front for the campus Airmen with If points, followed closely by Samuelly with ten. Naster and McKrow each scored four and Ditta and Grice each three.

meets Fraser in the 155-pound final on Monday. In the 125 class, Ginsler of School took the measure of Bontaine of U.C. in no uncertain terms with a technical K.O. in the first minute of the

Henry of S.P.S. cut Dorfman of U.C. rienty of S.F.S. cut Dorman of Oc. quite shamefully about the face but Dorfman stood up to all he had to offer till the bitter end. He took an eight count in the second round of their 175-pound bout, but came up again to stick it out to the final bell.

The best bout of the evening brought ogether two Schoolmen to battle it ut for the 145 crown. Burns knocked Robers down with a good solid right at the 15 second mark of the first round but he came bouncing back to take a well earned decision. Wilson of Meds hooked up against O'Malley of Vic in the 165-pound brawl which was truly a brawl. Wilson was a good head taller than O'Malley and could tuck O'Malley's head under his arm in the frequent clinches. But O'Malley the frequent clinches. But O'Malley stood off and put his weight behind a couple of good solid blows to knock Wilson pretty groggy, and the ref put Wilson out of his misery by awarding at T.K.O, in the third round.

The last bout of the evening brought

The last bout or the evening bought together the already once beaten Bazos of U.C. and Goodman, also of U.C. Little Tony Bazos was badly outclassed by the fresher man and took quite a beating until the referce called a T.K.O. in Goodman's direction in the

GO WEST, YOUNG MAN ...

GO WEST, YOUNG MAN . . .

We see by the papers (downtown) that the University of Western Ontario baskethall team has journeyed to Detroit for a two-game weekend series. The situation brings up two points of interest. First, in their first game in that city, the Western squad were defeated by Detroit Tech, the outfit which invades Toronto and Hart House in two weeks time to meet the Blues. The score was decidedly lobsided, 53-22. The second point is in question form. What ever happened to the C. I. A. U. ruling which says that university teams should not travel?

It looks like Western has dragged itself out of the rut which the C. I. A. U. fathers saw fit to dig for Intercollegiate sport in 1940. Queen's and McGill have entered teams in local leagues, but neither has travelled farther from their respective campi than their own city suburbs. Horace Greeley was right. Progress is always in the west.

ATHLETIC NITE ...

Athletic nights seem to be improving with the years. At least this year's are definitely above last year's standard. The wonderful managing by the athletic directors in charge on the various evenings, and the athletic officials in Hart House, have assured never a dull moment to date. The mixing schemes turned out by the big brains for the first two nights have been sure fire, and something new to keep an individual looking for his or her mate throughout the evening. The athletic and less athletic diversions provided have filled the programs to the utmost. And as yet, we have heard no one complain about anything. This in itself, as we have found, is among the greatest achievments. anything. This in itself, as we have tound, is among the sachievments.

There was only one comment overheard Saturday night, which we During the half time display, provided by the

There was only one comment overheard Saturday night, which we shall repeat herein. During the half time display, provided by the four masters of bird and racquet, namely Messers Purcell, Gray, Percival and Cook, we heard some gentleman behind us exclaim. "But badminton is such a frustrating game, I'd much rather play tennis."

The second and third of last year Varsity students to return in opponent garb this year appeared Saturday night. They were Murray Thompson and Gord Wallace, both members of last year's Varsity basketball team. Both played great basketball for Pendleton, but we noticed Murray Thompson in particular, as he led that first half offensive which left Varsity far behind, and started Mac McCutcheon really worrying about the game's ontcome. Consequently the Varsity first stringers played practically the entire 40 minutes.

THE LAW INCIDENT . . .

Anything we say can be used against us, we are told, so we are reserving the comment for the time being.

The Sportswoman

A bevy of breathless babes contributed to Saturday's Athletic Night with a short but exhausting display of water polo. The U.C. team dunked the Vic team to the tune of 1-0. The U.C. team, made up largely of P.H.E. players, was lead by their captain and goal-getter, Jean Stinson. On the Vic team it was hard to pick out an individual star, although Betty Ferguson played well in the goal. Passing on both teams was weak due to lack of practice and perhaps to the inevitable ducking which came from holding the ball too long. The submergences could not dampen the spirits of the waterlogged bathing beauties, however, and it is hoped there will be further games. At half time Helen Shaw, Claire Hutton and Barbara Hinchelifie of Vic gave a fine display of timing and grace in an exhibition of ornamental swimming. Following the game, two teams from Vic and one from U.C. took part in a medley relay. Lois Lloyd, Ruth Virtue and Barbara Hincheliffe of Vic made up the winning relay.

MORE RECRUITS ..

MORE RECRUITS...

U.C.'s impressive 1-0 water polo victory could not have been had not 85 per cent of the team been from P.H.E. Scouting around, we found there are more enthusiastic mermaids in U.C. than one would imagine, but the problem is to get them to turn out. There is a swimming meet at the end of this month and something drastic will have to be done before then to stir up interest. Vic handled the situation very well with a splash party which turned out to be a big success. We were amazed Saturday night to see the number of Vic lassies who took part in the swimming events. Then, too, what about St. Mike's, Trinity and the rest?

WE WANT A TROPHY ...

WE WANT A TROPHY...

At present there is only one trophy given to a boy or girl who is outstanding in athletics but he or she nust also have a high scholastic standing and personality. This is the Moss trophy which has been won by a girl only three times. Last year it was won by Marg Stock of U.C. Athletics play an important part in the life of an undergraduate and we feel that more recognition should be given not only to those girls who are outstanding on their college team, but also to those who further the interest of the sports in their college at large. A trophy given to a girl who has first been elected by the other girls, and then chosen from among the other girls representing the other colleges by a central athetic committee, would not be out of place. Some such trophy would add to the spirit of athletics and would not be won year after year by P.H.E. as one might suppose.

VOLLEYBALL MAKES IT'S BID .

Doris Hibbard has given us the volley ball schedule which appears elsewhere on this page. All games will be played at the Lillian Massey gym. The first team in each case is the home team and must provided scorere, time-keeper and referee. The finals will be played between the two top teams. Volleyball should be a good follow through from basketball and as the schedule is short there is no time to get bored. Another plea is here in order to those people who don't participate in competitive sport to get out and cheer their sisters on to victory.

Inexperienced Air Force Team Outpaddled in Swim Meet by Unbeaten Blues; Sharp and Moffat Both Sharp

CRDWD-PLEASING DIVING

The Varsity swimming team continued in their undefeated ways last Sat-urday night as they hung up their 18th straight win in three years, taking a rather inexperienced Air Force team from No. 1 f.T.S. by a couple of dozen from No. 1 f.T.S. by a couple of dozen point. As in the previous Athletic Night, the visitors were able to garner only one first in seven starts, although they also got top honors in the last event, the 200-yd. relay, when Varsity beat the gun. The Airmen showed their usual fight, but class told again, and the hosts had a rather easy time of it, although they were short handed.

The Air Force boys included Gil Fessendon, Dowhon Bynoe, Tommy Forest (R.A.F.). Ray Firther, Vic.

Fessendon, Dowhon Bynoe, Tommy Forest (R.A.F.), Ray Britcher, Vic Rayfield, "Wolfe" Nottleman, Frank McGee, John Roberts, also of the R.A.F.) John Berry, Herb Such and Manager Jim Brandham. Varsity showed a reduced line-up

Semper Dignitas

Wymilwood Musicale

To adequately criticise an evening's entertainment that consists of one solo performer, one must boast a profound knowledge of music. For example, a symphony orchestra may be criticised from many viewpoints. One can pick apart the first violins or the tympani or the French horn solo in the second movement and nobody will know what you were talking about. Discussing Miss Frances James' performance last night at Wymilwood, we won't pretent to know anything about music.

Miss James opened with the recitative and aria from Handel's Solomon and we enjoyed the dignity and feeling of the entertainment that consists of one

and aria from Handel's Solomon and we enjoyed the dignity and feeling of the selection which keynoted the whole per-formance. Four German songs followed and though the songs were happy, lilting and light-hearted, she displayed a good depth of tone and control of volume. Three of the five songs in her third some were by Debussy and the senti-Three of the two songs in the tame group were by Debussy and the sentimental, romantic and melacholy atmosphere fitted in admirably with the singer's desire for dignity.

Even that old familiar bedtime story,

"Oh dear, what can the matter be . . ,"
though it charmed the audience to hearty applause, was lacking in the easy freewe've always associated with any

We have heard better accompanists than Miss James' last night but we blame the nodescript accoustics of Wymilwood for that.

milwood for that.

To the sponsors of the Wymilwood
Musicale we say "Bravo!" for drawing
such a good crowd. Sunday night in
Toronto is almost an institution of
musical apathy that is tough to crack. GEORGE ELLIOTT.

ORDERS BY

Miss A. E. M. Parkes, Commandant University of Toronto Detachment Canadian Red Cross Corps

PART I

(83) MOTOR MAINTENANCE

The following members have been assigned to the Second Group in Motor Maintenance: Collignon, M. L., Rowley,

se members will report promptly at 7:10 p.m. on Monday, Feb. 7 and Monday, Feb. 14, at the Toronto Red Cross, 50 Bloor St., E., where transportation will be available.

Members of the First Group will

NOT report again until further orders. One more lecture is still to be given combining several groups.

(84) N.C.O. AND TRANSPORT TRAINING

Members enrolled for N.C.O. Train-Members enrolled for N.C.U. Fram-ing both Monday and Tuesday and for Ambulance and Stretcher Training on Tuesday will not take this training dur-ing the week of Feb. 7 but will report for regular drill with the Detachment at the University Armouries.

(85) DRILL

We really like to back up our sex, and re-iterate that co-eds aren't really as dizzy as they seem, but we must admit that in certain cases...

Take, for example, the one who rushed up the other day at lunch, crying, "Oh, you know Billy Jones, don't you?"

We mumbled a mouthfilled, "Yes," in reply, and a "No," of the same sort to the next question of whether we knew of any brother, and why?

"That's funny," she burbled on excidely," I've never met either of them, but I dreamed of somebody called Joe Jones last night and I thought he night be Billy Jones' brother!"

* * * All members assigned to regular drill, Ambulance and Stretcher Training and Amousance and Streeter Haming and N.C.O. Training will report for regular drill at the University Armouries on Tuesday, Feb. 8, at 3:50 p.m. Entrance, West Door, PROMPTINES IS ESSENTIAL AS THE FLOOR IS ONLY AVAILABLE UNTIL 5 p.m. Platears, will form up a directed for

Platoons will form up as directed for drill on Jan. 25, with the same N.C.O.'s and markers.

Coats may be worn if necessary.

(86) TRANSPORT DRIVERS

All University students driving for Transport will report exactly on time

Friends' Ambulance Head Is Trinity Fireside Speaker After University Service

and Comfort on Canadian Campus in Contrast with For Engineers Conditions in China

SPOKE SUNDAY

Dr. R. B. McClure, home on sick leave from his duties with the American Friends' Ambulance Service on the war fronts in China, spoke Sunday at the Fireside, following the University Ser-

vice in Trinity College Chapel.

"The predominant impression made upon one coming into a group of University students in this country and comparing them with a similar group in China today is one of luxury and comfort," said Dr. McClure.

comiort," said Dr. McClure.
"The difficulties faced by students in
China today are tremendous, and involve much suffering," he stated. One
of the chief hardships is the migrations
which all those who wish to continue with their studies must make to Free China. This uprooting is mental as well as physical. Students must learn to do without many things which they formerly thought indispensable, par-ticularly clothing.

ticularly clothing.

They feel bitterly towards those who have made it necessary, and particularly towards those students who did not consider it worth while to make the long migration, he said.

"They achieve maturity much before the control of the control of

their time, and most of us would consider them rather a hard-boiled lot. On the surface they appear to have no

Mr. Edward E. Gelber, member of the University of Toronto Settlement and the Educational Committee of the Canadian Jewish Congress, will address a meeting of Jewish students of the University tonight at 8:30 in the theatre of the Women's Union.

Mr. Gelber is a graduate of the University of Toronto, of Columbia University, and the Jewish Theological Seminary. He was called to the bars of Ontario and of Palestine. Since his return to Toronto in 1939, Mr. Gelber has become president of the Toronto Hebrew Free Schools.

On Dec. 15, 1943, following his address at Convocation Hall, Professor Horace Kallen of the New York School for Social Research, met with a large group of Jewish students of the University to discuss the organization on the campus of a representative Jewish student body.

In January a second meeting was held to discuss the founding of such an organization, its aims and its purposes. There were to include educational and social activities, the improvement of public relations, and the unification of the contribution of Jewish students to

the contribution of Jewish students to campus life.

Tonight will be the first general meeting of the newly formed Jewish students' organization. The constitution which was drafted by a temporary committee will be presented to the student body for approval.

NEWSFRONTS

London-More local counter-attacks on the Rome beachhead have been beaten off by the American troops, but the main German blow remains to be

Pearl Harbor -- United States war ships struck at Paramushiro on the northern trip of the Kurile Islands last Friday

Pearl Harbor—The United States Navy has announced that more than 8,000 Japanese were killed in the Kwajalein invasion as against 268 Americans.

London—Russian troops have fought their way to within three miles of the centre of Nilopol and are proceeding with the slaughter of 75,000 pocketed German troops.

G. Watts' sermon Sunday at the University Service in Trinity College Chapel. Mr. Watts spent 14 years in Japan and returned to this country only just before Pearl Harbor.

Mr. Watts described the peculiar state of Japanese culture today. The Japanese began 80 years ago to take over all material and mechanical aspects of our Western civilization. without stopping to realize that Western countries had built up this culture on a

countries had built up this culture on a basis of Christian thinking, he said.

In 1867 when Japan began to imitate and incorporate the scientific advance of the West after having her gates closed to foreigners and foreign ideas for 250 years, her people were at the same stage of civilization as the American Indians had been two centuries before.

before.

The majority of her people were barbarous, and on this basis of barbarism modern Japan has been built, mostly in the last 20 years, the speaker said. During this same period, the money spent by all the Christian churches of the world in Japan has never in any single year, been equal to the amount. single year been equal to the amount spent by the Church of England alone n the city of Toronto.

The Christian church in Japan was

very small just before the outbreak of the war, but even so it increased 212 per cent during the preceding 30 years. per cent during the preceding 30 years. Christianity has been in a difficult position in Japan ever since it was first introduced there in 1549 by Francis Xavier, due to the fact that Christianity claims for Christ the same perrogative that Japan claims for its Emperor—namely that of being God increases and with a first walnut for the property of the control of th

perrogative that Japan claims for its Emperor—annely that of being God incarnate and ruler of the universe. "It is foolish to talk of exterminating the Japanese race after the war," said Mr. Watts. "She is here as part of the family of nations, and here she will have to stay. But she must be taught to play her proper part as one of the family, and at the same time accept the same Father. The only foundation upon which Japan can be rebuilt to take her part in the family of nations is Christianity The little Christian Church that exists even to-day in Japan must be developed. It will be easier perhaps to enter Japan after the war than to enter China and India, for after disappointment and frustration, her people will be willing to frustration, her people will be willing to accept something in which they see stability."

Nothing But The Best

There is an article in the January issue of the University of Toronto Monthly which should be read by every woman undergraduate, an article describing the career and recent honors of Helen Kinnear, a graduate of 1917, who holds the distinction of being the first woman to be appointed judge in the British Empire. We advocate perusal of this article not for mere historical interest in a famous daughter but rather for the lesson it offers in vocational guidance. For Judge Kinnear is an outstanding woman today, not because she graduated from Toronto, but because she had enough initiative and ambition to develop her talents to the full even though they found expression in channels not then considered advisable for women to enter.

Faced Same Problem

According to the Monthly's article, Helen Kinnear displayed sound scholarship in all years while at Varsity and came first in first class honors in her third year. We mention this, not as a prerequisite for fame but merely as an indication that Miss Kinnear could probably have attained some form of success in any field she chose to enter. graduation came the inevitable problem of what to do next. In 1917 even more so than now, the accepted thing for women graduates was a year at the College of Education and a secure career in the teaching profession. It would have been a walkaway for a student of Judge Kinnear's calibre but she chose not to succumb to the hypnotism of "the accepted thing" and decided instead to try her hand at something comparatively new for women, namely We hesitate to call it pioneer spirit but ever since that day Helen Kinnear has been pointing the way for younger women, proving that a well-trained mind and firm spirit can take a woman wherever she wishes to go.

The Herd Instinct

A little of the Kinnear spirit should enliven all our graduates. It is only too easy, after the eomparatively restful life of university, to take the line of least resistance in deciding upon a career and follow the erowd with never a thought for individual qualifications. Too many women attending university simply do not see that there is any other career open to women but teaching, and they go on to teachers' college as the natural climax or inevitable and of the college graduate. It is a kind of herd Caldwell-Kirkland "Tobacco Road" commenced a instinct, a variation of that popular human pastime profession. We wish rather to point out that it is a can comprehend. profession demanding special aptitude just as much

as any other and should not therefore be regarded as the final resting place of every graduate who wants professional work but hasn't the initiative to seek out and follow up her own individual talents. The out and follow up ner own individual talents. The woman who grasps at security, refusing the chal-lenge of novelty or hard work is playing false to herself and to humanity. We all have a contribution to make in this world but each must decide for herself whether it shall be her best, with no care for the cost, or her second-best, which is in most cases a poor substitute.

War-Time Danger

It usually takes considerable introspection and self-study to determine the individual's true bent and few women give enough time to this search. It is always easier to follow the crowd. In war-time especially there is an overpowering temptation to hop on the bandwagon. Like the easy drift to O.C.E. in peacetime is the flow of women to the colors in time of war. In this war especially, we have seen women drop everything, future plans and present interests, and go off to join one of the services to do work which can never hope to exercise their highest capabilities. Here too we do not wish to condemn completely the women's services. They have undoubtedly played a good part in the national struggle and for some women they provide stimulating and useful employment. But the average university graduate should consider carefully her qualifications and her prospects before rushing off to join the colors.

Thanks to Judge Helen Kinnear and her enter-prising spirit a new field is open for women. With the precedent set, the appointment of women judges is no longer a revolutionary idea, and a new field of talent lies open for the bench. Buy beyond all this, Miss Kinnear stands as a symbol to the women now passing through her old university, a symbol of encouragement and a sign of what strong women

Cat Calls Again ...

Ottawa. February 4, 1944.

The Editor, The Varsity.

My attention has been drawn to column three of page two of your issue of February 1, to an article purporting to teach your readers the art of music criticism. column is headed "How to Be a Music Critic." The two ideas are not identical.

effusions of my revered professional contemporaries of Toronto's other papers; "men may come, and men Street. may go; but they ..." However, as those who were privileged to read the A. M. & D. column during my tenure of office will have realized, the effusion allocated to me was, to put it gently, improbable. So gentle a review, almost anyone will tell you, would have been praise, and MacDonald never praised

The first sentence would appear to be peculiarly inept. "I was utterly disgusted by this concert." It would be unlikely that I would register disgust at this point over any concert.

NEIL MACDONALD.

We Moralize

Royal Alexandra Theatre

week's run at the Royal Alec last night. Though of follow-the-leader. We do not wish to be interp-why on earth it should have an eight-year run on reted as detracting from the worth of the teaching Broadway is more than the run-of-the-mill critic (It is a potent commentary on (Continued on page 4)

It was rumored in unusually un-reliable quarters this morning that Dr. Worn T. Mouthorgan, Professor of Epileptic History at the University of Dawson City, has written a pamphlet entitled: The Schoolman, or How to Make The Monetary System Work, or How to Solve the Unemployment Prob-lem, or How to Find a Use for the Schoolman. Schoolman.

Long convinced that the monetary system is in one () of a state, Prof. Mouthorgan has spent the last Prof. Mouthorgan has spent the last 12 years trying to find a suitable substitute for paper money or gold as a basis of currency. Violently disagreeing with both English and American schools, he demonstrates vividly in four colors—red, yellow, black and white—that we have an unparalleled and in-exhaustible supply in our own country. "Schoolmen," says Dr. Mouthorgan, "will be the means of insuring the future

will be the means of insuring the future "will be the means of insuring the tuture security of this country on the inter-national exchange." He goes on to demonstrate that, suitably prepared, a Schoolman forms an excellent, durable, easily recognized, piece of specie (un-like the V-nickel and the new American ent). The Mouthorgan Theory of using Schoolmen as the Currency of the World (which he aptly abbreviates to the M.T.o.U.S.a.t.C.o.t.W.) is a clear, definite exposition, sparkling with humor.

Dr. Mouthorgan expects no difficulty in manufacturing the new currency.
"With modern methods of dehydration,"
he says, "we can produce about twice as
much money per day as the mint does now. Our gold mines may give out, but Schoolmen are inexhaustible."

rporting to teach your readers the art of music citicism. That statement is not quite right, for the lumn is headed "How to Be a Music Critic." The oideas are not identical.

It would be unkind of me to comment upon the fusions of my revered professional contemporaries Toronto's other papers; "men may come, and men Street Contemporaries Toronto's other papers; "men may come, and men Street Contemporaries Toronto's other papers; "men may come, and men Street Contemporaries Toronto's other papers; "men may come, and men Street Contemporaries Toronto's other papers; "men may come, and men Street Contemporaries Toronto's other papers; "men may come, and men Street Contemporaries Contemporari

Comments are already breaking out in the Toronto newspapers. J. J. Barrack, in an advertisement on page 5 of another Toronto paper, the Ropey Tail, stated: "From a businessman's viewpoint Dr. Mouthorgan's idea is magnomenal. Business will boom if the government takes it up. I intend to distribute 75,000,000 copies of the pamphlet in Ottawa tomorrow."

pamphlet in Ottawa tomorrow.

A large International Pickle (said to be C.I.O.—uncontrolled) advertisement was rushed to The Varsity office, condemning the M.T.o.U.S.a.t.C.o.t.W.

It stated that Professor Mouthorgan was antagonistic to Democracy, to Free Enterprise, to Individual Initiative, to the Natural Inherent Rights of the (Continued on page 3)

MEDIUM MILD AYER'S NAVY CUT CIGARETTES

Tid-bits from the College Papers

With the Chief Librarian of the Toronto Public Library havin spoken recently on the subject "How to Judge a Book" it is interesting to note a recent report by the American Library Association on the current trends in reading. Apparently readers in general are becoming better Judges of books, perforce, than they were before the war. With less leisure in which to read, they choose the type of reading matter which will give them the most satisfactory return for the time spent on it.

A lew days ago a young man took his best girl some flowers. She was so pleased that she kissed him. He hastily arose and started to go.

"I'm sorry if I offended you," said the girl. "Oh, no, It isn't that, I was just going back for some more

Army Wins Over S.P.S. In Close Exciting Match

Army Gains Lead in First Period and Holds It Despite Last-Minute Rally of Hard-Skating Senior School

SCORE IS 3-2 FOR ARMY

Taking advantage of an carly lead, Army held out against a last period rally to edge out Senior Schoou 3-2 in fast hockey game yesterday. Army held the offensive throughout the first period to build up a 3-0 lead and then after tiring badly in the second just managed to hold on long enough to salvage a

In the first period School was strictly on the defensive and were out-played by a wide margin. Boa of School drew by a wide margin. Boa of School drew the first penalty of the game after four minutes and 50 seconds of play and Army launched a power attack that netted their first goal at 6:10. Short from Sherry was the scoring play. Wilcox of School went off for tripping at 9:35 and the Army attack again payed off when Wise scored from Steed

WHIPPER AND MARCUS

By Michey Michasiw

A MEMORY GEM .

Mr. Hockey is in Dutch again. This time it isn't the referees but the O.H.A. moguls. They have decided to reprimand him for his misconduct in signing juveniles and juniors for his Buffalo Bisons. On finding them a bit on the green side, he would release them to play amateur hockey for which they would be ineligible. The most prominent example was the case of 17-year-old Paul Waldner who was forced to retire from hockey for the year because O.H.A. officials refused to allow him to play as a junior after a short fling with the Buffalo team.

While we are hardly capable of carrying Waldner's torch this

Buffalo team.

While we are hardly capable of carrying Waldner's torch, this incident brought to mind memories of the great Mr. Hockey as he is so often referred to. Austen Lake, a foremost American columnist, once described him as: "A psycho-analysis of the contradictory character who played hockey for Boston Bruins."

By now you must recognize the character as none other than Eddie Shore, the dirt farmer from Fort Qu'Appelle out in Saskatchewan. Chalk up another point for the West.

It isn't so long ago that we first had our hand caught in Shore's

ewan. Chalk up another point for the West.

It isn't so long ago that we first had our hand caught in Shore's vice-like grip while we mumbled in monosyllables mixed with suffering, distress and pain. After what seemed an eternity the pumping stopped and the senseless hand fell away. But we had met our boyhood idol, Eddie Shore.

To look at the man, it is hard to believe that he was capable of the misdeeds he was charged up with. That eager and willing smile exemplifies a disarmingly meek man. The shiny, hairless forehead typifies a successful business man.

Some kind soul brought out the fact that we had donned a pair of skates, once, and that—

A strong hand pummeled us with friendly pats on the back. Our

A strong hand pummeled us with friendly pats on the back. Our knees weakened and we were suddenly and quite naturally bathed in perspiration.

perspiration. Including for us, an unfortunate player wandered in perspiration. Then, and luckily for us, an unfortunate player wandered into the dressing room some 20 minutes late for the tune-up scrimmage. The wrath of the powers descended. A magnificent transformation took place. Shore suddenly became an uproarious, unrelentless, hostile character who threatened all sorts of dire things.

Here we saw the Shore of old. The Shore as he had plied his form of muscular frenzy on the ice lanes short years ago. The Shore feared and respected by friend and foe alike. The Shore who had bred brawls, battles and bombardments. The Shore around whom the Bruins of old had been fashioned into Stanley Cup teams.

Then the flood of emotion subsided. Shore became the friendly funster again. He talked of his greatest love—hockey. We had always been uder the illusion that Shore never came out of a serap second-best. He vowed it was not true. Claimed he was in arrears in retailations and showed us numerous scars and stitches to prove his point.

retaliations and showed us numerous scars and stitches to prove his point.

Then his tone changed. His keen senses had perceived our innermost thoughts, for in the most secluded spot of the cranium we harbored the memories of the Ace Bailey incident. In a soft voice he said that in his two decades in hockey it was the most unforgetable incident, and they two are the best of friends.

Later we intently listened to one of his famed pep talks to the team and after a few minutes it is quite easy to understand why he has gained as much renown for his coaching as he did during his hey-day.

Before we parted, the secret of Shore's success was pried loose.

ney-gay.

Before we parted, the secret of Shore's success was pried loose.

When an opposing player gives him the "friendly works" he thinks
"Maybe he didn't mean it." The next time, "Maybe he did." The
last time, "Bust him."

"Maybe the unit than," last time, "Bust him."

"But always give a guy three chances."

This doctrine has more than it appears at first glance. Most people are in the habit of "Busting him" almost simultaneously with the first blow.

A SYMPATHY NOTE ...

The sports department wishes to extend its sincerest sympathies to Geoff. Parke-Taylor of Wycliffe, whose brother, in the R.C.A.F., has been listed as "missing." Laboring under this heavy burden, Geoff, like the true sportsman he is, officiated at the track meet westerday afternoon.

Two Indoor Track Records Smashed By Fleet Runners

Watts Wins Over Fordyce and Shackleton in Sr. Mile, While Wheeler Beats Whitely and Woods in Novice Event

ALL FACULTIES ENTERED

The results of yesterday's track events show Johnny Watts of School leading the pack in the feature senior mile event. His time of 4,39,7 was but slightly bette His time of 4.39.7 was but signify occur than that of Fordyce of School and Shackleton of U.C. who finished second and third respectively. Moull, the winner of the novice half two weeks ago, place fourth followed by Lorimer, Kerr and Delancy in that order.

The novice mile produced a new ack record as G. Wheeler of Vic broke the tape in 5.03. Whitely (Dents), Woods (U.C.) and Stoickeff came down

Woods (U.C.) and Stoickeff came down the stretch in that order.

The shorter distance, the 220, brought out some 121 runners including a number of newcomers. Lewis of Meds established another indoor record with the time of 242. The former record was 24.4 Kerr of S.P.S. and Wesson of Trinity tied for the next slot in 25.2. Fielding of Meds ran fourth with Hiklicki (Vic) fifth and Wilford of Meds sixth.

NAUSEAGOOD HALL ..

4.45

This suit being staged by the potential wigsters makes us wonder This sint being staged by the potential wigsters makes us wonder if there are any babes-in-law who are athletically inclined (other than socially) playing on any of the teams. Offhand, we can't name one particular damsel who's taken a fling at a hockey goal, swung a racquet on the court (aside from the profession), or made like a shark in the pool (??). Don't you gals give your better halves any moral support in this upcoming word joust? How about whipping into the odd sport eh?

THEY ALSO SERVE ..

Physio "stood and waited" in the volleyball game yesterday, but they found out that their serves weren't as efficient as Vic's. The gals of the Scarlet and Gold knocked up a total of 71 points to 47 over the Physios. From all accounts the Vic gals' hard fast service was intangible as far as their opponents were concerned.

The best game of the day was batted out by the Saints' first team carcingt IC. The Tripity gals (appleages) trumped the Royal Col-

against U.C. The Trinity gals (apologies) trounced the Royal Collegians by a score of 48-32. P.H.E. 1, however, balanced the Saints gain by walking over their second team 67-30. All in all, the game was pretty ragged as far as St. Hilda's playing was concerned. These are the first games of the schedule to be played off. The next round will occur tomorrow at the L.M. gym.

SHOE 'NUFF.

The University Blacksmith is pounding out some brand new shoes for the waterhorses of the new U.C. water polo team. There's enough enthusiasm in the Royal College to warrant a strictly red and white squad. Hence every splash gal, crawl up to U.T.S. pool on Friday from 5-6. If the turnout is successful, U.C. will have its own team, as well as P.H.E. Nor will it be the first time that some of the Royal College babes will have an opportunity to be all wet. Libel line forms to the right, please.

NO NUTHIN' ...

was the song of Trinity gals hockey team, when U.C. managed to slide in a lone goal. Isobel Reid, the red and white's ace, snaffled the puck and hoisted it into the net to earn the victory. She was ably assisted by Peggy Gracb, while Connie Fellows and Betty Hungerford did some noble playing for the Saints.

Wycliffe Edges Emmanuel In Hotly Contested Game

Game Opening with Slow Play in First Period, Develops into Tussle Resulting in Victory Tangle in Pool for Wycliffe

Emmanuel's first line of Bryson, Smuth Stevenson and Mould Clicked for the only goal of the period.

Stevenson netted the puck on a pass from Mould. The period was on the whole very even, Wycliffe's first line of Harris, Cunningham and Lyall supplying the effort that held Bryson, Smith & Co. in check.

The goaling on the part of Storey for Wycliffe was strictly catch as catch can, but this was offset by few shots directly on the goal.

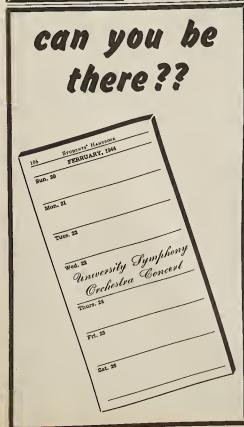

The second period opened up at the pace at which the first period stopped. With the first lines supplying the action, goalies Storey and Cunmings held the period scoreless until 9:15. Edworthy made a few starting rushes in this time, and after working through the period scoreless until 9:15. Edworthy made a few starting unshes in this time, and after working through the Emmanuel defencemen he would either be outguessed or tripped by Storey. At the 9:15 mark, Lyall passed to Cunnigham for the equalizer. Harris, who had been starring for this line, was not in on the scoring play.

At 11:20 Lyall was given a minor penalty for slashing, and while it looked as if Emmanuel might score, Edworthy was sent off for roughing. Half a minute after Edworthy was back on the lice, at 14:43, Harris slipped the puck

The Junior Interfaculty Swimming HARRIS STARS

Theologs met theologs yesterday afternoon and Wyeliffe's Blues edged out Emmanuel in a tight hockey game. The first period opened with a slow game of hockey, but after five minutes of play Emmanuel's first line of Bryson, Smith Stevenson and Mould clicked for the only goal of the period.

Stevenson netted the puck on a pass in by Al Patterson of the big Blue and the previous period.

Biology in War Is Discussed

Dr. A. R. Gopal-Ayengar, of the Botany Department, was the guest speaker of the Biology Club last Thurs-day night. He spoke on the "Biological Aspects of War" and stated that war is "intra-specific group fighting," indulged in only by man and some species of

A rapid series of Thurber illustra-tions gave a satirist's analysis of war. He stated that the thesis that war is inevitable was first advanced by a Prussian officer, Von Bernhard, in 1901: "Arbitration is an unjust en-

Croachment" on the rights of man.

Warfare, he said, is not the same as the instinct to fight. It is an organized attack of one community on another and is unnatural and artificial.

An analogy was drawn between the

excessive defensive specialization of the dinosaurs, which led to their extinction because of loss of adaptablity, and the attempts of the democracies to defeat totalitarianism.
One school of thought, Dr. Gopal-

Ayengar said, maintains that war is biologically dangerous because, unlike natural selection, it destroys the most desirable elements in our inheritance. This has been disproved by statistics of the biological effects of the last war.

Tonight at St. Hilda's

Law Club And McGuiness Seek Damages Of \$1,500 In Libel Against The Varsity And On Child Care

About 200 girls who have done 60 or more hours work in the day nurseries, more hours work in the day nurseries, among them many who have accomplished this as their University war work, were presented with pins last night at a meeting of the Women's Voluntary Services at the University of Toronto Schools Auditorium. Feature of the evening was an address given by Dr. W. E. Blatz, Director of the St. George's St. Unititate of Child Studte. George St. Institute of Child Study, on "The Care of Children in War-Time."

"If we talk about the care of children in war-time we will think that when the war is over our job is done," said Dr. Blatz in explaining that he did Dr. Blatz in explaning that he did not only want to talk about war-time care. He said he wished to pay the greatest tribute o the W.V.S. for the courage they had shown to take care of children during the war as they should be looked after in peace-time.

Dr. Blatz pointed out the many cases of juvenile delinquency today and emphasized that reform schools and strapphasized that reform schools and strapping are not the basis of stopping delinquency. He suggested three ways for its solution. First, to find out what are the causes of juvenile delinquency and do research in human behaviour problems. Secondly, to have a great number of people trained on the problem we have to discover. We are just beginning to realize that bringing up children is difficult, said Dr. Blatz. He said the reason for this was parental children's difficult, said Dr. Blatz. He said the reason for this was parental ignorance and that there has been no opportunity for them to learn but that volunteers of the W.V.S. have learned that taking care of children is not only a matter of wiping noses, changing diapers and closing doors. The third thing is to have money. "The only was we can save money is to send the said of the comparing the Aeneid with the Iliad prevented a true understanding the two exhibitions a combined.

1918, he became a professor in clinical surgery. He resigned from this office in Dr. Primrose was the son of a Scottish pioneer, Howard Primrose. He was born in Pictou, N.S., in 1861. He received his Bachelor of Medicine tring in 1932.

DeWitt to Speak Art Exhibition At Vic Lecture

Professor N. W. DeWitt will discuss "Virgil in the Latin Epie" this afternoon at five o'clock in Alumni Hall, Victoria College. This is the second in a series of four lectures sponsored by the Victoria College Council.

In his lecture Prof. DeWitt intends to the Second Council of the Prof. DeWitt intends to the Second Council.

In his lecture Prof. DeWitt intends to take for granted all the traditional judgements of Virgil as a poet. In an interview yesterday he said he would attempt to show "that the form and content of the Aeneid were determined by a synchronism of various influences by a synchronism of various influences that were converging upon Roman thought in Virgil's time. These were Chaldean astrology, Oriental philosophy and philosophic mysticism. Virgil's proetic technique is shown to be dramatic rather than epic. Certain of his externals are Homeric but he was really pouring new wine into an old bottle."

Prof. DeWitt further added that the injustice of comparing the Aeneid with the Iliad prevented a true understanding of Virgil.

Opens Feb. 25

All entries for the exhibition of water colors, oils, and black and white draw-ings, open to undergraduates and senior members of Hart House, must be turned in at the Warden's office before 5:00 p.m., Feb. 22, it was announced today. Entries must be properly framed, with the name and address of the exhibitor attached. This year the exhibition is open to members of the teaching staff.

The Art Committee of Hart House will select pictures and display them in the art gallery from Feb. 25 to March 17. On Visitors' Day, Sunday,

At University Symphony Concert

S.P.S. Upholds Free Enterprise

The resolution, "Resolved that engineers have greater opportunity for eco-nomic success under free enterprise than nomic success under free enterprise than in a socialist economy," was success-

Engineering.

John More started things off by pointing out the unlimited horizons attainable under free enterprise, unhampered by seniority considerations and restrictions on the changing of jobs at will, such as would be the case in a socialist state. In socialism, he said, branching out for oneself by seeking better jobs state. In Socialism, ne said, pranching out for oneself by seeking better jobs would be impossible, and if an engineer decided to change his line of endeavor he would take a downward step.

Norm Lea, speaking for the negative, maintained that the first speaker had strayed from his definition of success and pointed out that in, a state where

and pointed out that in a state where there are more successes there must necessarily be more opportunity. Ken Coulter, speaking for the affirmative, quoted figures to support his contention that engineers were a successful group, even during depression.

essful group, even during depression (Continued on page 4)

M'Gibbon to Talk On Monopoly

Problems of monopoly will be dis-cussed by Dr. D. A. MacGibbon, chairman of the Board of Grain Com-missioners in Winnipeg, asguest speaker at the first of a series of four lectures at the first of a series of four fectures under the joint auspices of the Uni-versity Extension and the Department of Political Science and Economies to be given tomorrow afternoon at five o'clock in the Economies Building. This series of lectures is a yearly

feature of the Department of Economics The talks are given by outstanding economists from both Canada and the United States, and deal with different United States, and deal with different announced yesterday that the Outlet of phases of topics of current interests. States had renewed a warning to Fin-Open to the public, the lectures are laid that she must assume all responsibility of righting at the side of the harmonic of the layman to hear discussions by noted authorities on present day economic questions, and also give the staff and senior students a chance to compare their views with those of economists (Continued on page 4)

Straws In The Wind

While reading through a picture magazine the other day we struck an article on the Oxford Union, dean of university debating associations. Union, it seems, has continued its activities uninterrupted in a country much concerned with the strenuous prosecution of the war and actually part of the front line. A striking paradox could not avoid occurring to us as we happened to be in a building which has been accustomed to house the

Canadian counterpart of that Union.

We refer, of course, to the lively and well-known
Hart House debates of blessed memory. With the coming of the war accompanied by a wave of almost morbid self-consciousness at Canada's new found belligerency the debates were cancelled and although a Debates Committee continued to be elected for a while, even that empty symbol of the once flourishing institution was dropped. Of course this was a wise and honest move if the debates were definitely off for the duration, but public attitudes change and the student learns to adapt himself to a new way of campus life.

Changing Situation

The dangers of unpleasant and unfriendly outside comment on University debates, which were probably overestimated in the first place, have been greatly lessened, although admittedly they have not dissappeared, at the same time student debating societies have shown an ability to handle the mos controversial subjects with skill, sincerity and

Resurgent interest is seen in the interfaculty and intercollegiate activities of local debates. It is time that the one hall in the University which was specially Orchestra, under Ettore Mazzoleni, gave its first its proper use

Wherein We Get to the Point

Now the way to do this is somewhat obscure, there however, a House Committee still whose members and provided stringent direction. could approach the Board of Stewards with the student demands for the reopening of the old-time debates. The annual elections will be held this month and in the debates question there is rough material for an excellent electron with the was blonde. Peggy Moreland as soloist in the material for an excellent electron.

it was a regular feature of Hart House elections for candidates to promise to exert themselves for some needed reform. For instance, one depression-smitten electorate swept into power a House Committee com mitted to investigate and promote a 20 cent luncheon in the Great Hall. This promise was fulfilled.

Lackadaisical Campaigning

For the past four years candidates have been content merely to announce their candidacy by way of a poster and in some cases support themselves with hollow slogans. The number of candidates has fallen off steadily and the decline in the percentage of voters actually exercising their franchise has fallen even more rapidly. Undoubtedly this has been largely due to the war. The unfortunate state of affairs is traced in some quarters to a general lower-ing of the calibre of students now attending college. Less and less interest has been seen in the elections in the last four years and it has been more and more difficult to find an adequate number of nominees. Limitations on the individual's time have made committees less and less effective and the permanent administrative staff of Hart House have had to take affairs more and more under their control.

Tumult and Shouting

Sharp realizations of this state of affairs have led o occasional outbursts of indignation on the part of students who had imagined that their union was run on democratic principles. Generally speaking these reactions ignore the fact that while the scope of the above-mentioned principles is necessarily limited, the application of sound psychological and business principles to the running of the House have carried its administration through many difficult emergencies with surprising smoothness. Nevertheless it is un-deniable that all is not completely satisfactory in the administration. Hart House is a pleasant oasis in a desert of academic drudgery, but it is not yet paradise. Students who complain of the limitations of the Committee system as it now stands are not supported by the general electorate, who, for the most part, take too little interest in their House to vote in the annual elections. According to the Warden's office one of last year's loudest critics were I am, so it must be true, must proved to be a committee member who seldom came supported by the general electorate, who, for the proved to be a committee member who seldom came to meetings and wiggled out of the only constructive bit of work he was asked to do all year.

If there really is as profound dissatisfaction with affairs in Hart House as grousing in some quarters would suggest, the remedy will be at hand when nominations are opened. Let those who have planks to contribute organize themselves and shape their timber to form a full platform of a type which may be applied constructively to the administration of the House. Let coming years' committees prove themselves as hard-working as the best of those of the past and as little worthy of the title of "Yes-men"

Collegians Listen . . .

Secondary School Concert

The High School gang got another treat last night Massey Hall when the Toronto Symphony designed for parliamentary debates was returned to reading of Shostakovitch's First Symphony. Most of them probably didn't appreciate it, but this work, written as a baccalaureate thesis by the young graduate of the Leningrad Conservatory, has many amusing harmonic devices and refreshing usage of being no debates committee in Hart House through the various choirs. Mr. Mazzoleni comprehended which the powers could be approached. There is, most of its difficulties, of which there are not a few,

demoth and in the debates question there is rough material for an excellent platform plank.

The suggestion that anyone run for membership on the Hart House Committee on any sort of constructive platform may seem like heresy to the average undergraduate member of the House, but it average undergraduate member of the House, but it average undergraduate member of the House, but it is quite all right, really. In days before the war

Only The Women Of University College Allowed To Attend The Arts Ball Due To Policy Of All Or Nothing At All

DON'T QUIT NOW, JACK

For some peculiar reason, somebody found out that Charles Backyard had something to do with the U.C. shin-bashing orgy tonight and the amount of mail that Mr. Backyard received conmail that Mr. Backyard received con-cerning this particular dance has been enormous. Generously enough, Mr. Backyard turned over some of these letters to The Varsity for publication. "Purely from the kindness of my heart," bragged Backyard. "Oh most purely," we agreed and culled the best for you—our Gentle Reader—to read.

haven't I been asked to the Arts Ball tonight. Can you help me? Yours hopefully,

Lucy's little sister.

Tritely enough, Backyard smirked, "She never hearduh Leap Year, I guess."

Dear Mr. Backyard,

Dear Mr. Backyard,

I am one of the most handsome characters in the Faculty of Applied Science and Engineering. I am going to take a U.C. squab to their Arts Ball tonight and what I wanta ask you is this: Do I or don't I have to take my hat off when I say goodnight to her. I say I don't. She says I do. She twisted my andle the last time I did it; but I still don't think I should endanger my health. Do you?

Vars worriedly,

Yours worriedly, A not-so-civil engineer.

"I wonder," muttered Backyard, "does he think I'm George Anthill?"

Dear Mr. Backyard,

Who do you think I'm taking to the Arts Ball? If you think you're gonna go with the girl I think your thinking of taking, one of us has gotta nuther think coming. I'h 240 pounds, six feet four in my cuff-links and I just *live* in the Athletic Wing at Hart House. Yours,

"Oh, well," laughed Backyard shakily, "I couldn't get a free ticket anyway. Dear Mr. Backyard,

Well, I guess the laugh is on you, (Continued on page 3)

LOOKING IN THE CRYSTAL ...

More exciting than the discovery of an unknown star, more enthrused over by the fighting females, is the up and coming sport of ping pong. Yes, for those ambitious lassies who want a game that is fast and furious, and requires the peps and zip we have so much of, ping pong is the one and only answer. A veritable "dark horse", we propheys that it will take first place in the limelight, once its merits are truly appreciated. Here is our chance to shine in a sphere ripe for conquest. Skill gained in the recreation rooms of each College should be given an opportunity to display itself. And herein lies the bomb shell that will shake the very depths of our ambitions—an inter-college ping pong tournament has been suggested; a tantalizing thought for zealous sport fans. So up and at it girls while the crowd roars!

THE CLOCK STRUCK TWELVE ...

THE CLOCK STRUCK TWELVE...

The zero hour today comes at twelve o'clock, when Trin, II will meet VicII in what promises to be a great game of hockey. The teams are rarin' to go, and it seems there's no checking women when they're out on the ice. We are muchly gratified at the enthusiasm which is everywhere evident in the field of hockey. The girls have had to suffer patiently many hindrances such as awkward hours and no ice. But it takes more than that to keep a player down. It'll be touch and go at the game today. Two games are scheduled for Thursday, and two more will follow on Friday. Things are really cooking in hockey and the hotter it is the better we like it. And good luck to the coming champs—a junior 'T' is not to be easily won or lightly sniffed at.

"EN GARDE!" ...

The high light of Friday afternoon comes at three-thirty, when every good fencer betakes herself to the Lillian Massey gym to sport her stuff. It may call for gruelling hours of practice, it may not ever show results for a long time, but here is the clamor of battle, the clash of steel hitting steel, the fine display of deft strokes and nimble feet. For that beautiful figure you have dreamed of all your life, try fencing

BOOKS TROOPS

Any time's SHOPPING TIME!

LET'S FACE IT pleasantly, this grime soaked air gets pretty grim along about February, but a girl can do something about it. A pretty face, clean as flower petals, helps to build up the morale of petals, helps to build up the morale of all and sundry, so it's a responsibility, no less, to keep one's face as smooth and clean and pretty as wind and weather will permit. A nightly face cleaning with Du Barry Cleansing Cream goes a long way toward keeping that fresh as roses look, and after a swim in the tank it's practically a swim in the tank it's practically a creessity. Du Barry's a name you can count on first, last, and always.

IF YOU ARE A STICKLER for the the Hearthstone is worthy of note The Hearthstone is worthy of note become it actually carries out to the letter the promises and claims you read in tap-flight advertising. The Hearthstone table linen 15 sparkling, immaculate, the Hearthstone service 15 quietly efficient, discreet, and, gentlemen, the foad 15 just a little better than you'd

long slinky sleeves are finished with clerical ruffles of white all-over embroidery and lace tied at the wrist with red gros-grain ribbon, just the dress to go twosoming in on a date. You'll find this tempting creation and many others designed to make a girl think well of herself, at the St. Regis Room on the Third Floor at Simpson's. Remember, black makes a young thing look more knowing, an older girl look younger, it is in fact the wonder colour, and when its lines are as intriguing as the one described, you'll go a long, long way before you'll find a better build-up for flattery.

CAPTIVATING DATE DRESSES expressly designed to give you an air of saphistication and poise! Choose them with care (don't pick one for the colour only, but be sure the style's good colour only, but he sure the style 3 good to your best points.) You'll find a colour that appeals to you as well, one that'll bring out the colour of your eyes and skin. Fairweathers are offering lots of gay numbers to choose from, paddy greens, red, blues and seads of sophistically the state of the sta cated styles. They come in gay prints, rayon jersies, devastatingly attractive styles with flattering ruffles and drapes. You'll look as pretty as a picture! And why not? You'll never be so young again. Fairweathers has 'em all.

AFTER A BUSY WEEK . . . you'll find you're only two of the crowd who've science Association and super dancing. If you've an out-of-town pal to entertain, the King Eddy Thé Darsouts are your grab such a load of entertainment and big-city atmosphere out of one dollar per, plus tea.

BEFORE LONG it'll be cotton time, believe it or not. Crisp and fresh easily laundered ginghams and seersucker came in exciting styles, ready to prove spring's in exciting styles, ready to prove springs just a step or two ahead, and all in array at Northweys, who believe in getting ready jor the linn of the season with the best news on the market. There's a honey in brown and white stripe, has flattering jacket with two small packets and two very clever bows in brown at the waist. The jacket buttons to the neck, has dainty little buttons to the neck, has among atte-button in brown and white. Very sweet and feminine and has a ruffle on sleeves and slash packets and at the week, with tiny pearly buttans down each side, Just sem at the many at Northways in the Ju 2604. a few of the many at Northways in the Junior Miss Department, third floor.

CHILD CARE . .

(Continued from page 1)

In discussing what a human being seeks in living Dr. Blatz stated that seeks in fiving Di. Blade States the present answer was security. "Security is that state when an individual is willing to accept the full consequences of his behaviour and only then does he feel secure," he said. He added that he feel secure," he said. He added that learning is the basic phenomenon of living and that as soon as one learns to take the consequences one is secure. In infancy a child is dependent on its mother but as soon as the child begins to learn he begins to become independent, and every parent should push the child so they worth have any maculate, the Hearthstone service IS quietly efficient, discreet, and, gentlemen, the faad IS just a little better than you'd get served up from a private cook at home. In short, the Hearthstone, far aum money, is a superbly cuisiued place to eat. Separate rooms for class parties and group dinners. Sunday dinners are a specialty.

hither and yon

with janice m. murray

At our north campus haven of heading just that same way. Her garter, iniquity there was a heated discussion Watt to do? Only one thing. With going on about the subject of soap operas. After the pro's and con's had been sifted out and the serials were unterly damned by the intelligentsia, one Freshie, whose face had gradually fallen throughout, got up and strode to the door. "I don't care what you think." She cried tremblingly, "I'm still going to listen to the Lone Ranger."

Continually we get hithers doned as the co-d over and, if satisfied, nuzzles up and tries to take a nip of the co-ed

Continually we get hithers donated as revenges for other hither-givers; it's a vicious circle. It seems that the girl to be ruined socially by this item went to Mac's and forgot an essential part of her wardrobe. In Mac's people looked and looked and STARED, Realizing that this was only natural the ways of the natural natura that this was only natural she was only a bit nonplussed, but when, after she had left and started her hike homeward, she noticed that this attention was focused near the ground. She looked, and—there were her feet encased in stockings which trailed woefully over them and for some 30 odd inches behind

And up at Varsity stadium one of our this for some days, one Frosh, seeing this for some days, one Frosh, seeing this the state of the original belle turn up at the aphockey team, arrayed snappily in the little thue shorts and long (itchy) wool stockings, tripped over something—a garter. She skated on, ignoring the whole thing until, glancing icewards, she whole thing until, glancing icewards, she whole thing until, glancing icewards, she was her long (itchy) wool stockings!

each co-ed over and, if satisfied, nuzzles up and tries to take a nip of the co-ed in question. He closes in, bread-wagon

in question. He closes in, breat-wagon and all, in true Skule fashion.

There's a moral as in all hithers...

The Manpower shortage is getting terribler and terribler, in fact it APPALS us women. No longer men, or wolves, now horses we have yet!

It seems that we busted a Beautiful Romance the other day with a certain item...so here goes another. Up at the School of Architecture there is a young Lothario who is visited regularly by a certain eampus belle. At certain other times he is visited, also regularly, by other campus belles. After enduring

MART KENNEY LOOKS PART of sweet swing maker

of his lungs.

of his lungs.

"So sorry," he exclaimed a minute after, and he apologized with some vehemence.

"You see," he explained, "that's show business. Some days you

sleep, but mostly you don't."

It was 7:00 p.m. yesterday, and Mart
Kenney, leader of Canada's top-ranking swing orchestra, explained that he and the band had been playing an engage-ment at Deseronto, near Kingston, the night before. He's arrived in Toronto late in the morning by bus, and so, lad been catching up on his sleep all afternoon.

The 33-year-old, soft-spoken

The 33-year-old, soft-spoken conductor, who will lead his "Western Gentlemen" in his famed fullabye-style music tonight at the U.C. Arts Ball, apologized again for his yawn and after that the interview ran on smoothly. Right off the bat, you may as well know that Kenney does not wear a watch dangling from the reet pleet of a zoot suit. Nor does he exhibit tendencies to utter "Get hep kid," or "Send me, pang with a tooly-toot-toot," "Send me, papa with a tooty-toot-toot," or any other such jive phrases which are stock in trade to the jitterbugging,

he speaks slowly, choosing his words carefully. His neat blue suit was that of the Bay Street business man. And, as a matter of fact, he does regard his calling as a business, only 100 times more gruelling than any Bay Street

more gruelling than any Bay Stress enterprise.

Maybe if Kenney had known the difficulties that would later follow, perhaps he wouldn't have bought that first \$85 de luxe model saxaphone when he was a IS-year-old student at McGee High School in Vancouver. In the proper tradition of a Horatio Algerian according bowever, Hart, was then proper tradition of a Horato Algerian personality, however, Hart was then fascinated with dance bands, and since the sax would prove his open sesame to that profession, he paid for the instrument on five dollar monthly payments by handling a regular delivery route for the Avanceure All Persister.

Mart Kenney yawned. He raised his by playing at Vancouver's dimeahand up to somewhat clutbby face, and dance joints. And at 18, he was out of partly covered his tooth-brush moustache as he supressed the sleepy manifestation C.P.R. Hotel Vancouver at \$65 a

After that, it was a matter of After that, it was a matter of wandering from one town to another in Saskatchewan playing with one band and then another. Until one day, two years later, when he held a chair in the brass section of an outfit on the Coast, he was called to the telephone.

"This is Autor MacLines" soils

"This is Awley MacInnes," said a voice. "I'm taking over the Alexandra Ballroom. How would you like to come here to Vancouver again with our own band?'

Dumfounded, Kenney had nothing to

Dumfounded, Kenney had nothing to say for a minute.

"Take it or leave it," was MacInnis' weary reply. "Be here for an audition Wednesday noon at two."

He hung up, and 72 hours later, Kenney and his newly-formed orchestra were on hand to strut their stuff, McInnis listened without any show of

"Well," asked Kenney," how did we make out?" Mr. McInnis slowly got off his chair

and said, "Lousy."

There was a wild scene when Kenney

upheld the qualifications of the orchestra and McIunis leaned back and simply

Then he said, "Your hired. We open in two weeks. Meanwhile, get a hall somewhere and rehearse, rehearse, re-hearse." When Kenney and has band left, Mac treated himself to one of his

rare smiles.

Now as Kenney looks back to this event 13 years ago that marked the birth of his present orchestra, he treats himself to a smile, too. But thoughts of his ascent from second-rate dance of his ascent from second-rate dance halls to the finest hotels spread across Canada; from barn-storming one-night stands in "nooks and crannies across the prairies" to broadcasting twice weekly over a national network of Canada and the United States, he considers with as grim and not always happy memories.

The leader of the 16-man band, who over make was cree Canada tents were the control of the control of

The leader of the 10-man band, who route for the Vancouver Daily Province.

In between periods of throwing the Province on neighbors' door-steps, he popular style is the result of a study he practised toolling the seales on his sax. has made of the "average" dance land time he became so proficient that he helped pay his way through high school

Bill Tamblyn, pointed out the advantages of a socialist economy as regards security, controlled exploitation vantages of a socialist economy as re-gards security, controlled exploitation of natural resources, and greater co-operation between industry and the educational systems. He told of the restriction of Canadian oil development by large monopolies to control prices, and the danger that threatens Canada's timber resources through uncontrolled exploitation.

BULLETIN BOARD

VIC V.C.F.

Mr. C. Stacey Woods, the North American General Secretary for the I.V.C.F., will address the noon-hour meeting of the Vic V.C.F. in Jackson Hall at 12:40 today. Come and bring your friends and your lunch.

Jack said, as his father looked on, "bu certain other things are important, too. We always have the radio on when Dad plays, but often, I must admit, I take time out to walk away and play with

When Jack was asked whether he strength to all of his father's broadcasts were the air, he had a pat answer.
"Well, I like music very much," little "Maybe Jack will be a doctor instead."

The whisper campaign says Newman Ball on Thursday at the Royal York is tops.

THE UNIVERSITY OF TORONTO, THURSDAY, FEBRUARY 10, 1944

Three Justices To Try Park Rd. Baptist Foreign Policy Miss Wilmina Rowland Notorious Libel Case, Holds Annual Brown's Topic W.S.S. Secretary, International In Series Talk 'Varsity' Versus Law

Eminent Lawyers Hired by The Varsity Editor to Defend Freedom of Speech and Freedom of the Press

FROM BIAS FREE

The most notorious case to be heard in the University of Toronto Moot Court in the last decade will be held this evening in the Junior Common Room judicial chambers at University this evening in the Junior Common Room judicial chambers at University College, commencing at seven o'clock. The case, Mr. J. H. A. McGuinness and the University of Toronto Law Club versus Mr. P. Shackleton and The Varsity, will be heard before three notable justices, Chief Justice J. A. R. Grant, Mr. Justice L. W. Houlden and Mr. Justice J. M. B. Davis.

Registrar F. Kelsick announced that, although some difficulty was encountered in serving the subpoenas upon the rospective jurors, the two opposing conusel would have little trouble in choosing the panel.

A literal bombshell was hurled at the plaintiffs by Rex Wilson, Editor-in-Chief of The Varsity, who released the news of the appointment of another prominent member of the law profession to act as leading counsel for the paper. Mr. Telford Georges, a distinguished Dominican barrister, will present the defendants' arguments in the libel suit. It is rumored that Mr. Georges figured largely in the recent De Marigny trial in the Bahamas.

To assist Mr. Georges, two famed legal geniuses were appointed earlier in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the persons of Mr. Louis in the more in the week in the person of Mr. Louis in the more in the week in the person of Mr. Louis in the more in the week in the person of Mr. Louis in the more in the week in the person of Mr. Louis in the more in the week in the person of Mr. Louis in the more in the week in the person of Mr. Louis in the more in the week in the person of Mr. Louis in the more in

To assist Mr. Georges, two famed legal geniuses were appointed earlier in the week in the persons of Mr. Louis Paslawski, the eminent international lawyer, and Mr. Royee Frith, the recognized authority on military law. The appointment of Mr. Georges had been expected but the announcement was withheld until he erossed the border early yesterday. Mr. Paslawski arrived from Detroit last night. When approached by The Varsity reporter, the modest Mr. Georges stated that he will base his case on the plea of fair comment.

of fair comment.

"Free speach and the freedom of the press must be preserved even at the expense of my noted profession," softly added the nenowned associate of Clar-

while Mr. McGuinness was too busily engaged in the preparation of his ease to grant an interview, his secretary, Miss Donna Green, said that their arguments would be based upon the faet

Originality At Newman Ball

Originality will be the key-note of

Boon, recently arrived from Nazi-held Holland, will give the address. Following the service, from Toronto to the recent eonference reward them with War Saving Certificates.

DeWitt Speaks On Virgil Epic

Virgil was described as the epitome of his age for the times to come, by Professor N. W. DeWitt, who delivered Frotessor N. W. DeWitt, who derivered the second in a series of four Wednesday afternoon lectures in Vietoria College yesterday. His topic was "Virgil and the Latin Epic."

Prof. DeWitt suggested that he would recommend histories of Latin Literature as a cure for insomnia and that he had saldon a seimed the action of notice of the second of the secon

tarily sound and full of truth, this would not be sufficient to make them interesting, for such characteristics could also be attributed to the telephone directory which is entirely lacking in suspense and surprise.

In England Dryden translated Virgil

with reverence. Pope tried to match Dryden's reputation by translating Homer and also compared the Ancients with the Moderns so successfully that the resulting decline of Virgil's reputa-tion in England is still evident. Profesor DeWitt discussed the af-feity between the Aceid and the Bible

finity between the Aeneid and the Bible regarding the idea of mysticism. Virgil, using an arithmetical series influenced bing an attainment as the minuteschy the numbers three and seven, created the myth of the enteral city of Rome. Virgil chose to change Homer's original story, and created incidents familiar to readers of his century. These changes were influenced by Chaldean astrology popular in Rome of that day.

Virgil's institute of Homes has been

popular in Rome of that day.

Virgil's imitation of Homer has been the subject of discussion. However, Virgil, unlike Homer, treats time in the manner of a dramatist, whose theory is that life condenses itself into a series of important events. For this purpose the eapture and burning of Troy, which is the theme of the second book, required the space of one day as required by the rules of Aristotle. It is as absurd to hold a stop-watch on Virgil as on Shakespeare, Similarly in

"Canada's Foreign Policy" will be the topic of the address given by Dr. George Brown at the fifth of the series of lectures on "Canadian Trends," which are sponsored by the Committee representing the University's Teaching Staff, Dr. Brown, of the History Department, has been interested in foreign action for committee the state of the state o

ment, has been interested in foreign policy for some time. He attended the Montebello Conference, held from Dec. 4 to 12, to discuss problems of Canadian foreign policy. Professor Brown has taken a keen interest in the Canadian Institute of National Affairs which directed the conference. The group was made up of about 70 representatives was made up of about 70 representatives of many different groups and opinions but was not open to the public. Dr. Brown gathered much material from the technical matters discussed there. The talk will be given in the lecture room of the Botany Building (entrance at rear of Connaught Laboratories), on Friday at 4:30 p.m.

Hart House Nears Election Time

Wednesday, March I, will be election day in Hart House, the Comptroller's Office announced today. At that time undergraduate members will elect their representatives to the House, Library, Musie, Art and Squash Racquets Com-

Musie, Art and Squash Racquets Committees, and members of the Camera Club will elect their own committee.

Nominations will open at 9 o'clock on the morning of Friday, Feb. 18 and close at 6 pm. on the following Wednesday. A week of campaigning will follow before ovders go to the polls. Nomination forms will be available in the Warden's Office.

It was announced at the same time that the present Glee Club Committee would continue in office for the year would continue in office for the year 1944-45. This arrangement was made by an agreement between present members of the elub, W. R. Cowan, Acting Comptroller, told The Varsity.

The usual rules concerning posters and electioneering will apply this year,

and electioneering will apply this year, but there has been a variation in the "300-vote rule." Posters may be placed on display in the main corridor of Hart House after 9 a.m. on Thursday, Feb. 24. The maximum size will be 24 inches by 36 inches. In electioneering candidates are limited to a maximum ex-penditure of \$5. Handbills and blotters may be given out but articles of value are forbidden.

The rule which formerly disqualified any candidate polling less than 300 votes was partially ignored last year because of the extremely light vote and has of the extremely light vote and has been varied this year to provide that candidates polling less than one half the number of votes polled by the high-est candidate for that committee would be disqualified.

The special rule which provides that candidates for the Squash Racquets committee qualify as actual players of the game is still in effect.

Miss Rowland Spent Three
Years Teaching and Travelling in India, China, Japan; Studied a Year in Europe

A DYNAMIC PERSONALITY

Miss Wilmina Rowland, executive secretary of the World Student Service Fund, which is the American equivalent of the I.S.S., will visit the Toronto campus tomorrow

Miss Rowland's program for the day will include a meeting with Dr. H. J. Cody in the morning, lunch at 12 noon in the Blue Room at Wymilwood, when those interested in her work may have a chance to talk with her, a tea with

a chance to talk with her, a tea with the I.S.S. committee at 3.30, and dinner at Annesley Hall in the evening.

After studying at Wilson College and obtaining degrees from Vale and the Union Theological Seminary, Miss Rowland spent three years teaching and travelling in China, Japan and India. A year of study in Europe gave her the opportunity to observe university life and student work there. This experience with college life abroad, coupled with her extensive tours of coupled with her extensive tours of Canadian and American universities, has given her a background of sympathy and understanding with students all over the world, said the New York office of World Student Relief in a letter to Fran Aitken, chairman of the University of Toronto I.S.S. The letter also said that Miss Rowland's wide-spread experience makes her of in-valuable assistance to the I.S.S. planning. Miss Aitken herself describes Miss Rowland as a elever and charming person with a dynamic personality.

Bodger to Speak At Hart House

The position of technical adviser to a great military leader is not generally expected to be the development of a young minister's career, but such was the ease with the Rev. John D. Bodger who will speak in Hart House tomorrow from 1 to 1:30 p.m. on the subject, "New Guinea Today."

rrom 1 to 1:30 p.m. on the subject, "New Guinea Today."

A quiet and contemplative life was not his choice when he was ordained into the ministry of the Anglican Church. Instead, he decided on the work of a practical missionary in New Guinea, and this career has led him to positions of great technical assistance to the Allied forces now fighting there. An Englishmen, Mr. Bodger has been a missionary in New Guinea under the Australian Board of Missions of the Anglican Church for the past 16 years. Trained thoroughly for life in that country, Mr. Bodger studied medicine, surgery, printing, pedagogy and carpentry before taking up his duties. To this he added a special course in tropical medicine at Livingstone College.

course in tropical medicine at Living-stone College.

It was the addition of close knowledge of the country, gained in 14 years of work in mountain districts that made him and his mission especially valuable

New Guinea Today

It is a bit unusual to editorialize about a visitor to our campus so long before he is actually introduced to us, but it seems important that we place special emphasis on the coming of the Rev. J. D. Bodger who is to speak tomorrow in Hart House Theatre on "New Guinea Today." For the opportunity of hearing so authoritative a speaker on a subject so full of interest and yet so little known is one which is scarcely apt to occur again.

The strange and unearthly struggle now going on in New Guinea between Allied and Japanese forces is one which has seized the public imagination not only because of its life-and-death importance to our cause, but also because of the strangeness of the theatre of operations. Not only is the terrain rough, the growth thick and the climate uncomfortable for the prosecution of a modern war, but the inhabitants are a little-known people who are endowed by the popular tradition of anthropology with prodigious leanings toward cannibalism.

It has been a great surprise to many that these natives, with their reputed ghoulish tendencies in the fiield of dietetics, have proved to be co-operative, hardy and gentle in their assistance of our forces, especially in their role of hearing the sick and wounded to safety along rough trails. Some reports by war correspondents and a few grippingly interesting, but tantalizingly brief news reels have come out of New Guinea to give us a fair idea of the nature of the country, a few examples of the weather at its worst, and graphic representation of the amazingly loyal and cheerful natives.

For the first time tomorrow, and possibly for the last time during this war, students of this University will have a chance to hear an interpretation of events in this theatre from a man whose understanding is based not only on 16 years' residence there as a missionary, church official and Legislative Council Member, but also on work in close conjunction with the Supreme Allied commander in the theatre, Lieutenant - General Douglas MacArthur. Bodger left New Guinea only a few months ago and has since been speaking in the United States on the campaign and the country.

Mr. Bodger has not only his long residence, his expert knowledge and his collaboration with Gen. MacArthur to recommend him. He is also noted as a man of great energy and engaging personality. His reputation as a speaker is high and all indica tions are that the five or six hundred students who are able to find room in the Hart House Theatre tomorrow will be an extremely fortunate and enviable group.

Every Wednesday

Due to space limitations in yesterday's Varsity a portion of the news story preceding the International mand of the technique of piano-playing and had no Student Service Total was omitted and we take this difficulty with the powerful chords and vigorous

J. M. Finlay of the Meds Soph-Frosh Executive. We shall continue to publish the lastest total and most recent donations in each Wednesday's issue of the regular publishing schedule and in each of the three supplementary Friday issues which we plan this year. We would like to thank J. M. Finlay and his committee for their constructive suggestion and also commend them for backing it up with a substantial contribution which is entirely outside the special Meds promise of an additional thousand dollars from their faculty.

Our commendations go out to the other organiza-tions and individuals whose names appear on that list. Since this list represents all donations since the beginning of the year we do not expect that next week's will be as long. However, if all those who are contemplating donations do not hesitate it might even be longer, and this would constitute one demand on our space which we would be overioved to supply.

We have not yet reached one-third of the mark optimistically set for us by the National 1.S.S. Committee. The Varsity has said before that it did not think that that mark would be reached. we admit that even now the total we thought pos-sible for this year has been reached and more is expected. The collections will go on for the rest of the academic year. However, The Varsity stops publishing at the end of March, and while we do not mind being found in the wrong (except, of course, in libel actions) there will be no opportunity the last Friday in March to render poetic justice by proving us wrong in our own pages.

There are six weeks only in which to do this and \$4,943 yet to collect. Now if we indulged in

THE TEST

Phase 1

The first phase of a mighty test will begin a week from tomorrow when nominations for the forthcom ing Hart House Elections will open. This will be the opening section of a test which will indicate whether the male students of the University of Toronto are willing, in the midst of the stresses of wartime study, to take their democratic opportunities and make an effort to put an ideal into practice, or whether they intend to ape their elders in that peculiar sign of decadent democracy, and over-acute alertness to the faults of administration combined with apathy in regard to their own efforts to correct

Before a democratic body can be effective it must have able members, and the best way to obtain the most able men is through strong competition amongst them so that the voters will bargain for the best their votes can obtain for them. The healthiest early sign that the Hart House Elections can show up this year is a flood of able and willing candidates. That there are able young men on the campus still is seen in the activity that has been shown this year by team managers, theatrical directors, organizers and student administrators of all sorts whose work has often been reflected in the news stories of The Varsity although they themselves have received little direct credit. Many of these will graduate, but by no means all of them are in their final year now. It has been customary for each generation on the campus to believe that it was the race of giants and that those who come after are bound to be nothing This will be true of the class of '44. It is up to the classes following them to prove that this is not true. Their first major opportunity is now offered them.

We Like It

Conservatory Concert

A program of folk-songs and dances, given by Lubka Kolessa and Lillian Smith, made another charming concert in the Conservatory Chamber Music series yesterday afternoon.

Madame Kolessa began with a group of Chopin: Polonaise in F Sharp Minor, four Mazurkas, and Walts in A flat. She is an artist with a sure com-In publishing this total The Varsity is following the suggestion made in a letter to the Editor by in the Editor by out lapsing into sentimentality. The Polonaise and (Continued)

the Masurka are national dances of

Poland. The first number of her concluding group, Beethoven's Ecossaises, showed Beethoven in a lighter mood. Debussy's Soroboude, on the other hand, was a complex and melancholy composition, having little of the dance about it. The beginning the property of the propert lyrical transcription of the Blue Donube Woltz by Schulz-Evler made a brilliant

Miss Smith illustrated the English, Chinese, Indian, Russian, French-Ca-nadian and American Negro folk-music in her songs. She had an interesting way of expressing the mood of each through her personality as well as through her voice. This was appreciated most in the two chief comedy numbers, the Russian, O Duck on the Meodows,

the Russian, O Duck on the Meodozus, and the American, The Joybird.

The Foot of the Louterns, and Springtime caught the peculiar tonal quality of Chinese music, and To the Hem of thy Gorment I Cling, unaccompanied, was most effective as a representation of Indian art. The English pronu was stibrith warred by a lish group was slightly marred by a lack of perfect clarity of diction and an over-prominence of the "s" sound.

SUNDAY EVENING CONCERT TICKETS

Fifty single tickets which will admit men only to the concert to be held at 9 p.m. in the Great Hall of Hart House on Sunday next 13th February will be issued from the Hall Porter's desk after 12 noon today.

ART CLASS

The art class will meet at 7.30 tonight in the art gallery of Hart House.

the nard-charging Schoolmen by picking pucks out of the air with amazing
dexertly.

S.P.S. had a decided edge in the
scrambly play and both front lines went
well. Mosher with a goal and atthree
assists and Fryer with two gals were
the best of the S.P.S. gallaxy of stars,
Goalie Hall and Walker at centre
were standouts for Knox.

At the one-minute mark in the first
period, Fryer broke the ice for School
on a smart passing combination with
Mosher and Walker. Three minutes
later Mosher Iound the range as Walker
slipped him a pass from upit inside the
blueline. Some seconds later, Stoddard
pierced the twine from Morrison and
O'Sullivan.

Hall, who received very little protection in the Knox net, outguessed Walker from close in . Ballou and Reid drew penalties for roughing.

As the second period opened, O'Sulli-

S.P.S. handily knocked off Knox B yesterday afternoon by the tune of 5-0. Stody for him. Walker broke from the was kept down by the great work of Hall in the nets for Knox. In the second period in particular, he held off the hard-charging Schoolmen by picking pucks out of the air with amazing deverrity.

BOOKS WANTED BADLY ByD. TROOPS 图

Also magazines in good condition. Bring them to Athletic Night Saturday.

By Shackleton and Michasiw

We take time out from conferring with our counsel today to give you a sketchy preview of the next Athletic Night, meaning 7.30 to 12.00 this Saturday evening. Hosts for the night are Trinity, Wycliffe and Dentistry. And just about the most concerted effort in their alliance, will be their appearance as an entente team, facing the Army Course basketball squad at 7.30 in the big gym. This is to be followed by the feature basketball game between the Blues and Assumption College from Windsor.

College from Windsor.

The very extra special feature of this feature is the broadcast of the game from 9.30 to 10.00. For this reason the game must start on time, meaning 8.30. The play-by-play description of the last half, which will be sent forth from Hart House to a national hook-up, is to be given by none other than Canada's ace rugby broadcast specialist, Roy Dilworth. So when you come to the game Saturday don't forget your portable creatal est.

crystal set.

However this is but one of the many attractions framed for you at great expense to the management. The Senior Boxing and Wrestling finals will be committed in the upper gym, while the Blues play basketball downstairs. The directors on hand may even try some spectator participation volleyball, whatever that means.

Down in the pool we shall be privileged, if we are fortunate enough to squeeze into the gallery, to see the Dolphinettes making with the ornamental type of swimming. Alec Duff's S.A. athletes will be on view there between 8.15 and 8.45. Then comes the swimming meet between the Blues and the Army team from Camp Borden. At 9.30 the C.O.T.C. will be mustered to take on a U.N.T.D. water polo team. Ah, we shall soon discover who's capable of saving the country, Finally at 10.00, Max Hurley, now wearing Navy Blue, will display his clown diving and swimming abilities.

REMINISCENCE . . .

REMINISCENCE . . .

We still can't get over that badminton we saw last Saturday night. Come to think, it's not every day that we get a chance to glim such artistry as was displayed by the birdsome foursome at that time. Jack Purcell, especially, caught the eye with his blistering drives and confident returns. After noting this gladiator of the courts, it is quite easy to understand why he is the holder of more titles than we could possibly recount here.

But it was not Purcell alone who stuck in the limelight. Along with the world champion were three other shining lights,, namely, Tin Gray, Gordon Cook and F. Percival. All four left that certain ling ering within us. Oh, but to be gifted with such skill.

During a bit of day-dreaming, we reflected that these bird-men were the feature attraction at the gala affair. Not taking any credit away from the basketeers, the splash artists and the men in the fight game we ventured forth with that inspiring thought. After all, a world' champ, a Canadian champ and two pros are nothing to be sueezed at And so in closing, may we say "thank you" to the energetic individuals responsible for the appearance of this quartet, and to the participants "Thank you and welcome back."

AND NOW MORE NAUSEAM . . .

AND NOW MORE NAUSEAM . .

Ere the battle, it is customary for each of the sides to state the respective prophesy. Our counsel informs us that this is not the ca in a law proceedure and also that anything we may say will be use against us. But it is with a confident smile that we wait the openin whistle, pardon, the opening of our fight for freedom this evenin Don't say we didn't warn you.

The Sportswoman

By Janice M. Murray

THERE'S NO EXCUSE ...

THERE'S NO EXCUSE...

... for the sort of refereeing displayed yesterday in the Vic II-S Hilda's II hockey game, or at least so we think. Believe it or new take our hockey seriously and it is our opinion that people shoul recognize this to the extent of seeing that the referee is a little bette than incompetent. In the game in question—Vic maintains that goal knocked in after a scramble around their goal should not be allowed—while St. Hilda's is knocked out of its usual calm becaus the referee called off-sides when no such things had taken place. In both cases, the disputed goal and the off-sides that in a fair shar of probability would have resulted in a goal or so, as they were both rushes to an undefended Vic goal, the ref stuck to his guns This, however, was all that he did correctly. Off-sides were his big difficulty, and had be not had the audience and the Saint's manager to tell him what they were and when they came, he would have been sunk. And we do mean SUNK.

So, to relieve friction, huddles in the middle of the game and the urge to kill at the end of said game, we would like to hint gently that WE WANT DECENT REFEREES.

In this hockey game Vic and Trinity tied I-1. In the field o volleyball P.H.E. II trounced Trinity II 49-31, with Helen Johnson the star of St. Hilda's. Trinity I balanced this defeat when they took Vic I 32-28. All in all, it was a ragged game with Nancy Dickson and Julie Murray earning Trinity laurels. Joan Chalk and Chri Mitchel were Vic's best players.

AND BETSY MAINTAINS...
.. that the girls in Honor Law take no interest in sports, to which view we contribute the following bit of information. On our St. Hilda's Junior basketball team here was a player called Joan Norris and honest to goodness, believe it or not, she is in Honor Law. We are planning to amass more statistics about Law girls in sport for a future date—maybe yet Betsy may apologize.

MAKE NO MISTAKE, THOUGH...
...although we insist on justice being done we are still behind The
Varsity in the trial coming up on Thursday p.m.—after all our honor
is at stake.

LATE NEWS ..

P.H.E. walked over U.C. in a volleyball tilt 52-22. The score speaks for itself!

WHIP INTO TH' DIP...

Joan Campbell, who is writing tomorrow's column on swimming, tells us that the preliminary meets start today with U.C. at the U.T.S. pool at 7:30. On Monday Vie will take her fling. Wednesday brings P.H.E. to the fore, while next Thursday heralds the arrival of Dental Nurses and S.P.S.

hither and yon

with betsey mosbaugh

wanders into The Varsity office ath-letically inclined at 90 degrees.
"Whatsa matter?" asks the assistant

feature editor.
"Oh," sez she, "I'm a little stiff from riding."
"I don't care where you're from,"
snaps the A.F.E. "But have ya got us

Only th' beginnin,' only th' beginnin'.

But such characteristic wit doesn't remain with the individual Varsity staffer, it even spreads to Varsity parties to such an extent that these gala parties to such an extent that these gala affairs are turned into quite happy old gatherings. We don't know whether it was the contagious hilarity or something else, but one danusel was having a whee of a time all through the evening. Toward the end of the frivolity, however, a puzzled expression began to creep across her radiant features. Then, unable to bear the strain any longer. unable to bear the strain any longer,

"I think we'd better get back to residence now. Our don gave me an overnight leave but I forget where I

vernight leave out ...
as going to stay."
Contagious, isn't it???

And if you think that damsel was an exceptions to average residence-gal-type...maybe you're right, Judge ac-cordingly from this one. Scene: a type...maybe you're right, Judge accordingly from this one Scene: a smoke-wreathed lair on the second floor of Whitney Hall; time: twelve or one at night; action: an intense 20th of a cent game of bridge. Enter a third year sociology student, disheveled, worried and weary, carrying a large book. "Oh, there you are," she beams at the dummy. "I just wanted to ask you did you have any trouble with your labor problems last year?"

Hmmm, economics???

A very instructive course is this war-work in civic day nurseries. Out at one of the nurseries in the city a two-yearof the fundament of the first did."

Who knows, maybe he'll be Prime most angelic looking youngsters we'd Minister yet?

Even Varsity mastheaders have their scen...somewhat shy and retiring, but definitely a cute lad. One of the older babe had been chasing merrily over the country on horseback for quite some few hours at a stretch. And having tired of her Paul Revere-ish time she wanders into The Varsity office athletically inclined at 90 degrees.

the two just in time to hear the younger tot murmur with the most cherubic countenance:

You dirty of ?????, etc....
Dr. Blatz, call nursery. Dr. Blatz, call nursery. Dr. Blatz...

Coming up to the night entrance the other night we espied two ormos helping their dates out of a taxi. They paid off the cab, escorted their lassies to the door and bid them a fond goodnight just in time to pass us as we also were going up to the door.

"Say," we heard one potential Barry-more tell his comrade, "that girl was so pretty that I could hardly keep my eyes on the meter.'

Ditties are the darndest things. Now take fer instance a thing like "Merzie Dotes"...this gay little tune is apparently becoming so popular that a babe on the Evening Telegram decides that she will write a feature on it. So she phones up one of our more venerable French profs in ye olde Hall of Learning and asks him the origin of said

"Whazzit," he queries in a puzzled

"Whazzit," he queries in a puzzied tone when she pops the question.

Then when she repeats word for word, he says apologetically, "Oh, you're speaking in English, are you? I'm so sorry, I was listening IN LATIN."

Guess these tanguage profs are pretty smart. Another member of the French department spent a happy hour with his fourth year group tearing apart a book review. By the time he'd finished and the class was dismissed, the students were wondering just who had had the nerve to publish such a review. the nerve to publish such a review, Finally one gal is brave enough to ask, "Please sir, who wrote THAT?"

"Eh," sez the prof very blandly, "I

COMING EVENTS

ART, MUSIC & DRAMA (Continued from page 2)

average oriental drama is quite secondary. When the percussion man sets up a syncopated and attenuated beat on his music stand, it is the signal for the cast to break into rhymed metre. Each cast to break into rhymed metre. Each line-ending is delivered with marked emphasis, or in plain man's language— a grunt. This makes for variation in the flow of language.

All the while Hon. Property Man, like some grey ghost, drifts in and out of the scene drawing a chair for this

All the while Hon. Property Man, like some grey ghost, drifts in and out of the scene, drawing a chair for this character, removing an obstructing garment from the other, and generally making himself useful and unobtrusive. When the great armoured warriors come on for the "battle scene," P.M. may have to rush from one to the other, supporting each in turn, because the account removes the account of the control of the contr the accountrements are very heavy and tiresome to the wearer. Luckily they do not have to do actual battle before do not have to do actual battle belove the audience. After making a few token passes at each other with the aforementioned pasteboard swords, they retire with bravado through the embroidered curtains at either side.

Actual battle is done by their seconds!
At this point half-a-dozen bronzed and gleaming tumblers come cart-wheeling onstage, razor-edged sabres grasped in sinewy hands. Leaping and diving, crashing their weapons in mock battle, they give the impression of five times

SATURDAY FER 12

SATURDAY, FEB. 12 8.00 p.m.—The Vic Music Club is having its Annual Party this year, a slelghing party at Willowdale. Meet at the north end of the Yonge car line at 8.00 p.m. There'll be a singsong (guess what we'll singl), dancing and refreshments after. Mem-ber and frlend free. Everyone else \$1.00. Come single or double—but

their number in furious combat. Mar-vellous feats of co-ordination and splittiming were to be seen in the sever breathless minutes of their performance. After their curvetting exits, the stage seemed strangely quiet.

seemed strangely quiet.

Pervasive Props now made his appearance, with a basket of realistic papier maché skulls and scattered them about the stage, all the while maintaining a mournful visage. The significance of this pretty bit of symbolism we leave you to guess for yourselves.

It transpired that Prince Liu had reviewed the little feers and externed the

survived this little foray, and returned to the arms of his lady, who meanwhile had been on excursions of her own, of

the towel merchant to keep his distance. Enough, as they say, is enough.

let's go places

The Iron Major is running at the Midtown this week. Through no too critical fault of our own we come to the conclusion that it is one of the worst pictures wet to come our of a

the conclusion that it is one of the worst pictures yet to come out of a film can. You have to THE IRON be older than a universality student to appreciate this type of picture. You have to be Irish because Pat O'Brien is Irish and Cavanough—the from major of the last war and football coach par excellence—ways Irish cellence-was 1rish.

You also have to be the type of personality that likes to sit around and reminisce about the old College Try and All members of Transport and reminisce about the old College Try and sing old songs. If you aren't any of the above you certainly won't like will report to the Transport Officer in The Iron Major. We'll even go so far as to say that Hollywood was ashamed Bloor St. E. to arrange for any neces. to send this picture out to the film ex-changes, it's so technically poor and dramatically awful.

dramatically awith.

Running the risk of being accused of cantankerous nastiness we conclude by saying that the Million Dollar Kid on the same bill is of the identical calibre.

But if you're nuts about football, go ee The Iron Major. At least there's lots of that in the picture.

What's On Today

There are still a few tickets available There are still a rew tickets available for the next Sunday Evening Concert. These will be distributed today in the U.C. Junior Common Room from 1:00 until 1:30 p.m. This time there will definitely be someone giving out the tickets while they last.
